This manual implements AFD 65-6, *Budget*. AFMAN 65-604 provides guidance on using current (FY 2013 Appropriations Acts) symbols and budget codes and their descriptions. It serves as a source reference for personnel, both within and outside the financial management community, who are responsible for executing the Air Force Budget, including the Air Force Reserve and Air National Guard. The current listing of Financial Management codes (including future and historical) which are continually updated and maintained are found in the Air Force Financial Management Data Dictionary (FMDD), accessible via the FM Data Quality Service at <https://dqs.afbudsys.disa.mil/DataDictionary/ElementChoice>. Also see Attachment 1 for a glossary of references, abbreviations, acronyms, and terms.

Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with AFMAN 33-363, *Management of Records*, and disposed of in accordance with the Air Force Records Disposition Schedule (RDS) located at <https://www.my.af.mil/afirms/afirms/afirms/rims.cfm>. *Addresses:* SAF/FMBM, 1130 Air Force Pentagon, Washington DC 20330-1130

SUMMARY OF CHANGES

This Fiscal Year 2013 edition continues as AFMAN 65-604. This document has been substantially revised and must be completely reviewed. As an annual publication, it updates all special working symbols the Air Force uses within the Department of Defense (DoD) for each fiscal year. It includes changes to existing codes, new projects within appropriations, and new appropriations. Refer recommended changes and questions to the Office of Primary

Responsibility (OPR) using the AF IMT 847, *Recommendation for Change of Publication*; route AF IMT 847s from the field through the appropriate chain of command.

SPECIAL INSTRUCTIONS

1.1. How To Use This Manual:

1.1.1. Don't reprint or stock annual codes beyond the year in which they are current. However, if you belong to a comptroller activity, you may refer to previous codes as long as you need to. For pre-FY99 appropriation act symbols and codes, see previous editions of AFMAN 65-604, AFI 65-601V4, and AFR 172-1V IV.

1.1.2. Time Limits for Appropriations:

1.1.2.1. A **single-year** appropriation (573XXXX and 973XXXX) **begins** 1 Oct 2012, **expires** on 30 Sep 2013, and **cancels** 30 Sep 2018.

1.1.2.2. A **two-year** appropriation (573/4XXXX and 973/4XXXX), such as RDT&E, **begins** 1 Oct 2012, **expires** on 30 Sep 2014, and **cancels** on 30 Sep 2019.

1.1.2.3. A **three-year** appropriation (573/5XXXX and 973/5XXXX), such as those for procurement, **begins** 1 Oct 2012, expires on 30 Sep 2015, and **cancels** on 30 Sep 2020.

1.1.2.4. **Five-year** appropriations (573/7XXXX and 973/7XXXX) **begin** on 1 Oct 2012, **expire** on 30 Sep 2017, and **cancel** 30 Sep 2022.

1.1.2.5. A **no-year** appropriation is designated by an "X" after the Agency two digit prefix, i.e., 57X or 97X, which means there are no time limits on the availability of funds in the appropriation. Funds do not expire, which means they are available until completely expended. However, OMB or the Agency Head may cancel no-year authority provided that the purpose for which the authority was provided has been carried out and there have been no disbursements against the authority for at least two fiscal years.

1.2. How To Read Chapters 2 and 3:

1.2.1. In Chapter 2, Air Force and DoD appropriations appear grouped by appropriation type and in numerical order. Supplemental appropriations that have a unique appropriation symbol follow the primary appropriation.

1.2.2. Each appropriation classification in paragraph 2.1 consists of an agency code, a fiscal year designation, and an appropriation symbol.

1.2.2.1. The first two digits identify the agency code. The Air Force agency code is 57. The DoD agency code is 97. The Navy (including Marine Corps) agency code is 17. The Army agency code is 21.

1.2.2.2. For one-year accounts, the third digit identifies the fiscal year; for example, 5733400 designates the FY 2013 Operation and Maintenance, Air Force, appropriation. For multiyear accounts, the third and fourth digits identify the multiple fiscal years of the appropriation; for example, 573/53010 designates the FY 2013/2015 Aircraft Procurement, Air Force appropriation. No year funding may or may not have a fiscal year after the agency code. For example, BRAC has no fiscal years after the agency codes. BRAC's fiscal years are determined by the limit. The limit is the 4 digit alpha-numeric after the treasury symbol.

1.2.2.3. The remaining digits (usually four) indicate the appropriation or account.

1.2.3. Each appropriation also has a two-digit fund code, which is identified both in the appropriation summary at [paragraph 2.1](#) and in the detailed listing of codes that follows in [Chapter 2](#).

1.2.4. The individual appropriation listing in [paragraph 2.2](#) includes a brief description of the appropriation or account content. Where applicable, each section also contains the individual program, project and sub-project codes for budget execution.

1.2.5. Chapter 3 identifies the Air Force's centrally managed OBAs and allotments. Look under the funding appropriation in [Chapter 2](#) for the account and subaccount codes used to execute these centrally managed accounts.

1.2.6. Submit recommendations for changes to this manual through command channels to SAF/FMBM, 1130 Air Force Pentagon, Washington DC 20330-1130.

Note 3: The FY05 NDAA transferred ownership of the Defense Health Program (DHP) – Medical-Eligible Health Care (MERHC) Accrual account to the Department of the Treasury. As of FY06, the Department of the Treasury began making one annual payment, based on AF estimates.

2.2. Air Force Appropriations: Operation and Maintenance (O&M)

Fund		Description
Appropriation Code		
5733400	30	OPERATION AND MAINTENANCE, AIR FORCE APPROPRIATION.

DoD Financial Management Regulation, Volume 2A, Chapter 1 prohibits use of O&M funds for the purchase or replacement of an investment item, which costs equal to or greater than \$250,000. Therefore, budget activities include items which cost less than \$250,000; but for equipment items that are subject to centralized item management and asset control, investment funds must be used regardless of unit cost.

BUDGET ACTIVITY 01: OPERATING FORCES.

This budget activity consists of three activity groups: Air Operations; Combat Related Operations; and Space Operations.

The Air Operations activity group includes overall support for all fighter and bomber forces, remotely piloted aircraft, intercontinental ballistic missiles, air launched strategic and tactical missiles as well as support ranges, command and base support personnel and activities. In addition it includes the Airborne Warning and Control aircraft (AWACS), Dissimilar Air Combat Training (DACT) aircraft, Air Force Operational Test and Evaluation Center (AFOTEC), Chemical and Biological Defense activities, Tactical Reconnaissance and Electronic Warfare, Tactical Intelligence and Special Activities, Joint Deployment Agency (JDA), counter-drug operations and the Joint Communications Support Element (JCSE).

The Combat Related Operations activity group comprises the support element for combat forces and employs a wide range of assets to accomplish a myriad of missions. These forces are supported by the Strategic Offensive C3I, the National Military Command Center (NMCC), the National Airborne Operations Center (NAOC) and the Minimum Essential Emergency Communications Network (MEECN). The remaining efforts are in the areas of communication links and other technical support.

The Space Operations Forces activity group consists of assets and force structure to provide the capability to launch payloads into various earth orbits, communicate with these space based platforms, and worldwide network of sites and terminals to relay data gathered by satellite constellations. Other programs include personnel and infrastructure support for the manpower and facilities used to execute these missions.

The Combatant Commands (COCOM) activity group supports COCOM direct missions, operation and administration to provide for the functional combatant capability and geographic worldwide mobility of United States forces. This funding is critical to defending the homeland and deterring foreign adversaries by executing the National Security Strategy and National Military Strategy of the United States.

BUDGET ACTIVITY 02: MOBILIZATION.

The Mobilization budget activity consists of the following mission areas: Airlift Operations; Airlift Operations Command, Control, Communications and Intelligence (C3I); Mobilization Preparedness; Payment to the Transportation Business Area; and Base Support elements.

The Airlift Operations mission area supports the day-to-day mission activity of Mobility Operations; e.g., Tactical Airlift, Air Refueling, and Operational Support Airlift for the movement of personnel and cargo. It also supports Headquarters Air Mobility Command, its detachments, and other numbered Air Force headquarters. This support includes administrative support necessary in managing the peacetime logistics mission as well as training and preparing airlift forces to meet wartime objectives.

The Airlift Operations C3I mission area supports the core of Mobility Operations through the provision of Air Mobility Command (AMC) Command and Control systems. These systems provide the capability to direct and control airlift and aircrew forces for worldwide deployment and provide in transit visibility of cargo and passengers; generate billing data; provide for deliberate planning, analysis, and modeling; and provide for software maintenance and personnel to operate current systems including the Global Decision Support System (GDSS).

The Mobilization Preparedness mission area supports Mobility Operations with the capability to sustain crisis situations through the provision and pre-positioning of War Readiness Materials (WRM). It includes manpower authorizations, peculiar support equipment, facilities, and the

associated costs specifically identified and measurable for the procurement and maintenance of equipment or secondary items within the war reserve stockpile. In addition, it supports the medical wartime mission through contingency hospitals located outside the continental United States.

Payment to the Transportation Business Area represents funding to meet TWCF transportation costs not covered in the rate structure.

Base Support provides personnel support functions and the base infrastructure and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of physical plant structure.

BUDGET ACTIVITY 03: TRAINING AND RECRUITING.

The Training and Recruiting Budget Activity consists of three activity groups: Accession Training; Basic Skills and Advanced Training; and Recruiting and Other Training and Education.

The Accession Training activity group produces the enlisted and officer personnel needed to meet total force requirements. This training provides an effective, efficient military indoctrination program that facilitates a smooth transition from civilian life to the military environment. Officer accessions receive indoctrination training through the United States Air Force Academy (USAFA), Air Force Reserve Officer Training Corps (AFROTC), Officer Training School (OTS), and Airman Education and Commissioning Program (AECP). Enlisted accessions receive indoctrination training through Basic Military Training (BMT). Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

Basic Skills and Advanced Training provides Air Force personnel and individuals of other Services training and education essential to operate, maintain, and manage complex Air Force weapon systems and associated support structure. Programs cover initial and follow-on technical skills progression training, undergraduate flying training, professional military education, specialized professional development, expeditionary skills training and education, and related training support. Most follow-on specialized and skill progression training is conducted at technical training centers or through distributed learning venues. Some training, however, is at civilian educational institutions and contractor facilities. Training and education capabilities also support partner nation international students. Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

Recruiting and Other Training and Education includes total force personnel acquisition marketing and operations, voluntary education programs for active duty, language and culture training leadership and professional development programs, and the Air Force Junior Reserve Officer Training Corps.

BUDGET ACTIVITY 04: ADMINISTRATION AND SERVICEWIDE ACTIVITIES.

The Administration and Servicewide Budget Activities consists of four activity groups: Logistic Operations; Servicewide Support (Administration); Security Programs; and Support to Other Nations.

The Logistic Operations activity group includes Depot Maintenance, Engineering and Installation Support, Acquisition and Combat Support, Second Destination Transportation, and the Defense Courier Division at Air Force Materiel Command installations. Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

The Servicewide Activities activity group cuts across the entire Air Force to ensure combat capability and maintain readiness, effective leadership, efficient management, and adequate support to Air Force units and personnel in diverse geographic locations. Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

The Security Program activity group includes the Air Force Office of Special Investigations (AFOSI) and a series of classified programs. AFOSI protects Air Force resources through specialized investigative support and has a major investigative role in the DoD counterdrug program.

The Support to Other Nations activity group includes security assistance, humanitarian assistance, U.S. participation in international and multinational activities, the United States share of support to the North Atlantic Treaty Organization (NATO), Supreme Headquarters Allied Powers Europe (SHAPE), North Atlantic Treaty Organization Airborne Early Warning and Control (NATO AEW&C) Program, and other international headquarters support.

**5733740 54 OPERATION AND MAINTENANCE, AIR FORCE
RESERVE.**

For expenses not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead (except for those expenses paid by DFAS, citing AF O&M funds per AFI 34-242 *Mortuary Affairs Program*); recruiting; procurement of services, supplies, and equipment; and communications.

BUDGET ACTIVITY (BA):

01 Operating Forces:

Provides for the operation and training of all Air Force Reserve units. Activities supported include aircraft operations, ground training, base level aircraft maintenance, maintenance of other equipment, supply activities, security for Air Force Reserve resources, Real Property Maintenance Activities (RPMA), Base Operating Support (BOS), and Nuclear Biological/Chemical Defense Program (CWDE). Includes funds for civilian personnel services and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay; travel and transportation expenses of military and civilian personnel; transportation of material; rental of automated data processing equipment; communications services and maintenance of equipment including vehicles; for purchase of supplies, equipment, and services from Supply and Depot Maintenance Business Activities of the Air Force Working Capital Fund (AFWCF) and from commercial sources. Includes funds for expenses of field training exercises and maneuvers. Also provides for funds from which the Air Force Reserve can reimburse the Consolidated Sustainment Activity Group – Maintenance (CSAG-Mx) for depot-level maintenance including corrective maintenance of aircraft, equipment, and accessories, electronic and communications equipment, vehicles, and other equipment. The use of CSAG-Mx includes depot-level maintenance, aircraft overhaul, reclamation, manufacture, assembly and disassembly, inspection, testing, sustaining engineering, maintenance, and updates.

