

THE UNDER SECRETARY OF DEFENSE

3010 DEFENSE PENTAGON
WASHINGTON, DC 20301-3010

ACQUISITION,
TECHNOLOGY
AND LOGISTICS

The Honorable Darrell E. Issa
Chairman
Committee on Oversight
and Government Reform
U.S. House of Representatives
Washington, DC 20515

MAY 18 2012

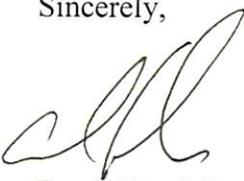

Dear Mr. Chairman:

Section 8306 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007, P.L. 110-028, modified the Buy American Act (41 U.S.C. 10a) by adding a requirement for the head of each Federal agency to submit a report to the committee on the amount of acquisitions made by the agency from entities that manufacture articles, materials, or supplies outside of the United States in each of the fiscal years 2007 through 2011. Enclosed is a report for Department of Defense purchases of manufactured articles from foreign entities in FY 2011.

The report must include: (1) the dollar value of any articles, materials, or supplies purchased that were manufactured outside the United States; (2) an itemized list of all waivers granted with respect to such articles, materials or supplies under the Buy American Act; (3) the specific exception under this section that was used to purchase such articles, materials, or supplies; and (4) a summary of the total procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

A similar letter has been sent to the Chairman of the Senate Committee on Homeland Security and Governmental Affairs.

Sincerely,

fk Frank Kendall
Acting

Enclosure:
As stated

**Department of Defense
Report to Congress on
Purchases of Supplies Manufactured
Outside the United States in FY 2011**

**Under Secretary of Defense
for Acquisition, Technology and Logistics**

May 2012

Preparation of this study/report cost the Department of Defense a total of approximately \$8,360 for FY 2012.
Cost Estimate Generated on 20120330 RefID: 1-D249DB6

Background

Section 8306 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (P.L. 110-028), modified the Buy American Act (41 U.S.C. 10a) by adding a requirement for the head of each Federal agency to submit a report to Congress on the amount of acquisitions made by the agency from entities that manufacture the articles, materials, or supplies outside of the United States in each of the fiscal years 2007 through 2011. The report is to separately identify (1) the dollar value of any articles, materials, or supplies purchased that were manufactured outside the United States; (2) provide an itemized list of all waivers granted with respect to such articles, materials or supplies under the Buy American Act (BAA); (3) the specific exception under this section that was used to purchase such articles, materials, or supplies; and (4) a summary of the total procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

Discussion

This report includes three sections: (1) all procurements from foreign entities and more specifically, purchases of articles, materials, or supplies/manufactured goods from such foreign entities; (2) waivers granted with respect to such articles, materials, or supplies under the BAA; and (3) a comparison of procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

The information presented in this report addresses FY 2011 and is based on data from the Federal Procurement Data System – New Generation (FPDS-NG), data compiled and distributed by Department of Defense's (DoD) Defense Manpower Data Center, Statistical Analysis Information Division, and data published by the Defense Security Cooperation Agency (DSCA). The FPDS-NG data addresses contracting procedures, competition, financing, statutory requirements, socioeconomic programs, and other information relating to DoD acquisitions.

Section 1 – Procurements from Foreign Entities

All procurements.

DoD procurement actions recorded in FPDS-NG during FY 2011 totaled approximately \$374 billion. Of that amount, approximately \$24 billion, or 6.4 percent, was expended on purchases from foreign entities.

Table 1 contains a detailed breakout of the dollars by country. The \$24 billion covers military hardware, subsistence, fuel, construction, services, and other miscellaneous items that are for use outside the United States. Defense equipment constitutes approximately 18 percent of the purchases from foreign entities. Fuel, services, construction, and subsistence account for approximately 27 percent, 15 percent, 12 percent, and 13 percent, respectively, or approximately 67 percent of the total purchases from foreign entities.

Table 2 provides a detailed breakout of the \$24 billion by category and percentage of total.

Procurement of manufactured articles.

This section focuses on defense articles provided by foreign entities that are manufactured outside the United States. Of the approximately \$24 billion that was expended on all purchases from foreign entities defined by the Defense Claimant Program (DCP), Table 3 notes that approximately \$7.8 billion was expended on contractual actions for the procurement of articles manufactured outside the United States.

