**SUBPART 204.70--UNIFORM PROCUREMENT INSTRUMENT
IDENTIFICATION NUMBERS**
(Revised June 29, 2011)

204.7000 Scope.

This subpart—

(a) Prescribes policies and procedures for assigning numbers to all solicitations, contracts, and related instruments; and

(b) Does not apply to solicitations or orders for communication service authorizations issued by the Defense Information Technology Contracting Organization of the Defense Information Systems Agency in accordance with 239.7407-2.

204.7001 Policy.

(a) Use the uniform procurement instrument identification (PII) numbering system prescribed by this subpart for the solicitation/contract instruments described in [204.7003](#) and [204.7004](#).

(b) Retain the basic PII number unchanged for the life of the instrument unless the conditions in paragraph (c) of this section exist.

(c)(1) If continued performance under a contract number is not possible or is not in the Government's best interest solely for administrative reasons (e.g., when the supplementary PII serial numbering system is exhausted or for lengthy major systems contracts with multiple options), the contracting officer may assign an additional PII number by issuing a separate continued contract to permit continued contract performance.

(2) A continued contract—

(i) Does not constitute a new procurement;

(ii) Incorporates all prices, terms, and conditions of the predecessor contract effective at the time of issuance of the continued contract;

(iii) Operates as a separate contract independent of the predecessor contract once issued; and

(iv) Shall not evade competition, expand the scope of work, or extend the period of performance beyond that of the predecessor contract.

(3) When issuing a continued contract, the contracting officer shall—

(i) Issue an administrative modification to the predecessor contract to clearly state that—

(A) Any future awards provided for under the terms of the predecessor contract (e.g., issuance of orders or exercise of options) will be accomplished under the continued contract; and

(B) Supplies and services already acquired under the predecessor contract shall remain solely under that contract for purposes of Government inspection, acceptance, payment, and closeout; and

(ii) Follow the procedures at [PGI 204.7001\(c\)](#).

204.7002 Procedures.

(a) In assigning PII numbers—

- (1) Use only the alpha-numeric characters, as prescribed in this subpart; and
- (2) Do not use the letter “I” or “O”.

(b) If department/agency procedures require other identification on the solicitation, contract, or other related instrument forms, enter it in such a location so as to separate it clearly from the PII number.

(c) Enter the basic PII number, including Federal supply contract numbers and any supplementary numbers, in the spaces provided on the solicitation, contract, or related instrument forms. Separate the major elements by dashes, e.g., N00023-90-D-0009 (not necessary in electronic transmission). If there is no space provided on the form, enter the number in the upper right corner of the form and identify what it is (e.g., Supplementary Number N00023-90-F-0120).

204.7003 Basic PII number.

(a) *Elements of a number.* The number consists of 13 alpha-numeric characters grouped to convey certain information.

(1) *Positions 1 through 6.* The first six positions identify the department/agency and office issuing the instrument. Use the DoD Activity Address Code (DoDAAC) assigned to the issuing office. DoDAACs can be found at <https://www.daas.dla.mil/daasing/>.

(2) *Positions 7 through 8.* The seventh and eighth positions are the last two digits of the fiscal year in which the procurement instrument is issued or awarded.

(3) *Position 9.* Indicate the type of instrument by entering one of the following upper case letters in position nine—

- | | | |
|------|-----------------------------|---|
| (i) | Blanket purchase agreements | A |
| (ii) | Invitations for bids | B |

A separate series of serial numbers may be used for any type of instrument listed in paragraph (a)(3) of this section. Activities shall assign such series of PII numbers sequentially. An activity may reserve blocks of numbers or alpha-numeric numbers for use by its various components.

(b) *Illustration of PII number.* The following illustrates a properly configured PII number—

204.7004 Supplementary PII numbers.

(a) *Uses of the supplementary number.* Use supplementary numbers with the basic PII number, to identify—

- (1) Amendments to solicitations;
- (2) Modifications to contracts and agreements, including provisioned item orders; and
- (3) Calls or orders under contracts, basic ordering agreements, or blanket purchase agreements, issued by the contracting office or by a DoD activity other than the contracting office, including DoD orders against Federal supply schedules.

(b) *Amendments to solicitations.* Number amendments to solicitations sequentially using a four position numeric serial number added to the basic PII number and beginning with 0001, e.g., N00062-91-R-1234-0001.

(c) *Modifications to contracts and agreements.*

(1) Number modifications to contracts and agreements using a six position alpha-numeric added to the basic PII number.

