## **SELECTED ACQUISITION REPORTS (SARs) - HIGHLIGHTS**

### **(As of June 30, 1996)**

The Department of Defense has released details on major defense acquisition program cost and schedule changes since the March 1996 reporting period. This information is based on the Selected Acquisition Reports (SARs) submitted to the Congress for the June 30, 1996 reporting period.

SARs summarize the latest estimates of cost, schedule, and technical status. These reports are prepared annually in conjunction with the President's budget. Subsequent quarterly exception reports are required only for those programs experiencing unit cost increases of at least 15 percent or schedule delays of at least six months. Quarterly SARs are also submitted for initial reports, final reports, and for programs that are rebaselined at major milestone decisions.

The total program cost estimates provided in the SARs include research and development, procurement, military construction, and acquisition-related operation & maintenance. Total program costs reflect actual costs to date as well as anticipated costs for future efforts. All estimates include allowances for anticipated inflation.

The current estimate of program acquisition costs for programs covered by SARs for the prior reporting period (March 1996) was \$701,808.1 million. There was a net decrease of \$37.0 million during the current reporting period (June 1996). The cost changes between March and June 1996 are summarized below:

	<u>Current Estimate</u> <u>(\$ in Millions)</u>
<b>March 1996 (70 programs*)</b>	<b>\$ 701,808.1</b>
<b>Changes Since Last Report:</b>	
Economic	\$ +1.2
Quantity	0.0
Schedule	0.0
Engineering	0.0
Estimating	-36.0
Other	0.0
Support	<u>-2.2</u>
Net Cost Change	\$ -37.0
<b>June 1996 (70 programs*)</b>	<b>\$ 707,771.1</b>

\*Excludes classified costs for the Air Force's MILSTAR program.

As of the June 1996 reporting period, there were three quarterly SARs submitted on programs that have reported previously:

**Navy:**

T-45TS -- The SAR was submitted to report a schedule slip of 2-1/2 years (from October 1997 to April 2000) in the projected completion of contractor logistics support. This schedule slip resulted from the delay of Meridian Naval Air Station to incorporate a fully operational digitized Cockpit 21 configuration (Cockpit 21 was delayed due to technical problems). Completion is now planned for FY 2000 at both the Meridian and Kingsville sites. There are no known cost impacts to the T-45TS program as a result of this schedule delay.

**Air Force:**

AMRAAM (Advanced Medium Range Air-to-Air Missile) -- The SAR was submitted to report a schedule slip of 17 months (from February 1998 to July 1999) in the projected activation of the joint service depot. The delay was caused by Hughes Missile Systems Company not meeting the planned delivery schedule. There is no supportability impact due to interim contractor support and warranty coverage for AMRAAM repair. Costs decreased \$25.5 million (-0.2%) from \$11,388.0 million to \$11,362.5 million, due primarily to service-wide omnibus, rescission, and other defense reprogrammings.

**DoD:**

CHEM DEMIL (Chemical Demilitarization) -- The SAR was submitted to report delays in the Chemical Stockpile Program. The start of operations at Tooele, Utah, slipped from May 1996 to August 1996 due to a lawsuit by Greenlaw. The Systems Contract Award/Start of Construction was also delayed at Pine Bluff, Arkansas (from September 1996 to November 1996), at Umatilla, Oregon (from September 1996 to January 1997), and at Pueblo, Colorado (from April 1997 to May 1998), due environmental permitting issues. Program costs decreased \$11.5 million (-0.1%) from \$13,612.6 million to \$13,601.1 million, due primarily to a reduction in program requirements.

**New SAR  
(As of June 30, 1996)**

The Department of Defense has submitted an initial SAR for MINUTEMAN III Propulsion Replacement Program (PRP) in accordance with Section 2432, Title 10, United States Code. This report does not represent cost growth. The baseline established for this program will be the point from which future changes will be measured. The current estimate of cost and quantity is provided below:

<u>Program</u>	<u>Quantity</u>	<u>Total Estimated Cost (\$ in Millions)</u>
MINUTEMAN III PRP	607 missiles	\$ 2,819.3
