

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(Revised June 29, 2012)

### PGI 204.6—CONTRACT REPORTING

#### PGI 204.602 General.

(1) *Helpful documents.* The Federal Procurement Data System (FPDS) website at <https://www.fpds.gov> provides useful documents and on-line training to assist with FPDS data entry. Key manuals can be found at the top of the website homepage under the “Training” and “Worksite” drop-down links to include:

(i) FPDS Data Element Dictionary – The data dictionary outlines relevant information for each data field. The version 1.4 Data Dictionary identifies whether a data field is Required, Optional, Propagates from the base action, Not Applicable or System Generated, for each type of data entry screen (Awards, Indefinite Delivery Vehicles, and Transactions/Modifications). It also identifies the source of data entry (e.g., Contracting Officer, Central Contractor Registration, FPDS); the format of the field; and whether the field input is derived from entries in other fields. At the back of the Data Dictionary is a useful summary “J3 DoD Use Case Summary.” Note that version 1.3 of the Data Dictionary (and earlier editions) used a term called “Not Required,” and did not distinguish between Not Applicable, Propagates, or System Generated. If a data field is identified as “Not Required,” it may mean that the data is pre-populated from another source, such as the Central Contractor Registration for vendor data, or the originating contract action report if the current action is referencing a previously reported award.

(ii) FPDS Data Validations – This document identifies all the validation rules that are applied to data entry. The majority of the rules apply Governmentwide. DoD specific validation rules appear at “J5.5.1 DoD Specific Validations.”

(iii) FPDS Users Manual – This manual provides guidance on the various types of data entry screens and addresses whether a particular field is: [R] – requires contracting officer/buyer entry; [A] – pre-populated by FPDS or a contract writing system, if using machine-to-machine process; or [C] – calculated by FPDS for each type of data entry screen. However, the nature of the field is determined based on Governmentwide requirements. To determine DoD-specific requirements, refer to J3 “DoD Use Case Summary” in the FPDS Data Element Dictionary.

(2) *Reporting technical or policy issues.*

(i) *Technical issues.* To report an FPDS technical issue—

(A)(1) Users of the Standard Procurement System (SPS) should contact their local SPS Help Desk (authorized SPS caller);

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(2) Users of other contract writing systems should contact the local contract writing system administrator to determine the appropriate procedures; and

(3) Web users should contact their local system administrator, who will then contact the FPDS Help Desk; or

(B) If the issue is an obvious FPDS technical issue that needs to be documented and corrected by the system, the user should contact the FPDS Help Desk, by phone at 703-390-5360 or by e-mail at [fpdssupport@gcefederal.com](mailto:fpdssupport@gcefederal.com). When e-mailing the FPDS Help Desk, also send a copy to the applicable agency representative identified in paragraph (2)(iii) of this section.

(ii) *Policy issues.* Report policy issues to the applicable agency representative identified in paragraph (2)(iii) of this section.

(iii) *Agency representatives.* Department and component FPDS representatives and their contact information can be found on the DPAP website at [http://www.acq.osd.mil/dpap/pdi/eb/federal\\_procurement\\_data\\_system\\_-\\_next\\_generation\\_fpds-ng.html](http://www.acq.osd.mil/dpap/pdi/eb/federal_procurement_data_system_-_next_generation_fpds-ng.html) under “Additional Resources.”

### PGI 204.606 Reporting data.

(1) *Methods of reporting to FPDS.*

(i) *Individual contract action report (CAR) (one CAR per contract action).*

The normal method of reporting to FPDS is through the use of individual CARs. However, see paragraphs (1)(ii) and (iii) of this section for exceptions to individual reporting.

(ii) *Multiple CARs (more than one CAR per contract action).*

(A) Prepare multiple CARs if—

(1) The contract or order award is anticipated to include foreign military sales (FMS) funding in addition to non-FMS funding.

(2) The contract or order award includes line items with more than one type of contract pricing (e.g., fixed-price, cost-plus-fixed-fee) and at least two of the types of contract pricing have a dollar value greater than \$5,000,000 for that type. Use a separate CAR for each type of contract pricing arrangement.

(B) The determination of whether multiple CARs are needed for the situations described in (A) of this section is made when the contract or order is awarded. Contracting officers are not required to delete and re-enter CARs in FPDS as multiple CARs if, during

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

the life of the contract or order, subsequent unanticipated modifications make the award eligible for multiple CARs.

(C) The following multiple CAR transaction identification numbers have been established for reporting multiple CARs and shall be used by all DoD contracting offices. Do not use transaction numbers other than '0' if the requirements for multiple CARs in (A) and (B) of this section do not apply at the time of contract or order award. When reporting modifications, include the transaction number that was reported on the initial base award in order to properly identify the referenced contract action report. If both situations described in PGI [204.606](#)(1)(ii)(A) exist, transaction numbers should be assigned based on FMS and non-FMS rather than by type of contract pricing arrangement.

Transaction Type	Transaction Number
No multiple CARs	0
DoD-Cost	1
DoD-Cost-Sharing	2
DoD-CPAF	3
DoD-CPFF	4
DoD-CPIF	5
DoD-FFP	6
DoD-FP-EPA	7
DoD-FP-LOE	8
DoD-FPAF	9
DoD-FPI	10
DoD-FPR	11
DoD-LH	12
DoD-TM	13
FMS	14
Non-DoD	15
Non-FMS	16
DoD	17

(iii) *Express reporting (consolidated reporting of multiple contract actions, to be submitted at least monthly).*

(A) Express reporting may be used for—

(1) Multiple contract actions against a single contract or agreement, when monthly volume of actions is such that individual contract action reporting is overly burdensome (e.g., orders placed by the Defense Commissary Agency for resale; installation housing maintenance; and recurring blanket purchase agreement actions);

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(2) Multiple contract actions accomplished away from the contracting office, such as ships away from home port; contingency, humanitarian, or peacekeeping operations; or other remote deployments;

(3) Multiple delivery orders that use the Governmentwide purchase card as both the method of purchase and payment under federal supply schedules, Governmentwide acquisition contracts (GWACs), blanket purchase agreements (BPAs), basic ordering agreements (BOAs), and other indefinite-delivery type contracts;

(4) Multiple contract actions for energy-related supplies and associated services accomplished by the Defense Logistics Agency (DLA) Energy; and

(5) Orders under communications service agreements for local dial tone services, in accordance with agency procedures.

(B) When express reports reflect more than one contractor for overseas actions or consolidated delivery orders made using the Government purchase card where identification of the contract or agreement is not possible, use the appropriate generic DUNS number.

(C) When express reports are used, sum all of the actions and enter in the 'Number of Actions' data field. Also sum all of the obligations and enter in the 'Action Obligation', 'Base and Exercised Options Value', and 'Base and All Options Value' data fields. Express reports must be submitted no less frequently than monthly.

