UNIQUE IDENTIFICATION (UID)

UID Registry
Data Submission
March 2005

UID Registry

- Purpose:
  - Collect UID and pedigree information of tangible items owned by DoD
  - Distribute UID and pedigree information to DoD users
  - Provide single point of reference for DoD tangible items that have assigned Unique Item Identifier
- Operational Environment:
  - UID Registry – database located in Battlecreek, MI
  - Operated by Defense Logistics Information Service
  - Resides on Business Process Network backbone

UID Registry Status

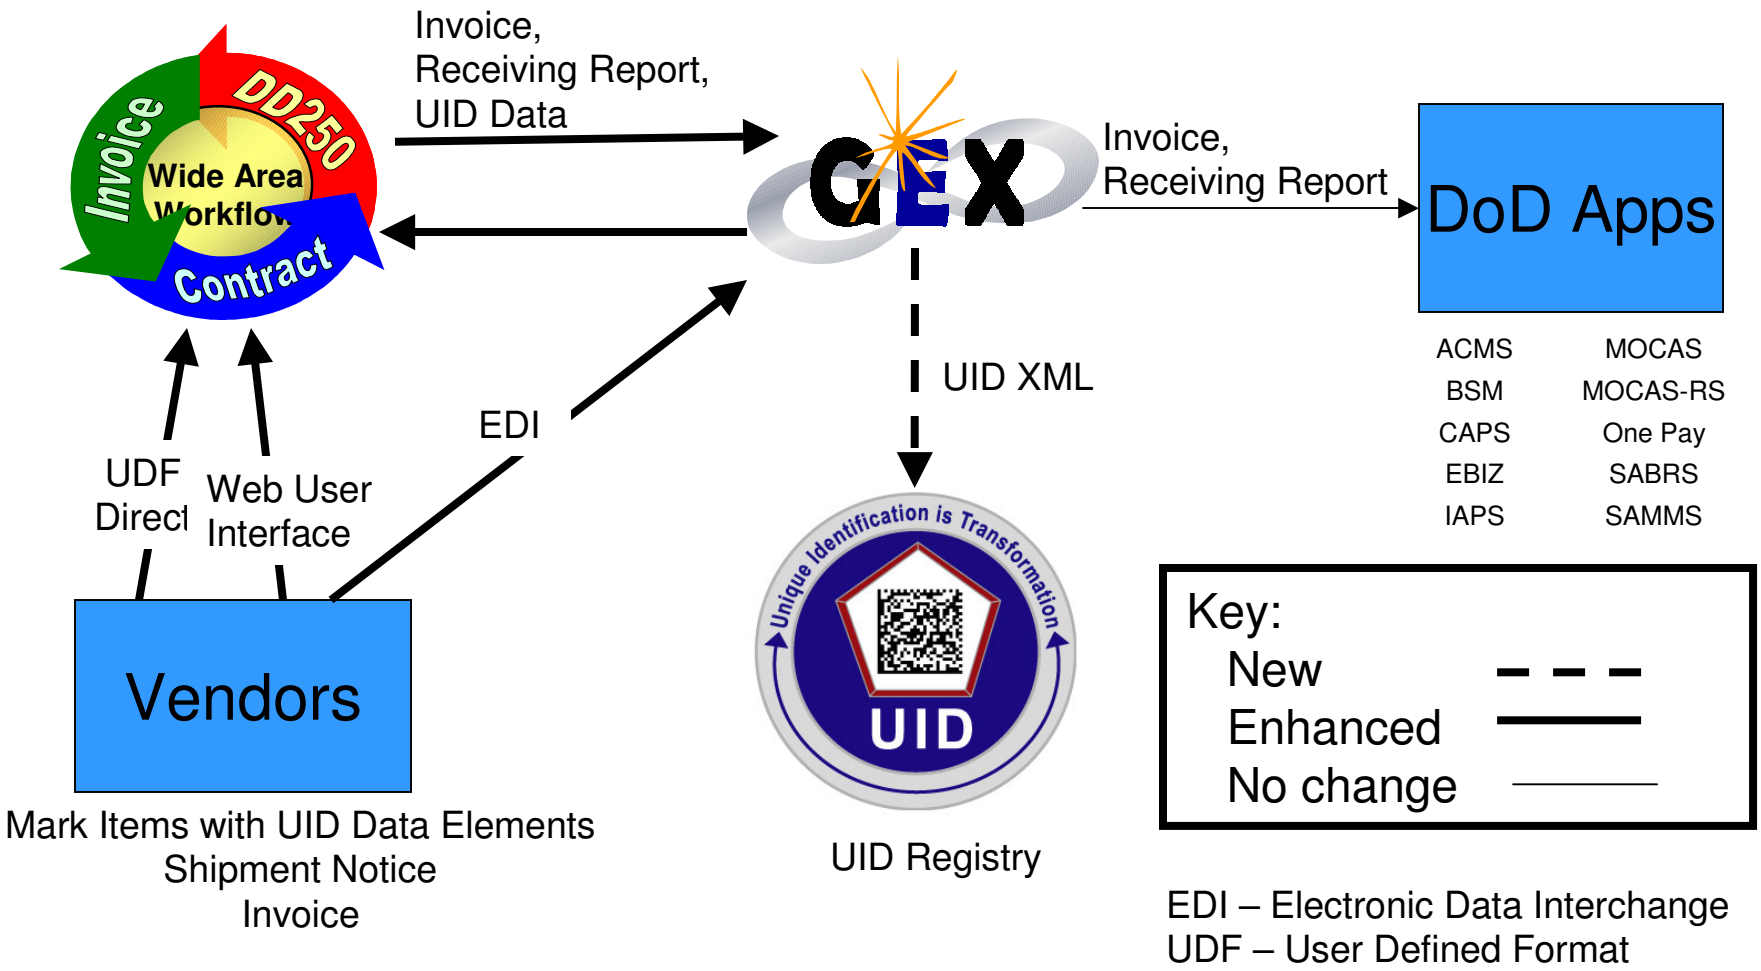
- Implementation Timeline:
  - Concept definition – Oct 03
  - Development and Test – Nov 03 – May 04
  - Initial Operational Capability - May 04
- Current Functionality:
  - UID and Pedigree data capture for new <u>End Items</u>
  - Source data from vendors
    - WAWF Shipment Notification
    - Direct electronic submission
    - Web-enabled manual submission
  - Current population
    - Over 6000 UIDd Items