04 Administration and Service Wide Activities:

The command function of Air Force Reserve, the administrative activities of the Air Reserve Personnel Center, recruiting, audio visual, and other base support not included in the Operating Force activity require this program. Includes funds for civilian personnel service and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay and other nonpersonnel type expenses as identified in BAC 01.

NOTE: Budget activities consist of groupings of program elements listed below. A complete listing of program elements and definitions are located in the Financial Management Data Dictionary. SAF/FMB updates the listing below as new program elements are authorized for use.

Procurement

Appropriation	Fund Code	Description
573/53010	11	AIRCRAFT PROCUREMENT, AIR FORCE.

This appropriation provides for fabricating and procuring:

- (1) aircraft weapon systems to include UAVs and aerial targets.
- (2) modifications.
- (3) aircraft common support equipment.
- (4) aircraft industrial responsiveness.
- (5) spares and repair parts.
- (6) war consumables.
- (7) miscellaneous aircraft requirements.
- (8) special purpose ADPE.
- (9) predelivery fuel.
- (10) simulators and training devices.
- (11) program management administration requirements.
- (12) first destination transportation (FDT).

It excludes:

- (1) procuring of Air Force Supply Business Activity items (except from the Supply Business Activity).
- (2) base procurement. AVPOL (except predelivery fuel).

Budget Activity (BA) Structure:

- 01 Combat Aircraft
- 02 Airlift Aircraft
- 03 Trainer Aircraft
- 04 Other Aircraft
- 05 Modification of In-service Aircraft
- 06 Aircraft Spares and Repair Parts
- 07 Aircraft Support Equipment and Facilities

100000 AIRCRAFT WEAPON SYSTEM.

This program provides for fabricating and procuring complete aircraft, including:

- (1) flyaway costs.
- (2) advance procurement. (Use EEIC 808** for advanced procurement).
- (3) Initial Aircraft Support Equipment (common or peculiar).
- (4) training devices (for example, aircraft simulators for in-production aircraft).
- (5) technical data and handbooks procured with end item.
- (6) product improvement aircraft structural integrity in accordance with this directive.
- (7) interim contractor support generated by new acquisitions until the date specified in the acquisition program baseline.
- (8) predelivery fuel.
- (9) program management administration (PMA) requirement.
- (10) primary and alternate mission equipment.

It excludes:

Labor and expense material for work performed below or at depot level for modification of major end items of equipment except for modernization of equipment.

10** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

110000 MODIFICATIONS.

This program provides for:

- (1) permanent (P) and Permanent Safety (PS) modifications of:
 - (a) in-service aircraft.
 - (b) aircraft peculiar and common support equipment.
 - (c) simulator and training equipment (aircraft), whether driven by an aircraft modification or by a requirement to modify the simulator.
 - (d) components.
- (2) procuring, under Headquarters Air Force (HAF) approved and directed modernization and maintenance programs:

- (a) modification kits and special tools.
 - (b) concurrent replacement of equipment taken from stock.
 - (c) peculiar ground support equipment (GSE) required because of changes to configuration as a result of a modification.
 - (d) revised technical data and handbooks.
 - (e) new software or software changes as a result of hardware changes.
- (3) modifying in-inventory components.
 - (4) engineering data.
 - (5) cost of updating changes to retrofit previously delivered aircraft and related equipment approved before or as a result of test programs (AFI 99-103, *Capabilities Based Test and Evaluation* and AFI 65-601 V1, Chapter 14, *Budget Guidance and Procedures*).
 - (6) modifications to depot plant investment equipment items.
 - (7) fuel used for predelivery test of trial installations.
 - (8) modification installation costs for production kits including labor and expense materiel costs.
 - (9) PMA requirement - Excludes the cost of common production steps and common expense materiel when performed in conjunction with maintenance (either depot or organizational).

11** Budget Program.**

120000 AIRCRAFT COMMON SUPPORT EQUIPMENT

Budget Program 120000 (BP12) funds for replacement of organizational and intermediate level support equipment (common and peculiar) for all out-of-production aircraft. Common (nonpeculiar) organizational and intermediate level support equipment required as a result of modifications to out-of-production aircraft is procured with BP12 funds.

The following chart shows the source of funding for aircraft support equipment:

ORGANIZATIONAL & INTERMEDIATE LEVEL	BP10	BP11	BP12	BP13	BP19	DEFENSE WORKING CAPITAL FUNDS (DWCF)	O&M

Note 1. When in sustainment, the depot support equipment will be procured by the applicable program office unless the support equipment is for Organic Consolidated Sustainment Activity Group – Maintenance (CSAG-Mx).

Note 2. Aircraft Automatic Test Systems equipment is procured with aircraft procurement funds regardless of unit cost. All other aircraft support equipment with unit cost below the threshold will be procured with O&M funds. Support equipment with a unit cost above the threshold is procured with aircraft procurement funds.

12** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

130000 POST-PRODUCTION CHARGES.

This program provides, for aircraft that have completed delivery, the following:

- (1) production line close down costs.
- (2) deferred support equipment (initial peculiar and common).
- (3) interim contractor support (until the date specified in the acquisition program baseline).
- (4) procurement related contractor support.
- (5) program management administration requirements.
- (6) initial procurement or replacement of aircraft flight simulators and flight crew or maintenance training devices and their initial support equipment for out of production aircraft.
- (7) newly designated, increased requirement for, or replacement of, Primary Mission Equipment.
- (8) procure additional quantities of support equipment in support of force structure changes that increase the number of bases requiring support equipment during the post production period of the weapon system (e.g. conversion of active to guard/reserve forces).
- (9) the procurement of investment type replenishment spares and repair parts which are exempt from the AF Working Capital Fund, Supply Division.

13** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the *****.

140000 AIRCRAFT INDUSTRIAL RESPONSIVENESS.

This program provides for capital type rehabilitation, necessary real property maintenance and improvements, and compliance with environmental and energy requirements for government-owned, contractor-operated aircraft industrial facilities. This program also funds aircraft industrial productivity and responsiveness improvement efforts, which includes industrial base Technology Modernization (an incentive effort to stimulate private capital investment) and industrial base program planning, which supports studies and analyses to ensure the industrial base can produce in peacetime and accelerate to meet critical needs during wartime.

14*** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the *****.

150000 (NOT CURRENTLY IN USE).

160000 AIRCRAFT INITIAL SPARES AND REPAIR PARTS.

This program provides for procuring investment type initial spares and repair parts required to support:

- (1) new aircraft being procured.
- (2) additional end items to the inventory.
- (3) the modification (BP 1100) and modernization program.
- (4) updating changes.
- (5) common ground support equipment (BP 1200).
- (6) simulators and training devices.
- (7) provisioning documentation.
- (8) initial spares and repair parts for other production (BP1900) buys.
- (9) whole spare engines and engine modules.
- (10) Readiness Spares Package (RSP) requirements tied to new acquisition (i.e., new systems, modifications, support equipment and miscellaneous production) or mission changes.

Budget as initial spares investment items whose pipelines must be increased because of increased quantity of aircraft being procured. Initial spares managed by the Supply Business Activity require special budgeting considerations. Funds are required to reimburse the Supply Business Activity purchase of initial spares upon receipt or scheduled receipt of the ordered items for WCF items. For obligations by the Supply Business Activity, the standard reimbursement pattern is year 1, 2.9%; year 2, 17.0%; year 3, 32.6%; year 4, 23.8%; year 5, 23.7%. A program unique profile may be used after approval by SAF/AQXRF and SAF/FMBIZ. For non-WCF items, initial spares funds must be obligated at the time the aircraft is placed on order (full funding policy).

16*** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

170000 WAR CONSUMABLES.

This program provides for procuring war consumable equipment, which will provide additional wartime support needed, if there are hostilities, to sustain operations until expanded production provides the required level of support. Included in this program are auxiliary fuel tanks, missile launchers, pylons, ejector racks, decoys, and adapters consumed during wartime and peacetime operations.

The initial complement of this equipment (normally installed equipment) for a new weapon system will be procured with BP1000 funds as an integral part of the weapon system buy. This makes the weapon system complete and usable when accepted by the Air Force. If, after production is complete, you discover a shortfall in this equipment, you should attempt to satisfy any existing initial equipage shortfall through the System Program Office (SPO). If, for some justifiable reason, the SPO is unable to satisfy this shortfall after production completion, consider the BP1700 line as the source of last resort. Do not consider the BP1700 line as the funding safety net for requirements erroneously perceived by some as less than critical to the initial buy of a weapon system.

17** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

180000 PROCUREMENT OTHER THAN AIR FORCE.

This program provides for procurement, as defined in other budget programs in this appropriation, which requires the Air Force to make by designation or agreement for other agencies on a reimbursable basis. It also includes replacement authority for Air Force Materiel Command (AFMC) to replace inventory shipped to reimbursable customers (replacement-in-kind transactions only).

It includes:

- (1) total aircraft weapon system cost.
- (2) aeronautical vehicle.
- (3) training equipment.
- (4) peculiar AGE.
- (5) data.
- (6) advance buy.
- (7) modification.
- (8) common AGE.
- (9) initial and replenishment spares and repair parts.
- (10) war consumables.

18** PROCUREMENT OTHER THAN AIR FORCE.**

181***	Aircraft Weapon System.
182***	Modifications.
183***	Ground Support Equipment.
185***	Aircraft Industrial Facilities.
186***	Replenishment Spares.
187***	Initial Spares.
188***	War Consumables.
189***	Other Charges.

An alphanumeric fourth digit of a BPAC code for an item will be a 1 to indicate FMS or a 9 to indicate non-FMS, a 6 to indicate replenishment authority resulting from FMS sales, or a 7 to indicate replenishment authority resulting from non-FMS sales. The assigned MAJCOM or base uses the last two alphanumeric digits from the following list, to identify the supported system. (When a code doesn't require an item specification, use 00).

190000 MISCELLANEOUS PRODUCTION CHARGES.

This program provides for items, which

- (1) are not directly related to other procurement line items in this appropriation.
- (2) cannot be reasonably allocated and charged to other procurement line items in this appropriation.
- (3) can be managed as separate end items.
- (4) contains certain classified programs.

(5) are alternate mission equipment, not considered a modification, for out of production systems.

19CECM COMMON ELECTRONIC COUNTERMEASURES EQUIPMENT.

This program follows the same criteria as for Other Production Charges, but is limited to electronic countermeasures and related support equipment. Examples are the ALQ 184 used for multiple systems and the ALQ-99 TJS that is related to a single system.

19RCN AIRBORNE RECONNAISSANCE.

This program provides centralized funding for multi-Service and Air Force requirements to field future airborne reconnaissance systems. Use BPAC 19 DARP for these programs funded in FY96 and prior.

19UPAD

This program provides an accounting of reprogramming to pay legitimate upward adjustments against canceled aircraft/procurement appropriations.

19** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code.

993000 APPROPRIATION REFUNDS ON TRANSPORTATION OF PERSONS AND THINGS.

This program provides for:

- (1) Collecting refunds properly creditable to this appropriation but not identifiable to the subsidiary classification.
- (2) Repaying of refunds collected in error.

NOTE: Used only by:

- (a) DFAS-IN, Ft Benjamin Harrison, Indianapolis IN 46249-0001
- (b) DFAS-IN, OAC 45, ADSN 380100.

994000 PROGRESS PAYMENTS.

Covers progress payments to contractors--less liquidations properly chargeable to other budget accounts (see DFAS-DE 7077.2-M, Section 19).

996000 APPROPRIATION REIMBURSEMENTS.

This program provides for accumulating reimbursements to this appropriation.

573/53020 15 MISSILE PROCUREMENT, AIR FORCE.

This appropriation provides for fabricating and procuring:

- (1) missile weapon systems.
- (2) operational space systems.
- (3) modifications, modernization, retrofit, and update.
- (4) spares and repair parts.
- (5) war consumables.
- (6) missile industrial responsiveness.
- (7) miscellaneous missile requirements.
- (8) site activation.
- (9) hardware and site activation for Minuteman force modernization.
- (10) technical data.
- (11) special purpose ADPE.
- (12) launch vehicles.
- (13) program management administration requirements.
- (14) first destination transportation (FDT).

It excludes:

- (1) procuring Air Force Supply Business Activity items (except from the Supply Business Activity).
- (2) base procurement.
- (3) contract technical services (see AFI 21-110, *Engineering and Technical Services Management and Control*).
- (4) engine component improvement (moved to RDT&E).
- (5) missile launchers installed on aircraft (moved to Aircraft Procurement Account).
- (6) munitions moved to 3011 in FY98.

- 04 Missile Spares and Repair Parts
- 05 Other Missiles Support

200000 MISSILE WEAPON SYSTEM.

This program provides for fabricating and procuring complete missiles, drones, and guided rockets, including:

- (1) flyaway costs.
- (2) advance procurement. (Use EEIC 808** for advance procurement.).
- (3) direct ground support equipment.
- (4) training equipment and devices.
- (5) remote vehicles, procured separately.
- (6) site activation.
- (7) technical data.

- (8) depot tools and test equipment.
- (9) Minuteman force modernization.
- (10) program management administration (PMA) requirements.

It excludes out-of-production missile systems; also excludes labor and expense material for work performed below or at depot level for modification or major end items of equipment except for modernization of equipment.

20** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

210000 MODIFICATION.

This program provides for:

- (1) Permanent (P) and Permanent Safety P(S):
 - (a) missile weapon systems.
 - (b) direct ground support equipment.
 - (c) training equipment (missile).
- (2) procuring, under HAF-approved and directed modification or maintenance programs:
 - (a) modification kits and special tools.
 - (b) concurrently replacing equipment taken from stock.
 - (c) peculiar ground support equipment (GSE).
 - (d) revised technical data and handbooks.
- (3) kit installation labor costs.
- (4) modifying in-inventory components.
- (5) engineering data.
- (6) processing costs of equipment entering and leaving a modernization facility.
- (7) modifications to depot plant investment equipment items.
- (8) cost of updating changes to retrofit previously delivered missiles and related equipment approved before or as a result of test programs (AFI 99-103 and AFI 65-601V1, Chapter 14).
- (9) modification installation costs for production kits.
- (10) PMA requirements.

21** Budget Program.**

220000 MISSILE SUPPORT EQUIPMENT.

Budget Program 220000 (BP22) funds for replacement of organizational and intermediate level support equipment for all out-of-production missile systems. This budget program funds replacement inert and dummy training (D-1 through D-5 and T-1 through T-5) missiles for out-of-production assets. Common support equipment as a result of modifications to out-of-production missiles is procured with BP22 funds.

The following chart shows the source of funding for missile support equipment:

22** Budget Program.**

This Budget Program Activity Code (BPAC) will be completed as follows: At all activity levels, the third digit represents the Force Management Code and will be numeric (1 for ballistic systems or 2 for tactical and other systems). At HAF and MAJCOM level, the next three digits (4th, 5th, and 6th fields) will be filled with capital "X." At field activity levels, complete these three digits (4th, 5th, and 6th fields) by substituting the appropriate Systems Management Code for the XXXs as follows: use 4th and 5th numeric digits from the list that follows. They are to be used to identify the system being supported. 00 indicates no item specification is required. The 6th field can be alpha or numeric and will reflect missile series identification. 0 indicates no specification, 8 indicates classified and use 9 for equipment common to several systems or no further detail as to specific management code is required. Z will indicate multiple applications within a weapon system.

230000 SPACE PROGRAMS.

This program provides for fabricating, procuring, modernization retrofit and modification of standard space launch vehicles, stage vehicles, and spacecraft. It also includes associated ground support equipment and PMA requirements.

23** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

240000 MISSILE INDUSTRIAL RESPONSIVENESS.

This program provides for capital type rehabilitation, necessary real property maintenance and improvements, and compliance with environmental and energy requirements for Air Force-owned, contractor-operated missile industrial facilities. Also included is the Manufacturing Technology program that establishes and validates improved missile manufacturing methods, processes and techniques to reduce acquisition and support costs, reduce production lead times, improve product quality, provide domestic sources, increase production yields, and ensure economic productivity of Air Force war fighting equipment. This also funds missile industrial productivity and responsiveness improvement efforts, which include industrial base technology modernization (an incentive effort to stimulate private capital investment) and industrial preparedness measures for industrial base program planning.

24** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

250000 MISSILE REPLENISHMENT SPARES AND REPAIR PARTS.

This program provides for procuring Supply Business Activity exempt replenishment spares and repair parts required supporting:

- (1) missiles and guided rockets in inventory.
- (2) direct ground support equipment (AGE).

- (3) automatic testing equipment.
- (4) training devices.
- (5) War Reserve Materiel.
- (6) Contract Maintenance Spares.
- (7) depot tools and test equipment.

25** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

260000 MISSILE INITIAL SPARES AND REPAIR PARTS.

This program provides for procuring initial spares and repair parts to support:

- (1) missiles and guided rockets being procured.
- (2) the modification and modernization program.
- (3) related ground support equipment (AGE).
- (4) automatic testing equipment.
- (5) training devices.
- (6) contract maintenance spares.
- (7) depot tools and test equipment.
- (8) provisioning documentation.

Initial spares managed by the Supply Business Activity require special budgeting considerations. Funds are required to reimburse the Supply Business Activity purchase of initial spares upon receipt or scheduled receipt of the ordered items. For obligations by the Supply Business Activity, the standard reimbursement pattern is year 1, 2.9%; year 2, 17.0%; year 3, 32.6%; year 4, 23.8%; year 5, 23.7%. A program unique profile may be used after approval by SAF/AQXRF and SAF/FMBIZ.

26** Budget Program.**

Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Systems Management Code for the ****.

280000 PROCUREMENT OTHER THAN AIR FORCE.

This program provides for procurement for other agencies, on a reimbursable basis, made by the Air Force by agreement or designation. It also includes replacement authority for AFMC to replace inventory shipped to reimbursable customers (replacement in-kind transactions only).

28** PROCUREMENT OTHER THAN AIR FORCE.**

573/53080	17	OTHER PROCUREMENT, AIR FORCE.

This appropriation provides for procuring the following categories of materiel:

- (1) vehicular equipment.
- (2) electronic and telecommunication equipment, including cryptological equipment, and its executive software.
- (3) other base maintenance and support equipment.
- (4) initial and Air Force Working Capital Fund exempt replenishment spares and repair parts.
- (5) installation/emplacement of equipment.
- (6) production product improvement, including technical data packages.
- (7) reproduction models on production contracts.
- (8) testing of production items.
- (9) technical data and handbooks procured with the end items.
- (10) base procurement of investment equipment.

- (11) modification of in-service assets where unit modification cost exceeds the \$250K threshold. Other service/agency procured modifications equal or less than \$250K per unit is also funded with investment funds when required by the procuring activity.
- (12) in production engineering data.
- (13) acquisition of test articles for FOT&E, QT&E, qualification tests, PAT&E, and QOT&E (AFI 99-101 and AFI 65-601V1, Chapters 8 and 14), except for Low Rate Initial Production (LRIP).
- (14) Program Management Administration Costs.
- (15) Interim Contractor Support.
- (16) Type I Training.
- (17) power conditioning backup.
- (18) buy out options for leased to buy vehicles when the vehicle is procured with investment funds.
- (19) items with a unit cost less than the \$250K threshold where other procuring Service Agency requires investment funding.

NOTE: This appropriation does not provide for:

- (1) procuring Air Force Supply Business Activity items (except from the Supply Business Activity).
- (2) base procurement of expense equipment.
- (3) contract technical services (see AFI 21-110).
- (4) prototype models.
- (5) development, maintenance of, and changes to, software (see AFI 65-601V1, Chapter 4, Section c).
- (6) operational test of LRIP articles.
- (7) Buy out options for leased to buy vehicle contracts on vehicles procured with O&M funds. Use O&M funds to execute these buy out options.
- (8) Modification of in-service assets where unit modification cost is equal to or less than the \$250K threshold.

HAF assigns an alphanumeric sixth digit of a BPAC code for an item on Procurement Authorization (PA) or Budget Authorization (BA).

82** BUDGET PROGRAM.**

Budget Activity (BA) Structure:

- 02 Vehicular Equipment.
- 03 Electronics and Telecommunications.
- 04 Other Base Maintenance and Support Equipment.
- 05 Spares and Repair Parts.

82** VEHICULAR EQUIPMENT.**

This budget activity provides for procuring wheeled and other ground vehicular equipment including railroad vehicles and all the items identified for provisioning in the foregoing appropriation description.

Appropriation Code	Description
573/73300 25	MILITARY CONSTRUCTION, AIR FORCE APPROPRIATION.

This appropriation provides for acquiring, constructing, installing, and equipping temporary or permanent public works, military installations as currently authorized by law for the Regular Air Force. This appropriation only provides for costs defined as real property "investment costs." Define real property as land and any improvements thereto, and anything permanently attached to it including structures and equipment installed in and made a part thereof, thus becoming an integral part of the structures. Equipment that is moveable and is severable without either impairing or defacing either the equipment or structure is not real property. Structures that are moveable and are not permanently attached to the land and which are readily severable without either impairing or defacing either the structure or the land are not real property. It includes projects for:

- (1) planning and design.
- (2) major construction.
- (3) minor construction.
- (4) unspecified support activities.
- (5) foreign currency fluctuation gains and losses.
- (6) support activities.

It excludes providing for the Air Force Reserve and the Air National Guard.

Budget Activity (BA) Structure:

- 01 Major Construction
- 02 Minor Construction
- 03 Planning and Design
- 04 Support Activities

**BUDGET PROJECT
CODE****310 PROJECT PLANNING AND DESIGN.****313 Project Planning and Design.**

Project planning and design is applicable for design activities carried out on projects in prior, current and future Military Construction (MILCON) programs. Do not charge this account for costs incurred for advanced program planning (use O&M) . This program or project under the authority of 10 U.S.C. 9540 and 10 U.S.C. 2807 provides for these services for projects to the point of construction contract award. After the award, charge these services to the appropriate budget project code (321, 331, or 341). In response to the Request for Proposals (RFP) for design-build type projects, charge costs incurred before the Notice to Proceed (NTP) after the approval of the Best and Final Offer (BAFO) to Planning and Design. Fund costs incurred after

the NTP with construction funds (321, 331 OR 341). Project planning and design services include:

- (1) investigating and selecting sites, including the payment of property damage resulting from site exploration and selection surveys at locations not subsequently acquired; if and when the location is acquired, such payments shall be made a part of the acquisition costs under the appropriate construction code.
- (2) developing and preparing real estate planning reports and any other data required for the acquisition of real estate.
- (3) designing and analyzing design for construction; developing and preparing construction drawings and specifications; developing and preparing construction cost estimates.
- (4) participating in preconstruction contract award activities for the purposes of relating design, drawings, and specifications to construction.
- (5) printing and reproducing drawings, specifications, and other documents required for soliciting bid proposals.

Project planning and design excludes:

- (1) the preparation of training and operating or maintenance manuals.
- (2) construction supervision and inspection services.
- (3) TDY costs of using agency unless specifically approved by the SAF Deputy Comptroller, Budget (Design or Construction Agent is not considered the using agency).

320 MAJOR CONSTRUCTION, INSIDE THE UNITED STATES.

321 Major Construction, Inside the United States.

This program or project under authority of enabling legislation provides for:

- (1) acquiring land and structures.
- (2) adding to, expanding, extending, converting, and replacing existing structures.
- (3) relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.
- (4) altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction and supervision services, and includes planning and design services when performed after initial construction contract award of the project; maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes using agency (command) costs for travel and per diem, unless specifically approved by the SAF Deputy Comptroller, Budget.

330 MAJOR CONSTRUCTION, OUTSIDE THE UNITED STATES.

331 Major Construction, Outside the United States.

This program or project under authority of enabling legislation provides for:

- (1) acquiring land and structures.
- (2) adding to, expanding, extending, converting and replacing existing structures.
- (3) relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.

(4) altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction and supervision services, and includes planning and design services when performed after the initial construction contract award of the project; maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes using agency (command) costs for travel and per diem unless specifically approved by the SAF Deputy Comptroller, Budget.

340 UNSPECIFIED MINOR CONSTRUCTION.

341 Unspecified Minor Construction.

This program or project, under authority of enabling legislation 10 U.S.C. 2805 when the estimated funded cost is more than \$750,000 but not more than \$2,000,000, provides for:

- (1) acquiring land and structures.
- (2) adding to, expanding, extending, converting and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.

BUDGET PROJECT CODE

310 PROJECT PLANNING AND DESIGN.

313 Project Planning and Design.

Project planning and design is applicable to specific projects after approval by the Department of Defense for inclusion in the Force and Financial program. Before such approval, consider costs incurred for similar services as advance planning expenses and, unless specifically directed otherwise, do not charge this account. This program or project under the authority of enabling legislation 10 U.S.C. 18232-36 provides for these services for public works projects that are not otherwise authorized by law. After such authorization provide these services under the

appropriate construction code (321, 313, or 341).

Project construction design services include:

- (1) investigating and selecting sites, including the payment of property damage resulting from site exploration and selection surveys, and mapping, at locations not subsequently acquired.
- (2) developing, preparing, and documenting criteria before design.
- (3) designing and analyzing design for construction; developing and preparing construction drawings, specifications, space criteria and construction standards; developing and preparing construction and land acquisition estimates.
- (4) participating in preconstruction contract award activities for the purposes of relating design, drawings, specifications, and standards to construction. (Does not include TDY costs to attend.)
- (5) printing and reproducing drawings, specifications, and other documents required for soliciting bid proposals.
- (6) reviewing shop drawings and working drawings, as prepared by construction contractors, for adequacy of design and agreement with contract drawings and specifications.
- (7) other functions such as: developing and updating of design criteria; preparing standard designs and definitive drawings; management of military construction program design and contract administrative services for design; and project cost certifications.
- (8) preparing as-built drawings. Project construction design excludes the preparation of training manuals, and advance planning. (Fund advance planning from O&M-type appropriations.)

320 MAJOR CONSTRUCTION.

321 Major Construction.

This program or project under authority of enabling legislation provides for:

- (1) acquiring land and structures.
- (2) adding to, expanding, extending, converting, and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.
- (3) altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction supervision and administration (printing & reproduction) incident to the project. Maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes the preparation of training, operating, maintenance manuals, travel and supplies.

