

DFAR Update
DoD RFID Industry Association
July 1, 2004

DFAR Status

- Submitted revised DFAR clause this past week to DPAP Office to begin DAR Council Review process
- DFAR case uses the strategic imperative argument to seek an interim DFAR rule
- DFAR clause will reference the MIL-STD 129 and the DoD RFID website for implementation details
- Anticipate that interim rule will be published in October

DFAR Clause Details

- Two Major Requirements for Suppliers
 - Passive Tagging at the case, pallet, UID item packaging level in accordance with the Implementation Plan
 - Advanced Shipment Notification (ASN)
- Definitions of levels of tagging are included (in accordance with MIL-STD 129 Definitions)
 - Case – Shipping Container and/or Exterior Container
 - Pallet – Palletized Unit Load
 - UID Item Packaging – UID Item Pack
- Tag Data Standards
- Tag Placement
- DoD will publish a Supplier Guide that contains information that details requirements for compliance