(2) *Actions not reported.* In addition, to the types of actions listed in FAR 4.606(c), do not report the following types of actions to FPDS:

(i) Orders placed by ordering officers against indefinite-delivery vehicles awarded by—

(A) The United States Transportation Command (USTRANSCOM) or its components for decentralized transportation-related services. USTRANSCOM will report these orders. Contracting officers shall submit consolidated reports of orders (bookings/bills of lading) at least annually to USTRANSCOM; or

(B) The Defense Logistics Agency (DLA) Energy for energy-related supplies and associated services. DLA Energy will report these orders.

(ii) Contracts, agreements, or orders that are themselves classified.

(3) *Specific instructions for entering data in FPDS.*

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(i) Contracting officers shall choose the correct FPDS format (e.g., purchase order, basic ordering agreement (BOA), blanket purchase agreement (BPA)) to report the award of a new contract, agreement, or order. Note that prior to FY10, DoD offices reported BOAs and BPAs as Indefinite-Delivery Contracts (IDCs) in FPDS; BPA calls issued under those pre-FY10 reported BPAs are reported using the task/delivery order format in FPDS. BPA calls issued under DoD issued BPAs reported FY10 or later or any civilian agency issued BPA should be reported using the BPA call format.

(ii) The remaining instructions in this section cover the different sections of an FPDS contract action report, as presented to the user in the system. Not every data element is addressed here, as many are self-explanatory. Users should also consult the FPDS User Manual referenced in [PGI 204.602\(1\)\(iii\)](#) for more complete descriptions and examples. Also, the instructions in this section use data field names based on what is shown to the user while entering data in FPDS; for more specific information, review the FPDS Data Element Dictionary referenced in [PGI 204.602\(1\)\(i\)](#).

(iii) *FPDS Entry – Document Information Section.*

(A) Enter the new contract, agreement, or order number in the 'Procurement Identifier' data field. Note that new awards will be reflected as Modification 0 in FPDS.

(B) If the action is a BPA awarded against a Federal Supply Schedule, enter the Federal Supply Schedule contract number in the 'Referenced IDV' data field.

(C) If the action is a delivery order awarded against a Federal Supply Schedule, Governmentwide acquisition contract (GWAC), BOA, or other indefinite-delivery contract (IDC); enter that contract or BOA number in the 'Referenced IDV' data field.

(D) If the action is a BPA call awarded against a BPA, enter the BPA number in the 'Referenced IDV' data field.

(E) If the action is a modification, enter the contract, agreement, or order number in the 'Procurement Identifier' data field and the modification number in the 'Modification No' data field.

(F) If multiple reports are required by [PGI 204.606\(1\)\(ii\)](#), then enter the appropriate transaction number in the 'Trans No' data field.

(G) If the award is associated with a solicitation, enter the solicitation number in the 'Solicitation ID' data field.

(H) If the award is associated with an initiative identified in FPDS (e.g., American Recovery and Reinvestment Act), choose the appropriate value in the 'Initiative' data field.

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(iv) *FPDS Entry – Treasury Account Symbol (TAS) data fields.*

(A) The TAS is used in FPDS to identify the type of funding obligated on a contract action. Per guidance from the Office of Management and Budget, the TAS is used as the 'program source' data element required by the Federal Funding Accountability and Transparency Act.

(B) The TAS should be provided by the requiring organization with the purchase request, and is often part of the line of accounting. The list of valid TAS is maintained by the Department of Treasury in the FASTBook; an on-line version of the FASTBook is available at <http://www.fms.treas.gov/fastbook/index.html>. Each TAS reported to FPDS includes a character agency identifier and a four character main account code (example: 97 0100). Some TAS also require a three character subaccount code. Note that the Department of Treasury FASTBook indicates a transition from a two character agency identifier to a three character agency identifier, completing in FY14. However at this time, DoD contracting officers are advised to drop the leading zero (0) from a three character agency identifier, and enter the next two characters in FPDS (e.g., 097 becomes 97).

(C) Report the TAS on CARs for each contract action with an obligation amount other than \$0. The TAS that is reported on a CAR should represent the predominant type of funding in terms of absolute dollars obligated and deobligated on the specific contract action being reported.

(D) For contract actions awarded by working capital funds offices, and the original type of funds received from the customer are not tied to specific procurements or otherwise identifiable, use the TAS that represents the working capital funds provided.

(E) For contract actions funded by foreign governments, and those funds are not considered under the Foreign Military Financing Program identified by the Department of Treasury in its FASTBook, in order to report the action to FPDS using the code that most closely approximates the use of the funds, then enter—

(1) 97 0100 (Operation and Maintenance, Defense-Wide, Defense) as the TAS for requirements that can be categorized as operations and maintenance in nature;

(2) 97 0300 (Procurement, Defense-Wide) as the TAS for requirements that can be categorized as procurement in nature; or

(3) 97 0400 (Research, Development, Test, and Evaluation, Defense-Wide) as the TAS for requirements that can be categorized as research and development in nature.

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(F) USTRANSCOM should use 97 0100 (Operation and Maintenance, Defense-Wide, Defense) as the TAS when reporting the consolidated orders of from their decentralized transportation-related services contracts.

(G) Additional information regarding the TAS is available in Frequently Asked Questions on the DPAP website at <http://www.acq.osd.mil/dpap/> in the eBusiness / FPDS section.

(v) *FPDS Entry – Dates Section.*

(A) The 'Date Signed' data field represents the date the contracting officer signed or otherwise awarded the contract action. For actions where a verbal authorization to proceed was given prior to the signed contract action, use the date of the verbal authorization.

(B) The date entered in the 'Completion Date' data field shall be the latest period of performance / delivery date of all of the exercised line items on the contract or order. This data field must be updated on the contract action report used to report the modification whenever line items are added or exercised by modification that extend the period of performance / delivery date beyond what was previously entered, including the exercise of any option years.

(C) The date entered in the 'Est. Ultimate Completion Date' data field shall be the latest period of performance / delivery date of all line items on the contract or order, including unexercised line items and option years. This data field must be updated on the contract action report used to report the modification whenever line items are added or changed by modification that extend the period of performance/delivery date beyond what was previously entered.

(D) The date entered in the 'Last Date to Order' data field on indefinite-delivery contracts, BOAs, and BPAs shall be the last date allowed by the contract for the contractor to accept orders. This data field must be updated whenever this date is changed by modification from what was previously entered.

(vi) *FPDS Entry – Amounts Section.*

(A) When entering a net deobligation on a contract action, include the minus (-) sign.

(B) The amount entered in the 'Base and Exercised Options Value' for new awards shall be the total value of all the exercised line items on the contract or order regardless of whether they are partially or fully funded. This data field must be updated on the contract action report used to report the modification whenever the current value of the contract or order is changed by modification, including when options are exercised. When

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

reporting such a modification, report the net value of the change itself in 'Current' field; FPDS will calculate the new total Base and Exercised Options Value.

