**SUBPART 204.71—UNIFORM CONTRACT LINE ITEM NUMBERING
SYSTEM**

(Revised October 15, 2009)

204.7100 Scope.

This subpart prescribes policies and procedures for assigning contract line item numbers.

204.7101 Definitions.

“Accounting classification reference number (ACRN)” means any combination of a two position alpha/numeric code used as a method of relating the accounting classification citation to detailed line item information contained in the schedule.

“Attachment” means any documentation, appended to a contract or incorporated by reference, which does not establish a requirement for deliverables.

“Definitized item,” as used in this subpart, means an item for which a firm price has been established in the basic contract or by modification.

“Exhibit” means a document, referred to in a contract, which is attached and establishes requirements for deliverables. The term shall not be used to refer to any other kind of attachment to a contract. The DD Form 1423, Contract Data Requirements List, is always an exhibit, rather than an attachment.

“Nonseverable deliverable,” as used in this subpart, means a deliverable item that is a single end product or undertaking, entire in nature, that cannot be feasibly subdivided into discrete elements or phases without losing its identity.

“Undefinitized item,” as used in this subpart, means an item for which a price has not been established in the basic contract or by modification.

204.7102 Policy.

- (a) The numbering procedures of this subpart shall apply to all—
- (1) Solicitations;
 - (2) Solicitation line and subline item numbers;
 - (3) Contracts as defined in FAR Subpart 2.1;
 - (4) Contract line and subline item numbers;
 - (5) Exhibits;
 - (6) Exhibit line and subline items; and
 - (7) Any other document expected to become part of the contract.

(b) The numbering procedures are mandatory for all contracts where separate contract line item numbers are assigned, unless—

(1) The contract is an indefinite-delivery type for petroleum products against which posts, camps, and stations issue delivery orders for products to be consumed by them; or

(2) The contract is a communications service authorization issued by the Defense Information Systems Agency's Defense Information Technology Contracting Organization.

204.7103 Contract line items.

204.7103-1 Criteria for establishing.

Contracts shall identify the items or services to be acquired as separate contract line items unless it is not feasible to do so.

(a) Contract line items shall have all four of the following characteristics; however, there are exceptions within the characteristics, which may make establishing a separate contract line item appropriate even though one of the characteristics appears to be missing—

(1) *Single unit price.* The item shall have a single unit price or a single total price, except—

(i) If the item is not separately priced (NSP) but the price is included in the unit price of another contract line item, enter NSP instead of the unit price;

(ii) When there are associated subline items, established for other than informational reasons, and those subline items are priced in accordance with 204.7104;

(iii) When the items or services are being acquired on a cost-reimbursement contract;

(iv) When the contract is for maintenance and repair services (e.g., a labor hour contract) and firm prices have been established for elements of the total price of an item but the actual number and quantity of the elements are not known until performance. The contracting officer may structure these contracts to reflect a firm or estimated total amount for each line item;

(v) When the contract line item is established to refer to an exhibit or an attachment (if management needs dictate that a unit price be entered, the price shall be set forth in the item description block and enclosed in parentheses); or

(vi) When the contract is an indefinite delivery type contract and provides that the price of an item shall be determined at the time a delivery order is placed and the price is influenced by such factors as the quantity ordered (e.g., 10-99 @ \$1.00, 100-249 @ \$.98, 250+ @ \$.95), the destination, the FOB point, or the type of packaging required.

(2) *Separately identifiable.* A contract line item must be identified separately from any other items or services on the contract.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

- (i) Supplies are separately identifiable if they have no more than one—
 - (A) National stock number (NSN);
 - (B) Item description; or
 - (C) Manufacturer's part number.
- (ii) Services are separately identifiable if they have no more than one—
 - (A) Scope of work; or
 - (B) Description of services.

(iii) This requirement does not apply if there are associated subline items, established for other than informational reasons, and those subline items include the actual detailed identification in accordance with 204.7104. Where this exception applies, use a general narrative description instead of the contract item description.

(3) *Separate delivery schedule.* Each contract line item or service shall have its own delivery schedule, period of performance, or completion date expressly stated (“as required” constitutes an expressly stated delivery term).

(i) The fact that there is more than one delivery date, destination, performance date, or performance point may be a determining factor in the decision as to whether to establish more than one contract line item.

(ii) If a contract line item has more than one destination or delivery date, the contracting officer may create individual contract line items for the different destinations or delivery dates, or may specify the different delivery dates for the units by destination in the delivery schedule.