(2) *Position 1.* Identify the office issuing the modification—

(3) *Positions 2 through 3.* These are the first two digits in a serial number. They may be either alpha or numeric. Use the letters K, L, M, N, P, Q, S, T, U, V, W, X, Y, or Z only in the second position and only in the following circumstances—

(i) Use K, L, M, N, P, and Q in the second position only if the modification is issued by the Air Force and is a provisioned item order.

(ii) Use S, and only S, in the second position to identify modifications issued to provide initial or amended shipping instructions when—

(A) The contract has either FOB origin or destination delivery terms;
and

(B) The price changes.

(iii) Use T, U, V, W, X, or Y, and only those characters, in the second position to identify modifications issued to provide initial or amended shipping instructions when—

(A) The contract has FOB origin delivery terms; and

(B) The price does not change.

(iv) Only use Z in the second position to identify a modification which definitizes a letter contract.

(5) If the contract administration office is changing the contract administration or disbursement office for the first time and is using computer generated modifications to notify many offices, it uses the six position supplementary number ARZ999. If either office has to be changed again during the life of the contract, the supplementary number will be ARZ998, and on down as needed.

(6) Each office authorized to issue modifications shall assign the supplementary identification numbers in sequence. Do not assign the numbers until it has been determined that a modification is to be issued.

(d) Delivery orders under indefinite delivery contracts, orders under basic ordering agreements, and calls under blanket purchase agreements.

(1) Calls or orders issued by the office issuing the contract or agreement. Use a four position alpha-numeric call or order serial number added to the basic PII number. These shall be identified by using serial numbers beginning 0001 through 9999. When

The third and fourth positions are a two position serial number assigned by the ordering office. The series will begin with 01. When the numbers exceed 99, the office will assign a uniform series of identifiers containing alpha and/or numeric characters, e.g., Basic #: N00383-91-D-0001 serial #: TU01.

(ii) If an office is placing calls or orders with NIB, NISH, or UNICOR, the office shall identify the instrument with a 13 position supplementary PII number using an F in the 9th position. Modifications to these calls or orders shall be numbered in accordance with paragraph (c) of this section, e.g., Order #: DLA100-91-F-0001 modification #: A00001.

(e) *Modifications to calls or orders.* Use a two position alpha-numeric suffix, known as a call or order modification indicator, to identify a modification to a call or order.

(1) Modifications to a call or order issued by a purchasing office begin with 01, 02, and so on through 99, then B1 through B9, BA through BZ, C1 through C9, and so on through ZZ.

(2) Modifications to a call or order issued by a contract administration office begin with 1A, 1B, and so on through 9Z, followed by A1, A2, and so on to A9, then AA, AB, and so on through AZ.

204.7005 Assignment of order codes.

(a) Defense Procurement and Acquisition Policy, Program Development and Implementation, maintains the order code assignments for use in the first two positions of an order number when an activity places an order against another activity's contract or agreement (see [204.7004\(d\)\(2\)](#)).

(b) Contracting activities shall follow the procedures at [PGI 204.7005](#) for requests for assignment of or changes in two-character order codes.

(c)(i) In acquisitions that require use of the clause at FAR 52.219-9, Small Business Subcontracting Plan, other than those based on the lowest price technically acceptable source selection process (see FAR 15.101-2), the extent of participation of small businesses and historically black colleges or universities and minority institutions in performance of the contract shall be addressed in source selection. The contracting officer shall evaluate the extent to which offerors identify and commit to small business and historically black college or university and minority institution performance of the contract, whether as a joint venture, teaming arrangement, or subcontractor.

(A) See PGI [215.304\(c\)\(i\)\(A\)](#) for examples of evaluation factors.

(B) Proposals addressing the extent of small business and historically black college or university and minority institution performance may be separate from subcontracting plans submitted pursuant to the clause at FAR 52.219-9 and should be structured to allow for consideration of offers from small businesses.

(C) When an evaluation assesses the extent that small businesses and historically black colleges or universities and minority institutions are specifically identified in proposals, the small businesses and historically black colleges or universities and minority institutions considered in the evaluation shall be listed in any subcontracting plan submitted pursuant to FAR 52.219-9 to facilitate compliance with [252.219-7003\(g\)](#).

(ii) In accordance with 10 U.S.C. 2436, consider the purchase of capital assets (including machine tools) manufactured in the United States, in source selections for all major defense acquisition programs as defined in 10 U.S.C. 2430.

(iii) See [247.573-2\(c\)](#) for additional evaluation factors required in solicitations for the direct purchase of ocean transportation services.

