

***2004 RFID Summit for Industry
DoD RFID Policy Update***

Ed Coyle, DoD Logistics AIT Office

April 7, 2004

Current DoD Logistics Priorities

Area

Priorities

Weapons systems

- PBL
- Maintenance excellence

Commercial commodities

- Material handling
- Customer pay

Strategic distribution

- DPO, DDOC
- TAV

Enablers

- Enterprise Integration
- RFID/UID/CBM+

Measure Output; Influence Behavior

DoD Logistics Scorecard

Service, Agency & Supplier Scorecards

Functional (Departmental) Scorecards

Process (Tactical) Scorecards

Performance Criteria Will Drive Behavior

DoD Logistics BSC Level 1 & 2 Metrics

I&L requires additional work

Warfighter

L1: Force Readiness

- L2: Equipment Readiness
- L2: MC Rates
- L2: Commodity Availability
- L2: Logistics Units Readiness
- L2: Prepositioned Readiness

L1: Force Sustainment

- L2: Materiel Support
- L2: Services Support

L1: Force Closure

- L2: Distribution Capacity
- L2: Distribution Visibility & Control
- L2: Distribution Effectiveness
- L2: Combat Effectiveness Achievement
- L2: Prepositioned Effectiveness

L1: Reset

- L2: Reset
- L2: Operational Draw-down

Innovation & Learning

L1: Innovation Realization

- L2: Rate of Transformation
- L2: Rate of Improvement

L1: Workforce Capability

- L2: Workforce Shaping
- L2: Learning Transformation
- L2: Employee Climate

Logistics Process

L1: Logistics Chain Reliability

- L2: Perfect Order Fulfillment

L1: Logistics Chain Effectiveness

- L2: Logistics Chain Agility
- L2: Logistics Chain Cycle Time

Resource Planning

L1: Logistics Chain Predictability

- L2: Planned Cost to Actual Cost
- L2: Demand Forecast Accuracy

L1: Logistics Chain Cost Effectiveness

- L2: Total Logistics Chain Cost Percentage
- L2: Total Logistics Chain Cost
- L2: Value Added Productivity

Why we need RFID . . .

Visibility is Critical to Effective Logistics Support

Facing new challenges...

- Rapidly moving force on a dynamic battlefield
- Demand for better information on in-transit assets
- Need for more effective management of inventory

Why RFID now?

Timing is right...

- **To capitalize on emerging supply chain technologies**
- **To influence direction and cost of the technology**
- **To make the standards work for us**

Lay the foundation for future supply chain improvements...TODAY!

RFID for DoD

VISION: Implement knowledge-enabled logistics through fully automated visibility and management of assets in support of the warfighter

GOAL: Employ mature and emerging supply chain technologies to optimize the supply chain

OBJECTIVE: Utilize RFID to facilitate accurate, hands-free data capture in support of business processes in an integrated DoD supply chain enterprise as an integral part of a comprehensive suite of AIT technology.

DoD RFID Policy

WHO is affected by DoD RFID policies?

WHAT do the policies cover?

WHEN does the implementation take effect?

WHO is Affected ?

- **ALL DoD suppliers of ALL material and goods purchased by the Department**
 - **Excludes bulk commodities**
- **As a supplier to DoD, the policy impacts you**
- **DoD will continue to partner with you on this critical initiative**
- **Commodity assessment underway**

WHAT does the policy cover ?

- **Active RFID**

- **Passive RFID**

- *EPC Compliant Technology*

Passive RFID

- DoD will be an early adopter of *passive* RFID
 - Implement passive RFID Business Rules - 1 Jan 05
 - Passive tagging of materiel shipped to DoD
 - Case/warehouse pallet
 - Unique Identification (UID) packaging
 - Initial DoD capability to read passive RFID tags and use data
 - Publish DFARS Rule requiring passive RFID
 - *Solicitations issued after 1 OCT 04 for delivery after 1 Jan 05*
 - Use EPC compliant technology
 - Integrate RFID data into the DoD Business Enterprise Architecture