(4) *Single accounting classification citation.*

(i) Each contract line item shall reference a single accounting classification citation except as provided in paragraph (a)(4)(ii) of this subsection.

(ii) The use of multiple accounting classification citations for a contract line item is authorized in the following situations:

(A) A single, nonseverable deliverable to be paid for with R&D or other funds properly incrementally obligated over several fiscal years in accordance with DoD policy;

(B) A single, nonseverable deliverable to be paid for with different authorizations or appropriations, such as in the acquisition of a satellite or the modification of production tooling used to produce items being acquired by several activities; or

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(C) A modification to an existing contract line item for a nonseverable deliverable that results in the delivery of a modified item(s) where the item(s) and modification are to be paid for with different accounting classification citations.

(iii) When the use of multiple accounting classification citations is authorized for a single contract line item, establish informational subline items for each accounting classification citation in accordance with 204.7104-1(a).

(b) All subline items and exhibit line items under one contract line item shall be the same contract type as the contract line item.

(c) For a contract that contains a combination of fixed-price line items, time-and-materials/labor-hour line items, and/or cost-reimbursement line items, identify the contract type for each contract line item in Section B, Supplies or Services and Prices/Costs, to facilitate appropriate payment.

(d) Exhibits may be used as an alternative to putting a long list of contract line items in the schedule. If exhibits are used, create a contract line item citing the exhibit's identifier. See 204.7105(a).

(e) If the contract involves a test model or a first article which must be approved, establish a separate contract line item or subline item for each item of supply or service which must be approved. If the test model or first article consists of a lot composed of a mixture of items, a single line item or subline item may be used for the lot.

(f) If a supply or service involves ancillary functions, like packaging and handling, transportation, payment of state or local taxes, or use of reusable containers, and these functions are normally performed by the contractor and the contractor is normally entitled to reimbursement for performing these functions, do not establish a separate contract line item solely to account for these functions. However, do identify the functions in the contract schedule. If the offeror separately prices these functions, contracting officers may establish separate contract line items for the functions; however, the separate line items must conform to the requirements of paragraph (a) of this subsection.

204.7103-2 Numbering procedures.

Follow the procedures at PGI 204.7103-2 for numbering contract line items.

204.7104 Contract subline items.

204.7104-1 Criteria for establishing.

Contract subline items provide flexibility to further identify elements within a contract line item for tracking performance or simplifying administration. There are only two kinds of subline items: those which are informational in nature and those which consist of more than one item that requires separate identification.

(a) Informational subline items.

(1) This type of subline item identifies information that relates directly to the contract line item and is an integral part of it (e.g., parts of an assembly or parts of a kit). These subline items shall not be scheduled separately for delivery, identified separately for shipment or performance, or priced separately for payment purposes.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(2) The informational subline item may include quantities, prices, or amounts, if necessary to satisfy management requirements. However, these elements shall be included within the item description in the supplies/services column and enclosed in parentheses to prevent confusing them with quantities, prices, or amounts that have contractual significance. Do not enter these elements in the quantity and price columns.

(3) Informational subline items shall be used to identify each accounting classification citation assigned to a single contract line item number when use of multiple citations is authorized (see 204.7103-1(a)(4)(ii)).

(b) *Separately identified subline items.*

(1) Subline items will be used instead of contract line items to facilitate payment, delivery tracking, contract funds accounting, or other management purposes. Such subline items shall be used when items bought under one contract line item number—

(i) Are to be paid for from more than one accounting classification. A subline item shall be established for the quantity associated with the single accounting classification citation. Establish a line item rather than a subline item if it is likely that a subline item may be assigned additional accounting classification citations at a later date. Identify the funding as described in 204.7104-1(a)(3);

(ii) Are to be packaged in different sizes, each represented by its own NSN;

(iii) Have collateral costs, such as packaging costs, but those costs are not a part of the unit price of the contract line item;

(iv) Have different delivery dates or destinations or requisitions, or a combination of the three; or

(v) Identify parts of an assembly or kit which—

(A) Have to be separately identified at the time of shipment or performance; and

(B) Are separately priced.

(2) Each separately identified contract subline item shall have its own—

(i) Delivery schedule, period of performance, or completion date;

(ii) Unit price or single total price or amount (not separately priced (NSP) is acceptable as an entry for price or amount if the price is included in another subline item or a different contract line item). This requirement does not apply—

(A) If the subline item was created to refer to an exhibit or an attachment. If management needs dictate that a unit price be entered, the price shall be set forth in the item description block of the schedule and enclosed in parentheses; or

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(B) In the case of indefinite delivery contracts described at 204.7103-1(a)(1)(vi).

