**4.0 Maintenance and Utilization**

**4.1 My Actions**

4.1.1 Generate a Work Order. View the Work Order graphs from the dashboard. 2.3.02

4.1.2 Generate a Dispatch. View the Dispatch graphs from the dashboard.

4.1.3 Verify Primary Tech and Last Modified Display for the Work Order-Open category. 2.3.03

**4.2 Master Data**

4.2.1 Add an Operator/Technician with the code of Q – Quality Control. Validate that Quality Control personnel can be added.

4.2.2 Update contact information of an Operator/Technician with the code of Q – Quality Control. Validate that Quality Control personnel can be added.

4.2.3 Enter an address that had previously been active using Address process. 2.3.01

4.2.4 Verify you cannot enter a duplicate address using Address process. 2.3.01

4.2.5 Delete an Operator/Technician with the code of Q – Quality Control that is not currently associated to an Open Work Order. Validate that Quality Control Personnel that are not being can be deleted.

4.2.6 Update Certificate(s)/License(s) information of an Operator/Technician with the code of Q – Quality Control. Validate that Certificate(s)/License(s) can be associated to Quality Control Personnel.

4.2.7 Delete an Operator/Technician with the code of Q – Quality Control that is currently associated to an Open Work Order.

4.2.8 Add/Update a Maintenance Team to add a Quality Control Personnel. Validate that Quality Control Personnel can be added to Maintenance Teams.

4.2.9 Update a Maintenance Team to remove a Quality Control Personnel. Validate that Quality Control Personnel can be removed from Maintenance Teams.

**4.3 Dispatch**

4.3.1 Generate a Dispatch. Use the View button to generate a trip ticket. 2.3.02

**4.4 Work Order**

4.4.1 Schedule an Auto Generate Work Order five days before the scheduled time. Verify it does not duplicate every day until the scheduled day.

4.4.2 Generate a Work Order. Use the View button to generate a Work Order Form.

# DPAS-FAST Interface

## SOURCE Vehicle Data Usage and Cost Outside DPAS Maintenance Module

Vehicle Owner Data (Custodian) (REQUIRED)
Vehicle Identification Data (REQUIRED)
Financial Data (Optional)
Vehicle Configuration Information (REQUIRED if not in DPAS)
Vehicle Acquisition/Lease Information (REQUIRED)
Vehicle Location (REQUIRED)
Vehicle Fuel Usage Information (REQUIRED)
Vehicle Mileage Use Information (REQUIRED)
Vehicle Operational Statistics (For vehicles equipped w/ OBD Air Force AIM interface)

**DATA TO BE COLLECTED**

Agency, Site, UIC, DODAAC, POC
VIN, TAG, UII, Make, Model Name, Model Year, Vehicle Type
Fund Code, Cost Center, Etc
Fuel Config, EISA Acquisition, Vehicle Armor, Executive Fleet, Law Enforcement, others
<u>Govt Owned:</u> acquisition amount, acquired date, monthly depreciation, maintenance (labor & non-labor), indirect cost
<u>Leased Vehicle:</u> Monthly Leased Amount, indirect cost

# DPAS – Utilization Device Interface

- P&EP is researching currently used and prospective devices to assist with capturing utilization and maintenance driven data to wirelessly interface with DPAS.
- Understanding the information construct will allow any system used the ability to interface with DPAS.
- Plan is to have a list of DPAS tested devices authorized for use.

# DPAS Development

- Smartphone App for Utilization and Accident Reporting
- Vehicle reservation for non-DPAS users
- Dispatch from handheld device
- Business Intelligence to assist with lifecycle cost and procurement prioritizing.
- Integrate Warehouse and M&U module for parts tracking
