SUBPART 203.1—SAFEGUARDS

(Revised December 11, 2014)

203.104 Procurement integrity.

203.104-4 Disclosure, protection, and marking of contractor bid or proposal information and source selection information.

(d)(3) For purposes of FAR 3.104-4(d)(3) only, DoD follows the notification procedures in FAR 27.404-5(a). However, FAR 27.404-5(a)(1) does not apply to DoD.

203.170 Business practices.

To ensure the separation of functions for oversight, source selection, contract negotiation, and contract award, departments and agencies shall adhere to the following best practice policies:

(a) Senior leaders shall not perform multiple roles in source selection for a major weapon system or major service acquisition.

(b) Vacant acquisition positions shall be filled on an “acting” basis from below until a permanent appointment is made. To provide promising professionals an opportunity to gain experience by temporarily filling higher positions, these oversight duties shall not be accrued at the top.

(c) Acquisition process reviews of the military departments shall be conducted to assess and improve acquisition and management processes, roles, and structures. The scope of the reviews should include—

(1) Distribution of acquisition roles and responsibilities among personnel;

(2) Processes for reporting concerns about unusual or inappropriate actions;
and

(3) Application of DoD Instruction 5000.2, Operation of the Defense Acquisition System, and the disciplines in the Defense Acquisition Guidebook.

(d) Source selection processes shall be—

(1) Reviewed and approved by cognizant organizations responsible for oversight;

(2) Documented by the head of the contracting activity or at the agency level;
and

(3) Periodically reviewed by outside officials independent of that office or agency.

(e) Legal review of documentation of major acquisition system source selection shall be conducted prior to contract award, including the supporting documentation of the source selection evaluation board, source selection advisory council, and source selection authority.

Defense Federal Acquisition Regulation Supplement

Part 203—Improper Business Practices and Personal Conflicts of Interest

(f) Procurement management reviews shall determine whether clearance threshold authorities are clear and that independent review is provided for acquisitions exceeding the simplified acquisition threshold.

203.171 Senior DoD officials seeking employment with defense contractors.

203.171-1 Scope.

This section implements Section 847 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181).

203.171-2 Definition.

“Covered DoD official” as used in this section, is defined in the clause at [252.203-7000](#), Requirements Relating to Compensation of Former DoD Officials.

203.171-3 Policy.

(a) A DoD official covered by the requirements of Section 847 of Pub. L. 110-181 (a “covered DoD official”) who, within 2 years after leaving DoD service, expects to receive compensation from a DoD contractor, shall, prior to accepting such compensation, request a written opinion from the appropriate DoD ethics counselor regarding the applicability of post-employment restrictions to activities that the official may undertake on behalf of a contractor.

(b) A DoD contractor may not knowingly provide compensation to a covered DoD official within 2 years after the official leaves DoD service unless the contractor first determines that the official has received, or has requested at least 30 days prior to receiving compensation from the contractor, the post-employment ethics opinion described in paragraph (a) of this section.

(c) If a DoD contractor knowingly fails to comply with the requirements of the clause at [252.203-7000](#), administrative and contractual actions may be taken, including cancellation of a procurement, rescission of a contract, or initiation of suspension or debarment proceedings.

203.171-4 Solicitation provision and contract clause.

(a) Use the clause at [252.203-7000](#), Requirements Relating to Compensation of Former DoD Officials, in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items.

(b) Use the provision at [252.203-7005](#), Representation Relating to Compensation of Former DoD Officials, in all solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items and solicitations for task and delivery orders.

SUBPART 209.1—RESPONSIBLE PROSPECTIVE CONTRACTORS

(Revised December 11, 2014)

209.101 Definitions.

“Entity controlled by a foreign government,” “foreign government,” and “proscribed information” are defined in the provision at [252.209-7002](#), Disclosure of Ownership or Control by a Foreign Government.

209.104 Standards.

209.104-1 General standards.

(e) For cost-reimbursement or incentive type contracts, or contracts which provide for progress payments based on costs or on a percentage or stage of completion, the prospective contractor’s accounting system and related internal controls must provide reasonable assurance that—

- (i) Applicable laws and regulations are complied with;
- (ii) The accounting system and cost data are reliable;
- (iii) Risk of misallocations and mischarges are minimized; and
- (iv) Contract allocations and charges are consistent with invoice procedures.

(g)(i) *Ownership or control by the government of a country that is a state sponsor of terrorism.* (See 225.771.)

(ii) *Ownership or control by a foreign government when access to proscribed information is required.*

(A) Under 10 U.S.C. 2536(a), no DoD contract under a national security program may be awarded to an entity controlled by a foreign government if that entity requires access to proscribed information to perform the contract.

(B) Whenever the contracting officer has a question about application of the provision at [252.209-7002](#), the contracting officer may seek advice from the Security Directorate, Office of the Deputy Under Secretary of Defense, Human Intelligence, Counterintelligence, and Security.

(C) In accordance with 10 U.S.C. 2536(b)(1)(A), the Secretary of Defense may waive the prohibition in paragraph (g)(ii)(A) of this subsection upon determining that the waiver is essential to the national security interests of the United States. The Secretary has delegated authority to grant this waiver to the Undersecretary of Defense for Intelligence. Waiver requests, prepared by the requiring activity in coordination with the contracting officer, shall be processed through the Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics), and shall include a proposed national interest determination. The proposed national interest determination, prepared by the requiring activity in coordination with the contracting officer, shall include:

Defense Federal Acquisition Regulation Supplement

Part 209—Contractor Qualifications

(1) Identification of the proposed awardee, with a synopsis of its foreign ownership (include solicitation and other reference numbers to identify the action);

(2) General description of the acquisition and performance requirements;

(3) Identification of the national security interests involved and the ways in which award of the contract helps advance those interests;

(4) A statement as to availability of another entity with the capacity, capability and technical expertise to satisfy defense acquisition, technology base, or industrial base requirements; and

(5) A description of any alternate means available to satisfy the requirement, e.g., use of substitute products or technology or alternate approaches to accomplish the program objectives.

(D) In accordance with 10 U.S.C. 2536(b)(1)(B), the Secretary of Defense may, in the case of a contract awarded for environmental restoration, remediation, or waste management at a DoD facility, waive the prohibition in paragraph (g)(ii)(A) of this subsection upon—

(1) Determining that—

(i) The waiver will advance the environmental restoration, remediation, or waste management objectives of DoD and will not harm the national security interests of the United States; and

(ii) The entity to which the contract is awarded is controlled by a foreign government with which the Secretary is authorized to exchange Restricted Data under section 144 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2164(c)); and

(2) Notifying Congress of the decision to grant the waiver. The contract may be awarded only after the end of the 45-day period beginning on the date the notification is received by the appropriate Congressional committees.

209.104-4 Subcontractor responsibility.

Generally, the Canadian Commercial Corporation's (CCC) proposal of a firm as its subcontractor is sufficient basis for an affirmative determination of responsibility. However, when the CCC determination of responsibility is not consistent with other information available to the contracting officer, the contracting officer shall request from CCC and any other sources whatever additional information is necessary to make the responsibility determination.

209.104-70 Solicitation provision.

Use the provision at [252.209-7002](#), Disclosure of Ownership or Control by a Foreign Government, in all solicitations, including those subject to the procedures in FAR part 13, when access to proscribed information is necessary for contract performance. If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.209-7002](#) in the solicitation.

209.105 Procedures.

209.105-1 Obtaining information.

(1) For guidance on using the Exclusion section of the System for Award Management, see [PGI 209.105-1](#).

(2) A satisfactory performance record is a factor in determining contractor responsibility (see FAR 9.104-1(c)). One source of information relating to contractor performance is the Past Performance Information Retrieval System (PPIRS), available at www.ppirs.gov. Information relating to contract terminations for cause and for default is also available through PPIRS (see subpart 42.15). This termination information is just one consideration in determining contractor responsibility.

209.105-2 Determinations and documentation.

(a) The contracting officer shall submit a copy of a determination of nonresponsibility to the appropriate debarring and suspending official listed in [209.403](#).

209.105-2-70 Inclusion of determination of contractor fault in Federal Awardee Performance and Integrity Information System (FAPIIS).

If the contractor or a subcontractor at any tier is not subject to the jurisdiction of the U.S. courts and the DoD appointing official that requested a DoD investigation makes a final determination that a contractor's or subcontractor's gross negligence or reckless disregard for the safety of civilian or military personnel of the Government caused serious bodily injury or death of such personnel, the contracting officer shall enter in FAPIIS the appropriate information regarding such determination within three days of receiving notice of the determination, pursuant to section 834 of the National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383). Information posted in FAPIIS regarding such determinations will be publicly available.

SUBPART 215.4—CONTRACT PRICING

(Revised December 11, 2014)

215.402 Pricing policy.

Follow the procedures at [PGI 215.402](#) when conducting cost or price analysis, particularly with regard to acquisitions for sole source commercial items.

215.403 Obtaining certified cost or pricing data.

215.403-1 Prohibition on obtaining certified cost or pricing data (10 U.S.C. 2306a and 41 U.S.C. chapter 35).

(b) *Exceptions to certified cost or pricing data requirements.* Follow the procedures at [PGI 215.403-1\(b\)](#).

(c) *Standards for exceptions from certified cost or pricing data requirements.*

(1) *Adequate price competition.*

(A) For acquisitions under dual or multiple source programs—

(1) The determination of adequate price competition must be made on a case-by-case basis. Even when adequate price competition exists, in certain cases it may be appropriate to obtain additional data to assist in price analysis; and

(2) Adequate price competition normally exists when—

(i) Prices are solicited across a full range of step quantities, normally including a 0-100 percent split, from at least two offerors that are individually capable of producing the full quantity; and

(ii) The reasonableness of all prices awarded is clearly established on the basis of price analysis (see FAR 15.404-1(b)).

(B) If only one offer is received in response to a competitive solicitation, see [215.371-3](#).

(3) *Commercial items.*

(A) Follow the procedures at [PGI 215.403-1\(c\)\(3\)\(A\)](#) for pricing commercial items.

(B) By November 30th of each year, departments and agencies shall provide a report to the Director, Defense Procurement and Acquisition Policy (DPAP), ATTN: DPAP/CPIC, of all contracting officer determinations that commercial item exceptions apply under FAR 15.403-1(b)(3), during the previous fiscal year, for any contract, subcontract, or modification expected to have a value of \$15,000,000 or more. See [PGI 215.403-1\(c\)\(3\)\(B\)](#) for the format and guidance for the report. The Director, DPAP, will submit a consolidated report to the congressional defense committees.

(4) *Waivers.*

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(A) The head of the contracting activity may, without power of delegation, apply the exceptional circumstances authority when a determination is made that—

(1) The property or services cannot reasonably be obtained under the contract, subcontract, or modification, without the granting of the waiver;

(2) The price can be determined to be fair and reasonable without the submission of certified cost or pricing data; and

(3) There are demonstrated benefits to granting the waiver. Follow the procedures at [PGI 215.403-1\(c\)\(4\)\(A\)](#) for determining when an exceptional case waiver is appropriate, for approval of such waivers, for partial waivers, and for waivers applicable to unpriced supplies or services.

