REPORT TO CONGRESS ON
DEPARTMENT OF DEFENSE
FISCAL YEAR 2010 PURCHASES
FROM FOREIGN ENTITIES

Under Secretary of Defense
for Acquisition, Technology and Logistics

July 2011

Preparation of this study/report cost the Department of Defense a total of approximately \$10,668 for FY 2011.
Generated on 2011Apr21 0822 RefID: 4-8D011F0

Background

Pursuant to Section 8030(a)(1) of the DoD Appropriations Act, 2010 (Public Law 111-118), this report details DoD purchases from foreign entities in FY 2010. The report separately indicates the dollar value of items for which the Buy American Act (BAA) was waived pursuant to any reciprocal defense procurement memorandum of understanding (MOU), the Trade Agreements Act (TAA), or any international agreement to which the United States is a party.

Discussion

The information presented in this report addresses FY 2010 and is based on data from the Federal Procurement Data System – Next Generation (FPDS-NG), data compiled and distributed by the DoD Defense Manpower Data Center, Statistical Analysis Information Division, and data published by the Defense Security Cooperation Agency (DSCA). The FPDS-NG data addresses contracting procedures, competition, financing, statutory requirements, socioeconomic programs and other information relating to DoD acquisitions.

Section 1 – All procurements from foreign entities

DoD procurement actions recorded in FPDS-NG during FY 2010 totaled approximately \$366 billion. Of that amount, approximately \$28.1 billion, or 7.7 percent, was expended on purchases from foreign entities. A detailed breakout of the dollars by country is contained in Table 1.

The \$28.1 billion covers military hardware, subsistence, fuel, construction, services, and other miscellaneous items that are for use outside the United States. Defense equipment constitutes approximately 17 percent of the purchases from foreign entities. Fuel, services, construction, and subsistence account for approximately 27 percent, 15 percent, 10 percent, and 12 percent, respectively, or approximately 64 percent of the total purchases from foreign entities. Table 2 provides a breakout of the \$28.1 billion by category and percentage of total.

Based on DSCA data, foreign purchases of U.S. defense articles and services in FY 2010 totaled approximately \$25.2 billion in Foreign Military Sales and \$6.4 billion in non-Foreign Military Sales for a combined total of \$31.6 billion in Security Assistance Sales. Furthermore, data from the Department of State outlined in Table 3 indicates that direct commercial sales over \$2 million to foreign entities equate to roughly \$13.5 billion. This data illustrates that sales to foreign entities are approximately 38 percent greater than purchases from foreign entities.

Section 2 – Dollar value of items for which the BAA was waived pursuant to any MOUs, the TAA, or other international agreements

FPDS-NG data reflect that 38,498 waivers of the BAA were granted for articles manufactured outside the United States during FY 2010. The value of these waivers total approximately \$13.8 billion. These utilized exceptions included those: (1) manufactured outside the United States for use outside the United States; (2) manufactured outside the United States –

Resale; (3) manufactured outside the United States – Trade Agreements; (4) manufactured outside the United States – Commercial IT; (5) manufactured outside the United States – Public Interest Determinations; (6) manufactured outside the United States – Unreasonable Cost of Domestic End Product; and (7) manufactured outside the United States – Qualifying Country.

Table 4 provides a detailed breakout of the actions and dollars by waiver category and an explanation of the authority for each of the waiver categories.
