

## **Space Based Infrared System (SBIRS) - High Information Paper**

- On December 12 2003, the Acting Under Secretary of Defense (Acquisition, Technology, and Logistics) convened the Defense Acquisition Board (DAB) to review the status of the SBIRS-High program. The review focused on program schedule, space and ground segments, sot performance and contract management.
- He directed the Air Force to provide an update to the DAB on program progress on April 6, 2004.