(iv) In accordance with section 812 of the National Defense Authorization Act for Fiscal Year 2011, consider the manufacturing readiness and manufacturing-readiness processes of potential contractors and subcontractors as a part of the source selection process for major defense acquisition programs.

See DoD Class Deviation [2011-O0014](#), Past Performance Reporting, issued on June 27, 2011. This deviation is in effect until incorporated into the DFARS or otherwise rescinded.

215.305 Proposal evaluation.

See PGI [215.370-2](#) for guidance on use of this evaluation factor.

215.370-3 Solicitation provision and contract clause.

(b) Use the clause at [252.215-7006](#), Use of Employees or Individual Subcontractors Who are Members of the Selected Reserve, in solicitations that include the provision at [252.215-7005](#). Include the clause in the resultant contract only if the contractor stated in its proposal that it intends to perform the contract using employees or individual subcontractors who are members of the Selected Reserve, and that statement was used as an evaluation factor in the award decision.

Part 252—Solicitation Provisions and Contract Clauses

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American Act; or

(B) The end product is a COTS item.

(4) “End product” means those articles, materials, and supplies to be acquired under this contract for public use.

(5) “Foreign end product” means an end product other than a domestic end product.

(6) “Qualifying country” means any country set forth in subsection [225.872-1](#) of the Defense Federal Acquisition Regulation Supplement (DFARS).

(B) Components mined, produced, or manufactured in the United States.

(9) “United States” means the 50 States, the District of Columbia, and outlying areas.

(b) This clause implements the Buy American Act (41 U.S.C. Section 10a-d). In accordance with 41 U.S.C. 431, the component test of the Buy American Act is waived for an end product that is a COTS item (see section 12.505(a)(1) of the Federal Acquisition Regulation). Unless otherwise specified, this clause applies to all line items in the contract.

(c) The Contractor shall deliver only domestic end products unless, in its offer, it specified delivery of other end products in the Buy American Act—Balance of Payments Program Certificate provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, the Contractor shall deliver a qualifying country end product or, at the Contractor’s option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

(b) This clause implements the Balance of Payments Program. Unless otherwise specified, this clause applies to all line items in the contract.

(c) The Contractor shall deliver only domestic end products unless, in its offer, it specified delivery of other end products in the Buy American Act Balance of Payments Program Certificate provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or an SC/CASA state end product, the Contractor shall deliver a qualifying country end product an SC/CASA state end product, or, at the Contractor's option, a domestic end product.

Part 252—Solicitation Provisions and Contract Clauses

(ii) If two metals are specified in the name (e.g, nickel-iron alloy), those metals are the two predominant elements in the alloy, and together they constitute 50 percent or more of the alloy (by mass).

(2) “Assembly” means an item forming a portion of a system or subsystem that—

(i) Can be provisioned and replaced as an entity; and

(ii) Incorporates multiple, replaceable parts.

(3) “Commercial derivative military article” means an item acquired by the Department of Defense that is or will be produced using the same production facilities, a common supply chain, and the same or similar production processes that are used for the production of articles predominantly used by the general public or by nongovernmental entities for purposes other than governmental purposes.

(4) “Commercially available off-the-shelf item”—

(i) Means any item of supply that is—

(A) A commercial item (as defined in paragraph (1) of the definition of “commercial item” in section 2.101 of the Federal Acquisition Regulation);

(B) Sold in substantial quantities in the commercial marketplace; and

(5) “Component” means any item supplied to the Government as part of an end item or of another component.

(6) “Electronic component” means an item that operates by controlling the flow of electrons or other electrically charged particles in circuits, using interconnections of electrical devices such as resistors, inductors, capacitors, diodes, switches, transistors, or integrated circuits. The term does not include structural or mechanical parts of an assembly containing an electronic component, and does not include any high performance magnets that may be used in the electronic component.

Part 252—Solicitation Provisions and Contract Clauses

(7) “End item” means the final production product when assembled or completed and ready for delivery under a line item of this contract.

(8) “High performance magnet” means a permanent magnet that obtains a majority of its magnetic properties from rare earth metals (such as samarium).

(9) “Produce” means the application of forces or processes to a specialty metal to create the desired physical properties through quenching or tempering of steel plate, gas atomization or sputtering of titanium, or final consolidation of non-melt derived titanium powder or titanium alloy powder.

(10) “Qualifying country” means any country listed in the definition of “Qualifying country” at [225.003](#) of the Defense Federal Acquisition Regulation Supplement (DFARS).

