

Modeling and Simulation SubTAG Report May 2010

This year meeting had 19 TAG members present representing 14 different Department of Defense organizations, contracting firms, independent societies, and universities.

Including:

DOD Organizations

AFRL

AFRL Mesa

ARI

ARL

DDL Omni

NAMI

NRL

ONR

US Navy

Contracting Firms

Booz Allen Hamilton

Draper Labs

Intelligent Automation

SA Technologies

Societies

Human Factors and Ergonomics Society

Society for Simulation in Healthcare

Universities

North Carolina A&T University

Meeting Agenda

Welcome Opening Remarks – SubTAG Chair LT Greg Gibson, MSC, USN

Presentations

 Ciara Sibley, Naval Research Laboratory

 Celestine Ntuen, North Carolina A&T University

 Marjory Doyle, Air Force Research Laboratory, Mesa

 Brain McClimens, Naval Research Laboratory

 Clifton Forlines, Draper Laboratory

Public Service Announcement

 John Rice, Society for Simulation in Healthcare

Closing Remarks – SubTAG Chair LT Greg Gibson, MSC, USN

No SubTAG business was covered at this meeting. In LT Gibson's closing remarks he indicated the need to make the SubTAG more inclusive of other members of the TAG he suggested that this may be best accomplished by adding co-chairs to the Modeling and Simulation SubTAG. He asked that any volunteers contact him prior to the next meeting and a vote would be made at the meeting in October on adding two co-chairs. Also discussed was the next meeting and the need to make this next meeting a four hour event, the first hour to be a panel discussion and the last three hours individual presentations. The theme of the panel discussion is simulations and training from NASA to the dismounted infantry. The panel is to consist of former NASA training and simulation experts as well as current high ranking military officers from all branches of the military who are currently leading the DOD efforts to bring simulation training to today's dismounted infantry.