340 MINOR CONSTRUCTION.

341 Minor Construction.

This program or project, under authority of enabling legislation 10 U.S.C. 18232-36 when the estimated funded cost is more than \$750,000 but not more than \$2,000,000, provides for:

- (1) acquiring land and structures.
- (2) adding to, expanding, extending, converting and replacing existing structures;

relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.

(3) altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction and supervision services, and may include planning and design services; maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes the preparation of training, operating, and maintenance manuals.

350 SUPPORT ACTIVITIES.

351 Support Activities.

This program or project under the authority of enabling legislation, provides for:

- (1) constructing off-site access roads (US and possessions) 23 U.S.C. 210.
- (2) acquiring land not costing more than \$750,000 10 U.S.C. 2663.

Family Housing

Fund

Appropriation Code Description

573/70740 3X FAMILY HOUSING CONSTRUCTION.

This appropriation started in FY02 and it provides for costs of the Air Force Housing Construction Program.

Budget Activity (BA) Structure:

- 01 New Construction.
- 03 Post Acquisition Construction.
- 04 Planning and Design.

Program

710 CONSTRUCTION.

This program provides for constructing Air Force housing. It includes projects for:

- (1) new construction.
- (2) post acquisition construction.
- (3) advance planning and design.

Project

711 New Construction.

This project provides for:

- (1) erecting, installing, assembling, relocating, constructing, or replacing family dwelling units.
- (2) related land acquisition, site preparation, excavating, filling, landscaping, demolition, environmental remediation, or improving sites relating to work in Project 711.
- (3) initial outfitting of dwelling units with major equipment and fixtures, for example, kitchen ranges and refrigerators; also washing machines, clothes dryers, and dishwashers when authorized.

- (4) supervision and inspection of construction (see AFI 65-601V1, Chapter 21).
- (5) construction of mobile home facilities and non-dwelling buildings associated with a family housing area.
- (6) construction of roads, driveways, walks, and utility systems that primarily serve family housing units.
- (7) construction of recreation and community facilities integral to a family housing area.
- (8) replace damaged or destroyed family housing facilities.
- (9) housing privatization project's scoring costs. If the housing privatization project proves infeasible, then a military family housing construction project is accomplished.

Project

713 Post Acquisition Construction.

This project provides for construction for:

- (1) upgrading inadequate family housing quarters and housing.
- (2) improving adequate public quarters.
- (3) converting existing facilities to family housing quarters.
- (4) altering, adding, expanding, extending, improving, demolishing, or repairing family dwelling facilities, except as provided in P722.
- (5) family housing real property, (other than dwelling units), required subsequent to and because of previously acquired dwelling units.
- (6) retrofitting existing units to make them more energy efficient, and to provide substantial savings in utility costs such as, upgrade ceilings, roofs, wall insulation, and heating and air conditioning systems to current standards.
- (7) alter family housing to accommodate physically handicapped family members except as provided in P722.
- (8) supervision and inspection of construction (see AFI 65-601V1, Chapter 21).
- (9) housing privatization project's scoring costs. If the housing privatization project proves infeasible, then a military family housing improvement project is accomplished.

Project

714 Advance Planning and Design.

This project provides for planning and design of family housing facilities. It includes:

- (1) preliminary and site adaptation studies.
- (2) working drawings, specifications, estimates, project planning reports, and final design drawings.

Project

717 Family Housing Construction Foreign Currency.

This program provides the net of the Foreign Currency Fluctuation Centrally Managed Account (CMA) for the Family Housing Construction Appropriation. The net is the sum of the foreign currencies favorable currency gains and unfavorable currency losses. This subproject began in FY04 and is primarily used in DFAS accounting reports for HQs use.

Project**719 Reimbursement.**

This program provides for accumulating reimbursements to this appropriation.

NOTE: Reimbursements to budget program 510 for certain sales codes (73A, 73B, 76A, 76B, 93A, 93B, and 93C) will be further stratified by pay and allowances, for full-time versus part-time personnel services, by the use of an alpha code in the third position as follows:

- 51A-Officer, full-time (at least 90% of work year).
- 51B-Officer, part-time.

511 Basic Pay -- Officer Totals.

This project provides for the basic compensation of officers on active duty per 37 U.S.C. 201, 203, and 205, according to rank and length of service.

Subprojects

- 511.01 Officer Basic Pay.**
- 511.99 DJMS-RC Officer Basic Pay.**

512 Incentive Pay – Officer Totals.

This project provides for pay per 37 U.S.C. 301 for these types of duties:

- (1) rated officers who qualify for Aviation Career Incentive Pay (ACIP).
- (2) Aviator Continuation Pay. A financial incentive to complement non-monetary initiatives to improve aviation officer retention.
 - (a) Pilots
 - (b) Navigators
 - (c) Air Battle Managers
- (3) noncrew duty-involving frequent and regular participation in aerial flight not as a crewmember.

- (4) air weapons controller-for members performing airborne warning and control system duties.
- (5) parachute jumping-involving parachute jumping from an aircraft in aerial flights.
- (6) experimental stress-for duty under an unusually high level of psychological or other stress.
 - (a) high-or low-pressure chamber duty-as high-or low-pressure chamber inside observer.
 - (b) acceleration or deceleration duty-as human acceleration experimental subject, including assignment to "tilt table" experimental duty.
 - (c) thermal stress duty-as human test subject in thermal stress experiments.
- (7) demolition of explosives as primary duty-includes training for such duty.
- (8) duty involving the servicing of aircraft or missiles with highly toxic fuels or propellants.
- (9) other hazardous duty-as authorized; that is, submarine duty, glider duty.
- (10) duty involving frequent and regular exposure to highly toxic pesticides or involving laboratory work that uses live dangerous viruses or bacteria.

BASE CLOSURE PERMANENT CHANGE OF STATION MOVEMENTS.

These moves include only those members moving from a base on the closure list as approved by a Base Closure Commission. It does not pertain to force structure actions not related to the closure of a base, nor does it relate to command restructuring. Pay out only approved move costs out of this account, i.e., members in positions whose moves are not programmed in the Military Personnel Appropriation are the only one counted as making a PCS move related to the base closure.

571 PERMANENT CHANGE OF STATION MOVEMENTS.

57** PERMANENT CHANGE OF STATION MOVEMENTS – OFFICERS.**

58** PERMANENT CHANGE OF STATION MOVEMENTS – ENLISTED.**

These programs provide for the cost of permanent change of station movements of military personnel individually or as organized units, and authorized family members. Costs chargeable to these programs include:

- (1) transportation by common carrier.
- (2) Monetary Allowance In Lieu of Transportation (MALT), plus a flat per diem allowance.
- (3) meal tickets instead of subsistence.
- (4) transportation of personal baggage and household goods (including accessorial services).
- (5) nontemporary commercial storage of household goods.
- (6) dislocation allowances.
- (7) allowances for movement of house trailers or mobile dwellings.
- (8) travel and transportation services provided by Transportation Working Capital Fund (TWCF).
- (9) travel and transportation services provided by Military Sealift Command and Surface Deployment and Distribution Command (including movement of POV).
- (10) TDY travel costs directly related to PCS movement.
- (11) movement of individuals or organizations to overseas command or indeterminate TDY when specifically authorized by AFPC. It includes transportation of household goods within CONUS.
- (12) transportation of POV of deceased, injured, interned, missing, or captured military personnel.
- (13) emergency evacuation allowances upon evacuation of family members.
- (14) includes PCS travel costs of all military personnel assigned to Military Assistance Advisory Groups (MAAG).
- (15) per diem paid to members' enroute between permanent duties stations that are placed in a TDY hold status.
- (16) one-way transportation of POV to port of embarkation and from port of debarkation.
- (17) temporary lodging expense (TLE) in CONUS for up to \$180 per day for a maximum of 10 days.
- (18) payment of travel expenses for military personnel and their family members from overseas to the CONUS and return between consecutive overseas tours (COT) or in-place consecutive overseas tours (IPCOT).
- (19) payment of enlisted members participating in the Overseas Tour Extension Incentive Program (OTEIP).
- (20) reimbursement of pet quarantine fees.

The following standard definitions apply to PCS travel:

TDY: Temporary duty travel (other than TDY Hold) is the responsibility of the requiring unit or command unless it is training funded by AETC or other commands or TDY other than training funded by non-PCS sources. Charge TDY for briefings, debriefings and special instructions to the requiring command's O&M funds.

The only TDY that is paid out of PCS funds must be an integral part of PCS travel and meet all of the following conditions:

- (1) TDY up to 15 days and performed enroute to and for the purpose of supporting the follow-on position at the new permanent duty station.
 - (2) TDY is for M-16 rifle training, medical examination, obtaining passports, and in processing at host base when required by host-tenant agreement. (M-16 training is the only training authorized for TDY status.) .
- NOTE: Member noncurrent escort travel is not a PCS entitlement.
- (3) U.S. AF (AFPC, AF/DPG, or AF/DPO), AF/HC or AF/JA authorizes TDY. Cite authorization in PCS orders.

COMMERCIAL AIRLIFT (CATEGORY Z ONLY): Travel by regularly scheduled US flag international air carriers with tickets procured by TR at special rates applicable to DoD travel.

SPECIAL AIRLIFT: Transportation Working Capital Fund (TWCF) procured aircraft (group movements) determined more economical to the government.

TRANSPORTATION WORKING CAPITAL FUND – (TWCF): For travel and transportation services furnished by TWCF. Includes travel of military personnel and family members, personal baggage, and household goods.

SURFACE DEPLOYMENT AND DISTRIBUTION COMMAND: For travel and transportation services furnished by SDDC incident to PCS of officer and enlisted members. Includes port-handling services for household goods, and privately owned vehicles (CONUS inbound and outbound only).

NONTEMPORARY STORAGE OF HOUSEHOLD GOODS: Nontemporary storage of household goods (HHG) in commercial facilities under JTR, Volume I, in connection with PCS or indeterminate TDY authorized by HAF. Cite this fund on PCS order.

- (1) Includes required accessorial services; that is, pickup at residence, inventory, loading, weighing, cubing, wrapping, packing, carting, drayage, in handling, out handling to warehouse platform, and line haul transportation to storage facilities (except line haul from overseas stations to CONUS).
- (2) Includes accessorial services by contract for nontemporary storage in governmental facilities.
- (3) Excludes nontemporary storage:
 - (a) on assignment of government quarters.
 - (b) when temporarily vacating government quarters, unless advance return shipment of goods from overseas to CONUS is authorized.
 - (c) when required to vacate temporarily other quarters under jurisdiction of a uniformed service.
 - (d) when installing government-owned furniture and appliances in place of privately owned items.
 - (e) transportation charges from storage to new permanent station.

STANDARD RULES:

The following standard rules apply to the two-digit subproject field for payments:

Based on an obligation policy change for FY09, the first position of the subproject field is always "0" (numeric) since it is required to be paid out of current year funds. This obligation policy change is effective with FY09, and will be applied in all fiscal years subsequent to FY09.

In prior fiscal years the first position of the subproject field may have been "9" to identify when transfer effective dates (TED) differed from the fiscal year of obligation. This permitted citing and temporarily charging the current year appropriation for costs authorized by the PCS order. DFAS-DE used a Standard Form 1080, Voucher for Transfers Between Appropriations and/or Funds, to convert transactions with a "9" in the first position of the subproject field to the correct year when the new appropriation became available on 1 October of each year. Additional instructions for using this subproject field are in the DFAS publication, Interim Guidance on Procedures for Travel Accounting Operations. Due to the change in obligation policy in FY09, the fiscal year in which the orders are cut will be the fiscal year in which the obligation is accounted for and the first position of the subproject field will always be "0" (numeric).

The second position of the subproject field will always be an alpha code as follows:

A--Pet Quarantine fees. Mandatory pet quarantine of a household pet, are reimbursable not to exceed \$550 per PCS move for pets in, or entering into, quarantine on and after 28 December 2001 (Ref. JFTR, para U5805).

B--Unaccompanied Baggage (restricted to TWCF for TWCF billings): Payment for that portion of household goods that is shipped separately and apart (usually via an expedited mode) from the major items of furniture and which is required immediately upon or soon after the member's or family member's arrival at destination, for interim housekeeping pending arrival of the major portion of the property.

C--Port Handling charges. Port handling charges associated overseas shipment of an Air Force member's personal property.

D--Travel of Family Member: Includes POV mileage of family members regardless of whether they are traveling with the military member or independently of the military member. Also, includes other modes of transportation, MTAS and TRS.

NOTE: Subproject L was previously designated for a family member driving POV independently of the military member. Beginning FY10, this travel will be included under Subproject D.

E--Temporary Lodging Expense (TLE) In CONUS: Payment of up to \$180 per day for a maximum of 10 days to a member and or dependent(s). This payment is to help defray expenses for food, lodging, etc., while a member and or dependent(s) are occupying private, commercial, or nonappropriated fund lodging near the old or new permanent duty station. Military member or family member(s) cannot draw MALT and per diem concurrently with TLE.

F--Dislocation Allowance Payments With Family Members: Payment to partially reimburse a military member, with family members, for the expenses incurred in relocating household goods or mobile homes upon a PCS. Includes adjustments to this type of dislocation allowance payment.

G--Mobile home adjustments: To correct previous charges.