(iii) Identification (e.g., NSN, item description, manufacturer's part number, scope of work, description of services).

(3) Unit prices and extended amounts.

(i) The unit price and total amount for all subline items may be entered at the contract line item number level if the unit price for the subline items is identical. If there is any variation, the subline item unit prices shall be entered at the subline item level only.

(ii) The unit price and extended amounts may be entered at the subline items level.

(iii) The two methods in paragraphs (b)(3)(i) and (ii) of this subsection shall not be combined in a contract line item.

(iv) When the price for items not separately priced is included in the price of another subline item or contract line item, it may be necessary to withhold payment on the priced subline item until all the related subline items that are not separately priced have been delivered. In those cases, use the clause at 252.204-7002, Payment for Subline Items Not Separately Priced.

204.7104-2 Numbering procedures.

Follow the procedures at PGI 204.7104-2 for numbering contract subline items.

204.7105 Contract exhibits and attachments.

Follow the procedures at PGI 204.7105 for use and numbering of contract exhibits and attachments.

204.7106 Contract modifications.

(a) If new items are added, assign new contract line or subline item numbers or exhibit line item numbers, in accordance with the procedures established at 204.7103, 204.7104, and 204.7105.

(b) *Modifications to existing contract line items or exhibit line items.*

(1) If the modification relates to existing contract line items or exhibit line items, the modification shall refer to those item numbers.

(2) If the contracting officer decides to assign new identifications to existing contract or exhibit line items, the following rules apply—

(i) *Definitized and undefinitized items.*

(A) The original line item or subline item number may be used if the modification applies to the total quantity of the original line item or subline.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(B) The original line item or subline item number may be used if the modification makes only minor changes in the specifications of some of the items ordered on the original line item or subline item and the resulting changes in unit price can be averaged to provide a new single unit price for the total quantity. If the changes in the specifications make the item significantly distinguishable from the original item or the resulting changes in unit price cannot be averaged, create a new line item.

(C) If the modification affects only a partial quantity of an existing contract or exhibit line item or subline item and the change does not involve either the delivery date or the ship-to/mark-for data, the original contract or exhibit line item or subline item number shall remain with the unchanged quantity. Assign the changed quantity the next available number.

(ii) *Undefinitized items*. In addition to the rules in paragraph (b)(2)(i), the following additional rules apply to undefinitized items—

(A) If the modification is undefinitized and increases the quantity of an existing definitized item, assign the undefinitized quantity the next available number.

(B) If the modification increases the quantity of an existing undefinitized item, the original contract or exhibit line item or subline item may be used if the unit price for the new quantity is expected to be the same as the price for the original quantity. If the unit prices of the two quantities will be different, assign the new quantity the next available number.

(C) If the modification both affects only a partial quantity of the existing contract or exhibit line or subline item and definitizes the price for the affected portion, the definitized portion shall retain the original item number. If there is any undefinitized portion of the item, assign it the next available number. However, if the modification definitizes the price for the whole quantity of the line item, and price impact of the changed work can be apportioned equally over the whole to arrive at a new unit price, the quantity with the changes can be added into the quantity of the existing item.

(D) If the modification affects only a partial quantity of an existing contract or exhibit line or subline item but does not change the delivery schedule or definitize price, the unchanged portion shall retain the original contract or exhibit line or subline item number. Assign the changed portion the next available number.

(3) If the modification will decrease the amount obligated—

(i) There shall be coordination between the administrative and procuring contracting offices before issuance of the modification; and

(ii) The contracting officer shall not issue the modification unless sufficient unliquidated obligation exists or the purpose is to recover monies owed to the Government.

204.7107 Contract accounting classification reference number (ACRN) and agency accounting identifier (AAI).

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

Traceability of funds from accounting systems to contract actions is accomplished using ACRNs and AAIIs. Follow the procedures at PGI 204.7107 for assigning ACRNs and AAIIs

204.7108 Payment instructions.

Follow the procedures at PGI 204.7108 for inclusion of payment instructions in contracts.

204.7109 Contract clause.

Use the clause at 252.204-7006, Billing Instructions, in solicitations and contracts if Section G includes—

- (a) Any of the standard payment instructions at PGI 204.7108(d)(1) through (6); or
- (b) Other payment instructions, in accordance with PGI 204.7108(d)(12), that require contractor identification of the contract line item(s) on the payment request.