(B) By November 30th of each year, departments and agencies shall provide a report to the Director, DPAP, ATTN: DPAP/CPIC, of all waivers granted under FAR 15.403-1(b)(4), during the previous fiscal year, for any contract, subcontract, or modification expected to have a value of \$15,000,000 or more. See [PGI 215.403-1\(c\)\(4\)\(B\)](#) for the format and guidance for the report. The Director, DPAP, will submit a consolidated report to the congressional defense committees.

(C) DoD has waived the requirement for submission of certified cost or pricing data for the Canadian Commercial Corporation and its subcontractors (but see [215.408\(3\)](#) and [225.870-4\(c\)](#)).

(D) DoD has waived certified cost or pricing data requirements for nonprofit organizations (including educational institutions) on cost-reimbursement-no-fee contracts. The contracting officer shall require—

(1) Submission of data other than certified cost or pricing data to the extent necessary to determine price reasonableness and cost realism; and

(2) Certified cost or pricing data from subcontractors that are not nonprofit organizations when the subcontractor's proposal exceeds the certified cost or pricing data threshold at FAR 15.403-4(a)(1).

215.403-3 Requiring data other than certified cost or pricing data.

Follow the procedures at [PGI 215.403-3](#).

215.403-5 Instructions for submission of certified cost or pricing data and data other than certified cost or pricing data.

(b)(3) For contractors following the contract cost principles in FAR subpart 31.2, Contracts With Commercial Organizations, pursuant to the procedures in FAR 42.1701(b), the administrative contracting officer shall require contractors to comply with the submission items in Table 215.403-1 in order to ensure that their forward pricing rate proposal is submitted in an acceptable form in accordance with FAR 15.403-5(b)(3). The contracting officer should request that the proposal be submitted to the Government at least 90 days prior to the proposed effective date of the rates. 215.404 Proposal analysis.

215.404-1 Proposal analysis techniques.

- (1) Follow the procedures at [PGI 215.404-1](#) for proposal analysis.

(2) For spare parts or support equipment, perform an analysis of—

(i) Those line items where the proposed price exceeds by 25 percent or more the lowest price the Government has paid within the most recent 12-month period based on reasonably available data;

(ii) Those line items where a comparison of the item description and the proposed price indicates a potential for overpricing;

(iii) Significant high-dollar-value items. If there are no obvious high-dollar-value items, include an analysis of a random sample of items; and

(iv) A random sample of the remaining low-dollar value items. Sample size may be determined by subjective judgment, e.g., experience with the offeror and the reliability of its estimating and accounting systems.

215.404-2 Data to support proposal analysis.

See [PGI 215.404-2](#) for guidance on obtaining field pricing or audit assistance.

215.404-3 Subcontract pricing considerations.

Follow the procedures at [PGI 215.404-3](#) when reviewing a subcontractor's proposal.

215.404-4 Profit.

(b) *Policy.*

(1) Contracting officers shall use a structured approach for developing a prenegotiation profit or fee objective on any negotiated contract action when certified cost or pricing data is obtained, except for cost-plus-award-fee contracts (see [215.404-74](#), [216.405-2](#), and FAR 16.405-2) or contracts with Federally Funded Research and Development Centers (FFRDCs) (see [215.404-75](#)). There are three structured approaches—

(A) The weighted guidelines method;

(B) The modified weighted guidelines method; and

(C) An alternate structured approach.

(c) *Contracting officer responsibilities.*

(1) Also, do not perform a profit analysis when assessing cost realism in competitive acquisitions.

(2) When using a structured approach, the contracting officer—

(A) Shall use the weighted guidelines method (see [215.404-71](#)), except as provided in paragraphs (c)(2)(B) and (c)(2)(C) of this subsection.

(B) Shall use the modified weighted guidelines method (see [215.404-72](#)) on contract actions with nonprofit organizations other than FFRDCs.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(C) May use an alternate structured approach (see [215.404-73](#)) when—

(1) The contract action is—

(i) At or below the certified cost or pricing data threshold (see FAR 15.403-4(a)(1));

(ii) For architect-engineer or construction work;

(iii) Primarily for delivery of material from subcontractors; or

(iv) A termination settlement; or

(2) The weighted guidelines method does not produce a reasonable overall profit objective and the head of the contracting activity approves use of the alternate approach in writing.

(D) Shall use the weighted guidelines method to establish a basic profit rate under a formula-type pricing agreement, and may then use the basic rate on all actions under the agreement, provided that conditions affecting profit do not change.

(E) Shall document the profit analysis in the contract file.

(5) Although specific agreement on the applied weights or values for individual profit factors shall not be attempted, the contracting officer may encourage the contractor to—

(A) Present the details of its proposed profit amounts in the weighted guidelines format or similar structured approach; and

(B) Use the weighted guidelines method in developing profit objectives for negotiated subcontracts.

(6) The contracting officer must also verify that relevant variables have not materially changed (e.g., performance risk, interest rates, progress payment rates, distribution of facilities capital).

(d) *Profit-analysis factors.*

(1) *Common factors.* The common factors are embodied in the DoD structured approaches and need not be further considered by the contracting officer.

215.404-70 DD Form 1547, Record of Weighted Guidelines Method Application.

Follow the procedures at [PGI 215.404-70](#) for use of DD Form 1547 whenever a structured approach to profit analysis is required.

215.404-71 Weighted guidelines method.

215.404-71-1 General.

(a) The weighted guidelines method focuses on four profit factors—

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

- (1) Performance risk;
- (2) Contract type risk;
- (3) Facilities capital employed; and
- (4) Cost efficiency.

(b) The contracting officer assigns values to each profit factor; the value multiplied by the base results in the profit objective for that factor. Except for the cost efficiency special factor, each profit factor has a normal value and a designated range of values. The normal value is representative of average conditions on the prospective contract when compared to all goods and services acquired by DoD. The designated range provides values based on above normal or below normal conditions. In the price negotiation documentation, the contracting officer need not explain assignment of the normal value, but should address conditions that justify assignment of other than the normal value. The cost efficiency special factor has no normal value. The contracting officer shall exercise sound business judgment in selecting a value when this special factor is used (see [215.404-71-5](#)).

215.404-71-2 Performance risk.

(a) *Description.* This profit factor addresses the contractor's degree of risk in fulfilling the contract requirements. The factor consists of two parts:

- (1) Technical--the technical uncertainties of performance.
- (2) Management/cost control--the degree of management effort necessary--
 - (i) To ensure that contract requirements are met; and
 - (ii) To reduce and control costs.

(b) *Determination.* The following extract from the DD Form 1547 is annotated to describe the process.

Item	Contractor Risk Factors	Assigned Weighting	Assigned Value	Base (Item 20)	Profit Objective
21.	Technical	(1)	(2)	N/A	N/A
22.	Management/ Cost Control	(1)	(2)	N/A	N/A
23.	Performance Risk (Composite)	N/A	(3)	(4)	(5)

(1) Assign a weight (percentage) to each element according to its input to the total performance risk. The total of the two weights equals 100 percent.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(2) Select a value for each element from the list in paragraph (c) of this subsection using the evaluation criteria in paragraphs (d) and (e) of this subsection.

(3) Compute the composite as shown in the following example:

	Assigned Weighting	Assigned Value	Weighted Value
Technical	60%	5.0%	3.0%
Management/ Cost Control	40%	4.0%	1.6%
Composite Value	100%		4.6%

(4) Insert the amount from Block 20 of the DD Form 1547. Block 20 is total contract costs, excluding facilities capital cost of money.

(5) Multiply (3) by (4).

(c) *Values: Normal and designated ranges.*

	Normal Value	Designated Range
Standard	5%	3% to 7%
Technology Incentive	9%	7% to 11%

(1) *Standard.* The standard designated range should apply to most contracts.

(2) *Technology incentive.* For the technical factor only, contracting officers may use the technology incentive range for acquisitions that include development, production, or application of innovative new technologies. The technology incentive range does not apply to efforts restricted to studies, analyses, or demonstrations that have a technical report as their primary deliverable.

(d) *Evaluation criteria for technical.*

(1) Review the contract requirements and focus on the critical performance elements in the statement of work or specifications. Factors to consider include—

- (i) Technology being applied or developed by the contractor;
- (ii) Technical complexity;
- (iii) Program maturity;
- (iv) Performance specifications and tolerances;
- (v) Delivery schedule; and
- (vi) Extent of a warranty or guarantee.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value in those cases where there is a substantial technical risk. Indicators are—

(A) Items are being manufactured using specifications with stringent tolerance limits;

(B) The efforts require highly skilled personnel or require the use of state-of-the-art machinery;

(C) The services and analytical efforts are extremely important to the Government and must be performed to exacting standards;

(D) The contractor's independent development and investment has reduced the Government's risk or cost;

(E) The contractor has accepted an accelerated delivery schedule to meet DoD requirements; or

(F) The contractor has assumed additional risk through warranty provisions.

(ii) Extremely complex, vital efforts to overcome difficult technical obstacles that require personnel with exceptional abilities, experience, and professional credentials may justify a value significantly above normal.

(iii) The following may justify a maximum value—

(A) Development or initial production of a new item, particularly if performance or quality specifications are tight; or

(B) A high degree of development or production concurrency.

(3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value in those cases where the technical risk is low. Indicators are—

(A) Requirements are relatively simple;

(B) Technology is not complex;

(C) Efforts do not require highly skilled personnel;

(D) Efforts are routine;

(E) Programs are mature; or

(F) Acquisition is a follow-on effort or a repetitive type acquisition.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(ii) The contracting officer may assign a value significantly below normal for—

- (A) Routine services;
- (B) Production of simple items;
- (C) Rote entry or routine integration of Government-furnished information; or
- (D) Simple operations with Government-furnished property.

(4) *Technology incentive range.*

(i) The contracting officer may assign values within the technology incentive range when contract performance includes the introduction of new, significant technological innovation. Use the technology incentive range only for the most innovative contract efforts. Innovation may be in the form of--

(A) Development or application of new technology that fundamentally changes the characteristics of an existing product or system and that results in increased technical performance, improved reliability, or reduced costs; or

(B) New products or systems that contain significant technological advances over the products or systems they are replacing.

(ii) When selecting a value within the technology incentive range, the contracting officer should consider the relative value of the proposed innovation to the acquisition as a whole. When the innovation represents a minor benefit, the contracting officer should consider using values less than the norm. For innovative efforts that will have a major positive impact on the product or program, the contracting officer may use values above the norm.

