DEPUTY UNDER SECRETARY OF DEFENSE
3015 DEFENSE PENTAGON
WASHINGTON, DC 20301-3015

ACQUISITION AND
TECHNOLOGY

APR -7 2009

The Honorable Joseph R. Biden, Jr.
President of the Senate
Washington, DC 20510

Dear Mr. President:

Section 1231 of the National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364), requires the Secretary of Defense to submit an annual report to the congressional defense committees on foreign military sales (FMS) and direct sales to foreign entities of significant military equipment manufactured in the United States during the preceding calendar year. The Department of Defense (DoD) has access to all required FMS data but must rely upon the Department of State (DoS) to provide the direct commercial sales data.

DoD has had, and continues to have, significant difficulty in timely obtaining the required commercial sales data from the DoS and submitted a combined report for Fiscal Years (FY) 2006 and 2007, which included all FMS of significant military equipment manufactured in the United States during that period but only included data on direct commercial sales to foreign entities for FY 2006. The report noted that DoD was still awaiting the direct commercial sales data for FY 2007 and would provide that data in a supplemental report when it was received from DoS. We have not received the FY 2007 data.

I am enclosing the required report on FMS of significant military equipment manufactured in the United States during FY 2008. Unfortunately, we do not have the necessary commercial sales data for FY 2008 from the DoS.

I am sending a copy of the report to the Speaker of the House and the Chairman and Ranking members of the congressional defense and appropriations committees.

Sincerely,

Shay D. Assad
Acting

Enclosure:
As stated

REPORT TO CONGRESS

DEPARTMENT OF DEFENSE SALES OF SIGNIFICANT MILITARY EQUIPMENT TO FOREIGN ENTITIES FISCAL YEAR 2008 March 2009

Office of the Under Secretary of Defense (Acquisition, Technology)

Background

Section 1231 of the John Warner National Defense Authorization Act for Fiscal Year 2007, (Public Law 109-364), requires the Secretary of Defense to submit an annual report to Congress on foreign military sales (FMS) and direct sales to foreign entities of significant military equipment manufactured in the United States during the preceding calendar year. The report is to identify for all sales of significant military equipment in excess of $2,000,000: (1) the nature of the equipment and the dollar value of the sales; (2) the country to which the equipment was sold; and (3) the manufacturer of the equipment and the State in which the equipment was manufactured. The law defines the term "significant military equipment" as having the meaning given the term in section 47(9) of the Arms Export Control Act (22 U.S.C. 2794(9) note).

The information requested by section 1231 is not stored in a single database. The Department of Defense is able to obtain and report information on FMS only. Information on direct commercial sales is available only through Department of State's Licensing Division. While the State Department will be able to provide most of the requested information on direct commercial sales, it does not track the state in which the equipment was manufactured and does not provide the manufacturer.

It should also be noted that the data required to satisfy the FMS reporting requirements of section 1231 is not available in a readily accessible data base and must be requested from each of the Components on a manual data call basis. Further, although section 1231 requests data on a calendar year basis, the Department of Defense collects its data on a fiscal year basis. Therefore, the FMS data reflects FMS purchases in FY 2008.

FMS Purchases

1. FY 2008

Fifty-seven countries procured significant military equipment (SME) that exceeded $2,000,000 through the FMS system in FY 2008. The total value of these purchases was $10,178,102,944. These purchases were made through the Air Force, Army, and Navy and Marine Corps. A detailed breakout of the purchases by military service, contract number, manufacturer, dollar value, type of hardware, and state of performance is set forth in Attachment 1.

Direct Commercial Sales

1. FY 2008

We are awaiting State Department input on the direct commercial sales authorized for FY 2008. We will submit a supplemental report if and when we receive the data.