H--Household goods, belongings, or POV land shipments via GBL or Direct Procurement Method (DPM) other than International Government Bills of Lading (ITGBL): Transportation of household goods (packing, crating, drayage, temporary storage, uncrating, and unpacking).

I--Household goods or belongings shipped via ITGBL or DPM involving transoceanic travel: Includes shipments of household goods by codes 3, 4, 5, 6, 9, and T and all shipments of unaccompanied baggage by codes 7, 8, and J.

J--Military Member's Per Diem: Includes military member's per diem, meal tickets, incidentals and TDY per diem directly related to the PCS of the military member. Includes cost of per diem in connection with moves charged to projects 5742 and 5882. Include here all costs associated with 5720 and 5820 (except transportation chargeable to M).

K--Per Diem of Family Member: Includes per diem for family members regardless of whether they are traveling with the military member or independently of the military member. Also, includes per diem for modes of transportation other than POV and all charges to 5710 or 5810.

NOTE: Subproject R was previously designated for per diem for a family member authorized to drive POV independently of the military member. Beginning FY10 this per diem will be included under subproject K.

M--Military Member's Travel: Includes member's TR, transportation allowance, mileage, mileage for one-way travel of member's POV to port of embarkation and from port of debarkation, transportation of personal baggage and TDY travel costs directly related to PCS of the military member. Includes costs of transportation in connection with moves charged to projects 5720, 5820, 5742, and 5882. Includes all PCS entitlement costs associated with projects 5765, 5865, 5769, 5869, 5779, and 5879.

N--Nontemporary Storage: Includes prolonged storage of household goods charged to fiscal year service is rendered. Indeterminate TDYs will include this subproject code in the main line of funding. All other PCS/Separation/Retirement orders have separate funding lines for nontemporary storage.

NOTE: **Cite current year appropriation for nontemporary storage.** The first position of the subproject field will always be 0 (numeric). Since nontemporary storage normally extends over several fiscal years, the fiscal year fields in fund citations for nontemporary storage will contain a "\$" to permit the substitution of the fiscal year when service is rendered.

P--Per Diem: Payment of per diem to the military member in a PCS status. Use this code in amended orders that place a military member, who is en route between permanent duty stations, in a TDY hold status, when directed to discontinue travel pending further orders. Authorization to place military member in hold status requires the advance approval of AFPC.

Q--Overseas Tour Extension Incentive Program (OTEIP) travel for enlisted military members

R--Now included in Subproject K

S--Dislocation Allowance Payments Without Family Members: Payment to partially reimburse a member without dependents when transferred to a permanent duty station and not assigned to government quarters. Includes adjustments to this type of dislocation allowance payment.

T--Trailer/Mobile home payments: Includes allowances for moving of mobile homes on GBL.

U--Family Member in-place consecutive overseas tour-related travel from overseas port to port in CONUS and the return trip.

V--Privately Owned Vehicle: Payment for shipment of POV by vessel to, from, and between overseas ports. Also includes rental car inconvenience claims and POV storage when a member

stationed outside the CONUS is selected for ITDY and their return to the CONUS requires POV to be shipped and stored in CONUS for the duration of ITDY.

W--Consecutive Overseas Tour (COT) Leave Travel: Payment of travel expenses for military personnel COT or IPCOT and their dependents from overseas to the CONUS and the military member's return trip.

X--PCS Advance Payments: Use this code for all PCS advance payments for military, regardless of entitlements. When submitting the voucher for settlement, apply a credit to this code and a debit to the appropriate subproject shreds per entitlement.

Y--MALT HHG: Move it yourself household goods shipments.

Z--PCS Reimbursements: Costs reimbursed by federal government agencies and other governments or international organizations.

727 SPECIAL TRAINING.**

Special Tours are used to supplement AT and IDT when the member needs additional training to achieve or maintain a required skill or skill level in their assigned AFSC. Special Tours may be used to maintain or increase the member's mobilization readiness in support of Reserve needs. Special Tours must provide a primary training content to the member during tours involving organized and planned specialized skill training, combat crew training, unit conversion training, refresher and proficiency training, officer acquisition training, professional development education programs, etc. Special Tours may also be used to provide direct staff support to Reserve component programs in which training for the member itself is not the primary objective, but a significant outcome. Projects include annual screening, unit conversion to new weapon systems, supporting study groups, training site visitations and exercises, short-term mission projects, administrative support functions, conferences, staff visits, counter drug tours, Innovative Readiness Training (IRT).

- 04 Advanced Component Development and Prototypes (ACD&P) (Research Category 6.4).
- 05 System Development and Demonstration (SDD) (Research Category 6.5).
- 06 RDT&E Management Support (Research Category 6.6).
- 07 Operational System Development (Research Category 6.7).

NOTE: See Attachment 1 for Centrally Managed OBAs and Allotments pertaining to this appropriation. (AFI 99-103, AFI 65-601V1, Chapter 14.)

61****

BASIC RESEARCH.

Basic research is systematic study directed toward greater knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications towards processes or products in mind. It includes all scientific study and experimentation directed toward increasing fundamental knowledge and understanding in those fields of the physical, engineering, environmental, and life sciences related to long-term national security needs. It is farsighted, high payoff research that provides the basis for technological progress. Basic research may lead to: (a) subsequent applied research and advanced technology developments in Defense-related technologies, and (b) new and improved military functional capabilities in areas such as communications, detection, surveillance, propulsion, mobility, guidance, and control, navigation, energy conversion, materials and structures, and personnel support. Program elements in this category involve pre-Milestone A efforts. It covers:

- (1) Civilian personnel services and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay.
- (2) TDY allowances to military and civilian personnel.
- (3) PCS of civilian personnel.
- (4) Cost of transportation provided by commercial carrier and Defense Working Capital Fund (DWCF), in connection with TDY travel and PCS movements chargeable to this program.
- (5) Transportation and materiel, including:
 - (a) First destination transportation of supplies and equipment procured in support of laboratories or contractors engaged in research activities.

- (b) Special airlift of Air Force cargo via TWCF per AFI 65-601V1, Chapter 10, section E.
- (c) Inland commercial transportation of materiel from an Air Force laboratory to another AFB or depot, port of embarkation within the CONUS, CONUS contractor's plant, or Army or Navy manufacturing facilities in connection with repair and return or storage of materiel.
- (6) Rentals of equipment.
- (7) Purchased utilities and communications.
- (8) Real property rentals, including initial alterations, restoration of leased facilities, and commercial storage services.
- (9) Printing, binding, duplicating, and photo reproduction services on a contractual or reimbursable basis.
- (10) Contractual services for research, development, engineering, design, preparation of detail specifications and model fabrication, technical evaluation, and requirements.
- (11) Procurement of mission support requirements for nonstandard supplies and equipment provided as GFE to government contractors in support of research, or used in Air Force laboratories for research projects.
- (12) Purchases from WCF.
- (13) Propellants and related items.
- (14) Purchases of supplies, equipment, and services authorized for local purchase as authorized.
- (15) Automated data processing costs.

SAF/FMB issues funds by program element within this budget program. Use the Budget Program Activity Code (BPAC) to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the *****.

62*** APPLIED RESEARCH.**

Applied research is systematic study to understand the means to meet a recognized and specific national security requirement. It is a systematic application of knowledge to develop useful materials, devices, and systems or methods. It may include design, development, and improvement of prototypes and new processes to meet general mission area requirements. Applied research translates promising basic research into solutions for broadly defined military needs, short of system development. This type of effort may vary from systematic mission-directed research beyond that in Budget Activity 1 to sophisticated breadboard hardware, study, programming, and planning efforts that establish the initial feasibility and practicality of proposed solutions to technological challenges. It includes studies, investigations, and non-system specific technology efforts. The dominant characteristic is that applied research is directed toward general military needs with a view toward developing and evaluating the feasibility and practicality of proposed solutions and determining their parameters. Applied research precedes system specific research. Program control of the Applied Research program element is normally exercised by general level of effort. Program elements in this category involve pre-Milestone B efforts, also known as Concept and Technology Development phase

tasks, such as concept exploration efforts and paper studies of alternative concepts for meeting a mission need. It covers:

- (1) Civilian personnel services and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay.
- (2) TDY allowances to military and civilian personnel.
- (3) PCS of civilian personnel.
- (4) Cost of transportation provided by commercial carrier and Defense Working Capital Fund (DWCF), in connection with TDY travel and PCS movements chargeable to this program.
- (5) Transportation and materiel, including:
 - (a) First destination transportation of supplies and equipment procured in support of laboratories or contractors engaged in research activities.
 - (b) Special airlift of Air Force cargo via TWCF per AFI 65-601V1, Chapter 10, section E.
 - (c) Inland commercial transportation of materiel from an Air Force laboratory to another AFB or depot, port of embarkation within the CONUS, CONUS contractor's plant, or Army or Navy manufacturing facilities in connection with repair and return or storage of materiel.
- (6) Rentals of equipment.
- (7) Purchased utilities and communications.
- (8) Real property rentals, including initial alterations, restoration of leased facilities, and commercial storage services.
- (9) Printing, binding, duplicating, and photo reproduction services on a contractual or reimbursable basis.
- (10) Contractual services for research, development, engineering, design, preparation of detail specifications and model fabrication, technical evaluation, and requirements.
- (11) Procurement of mission support requirements for nonstandard supplies and equipment provided as GFE to government contractors in support of research, or used in Air Force laboratories for research projects.
- (12) Purchases from WCF.
- (13) Propellants and related items.
- (14) Purchases of supplies, equipment, and services authorized for local purchase as authorized.
- (15) Automated data processing costs.

SAF/FMB issues funds by program element within this budget program. Use the Budget Program Activity Code (BPAC) to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the ****.

ADVANCED TECHNOLOGY DEVELOPMENT (ATD).

This budget activity includes development of subsystems and components and efforts to integrate subsystems and components into system prototypes for field experiments and/or tests in a simulated environment. ATD includes concept and technology demonstrations of components

and subsystems or system models. The models may be form, fit, and function prototypes or scaled models that serve the same demonstration purpose. The results of this type of effort are proof of technological feasibility and assessment of subsystem and component operability and producibility rather than the development of hardware for service use. Projects in this category have a direct relevance to identified military needs. Advanced Technology Development demonstrates the general military utility or cost reduction potential of technology when applied to different types of military equipment or techniques. Program elements in this category involve pre-Milestone B efforts, such as system concept demonstration, joint and Service-specific experiments or Technology Demonstrations. Projects in this category do not necessarily lead to subsequent development or procurement phases. Analysis of Alternatives (AoA) studies (to include system specific AoA studies), are funded from this budget activity until the studies pass Milestone A. Projects in this category do not necessarily have to lead to subsequent development or procurement phases, however, programmed budget justification must identify potential rough order of magnitude estimates of additional development and production costs consistent with the Department's full funding policy.

- (1) Contract services for:
 - (a) Development engineering.
 - (b) Design.
 - (c) Detailed specifications.
 - (d) Development testing.
 - (e) Fabricating prototype or working models.
 - (f) Engineering evaluation.
 - (g) Engineering improvements of items under development.
- (2) Procuring nonstandard and local purchase equipment and supplies:
 - (a) Furnished as GFE.
 - (b) Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.
 - (c) For use in contractor facilities located at Air Force research activities.
- (3) Propellants and related items.
- (4) Purchases from WCF
- (5) Automated data processing costs.
- (6) Management and support costs in direct support of development efforts.
- (7) Effective in FY98, this program will budget for and reimburse Air Force laboratories for direct, ancillary variable indirect, and overhead costs incurred by the laboratories in support of 63**** programs. Supporting documentation must substantiate cost prior to reimbursement/allocation.

SAF/FMB issues funds by program element within this budget program. Use the Budget Program Activity Code (BPAC) to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the ****.

64******ADVANCED COMPONENT DEVELOPMENT AND PROTOTYPES (ACD&P).**

Efforts necessary to evaluate integrated technologies, representative modes or prototype systems in a high fidelity and realistic operating environment are funded in this budget activity. The ACD&P phase includes system specific efforts that help expedite technology transition from the laboratory to operational use. Emphasis is on proving component and subsystem maturity prior to integration in major and complex systems and may involve risk reduction initiatives. Program elements in this category involve efforts prior to Milestone B and are referred to as advanced component development activities and include technology demonstrations. Completion of Technology Readiness Levels 6 and 7 should be achieved for major programs. Program control is exercised at the program and project level. A logical progression of program phases and development and/or production funding must be evident in the FYDP. It covers:

- (1) Contract services for:
 - (a) Development engineering.
 - (b) Design.
 - (c) Detailed specifications.
 - (d) Development testing.
 - (e) Fabricating prototype or working models.
 - (f) Engineering evaluation.
 - (g) Engineering improvements of items under development.
- (2) Procuring nonstandard and local purchase equipment and supplies:
 - (a) Furnished as GFE.
 - (b) Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.
 - (c) For use in contractor facilities located at Air Force research activities.
- (3) Propellants and related items.
- (4) Purchases from WCF
- (5) Automated data processing costs.
- (6) Management and support costs in direct support of development efforts.
- (7) Direct Expenses for civilian personnel costs are not permitted without end-strength/full time equivalents approved by AF/XP for the program. Any organic work performed by a performing activity and billed to the RDT&E account (whereby the RDT&E account is a customer) must be assessed against a service Element of Expense, not a civilian personnel cost Element of Expense.