(e) *Evaluation criteria for management/cost control.*

(1) The contracting officer should evaluate--

(i) The contractor's management and internal control systems using contracting office data, information and reviews made by field contract administration offices or other DoD field offices;

(ii) The management involvement expected on the prospective contract action;

(iii) The degree of cost mix as an indication of the types of resources applied and value added by the contractor;

(iv) The contractor's support of Federal socioeconomic programs;

(v) The expected reliability of the contractor's cost estimates (including the contractor's cost estimating system);

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(vi) The adequacy of the contractor's management approach to controlling cost and schedule; and

(vii) Any other factors that affect the contractor's ability to meet the cost targets (e.g., foreign currency exchange rates and inflation rates).

(2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value when there is a high degree of management effort. Indicators of this are—

(A) The contractor's value added is both considerable and reasonably difficult;

(B) The effort involves a high degree of integration or coordination;

(C) The contractor has a good record of past performance;

(D) The contractor has a substantial record of active participation in Federal socioeconomic programs;

(E) The contractor provides fully documented and reliable cost estimates;

(F) The contractor makes appropriate make-or-buy decisions; or

(G) The contractor has a proven record of cost tracking and control.

(ii) The contracting officer may justify a maximum value when the effort—

(A) Requires large scale integration of the most complex nature;

(B) Involves major international activities with significant management coordination (e.g., offsets with foreign vendors); or

(C) Has critically important milestones.

(3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value when the management effort is minimal. Indicators of this are—

(A) The program is mature and many end item deliveries have been made;

(B) The contractor adds minimal value to an item;

(C) The efforts are routine and require minimal supervision;

(D) The contractor provides poor quality, untimely proposals;

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

- (E) The contractor fails to provide an adequate analysis of subcontractor costs;
 - (F) The contractor does not cooperate in the evaluation and negotiation of the proposal;
 - (G) The contractor's cost estimating system is marginal;
 - (H) The contractor has made minimal effort to initiate cost reduction programs;
 - (I) The contractor's cost proposal is inadequate;
 - (J) The contractor has a record of cost overruns or another indication of unreliable cost estimates and lack of cost control; or
 - (K) The contractor has a poor record of past performance.
- (ii) The following may justify a value significantly below normal—
- (A) Reviews performed by the field contract administration offices disclose unsatisfactory management and internal control systems (e.g., quality assurance, property control, safety, security); or
 - (B) The effort requires an unusually low degree of management involvement.

215.404-71-3 Contract type risk and working capital adjustment.

(a) *Description.* The contract type risk factor focuses on the degree of cost risk accepted by the contractor under varying contract types. The working capital adjustment is an adjustment added to the profit objective for contract type risk. It only applies to fixed-price contracts that provide for progress payments. Though it uses a formula approach, it is not intended to be an exact calculation of the cost of working capital. Its purpose is to give general recognition to the contractor's cost of working capital under varying contract circumstances, financing policies, and the economic environment.

(b) *Determination.* The following extract from the DD 1547 is annotated to explain the process.

Item	Contractor Risk Factors	Assigned Value	Base (Item 20)	Profit Objective
24.	Contract Type Risk	(1)	(2)	(3)

		Cost Financed	Length Factor	Interest Rate	
25.	Working Capital (4)	(5)	(6)	(7)	(8)

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(1) Select a value from the list of contract types in paragraph (c) of this subsection using the evaluation criteria in paragraph (d) of this subsection.

(2) Insert the amount from Block 20, i.e., the total allowable costs excluding facilities capital cost of money.

(3) Multiply (1) by (2).

(4) Only complete this block when the prospective contract is a fixed-price contract containing provisions for progress payments.

(5) Insert the amount computed per paragraph (e) of this subsection.

(6) Insert the appropriate figure from paragraph (f) of this subsection.

(7) Use the interest rate established by the Secretary of the Treasury (see http://www.treasurydirect.gov/govt/rates/tcir/tcir_opdirsemi.htm). Do not use any other interest rate.

(8) Multiply (5) by (6) by (7). This is the working capital adjustment. It shall not exceed 4 percent of the contract costs in Block 20.

(c) *Values: Normal and designated ranges.*

Contract Type	Notes	Normal Value (percent)	Designated Range (percent)
Firm-fixed-price, no financing	(1)	5	4 to 6.
Firm-fixed-price, with performance-based payments	(6)	4	2.5 to 5.5.
Firm-fixed-price, with progress payments	(2)	3	2 to 4.
Fixed-price incentive, no financing	(1)	3	2 to 4.
Fixed-price incentive, with performance-based payments	(6)	2	0.5 to 3.5.
Fixed-price with redetermination provision	(3)		
Fixed-price incentive, with progress payments	(2)	1	0 to 2.
Cost-plus-incentive-fee	(4)	1	0 to 2.
Cost-plus-fixed-fee	(4)	.5	0 to 1.
Time-and-materials (including overhaul contracts priced on time-and-materials basis)	(5)	.5	0 to 1.
Labor-hour	(5)	.5	0 to 1.
Firm-fixed-price, level-of-effort	(5)	.5	0 to 1.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(1) “No financing” means either that the contract does not provide progress payments or performance-based payments, or that the contract provides them only on a limited basis, such as financing of first articles. Do not compute a working capital adjustment.

(2) When the contract contains provisions for progress payments, compute a working capital adjustment (Block 25).

(3) For the purposes of assigning profit values, treat a fixed-price contract with redetermination provisions as if it were a fixed-price incentive contract with below normal conditions.

(4) Cost-plus contracts shall not receive the working capital adjustment.

(5) These types of contracts are considered cost-plus-fixed-fee contracts for the purposes of assigning profit values. They shall not receive the working capital adjustment in Block 25. However, they may receive higher than normal values within the designated range to the extent that portions of cost are fixed.

(6) When the contract contains provisions for performance-based payments, do not compute a working capital adjustment.

(d) *Evaluation criteria.*

(1) *General.* The contracting officer should consider elements that affect contract type risk such as—

- (i) Length of contract;
- (ii) Adequacy of cost data for projections;
- (iii) Economic environment;
- (iv) Nature and extent of subcontracted activity;
- (v) Protection provided to the contractor under contract provisions (e.g., economic price adjustment clauses);
- (vi) The ceilings and share lines contained in incentive provisions;
- (vii) Risks associated with contracts for foreign military sales (FMS) that are not funded by U.S. appropriations; and
- (viii) When the contract contains provisions for performance-based payments—
 - (A) The frequency of payments;
 - (B) The total amount of payments compared to the maximum allowable amount specified at FAR 32.1004(b)(2); and
 - (C) The risk of the payment schedule to the contractor.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(2) *Mandatory.* The contracting officer shall assess the extent to which costs have been incurred prior to definitization of the contract action (also see [217.7404-6\(a\)](#) and [243.204-70-6](#)). The assessment shall include any reduced contractor risk on both the contract before definitization and the remaining portion of the contract. When costs have been incurred prior to definitization, generally regard the contract type risk to be in the low end of the designated range. If a substantial portion of the costs have been incurred prior to definitization, the contracting officer may assign a value as low as 0 percent, regardless of contract type.

(3) *Above normal conditions.* The contracting officer may assign a higher than normal value when there is substantial contract type risk. Indicators of this are—

- (i) Efforts where there is minimal cost history;
- (ii) Long-term contracts without provisions protecting the contractor, particularly when there is considerable economic uncertainty;
- (iii) Incentive provisions (e.g., cost and performance incentives) that place a high degree of risk on the contractor;
- (iv) FMS sales (other than those under DoD cooperative logistics support arrangements or those made from U.S. Government inventories or stocks) where the contractor can demonstrate that there are substantial risks above those normally present in DoD contracts for similar items; or
- (v) An aggressive performance-based payment schedule that increases risk.

(4) *Below normal conditions.* The contracting officer may assign a lower than normal value when the contract type risk is low. Indicators of this are—

- (i) Very mature product line with extensive cost history;
- (ii) Relatively short-term contracts;
- (iii) Contractual provisions that substantially reduce the contractor's risk;
- (iv) Incentive provisions that place a low degree of risk on the contractor;
- (v) Performance-based payments totaling the maximum allowable amount(s) specified at FAR 32.1004(b)(2); or
- (vi) A performance-based payment schedule that is routine with minimal risk.

(e) *Costs financed.*

(1) Costs financed equal total costs multiplied by the portion (percent) of costs financed by the contractor.

(2) Total costs equal Block 20 (i.e., all allowable costs excluding facilities capital cost of money), reduced as appropriate when—

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(i) The contractor has little cash investment (e.g., subcontractor progress payments liquidated late in period of performance);

(ii) Some costs are covered by special financing provisions, such as advance payments; or

(iii) The contract is multiyear and there are special funding arrangements.

(3) The portion that the contractor finances is generally the portion not covered by progress payments, i.e., 100 percent minus the customary progress payment rate (see FAR 32.501). For example, if a contractor receives progress payments at 80 percent, the portion that the contractor finances is 20 percent. On contracts that provide progress payments to small businesses, use the customary progress payment rate for large businesses.

(f) *Contract length factor.*

(1) This is the period of time that the contractor has a working capital investment in the contract. It—

(i) Is based on the time necessary for the contractor to complete the substantive portion of the work;

(ii) Is not necessarily the period of time between contract award and final delivery (or final payment), as periods of minimal effort should be excluded;

(iii) Should not include periods of performance contained in option provisions; and

(iv) Should not, for multiyear contracts, include periods of performance beyond that required to complete the initial program year's requirements.

(2) The contracting officer—

(i) Should use the following table to select the contract length factor;

(ii) Should develop a weighted average contract length when the contract has multiple deliveries; and

(iii) May use sampling techniques provided they produce a representative result.

Defense Federal Acquisition Regulation Supplement

TABLE	
Period to Perform Substantive Portion (in months)	Contract Length Factor
21 or less	.40
22 to 27	.65

34 to 39	1.15
40 to 45	1.40

58 to 63	2.15
64 to 69	2.40
70 to 75	2.65
76 or more	2.90

(3) Example: A prospective contract has a performance period of 40 months with end items being delivered in the 34th, 36th, 38th, and 40th months of the contract. The average period is 37 months and the contract length factor is 1.15.

215.404-71-4 Facilities capital employed.

(a) *Description.* This factor focuses on encouraging and rewarding capital investment in facilities that benefit DoD. It recognizes both the facilities capital that the contractor will employ in contract performance and the contractor's commitment to improving productivity.

(b) *Contract facilities capital estimates.* The contracting officer shall estimate the facilities capital cost of money and capital employed using—

(1) An analysis of the appropriate Forms CASB-CMF and cost of money factors (48 CFR 9904.414 and FAR 31.205-10); and

(2) DD Form 1861, Contract Facilities Capital Cost of Money.

(c) *Use of DD Form 1861.* See [PGI 215.404-71-4\(c\)](#) for obtaining field pricing support for preparing DD Form 1861.

(1) *Purpose.* The DD Form 1861 provides a means of linking the Form CASB-CMF and DD Form 1547, Record of Weighted Guidelines Application. It—

(i) Enables the contracting officer to differentiate profit objectives for various types of assets (land, buildings, equipment). The procedure is similar to applying overhead rates to appropriate overhead allocation bases to determine contract overhead costs.