(C) The amount entered in the 'Base and All Options Value' for new awards shall be the total potential value of the award (i.e., total price, total not-to-exceed amount, maximum award amount, etc), including the value of all unexercised line items and options. This data field must be updated on the contract action report used to report the modification whenever the total potential value is changed by modification. When reporting such a modification, report the net value of the change itself in 'Current' field; FPDS will calculate the new total Base and All Options Value.

(vii) *FPDS Entry – Purchaser Information Section.*

(A) Enter the contracting office's DoD Activity Address Code (DoDAAC) in as the 'Contracting Office ID' data field.

(B) If the requiring organization is a DoD organization, enter the DoDAAC for the requiring office in the 'Funding Office ID' data field. This is normally the DoDAAC that is included on the purchase request in the purchase request number. If the contract action is supporting working capital funded efforts and the specific requiring office is unknown, enter the DoDAAC for the working capital funded office.

(C) If the requiring organization is not a DoD organization, enter the Funding Office ID provided on the interagency agreement in the 'Funding Office ID' data field.

(viii) *FPDS Entry – Contractor Information Section.*

(A) Enter the DUNS number for the vendor in the 'DUNS No.' data field. This DUNS number will be used to pull the associated current record from the Central Contractor Registration (CCR) database.

(B) If a CCR exception applies to the procurement, ensure the correct exception is chosen from the 'CCR Exception' data field. In this case the DUNS number entered in the 'DUNS No.' data field will be used to pull the contractor's name and location information from Dun & Bradstreet's database.

(ix) *FPDS Entry – Contract Data Section.*

(A) On the contract action report used to report the base award, choose the type of contract pricing in the 'Type of Contract' data field that is applicable to the predominant amount of the action, based on the value of the line items. This value will automatically populate any subsequent contract action reports for modifications.

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(B) Enter '1' in the 'Number of Actions' data field unless using Express Reporting procedures described in [PGI 204.606\(1\)\(iii\)](#).

(x) *FPDS Entry – Legislative Mandates Section.*

(A) For the 'Clinger-Cohen Act', 'Service Contract Act', 'Walsh-Healey Act', and 'Davis Bacon Act'; answer 'Yes' if the acts apply to any of the line items on the award. For the 'Service Contract Act', 'Walsh-Healey Act', and 'Davis Bacon Act', choose 'Not Applicable' if the act itself is not applicable based on implementation requirements in the FAR for each act, or choose 'No' if the act is applicable, but the associated clauses were not included in the award. For the 'Clinger-Cohen Act', choose 'No' if either the Act is not applicable or the planning requirements from the act were not accomplished.

(B) If the contracting officer selects 'Other Statutory Authority' in the 'Interagency Contracting Authority', they must enter the name of the other authority in the associated text box.

(xi) *FPDS Entry – Principal Place of Performance Section.*

(A) For supplies, the data entered in this section shall reflect the predominant place where manufacturing occurred or where procured finished products were taken out of inventory. Do not enter the Government delivery location.

(B) For services, identify the location that represents the predominant place the services are performed. For services that start performance in one location and complete performance in a different location, such as transportation and cargo shipment services, the completion or destination location shall be entered. If the contract or order has multiple destination locations, enter the location where the predominant amount is being delivered.

(C) For place of performance based in the United States, ensure the zip code + 4 data element is entered. This will populate the city and state fields accordingly.

(xii) *FPDS Entry – Product or Service Information Section.*

(A) For the product or service code (PSC) data field choose the code that best represents the predominant amount of supplies or services being procured on the award. The list of active PSCs for use in FPDS reporting is available on the FPDS website under the 'Worksite' section under 'Reference'.

(B) For the principal NAICS code data field, enter the NAICS code that best represents the type of industry related to the predominant amount of supplies or services being procured on the award. If the award was a result of a solicitation that included any of the following provisions, use the NAICS code that was included in the provision: 52.204-8 'Annual Representations and Certifications', 52.212-3 'Offeror Representations and

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

Certifications – Commercial Items’, or 52.219-1 ‘Small Business Program Representations’. The list of active NAICS codes for use in FPDS reporting is available on the FPDS website under the ‘Worksite’ section under ‘Reference’.

(C) For the place of manufacture data field, only choose Manufactured Outside the United States – Qualifying Country if the country of product or service origin is Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Egypt, France, Finland, Germany, Greece, Israel, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, or the United Kingdom. These are the only current qualifying countries.

(D) For the description of requirement data field, enter a short description of what is being procured by the action. This should be entered in plain English with no acronyms or military jargon such that the public can understand what is being acquired by the Department. When reporting modifications, do not use this field to explain what type of procurement process is accomplished (e.g., exercise option year, incremental funding); continue to address what is being procured.

(E) For the recovered materials/sustainability data field, choose the value from the list below that reflects the requirements of sustainability incorporated into the contract or order. If there is a combination of the attributes on the contract that does not exist in the list below, choose the one from the list that most closely reflects the situation on the contract.

(1) *FAR 52.223-4 included* – Use when the contract includes the requirement for recovered materials in accordance with FAR subpart 23.4 and provision 52.223-4 was included in the solicitation.

(2) *FAR 52.223-4 and 52.223-9 included* – Use when the contract includes the requirement for recovered materials in accordance with FAR subpart 23.4, provision 52.223-4 was included in the solicitation, and clause 52.223-9 is included in the contract.

(3) *No clauses included and no sustainability included* – Use when the contract includes neither requirements nor provisions/clauses for recovered materials or energy efficient, biobased, or environmentally preferable products or services.

(4) *Energy efficient* – Use when the contract includes the requirement for energy efficient products or services in accordance with FAR subpart 23.2.

(5) *Biobased* – Use when the contract includes the requirement for biobased products or services in accordance with FAR subpart 23.4.

(6) *Environmentally preferable* – Use when the contract includes the requirement for environmentally preferable products or services in accordance with FAR subpart 23.7.

(7) *FAR 52.223-4 and energy efficient* – Use when the contract includes the requirement for–

# DFARS Procedures, Guidance, and Information

(i) Recovered materials in accordance with FAR subpart 23.4 and provision 52.223-4 was included in the solicitation;

subpart 23.2; (ii) Energy efficient products or services in accordance with FAR

23.4; and (iii) Biobased products or services in accordance with FAR subpart

with FAR subpart 23.7. (iv) Environmentally preferable products or services in accordance

(xiii) *FPDS Entry – Competition Information Section.*

(A) Indefinite-delivery vehicle (IDV) selection.

(1) *BPA* – use the BPA screen when awarding either a FAR part 8 or a FAR part 13 BPA. If the BPA is a FAR part 8 BPA, enter the Federal Supply Schedule number in the “Referenced IDV” field. NOTE: Orders placed under BPAs will use the BPA call screen.

(2) *BOA* – use the BOA screen when issuing a BOA. NOTE: Orders placed under BOAs will use the task and delivery order screen.

(3) *Indefinite-Delivery Contracts (IDC)* – Use the IDC screen when awarding a FAR part 16 task or delivery order contract. NOTE: Orders placed under IDCs will use the task and delivery order screen.

(B) Multiple or single award indefinite-delivery vehicles.

