

OFFICE OF THE DEPUTY ASSISTANT SECRETARY OF DEFENSE SYSTEMS ENGINEERING

System of Systems Engineering Collaborators Information Exchange (SoSECIE) 2012 Webinar Series

Tuesday, May 22, 2012

Impact of Systems of Systems on Acquisition Programs
Dr. Judith S. Dahmann, The MITRE Corporation

Tuesday, June 12, 2012

Application of Mission Level System Engineering Concepts in the Support of Major Acquisition Programs
Ms. Helene Anderson, ASN(RDA) Chief Systems Engineer (CHSENG)

Tuesday, June 26, 2012

A Scientific Approach to Consistent Functional Analysis: The System Capabilities Analytic Process
Mr. Kevin S. Agan, U.S. Army Research Laboratory

Tuesday, July 17, 2012

Performance Prediction and Methodology for Monitoring Participating Acquisition Program Managers (PARMs) in a SoS Development
Ms. Carly A. Jackson and Mr. Richard Volkert, SPAWAR Systems Center Pacific

Tuesday, July 31, 2012

Adaptable System Integration on Multiple Platforms
Mr. Timothy F. Palmer and Ms. Samantha N. Swafford, Georgia Tech Research Institute

Tuesday, August 14, 2012

Patterns of Success in Systems Engineering: Acquisition of IT-Intensive Government Systems
Mr. George Rebovich, The MITRE Corporation

Tuesday, September 11, 2012

Complexity Management: A Perspective on Large, Joint, System Capabilities and Requirements Management in the MDA
Mr. Robert Braunger and Mr. Warren Anderson, Missile Defense Agency, and Ms. Kelly Sacco, CSC

Tuesday, September 25, 2012

Establishing an Operational Context for Early System-of-Systems Engineering Activities
Mr. Bryan Herdlick (CSEP-Acq.), CDR, USN (Ret.), Johns Hopkins University Applied Physics Laboratory

Tuesday, October 16, 2012

Examining the Role of Context in Data Interoperability
Mr. James D. Smith II, Software Engineering Institute, Carnegie Mellon University

Tuesday, November 6, 2012

**Joint Interoperability Test Command (JITC):
Providing Agile Test and Evaluation in Support of Converged Networked Services**
Mr. Richard Delgado, Jr., Joint Interoperability Test Command

Tuesday, November 13, 2012

System Interoperability Influence on System of Systems Engineering Effort
Dr. Jo Ann Lane, University of Southern California and Dr. Ricardo Valerdi, University of Arizona

Tuesday, November 27, 2012

Analysis of the Results from Many Mission Thread Workshops
Mr. Michael Gagliardi, Software Engineering Institute, Carnegie Mellon University

Tuesday, December 11, 2012

Patterns and Pattern Languages for Systems of Systems
Mr. William Wood, Software Engineering Institute, Carnegie Mellon University

All webinars are held via Defense Connect Online from 11:00 a.m. to Noon EDT, typically on the 1st and 3rd Tuesdays of the month. To receive log-in information, send an email to dasd-se@osd.mil and ask to be added to the SoSECIE mailing list. For more information and to view the webinar archive, visit: <http://www.acq.osd.mil/se/outreach/sosecollab.html>
Contact us if you wish to suggest a topic or speaker for a future webinar.