(ii) Is designed to record and compute the contract facilities capital cost of money and capital employed which is carried forward to DD Form 1547.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(2) *Completion instructions.* Complete a DD Form 1861 only after evaluating the contractor's cost proposal, establishing cost of money factors, and establishing a prenegotiation objective on cost. Complete the form as follows:

(i) List overhead pools and direct-charging service centers (if used) in the same structure as they appear on the contractor's cost proposal and Form CASB-CMF. The structure and allocation base units-of-measure must be compatible on all three displays.

(ii) Extract appropriate contract overhead allocation base data, by year, from the evaluated cost breakdown or prenegotiation cost objective and list against each overhead pool and direct-charging service center.

(iii) Multiply each allocation base by its corresponding cost of money factor to get the facilities capital cost of money estimated to be incurred each year. The sum of these products represents the estimated contract facilities capital cost of money for the year's effort.

(iv) Total contract facilities cost of money is the sum of the yearly amounts.

(v) Since the facilities capital cost of money factors reflect the applicable cost of money rate in Column 1 of Form CASB-CMF, divide the contract cost of money by that same rate to determine the contract facilities capital employed.

(d) *Preaward facilities capital applications.* To establish cost and price objectives, apply the facilities capital cost of money and capital employed as follows:

(1) *Cost of Money.*

(i) *Cost Objective.* Use the imputed facilities capital cost of money, with normal, booked costs, to establish a cost objective or the target cost when structuring an incentive type contract. Do not adjust target costs established at the outset even though actual cost of money rates become available during the period of contract performance.

(ii) *Profit Objective.* When measuring the contractor's effort for the purpose of establishing a prenegotiation profit objective, restrict the cost base to normal, booked costs. Do not include cost of money as part of the cost base.

(2) *Facilities Capital Employed.* Assess and weight the profit objective for risk associated with facilities capital employed in accordance with the profit guidelines at 215.404-71-4.

(e) *Determination.* The following extract from the DD Form 1547 has been annotated to explain the process.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

Item	Contractor Facilities Capital Employed	Assigned Value	Amount Employed	Profit Objective
26.	Land	N/A	(2)	N/A
27.	Buildings	N/A	(2)	N/A
28.	Equipment	(1)	(2)	(3)

(1) Select a value from the list in paragraph (f) of this subsection using the evaluation criteria in paragraph (g) of this subsection.

(2) Use the allocated facilities capital attributable to land, buildings, and equipment, as derived in DD Form 1861, Contract Facilities Capital Cost of Money.

(i) In addition to the net book value of facilities capital employed, consider facilities capital that is part of a formal investment plan if the contractor submits reasonable evidence that—

(A) Achievable benefits to DoD will result from the investment; and

(B) The benefits of the investment are included in the forward pricing structure.

(ii) If the value of intracompany transfers has been included in Block 20 at cost (i.e., excluding general and administrative (G&A) expenses and profit), add to the contractor's allocated facilities capital, the allocated facilities capital attributable to the buildings and equipment of those corporate divisions supplying the intracompany transfers. Do not make this addition if the value of intracompany transfers has been included in Block 20 at price (i.e., including G&A expenses and profit).

(3) Multiply (1) by (2).

(f) *Values: Normal and designated ranges.*

Asset Type	Normal Value	Designated Range
Land	0%	N/A
Buildings	0%	N/A
Equipment	17.5%	10% to 25%

(g) *Evaluation criteria.*

(1) In evaluating facilities capital employed, the contracting officer—

(i) Should relate the usefulness of the facilities capital to the goods or services being acquired under the prospective contract;

(ii) Should analyze the productivity improvements and other anticipated industrial base enhancing benefits resulting from the facilities capital investment, including—

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(A) The economic value of the facilities capital, such as physical age, undepreciated value, idleness, and expected contribution to future defense needs; and

(B) The contractor's level of investment in defense related facilities as compared with the portion of the contractor's total business that is derived from DoD; and

(iii) Should consider any contractual provisions that reduce the contractor's risk of investment recovery, such as termination protection clauses and capital investment indemnification.

(2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value if the facilities capital investment has direct, identifiable, and exceptional benefits. Indicators are—

(A) New investments in state-of-the-art technology that reduce acquisition cost or yield other tangible benefits such as improved product quality or accelerated deliveries; or

(B) Investments in new equipment for research and development applications.

(ii) The contracting officer may assign a value significantly above normal when there are direct and measurable benefits in efficiency and significantly reduced acquisition costs on the effort being priced. Maximum values apply only to those cases where the benefits of the facilities capital investment are substantially above normal.

(3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value if the facilities capital investment has little benefit to DoD. Indicators are—

(A) Allocations of capital apply predominantly to commercial item lines;

(B) Investments are for such things as furniture and fixtures, home or group level administrative offices, corporate aircraft and hangars, gymnasiums; or

(C) Facilities are old or extensively idle.

(ii) The contracting officer may assign a value significantly below normal when a significant portion of defense manufacturing is done in an environment characterized by outdated, inefficient, and labor-intensive capital equipment.

215.404-71-5 Cost efficiency factor.

(a) This special factor provides an incentive for contractors to reduce costs. To the extent that the contractor can demonstrate cost reduction efforts that benefit the pending contract, the contracting officer may increase the prenegotiation profit objective by an amount not to exceed 4 percent of total objective cost (Block 20 of the DD Form 1547) to recognize these efforts (Block 29).

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(b) To determine if using this factor is appropriate, the contracting officer shall consider criteria, such as the following, to evaluate the benefit the contractor's cost reduction efforts will have on the pending contract:

- (1) The contractor's participation in Single Process Initiative improvements;
- (2) Actual cost reductions achieved on prior contracts;
- (3) Reduction or elimination of excess or idle facilities;

(4) The contractor's cost reduction initiatives (e.g., competition advocacy programs, technical insertion programs, obsolete parts control programs, spare parts pricing reform, value engineering, outsourcing of functions such as information technology). Metrics developed by the contractor such as fully loaded labor hours (i.e., cost per labor hour, including all direct and indirect costs) or other productivity measures may provide the basis for assessing the effectiveness of the contractor's cost reduction initiatives over time;

- (5) The contractor's adoption of process improvements to reduce costs;
- (6) Subcontractor cost reduction efforts;
- (7) The contractor's effective incorporation of commercial items and processes;

or

(8) The contractor's investment in new facilities when such investments contribute to better asset utilization or improved productivity.

(c) When selecting the percentage to use for this special factor, the contracting officer has maximum flexibility in determining the best way to evaluate the benefit the contractor's cost reduction efforts will have on the pending contract. However, the contracting officer shall consider the impact that quantity differences, learning, changes in scope, and economic factors such as inflation and deflation will have on cost reduction.

215.404-72 Modified weighted guidelines method for nonprofit organizations other than FFRDCs.

(a) *Definition.* As used in this subpart, a nonprofit organization is a business entity—

- (1) That operates exclusively for charitable, scientific, or educational purposes;
- (2) Whose earnings do not benefit any private shareholder or individual;
- (3) Whose activities do not involve influencing legislation or political campaigning for any candidate for public office; and
- (4) That is exempted from Federal income taxation under section 501 of the Internal Revenue Code.

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(b) For nonprofit organizations that are entities that have been identified by the Secretary of Defense or a Secretary of a Department as receiving sustaining support on a cost-plus-fixed-fee basis from a particular DoD department or agency, compute a fee objective for covered actions using the weighted guidelines method in 215.404-71, with the following modifications:

(1) *Modifications to performance risk (Blocks 21-23 of the DD Form 1547).*

(i) If the contracting officer assigns a value from the standard designated range (see [215.404-71-2\(c\)](#)), reduce the fee objective by an amount equal to 1 percent of the costs in Block 20 of the DD Form 1547. Show the net (reduced) amount on the DD Form 1547.

(ii) Do not assign a value from the technology incentive designated range.

(2) *Modifications to contract type risk (Block 24 of the DD Form 1547).* Use a designated range of -1 percent to 0 percent instead of the values in [215.404-71-3](#). There is no normal value.

(c) For all other nonprofit organizations except FFRDCs, compute a fee objective for covered actions using the weighted guidelines method in [215.404-71](#), modified as described in paragraph (b)(1) of this subsection.

215.404-73 Alternate structured approaches.

(a) The contracting officer may use an alternate structured approach under [215.404-4\(c\)](#).

(b) The contracting officer may design the structure of the alternate, but it shall include—

(1) Consideration of the three basic components of profit--performance risk, contract type risk (including working capital), and facilities capital employed. However, the contracting officer is not required to complete Blocks 21 through 30 of the DD Form 1547.

(2) Offset for facilities capital cost of money.

(i) The contracting officer shall reduce the overall prenegotiation profit objective by the amount of facilities capital cost of money under Cost Accounting Standard (CAS) 414, Cost of Money as an Element of the Cost of Facilities Capital (48 CFR 9904.414). Cost of money under CAS 417, Cost of Money as an Element of the Cost of Capital Assets Under Construction (48 CFR 9904.417), should not be used to reduce the overall prenegotiation profit objective. The profit amount in the negotiation summary of the DD Form 1547 must be net of the offset.

(ii) This adjustment is needed for the following reason: The values of the profit factors used in the weighted guidelines method were adjusted to recognize the shift in facilities capital cost of money from an element of profit to an element of contract cost (see FAR 31.205-10) and reductions were made directly to the profit factors for performance risk. In order to ensure that this policy is applied to all DoD

contracts that allow facilities capital cost of money, similar adjustments shall be made to contracts that use alternate structured approaches.

215.404-74 Fee requirements for cost-plus-award-fee contracts.

In developing a fee objective for cost-plus-award-fee contracts, the contracting officer shall—

- (a) Follow the guidance in FAR 16.405-2 and [216.405-2](#);
- (b) Not use the weighted guidelines method or alternate structured approach;
- (c) Apply the offset policy in [215.404-73](#)(b)(2) for facilities capital cost of money, i.e., reduce the base fee by the amount of facilities capital cost of money; and
- (d) Not complete a DD Form 1547.

215.404-75 Fee requirements for FFRDCs.

For nonprofit organizations that are FFRDCs, the contracting officer—

(a) Should consider whether any fee is appropriate. Considerations shall include the FFRDC's—

(1) Proportion of retained earnings (as established under generally accepted accounting methods) that relates to DoD contracted effort;

(2) Facilities capital acquisition plans;

(3) Working capital funding as assessed on operating cycle cash needs; and

(4) Provision for funding unreimbursed costs deemed ordinary and necessary to the FFRDC.

(b) Shall, when a fee is considered appropriate, establish the fee objective in accordance with FFRDC fee policies in the DoD FFRDC Management Plan.

(c) Shall not use the weighted guidelines method or an alternate structured approach.

