

Dennis L. Wright

Vice President, Middle East Region

Biographical Information:

Dennis joined KBR as Business Acquisition Director in Houston, Texas October 1998 and captured over \$700 million in new work. In January 2001, he was appointed to lead all KBR Government Operations strategic planning and \$1.7 billion marketing activities. Located in Arlington, Virginia, Dennis was responsible for development of all government market strategies, planning and communications, including market analysis, branding and positioning, advertising and public relations, and development and all web based activities. More recently, in February 2003, he was selected to lead the KBR initiative and strategy to establish a Middle East Regional Office in Kuwait supporting over \$6 billion in annual revenue in both war and post war effort in the reconstruction of Iraq. Dennis now resides in Kuwait and is responsible for all Strategy and Marketing for KBR Government Operations regional activities. He brings to KBR over 30 years engineering, installation management, operations, logistics, contract management and business development experience in both the public and private sectors.

He previously directed all Department of Defense International contract management operations where he was responsible for administration of 11,000 contracts valued at \$30 billion. He is a former Joint Service qualified and career naval officer serving on four ships and numerous shore assignments. He is both Surface and Submarine qualified and retired with the rank of Captain. He is DAWIA Level III certified in Acquisition, a Certified Professional Contracts Manager, an NCMA Fellow and holds a BSME from the University of Nebraska and MS in Management from NPGS Monterey, California.

Company Profile:

KBR is an international, technology-based engineering and construction company located in Houston, Texas employing over 55,000 personnel around the globe. For more than 80 years, KBR has been one of the world's top engineering and construction firms, providing a full spectrum of industry leading integrated services for governments and public infrastructure and to the hydrocarbon, chemical, energy and forest products industries.