SUBPART 205.3—SYNOPSIS OF CONTRACT AWARDS
(Revised October 15, 2009)

205.301 General.

(a)(S-70) *Synopsis of exceptions to domestic source requirements.*

(i) In accordance with 10 U.S.C. 2533a(k), contracting officers also must synopsise through the GPE, awards exceeding the simplified acquisition threshold that are for the acquisition of any clothing, fiber, yarn, or fabric items described in 225.7002-1(a)(2) through (10), if—

(A) The Secretary concerned has determined that domestic items are not available, in accordance with 225.7002-2(b); or

(B) The acquisition is for chemical warfare protective clothing, and the contracting officer has determined that an exception to domestic source requirements applies because the acquisition furthers an agreement with a qualifying country, in accordance with 225.7002-2(n).

(ii) The synopsis must be submitted in sufficient time to permit its publication not later than 7 days after contract award.

(iii) In addition to the information otherwise required in a synopsis of contract award, the synopsis must include one of the following statements as applicable:

(A) “The exception at DFARS 225.7002-2(b) applies to this acquisition, because the Secretary concerned has determined that items grown, reprocessed, reused, or produced in the United States cannot be acquired as and when needed in satisfactory quality and sufficient quantity at U.S. market prices.”

(B) “The exception at DFARS 225.7002-2(n) applies to this acquisition, because the contracting officer has determined that this acquisition of chemical warfare protective clothing furthers an agreement with a qualifying country identified in DFARS 225.003(10).”

205.303 Announcement of contract awards.

(a) *Public Announcement.*

(i) The threshold for DoD awards is \$5.5 million. Report all contractual actions, including modifications, that have a face value, excluding unexercised options, of more than \$5.5 million.

(A) For undefinitized contractual actions, report the not-to-exceed (NTE) amount. Later, if the definitized amount exceeds the NTE amount by more than \$5.5 million, report only the amount exceeding the NTE.

(B) For indefinite delivery, time and material, labor hour, and similar contracts, report the initial award if the estimated face value, excluding unexercised options, is more than \$5.5 million. Do not report orders up to the estimated value, but

Defense Federal Acquisition Regulation Supplement

Part 205—Publicizing Contract Actions

after the estimated value is reached, report subsequent modifications and orders that have a face value of more than \$5.5 million.

(C) Do not report the same work twice.

(ii) Departments and agencies submit the information—

(A) To the Office of the Assistant Secretary of Defense (Public Affairs);

(B) By the close of business the day before the date of the proposed award;

(C) Using report control symbol DD-LA-(AR) 1279;

(D) Including, as a minimum, the following—

(1) *Contract data.* Contract number, modification number, or delivery order number, face value of this action, total cumulative face value of the contract, description of what is being bought, contract type, whether any of the buy was for foreign military sales (FMS) and identification of the FMS customer;

(2) *Competition information.* Number of solicitations mailed and number of offers received;

(3) *Contractor data.* Name, address, and place of performance (if significant work is performed at a different location);

(4) *Funding data.* Type of appropriation and fiscal year of the funds, and whether the contract is multiyear (see FAR Subpart 17.1); and

(5) *Miscellaneous data.* Identification of the contracting office, the contracting office point of contact, known congressional interest, and the information release date.

(iii) Departments and agencies, in accordance with department/agency procedures and concurrent with the public announcement, shall provide information similar to that required by paragraph (a)(ii) of this section to members of Congress in whose State or district the contractor is located and the work is to be performed.

Defense Federal Acquisition Regulation Supplement

Part 209—Contractor Qualifications

(iii) In addition to the bases for debarment in FAR 9.406-2, may consider the following additional bases—

(A) The foreign country concerned determines that a contractor has engaged in bid-rigging, price-fixing, or other anti-competitive behavior; or

(B) The foreign country concerned declares the contractor to be formally debarred, suspended, or otherwise ineligible to contract with that foreign government or its instrumentalities.

(3) The Defense Logistics Agency Special Assistant for Contracting Integrity is the exclusive representative of the Secretary of Defense to suspend and debar contractors from the purchase of Federal personal property under the Federal Property Management Regulations (41 CFR 101-45.6) and the Defense Materiel Disposition Manual (DoD 4160.21-M).