215.404-76 Reporting profit and fee statistics.

Follow the procedures at [PGI 215.404-76](#) for reporting profit and fee statistics.

215.406-1 Prenegotiation objectives.

Follow the procedures at [PGI 215.406-1](#) for establishing prenegotiation objectives.

215.406-3 Documenting the negotiation.

Follow the procedures at [PGI 215.406-3](#) for documenting the negotiation.

215.407-2 Make-or-buy programs.

(a) *General.* See PGI for guidance on factors to consider when deciding whether to request a make-or-buy plan and for factors to consider when evaluating make-or-buy plan submissions.

(e) *Program requirements.*

(1) *Items and work included.* The minimum dollar amount is \$1.5 million.

215.407-3 Forward pricing rate agreements.

(b)(i) Use forward pricing rate agreement (FPRA) rates when such rates are available, unless waived on a case-by-case basis by the head of the contracting activity.

(ii) Advise the ACO of each case waived.

(iii) Contact the ACO for questions on FPRA's or recommended rates.

215.407-4 Should-cost review.

See [PGI 215.407-4](#) for guidance on determining whether to perform a program or overhead should-cost review.

215.407-5 Estimating systems.

215.407-5-70 Disclosure, maintenance, and review requirements.

(a) *Definitions.*

(1) “Acceptable estimating system” is defined in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(2) “Contractor” means a business unit as defined in FAR 2.101.

(3) “Estimating system” is as defined in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(4) “Significant deficiency” is defined in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(b) *Applicability.*

(1) DoD policy is that all contractors have acceptable estimating systems that consistently produce well-supported proposals that are acceptable as a basis for negotiation of fair and reasonable prices.

(2) A large business contractor is subject to estimating system disclosure, maintenance, and review requirements if—

(i) In its preceding fiscal year, the contractor received DoD prime contracts or subcontracts totaling \$50 million or more for which certified cost or pricing were required; or

(ii) In its preceding fiscal year, the contractor received DoD prime contracts or subcontracts totaling \$10 million or more (but less than \$50 million) for which certified cost or pricing data were required and the contracting officer, with concurrence or at the request of the ACO, determines it to be in the best interest of the Government

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(e.g., significant estimating problems are believed to exist or the contractor's sales are predominantly Government).

(c) *Policy.*

(1) The contracting officer shall—

(i) Through use of the clause at [252.215-7002](#), Cost Estimating System Requirements, apply the disclosure, maintenance, and review requirements to large business contractors meeting the criteria in paragraph (b)(2)(i) of this section;

(ii) Consider whether to apply the disclosure, maintenance, and review requirements to large business contractors under paragraph (b)(2)(ii) of this section; and

(iii) Not apply the disclosure, maintenance, and review requirements to other than large business contractors.

(2) The cognizant contracting officer, in consultation with the auditor, for contractors subject to paragraph (b)(2) of this section, shall—

(i) Determine the acceptability of the disclosure and approve or disapprove the system; and

(ii) Pursue correction of any deficiencies.

(3) The auditor conducts estimating system reviews.

(4) An acceptable system shall provide for the use of appropriate source data, utilize sound estimating techniques and good judgment, maintain a consistent approach, and adhere to established policies and procedures.

(5) In evaluating the acceptability of a contractor's estimating system, the contracting officer, in consultation with the auditor, shall determine whether the contractor's estimating system complies with the system criteria for an acceptable estimating system as prescribed in the clause at [252.215-7002](#), Cost Estimating System Requirements.

(d) *Disposition of findings—*

(1) *Reporting of findings.* The auditor shall document findings and recommendations in a report to the contracting officer. If the auditor identifies any significant estimating system deficiencies, the report shall describe the deficiencies in sufficient detail to allow the contracting officer to understand the deficiencies.

(2) *Initial determination.* (i) The contracting officer shall review all findings and recommendations and, if there are no significant deficiencies, shall promptly notify the contractor, in writing, that the contractor's estimating system is acceptable and approved; or

(ii) If the contracting officer finds that there are one or more significant deficiencies (as defined in the clause at [252.215-7002](#), Cost Estimating System

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

Requirements) due to the contractor's failure to meet one or more of the estimating system criteria in the clause at [252.215-7002](#), the contracting officer shall—

(A) Promptly make an initial written determination on any significant deficiencies and notify the contractor, in writing, providing a description of each significant deficiency in sufficient detail to allow the contractor to understand the deficiency;

(B) Request the contractor to respond, in writing, to the initial determination within 30 days; and

(C) Promptly evaluate the contractor's responses to the initial determination, in consultation with the auditor or functional specialist, and make a final determination.

(3) *Final determination.* (i) The contracting officer shall make a final determination and notify the contractor, in writing, that—

(A) The contractor's estimating system is acceptable and approved, and no significant deficiencies remain, or

(B) Significant deficiencies remain. The notice shall identify any remaining significant deficiencies, and indicate the adequacy of any proposed or completed corrective action. The contracting officer shall—

(1) Request that the contractor, within 45 days of receipt of the final determination, either correct the deficiencies or submit an acceptable corrective action plan showing milestones and actions to eliminate the deficiencies;

(2) Disapprove the system in accordance with the clause at [252.215-7002](#), Cost Estimating System Requirements; and

(3) Withhold payments in accordance with the clause at [252.242-7005](#), Contractor Business Systems, if the clause is included in the contract.

(ii) Follow the procedures relating to monitoring a contractor's corrective action and the correction of significant deficiencies in [PGI 215.407-5-70\(e\)](#).

(e) *System approval.* The contracting officer shall promptly approve a previously disapproved estimating system and notify the contractor when the contracting officer determines that there are no remaining significant deficiencies.

(f) *Contracting officer notifications.* The cognizant contracting officer shall promptly distribute copies of a determination to approve a system, disapprove a system and withhold payments, or approve a previously disapproved system and release withheld payments, to the auditor; payment office; affected contracting officers at the buying activities; and cognizant contracting officers in contract administration activities.

215.408 Solicitation provisions and contract clauses.

(1) Use the clause at [252.215-7000](#), Pricing Adjustments, in solicitations and contracts that contain the clause at—

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(i) FAR 52.215-11, Price Reduction for Defective Certified Cost or Pricing Data--Modifications;

(ii) FAR 52.215-12, Subcontractor Certified Cost or Pricing Data; or

(iii) FAR 52.215-13, Subcontractor Certified Cost or Pricing Data--Modifications.

(2) Use the clause at [252.215-7002](#), Cost Estimating System Requirements, in all solicitations and contracts to be awarded on the basis of certified cost or pricing data.

(3) When contracting with the Canadian Commercial Corporation—

(i)(A) Use the provision at [252.215-7003](#), Requirement for Data Other Than Certified Cost or Pricing Data—Canadian Commercial Corporation—

(1) In lieu of FAR 52.215-20, Requirement for Data Other Than Certified Cost or Pricing Data, in a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition from the Canadian Commercial Corporation that is—

(i) Cost-reimbursement, if the contract value is expected to exceed \$700,000; or

(ii) Fixed-price, if the contract value is expected to exceed \$500 million;
or

(2) In lieu of FAR 52.215-20, in a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition from the Canadian Commercial Corporation that does not meet the thresholds specified in paragraph (3)(i)(A)(1), if approval is obtained as required at [225.870-4\(c\)\(2\)\(ii\)](#); and

(B) Do not use [252.225-7003](#) in lieu of FAR 52.215-20 in competitive acquisitions. The contracting officer may use FAR 52.215-20 with its Alternate IV, as prescribed at 15.408(l)(3), even if offers from the Canadian Commercial Corporation are anticipated; and

(ii)(A) Use the clause at [252.215-7004](#), Requirement for Data Other Than Certified Cost or Pricing Data—Modifications—Canadian Commercial Corporation—

(1) In a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition, from the Canadian Commercial Corporation and resultant contract that is—

(i) Cost-reimbursement, if the contract value is expected to exceed \$700,000; or

(ii) Fixed-price, if the contract value is expected to exceed \$500 million;

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

(2) In a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a sole source acquisition from the Canadian Commercial Corporation and resultant contract that does not meet the thresholds specified in paragraph (3)(ii)(A) (1), if approval is obtained as required at [225.870-4\(c\)\(2\)\(ii\)](#); or

(3)(i) In a solicitation, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a competitive acquisition that includes FAR 52.215-21, Requirement for Data Other Than Certified Cost or Pricing Data—Modifications, or that meets the thresholds specified in paragraph (3)(ii)(A) (1).

(ii) The contracting officer shall then select the appropriate clause to include in the contract (52.215-21 only if award is not to the Canadian Commercial Corporation; or [252.215-7004](#) if award is to the Canadian Commercial Corporation and necessary approval is obtained in accordance with [225.870-4\(c\)\(2\)\(ii\)](#)); and

(B) The contracting officer may specify a higher threshold in paragraph (b) of the clause [252.215-7004](#).

(4)(i) Use the provision at [252.215-7008](#), Only One Offer, in competitive solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, unless an exception at [215.371-4\(a\)](#) applies.

(ii) In solicitations that include [252.215-7008](#), Only One Offer, also include the provision at FAR 52.215-20, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, with any appropriate alternate as prescribed at FAR 15.408-1 if the contracting officer is requesting submission of data other than certified cost or pricing data with the offer.

(5) When the solicitation requires the submission of certified cost or pricing data, the contracting officer should include [252.215-7009](#), Proposal Adequacy Checklist, in the solicitation to facilitate submission of a thorough, accurate, and complete proposal.

215.470 Estimated data prices.

(a) DoD requires estimates of the prices of data in order to evaluate the cost to the Government of data items in terms of their management, product, or engineering value.

(b) When data are required to be delivered under a contract, include DD Form 1423, Contract Data Requirements List, in the solicitation. See [PGI 215.470\(b\)](#) for guidance on the use of DD Form 1423.

(c) The contracting officer shall ensure that the contract does not include a requirement for data that the contractor has delivered or is obligated to deliver to the Government under another contract or subcontract, and that the successful offeror identifies any such data required by the solicitation. However, where duplicate data are desired, the contract price shall include the costs of duplication, but not of preparation, of such data.

SUBPART 225.7—PROHIBITED SOURCES

(Revised December 11, 2014)

225.701 Restrictions.

225.701-70 Exception.

DoD personnel are authorized to make emergency acquisitions in direct support of U.S. or allied forces deployed in military contingency, humanitarian, or peacekeeping operations in a country or region subject to economic sanctions administered by the Department of the Treasury, Office of Foreign Assets Control.

225.770 Prohibition on acquisition of United States Munitions List items from Communist Chinese military companies.

This section implements section 1211 of the National Defense Authorization Act for Fiscal Year 2006 (Pub. L. 109-163) and section 1243 of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112-81). See [PGI 225.770](#) for additional information relating to this statute, the terms used in this section, and the United States Munitions List.

225.770-1 Definitions.

