

THE UNDER SECRETARY OF DEFENSE

3010 DEFENSE PENTAGON  
WASHINGTON, DC 20301-3010

ACQUISITION,  
TECHNOLOGY  
AND LOGISTICS

JUN - 6 2011

The Honorable Darrell E. Issa  
Chairman  
Committee on Oversight  
and Government Reform  
U.S. House of Representatives  
Washington, DC 20515

Dear Mr. Chairman:

Section 8306 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act for FY 2007, Public Law 110-028, modified the Buy American Act (41 U.S.C. 10a) by adding a requirement for the head of each Federal agency to submit a report to the committee on the amount of acquisitions made by the agency from entities that manufacture articles, materials, or supplies outside of the United States in each of the fiscal years (FYs) 2007 through 2011.

The report must include: (1) the dollar value of any articles, materials, or supplies purchased that were manufactured outside the United States; (2) an itemized list of all waivers granted with respect to such articles, materials or supplies under the Buy American Act; (3) the specific exception under this section that was used to purchase such articles, materials, or supplies; and (4) a summary of the total procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

Enclosed is the report for DoD purchases of manufactured articles from foreign entities in FY 2010. A similar letter has been sent to the Senate Committee on Homeland Security and Governmental Affairs.

Sincerely,

Ashton B. Carter

Enclosure:  
As stated

# **Department of Defense Report to Congress on Purchases of Supplies Manufactured Outside the United States in FY 2010**

**Under Secretary of Defense  
for Acquisition, Technology and Logistics**

**May 2011**

Preparation of this study/report cost the Department of Defense a total of approximately \$10,403 for FY 2011.  
Generated on 2011Apr27 1330 RefID: B-75DC8C7

## **REPORT TO CONGRESS**

### **DEPARTMENT OF DEFENSE FISCAL YEAR 2010 PURCHASES OF SUPPLIES MANUFACTURED OUTSIDE THE UNITED STATES**

**May 2011**

#### **Under Secretary of Defense for Acquisition, Technology and Logistics**

#### **Background**

Section 8306 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act for FY 2007 (Public Law 110-028), modified the Buy American Act (41 U.S.C. 10a) by adding a requirement for the head of each Federal agency to submit a report to Congress on the amount of acquisitions made by the agency from entities that manufacture the articles, materials, or supplies outside of the United States in each of the fiscal years 2007 through 2011. The report is to: (1) identify the dollar value of any articles, materials, or supplies purchased that were manufactured outside the United States; (2) provide an itemized list of all waivers granted with respect to such articles, materials or supplies under the Buy American Act (BAA); (3) identify the specific exception under this section that was used to purchase such articles, materials, or supplies; and (4) provide a summary of the total procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

#### **Discussion**

This report includes three sections: (1) all procurements from foreign entities and more specifically, purchases of articles, materials, or supplies/manufactured goods from such foreign entities; (2) waivers granted with respect to such articles, materials or supplies under the BAA; and (3) a comparison of procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

The information presented in this report addresses FY 2010 and is based on data from the Federal Procurement Data System – New Generation (FPDS-NG), data compiled and distributed by DoD's Defense Manpower Data Center, Statistical Analysis Information Division, and data published by the Defense Security Cooperation Agency (DSCA). The FPDS-NG data addresses contracting procedures, competition, financing, statutory requirements, socioeconomic programs and other information relating to DoD acquisitions.

## **Section 1 - Procurements from Foreign Entities**

**1(a) All procurements.** DoD procurement actions recorded in FPDS-NG during FY 2010 totaled approximately \$366 billion. Of that amount, approximately \$28.1 billion or 7.7 percent was expended on purchases from foreign entities.

**Table 1** contains a detailed breakout of the dollars by country. The \$28.1 billion covers military hardware, subsistence, fuel, construction, services, and other miscellaneous items that are for use outside the United States. Defense equipment constitutes approximately 17 percent of the purchases from foreign entities. Fuel, services, construction, and subsistence account for approximately 27 percent, 15 percent, 10 percent, and 12 percent, respectively, or approximately 64 percent of the total purchases from foreign entities.