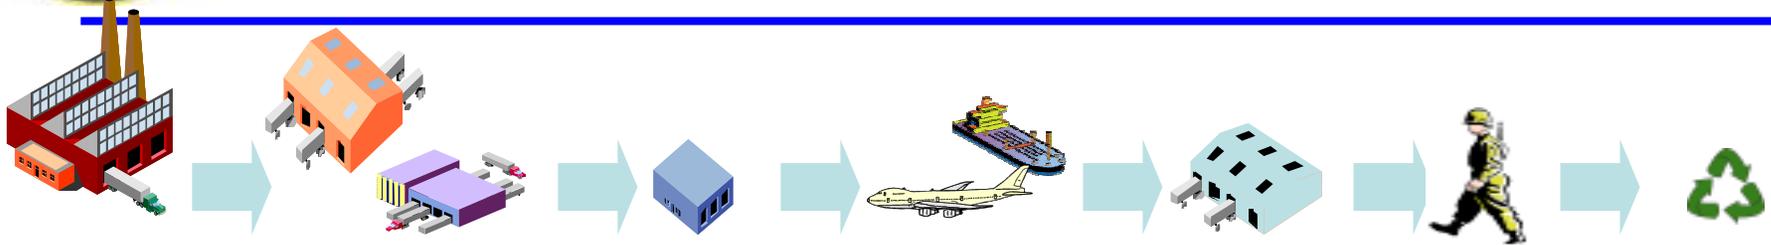

Passive RFID in the Supply Chain

- Tagged items/cases/pallets shipped from suppliers
- Shipment/order data to DoD
 - *Advanced Ship Notice (ASN) Required*
- Shipment/order data captured in DoD Data Environment
- RFID tag read on arrival at DoD Receiving Point
- Tag read generates ***Transaction of Record***
 - *Receipt*
 - *Acceptance*
 - *Close-out*
 - *Payment*
 - *Inventory adjustment*
 - *Update to asset visibility systems*

RFID Vision Within the DoD Supply Chain

**OEM/
Suppliers**

**Distribution
Centers/
Depots**

Maintenance

Transportation

Installation

Customer

**Disposal/
Reutilization**

- RFID read/apply at the following layers: item, package, transport unit, unit load or pallet, and container.
- Provide ASN information
- Automated Receipt process
- Asset management/Inventory management process
- Put away/ Select/ Issue/ Stage/ Ship by RFID

- Read at the following layers: package, transport unit, unit load or pallet, and container.
- Apply tags when Consolidate and Deconsolidate (Reconfigure)
- Provide ASN info
- Replace damaged tag

- Process ends where requisition document number receipt is processed

- RFID tags will be applied to the following layers: item, package, transport unit, unit load or pallet, and container.
- Provide an advanced ship notification (ASN) into the DoD data environment via an RFID read at the point of origin
- Provide a reach-back capability to access "ASN" level info.

- RTLS- Real Time Location System where it makes business sense.
- RFID the work control document
- Kill RFID tag

- TMO Activity- Apply tags at the point of origin
- Supply Activity- Replace damaged tags
- Supply Activity- Associate an RFID tag with a requisition document number
- Send ASN information

- Apply/Read at the following layers: package, transport unit, unit load or pallet, and container.
- Kill RFID tags (for disposal only)

