Selected Acquisition Reports
as of March 31, 1984

Selected Acquisition Reports (SARs) summarize the latest estimates of cost, schedule, and technical status on major defense acquisition programs. The reports are prepared for each individual program in accordance with the provisions of section 139a, title 10, United States Code. These programs are prepared annually in conjunction with the President's budget for each covered program. After each subsequent calendar quarter, reports are submitted only for those programs experiencing changes in cost, schedule, or performance.

The total program cost estimates provided in SARs include research and development, procurement, and military construction. Total program costs reflect actual costs on delivered items as well as anticipated costs for future procurement, which in some instances, extend into the 1990s. All estimates include allowances for anticipated inflation.

The total current estimate for the 86 major acquisition programs covered by SAR reporting for the December 31, 1983 quarter was $749,659.2 million. Since the December quarter, one new SAR was initiated (Inter-Service/Agency Automated Message Processing Exchange (I-S/A AMPE)), two have been terminated (Light Armored Vehicle, AIM-9M) and 14 programs have experienced changes including cost increases or decreases amounting to a total net decrease of $136.1 million. The cost changes between December 31, 1983, and the March 31, 1984, reports are summarized below:

	Current Estimate ($ Millions)
December 1983 (87 SAR Programs)	$749,659.2
Less Terminated SARs (LAV, AIM-9M)	1,947.0
Plus New March 1983 SAR (I-S/A AMPE)	1,009.4
Adjusted 86 SAR Programs	748,721.6
March 1984 (86 SAR Programs)	748,585.5
Net Changes:	-136.1
Reasons for Changes:	
Engineering Changes	-61.1
Estimating Changes	+27.5
Support Changes	-102.5
Total	-136.1

The decrease in the current estimate for March 31, 1984 is primarily attributed to savings resulting from favorable contract awards in the SSN-688 program for FY 1984 ($-46.4 million) and prior year favorable contract adjustments on a number of programs.

a/ Escalation associated with program changes estimated from the base year of the program involved. The escalation related to each program and the cost of the program change in base year dollars make up the cost of the program change in then year dollars (the actual or current cost of the change).

Department of Defense
OASD (Comptroller)
March 19, 1984

DISTRIBUTION OF COST CHANGES BETWEEN DEVELOPMENT ESTIMATES AND CURRENT ESTIMATE
BY CATEGORY OF CHANGE
AS OF MAR 31, 84
($ In Millions)