Table 3 removes the data in Table 2 that are associated with petroleum, other fuels and lubricants, subsistence, construction, and services (DCPs A8A, A8B, B2, C2, and S1) to derive the \$7.8 billion for articles manufactured outside the United States. Table 3 further refines this data to exclude all activities/services included in the \$7.8 billion in DoD procurements from foreign entities that are not actually associated with manufactured goods. For example, Column 1 in Table 3 reflects a total of \$ 544,099,421.51 for DCP A1A. However, after removal of costs associated with various aircraft related services including research and development and maintenance, the adjusted figure for A1A is only \$461,377,023.14 as reflected in Column 2. Similar adjustments were made to the remaining DCPs, resulting in an adjusted total of approximately \$5.7 billion for procurement of articles manufactured outside the United States by foreign entities.

Table 4 provides a detailed breakout of DoD purchases by foreign country, dollars, and number of actions.

Table 5 refines the data even further to provide visibility into this information by DCPs, country, dollars, and the number of actions.

Section 2 – Waivers of the Buy American Act Granted with Respect to Such Articles, Materials, or Supplies

FPDS-NG data reflect that 2,645 waivers during FY 2011 were granted to Qualifying Countries for a total dollar value of \$1.1 billion dollars, representing 9.1 percent of the total DoD purchases from foreign entities. DoD purchases from foreign entities during FY 2011 also included 1,161 transactions for \$256 million dollars were pursuant to the Trade Agreement Act of 1979 or other international agreements. This authorized exception to the BAA represents 2.1 percent of all DoD purchases from foreign entities.

Other authorized exceptions to the BAA represent 4,691 purchases for approximately \$874 million dollars, or 7.1 percent, of all purchases from foreign entities during FY 2011. These exceptions provided in the law include: (1) manufactured outside the United States – Resale; (2) manufactured outside the United States – Commercial Information Technology; (3) manufactured outside the United States – Public Interest Determinations; (4) manufactured outside the United States – Unreasonable Cost of Domestic End Product.

Finally, 39,055 of the DoD purchases from foreign entities for approximately \$1.1 billion dollars (82 percent) represent items manufactured and used outside the United States to which the BAA does not apply.

Table 6 provides a detailed breakout of the actions and dollars by category and an explanation of the authority for each of the categories.

Section 3 – Comparison of Procurement Funds Spent on Goods Manufactured in the United States Versus Funds Spent on Goods Manufactured Outside the United States

Table 7 presents a comparison of contractual actions and dollars for procurement of goods manufactured by U.S. sources versus goods manufactured by foreign sources. As reflected in Table 7, DoD’s procurement of manufactured goods from U.S. sources totaled approximately \$145 billion as contrasted to DoD purchases of manufactured goods from foreign sources, which totaled \$5.7 billion, or roughly 3.9 percent, of all DoD’s procurement of manufactured goods in FY 2011.

Summary

This is the final report required by section 8306 of the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (P.L. 110-028), which modified the BAA (41 U.S.C. 10a) and directed the Department to report on the amount of acquisitions made by the agency from entities that manufacture the articles, materials, or supplies outside of the United States in each fiscal year 2007 through 2011.

Note: The Department has developed "express" reporting for high volume and contingency contracting in support of Afghanistan and Iraq. Under express reporting, details of the data are not reported. Instead, the data is rolled up and summarized in the miscellaneous category of C9E- a reflection of why the dollar value in this category is so high.

Column 1 is a dollar summary of all DoD procurement actions, both obligations & deobligations, during FY 2011 for the DCP's shown above. Not included in column 1 are the costs associated with petroleum, other fuels and lubricants, subsistence, construction and services (DCPs A8A, A8B, B2, C2, and S1).

Column 2 is a dollar summary of the dollar value of defense articles provided by foreign entities that are manufactured outside the U.S. The difference between column 1 and 2 is that the values of services associated with this hardware has been removed. For example, R&D, professional services, maintenance, repair & refurbishment, transportation, housekeeping services, etc. have been excluded. Column 2 is our estimate of the value of articles, materials, and supplies manufactured outside the U.S. by foreign entities.