SAF/FMB issues funds by program element within this budget program. Use the Budget Program Activity Code (BPAC) to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the ****.

65******SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD).**

SDD programs have passed Milestone B approval and are conducting engineering and manufacturing development tasks aimed at meeting validated requirements prior to full-rate production. This budget activity is characterized by major line item projects and program

control is exercised by review of individual programs and projects. Prototype performance is near or at planned operational system levels. Characteristics of this budget activity involve mature system development, integration, and demonstration to support Milestone C decisions, and conducting live fire test and evaluation (LFT&E) and initial operational test and evaluation (IOT&E) of production representative articles. A logical progression of program phases and development and production funding must be evident in the FYDP consistent with the Department's full funding policy. This activity includes:

- (1) Contract services for:
 - (a) Development engineering.
 - (b) Design.
 - (c) Detailed specifications.
 - (d) Development testing.
 - (e) Fabricating prototype or working models.
 - (f) Engineering evaluation.
 - (g) Engineering improvements of items under development.
- (2) Procuring nonstandard and local purchase equipment and supplies:
 - (a) Furnished as GFE.
 - (b) Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.
 - (c) For use in contractor facilities located at Air Force research activities.
- (3) Propellants and related items.
- (4) Low Rate Initial Production (LRIP) Test Articles. LRIP is to provide production configured or representative articles for operational test, to establish an initial production base for the system, and to permit an orderly increase in production rate for the system sufficient to lead to full rate production upon the successful completion of operational test. LRIP quantity will be determined as part of SDD approval (Milestone B). RDT&E funds may be budgeted to procure the items required for operational test to facilitate the testing of LRIP assets in the SDD phase. LRIP test articles must be specifically identified in the budget documentation.
- (5) Purchases from WCF.
- (6) Automated data processing costs.
- (7) Management and support costs in direct support of development efforts.
- (8) Direct Expenses for civilian personnel costs are not permitted without end-strength/full time equivalents approved by AF/XP for the program. Any organic work performed by a performing activity and billed to the RDT&E account (whereby the RDT&E account is a customer) must be assessed against a service Element of Expense, not a civilian personnel costs Element of Expense.

SAF/FMB issues funds by program element within this budget program. Use the Budget Program Activity Code (BPAC) to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete BPAC by substituting the appropriate project designator for the ****.

66******RDT&E MANAGEMENT SUPPORT.**

This activity includes research, development, test, and evaluation efforts to sustain and/or modernize the installations or operations required for general research, development, test, and evaluation. Test ranges, military construction, maintenance support of laboratories, operation and maintenance of test aircraft and ships, and studies and analyses in support of the RDT&E program are funded in this budget activity. Cost of laboratory personnel, either in-house or contractor operated, would be assigned to appropriate projects or as a line item in the Basic Research, Applied Research, or Advanced Technology Development program areas, as appropriate. Military construction costs directly related to major development programs are included.

PE 99999F Canceled Account Adjustments: Use the BPAC and BPAC name related to the original program incurring the expense but alter the second digit of the BPAC to "6" in order to reflect budget program 6. Don't forget to use ESP code ZC on all transactions. Commands/FOAs need to forward requests to SAF/AQXR/FMBIZ to realign funds from the paying program element to 99999F subject to the provisions of P.L. 101-510. Where possible, use the BPAC from the original fund cites. Don't forget to use ESP code ZC. Transactions related to P.L. 101-150 are not subject to reprogramming thresholds; therefore, any required movement of funds out of a program element to 99999F in relation to canceled account adjustments will carry a footnote on the DD Form 1416, Report of Programs.

PE 99980F Payments to the Judgment Fund: The program element is restricted for payments to the judgment fund related to contract court settlements. Commands/FOAs need to forward requests to SAF/AQXR/FMBIZ to realign funds from the paying program element to 99980F subject to the provisions thresholds; therefore, any required movement of funds out of a program element to 99980F in relation to judgment fund transactions will carry a footnote on the DD Form 1416, Report of Programs.

SAF/FMB issues funds by program element within this budget program. Use the Budget Program Activity Code (BPAC) to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (descriptive Summaries) are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the ****.

Direct Expenses for civilian personnel costs are not permitted without end-strength/full time equivalents approved by AF/XP for the program. Any organic work performed by a performing activity and billed to the RDT&E account (whereby the RDT&E account is a customer) must be assessed against a service Element of Expense, not a civilian personnel costs Element of Expense.

67******OPERATIONAL SYSTEM DEVELOPMENT.**

This activity includes those development efforts to upgrade systems that have been fielded or have received approval for full rate production and anticipate production funding in the current or subsequent fiscal year. All items are major line item projects that appear as RDT&E Costs of Weapon System Elements in other programs. Program control is exercised by review of individual projects. Programs in this category involve systems that have received Milestone C

approval. A logical progression of program phases and development and production funding must be evident in the FYDP, consistent with the Department's full funding policy. It covers:

- (1) Contract services for:
 - (a) Development engineering.
 - (b) Design.
 - (c) Detailed specifications.
 - (d) Development testing.
 - (e) Fabricating prototype or working models.
 - (f) Engineering evaluation.
 - (g) Engineering improvements of items under development.
- (2) Procuring nonstandard and local purchase equipment and supplies:
 - (a) Furnished as GFE.
 - (b) Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.
 - (c) For use in contractor facilities located at Air Force research activities.
- (3) Propellants and related items.
- (4) Purchases from WCF.
- (5) Automated data processing costs.
- (6) Management and support costs in direct support of development efforts.
- (7) Direct Expenses for civilian personnel costs are not permitted without end-strength/full time equivalents approved by AF/XP for the program. Any organic work performed by a performing activity and billed to the RDT&E account (whereby the RDT&E account is a customer) must be assessed against a service Element of Expense, not a civilian personnel costs Element of Expense.

SAF/FMB issues funds by program element within this budget program. Use the Budget Program Activity Code (BPAC) to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the ****.

69** BUDGET PROGRAM.**

SAF/FMB issues Reimbursable Authority under Budget Program 690. The BPAC's third digit represents the appropriate budget activity code. The MAJCOM or base assigns the fourth, fifth, and sixth digits of the BPAC for distribution and reporting purposes.

690000	REIMBURSABLE FUNDS.
691000	BASIC RESEARCH (REIMBURSABLE).
692000	APPLIED RESEARCH (REIMBURSABLE).
693000	ADVANCED TECHNOLOGY DEVELOPMENT (REIMBURSABLE).
694000	ADVANCED COMPONENT DEVELOPMENT AND PROTOTYPES (ACD&P) (REIMBURSABLE).
695000	SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD) (REIMBURSABLE).

696000 RDT&E MANAGEMENT SUPPORT (REIMBURSABLE).

697000 OPERATIONAL SYSTEM DEVELOPMENT (REIMBURSABLE).

RESTRICTED PROJECTS:

1. 992000 Defense Debt Management System (DDMS).

This program provides for collecting individual out-of-service debt due 3600 appropriation.

NOTE: Restricted use to DFAS-IN, OAC 45, OBAN 20, ADSN 380100

2. 993000 Appropriation Refunds on Transportation of Persons and Things.

This program provides for:

(1) Collecting refunds properly creditable to this appropriation but not identifiable to the subsidiary classification.

(2) Repaying of refunds collected in error.

NOTE: Restrict use to:

(a) DFAS-IN, Ft Benjamin Harrison, Indianapolis, IN 46249-0001

(b) DFAS-IN, OAC 45, ADSN 380100

Miscellaneous

Appropriation	Fund Code	Description
57X5095	74	CONSERVATION PROGRAMS ON MILITARY RESERVATIONS, AIR FORCE.

As authorized by 16 U.S.C. 670a use funds to carry out the program of wildlife, fish and game conservation, and rehabilitation. This may include personnel services and related costs, temporary duty travel, purchase of chemicals, food, seeds, etc., establishment of fish ponds and such other expenses as may be necessary to carry out the purpose of the cited statutes.

Appropriation	Fund Code	Description
57X8928	75	AIR FORCE GENERAL GIFT FUND.

This appropriation provides for certain gifts to the Air Force processed through Receipt Account 57X8928.0001. This is **only** for **conditional** gifts to the Air Force (AFI 51-601, *Gifts to The Department of the Air Force*, Chapter 1, Paragraph 1.9.1.). **Unconditional** gifts to the Air Force are deposited to the Miscellaneous Receipts Account of the United States Treasury (Account **571299**, Gifts to the United States not Otherwise Classified) IAW AFI 51-601, Chapter 2, Paragraph 2.9.1.

Appropriation	Fund Code	Description
57-11 1 1082.0003	45	FOREIGN MILITARY EXECUTIVE APPROPRIATION (TRANSFERS TO AIR FORCE) (ADMINISTRATIVE).

This appropriation provides for workload associated with the administration of the International Military Education & Training (IMET) Program. It includes budget projects for:

- (a) supply operations.
- (b) maintenance of equipment.
- (c) special activities.
- (d) administration. This appropriation contains two suffix limitations based on financial application. The recipient country identifies each of these limitations for the military assistance provided under Special Authority 506(A) Emergency Drawdown:

Fund Code 45 57-11* 1082.003 for direct obligation - administration only.

A00 AIRCRAFT.

This budget activity provides for:

- (a) the cost of all aircraft designated in AFI 16-401/AR 70-50/ NAVAIRINST. Air Force Active 8800.3.
- (b) modifying FMFP-owned aircraft.
- (c) aircraft support equipment.
- (d) aircraft spares and repair parts.

The costs of aircraft in complete flyaway status include:

- (a) basic airframe unit.
- (b) installed engines.
- (c) armament.
- (d) electronics.
- (e) airborne weapons.
- (f) photographic equipment.
- (g) all other installed government-furnished equipment.
- (h) repair and rehabilitation of excess aircraft.

A10	Combat Aircraft.
A20	Airlift Aircraft.
A30	Trainer Aircraft.
A40	Helicopters.
A50	Other Aircraft.
A60	Modification of Aircraft.

This project provides for the costs of modifying FMFP owned aircraft. It includes: HAF Class IV and Class V modifications; related modification designations assigned by the other military departments.

A70	Aircraft Support Equipment.
-----	-----------------------------

This project provides for the costs of aircraft support equipment, including:

- (a) ground handling equipment.
- (b) arresting, barrier, and barricade equipment.
- (c) aircraft launching equipment.
- (d) airfield specialized trucks and trailers.

A90 Aircraft Spares and Repair Parts.

This project provides for the costs of aircraft investment spares and repair parts procured with the aircraft as initial spares and subsequently for follow-on maintenance as replenishment spares. Examples include:

- (a) aircraft structural components.
- (b) aircraft components and accessories, except parachutes and aerial pickup.
- (c) delivery and cargo tie-down equipment.
- (d) aircraft engines and components, including gasoline reciprocating engines.
- (e) aircraft engine accessories, including fuel system components.
- (f) electrical system components.
- (g) cooling system components.
- (h) air and oil filters, strainers, and cleaners.
- (i) turbo-superchargers.
- (j) miscellaneous engine accessories.
- (k) aircraft tires and tubes.
- (l) aircraft fire control equipment, including gunnery fire control equipment.
- (m) bombing fire control components.
- (n) aircraft alarm and signal systems.
- (o) aircraft navigational instruments.
- (p) flight instruments.
- (q) automatic pilot mechanisms and airborne gyro components.
- (r) aircraft engine instruments.

B00 MISSILES.

This budget activity provides for:

- (a) the costs of missiles and drones, with or without warheads and explosive components, assembled or unassembled.
- (b) modifying missiles.
- (c) missile support equipment.
- (d) missile spares and repair parts.

B10 Ground Launched Missiles and Support Equipment.

B20 Air Launched Missiles and Support Equipment.

B30 Sea Launched Missiles and Support Equipment.

B60 This project provides for the costs of modifying FMFP-owned missiles and missile systems.

B90 Missile Spares and Repair Parts.

E00 TACTICAL AND SUPPORT VEHICLES.

This budget activity provides for the costs of tactical and support vehicles, complete, including combined chassis and body.

- E10 Semi-Trailers.
- E20 Trailers.
- E30 Trucks.
- E40 Support Vehicles.

F00 WEAPONS.

This budget activity provides for the costs of weapons, including weapons spares, components, and accessories. F10 Guns, up to 75mm.

- F20 Guns, 75mm and over.
- F30 Naval Ordnance Weapons.
- F40 Other Weapons.
- F90 Weapon Spare Parts, Components, and Accessories.

G00 AMMUNITION.

This budget activity provides for the costs of ammunition, including components and accessories.

- G10 Ammunition up to 75mm and Grenades.
- G20 Ammunition 75mm and over.
- G30 Land Mines and Explosives.
- G40 Naval Ordnance Ammunition.
- G50 Bombs and Rockets.
- G60 Pyrotechnic and Chemical Munitions.
- G70 Other Ammunition.

H00 COMMUNICATIONS EQUIPMENT.

This budget activity provides for the costs of communications equipment, spares and repair parts.

- H10 Telephone and Telegraph Equipment.
- H20 Radio Communications Equipment.
- H30 Radio Navigation Equipment.
- H40 Radar Equipment.
- H50 Underwater Sound Equipment.
- H60 Other Communications Equipment.