Passive RFID Affects These Processes

Actor	Source	Schedule Deliveries	Receive Product	Verify Product	Authorize Supplier Payment	Manage Inventory	Make / Repair	Package Product	Stage Product	Ship Product	Deliver	Consolidate Orders	Plan and Build Loads	Ship Product	Receive Product	Verify Product	Manage Inventories	Authorize Payment	Receive and Verify Product (Customer)	Authorize Payment	Manage Orders	Create Orders	Validate Orders	Confirm Orders	Reserve Inventory	Monitor Status	Return	Identify Item for Return	Request Replacement Credit	Request Disposition Instructions	Plan and Build Loads	Ship Product	Deploy	Prepare Materials	Stage Materials	Ship Materials			
Manufacturer/Supplier							x	x	x																														
End Customer																			x	x		x				x								x	x	x			
Transportation/Base Supply												x	x	x	x	x	x					x	x	x	x	x		x	x	x	x	x							
Depot/Distribution Center		x	x	x	x	x						x	x	x								x	x	x	x	x		x	x	x	x	x							
POE/POD													x	x	x	x												x		x	x	x							
Theater Distribution Center												x	x	x	x	x										x		x		x	x	x							
Theater Depot (SSA)												x	x	x	x	x	x					x	x	x	x	x		x	x	x	x	x							
Retail Requisition/Inventory Management Systems												x	x	x	x	x	x	x	x	x																			
Wholesale Requisition/Inventory Management Systems		x	x	x	x	x				x		x	x									x	x	x	x	x													
POE/POD Systems													x	x	x	x																							
Intransit Visibility Systems			x							x		x	x	x						x														x	x				
Distribution Management Systems												x	x	x	x	x												x		x	x	x							
Manufacturer's Systems							x	x	x																														
DoD Transmission Systems		x	x	x	x					x		x	x	x						x																			
Unit Deployment Systems																																							

Objects to be tagged

Pallet

Case

Item Packaging (UID items)

Tags will be nested

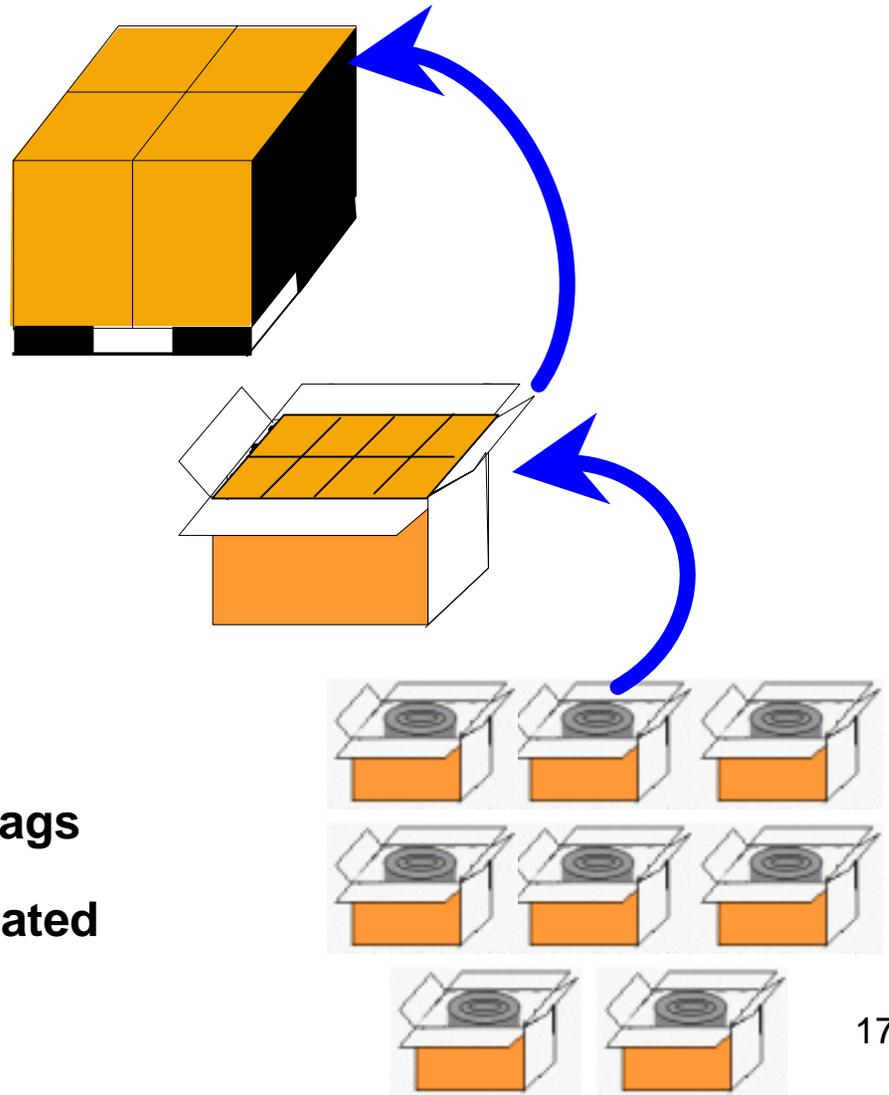

Passive Pallet Tag
associated to a...

