Selected Acquisition Reports

as of June 30, 1985

UNCLASSIFIED

The Secretary of Defense released the details of cost changes since last March on 93 major systems based on Selected Acquisition Reports (SARs) submitted to the Congress in accordance with title 10, United States Code. SARs summarize the latest estimates of cost, schedule, and technical status on major defense acquisition programs. These programs are prepared annually in conjunction with the President's budget for each covered program. After each subsequent calendar quarter, reports are submitted only for those programs experiencing changes in cost of at least five percent or a three month change in any SAR schedule milestone.

The total program cost estimates provided in SARs include research and development, procurement, and military construction. Total program costs reflect actual costs on delivered items as well as anticipated costs for future procurement, which in some instances, extend into the 1990s. All estimates include allowances for anticipated inflation.

The total current estimate for the 93 major acquisition programs covered by SARs for the March 31, 1985 quarter was $782.4 billion. Since the March quarter eight programs have experienced changes including cost increases or decreases amounting to a total net decrease of $608.5 million. The current estimate of program acquisition cost as of June 30, 1985 for the 93 major acquisition programs is $781.8 billion. The cost changes between March 31 and June 30 are summarized below:

	Current Estimate ($ in millions)
March 1985 (93 SAR programs)*	$ 782,401.6
June 1985 (93 SAR programs)*	$ 781,793.1
Net Changes	$ -608.5
Reasons for Change:	
Quantity	$ -0.8
Schedule	-14.6
Engineering	-17.1
Estimating	-372.8
Support	-203.2
Total	$ -608.5

* These totals exclude the ASAS cost estimate which is classified.

UNCLASSIFIED

The overall decrease in the current estimate for June 30, 1985 is primarily attributed to a reestimate of the program cost for the Air Force's I-S/A AMPE program ($-171.8 million) and an estimating reduction of $450.0 million on the Navy's CVN-72/73 Carrier. The CVN-72/73 funds were reprogramed to the PEACEKEEPER program and are part of the total funds reprogramed to the FY 1985 PEACEKEEPER procurement program.