As used in this section—

(a) “Communist Chinese military company” and “United States Munitions List” are defined in the clause at [252.225-7007](#), Prohibition on Acquisition of United States Munitions List Items from Communist Chinese Military Companies.

(b) “Component” means an item that is useful only when used in conjunction with an end item (22 CFR 121.8).

(c) “Part” means any single unassembled element of a major or minor component, accessory, or attachment, that is not normally subject to disassembly without the destruction or impairment of design use (22 CFR 121.8).

225.770-2 Prohibition.

Do not acquire supplies or services covered by the United States Munitions List (USML) (22 CFR Part 121), through a contract or subcontract at any tier, from any Communist Chinese military company. This prohibition does not apply to components and parts of covered items unless the components and parts are themselves covered by the USML.

225.770-3 Exceptions.

The prohibition in [225.770-2](#) does not apply to supplies or services acquired—

(a) In connection with a visit to the People’s Republic of China by a vessel or an aircraft of the U.S. armed forces;

(b) For testing purposes; or

(c) For the purpose of gathering intelligence.

225.770-4 Identifying USML items.

(a) Before issuance of a solicitation, the requiring activity shall notify the contracting officer in writing whether the items to be acquired are covered by the USML. The notification shall identify any covered item(s) and shall provide the pertinent USML reference(s) from 22 CFR Part 121.

(b) The USML includes defense articles and defense services that fall into 21 categories. Since not all USML items are themselves munitions (e.g., protective personnel equipment, military training equipment), the requiring activity should consult the USML before concluding that an item is or is not covered by the USML.

225.770-5 Waiver of prohibition.

(a) The prohibition in [225.770-2](#) may be waived, on a case-by-case basis, if an official identified in paragraph (b) of this subsection determines that a waiver is necessary for national security purposes.

(b) The following officials are authorized, without power of delegation, to make the determination specified in paragraph (a) of this subsection:

- (1) The Under Secretary of Defense (Acquisition, Technology, and Logistics).
- (2) The Secretaries of the military departments.
- (3) The Component Acquisition Executive of the Defense Logistics Agency.

(c)(1) The official granting a waiver shall submit a report to the congressional defense committees, with a copy to the Director of Defense Procurement and Acquisition Policy (see [PGI 225.770-5](#)), not less than 15 days before issuing the waiver.

(2) In the report, the official shall—

- (i) Identify the specific reasons for the waiver; and
- (ii) Include recommendations as to what actions may be taken to develop alternative sourcing capabilities in the future.

See DoD [Class Deviation 2014-O0020](#), Class Deviation-Prohibition on Contracting with the Enemy. This deviation is applicable to solicitations and contracts awarded on or before December 31, 2018, with an estimated value in excess of \$50,000 that are being, or will be performed, in the U.S. Central Command, U.S. European Command, U.S. Africa Command, U.S. Southern Command, or U.S. Pacific Command theaters of operation.

225.771 Prohibition on contracting or subcontracting with a firm that is owned or controlled by the government of a country that is a state sponsor of terrorism.

225.771-0 Scope.

This section implements 10 U.S.C. 2327(b).

225.771-1 Definition.

“State sponsor of terrorism,” as used in this section, is defined in the provision at [252.225-7050](#), Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism.

225.771-2 Prohibition.

(a) The contracting officer shall not award a contract of \$150,000 or more to a firm when a foreign government that is a state sponsor of terrorism owns or controls, either directly or indirectly, a significant interest in—

- (i) The firm;
- (ii) A subsidiary of the firm; or
- (iii) Any other firm that owns or controls the firm.

(b) For restrictions on subcontracting with a firm, or a subsidiary of a firm, that is identified by the Secretary of Defense as being owned or controlled by the government of a country that is a state sponsor of terrorism, see [209.405-2](#).

225.771-3 Notification.

Any disclosure that the government of a country that is a state sponsor of terrorism has a significant interest in an offeror, a subsidiary of an offeror, or any other firm that owns or controls an offeror shall be forwarded through agency channels to the address at [PGI 225.771-3](#).

225.771-4 Waiver of prohibition.

The prohibition in [225.771-2](#) may be waived if the Secretary of Defense determines that a waiver is not inconsistent with the national security objectives of the United States in accordance with 10 U.S.C. 2327(c).

225.771-5 Solicitation provision.

Use the provision at [252.225-7050](#), Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items (other than commercial satellite services), that are expected to result in contracts of \$150,000 or more. If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.225-7050](#) in the solicitation.

225.772 Prohibition on acquisition of commercial satellite services from certain foreign entities.

225.772-0 Scope.

This section implements 10 U.S.C. 2279.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

225.772-2 Prohibition.

The contracting officer shall not award a contract for commercial satellite services to—

(a) A foreign entity if the Under Secretary of Defense for Acquisition, Technology, and Logistics or the Under Secretary of Defense for Policy reasonably believes that the foreign entity—

(1) Is an entity in which the government of a covered foreign country has an ownership interest that enables the government to affect satellite operations; or

(2) Plans to or is expected to provide or use launch or other satellite services under the contract from a covered foreign country; or

(b) An offeror that is offering commercial satellite services provided by a foreign entity as described in paragraph (a) of this section.

225.772-3 Procedures.

(a) If an offeror discloses information in accordance with paragraph (d) of the provision [252.225-7049](#), Prohibition on Acquisition of Commercial Satellite Services from Certain Foreign Entities—Representations, the contracting officer—

(1) Shall forward the information regarding the offeror through agency channels to the address at [PGI 225.772-3](#); and

(2) Shall not award to that offeror, unless an exception is determined to apply in accordance with [225.772-4](#).

(b)(1) If the otherwise successful offeror provides negative responses to all representations in the provision at [252.225-7049](#), the contracting officer may rely on the representations, unless the contracting officer has an independent reason to question the representations.

(2) If the contracting officer has an independent reason to question a negative representation of the otherwise successful offeror, the contracting officer shall consult with the office specified in [PGI 225.772-3](#), prior to deciding whether to award to that offeror.

225.772-4 Exception.

(a) The prohibition in [225.772-2](#) does not apply if—

(1) The Under Secretary of Defense for Acquisition, Technology, and Logistics, or the Under Secretary of Defense for Policy, without power of redelegation, determines that it is in the national security interest of the United States to enter into such contract; and

(2) Not later than seven days before entering into such contract, the Under Secretary of Defense making the determination in paragraph (a)(1) of this section, in consultation with the Director of National Intelligence, submits to the congressional defense committees a national security assessment, in accordance with 10 U.S.C. 2279.

Defense Federal Acquisition Regulation Supplement

225.772-5 Solicitation provision.

Use the provision at [252.225-7049](#), Prohibition on Acquisition of Commercial Satellite Services from Certain Foreign Entities—Representations, in solicitations for the acquisition of commercial satellite services. SUBPART 225.72—REPORTING CONTRACT PERFORMANCE OUTSIDE THE UNITED STATES

(Revised December 11, 2014)

225.7201 Policy.

(A) Follow the procedures at [234.004](#); and

(B) Notify the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) of an intent not to exercise a fixed-price production option on a development contract for a major weapon system reasonably in advance of the expiration of the option exercise period.

(ii) For other than major defense acquisition programs—

(A) Do not award a fixed-price type contract for a development program effort unless—

(1) The level of program risk permits realistic pricing;

(2) The use of a fixed-price type contract permits an equitable and sensible allocation of program risk between the Government and the contractor; and

(3) A written determination that the criteria of paragraphs (b)(ii)(A)(1) and (2) of this section have been met is executed—

(i) By the USD(AT&L) if the contract is over \$25 million and is for: research and development for a non-major system; the development of a major system (as defined in FAR 2.101); or the development of a subsystem of a major system; or

(ii) By the contracting officer for any development not covered by paragraph (b)(ii)(A)(3)(i) of this section.

(B) Obtain USD(AT&L) approval of the Government’s prenegotiation position before negotiations begin, and obtain USD(AT&L) approval of the negotiated agreement with the contractor before the agreement is executed, for any action that is—

(1) An increase of more than \$250 million in the price or ceiling price of a fixed-price type development contract, or a fixed-price type contract for the lead ship of a class;

(2) A reduction in the amount of work under a fixed-price type development contract or a fixed-price type contract for the lead ship of a class, when the value of the work deleted is \$100 million or more; or

(3) A repricing of fixed-price type production options to a development contract, or a contract for the lead ship of a class, that increases the price or ceiling price by more than \$250 million for equivalent quantities.

235.006-70 Manufacturing Technology Program.

In accordance with 10 U.S.C. 2521(d), for acquisitions under the Manufacturing Technology Program—

(a) Award all contracts using competitive procedures; and

(b) Include in all solicitations an evaluation factor that addresses the extent to which offerors propose to share in the cost of the project (see FAR 15.304).

235.006-71 Competition.

See [234.005-1](#) for limitations on the use of contract line items or contract options for the provision of advanced component development or prototypes of technology developed under a competitively awarded proposal.

235.008 Evaluation for award.

See [209.570](#) for limitations on the award of contracts to contractors acting as lead system integrators.

235.015-70 Special use allowances for research facilities acquired by educational institutions.

(a) *Definitions.* As used in this subsection—

(1) “Research facility” means—

(i) Real property, other than land; and

(ii) Includes structures, alterations, and improvements, acquired for the purpose of conducting scientific research under contracts with departments and agencies of the DoD.

(2) “Special use allowance” means a negotiated direct or indirect allowance—

(i) For construction or acquisition of buildings, structures, and real property, other than land; and

(ii) Where the allowance is computed at an annual rate exceeding the rate which normally would be allowed under FAR Subpart 31.3.

(b) *Policy.*

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(1) Educational institutions are to furnish the facilities necessary to perform defense contracts. FAR 31.3 governs how much the Government will reimburse the institution for the research programs. However, in extraordinary situations, the Government may give special use allowances to an educational institution when the institution is unable to provide the capital for new laboratories or expanded facilities needed for defense contracts.

(2) Decisions to provide a special use allowance must be made on a case-by-case basis, using the criteria in paragraph (c) of this subsection.

(c) *Authorization for special use allowance.* The head of a contracting activity may approve special use allowances only when all of the following conditions are met—

- (1) The research facility is essential to the performance of DoD contracts;
- (2) Existing facilities, either Government or nongovernment, cannot meet program requirements practically or effectively;
- (3) The proposed agreement for special use allowances is a sound business arrangement;
- (4) The Government's furnishing of Government-owned facilities is undesirable or impractical; and
- (5) The proposed use of the research facility is to conduct essential Government research which requires the new or expanded facilities.