Passive Carton Tag
associated to ...

8 UID Packaging Tags
each with 1 associated
UID item

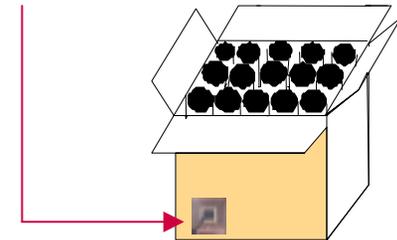

RFID facilitates UID

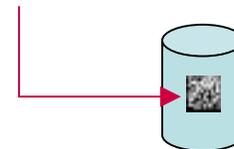

RFID Tag (Pallet Level)

RFID Tag (Case Level)

RFID Tag (Item Package Level)

UID Data Matrix (Item Level)

Passive RFID Tag Data

- **Accept EPC data constructs for unique ID on the Tag**
 - **SGTIN** for UID item packaging
 - **SSCC** for box, case, and pallet
- **Working with EPCglobal on acceptance of organizational naming conventions (CAGE, DUNS, DODAAC)**
- **Working with EPCglobal on designation of DoD UID as an EPC data construct**

DoD will only accept EPC compliant technology

RFID Benefits in the DoD Supply Chain

- **DoD Business Processes**
 - Facilitates Hands-Off Data Capture
 - Improves Data Accuracy
 - Enhances Asset Visibility

- **Downstream Derivative Improvements**
 - Optimizes Transport/Lift Utilization
 - Reduces Logistics Footprint
 - Improves Manpower Utilization
 - Improves Force Tracking
 - Improves Logistics Processing Time
 - Enhances Interoperability with Industry

Passive RFID Initial Implementations

- **Technical Demonstrations**
 - **Combat Feeding Global Asset Visibility demonstration**
- **Operational Implementation**
 - **FISC Norfolk Ocean Terminal**
 - **Individual Protective Equipment (IPE)**
- **Planned Implementation Projects**
 - **Strategic Depot to Operational Unit**
 - **Electronic Military Shipping Label (MSL)**

WHEN does Implementation take Effect ?

- **Active RFID – Operational; Implementation Continuing**

- **Passive RFID**
 - **DoD – Implementation underway now**
 - **Suppliers – Effective Jan 2005 for all new solicitations issued after October 1, 2004 for delivery of materiel on or after January 1, 2005.**

DoD Next Steps

■ POLICY

- Drafting DFARS Clause – Apr 04
- Publish revised RFID Policy – May 04
- Complete analysis of RFID initial implementations – Jun 04
- Publish Final RFID Policy – Jul 04

■ IMPLEMENTATION

- Publish proposed DFARS Rule for passive RFID – May 04
- Issue final DFARS Rule – Sep 04
 - *Solicitations issued after 1 OCT 04 for delivery after 1 Jan 05*
- Use EPC Compliant technology – Jan 05

Industry Compliance Outreach

- **Industry Association Meetings**
 - Meetings held Aug '03 and Mar '04
 - Quarterly meetings to be scheduled to discuss updates
- **Summits**
 - Scheduled as needed to continue dialog with suppliers
- **Websites**
 - Latest information available on:
 - www.dodait.com
 - www.acq.osd.mil/log/rfid/index.html

Summary

- Supporting *Current Operations* with Active RFID
- Implementing Passive RFID
- Finalizing EPC requirements
- Developing final policy

Sets the foundation for
future supply chain
improvements...**TODAY!**