209.405 Effect of listing.

(a) Under 10 U.S.C. 2393(b), when a department or agency determines that a compelling reason exists for it to conduct business with a contractor that is debarred or suspended from procurement programs, it must provide written notice of the determination to the General Services Administration, Office of Acquisition Policy. Examples of compelling reasons are—

(i) Only a debarred or suspended contractor can provide the supplies or services;

(ii) Urgency requires contracting with a debarred or suspended contractor;

(iii) The contractor and a department or agency have an agreement covering the same events that resulted in the debarment or suspension and the agreement includes the department or agency decision not to debar or suspend the contractor; or

(iv) The national defense requires continued business dealings with the debarred or suspended contractor.

(b)(i) The Procurement Cause and Treatment Code "H" annotation in the GSA List of Parties Excluded from Federal Procurement and Nonprocurement Programs identifies contractor facilities where no part of a contract or subcontract may be performed because of a violation of the Clean Air Act (42 U.S.C. 7606) or the Clean Water Act (33 U.S.C. 1368).

(ii) Under the authority of Section 8 of Executive Order 11738, the agency head may grant an exemption permitting award to a contractor using a Code "H" ineligible facility if the agency head determines that such an exemption is in the paramount interest of the United States.

(A) The agency head may delegate this exemption authority to a level no lower than a general or flag officer or a member of the Senior Executive Service.

(B) The official granting the exemption—

Defense Federal Acquisition Regulation Supplement

Part 209—Contractor Qualifications

(1) Shall promptly notify the Environmental Protection Agency suspending and debarring official of the exemption and the corresponding justification; and

(2) May grant a class exemption only after consulting with the Environmental Protection Agency suspending and debarring official.

(C) Exemptions shall be for a period not to exceed one year. The continuing necessity for each exemption shall be reviewed annually and, upon the making of a new determination, may be extended for periods not to exceed one year.

(D) All exemptions must be reported annually to the Environmental Protection Agency suspending and debarring official.

(E) See PGI 209.405 for additional procedures and information.

209.405-1 Continuation of current contracts.

(b) Unless the agency head makes a written determination that a compelling reason exists to do so, ordering activities shall not—

(i) Place orders exceeding the guaranteed minimum under indefinite quantity contracts; or

(ii) When the agency is an optional user, place orders against Federal Supply Schedule contracts.

(c) This includes exercise of options.

209.405-2 Restrictions on subcontracting.

(a) The contracting officer shall not consent to any subcontract with a firm, or a subsidiary of a firm, that is identified by the Secretary of Defense as being owned or controlled by the government of a terrorist country unless the agency head states in writing the compelling reasons for the subcontract.

209.406 Debarment.

209.406-1 General.

(a)(i) When the debarring official decides that debarment is not necessary, the official may require the contractor to enter into a written agreement which includes—

(A) A requirement for the contractor to establish, if not already established, and to maintain the standards of conduct and internal control systems prescribed by Subpart 203.70; and

(B) Other requirements the debarring official considers appropriate.

(ii) Before the debarring official decides not to suspend or debar in the case of an indictment or conviction for a felony, the debarring official must determine that the contractor has addressed adequately the circumstances that gave rise to the

misconduct, and that appropriate standards of ethics and integrity are in place and are working.

209.406-2 Causes for debarment.

(1) Any person shall be considered for debarment if criminally convicted of intentionally affixing a label bearing a “Made in America” inscription to any product sold in or shipped to the United States or its outlying areas that was not made in the United States or its outlying areas (10 U.S.C. 2410f).

(i) The debarring official will make a determination concerning debarment not later than 90 days after determining that a person has been so convicted.

(ii) In cases where the debarring official decides not to debar, the debarring official will report that decision to the Director of Defense Procurement and Acquisition Policy, who will notify Congress within 30 days after the decision is made.

(2) Any contractor that knowingly provides compensation to a former DoD official in violation of Section 847 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181) may face suspension and debarment proceedings in accordance with 41 U.S.C. 423(e)(3)(A)(iii).

209.406-3 Procedures.

Refer all matters appropriate for consideration by an agency debarring and suspending official as soon as practicable to the appropriate debarring and suspending official identified in 209.403. Any person may refer a matter to the debarring and suspending official. Follow the procedures at PGI 209.406-3.

209.407 Suspension.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

- (i) A commercially available off-the-shelf vehicle; or
 - (ii) Construction equipment (such as bulldozers, excavators, lifts, or loaders) or other self-propelled equipment (such as cranes or aircraft ground support equipment).

