SELECTED ACQUISITION REPORTS - HIGHLIGHTS

(As of June 30, 1990)

The Secretary of Defense has released details of cost and schedule changes since the December 1989 reporting period on 102 major systems based on the Selected Acquisition Reports (SARs) submitted to the Congress for the June 30, 1990 reporting period. Included was information on 99 programs that have been reported previously and 3 additional reports being submitted for the first time.

SARs summarize the latest estimates of cost, schedule, and technical status on major defense systems. These reports are prepared annually (as of December 31) in conjunction with the President's budget for each funded program. After each subsequent calendar year quarter, reports are required only for those programs experiencing unit cost increases of at least 15 percent or schedule delays of at least six months.

The total program cost estimates provided in the SARs include research and development, procurement, and military construction. Total program costs reflect actual costs on delivered items as well as anticipated costs for future procurement, which in some instances, extend beyond the year 2000. All estimates include allowances for anticipated inflation.

The cost for one of the 99 previously reporting programs, ASAS, is classified. The adjusted current estimate of program acquisition costs for the remaining 98 major systems covered by SARs for the December 1989 reporting period was $844,855.9 million. There were no cost changes between the December 1989 and June 1990 reporting periods.

	Current Estimate ($ in Millions)
December 1989 (98 programs*)	**$ 843,848.2**
Plus four new programs: LONGBOW (Airborne Adverse Weather Weapon System), ACM (Advanced Cruise Missile), CMU (Cheyenne Mountain Upgrade), and E-3A RSIP (Radar System Improvement Program)	+9,811.9
Less terminated reports on five programs: P-3C, SEA LANCE, SPARROW, V-22, and TRI-TAC	-8,804.2
December 1989 Adjusted (97 programs*)	**$ 844,855.9**
Cost Changes Since December 1989	0.0
June 1990 (97 programs*)	**$ 844,855.9**

**Classified costs for the Army's ASAS program are excluded. FAAD C²I, FAADS LOS-F-H, FAADS LOS-R, and FAADS NLOS are now counted as four separate programs rather than as one.*

New SARs

(As of June 30, 1990)

The Department of Defense has prepared three additional reports for the first time. These reports do not represent cost growth. Baselines established on these programs will be the point from which future changes will be measured. The current cost estimates are provided below:

Programs	Current Estimate ($ in Millions)
ASM (Armored Systems Modernization)*	$ 6,191.1
Joint Ground Launch Tacit Rainbow	4,732.4
ROTHR (Relocatable Over-The-Horizon Radar)	1,877.5
Total	$ 12,801.1

**Pre-Milestone II program reporting the RDT&E cost only, in accordance with the provisions of Title 10, USC, Section 2432.*