**Table 2** provides a detailed breakout of the \$28.1 billion by category and percentage of total.

**1(b) Procurement of manufactured articles.** This section focuses on defense articles provided by foreign entities that are manufactured outside the United States. Of the approximately \$28.1 billion that was expended on all purchases from foreign entities defined by the Defense Claimant Program (DCP), **Table 3** notes that approximately \$10 billion was expended on contractual actions for the procurement of articles manufactured outside the United States. **Table 3** removes the data in **Table 2** that are associated with petroleum, other fuels and lubricants, subsistence, construction and services (DCPs A8A, A8B, B2, C3, and S1) to derive the \$10 billion for articles manufactured outside the United States. **Table 3** further refines this data to exclude all activities/services included in the \$10 billion in DoD procurements from foreign entities that are not actually associated with manufactured goods. For example, Column 1 in **Table 3** reflects a total of \$279,609,586 for DCP A1A. However, after removal of costs associated with various aircraft related services including R&D and maintenance, the adjusted figure for A1A is only \$167,517,721 as reflected in column 2. Similar adjustments were made to the remaining DCPs, resulting in an adjusted total of approximately \$7.8 billion for procurement of articles manufactured outside the United States by foreign entities. **Table 4** provides a detailed breakout of DoD purchases by foreign country, dollars, and number of actions. **Table 5** refines the data even further to provide visibility into this information by DCPs, country, dollars and the number of actions.

## **Section 2 - Waivers of the Buy American Act (BAA) Granted with Respect to such Articles, Materials or Supplies**

FPDS-NG data reflect that 38,498 waivers of the BAA were granted for articles manufactured outside the United States during FY 2010. The value of these waivers total approximately \$15.8 billion. These exceptions utilized included: (1) manufactured outside the United States for use outside the United States; (2) manufactured outside the United States—Resale; (3) manufactured outside the United States—Trade Agreements; (4) manufactured outside the United States—Commercial IT; (5) manufactured outside the United States—Public Interest

Determinations; (6) manufactured outside the United States–Unreasonable Cost of Domestic End Product; and (7) manufactured outside the United States–Qualifying Country.

**Table 6** provides a detailed breakout of the actions and dollars by waiver category and an explanation of the authority for each of the waiver categories.

### **Section 3 - Comparison of Procurement Funds Spent on Goods Manufactured in the United States Versus Funds Spent on Goods Manufactured Outside the United States**

**Table 7** presents a comparison of contractual actions and dollars for procurement of goods manufactured by U.S. sources versus goods manufactured by foreign sources. As reflected in Table 7, DoD's procurement of manufactured goods from U.S. sources totaled approximately \$133 billion as contrasted to DoD purchases of manufactured goods from foreign sources which totaled \$7.8 billion, or roughly 5.8 percent of all DoD's procurement of manufactured goods in FY 2010.

C9E	All other Supplies & Equipment	\$ 5,028,842,143	\$ 3,285,023,109
UNK	Not Coded	\$ 2,318,669	\$ (8,075)
<b>Total</b>		<b>\$ 9,975,962,714</b>	<b>\$7,748,122,452.54</b>

Note (1): The Department has developed "express" reporting for high volume and contingency contracting in support of Afghanistan and Iraq. Under express reporting, details of the data are not reported. Instead, the data is rolled up and summarized in the miscellaneous category of C9E- a reflection of why the dollar value in this category is so high.

Column 1 is a dollar summary of all DoD procurement actions, both obligations & deobligations, during FY 2010 for the DCP's shown above. Not included in column 1 are the costs associated with petroleum, other fuels and lubricants, subsistence, construction and services (DCPs A8A, A8B, B2, C2, and S1).

Column 2 is a dollar summary of the dollar value of defense articles provided by foreign entities that are manufactured outside the U.S. The difference between column 1 and 2 is that the values of services associated with this hardware has been removed. For example, R&D, Professional Services, Maintenance, Repair & Refurbishment, transportation, housekeeping services, etc. have been excluded. Column 2 is our estimate of the value of articles, materials, and supplies manufactured outside the US by foreign entities.