(c) *Exceptions.* The restriction in paragraph (b) of this clause does not apply to—

(1) Electronic components.

(2)(i) Commercially available off-the-shelf (COTS) items, other than—

(A) Specialty metal mill products, such as bar, billet, slab, wire, plate, or sheet, that have not been incorporated into COTS end items, subsystems, assemblies, or components;

(B) Forgings or castings of specialty metals, unless the forgings or castings are incorporated into COTS end items, subsystems, or assemblies;

modified prior to contractual acceptance by the next higher tier in the supply chain.

(A) Specialty metals in a COTS item that was accepted without modification by the next higher tier are excepted from the restriction in paragraph (b) of this clause, and remain excepted, even if a piece of the COTS item subsequently is removed (e.g., the end is removed from a COTS screw or an extra hole is drilled in a COTS bracket).

(B) Specialty metals that were not contained in a COTS item upon acceptance, but are added to the COTS item after acceptance, are subject to the restriction in paragraph (b) of this clause (e.g., a special reinforced handle made of specialty metal is added to a COTS item).

(C) If two or more COTS items are combined in such a way that the resultant item is not a COTS item, only the specialty metals involved in joining the COTS items together are subject to the restriction in paragraph (b) of this clause (e.g., a COTS aircraft is outfitted with a COTS engine that is not the COTS engine normally provided with the aircraft).

(D) For COTS items that are normally sold in the commercial marketplace with various options, items that include such options are also COTS items. However, if a COTS item is offered to the Government with an option that is not normally offered in the commercial marketplace, that option is subject to the restriction in paragraph (b) of this clause (e.g. - An aircraft is normally sold to the public with an option for installation kits. The Department of Defense requests a military-unique kit. The aircraft is still a COTS item, but the military-unique kit is not a COTS item and must comply with the restriction in paragraph (b) of this clause unless another exception applies).

(3) Fasteners that are commercial items, if the manufacturer of the fasteners certifies it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to the Department of Defense and other customers, that is not less than 50 percent of the total amount of the specialty metal that it will purchase to carry out the production of such fasteners for all customers.

(4) Items manufactured in a qualifying country.

(5) Specialty metals for which the Government has determined in accordance with DFARS [225.7003-3](#) that specialty metal melted or produced in the United States, its outlying areas, or a qualifying country cannot be acquired as and when needed in—

(i) A satisfactory quality;

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(ii) A sufficient quantity; and

(iii) The required form.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States, an outlying area, or a qualifying country, that are not covered by one of the other exceptions in this paragraph (c)), if the total weight of such noncompliant metals does not exceed 2 percent of the total weight of all specialty metals in the end item, as estimated in good faith by the Contractor. This exception does not apply to high performance magnets containing specialty metals.

(d) *Compliance for commercial derivative military articles.*

(1) As an alternative to the compliance required in paragraph (b) of this clause, the Contractor may purchase an amount of domestically melted or produced specialty metals in the required form, for use during the period of contract performance in the production of the commercial derivative military article and the related commercial article, if—

(i) The Contracting Officer has notified the Contractor of the items to be delivered under this contract that have been determined by the Government to meet the definition of “commercial derivative military article”; and

(ii) For each item that has been determined by the Government to meet the definition of “commercial derivative military article,” the Contractor has certified, as specified in the provision of the solicitation entitled “Commercial Derivative Military Article—Specialty Metals Compliance Certificate” (DFARS [252.225-7010](#)), that the Contractor and its subcontractor(s) will enter into a contractual agreement or agreements to purchase an amount of domestically melted or produced specialty metal in the required form, for use during the period of contract performance in the production of each commercial derivative military article and the related commercial article, that is not less than the Contractor’s good faith estimate of the greater of—

(A) An amount equivalent to 120 percent of the amount of specialty metal that is required to carry out the production of the commercial derivative military article (including the work performed under each subcontract); or

(B) An amount equivalent to 50 percent of the amount of specialty metal that will be purchased by the Contractor and its subcontractors for use during such period in the production of the commercial derivative military article and the related commercial article.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(2) For the purposes of this alternative, the amount of specialty metal that is required to carry out production of the commercial derivative military article includes specialty metal contained in any item, including COTS items.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause in subcontracts for items containing specialty metals, to the extent necessary to ensure compliance of the end products that the Contractor will deliver to the Government. When inserting the substance of this clause in subcontracts, the Contractor shall—

(1) Modify paragraph (c)(6) of this clause as necessary to facilitate management of the minimal content exception;

(2) Exclude paragraph (d) of this clause; and

(3) Include this paragraph (e).