(1) *Multiple Award* – Select Multiple Award when the contract action is—

(i) One of several indefinite-delivery indefinite-quantity (IDIQ) contracts awarded under a single solicitation in accordance with FAR 16.504(c);

(ii) One of several blanket purchase agreements BPAs awarded against a Federal Supply Schedule in accordance with FAR 8.405-3;

(iii) Any other IDIQ contract that an agency enters into with two or more sources under the same solicitation that requires contracting officers to compare or compete their requirements among several vendors; or

(iv) A part 13 BPA or Blanket Ordering Agreement (BOA) with multiple awards.

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

NOTE: The requirement to report on fair opportunity is not triggered by the selection of multiple awards for part 13 BPAs or BOAs.

(2) *Single Award* – Select Single Award when the contract does not satisfy the above criteria for a multiple award.

(C) Solicitation procedures. Select the appropriate entry from the following list:

(1) *Simplified Acquisition* – Report this code for competitive and noncompetitive contract actions that used simplified acquisition procedures in accordance with FAR part 13, to include acquisitions using the Commercial Items Test Program. However, if the action is noncompetitive and the reason for other than full and open competition is other than “Authorized by Statute”, “Authorized Resale”, or “SAP Noncompetition”, then enter “Only One Source Solicited” as the solicitation procedure. (Note that most times when in conflict, the reason for other than full and open competition takes precedence over the type of solicitation procedure used.)

(2) *Only One Source Solicited* – Use this code if no solicitation procedure was used or only one source is solicited for the action.

(3) *Negotiated Proposal/Quote* – Use this code for competitive contract actions that use negotiated procedures (FAR parts 12, 13, or 15).

(4) *Sealed Bid* – Use this code for contract actions using sealed bid procedures (FAR part 14).

(5) *Two Step* – Use this code for contract actions that use a combination of sealed bids and negotiated procedures (FAR 6.102).

(6) *Architect-Engineer FAR 6.102* – Use this code if the action resulted from selection of sources for architect-engineer contracts pursuant to FAR 6.102(d)(1).

(7) *Basic Research* – Use this code if the action resulted from a competitive selection of basic research proposals pursuant to FAR 6.102(d)(2).

(8) *Alternative Sources* – Use this code if the action resulted from use of procedures that provided for full and open competition after exclusion of sources to establish or maintain alternative sources pursuant to FAR 6.202.

(9) *Subject to Multiple Award Fair Opportunity* –FPDS will automatically populate this entry for orders placed against multiple award contracts (to include Federal Supply Schedules) and FAR part 8 BPAs (and orders issued under such BPAs that are subject to fair opportunity pursuant to DFARS [208.405-70](#) or FAR 16.505/DFARS [216.505-70](#)).

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(D) Extent Competed. Select the appropriate entry from the following list. The extent competed for any modification or order against a task or delivery order contract pulls from the basic contract.

(1) *Competed under SAP* – Report this for competitive contract actions that were awarded using FAR part 13 Simplified Acquisition Procedures (i.e., solicitation procedures were “Simplified Acquisition”), to include for the Commercial Item Test Program.

(2) *Full and Open Competition (F&OC)* – Report this if the contract action resulted from an award pursuant to FAR 6.102(a), Sealed bids; FAR 6.102(b), Competitive proposals; FAR 6.102(c), Combination; or any other competitive method that did not exclude sources of any type.

(3) *F&OC after Exclusion of Sources* – Report this when sources are excluded before competition. (Note: This terminology is broader than FAR subpart 6.2, which includes set-aside actions and actions to establish or maintain alternate sources, in that it also includes actions justified by a justification and approval that provided for competition).

(4) *Not Available for Competition* – Report this if the contract action is not available for competition (i.e., contract actions where the solicitation procedure was “Only One Source” and the reason not competed is “Authorized by Statute,” “International Agreement,” “Utilities,” or “Authorized Resale.”) Note that sole source set-asides for 8a firms, HUBZone firms, and service-related disabled veteran-owned concerns should always be identified as “Authorized by Statute” as the reason for other than full and open competition.

(5) *Not Competed under SAP* – Report this for non-competitive contract actions that were awarded using FAR part 13 Simplified Acquisition Procedures (i.e., solicitation procedures were “Simplified Acquisition”).

(6) *Not Competed* – Report this when the contract action is not competed and the solicitation procedures are “Only One Source.”

(E) Fair Opportunity/Limited Sources. This field is the basis for determining whether competition is provided for on orders placed against multiple-award contracts (to include DoD contracts, Governmentwide Acquisition Contracts, Federal Supply Schedules, and BPAs issued under the Federal Supply Schedules). If a Federal Supply Schedule contract or a Governmentwide multiple-award contract is not coded as a multiple-award vehicle, thereby preventing completion of this field, the FPDS user should advise the agency FPDS so that the contracting office for the multiple-award contract can be notified and pursue correction.

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(1) *Urgency* – Report this if the action was justified pursuant to FAR 8.405-6(b)(3) or FAR 16.505(b)(2)(i)(A).

(2) *Only One Source – Other* – Report if the action was justified pursuant to FAR 8.405-6(b)(1) or FAR 16.505(b)(2)(i)(B).

(3) *Follow-On Delivery Order Following Competitive Initial Order* – Report this if the action was justified pursuant to FAR 8.405-6(b)(2) or FAR 16.505(b)(2)(i)(C).

(4) *Minimum Guarantee* – Report this if it was necessary to place an order to satisfy a minimum amount guaranteed to the contractor. See FAR 16.505(b)(2)(i)(D).

(5) *Other Statutory Authority* – Report this if a statute expressly authorizes or requires that the purchase be made from a specified source. See DFARS [208.405-70\(b\)\(1\)](#) or DFARS [216.505-70\(b\)\(1\)](#).

(6) *No Exception – Fair Opportunity Given* – Report this if fair opportunity was given pursuant to DFARS [208.405-70](#) or FAR 16.505(b)(1)(i)/DFARS [216.505-70](#).

(xiv) *FPDS Entry – Preference Programs / Other Data Section.*

(A) When entering a new contract, purchase order, or agreement award in FPDS, contracting officers shall ensure they appropriately choose ‘Small Business’ or ‘Other than Small Business’ in the Contracting Officer’s Determination of Business Size data field according to the NAICS code applied to the award, its associated size standard, and the contractor’s response to provision 52.212-3 or 52.219-1. The contracting officer shall enter ‘Other than Small Business’ for awards where the contractor has not certified to its status in one of these provisions.

(B) If the Contracting Officer’s Determination of Business Size data field is completed with ‘Small Business’, the contractor’s other socio-economic information that it has entered or the Small Business Administration (SBA) has provided to the Central Contractor Registration (CCR) database will be included in the contract action report. This includes designations such as SBA-Certified 8(a), Women-owned Small Business, Service Disabled Veteran Owned.