This project includes the following types:

- (a) cryptological equipment.
- (b) teletype and facsimile equipment.
- (c) intercommunications and public address systems.
- (d) sound recording and reproducing equipment.
- (e) visible and invisible light communications equipment.
- (f) miscellaneous communications equipment.

H90 Communications Equipment Spare Parts and Electronics Supplies.

J00 OTHER SUPPORT EQUIPMENT.

This budget activity provides for the costs of other support equipment.

J10 Chemical Equipment.

J20 Construction Equipment.

This project includes the following types of equipment:

- (a) construction.
- (b) mining.
- (c) excavating.
- (d) highway maintenance.

J30 Materiel Handling Equipment.

J40 Photographic Equipment.

This project includes the following types of equipment:

- (a) motion and still picture cameras.
- (b) projection equipment.
- (c) developing and finishing equipment.
- (d) processed film.
- (e) sets, kits, outfits, and accessories.

J60 Other Equipment.

J70 Other Support Equipment.

K00 SUPPLIES

This budget activity provides for the costs of supplies.

K10 Clothing and Textile Supplies.

K20 Medical Supplies.

K30 Subsistence.

K40 General Supplies.

K50 Industrial Supplies.

K60 Fuels, Oils and Chemicals.

K70 Construction Supplies.

K80 Automotive Supplies.

R00 SPECIAL ACTIVITIES.

This budget activity includes projects for:

- (a) International Military Headquarters.
- (b) UN Forces Support in Korea.
- (c) Expenses, Inspector General, Foreign Assistance, State.
- (d) Studies and Surveys.
- (e) Weapons Production Projects.
- (f) Other Special Projects.

R10 International Military Headquarters.

R20 International Forces Support.

This project provides for costs of supporting the United Nations Forces in Korea and of supporting other International Armed Forces under the FMFP program. It includes maintenance support of personnel and equipment; major items of equipment; transportation, hospitalization, and other services.

R30 Expenses, Inspector General, Foreign Assistance, State.

Reserve this project for use by the Department of State.

R40 Studies and Surveys.

This project is for use only upon specific authorization of OSD.

R50 Weapons Production Project.

This project provides for:

- (a) technical assistance.
- (b) tools and equipment.
- (c) engineering and operating costs associated with weapons production project agreements.

The purpose is to:

- (a) establish,
- (b) rehabilitate,
- (c) expand,
- (d) modernize, or
- (e) modify capacity for:
 - (1) manufacture,
 - (2) maintenance and,
 - (3) storage of armaments and components to be furnished under weapons project agreements.

It excludes:

- (a) real property.
- (b) construction.
- (c) indigenous labor and materials.

(d) license fees incidental to use of a process.

R90 Other Special Activities.

This budget activity includes other special projects approved by OSD and HAF not covered elsewhere, including special activities, nonspecific requirements, foreign currency, MAAG support, and load fees.

T00 ADMINISTRATION.

This budget activity provides for the overall administration, program planning, development, and management of the Foreign Military Financing Program. It includes:

- (a) civilian salaries and allowances.
- (b) PCS travel and transportation.
- (c) TDY travel and per diem.
- (d) communications.
- (e) rents.
- (f) utilities.
- (g) contractual services.
- (h) supplies and materials.
- (i) equipment.

It excludes military personnel PCS costs.

T10 Administrative Expenses, Departmental, Headquarters and Command Training Support Items directed by HAF.

This project provides for the costs at the seat-of government and major field commands (in the U.S. and overseas).

T20 Military Mission Expenses (Security Assistance Organization).

This project provides for the costs at the country, SAO, or mission level. It excludes support costs for SAO training personnel.

U00 APPROPRIATION ADJUSTMENTS.

U20 Progress Payments.

Progress payments made to contractors, less liquidations properly chargeable to other budget accounts.

Z00 FMFP BUDGET PROJECT.

FMFP Budget Project-Pending Program Change Account.

To reflect balance of FMFP .002 funds included in the FMFP Pending Program Change Account. Only HQ AFMC uses this project. Valid for Fiscal Years 1988 and prior.

Appropriation	Fund Code	Description
57-11X1086	41	INTERNATIONAL MILITARY EDUCATION AND TRAINING (TRANSFERS TO AIR FORCE) (NO YEAR).

N00 TRAINING.

This budget activity provides for the costs of FMFP training. It includes projects for:

- (a) student training.
- (b) mobile training teams.
- (c) field training services.
- (d) SAO and command training support.
- (e) training U.S. FMFP personnel.
- (f) extraordinary expenses.
- (g) other training support.
- (h) training aids and devices.

N10 Student Training.

This project provides for the costs of foreign student training for:

- (a) training course costs at military or civilian institutions in the U.S. and U.S. facilities overseas.
- (b) observer and OJT at U.S. military activities.
- (c) orientation tours to U.S. facilities.
- (d) underway training onboard U.S. naval vessels.
- (e) U.S.-sponsored training in third countries.
- (f) informational program activities.

N20 Mobile Training Teams.

This project provides for the costs of foreign training conducted by U.S. mobile training teams. It includes:

- (a) civilian salaries and allowances.
- (b) TDY travel and per diem.
- (c) other support expenses for mobile training team personnel.

It excludes the costs of materiel teams.

N30 Field Training Services.

This project provides for the costs of foreign training conducted by Engineering and Technical Services (ETS) and Air Force Engineering and Technical Services (AFETS) personnel. It includes:

- (a) civilian salaries and allowances.
- (b) TDY travel and per diem.
- (c) other contract or support expenses for field training services personnel.

It excludes the costs of materiel technicians.

N60 Extraordinary Expense.

This project provides for the expense of limited official representation authorized by Section 636(a)(1) of the Foreign Assistance Act of 1961, as amended, for:

- (a) foreign military trainees.
- (b) other foreign military visitors.

It excludes information program expenses covered under N10 Student Training.

N70 Other Training Support.

This project provides for the costs of:

- (a) special training exercises.
- (b) supplies and materials for FMFP training (excluding training aids).
- (c) rehabilitating FMFP training facilities, when approved by ODMA under Section 636(g)(3) of the Foreign Assistance Act of 1961, as amended.
- (d) escort officers.
- (e) student medical and burial expenses.

N90 Training Aids, Devices, Books, Maps, and Publications.

J5A Training Aids and Devices.

J5B Armament Training Devices.

J5C Operational Training Devices.

J5D Communications Training Devices.

J5V Books, Maps, Publications.

J5Z Other Training Aids and Devices, and Spare Parts.

Appropriation Code Description

57-12X1105 2N STATE AND PRIVATE FORESTRY, FOREST SERVICE.

This appropriation is a transfer from the U.S. Department of Agriculture, Forest Service, for forest pest suppression. Issue funding to code SPFO.

2.3. DoD Appropriations: Beginning with FY97, all funding for the DoD appropriations (Treasury Index 97 accounts) is issued using the Program Budget Accounting System (PBAS). The coding structure for DoD funds issued is provided in the Defense Finance and Accounting Service (DFAS) manual 7097.01. The Air Force may add customized codes to that structure. All subsidiary codes, as well as any new codes, must first be approved by DFAS-IN prior to their use in PBAS and in the various accounting systems. Proposed changes should be forwarded to:

Director of Defense Finance and Accounting Service - Indianapolis Center
 ATTN: DFAS-IN/AH
 8899 East 56th Street
 Indianapolis, IN 46249-2201

The DFAS-IN/AH point of contacts are Ms. Pam Lynch and Ms. Bertha Byrd. She may be reached via EMAIL at Pam.Lynch@dfas.mil, DSN 699-4603 and Ms. Bertha Byrd and she can be reached at Bertha.Byrd@dfas.mil.

Funds are appropriated for the purposes described in P.L. 111-5 and remain available for obligation until 30 Sep 2013.

310 PROJECT PLANNING AND DESIGN.

313 Project Planning and Design.

Project planning and design is applicable for design activities carried out on projects in prior, current and future Military Construction (MILCON) programs. Before such approval, consider costs incurred for similar services as program planning expenses and, unless specifically directed otherwise. Do not charge to this account. This program or project under the authority of enabling legislation 10 U.S.C. 2233 provides for these services for public works projects that are not otherwise authorized by law. After such authorization, provide these services under the appropriate construction code (321, 331, or 341). Project planning and design services include:

- (1) investigating and selecting sites, including the payment of property damage resulting from site exploration and selection surveys at locations not subsequently acquired; if and when the location is acquired, such payments are made a part of the acquisition costs under the appropriate construction code.
- (2) developing and preparing real estate planning reports and any other data required for the acquisition of real estate.
- (3) developing, preparing, and documenting criteria before design.
- (4) designing and analyzing design for construction; developing and preparing construction drawings and specifications; developing and preparing construction cost estimates.
- (5) participating in preconstruction contract award activities for the purposes of relating design, drawings, and specifications to construction. (Does not include TDY costs to attend.)
- (6) printing and reproducing drawings, specifications, and other documents required for soliciting bid proposals.
- (7) reviewing shop drawings and working drawings, as prepared by construction contractors, for adequacy of design and agreement with contract drawings and specifications.
- (8) preparing as-built drawings.

Project planning and design excludes the preparation of training, and operation and maintenance manuals, and construction supervision and inspection services.

320 MAJOR CONSTRUCTION.

321 Major Construction.

This program or project under authority of enabling legislation provides for:

- (1) acquiring land and structures.

(2) adding to, expanding, extending, converting, and replacing existing structures; and, relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.

(3) altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction and supervision services, and may include planning and design services when performed after the availability of legislative authorization; maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes the preparation of training, and operation and maintenance manuals.

340 MINOR CONSTRUCTION.

341 Minor Construction.

This program or project, under authority of enabling legislation 10 U.S.C. 18232-36 when the estimated funded cost is more than \$750,000 but not more than \$2,000,000, provides for:

(1) acquiring land and structures.

(2) adding to, expanding, extending, converting and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.

(3) altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction and supervision services, and may include planning and design services; maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes the preparation of training, operating, and maintenance manuals.

350 SUPPORT ACTIVITIES.

351 Support Activities.

This program or project under the authority of enabling legislation provides for:

(1) constructing off-site access roads (US and possessions) 23 U.S.C. 210.

(2) acquiring land not costing more than \$750,000 10 U.S.C. 2663.

BASE REALIGNMENT AND CLOSURE ROUND II, PART II (BRAC '91) was established to fund closure and realignment costs associated with actions recommended by the 1991 Base Closure Commission established under the Defense Base Closure and Realignment Act of 1990 (Title 29 of P.L. 101-510). After the expiration of the BRAC 88 account on 30 Sep 95, the costs associated with BRAC 88 bases are now included in the BRAC 91 account (P.L. 103-160). This appropriation uses the same Budget Programs and Projects established for the Part I Account. After 10 Jul 97, the unobligated funds in the DOD Base Realignment and Closure Account 1990 are still available to incur new obligations for actions directly related to completing the 1995 Commission's recommendations and for environmental restoration, property management, and disposal at installations closed or realigned under Title II of the Defense Authorization Amendments and Base Closure and Realignment Act (P.L. 100-526). Financing may come from appropriations, transfers in appropriation acts, and proceeds from the sale of assets made available from Base Realignment and Closures.

NOTE: The 6-year implementation period for the 1991 BRAC Commission recommendations ended on July 10, 1997.

NOTE: BAANs can be found in DFAS Manual 7097.01. Also, BAAN list of values and descriptions are found in FMDD and DQS.

Appropriation	Fund Code	Description
97*4930. (Limit)		VARIOUS AIR FORCE WORKING CAPITAL FUND (AFWCF).

Officially established in FY92, the AFWCF (previously titled the Defense Business Operations Fund) is an expansion of the revolving fund concept to a larger number of Defense Support functions. AFWCF captures all costs of an operating business area and reflects the total cost of doing business in stabilized prices charged to customers. The primary goal is to provide a management structure that allows DoD managers to provide the best support at the lowest cost while enabling customers to reassess their operational requirements in light of total costs.

CONSOLIDATED SUSTAINMENT ACTIVITY GROUP (CSAG).

The Air Force Consolidated Sustainment Activity Group (CSAG) was established effective October 1, 2008, under the authority of Title 10, U.S.C. section 2208. The mission of the Consolidated Sustainment Activity Group is supply management of reparable and consumable items, and maintenance activities. CSAG combines the activities of the operations formerly known as Material Support Division (MSD) of the Supply Management Activity Group, and the Depot Maintenance Activity Group (DMAG). Under CSAG, business operations formerly known as DMAG and MSD are now referred to as Maintenance Division and Supply Division, respectively.

**Consolidated Sustainment Activity Group – Maintenance Division
(CSAG-Mx).**

Center	Limit	Fund Code
OC-ALC (Organic)	.FA27	6L
OO-ALC (Organic)	.FA28	6M
WR-ALC (Organic)	.FA29	6Z
AMARG	.FA23	6R

Maintenance Division activities are authorized to perform:

- (a) overhaul, conversion, reclamation, progressive maintenance, modernization, software development, storage, modification, and repair of aircraft, missiles, engines, accessories, components, and equipment;
- (b) the manufacture of parts and assemblies required to support the foregoing;
- (c) the furnishing of other authorized services or products for the Air Force and other agencies of the Department of Defense. As directed by the Air Force Materiel Command or higher authority, the Maintenance Division may furnish the above mentioned products or services to agencies of other departments or instrumentalities of the U.S. Government, and to private parties and other agencies, as authorized by law.