(d) *Application of the special use allowance.*

- (1) In negotiating a special use allowance—
 - (i) Compare the needs of DoD and of the institution for the research facility to determine the amount of the special use allowance;
 - (ii) Consider rental costs for similar space in the area where the research facility is or will be located to establish the annual special use allowance;
 - (iii) Do not include or allow—
 - (A) The costs of land; or
 - (B) Interest charges on capital;
 - (iv) Do not include maintenance, utilities, or other operational costs;
 - (v) The period of allowance generally will be—
 - (A) At least ten years; or
 - (B) A shorter period if the total amount to be allowed is less than the construction or acquisition cost for the research facility;

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(vi) Generally, provide for allocation of the special use allowance equitably among the Government contracts using the research facility;

(vii) Special use allowances apply only in the years in which the Government has contracts in effect with the institution. However, if in any given year there is a reduced level of Government research effort which results in the special use allowance being excessive compared to the Government research funding, a separate special use allowance may be negotiated for that year;

(viii) Special use allowances may be adjusted for the period before construction is complete if the facility is partially occupied and used for Government research during that period.

(2) A special use allowance may be based on either total or partial cost of construction or acquisition of the research facility.

(i) When based on total cost neither the normal use allowance nor depreciation will apply—

(A) During the special use allowance period; and

(B) After the educational institution has recovered the total construction or acquisition cost from the Government or other users.

(ii) When based on partial cost, normal use allowance and depreciation—

(A) Apply to the balance of costs during the special use allowance period to the extent negotiated in the special use allowance agreement; and

(B) Do not apply after the special use allowance period, except for normal use allowance applied to the balance.

(3) During the special use allowance period, the research facility—

(i) Shall be available for Government research use on a priority basis over nongovernment use; and

(ii) Cannot be put to any significant use other than that which justified the special use allowance, unless the head of the contracting activity, who approved the special use allowance, consents.

(4) The Government will pay only an allocable share of the special use allowance when the institution makes any substantial use of the research facility for parties other than the Government during the period when the special use allowance is in effect.

(5) In no event shall the institution be paid more than the acquisition costs.

235.017 Federally Funded Research and Development Centers.

(a) *Policy.*

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(2) No DoD fiscal year 1992 or later funds may be obligated or expended to finance activities of a DoD Federally Funded Research and Development Center (FFRDC) if a member of its board of directors or trustees simultaneously serves on the board of directors or trustees of a profit-making company under contract to DoD, unless the FFRDC has a DoD-approved conflict of interest policy for its members (Section 8107 of Pub. L. 102-172 and similar sections in subsequent Defense appropriations acts).

235.017-1 Sponsoring agreements.

(c)(4) DoD-sponsored FFRDCs that function primarily as research laboratories (C3I Laboratory operated by the Institute for Defense Analysis, Lincoln Laboratory operated by Massachusetts Institute of Technology, and Software Engineering Institute operated by Carnegie Mellon) may respond to solicitations and announcements for programs which promote research, development, demonstration, or transfer of technology (Section 217, Pub. L. 103-337).

235.070 Indemnification against unusually hazardous risks.

235.070-1 Indemnification under research and development contracts.

(a) Under 10 U.S.C. 2354, and if authorized by the Secretary concerned, contracts for research and/or development may provide for indemnification of the contractor or subcontractors for—

(1) Claims by third persons (including employees) for death, bodily injury, or loss of or damage to property; and

(2) Loss of or damage to the contractor's property to the extent that the liability, loss, or damage—

(i) Results from a risk that the contract defines as “unusually hazardous;”

(ii) Arises from the direct performance of the contract; and

(iii) Is not compensated by insurance or other means.

(b) Clearly define the specific unusually hazardous risks to be indemnified. Submit this definition for approval with the request for authorization to grant indemnification. Include the approved definition in the contract.

235.070-2 Indemnification under contracts involving both research and development and other work.

(2) The contract will be carried out on a Government-owned but privately operated installation;

(3) The contract (or renewal of a contract) is for the performance of a function under contract on September 24, 1983; or

(4) The contract—

(i) Is for the performance of firefighting functions;

(ii) Is for a period of 1 year or less; and

(b) Under Section 2907 of Pub. L. 103-160, this prohibition does not apply to services at installations being closed (see Subpart [237.74](#)).

(c) Under Section 1010 of Pub. L. 107-56, this prohibition does not apply to any contract that--

(1) Is entered into during the period of time that United States armed forces are engaged in Operation Enduring Freedom or during the period 180 days thereafter;

(2) Is for the performance of security functions at any military installation or facility in the United States;

(A) Recruiting and training standards for the personnel who are to perform the security-guard functions are comparable to the recruiting and training standards for DoD personnel who perform the same security-guard functions;

(B) Contractor personnel performing such functions will be effectively supervised, reviewed, and evaluated; and

(C) Performance of such functions will not result in a reduction in the security of the installation or facility;

Defense Federal Acquisition Regulation Supplement

(1) “Military flight simulator” means any system to simulate the form, fit, and function of a military aircraft that has no commonly available commercial variant.

(2) “Service contract” means any contract entered into by DoD, the principal purpose of which is to furnish services in the United States through the use of service employees as defined in 41 U.S.C. 6701.

- (C) A discussion of the benefits to be realized from the alternative.
- (D) A best value determination of each alternative and a detailed explanation of the life-cycle cost calculations used in the determination.

(c) When reviewing requirements or participating in acquisition planning that would result in a military department or defense agency acquiring a military flight simulator, the contracting officer shall notify the program officials of the prohibition in paragraph (b) of this subsection. If the program officials decide to request a waiver from the Secretary of Defense under paragraph (b) of this subsection, the contracting officer shall follow the procedures at [PGI 237.102-71](#).

(1) The Contracting Officer has given prior written approval;

(2) The information is otherwise in the public domain before the date of release;
or

(3) The information results from or arises during the performance of a project that has been scoped and negotiated by the contracting activity with the contractor and research performer and determined in writing by the contracting officer to be fundamental research in accordance with National Security Decision Directive 189, National Policy on the Transfer of Scientific, Technical and Engineering Information, in effect on the date of contract award and the USD (AT&L) memoranda on Fundamental Research, dated May 24, 2010, and on Contracted Fundamental Research, dated June 26, 2008, (available at DFARS [PGI 204.4](#)).

(b) Requests for approval under paragraph (a)(1) shall identify the specific information to be released, the medium to be used, and the purpose for the release. The Contractor shall submit its request to the Contracting Officer at least 10 business days before the proposed date for release.

(c) The Contractor agrees to include a similar requirement, including this paragraph (c), in each subcontract under this contract. Subcontractors shall submit requests for authorization to release through the prime contractor to the Contracting Officer.

252.204-7002 Payment for Subline Items Not Separately Priced.

As prescribed in [204.7104-1](#)(b)(3)(iv), use the following clause:

PAYMENT FOR SUBLINE ITEMS NOT SEPARATELY PRICED (DEC 1991)

(a) If the schedule in this contract contains any contract subline items or exhibit subline items identified as not separately priced (NSP), it means that the unit price for that subline item is included in the unit price of another, related line or subline item.

(b) The Contractor shall not invoice the Government for any portion of a contract line item or exhibit line item which contains an NSP until—

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(1) The Contractor has delivered the total quantity of all related contract subline items or exhibit subline items; and

(2) The Government has accepted them.

(c) This clause does not apply to technical data.

(End of clause)

252.204-7003 Control of Government Personnel Work Product.

As prescribed in [204.404-70\(b\)](#), use the following clause:

CONTROL OF GOVERNMENT PERSONNEL WORK PRODUCT (APR 1992)

The Contractor's procedures for protecting against unauthorized disclosure of information shall not require Department of Defense employees or members of the Armed Forces to relinquish control of their work products, whether classified or not, to the Contractor.

(End of clause)

252.204-7004 Alternate A, System for Award Management.

ALTERNATE A, SYSTEM FOR AWARD MANAGEMENT (FEB 2014)

As prescribed in [204.1105](#), substitute the following paragraph (a) for paragraph (a) of the provision at FAR 52.204-7:

(a) *Definitions.* As used in this provision—

“System for Award Management (SAM) database” means the primary Government repository for contractor information required for the conduct of business with the Government.

“Commercial and Government Entity (CAGE) code” means—

(1) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

(2) A code assigned by a member of the North Atlantic Treaty Organization that DLIS records and maintains in the CAGE master file. This type of code is known as an “NCAGE code.”

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see FAR 32.11) for the same parent concern.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

Reading aloud the first paragraph of Standard Form 312, Classified Information Nondisclosure Agreement, in the presence of a person designated by the Contractor for this purpose, and a witness, will satisfy this requirement. Contractor employees currently cleared for access to TS, SAP, or SCI may attest orally to their security responsibilities when being briefed into a new program or during their annual refresher briefing. There is no requirement to retain a separate record of the oral attestation.

(b) If an employee refuses to attest orally to security responsibilities, the Contractor shall deny the employee access to classified information and shall submit a report to the Contractor’s security activity.

(a) If the Contractor is required to report any of its activities in accordance with Department of Commerce regulations (15 CFR Part 781 *et seq.*) or Nuclear Regulatory Commission regulations (10 CFR Part 75) in order to implement the declarations required by the U.S.-International Atomic Energy Agency Additional Protocol (U.S.-IAEA AP), the Contractor shall—

(1) Immediately provide written notification to the following DoD Program Manager:

[Contracting Officer to insert Program Manager's name, mailing address, e-mail address, telephone number, and facsimile number];

(2) Include in the notification—

(i) Where DoD contract activities or information are located relative to the activities or information to be declared to the Department of Commerce or the Nuclear Regulatory Commission; and

(ii) If or when any current or former DoD contract activities and the activities to be declared to the Department of Commerce or the Nuclear Regulatory Commission have been or will be co-located or located near enough to one another to result in disclosure of the DoD activities during an IAEA inspection or visit; and

(3) Provide a copy of the notification to the Contracting Officer.

(b) After receipt of a notification submitted in accordance with paragraph (a) of this clause, the DoD Program Manager will—

(1) Conduct a security assessment to determine if and by what means access may be granted to the IAEA; or

(c) If the DoD Program Manager determines that a security assessment is required—

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(1) DoD will, at a minimum—

(i) Notify the Contractor that DoD officials intend to conduct an assessment of vulnerabilities to IAEA inspections or visits;

(ii) Notify the Contractor of the time at which the assessment will be conducted, at least 30 days prior to the assessment;

(iii) Provide the Contractor with advance notice of the credentials of the DoD officials who will conduct the assessment; and

(iv) To the maximum extent practicable, conduct the assessment in a manner that does not impede or delay operations at the Contractor's facility; and

(2) The Contractor shall provide access to the site and shall cooperate with DoD officials in the assessment of vulnerabilities to IAEA inspections or visits.

(d) Following a security assessment of the Contractor's facility, DoD officials will notify the Contractor as to—

(1) Whether the Contractor's facility has any vulnerabilities where potentially declarable activities under the U.S.-IAEA AP are taking place;

(2) Whether additional security measures are needed; and

(3) Whether DoD will apply a national security exclusion.

(e) If DoD applies a national security exclusion, the Contractor shall not grant access to IAEA inspectors.