UID "Pedigree" Data – Phase 1

End Item Data (15)

- UID (Concatenated)
- Descriptive Data
  - UID Type
  - Issuing Agency Code
  - Enterprise Identifier
  - Part Number
  - Serial Number
  - Item Description
  - Unit of measure
- Acquisition Data
  - Contractor DUNS
  - Contract Number
  - CLIN/SLIN/ELIN
  - Price
  - Acceptance Location Code (identifies acceptor)
  - Acceptance Date
  - Ship to code

UID Data Capture via WAWF



EDI – Electronic Data Interchange
UDF – User Defined Format

WAWF - Acceptance By UID

Upcoming Capabilities

- Future enhancements 1Q CY 05
  - Ability to update Item data
    - Current Part Number
  - Capability to capture embedded items (e.g., subassembly)
  - Capability to identify Government Furnished Property
    - Contract, Contractor, type of property
  - Capability to identify Legacy Items
  - Capability to capture original Manufacturer and Marking entity
  - Capability to capture type of mark
    - Virtual
    - Other unique marks
- Initial roll out of new functionality via xml data structure

Unique Identification of Tangible Items
Data Submission Information

1. Who is responsible for submitting UID data?
2. What data is required?
3. When is data required?
4. How do I submit UID data via WAWF?
5. How do I submit UID data in the interim?
6. Can I have the UID portion of a selected file format validated before using it in the production environment?
7. For the direct submission methods, will there be any status files returned that would need to be processed?
8. Who can I contact for more information?

1. Who is responsible for submitting UID data?

After January 1, 2004, requests for proposals (RFPs) will include DFARS clause 252.211-7003, Item Identification and Valuation, and a reference to the most current version of MIL-STD-130. Contracting officers shall include the DFARS clause in all solicitations and contracts that require delivery of items that meet UID criteria. Program managers will identify any other items requiring unique identification. The prime contractor has the responsibility to furnish Unique Item Identifiers (UIIs) or other DoD recognized unique identification equivalents, and to provide the Government's unit acquisition cost of items that are delivered to the Department under a DoD contract. UID data should be submitted with the shipment notification. Back to Top.

2. What data is required?

Data requirements for UID data are based on the DFARS Interim Rule on "Unique Item Identification and Valuation" which was published in the Federal Register on October 10, 2003 (DFARS Case 2003-D081) or subsequent revisions.

In order to capture UID Item Pedigree, the following core UID data elements are required:

- UID Type
- UID

Based on the UID type, one or more of the following elements may be required:

- Issuing Agency Code
- Enterprise Identification Number
- Original Part Number (not required if using UID construct # 1)
- Serial Number

In addition to these elements, the following acquisition data elements are required:

- Contractor CAGE or DUNS number
- Contract Number
- CLIN/SLIN/ELIN
- Item Description
- Foreign Currency
- Unit of Measure
- Acquisition Cost

Internet