(C) Contracting officers will not be allowed to identify types of set-asides in FPDS unless the Contracting Officer’s Determination of Business Size is completed with ‘Small Business’ and other required socio-economic designations are present in the contractor’s CCR record (e.g., contractor must have the SBA-Certified 8(a) designation in order to identify an 8(a) type set-aside in FPDS).

(D) All subsequent modifications and delivery orders under the initial award will be automatically populated with the same designations.

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

### (4) Reporting modifications to FPDS.

(i) Modifications against previously reported contracts, agreements, and orders are required to be reported to FPDS if they include any obligation or deobligation amount. They are also required to be reported to FPDS if there is no obligation or deobligation amount and involve a change to the data reported in any data field in the contract action report (e.g., vendor name, completion date, place of performance).

(ii) Contracting officers should choose the Reason for Modification value that best represents the purpose of the modification action. A modification issued after physical completion of the contract, including those modifications to simply deobligate remaining unused funds, should be identified as 'Close Out' on the contract action report unless another value (such as 'Vendor Address Change') is more applicable. The values 'Funding Only Action' and 'Other Administration Action' should be used only when another value does not apply.

(iii) DoD offices shall not use the 'Transfer Action' value in the Reason for Modification field unless transferring the contract to a non-DoD contracting office (e.g., Department of Interior).

(iv) Modifications for novations (see FAR subpart 42.12 and DFARS subpart [242.12](#)) shall use 'Novation Agreement' in the Reason for Modification field.

(A) When this value is used, the contracting officer must enter the appropriate DUNS number for the contractor in the modification contract action report. FPDS will then bring over the current vendor name and address from the contractor's CCR record for that DUNS number into the modification contract action report. Subsequent contract action reports will show the updated DUNS number and vendor name.

(B) When this value is used, FPDS also allows the contracting officer to update the Contracting Officer's Determination of Business Size data field. The contracting officer shall ensure that the contractor's current size status is appropriately recorded on the modification contract action report. Subsequent contract action reports will reflect the size entered on this modification contract action report (see FAR subparts 19.301-2 and 19.301-3).

(v) Modifications for contractor name changes that do not require a novation (see FAR subpart 42.12 and DFARS subpart [242.12](#)) shall use 'Vendor DUNS Change' in the Reason for Modification field. When this value is used, the contracting officer must enter the appropriate DUNS number for the contractor in the modification contract action report. FPDS will then bring over the current vendor name and address from the contractor's CCR record for that DUNS number into the modification contract action report. Subsequent contract action reports will show the updated DUNS number and vendor name.

# DFARS Procedures, Guidance, and Information

## PGI 204—Administrative Matters

---

(vi) Modifications for contractor address changes that do not require a novation shall use 'Vendor Address Change' in the Reason for Modification field. When this value is used, FPDS will bring over the current address from the contractor's CCR record into the modification contract action report. Subsequent contract action reports will show the updated address.

(vii) Modifications for re-representation actions (see FAR subparts 19.301-2 and 19.301-3) shall use either 'Re-representation' or 'Re-representation of Non-Novated Merger/Acquisition', as appropriate, in the Reason for Modification field. When this value is used, FPDS allows the contracting officer to update the Contracting Officer's Determination of Business Size data field. The contracting officer shall ensure that the contractor's current size status is appropriately recorded on the modification contract action report. Subsequent contract action reports will reflect the size entered on this modification contract action report.

(5) Reporting delivery orders where the Governmentwide purchase card is both the method of purchase and payment.

(i) Open-market purchases (not under a federal schedule, agreement, or contract) made with the Governmentwide purchase card are not required to be reported to FPDS when the value is less than the micropurchase threshold.

(ii) Purchases made using the Governmentwide purchase card as the method of both purchase and payment under federal schedules, agreements, or contracts are required to be reported to FPDS regardless of value. Contracting offices shall ensure all such purchases made by their authorized cardholders are reported to FPDS no less frequently than monthly. Any individual purchase valued greater than \$25,000 must be reported individually to FPDS. For individual purchases valued less than \$25,000, there are three acceptable methods for reporting to FPDS. They are, in preferred order of use—

(A) Report each order individually to FPDS;

(B) Report a consolidated express report to FPDS using the delivery order or BPA call format that references the individual contract or BPA, respectively; or

(C) Report a consolidated express report to FPDS using the purchase order format that uses the generic DUNS 136721250 for 'GPC Consolidated Reporting' or 136721292 for 'GPC Foreign Contractor Consolidated Reporting', as appropriate, as the identifier.

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(Revised June 29, 2012)

### PGI 207.1—ACQUISITION PLANS

#### PGI 207.103 Agency-head responsibilities.

(h) Submit acquisition plans for procurement of conventional ammunition to—

Program Executive Officer, Ammunition  
ATTN: SFAE-AMO  
Building 171  
Picatinny Arsenal, NJ 07806-5000

Telephone: Commercial (973) 724-7101; DSN 880-7101.

#### PGI 207.105 Contents of written acquisition plans.

For acquisitions covered by DFARS [207.103](#)(d)(i)(A) and (B), correlate the plan to the DoD Future Years Defense Program, applicable budget submissions, and the decision coordinating paper/program memorandum, as appropriate. It is incumbent upon the planner to coordinate the plan with all those who have a responsibility for the development, management, or administration of the acquisition. The acquisition plan should be provided to the contract administration organization to facilitate resource allocation and planning for the evaluation, identification, and management of contractor performance risk.

(a) *Acquisition background and objectives.*

(1) *Statement of need.* Include—

(A) Applicability of an acquisition decision document, a milestone decision review, or a service review, as appropriate.

(B) The date approval for operational use has been or will be obtained. If waivers are requested, describe the need for the waivers.

(C) A milestone chart depicting the acquisition objectives.

(D) Milestones for updating the acquisition plan. Indicate when the plan will be updated. Program managers should schedule updates to coincide with DAB reviews and the transition from one phase to another (e.g., system development and demonstration to production and deployment).

(E) *Supplies and services.* To determine if acquisitions for supplies or services are covered by DFARS [208.7](#), acquisition officials shall use the AbilityOne

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

Program Procurement List published by the Committee for Purchase From People Who Are Blind or Severely Disabled at [http://www.abilityone.gov/procurement\\_list/index.html](http://www.abilityone.gov/procurement_list/index.html) (see FAR Part 8.7).

(3)(i) *Life-cycle cost.* When acquiring tents or other temporary structures, consider total life-cycle costs in accordance with DFARS [225.7002-1](#)(a)(3).

(8) *Acquisition streamlining.* See DoDD 5000.1, The Defense Acquisition System, and the Defense Acquisition Guidebook at <http://akss.dau.mil/dag/>.

(b) *Plan of action.*

(4) *Acquisition considerations.* When supplies or services will be acquired by placing an order under a non-DoD contract (e.g., a Federal Supply Schedule contract), regardless of whether the order is placed by DoD or by another agency on behalf of DoD, address the method of ensuring that the order will be consistent with DoD statutory and regulatory requirements applicable to the acquisition and the requirements for use of DoD appropriated funds.

