DIRECTORS OF THE DEFENSE AGENCIES
DIRECTORS OF THE DOD FIELD ACTIVITIES

SUBJECT: Review of Statutory and Regulatory Requirements Implemented in the Defense
Federal Acquisition Regulation Supplement

As the Under Secretary indicated in his December 2, 2013, memorandum to the
acquisition workforce in issuing the new Department of Defense Instruction (DoDI) 5000.02 interim
document, there is an extensive body of law and regulation that govern our business. As part of a larger
initiative being undertaken by the Under Secretary under Better Buying Power 2.0, we have been tasked
to review the Defense Federal Acquisition Regulation Supplement (DFARS) to identify requirements
which impact the efficiency of the acquisition process. We have identified approximately 400 DFARS
requirements that are based in statute. A listing of those requirements can be found at http://www.acq.osd.mil/dpap/epic/cp/.

We are seeking to develop a legislative proposal that would simplify some of these
requirements (to include congressional reporting requirements) to reduce the burden on both
Government and industry and enable the Department to acquire goods and services more
efficiently. We will also examine DFARS requirements to include your supplements that,
although not based in statute, warrant similar consideration to include thresholds that could be
raised or lowered to enhance the acquisition process. Therefore, we are soliciting your input to
identify these or any other requirements that appear to be non-value added.

Please provide your Component’s consolidated input, using the attached format, no later
than February 28, 2014, to Mr. Michael Canales, available at 703-695-8571, or by e-mail at
Michael.J.Canales4.civ@mail.mil.

Richard Ginman
Director, Defense Procurement
and Acquisition Policy

Attachment:
As stated
Review of Statutory and Regulatory Requirements Implemented in the DFARS
