DIRECTORS OF THE DOD FIELD ACTIVITIES

SUBJECT: Use of Generic Data Universal Numbering System (DUNS) Numbers and Contractor and Government Entity (CAGE) Codes on Contract Actions

This memorandum serves as a reminder that the generic DUNS numbers shown on the attached list and their corresponding CAGE codes shall not be used to identify the contractor on award or modification actions; nor should they be provided to contractors for their use. The generic DUNS numbers shall only be used to identify contractors when reporting actions to the Federal Procurement Data System under the rare conditions outlined in Federal Acquisition Regulation (FAR) subpart 4.605. These codes are available in the Central Contractor Registration (CCR) database only to facilitate this reporting to FPDS. Using codes from the attached list on actual contract actions masks the true identity of the vendor and immediately makes any accurate electronic processing of invoices, receiving reports, and payments impossible; and can, in fact, result in mis-directed payments. Defense FAR Supplement (DFARS) subpart 204.72 requires each contractor be identified by its actual CAGE code on contract actions; there is no exemption to the requirement for an actual CAGE code.

I ask that components take immediate steps to ensure your contract writing systems and internal review procedures do not allow the DUNS numbers and CAGE codes on the attached list to be used on contract actions; and ensure your workforce be reminded of their only authorized use. The DFARS Procedures, Guidance, and Information (PGI) will be updated to reflect this requirement. My action officer for this action is Ms. Lisa Romney, lisa.romney@osd.mil, 703-588-0672.

As stated

**Generic Data Universal Numbering System (DUNS) Numbers
(and Associated Contractor and Government Entity (CAGE) Codes)
For Use Only In
DoD Contract Reporting to the Federal Procurement Data System (FPDS)**

In accordance with Federal Acquisition Regulation subpart 4.605, the below generic DUNS numbers are approved only for use in DoD contract reporting to the FPDS and on a limited basis. NOTE: The generic DUNS number, or its associated CAGE code shown in the Central Contractor Registration (CCR) database, shall *never* be placed on the actual contract document as it can mis-direct payments and cause other contract administration issues.