225.7003-2 Restrictions.

The following restrictions implement 10 U.S.C. 2533b. Except as provided in 225.7003-3—

(a) Do not acquire the following items, or any components of the following items, unless any specialty metals contained in the items or components are melted or produced in the United States (also see guidance at PGI 225.7003-2(a)):

- (1) Aircraft.
- (2) Missile or space systems.
- (3) Ships.
- (4) Tank or automotive items.
- (5) Weapon systems.
- (6) Ammunition.

(b) Do not acquire a specialty metal (e.g., raw stock, including bar, billet, slab, wire, plate, and sheet; castings; and forgings) as an end item, unless the specialty metal is melted or produced in the United States. This restriction applies to specialty metal acquired by a contractor for delivery to DoD as an end item, in addition to specialty metal acquired by DoD directly from the entity that melted or produced the specialty metal.

225.7003-3 Exceptions.

Procedures for submitting requests to the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) for a determination or approval as required in paragraph (b)(5), (c), or (d) of this subsection are at PGI 225.7003-3.

(a) Acquisitions in the following categories are not subject to the restrictions in 225.7003-2:

- (1) Acquisitions at or below the simplified acquisition threshold.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(4) Acquisitions for which the use of other than competitive procedures has been approved on the basis of unusual and compelling urgency in accordance with FAR 6.302-2.

(5) Acquisitions of items specifically for commissary resale.

(6) Acquisitions of items for test and evaluation under the foreign comparative testing program (10 U.S.C. 2350a(g)). However, this exception does not apply to any acquisitions under follow-on production contracts.

(b) One or more of the following exceptions may apply to an end item or component that includes any of the following, under a prime contract or subcontract at any tier. The restrictions in 225.7003-2 do not apply to the following:

(1) Electronic components, unless the Secretary of Defense, upon the recommendation of the Strategic Materials Protection Board pursuant to 10 U.S.C. 187, determines that the domestic availability of a particular electronic component is critical to national security.

(2)(i) Commercially available off-the-shelf (COTS) items containing specialty metals, except the restrictions do apply to contracts or subcontracts for the acquisition of—

(A) Specialty metal mill products, such as bar, billet, slab, wire, plate, and sheet, that have not been incorporated into end items, subsystems, assemblies, or components. Specialty metal supply contracts issued by COTS producers are not subcontracts for the purposes of this exception;

(B) Forgings or castings of specialty metals, unless the forgings or castings are incorporated into COTS end items, subsystems, or assemblies;

(C) Commercially available high performance magnets that contain specialty metal, unless such high performance magnets are incorporated into COTS end items or subsystems (see PGI 225.7003-3(b)(6) for a table of applicability of specialty metals restrictions to magnets); and

(D) COTS fasteners, unless—

(1) The fasteners are incorporated into COTS end items, subsystems, or assemblies; or

(2) The fasteners qualify for the commercial item exception in paragraph (b)(3) of this subsection.

(ii) If this exception is used for an acquisition of COTS end items valued at \$5 million or more per item, the acquiring department or agency shall submit an annual report to the Director, Defense Procurement and Acquisition Policy, in accordance with the procedures at PGI 225.7003-3(b)(2).

(iii) During fiscal year 2009, contractors are required to report use of this exception to acquire COTS items containing specialty metal that are incorporated into a noncommercial end item (see 252.225-7029).

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(3) Fasteners that are commercial items and are acquired under a contract or subcontract with a manufacturer of such fasteners, if the manufacturer has certified that it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to DoD and other customers, that is not less than 50 percent of the total amount of the specialty metal that the manufacturer will purchase to carry out the production of such fasteners for all customers.

(4) Items listed in 225.7003-2(a), manufactured in a qualifying country or containing specialty metals melted or produced in a qualifying country.

(5) Specialty metal in any of the items listed in 225.7003-2 if the USD(AT&L), or an official authorized in accordance with paragraph (b)(5)(i) of this subsection, determines that specialty metal melted or produced in the United States cannot be acquired as and when needed at a fair and reasonable price in a satisfactory quality, a sufficient quantity, and the required form (i.e., a domestic nonavailability determination). See guidance in PGI 225.7003-3(b)(5).

(i) The Secretary of the military department concerned is authorized, without power of redelegation, to make a domestic nonavailability determination that applies to only one contract.