(5) *Budgeting and funding.* Include specific references to budget line items and program elements, where applicable, estimated production unit cost, and the total cost for remaining production.

(6) *Product or service descriptions.* For development acquisitions, describe the market research undertaken to identify commercial items, commercial items with modifications, or nondevelopmental items (see FAR Part 10) that could satisfy the acquisition objectives.

(13) *Logistics considerations.*

(i) Describe the extent of integrated logistics support planning, including total life cycle system management and performance-based logistics. Reference approved plans.

(ii) Discuss the mission profile, reliability, and maintainability (R&M) program plan, R&M predictions, redundancy, qualified parts lists, parts and material qualification, R&M requirements imposed on vendors, failure analysis, corrective action and feedback, and R&M design reviews and trade-off studies. Also discuss corrosion prevention and mitigation plans.

(iii) For all acquisitions, see Subpart [227.71](#) regarding technical data and associated license rights, and Subpart [227.72](#) regarding computer software and associated license rights. For acquisitions involving major weapon systems and subsystems of major weapon systems, see the additional requirements at DFARS [207.106](#)(S-70).

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(iv) See DoD 4120.24-M, Defense Standardization Program (DSP) Policies and Procedures.

(S-70) Describe the extent of Computer-Aided Acquisition and Logistics Support (CALs) implementation (see MIL-STD-1840C, Automated Interchange of Technical Information).

(16) *Environmental and energy conservation objectives.*

(i) Discuss actions taken to ensure either elimination of or authorization to use class I ozone-depleting chemicals and substances (see DFARS Subpart [223.8](#)).

(ii) Ensure compliance with DoDI 4715.4, Pollution Prevention.

(20) *Other considerations.*

(A) National Technology and Industrial Base. For major defense acquisition programs, address the following (10 U.S.C. 2506)—

(1) An analysis of the capabilities of the national technology and industrial base to develop, produce, maintain, and support such program, including consideration of the following factors related to foreign dependency (10 U.S.C. 2505)—

(i) The availability of essential raw materials, special alloys, composite materials, components, tooling, and production test equipment for the sustained production of systems fully capable of meeting the performance objectives established for those systems; the uninterrupted maintenance and repair of such systems; and the sustained operation of such systems.

(ii) The identification of items specified in paragraph (b)(19)(A)(1)(i) of this section that are available only from sources outside the national technology and industrial base.

(iii) The availability of alternatives for obtaining such items from within the national technology and industrial base if such items become unavailable from sources outside the national technology and industrial base; and an analysis of any military vulnerability that could result from the lack of reasonable alternatives.

(iv) The effects on the national technology and industrial base that result from foreign acquisition of firms in the United States.

(2) Consideration of requirements for efficient manufacture during the design and production of the systems to be procured under the program.

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(3) The use of advanced manufacturing technology, processes, and systems during the research and development phase and the production phase of the program.

(4) To the maximum extent practicable, the use of contract solicitations that encourage competing offerors to acquire, for use in the performance of the contract, modern technology, production equipment, and production systems (including hardware and software) that increase the productivity of the offerors and reduce the life-cycle costs.

(5) Methods to encourage investment by U.S. domestic sources in advanced manufacturing technology production equipment and processes through—

(i) Recognition of the contractor's investment in advanced manufacturing technology production equipment, processes, and organization of work systems that build on workers' skill and experience, and work force skill development in the development of the contract objective; and

(ii) Increased emphasis in source selection on the efficiency of production.

(6) Expanded use of commercial manufacturing processes rather than processes specified by DoD.

(7) Elimination of barriers to, and facilitation of, the integrated manufacture of commercial items and items being produced under DoD contracts.

(8) Expanded use of commercial items, commercial items with modifications, or to the extent commercial items are not available, nondevelopmental items (see FAR Part 10).

(9) Acquisition of major weapon systems as commercial items (see DFARS Subpart [234.70](#)).

### (B) Industrial Capability (IC).

(1) Provide the program's IC strategy that assesses the capability of the U.S. industrial base to achieve identified surge and mobilization goals. If no IC strategy has been developed, provide supporting rationale for this position.

(2) If, in the IC strategy, the development of a detailed IC plan was determined to be applicable, include the plan by text or by reference. If the development of the IC plan was determined not to be applicable, summarize the details of the analysis forming the basis of this decision.

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(3) If the program involves peacetime and wartime hardware configurations that are supported by logistics support plans, identify their impact on the IC plan.

(C) Special considerations for acquisition planning for crisis situations. Ensure that the requirements of DoD Instruction 1100.22, Policy and Procedures for Determining Workforce Mix, are addressed. Also—

(1) Acquisition planning must consider whether a contract is likely to be performed in crisis situations outside the United States and must develop appropriately detailed measures for inclusion in the contract. Combatant commanders establish operational plans identifying essential services that must continue during crisis. DoDI 1100.22 requires Combatant Commanders to develop contingency plans if they have a reasonable doubt that a contractor will continue to provide essential services during a mobilization or crisis. When planning the acquisition, consider these operational plans and the resources available to carry out these plans.

(2) During acquisition planning, identify which services have been declared so essential that they must continue during a crisis situation. A best practice is to create a separate section, paragraph, line, or other designation in the contract for these essential services so they can be tracked to an option or separate contract line item.

(3) The requirements for the contractor written plan for continuity of essential services and the criteria for assessing the sufficiency of the plan will be determined/tailored for each acquisition of essential services by the contracting officer in coordination with the functional manager. The contractor's written plan, including prices/cost, shall be considered and evaluated in conjunction with the technical evaluation of offers.

(4) Operational-specific contractor policies and requirements resulting from combatant commander “integrated planning” will be described in operation plans (OPLAN), operation orders (OPORD) or separate annexes, and must be incorporated into applicable contracts. The plans may include rules for theater entry, country clearance, use of weapons, living on-base, etc. Therefore, the requiring activity is responsible for obtaining pertinent OPLANS, OPORDs, and annexes (or unclassified extracts) from the affected combatant command or military service element or component and for ensuring that the contract is consistent with the theater OPLAN and OPORD.

(5) Ask the requiring activity to confirm that the appropriate personnel department has determined that inherently Governmental functions are not included in the contract requirements. If contract services will become inherently Governmental during a time of crisis, ensure that the contract states that work will be removed from the contract (temporarily or permanently) upon the occurrence of a triggering event (specified in the contract) or upon notice from the contracting officer that informs the contractor when its

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

responsibility to perform affected duties will stop or restart. The contract should require the contractor to have a plan for restarting performance after the crisis ends.

(6) If the combatant commander's contingency plan requires military members to replace contractor employees during a crisis or contingency, acquisition planning must consider whether the contract should require the contractor to train military members to do that.

(7) For acquisitions that have or may have some portion of delivery of items or performance in a foreign country, address considerations and requirements set forth in DFARS [225.7401](#), Contracts requiring performance or delivery in a foreign country; [225.7402](#), Contractor personnel authorized to accompany U.S. Armed Forces deployed outside the United States; and [225.7404](#), Contract administration in support of contingency operations.

