

Product Support Manager's Leadership Forum – June 7, 2012

Title: “*Successfully Leading a Product Support Team!*”

Experienced Product Support Managers from each military service will share their lessons learned and leadership tips for serving as a PSM. Speakers will discuss their key roles and responsibilities with a focus on leading and managing extended program office product support teams.

Also featured during this Leadership Forum will be a preview of the new ***Product Support Manager*** (LOG 365) course at DAU. This introduction will describe the proposed course outline and **Stakeholder Tactical Engagement Plans** (STEPs) which each participant will create during the seminar to enhance their effectiveness at fielding and sustaining premier defense systems.