Contract Depot Maintenance activity was discontinued as of 1 Oct 08. Effective 1 Jul 11, any remaining Contract Depot Maintenance Activity Group (CDMAG) lines of accounting will be converted to Organic (CSAG-Mx) fund codes. Although CDMAG financials will continue to be reported thru the end of fiscal year 2011, the following limits and fund codes are no longer available for use: OC-ALC (Contract), limit FA24, fund code 6S; OO-ALC (Contract), limit FA25, fund code 6U; and WR-ALC (Contract), limit FA21, fund code 6P.

**Consolidated Sustainment Activity Group – Supply Division
(CSAG-Supply)**

Limit: .FC04 Fund Code: 64

Supply Division activities are authorized to procure and manage reparable and consumable items for which the Air Force is the Inventory Control Point. These items are generally related to weapon systems and ground support, and include both depot level reparables and non-depot level reparables.

SUPPLY MANAGEMENT ACTIVITY GROUP – RETAIL (SMAG – R)

The Supply Management Activity Group – Retail (SMAG-R) was established effective October 1, 2008, under the authority of Title 10, U.S.C. section 2208. The SMAG-R manages inventory items including weapon system spare parts, medical-dental supplies and equipment, and other supply items used in non-weapon system applications.

General Support Division (GSD)

Limit: .FC0C Fund Code: 6C

The General Support Division (GSD) procures and manages retail inventory of non-Air Force managed items other than those pertaining to commissary requirements. Many of the items are related to maintenance, flying hour program, and installation functions. The majority are used in support of field and depot maintenance of aircraft, ground and airborne communication systems, and other support systems and equipment.

Medical-Dental Division (MDD)

Limit: .FC0B Fund Code: 6B

The Medical-Dental Division (MDD) procures and manages retail inventory of medical supplies and equipment necessary to maintain an effective Air Force Health Care system for the active military, retirees, and their dependents.

Air Force Academy Division (AFA)

The Air Force Academy Division(AFA) procures and manages retail inventory of uniforms, academic supplies and other recurring issue requirements for the Cadet Wing of the United States Air Force Academy. Inventory procurement is only for mandatory items.

Limit: .FC03 Fund Code: 63

**UNITED STATES TRANSPORTATION COMMAND (USTRANSCOM)
TRANSPORTATION WORKING CAPITAL FUND (TWCF)**

USTRANSCOM TWCF transferred from Defense Logistics Agency (DLA) Defense-Wide Working Capital Fund responsibility to Air Force in FY98. USTRANSCOM provides air, land, and sea transportation for the Department of Defense (DoD), both in time of peace and war. As a unified command, USTRANSCOM exercises combatant command and peacetime management over the common-user aspects of the global mobility network and executes this responsibility via its Transportation Component Commands (TCC) ---- the Air Mobility Command (AMC), the Military Sealift Command

(MSC), the Military Surface Deployment and Distribution Command (SDDC), and the Defense Courier Division (DSDC).

Defense Courier Division (DCD)

Accounts for global network of courier stations responsible for secure custody/rapid transfer of highly classified/sensitive national security materials.

Limit: .FD60 Fund Code: 6J

Military Surface Deployment and Distribution Command (SDDC)

Accounts for traffic management, land transportation, common-user ocean terminals and intermodal container management during peacetime and war for freight movement, personal property shipment, and passenger traffic worldwide. SDDC also has responsibility for intermodal surface transportation and peacetime long-term and voyage charters.

Limit: .FD30 Fund Code: E3
Air Mobility Command (AMC)

AMC provides support for service unique, strategic, and theater airlift requirements.

Limit: .FD40 Fund Code: 68

Military Sealift Command (MSC).

Accounts for sealift services/support for the DoD for both emergent and peacetime requirements.

Limit: .FD20 Fund Code: NV

BASE SUPPORT BUSINESS AREA:

(HISTORICAL – NOT ACTIVE).

Under this division, laundry and dry cleaning services are provided for government owned property, nonappropriated fund property, military personnel property and other items of authorized patrons. Air Force Base Support Business Area was removed from WCF beginning FY 1995.

Terms

Accounting—

- (1) The science of recording, classifying, summarizing (reporting), verifying, analyzing, and interpreting the economic data of a business, governmental, or other social-group enterprise or undertaking for the purpose of promoting effective control and administration.
- (2) The art of applying this science. Includes assisting the executive to make management decisions in exerting control over operations.
- (3) The rendition of a report by an operating executive at any level showing economic data evidencing his or her performance in discharging assigned responsibilities. See also accountability in Joint Chiefs of Staff (JCS) Publication 1.

Air Force Council—Advisory Board to the Chief of Staff. Consists of Vice Chief of Staff, Assistant Vice Chief of Staff, Assistant Secretary of the Air Force for Financial Management and Comptroller, Inspector General, Surgeon General, and the Deputy Chiefs of Staff.

Air Force Reserve (HAFR)—Component of the U.S. Air Force under the Total Force Policy, which was adopted in 1973. The primary mission of the HAFR is to develop, maintain, and provide the active Air Force operationally ready units and trained individuals needed to augment the Air Force in time of war or national emergency.

Air National Guard—The federally recognized Air National Guard of each state, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and Guam.

Allocation—A funding document issued by HAF to a major command or separate operating agency, which represents cash for commitment or obligation.

Allotment—This is similar to an allocation except that it is issued by a major command or separate operating agency to its subordinate units.

Apportionment—A "slice" of an appropriation given to a federal department by the Office of Management and Budget. This slice may be all or only part of the dollars appropriated. An apportionment is an allocation at departmental level, and represents the amount that can be committed or obligated, regardless of the amounts shown in the appropriation or financial plan.

Appropriated Funds—This is obligational authority made available by an act of the Congress (appropriations) and distributed for use through the apportionment and allocation processes.

Appropriation—A fund authorization setup by an act of the Congress, which permits a department or other governmental agency to obligate the federal government to pay for goods or services. Appropriations may last for different periods of time.

Appropriation Language—The published text of an appropriations act in which the Congress spells out the dollar amounts authorized and the purposes for which those funds can be used. The text may contain certain limitations on the use of the funds.

Authorization Act—An act of the Congress giving authority to buy certain things when the appropriations also are made available by the Congress.

Budget—A planned program for a fiscal period in terms of estimated costs, obligations, and expenditures.

Budget Authority—Authority provided by the Congress, mainly in the form of appropriations, which allows federal agencies to incur obligations. Budget authority is composed of new obligational authority (NOA), defined below, plus loan authority (which is authority to incur obligations for loans, for example, debt payment and mortgages for military family housing).

Budget Cycle—That time necessary to formulate, review, present, and secure approval of the fiscal program for a specified ensuing period.

Budget Estimating—The process of determining the amounts, kinds, and costs of resources needed for accomplishing a mission.

Budget Year—The fiscal year covered by the budget estimate. A budget year begins 1 October and ends 30 September of the following calendar year. It is used by the federal government for accounting purposes, and is frequently referred to as "BY".

Citation of Fund—A letter, teletype, or formal document by which one agency tells another agency that it can commit and obligate money of the agency providing the document.

Commitment—An accounting procedure whereby funds are administratively earmarked for something to be bought in the near future. This procedure precedes obligation actions, and normally is based on firm procurement directives, orders, requisitions, or requests.

Conference Action—Joint session of conferees from the House of Representatives and the Senate to reconcile differences on a bill.

Cost Center—Any organizational element or function designated as an entity for the purpose of determining costs.

Defense Resources Board (DRB)—This is the corporate review body of the Secretary of Defense (SECDEF). It acts as a board of directors, and helps the SECDEF manage the planning, programming, budgeting system (PPBS) by reviewing planning issues and conducting program and budget reviews. The DRB also assists the SECDEF to ensure that acquisition of major systems is more closely aligned with the PPBS.

Defense Working Capital Fund (DWCF)—The DWCF, as implemented on 11 December 1996, is essentially a consolidation of two categories of revolving funds (stock funds and industrial funds) used in the Department of Defense (DoD) since the 1950s. DWCF business areas sell goods and services to their customers, the majority of which are DoD operating forces. Within the Air Force, DWCF business areas include Transportation (excluding common user functions assigned to the U.S. Transportation Command), Depot Maintenance, and Supply Management. There are a number of Divisions within the business areas.

Enrolled Bill—The appropriations, or any other, bill after both Houses of the Congress have passed it and before the President has signed it into law.

Expenditure—Actual payment for services or goods received.

Financial Management Data Dictionary (FMDD)—The Air Force Financial Management Data Dictionary (FMDD) is the Authoritative Data Source (ADS) for Air Force financial programming/execution/reporting data element code values, titles, descriptions and period of availability. FMDD provides both current and historical data values accessed by the Air Force Data Quality Service (DQS). The FMDD is updated by the data owner/steward. For FM Budget codes listed in Air Force Manual 65-604, SAF/FMB is considered the data steward. Access DQS through the Air Force Portal/ HAF - Headquarters Air Force : SAF/FM - Financial Management and Comptroller : Products & Services : Data Quality Service (DQS).

Fiscal Guidance—Annual guidance issued by the Secretary of Defense, which provides the fiscal constraints that must be observed by the Joint Chiefs of Staff, the military departments, and Defense agencies, in the formulation of force structures and Future Years Defense Programs, and by the Secretary of Defense staff in reviewing proposed programs.

Fiscal Year—The 12month period which begins 1 October of one year and ends 30 September of the next.

Industrial Fund—A type of financing mechanism established (with congressional authorization) by an agency as a source of funds for businesslike activities such as printing, transportation, and maintenance services. The proceeds from sales are retained in the fund to finance continuous operation. It is considered a revolving fund. See Defense Working Capital Fund (DWCF).

Military Interdepartmental Purchase Request (MIPR)—A requisition from one military department to another for services, supplies, or equipment.

Negative Unliquidated Obligation (NULO)—A payment of funds from the Treasury against which there is an unmatched or inadequate obligation recorded.

New Obligational Authority (NOA)—The amount the Congress appropriates for agency use over and above earlier appropriations and other funds the agency may have or expect to have from other sources.

Obligation—The estimate or actual amount of the cost of services or articles ordered. This estimate is carried in official accounting records, and serves as the basis for reserving funds, pending completion of the contract. This reservation of funds is required by public law.

Outlays—Checks issued, interest accrued on public debt, or other payments made, net of refunds and reimbursements.

Planning, Programming, and Budgeting System (PPBS)—An integrated Department of Defense resource management system. It is a method for establishing, maintaining, and revising the Future Years Defense Program and the Department of Defense Budget.

Program Element Code (PEC)—A description of a mission by the identification of the organizational entities and resources needed to perform the assigned mission. Resources consist of forces, manpower, materiel quantities, and costs, as applicable. The program element is the basic building block of the Future Years Defense Program.

Program Objective Memorandum (POM)—A periodic submission to the Secretary of Defense from each military department and Defense agency which proposes total program requirements for the next six years, and includes the rationale for planned changes from the approved Future Years Defense Program baseline in the Fiscal Guidance.

Program Year—A fiscal year in the Future Years Defense Program that ends not earlier than the second year beyond the current calendar year. Thus, during calendar year 1995 the first program year is fiscal year 1997.

Reclaim—A request to duly constituted authority to reconsider its decision or its proposed action.

Resource Management Decision (RMD)—A Secretary of Defense or Deputy Secretary of Defense decision authorizing changes to a submitted budget estimate and the Future Years Defense Program. The RMD document records the final decisions on Program Objective Memorandum (POM) proposals and approves Department of Defense component POM, as modified by decisions.

Revolving Fund—A fund established to finance a cycle of operations to which reimbursements and collections are returned for reuse in a manner such as will maintain the principal of the fund, e.g., working capital funds, industrial funds, and loan funds. See Defense Working Capital Fund.

Standard Financial Information Structure (SFIS)—is a comprehensive "common business language" that supports information and data requirements for budgeting, financial accounting, cost/performance management, and external reporting across the DoD enterprise. SFIS standardizes financial reporting across DoD, thereby reducing the cost of auditability. It allows revenues and expenses to be reported by programs that align with major goals versus by appropriation categories. It enables decision-makers to efficiently compare programs and their associated activities and costs across DoD. And, it provides a basis for common valuation of DoD programs, assets, and liabilities.

Stock Fund—See Supply Management Activity Group.

Supply Management Activity Group—(formerly Stock Fund) A revolving fund established to finance costs of inventories of supplies. It is authorized by specific provision of law to finance a continuing cycle of operations. Reimbursements and collections derived from such operations

are available for use by the fund, without further action by the Congress. Also referred to as Supply Business Activity. See Defense Working Capital Fund.

Total Obligational Authority (TOA)—The total financial requirements of the Future Years Defense Program, or any component thereof, required to support the approved program of a given fiscal year.

Unexpected Balance—The sum of the unobligated balance and the unliquidated obligations. (See below.)

Unliquidated Obligation—An obligation for which payment has not been made.

Unmatched Disbursement (UMD)—A payment that has been received by the Accounting Office but has not yet been entered into the accounting records.

Unobligated Balance—That portion of available funds which has not been obligated.