(8) Contract administration planning considerations for contracts in support of contingency operations.

(i) When delegation of contract administration services to a contracting officer located in a different geographic area to support a contract for the delivery of items or performance in a joint operations area will or may occur, address the resourcing of contract administration and oversight personnel, including administrative contracting officers, quality assurance specialists, contract administrators, property administrators, and contracting officers' representatives.

(ii) If contract delivery of items or performance in support of contingency operations will or may occur in an austere, uncertain, or hostile environment, address the need for logistics support of contract administration and oversight personnel.

(iii) When some portion of contract delivery of items or performance may take place in a contingency area, address pertinent combatant commander or joint force commander requirements and considerations for contract administration. Such requirements will be maintained on the particular combatant commander operational contract support website, [http://www.acq.osd.mil/dpap/pacc/cc/areas\\_of\\_responsibility.html](http://www.acq.osd.mil/dpap/pacc/cc/areas_of_responsibility.html).

(iv) When contracts are awarded for performance in a contingency area, the head of the contracting activity is responsible for planning to ensure that contingency contracts will be closed in a timely manner considering personnel turnover and preaward, contract administration, and other contracting workload. A plan for reachback support of contract closeouts should be included, if required.

(9) For contracts that will incorporate the clause at [252.225-7040](#), Contractor Personnel Authorized to Accompany U.S. Armed Forces Deployed Outside the United States, in accordance with [225.7402-5\(a\)](#), or otherwise require accountability for

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

contractor personnel, consider the requirements and resources necessary for both the Government and contractor to keep the Synchronized Predeployment and Operational Tracker (SPOT) current in accordance with the SPOT business rules available at the website provided at [PGI 225-7402-5\(a\)\(iv\)](#).

(10) For contracts that will incorporate the clause at FAR 52.222-50, Combating Trafficking in Persons, consider the requirements and resources necessary for both the Government and contractor to implement and maintain compliance with Federal and DoD trafficking in persons requirements, including [PGI 222.1703](#).

(D) CONUS Antiterrorism Considerations. For acquisitions that require services to be delivered to or performed on a DoD installation, DoD occupied space, ship, or aircraft, ensure that the requirements of DoD Instruction 2000.16, DoD Antiterrorism Standards, are addressed. DoD Instruction 2000.16 is available at the Washington Headquarters Services website at <http://www.dtic.mil/whs/directives/>.

(1) Acquisition planning must consider antiterrorism (AT) measures when the effort to be contracted could affect the security of operating forces, particularly in-transit forces. Contracting officers must work closely with Antiterrorism Officers (ATOs) and legal advisors to ensure that AT security considerations are properly and legally incorporated into the acquisition planning process. Consider AT performance as an evaluation factor for award (past performance and proposed performance under the instant contract), and as a performance metric under the resultant contract.

(2) The geographic Combatant Commander's AT policies take precedence over all AT policies or programs of any DoD component operating or existing in that command's area of responsibility. These policies, in conjunction with area specific AT security guidance, form the core of AT security criteria which shall be applied to all contracts as a baseline. The ATO has access to the Joint Staff's Antiterrorism Enterprise Portal on the NIPRNET, <https://atep.dtic.mil/portal/site/atep/> a password-protected integrated interface for current and planned AT tools. Coordinate with the ATO to incorporate AT security considerations into the contracting process, including suggestions for specific AT security measures that should be employed. At a minimum—

(i) Consider AT Risk Assessment results when developing alternative solutions to contract requirements that will mitigate security risks. The impact of local security measures on contract performance and possible contract performance outcomes that could improve or leverage local security measures should be considered when selecting among alternative contract performance requirements.

(ii) Antiterrorism procedures incorporate random schedules, access, and/or search requirements. There also may be frequent changes in the local threat level. Consider the impact of these practices when developing performance work statements and special contracting requirements, especially those related to site access controls.

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(iii) Consider the need for contractor personnel screening requirements to be met prior to commencing work under the contract. The contracting officer should notify the ATO prior to the start of contract performance to ensure all required AT security measures are in place.

(iv) Performance work statements should be written with the understanding that the need for and level of AT measures may change during contract performance. Performance work statements should provide for the conduct of periodic inspections to ensure adherence to access control procedures. Consider the need for reviewing contract AT measures if the local threat changes and/or if contract terms or requirements change.

(E) Software and software maintenance. When acquiring software or software maintenance, see DFARS [212.212](#).

(F) *Procurement Support for Theater Security Cooperation Efforts*. When planning procurement support for theater security cooperation efforts (e.g., military exercises/training, base operations, weapons procurement, aviation fuels, construction, or the President's Emergency Plan for Aids Relief projects), planners should be aware that Department of State (DoS) missions (embassies and consulates) do not provide such contracting support; however, these missions can provide support for routine, non-complex services and supplies used by U.S. Government personnel, even if funded with foreign-military-sales case money (see DFARS [PGI 225.78](#)). Planners shall take the following steps:

(1) Become familiar with DoS Cable 11 STATE 030953, "Procurement Roles and Responsibilities – General Services Officer and DoD Personnel" (see also DFARS [PGI 225.78](#)).

(2) Request general guidance from the combatant-command coordinator on past practices in the particular location for which procurement support is to be requested;

(3) Contact the Defense Attaché Office and/or General Services Officer (normally the embassy/consulate contracting officer) at the DoS mission at least 60 days prior to the requirement, or as soon as practicable, to obtain information on—

(i) Availability of, and procedures associated with, requesting DoS mission procurement support;

(ii) Local sources of supplies and services; and

(iii) Business payment practices to support DoD procurement of specific theater security cooperation procurement requirements.

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(4) Ascertain whether payment support is available from the DoS mission.

(5) When DoS contracting support is determined to be unavailable or not allowed, ensure the party of DoD military and/or civilians deploying to support the particular Theater Security Cooperation effort either pre-arranges DoD contracting support through reach-back, if possible, or if necessary, includes a warranted contracting officer, field-ordering officer, or credit-card holder, and, if necessary, a paying agent.

### **PGI 207.171 Component breakout.**

#### **PGI 207.171-4 Procedures.**

(1) *Responsibility.*

(i) Agencies are responsible for ensuring that—

(A) Breakout reviews are performed on components meeting the criteria in DFARS [207.171-3](#)(a) and (b);

(B) Components susceptible to breakout are earmarked for consideration in future acquisitions;

(C) Components earmarked for breakout are considered during requirements determination and appropriate decisions are made; and

(D) Components are broken out when required.

(ii) The program manager or other official responsible for the material program concerned is responsible for breakout selection, review, and decision.

(iii) The contracting officer or buyer and other specialists (e.g., small business specialist, engineering, production, logistics, and maintenance) support the program manager in implementing the breakout program.

