Ms. LeAntha Sumpter, (Deputy Director for Program Development and Implementation, Defense Procurement & Acquisition Policy in the Office of the Under Secretary of Defense for AT&L) presents CPT Patrick Long and LTC John C. Szczepanski with the IUID Team Excellence Award

IUID Team Excellence Award

Press Release
March 2011

US Army Soldier Sensor and Laser Team

The US Army 160th Special Operations Aviation Regiment Team (SOAR) includes CPT Patrick Long, Mr. Steve Blasey, Mr. Jeff Kime, Mr. Jimmy Cox, LTC Carey Fergeson and Mr. Tom Rigsby. This team were the recipients of the IUID Team Excellence Award, presented during the March 2011 UID Forum and was nominated by Colonel Jake Wayman.

This team developed applications for using Item Unique Identification (IUID) in unit-level process management for weapons, tools, and aviation life support equipment management processes. These applications enable users to reduce labor by at least 75% and increase data completeness and accuracy by 20%. These significant results include increased operational readiness and effectiveness and decreased operational costs.

These applications are in use in a total of 71 applications and more than 70 applications are scheduled for implementation in FY11.

“In recognition of your commitment and demonstrated leadership in advancing IUID beyond compliance to support the warfighter.”