(f) If DoD does not apply a national security exclusion, the Contractor shall apply managed access to prevent disclosure of program activities, locations, or information in the U.S. declaration.

252.204-7011 Alternative Line Item Structure.

As prescribed in [204.7109\(b\)](#), insert the following provision:

ALTERNATIVE LINE ITEM STRUCTURE (SEP 2011)

(a) Line items are the basic structural elements in a solicitation or contract that provide for the organization of contract requirements to facilitate pricing, delivery,

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

inspection, acceptance and payment. Line items are organized into contract line items, subline items, and exhibit line items. Separate line items should be established to account for separate pricing, identification (see section [211.274](#) of the Defense Federal Acquisition Regulation Supplement), deliveries, or funding. The Government recognizes that the line item structure in this solicitation may not conform to every offeror's practices. Failure to correct these issues can result in difficulties in accounting for deliveries and processing payments. Therefore, offerors are invited to propose an alternative line item structure for items on which bids, proposals, or quotes are requested in this solicitation to ensure that the resulting contract structure is economically and administratively advantageous to the Government and the Contractor.

(b) If an alternative line item structure is proposed, the structure must be consistent with subpart [204.71](#) of the Defense Federal Acquisition Regulation Supplement and PGI [204.71](#). A sample line item structure and a proposed alternative structure are as follows:

Solicitation:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Computer, Desktop with CPU, Monitor, Keyboard and Mouse	20	EA		

Alternative line item structure offer where monitors are shipped separately:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Computer, Desktop with CPU, Keyboard and Mouse	20	EA		
0002	Monitor	20	EA		

(End of provision)

252.204-7012 Safeguarding of Unclassified Controlled Technical Information. As prescribed in [204.7303](#), use the following clause:

SAFEGUARDING OF UNCLASSIFIED CONTROLLED TECHNICAL INFORMATION (NOV 2013)

(a) *Definitions.* As used in this clause—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

“Attribution information” means information that identifies the Contractor, whether directly or indirectly, by the grouping of information that can be traced back to the Contractor (e.g., program description or facility locations).

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor information system” means an information system belonging to, or operated by or for, the Contractor.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information is to be marked with one of the distribution statements B-through-F, in accordance with DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Cyber incident” means actions taken through the use of computer networks that result in an actual or potentially adverse effect on an information system and/or the information residing therein.

“Exfiltration” means any unauthorized release of data from within an information system. This includes copying the data through covert network channels or the copying of data to unauthorized media.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which information is recorded, stored, or printed within an information system.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS [252.227-7013](#), Rights in Technical Data-Non Commercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) *Safeguarding requirements and procedures for unclassified controlled technical information.* The Contractor shall provide adequate security to safeguard unclassified controlled technical information from compromise. To provide adequate security, the Contractor shall—

(1) Implement information systems security in its project, enterprise, or company-wide unclassified information technology system(s) that may have unclassified controlled technical information resident on or transiting through them. The information systems security program shall implement, at a minimum—

(ii) If a NIST control is not implemented, the Contractor shall submit to the Contracting Officer a written explanation of how—

(A) The required security control identified in the following table is not applicable; or

(B) An alternative control or protective measure is used to achieve equivalent protection.

(2) Apply other information systems security requirements when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraph (b)(1) of this clause, may be required to provide adequate security in a dynamic environment based on an assessed risk or vulnerability.

CONTRACTOR PERSONNEL SUPPORTING U.S. ARMED FORCES DEPLOYED OUTSIDE THE UNITED STATES (MAY 2014)

(a) *Definitions.* As used in this clause—

“Combatant Commander” means the commander of a unified or specified combatant command established in accordance with 10 U.S.C. 161.

“Contractors authorized to accompany the Force,” or “CAAF,” means contractor personnel, including all tiers of subcontractor personnel, who are authorized to accompany U.S. Armed Forces in applicable operations and have been afforded CAAF status through a letter of authorization. CAAF generally include all U.S. citizen and third-country national employees not normally residing within the operational area whose area of performance is in the direct vicinity of U.S. Armed Forces and who routinely are collocated with the U.S. Armed Forces (especially in non-permissive environments). Personnel collocated with U.S. Armed Forces shall be afforded CAAF status through a letter of authorization. In some cases, Combatant Commander subordinate commanders may designate mission-essential host nation or local national contractor employees (e.g., interpreters) as CAAF. CAAF includes contractors previously identified as contractors deploying with the U.S. Armed Forces. CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

“Designated operational area” means a geographic area designated by the combatant commander or subordinate joint force commander for the conduct or support of specified military operations.

“Designated reception site” means the designated place for the reception, staging, integration, and onward movement of contractors deploying during a contingency. The designated reception site includes assigned joint reception centers and other Service or private reception sites.

“Law of war” means that part of international law that regulates the conduct of armed hostilities. The law of war encompasses all international law for the conduct of hostilities binding on the United States or its individual citizens, including treaties and international agreements to which the United States is a party, and applicable customary international law.

“Non-CAAF” means personnel who are not designated as CAAF, such as local national (LN) employees and non-LN employees who are permanent residents in the operational area or third-country nationals not routinely residing with U.S. Armed Forces (and third-country national expatriates who are permanent residents in the operational area) who perform support functions away from the close proximity of, and do not reside with, U.S. Armed Forces. Government-furnished support to non-CAAF is typically limited to force protection, emergency medical care, and basic human needs (e.g., bottled water, latrine facilities, security, and food when necessary) when performing their jobs in the direct vicinity of U.S. Armed Forces. Non-CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

“Subordinate joint force commander” means a sub-unified commander or joint task force commander.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(iv) Other military operations or military exercises, when designated by the Combatant Commander or as directed by the Secretary of Defense.

(2) Contract performance in support of U.S. Armed Forces deployed outside the United States may require work in dangerous or austere conditions. Except as otherwise provided in the contract, the Contractor accepts the risks associated with required contract performance in such operations.

(3) When authorized in accordance with paragraph (j) of this clause to carry arms for personal protection, Contractor personnel are only authorized to use force for individual self-defense.

(4) Unless immune from host nation jurisdiction by virtue of an international agreement or international law, inappropriate use of force by contractor personnel authorized to accompany the U.S. Armed Forces can subject such personnel to United States or host nation prosecution and civil liability (see paragraphs (d) and (j)(3) of this clause).

(5) Service performed by Contractor personnel subject to this clause is not active duty or service under 38 U.S.C. 106 note.

(c) *Support.*

(A) The Contractor cannot obtain effective security services;

(B) Effective security services are unavailable at a reasonable cost; or

(C) Threat conditions necessitate security through military means.

(ii) In appropriate cases, the Combatant Commander may provide security through military means, commensurate with the level of security provided DoD civilians.

(2)(i) Generally, CAAF will be afforded emergency medical and dental care if

Examples of emergency medical and dental care include examination and initial treatment of victims of sexual assault; refills of prescriptions for life-dependent drugs; repair of broken bones, lacerations, infections; and traumatic injuries to the dentition. Hospitalization will be limited to stabilization and short-term medical treatment with an emphasis on return to duty or placement in the patient movement system.

As prescribed in [235.072\(e\)](#), use the following clause:

PROTECTION OF HUMAN SUBJECTS (JUL 2009)

(a) *Definitions.* As used in this clause—

(1) “Assurance of compliance” means a written assurance that an institution will comply with requirements of 32 CFR Part 219, as well as the terms of the assurance, which the Human Research Protection Official determines to be appropriate for the research supported by the Department of Defense (DoD) component (32 CFR 219.103).

(2) “Human Research Protection Official (HRPO)” means the individual designated by the head of the applicable DoD component and identified in the component’s Human Research Protection Management Plan as the official who is responsible for the oversight and execution of the requirements of this clause, although some DoD components may use a different title for this position.

(3) “Human subject” means a living individual about whom an investigator (whether professional or student) conducting research obtains data through intervention or interaction with the individual, or identifiable private information (32 CFR 219.102(f)). For example, this could include the use of human organs, tissue, and body fluids from individually identifiable living human subjects as well as graphic, written, or recorded information derived from individually identifiable living human subjects.

(4) “Institution” means any public or private entity or agency (32 CFR 219.102(b)).

(5) “Institutional Review Board (IRB)” means a board established for the purposes expressed in 32 CFR Part 219 (32 CFR 219.102(g)).

(6) “IRB approval” means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and Federal requirements (32 CFR 219.102(h)).

(7) “Research” means a systematic investigation, including research,

development, testing, and evaluation, designed to develop or contribute to generalizable knowledge. Activities that meet this definition constitute research for purposes of 32 CFR Part 219, whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities (32 CFR 219.102(d)).

(b) The Contractor shall oversee the execution of the research to ensure compliance with this clause. The Contractor shall comply fully with 32 CFR Part 219 and DoD Directive 3216.02, applicable DoD component policies, 10 U.S.C. 980, and, when applicable, Food and Drug Administration policies and regulations.

(c) The Contractor shall not commence performance of research involving human subjects that is covered under 32 CFR Part 219 or that meets exemption criteria under 32 CFR 219.101(b), or expend funding on such effort, until and unless the conditions of either the following paragraph (c)(1) or (c)(2) have been met:

(1) The Contractor furnishes to the HRPO, with a copy to the Contracting Officer, an assurance of compliance and IRB approval and receives notification from the Contracting Officer that the HRPO has approved the assurance as appropriate for the research under the Statement of Work and also that the HRPO has reviewed the protocol and accepted the IRB approval for compliance with the DoD component policies. The Contractor may furnish evidence of an existing assurance of compliance for acceptance by the HRPO, if an appropriate assurance has been approved in connection with previous research. The Contractor shall notify the Contracting Officer immediately of any suspensions or terminations of the assurance.

(2) The Contractor furnishes to the HRPO, with a copy to the Contracting Officer, a determination that the human research proposed meets exemption criteria in 32 CFR 219.101(b) and receives written notification from the Contracting Officer that the exemption is determined acceptable. The determination shall include citation of the exemption category under 32 CFR 219.101(b) and a rationale statement. In the event of a disagreement regarding the Contractor's furnished exemption determination, the HRPO retains final judgment on what research activities or classes of research are covered or are exempt under the contract.

(d) DoD staff, consultants, and advisory groups may independently review and inspect the Contractor's research and research procedures involving human subjects and, based on such findings, DoD may prohibit research that presents unacceptable hazards or otherwise fails to comply with DoD procedures.

(e) Failure of the Contractor to comply with the requirements of this clause will result in the issuance of a stop-work order under Federal Acquisition Regulation clause 52.242-15 to immediately suspend, in whole or in part, work and further payment under this contract, or will result in other issuance of suspension of work and further payment for as long as determined necessary at the discretion of the Contracting Officer.

(f) The Contractor shall include the substance of this clause, including this paragraph (f), in all subcontracts that may include research involving human subjects in accordance with 32 CFR Part 219, DoD Directive 3216.02, and 10 U.S.C.
