MEMORANDUM FOR CONFERENCE ATTENDEES

SUBJECT: Defense Acquisition Management Information Retrieval (DAMIR) Training Conference, October 30 & 31, 2007

I am pleased to welcome you to the DAMIR Training Conference, hosted by the DAMIR Program Management Office. With the release of version 3.0, we take another giant step towards creating a net-centric environment that maximizes data transparency to support the acquisition program management oversight requirements across the DoD.

The conference offers an excellent array of topics, speakers, and training sessions for continued honing of your skills as a user, reviewer, or releaser. I encourage you to participate, ask the difficult questions, and share issues and challenges facing your organizations as we continue transitioning from CARS to DAMIR.

I truly hope you enjoy the conference and take this opportunity to make new friends, as well as renew past acquaintances. At the conclusion of the conference, please make use of DAU's on-line conference feedback survey tool. Your comments and suggestions are very valuable to us and will allow us to better plan and tailor future conferences to needs, concerns, and interests.

Thank you for taking your valuable time to participate in the conference. I certainly look forward to sharing this experience with you.

Nancy L. Spruill
Director
Acquisition Resources and Analysis