The supporting documentation for the determination shall include—

(A) An analysis of alternatives that would not require a domestic nonavailability determination; and

(B) Written documentation by the requiring activity, with specificity, why such alternatives are unacceptable.

(ii) A domestic nonavailability determination that applies to more than one contract (i.e., a class domestic nonavailability determination), requires the approval of the USD(AT&L).

(A) At least 30 days before making a domestic nonavailability determination that would apply to more than one contract, the USD(AT&L) will, to the maximum extent practicable, and in a manner consistent with the protection of national security and confidential business information—

(1) Publish a notice on the Federal Business Opportunities website (www.FedBizOpps.gov or any successor site) of the intent to make the domestic nonavailability determination; and

(2) Solicit information relevant to such notice from interested parties, including producers of specialty metal mill products.

(B) The USD(AT&L)—

(1) Will take into consideration all information submitted in response to the notice in making a class domestic nonavailability determination;

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(2) May consider other relevant information that cannot be made part of the public record consistent with the protection of national security information and confidential business information; and

(3) Will ensure that any such domestic nonavailability determination and the rationale for the determination are made publicly available to the maximum extent consistent with the protection of national security and confidential business information.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States that are not covered by another exception listed in this paragraph (b)), if the total weight of noncompliant specialty metal does not exceed 2 percent of the total weight of all specialty metal in the end item. This exception does not apply to high performance magnets containing specialty metals. See PGI 225.7003-3(b)(6) for a table of applicability of specialty metals restrictions to magnets.

(c) *Compliance for commercial derivative military articles.* The restrictions at 225.7003-2(a) do not apply to an item acquired under a prime contract if—

(1) The offeror has certified, and subsequently demonstrates, that the offeror and its subcontractor(s) will individually or collectively enter into a contractual agreement or agreements to purchase a sufficient quantity of domestically melted or produced specialty metal in accordance with the provision at 252.225-7010; and

(2) The USD(AT&L), or the Secretary of the military department concerned, determines that the item is a commercial derivative military article (defense agencies see procedures at PGI 225.7003-3). The contracting officer shall submit the offeror's certification and a request for a determination to the appropriate official, through agency channels, and shall notify the offeror when a decision has been made.

(d) *National security waiver.* The USD(AT&L) may waive the restrictions at 225.7003-2 if the USD(AT&L) determines in writing that acceptance of the item is necessary to the national security interests of the United States (see procedures at PGI 225.7003-3). This authority may not be delegated.

(1) The written determination of the USD(AT&L)—

(i) Shall specify the quantity of end items to which the national security waiver applies;

(ii) Shall specify the time period over which the national security waiver applies; and

(iii) Shall be provided to the congressional defense committees before the determination is executed, except that in the case of an urgent national security requirement, the determination may be provided to the congressional defense committees up to 7 days after it is executed.

(2) After making such a determination, the USD(AT&L) will—

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(i) Ensure that the contractor or subcontractor responsible for the noncompliant specialty metal develops and implements an effective plan to ensure future compliance; and

(ii) Determine whether or not the noncompliance was knowing and willful. If the USD(AT&L) determines that the noncompliance was knowing and willful, the appropriate debarring and suspending official shall consider suspending or debarring the contractor or subcontractor until such time as the contractor or subcontractor has effectively addressed the issues that led to the noncompliance.

(3) Because national security waivers will only be granted when the acquisition in question is necessary to the national security interests of the United States, the requirement for a plan will be applied as a condition subsequent, and not a condition precedent, to the granting of a waiver.

225.7003-4 One-time waiver.

DoD may accept articles containing specialty metals that are not in compliance with the specialty metals clause of the contract if—

(a) Final acceptance takes place before September 30, 2010;

(b) The specialty metals were incorporated into items (whether end items or components) produced, manufactured, or assembled in the United States before October 17, 2006;

(c) The contracting officer determines in writing that—

(1) It would not be practical or economical to remove or replace the specialty metals incorporated in such items or to substitute items containing compliant materials;

(2) The contractor and any subcontractor responsible for providing items containing non-compliant specialty metals have in place an effective plan to ensure compliance with the specialty metals clause of the contract for future items produced, manufactured, or assembled in the United States; and

(3) The non-compliance was not knowing or willful;

(d) The determination is approved by—

(1) The USD(AT&L); or

(2) The service acquisition executive of the military department concerned; and

(e) Not later than 15 days after approval of the determination, the contracting officer posts a notice on the Federal Business Opportunities website at www.FedBizOpps.gov, stating that a waiver for the contract has been granted under Section 842(b) of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364).

