MEMORANDUM FOR ASSISTANT SECRETARY OF THE ARMY (INSTALLATIONS,
ENERGY AND ENVIRONMENT)
ASSISTANT SECRETARY OF THE NAVY (ENERGY,
INSTALLATIONS AND ENVIRONMENT)
ASSISTANT SECRETARY OF THE AIR FORCE
(INSTALLATIONS, ENVIRONMENT AND ENERGY)

SUBJECT: Department of Defense Guidance for Executive Order 13693, "Planning for Federal Sustainability in the Next Decade"

Attached is the Department of Defense (DoD) guidance for Executive Order (EO) 13693, "Planning for Federal Sustainability in the Next Decade."

During the development of the EO 13693 and the Council on Environmental Quality (CEQ) Implementing Instructions, my office determined the need to provide Department-wide guidance in order to support specific DoD policy and positions that were not reflected in the CEQ Implementing Instructions, or where the CEQ Implementing Instructions were ambiguous or confusing. My office has worked with the Sustainability and Energy action officers and the subject matter leads on your respective staffs to develop the DoD Guidance for EO 13693. The intent of this document is to further promulgate the CEQ Implementing Instructions and clarify issues that are specific to DoD. The CEQ is continuing to develop additional Federal guidance for specific sustainability requirements, so I anticipate updates to the Department's Guidance will be required.

My points of contact for this guidance are Ms. Carolyn Liebeck, at 571-372-6830 or Carolyn.t.liebeck.civ@mail.mil and Mr. David Asiello, at 571-372-6793 or david.j.asiello.civ@mail.mil.

Peter J. Potochney

Deputy Assistant Secretary of Defense (Basing)
