

# MATERIEL READINESS STRATEGY

## ODASD(MR) Vision:

Life cycle product support that optimizes affordability, materiel readiness and joint warfighter requirements, and provides the U.S. enduring strategic advantage over its adversaries.

## Mission: As the OSD proponent for life cycle product support

- Provide DoD decision makers with comprehensive, timely, relevant and actionable assessments that direct long-term, affordable materiel readiness.
- Provide the DoD enterprise with policy, processes, guidance and tools that drive effective product support planning and execution at best value.
- Lead the cultural transformation necessary to deliver optimal life cycle product support.
