UNCLASSIFIED

# BLUF

- Overall, a resounding success
  - 157 attendees, active Leadership involvement
  - All major platform types moving ahead
  - Funding still a challenge
  - Demos and videos raised the bar
- Lessons
  - Needed more/better space, esp. for demos
  - Compressed time for briefs didn't leave good discussion time - need to rethink format
  - Booking hotel/conference center a big plus

UNCLASSIFIED

## IPT Actions

- CBM+ SOA Software
- CBM+ Battlefield Hardware & Storage Responsibility
- Completion of Value Stream Analysis to use in CBA/BCAs
- Minimum Set of Data Required at National Level for CBM Analysis
- CBM Data Governance Across Multiple Domains
- Resource Strategy & Analysis IPTs held initial meetings to establish ways ahead

UNCLASSIFIED

# PM/JCIDS Requirements

- AMC- submit potential Product Improvement Program requirements to the AMC CBM Steering Committee Resource Strategy IPT to facilitate developing a PIPP strategy for the LCMCs and provide assistance developing submission documentation
- CASCOM- develop objective requirements based on similar CBM requirements documentation for the JLTV, and CASCOM provide to the Executive Council a review of all pending changes to requirements related to CBM+
- TACOM and CECOM to develop Engineering Change Proposals (ECPs) and Business Case Analysis based on CBM+ Pilot outputs to determine level of investment needed
- PEO-CS & CSS develop/identify a 1 to N list of planned ECPs with recommendations on which systems, in what priority, should be implemented with CBM+

UNCLASSIFIED

# Summary

- Resounding success - better every time
- Demos & Videos - factual entertainment
  - Accompany Leadership to demos
  - Organize demo area for natural flow and organize tour groups
- Can't get wrapped around the axle about a name - CBM+, PHM, VHMS
  - Same great ideas, different names
- Plan for space and additional attendance
- Leadership Commitment
  - Get PM side of the Pentagon actively involved
  - Help PMs CYA for legacy platforms/systems
