Selected Acquisition Reports
as of September 30, 1983

Selected Acquisition Reports (SARs) summarize the latest estimates of cost, schedule, and technical status on major defense acquisition programs. The reports are prepared for each individual program in accordance with the provisions of section 139a, title 10, United States Code. These programs are prepared annually in conjunction with the President's budget for each covered program. After each subsequent calendar quarter, reports are submitted only for those programs experiencing changes in cost, schedule, or performance.

The total program cost estimates provided in SARs include research and development, procurement, and military construction. Total program costs reflect actual costs on delivered items as well as anticipated costs for future procurement, which in some instances, extend into the 1990's. All estimates include allowances for anticipated inflation.

The total current estimate for the 64 major acquisition programs covered by SAR reporting for the June 30, 1983 quarter was $606,613.1 million. Since the June quarter, 15 programs experienced changes including cost increases or decreases amounting to a total net increase of $264.2 million. The $264.2 million (0.04%) increase includes an increase of $197.3 million (0.2%) for the Army, a decrease of $84.7 million (0.2%) for the Navy, and an increase of $151.6 million (0.7%) for the Air Force. The overall cost of the 64 SAR programs is $606,877.3 million. The cost changes between June 30, 1983 and the September 30, 1983 reports are summarized below:

	Current Estimate ($ in millions)
June 1983 (64 SAR programs)	606,613.1
September 1983 (64 SAR programs)	606,877.3
Net Changes	+ 264.2
Reasons for Changes:	
Quantity Changes	+ 42.3
Schedule Changes	+ 3.3
Engineering Changes	+ 119.9
Estimating Changes	+ 1.3
Support Changes	+ 97.4
Total	+ 264.2

The increase in the current estimate for September 30, 1983 is primarily attributed to the addition of a Reprogrammable Micro-Processor (RMP) to the Army STINGER program ($157.3 million) and a change in the procurement strategy for the Air Force Initial Upper Stage (IUS) program to annual buys in lieu of multiyear procurement ($164.0 million).

The significiant cost changes and program highlights reported in the SARs this quarter are listed below:

1. STINGER - The program acquisition cost increased by $157.3 million from $3,807.8 million to $3,965.1 million due primarily to the addition of a Reprogrammable Micro-Processor (RMP).

2. FFG-7 - The program acquisition cost decreased by $126.9 million from $9,800.5 million to $9,673.6 million due primarily to an increase in the procurement of additional equipment as class battle spares offset by revised estimated for Government Furnished Equipment (GFE), basic construction contracts, and reduced escalation requirements caused by earlier planned deliveries at Bath Iron Works and Todd.

3. IUS - The program acquisition cost increased by $164.0 million, from $2,012.3 million to $2,176.3 million due to a change in the procurement strategy to annual buys in lieu of multiyear procurement.
