

EA-18G Program Acquisition Decision Information Paper

- On December 18, 2003, the Acting Under Secretary of Defense (Acquisition, Technology, and Logistics) approved the EA-18G program's entry into System Development and Demonstration. He determined that the total quantity of articles to be procured in Low-Rate Initial Production shall be 30 EA-18G systems. He also approved the Acquisition Program Baseline for the EA-18G program, having previously approved the Acquisition Strategy.
- He directed the Navy to fund the development of the EA-18G system to the Office of the Secretary of Defense Cost Analysis Improvement Group's estimate.