(2) *Breakout review and decision.*

(i) A breakout review and decision includes—

(A) An assessment of the potential risks to the end item from possibilities such as delayed delivery and reduced reliability of the component;

(B) A calculation of estimated net cost savings (i.e., estimated acquisition savings less any offsetting costs); and

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(C) An analysis of the technical, operational, logistics, and administrative factors involved.

(ii) The decision must be supported by adequate explanatory information, including an assessment by the end item contractor when feasible.

(iii) The following questions should be used in the decision process:

(A) Is the end item contractor likely to do further design or engineering effort on the component?

(B) Is a suitable data package available with rights to use it for Government acquisition? (Note that breakout may be warranted even though competitive acquisition is not possible.)

(C) Can any quality control and reliability problems of the component be resolved without requiring effort by the end item contractor?

(D) Will the component require further technical support (e.g., development of specifications, testing requirements, or quality assurance requirements)? If so, does the Government have the resources (manpower, technical competence, facilities, etc.) to provide such support? Or, can the support be obtained from the end item contractor (even though the component is broken out) or other source?

(E) Will breakout impair logistics support (e.g., by jeopardizing standardization of components)?

(F) Will breakout unduly fragment administration, management, or performance of the end item contract (e.g., by complicating production scheduling or preventing identification of responsibility for end item failure caused by a defective component)?

(G) Can breakout be accomplished without jeopardizing delivery requirements of the end item?

(H) If a decision is made to break out a component, can advance acquisition funds be made available to provide the new source any necessary additional lead time?

(I) Is there a source other than the present manufacturer capable of supplying the component?

(J) Has the component been (or is it going to be) acquired directly by the Government as a support item in the supply system or as Government-furnished equipment in other end items?

# DFARS Procedures, Guidance, and Information

## PGI 207—Acquisition Planning

---

(K) Will the financial risks and other responsibilities assumed by the Government after breakout be acceptable?

(L) Will breakout result in substantial net cost savings? Develop estimates of probable savings in cost considering all offsetting costs such as increases in the cost of requirements determination and control, contracting, contract administration, data package purchase, material inspection, qualification or preproduction testing, ground support and test equipment, transportation, security, storage, distribution, and technical support.

(iv) If answers to the questions reveal conditions unfavorable to breakout, the program manager should explore whether the unfavorable conditions can be eliminated. For example, where adequate technical support is not available from Government resources, consider contracting for the necessary services from the end item contractor or other qualified source.

### (3) *Records.*

(i) The contracting activity shall maintain records on components reviewed for breakout. Records should evidence whether the components—

(A) Have no potential for breakout;

(B) Have been earmarked as potential breakout candidates; or

(C) Have been, or will be, broken out.

(ii) The program manager or other designated official must sign the records.

(iii) Records must reflect the facts and conditions of the case, including any assessment by the contractor, and the basis for the decision. The records must contain the assessments, calculations, and analyses discussed in paragraph 2 of this section, including the trade-off analysis between savings and increased risk to the Government because of responsibility for Government-furnished equipment.

# DFARS Procedures, Guidance, and Information

## PGI 232.—Contract Financing

---

*(Added June 29, 2012)*

### PGI 232.70—ELECTRONIC SUBMISSION AND PROCESSING OF PAYMENT REQUESTS AND RECEIVING REPORTS

#### PGI 232.7004 Contract clause instructions.

(b)(1) The clause [252.232-7006](#), Wide Area WorkFlow Payment Instructions shall be located in the contract administration section of the contract (e.g. Section G).

(2) Complete paragraph (f)(1) of the clause by selecting a document type from the list in (i) through (xv) below. Document type selection is contingent on contract type (i.e. fixed price, cost reimbursement), nature of the work being performed or product being acquired, and the entitlement system of the DoD Component. Use the guidance for Wide Area WorkFlow (WAWF) payment instructions found at <https://wawf.eb.mil/> to determine which document types are available for each entitlement system. WAWF document types include—

- (i) Invoice (stand-alone) and Receiving Report (stand-alone);
- (ii) Fast Pay (FAR 52.213-1) Invoice (stand-alone) and Receiving Report (stand-alone);
- (iii) Invoice 2-in-1 (Services only);
- (iv) Commercial Item Financing;
- (v) Performance-Based Payment;
- (vi) Progress Payment;
- (vii) Invoice and Receiving Report (Combo)( see paragraph (3) of this section);
- (viii) Fast Pay (FAR 52.213-1) Invoice and Receiving Report (Combo)( see paragraph (3) of this section);
- (ix) Cost Voucher (FAR 52.216-7; 52.216-13; 52.216-14, 52.232-7);
- (x) Cost Voucher—Shipbuilding;
- (xi) Grant Voucher;
- (xii) Navy Construction/Facilities Management Invoice;
- (xiii) Navy Shipbuilding Invoice—Fixed Price;
- (xiv) Telecom Invoice (Contractual); and
- (xv) Other document type, exactly as it appears in the WAWF system, as mutually agreed to by the contracting parties.

## DFARS Procedures, Guidance, and Information

### PGI 232.—Contract Financing

---

(3) A Combo document may be used with the stand-alone alternative, separated by “or” e.g. “(vii) Invoice and Receiving Report (Combo) or (i) Invoice (stand-alone) and Receiving Report (stand-alone);” or “(viii) Fast Pay (FAR 52.213-1) Invoice and Receiving Report Combo or (ii) Fast Pay (FAR 52.213-1) Invoice (stand-alone) and Receiving Report (stand-alone).”

(4) Complete paragraph (f)(2) of the clause only when document types, “Invoice (stand-alone) and Receiving Report (stand-alone)” and “Invoice and Receiving Report (Combo)” are used. Identify the applicable inspection and acceptance locations from the clause as follows:

(i) Inspection location: (select either “Source,” “Destination,” or “Other”).

(ii) Acceptance location: (select either “Source,” “Destination,” or “Other”).

(5) Complete paragraph (f)(3) of the clause before contract award. Selection of applicable DoDAACs is dependent on the document type and the entitlement system used by the DoD Component.

(i) To determine applicable DoDAACs, use the guidance for WAWF payment instructions at <https://wawf.eb.mil/>.

(ii) If a DoDAAC field is not listed in paragraph (f)(3) Routing Data Table, select “Other DoDAAC(s)” and list the DoDAAC field name(s) as they appear in the WAWF system and applicable DoDAAC(s).

(iii) When multiple “Ship to” and inspection/acceptance locations” (i.e. DoDAACs) exist, enter “See schedule.” The corresponding schedule in the contract/order must cite all applicable DoDAACs.

(iv) Validate DoDAACs using the following resources:

(A) For inspector, acceptor and local processing office roles, use <https://wawf.eb.mil/> and click on the “Active DoDAACs & Roles link” in the “Help” section on the home page to validate active DoDAACs and user roles in WAWF.

(B) For all other DoDAACs, use <https://www.daas.dla.mil/daasing/>.

(6) Complete paragraph (f)(5) by entering e-mail addresses of other Government personnel requiring status of the payment request, if applicable.

(7) Complete paragraph (h) by entering the WAWF point of contact information, if applicable.
