

Presidential Helicopter Replacement (VXX) Program Acquisition Decision
Information Paper

- The Defense Acquisition Board (DAB) met on January 13, 2005 to review of the Presidential Helicopter Replacement (VXX) Program.
- As a result of the DAB review, the USD(AT&L) approved:
 - Designation of the VXX program as an ACAT 1D Major Defense Acquisition Program (MDAP);
 - Milestone (MS) B entry into System Development and Demonstration (SDD)—authorizing the Navy to develop Increment 1 and 2 configurations concurrently and purchase three off-the-shelf aircraft assets for early flight familiarization and testing;
 - Exit Criteria for moving from SDD to Increment 2 Low Rate Initial Production (LRIP);
 - MS C for Increment 1—authorizing LRIP for 5 pilot production aircraft in the Increment 1 configuration; and
 - An LRIP quantity of 10 aircraft for Increment 2.
