DEPUTY ASSISTANT SECRETARY OF THE AIR FORCE
(INSTALLATIONS)
AIR FORCE CIVIL ENGINEER
DIRECTOR, REAL ESTATE AND FACILITIES, WASHINGTON
HEADQUARTERS SERVICES

SUBJECT: July 19, 2006 Installations and Environment (I&E) Domain Governance
Board (DGB)

This memo distributes the *Hazardous Materials (Hazmat) Phase 1 Requirements Document* and the *Environmental Liabilities (EL) Requirements Document* that were approved at the July 19th meeting of the DGB.

We are available to assist the Services in implementing both requirement documents. If you have any questions on the *EL Requirements Document*, please contact Mr. Robert Turkeltaub at 703-604-5578, robert.turkeltaub@osd.mil. Implementing the *EL Requirements Document* is a key milestone in the Services' EL Financial Improvement and Audit Readiness (FIAR) plans. For questions on the *Hazmat Requirements Document*, contact Mr. John Coho at 703-604-5571, john.coho@osd.mil.

Also discussed at the meeting was that the target date for the Component site registry data validation completion was July 31, 2006. Components that need a new date must submit a written request to Lora Muchmore along with a plan for completion.

Philip W. Grone

Deputy Under Secretary of Defense
(Installations and Environment)
