

## Peer Review Recommendations, Lessons Learned

### Source Selection Feedback

---

<i>Type of Feedback</i>	<i>Review Phase</i>	<i>Type of Contract</i>
Lesson Learned	Phase 3	Weapon System Development

*Feedback:*

The Peer Review team recommended the contracting officer incorporate language into the source selection evaluation board (SSEB) report to explain how the source selection team determined which weaknesses would be discussed. The recommendation was followed and it proved to be highly beneficial during post award debriefings. Each of the unsuccessful offerors asked for clarification regarding the method the Government applied for bringing forth weaknesses during discussions and the contracting officer was able to quote directly from the SSEB report in response. No protests were filed.

*If feedback was a recommendation, was it implemented?*                      Yes
