MAY 07 2014

The Honorable Carl Levin  
Chairman  
Committee on Armed Services  
United States Senate  
Washington, DC 20510

Dear Mr. Chairman:

Pursuant to title 41, U.S.C., section 8305, enclosed is the required report for Department of Defense purchases from foreign entities in FY 2013. The report separately identifies the dollar value of items for which the Buy American Act was waived pursuant to a reciprocal defense memorandum of understanding, the Trade Agreements Act of 1979, or any other international agreement to which the United States is a party.

A similar letter has been sent to the President of the Senate, the Speaker of the House, and the other congressional defense committees.

Sincerely,

Frank Kendall

**REPORT TO CONGRESS ON  
DEPARTMENT OF DEFENSE  
FISCAL YEAR 2013 PURCHASES  
FROM FOREIGN ENTITIES**

Office of the Under Secretary of Defense for  
Acquisition, Technology, and Logistics

May 2014

The estimated cost of report or study for the Department of Defense is approximately \$1,210 for the 2013 Fiscal Year. This includes \$5 in expenses and \$1,205 in DoD labor.  
Cost estimate generated on April, 22 2014 RefID: A-F363AE8

## **Background.**

Pursuant to section 8305 of title 41, U.S.C., this is the required report on Department of Defense (DoD) purchases from foreign entities in FY 2013. The report is to separately indicate the dollar value of items for which the Buy American Act (BAA) was waived pursuant to any reciprocal defense procurement memorandum of understanding (MOU), the Trade Agreements Act (TAA) of 1979, or any international agreement to which the United States is a party.

## **Discussion.**

The information contained in this report is based on FY 2013 contract data from the Federal Procurement Data System – Next Generation (FPDS-NG) and data compiled and distributed by the DoD Defense Manpower Data Center, Statistical Analysis Information Division. The FPDS-NG data addresses contracting procedures, competition, financing, statutory requirements, socioeconomic programs, and other information relating to DoD acquisitions. The data was then certified by the Military Departments and Defense Agencies. Additionally, this report is modified from prior year's reports to present the data in Table 1 by the foreign entities' country of origin rather than the country where the place of performance occurred. This change is intended to provide a clear picture of purchases by those entities in terms of actions and dollars.

### **Section 1 – All procurements from foreign entities**

DoD procurement actions recorded and certified in FPDS-NG during FY 2013 totaled approximately \$308 billion. Of that amount, approximately \$19.7 billion or 6.4 percent was expended on purchases from foreign entities. A detailed breakout of the dollars by country is contained in Table 1.

The \$19.7 billion covers military hardware, subsistence, fuel, construction, services, and other miscellaneous items. Defense equipment constitutes approximately 4 percent of the purchases from foreign entities. Fuel, services, construction, and subsistence account for approximately 79 percent of the total purchases from foreign entities. The remaining 17 percent of the purchases cover a variety of categories. Table 2 provides a breakout of the \$19.7 billion by category and percentage of the total.

### **Section 2 – Dollar value of manufactured articles for which the restrictions of the BAA were not applied pursuant to MOUs, the TAA, or other international agreements**

The restrictions of the BAA were not applied to 28,887 DoD purchases totaling \$13.2 billion due to waivers, authorized exceptions, and inapplicability. The breakout of these purchases is as follows:

- The total authorized *waivers* pursuant to MOUs, the TAA, or other international agreements represented 5,888 purchases totaling approximately \$1.0 billion.
- The total authorized *exceptions* to the BAA represented 3,343 purchases for approximately \$500 million. These exceptions provided in the law include: (1) manufactured outside the United States – Resale; (2) manufactured outside the United States – Commercial Information Technology; (3) manufactured outside the United States – Public Interest Determinations; (4) manufactured outside the United States – Determination made based on Domestic Non-Availability; and (5) manufactured outside the United States – Unreasonable Cost of Domestic End Product.
- The remaining 19,656 purchases totaling approximately \$11.7 billion represent those contract actions for which the restrictions of the BAA *are not applicable* because they are for items manufactured and used outside the United States.

Table 3 provides a detailed breakout of the actions and dollars by category and an explanation of the authority for each of the categories.

Table 1