225.7003-5 Solicitation provision and contract clauses.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(a) Unless the acquisition is wholly exempt from the specialty metals restrictions at 225.7003-2 because the acquisition is covered by an exception in 225.7003-3(a) or (d) (but see paragraph (d) of this subsection)—

(1) Use the clause at 252.225-7008, Restriction on Acquisition of Specialty Metals, in solicitations and contracts that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require the delivery of specialty metals as end items.

(2) Use the clause at 252.225-7009, Restriction on Acquisition of Certain Articles Containing Specialty Metals, in solicitations and contracts that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require delivery of any of the following items, or components of the following items, if such items or components contain specialty metal:

- (A) Aircraft.
- (B) Missile or space systems.
- (C) Ships.
- (D) Tank or automotive items.
- (E) Weapon systems.
- (F) Ammunition.

(b) Use the provision at 252.225-7010, Commercial Derivative Military Article—Specialty Metals Compliance Certificate, in solicitations—

- (1) That contain the clause at 252.225-7009; and
- (2) For which the contracting officer anticipates that one or more offers of commercial derivative military articles may be received.

(c) Use the clause at 252.225-7029, Reporting of Commercially Available Off-the-Shelf Items that Contain Specialty Metals and are Incorporated into Noncommercial End Items, in solicitations and contracts that—

- (1) Contain the clause at 252.225-7009;
- (2) Are for the acquisition of noncommercial end items; and
- (3) Are awarded in fiscal year 2009.

(d) If an agency cannot reasonably determine at time of acquisition whether some or all of the items will be used in support of combat operations or in support of contingency operations, the contracting officer should not rely on the exception at

225.7003-3(a)(2) or (3), but should include the appropriate specialty metals clause or provision in the solicitation and contract.

(e) If the solicitation and contract require delivery of a variety of contract line items containing specialty metals, but only some of the items are subject to domestic specialty metals restrictions, identify in the Schedule those items that are subject to the restrictions.

225.7004 Restriction on acquisition of foreign buses.

225.7004-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire a multipassenger motor vehicle (bus) unless it is manufactured in the United States or Canada.

225.7004-2 Applicability.

Apply this restriction if the buses are purchased, leased, rented, or made available under contracts for transportation services.

225.7004-3 Exceptions.

This restriction does not apply in any of the following circumstances:

(a) Buses manufactured outside the United States and Canada are needed for temporary use because buses manufactured in the United States or Canada are not available to satisfy requirements that cannot be postponed. Such use may not, however, exceed the lead time required for acquisition and delivery of buses manufactured in the United States or Canada.

(b) The requirement for buses is temporary in nature. For example, to meet a special, nonrecurring requirement or a sporadic and infrequent recurring requirement, buses manufactured outside the United States and Canada may be used for temporary periods of time. Such use may not, however, exceed the period of time needed to meet the special requirement.

(c) Buses manufactured outside the United States and Canada are available at no cost to the U.S. Government.

(d) The acquisition is for an amount at or below the simplified acquisition threshold.

225.7004-4 Waiver.

The waiver criteria at 225.7008(a) apply to this restriction.

225.7005 Restriction on certain chemical weapons antidote.

225.7005-1 Restriction.

In accordance with 10 U.S.C. 2534 and defense industrial mobilization requirements, do not acquire chemical weapons antidote contained in automatic injectors, or the components for such injectors, unless the chemical weapons antidote or component is manufactured in the United States or Canada by a company that—

(a) Is a producer under the industrial preparedness program at the time of contract award;

(b) Has received all required regulatory approvals; and

(c) Has the plant, equipment, and personnel to perform the contract in the United States or Canada at the time of contract award.

225.7005-2 Exception.

This restriction does not apply if the acquisition is for an amount at or below the simplified acquisition threshold.

225.7005-3 Waiver.

The waiver criteria at 225.7008(a) apply to this restriction.

225.7006 Restriction on air circuit breakers for naval vessels.

225.7006-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire air circuit breakers for naval vessels unless they are manufactured in the United States or Canada.

225.7006-2 Exceptions.

This restriction does not apply if the acquisition is—

(a) For an amount at or below the simplified acquisition threshold; or

(b) For spare or repair parts needed to support air circuit breakers manufactured outside the United States. Support includes the purchase of spare air circuit breakers when those from alternate sources are not interchangeable.

225.7006-3 Waiver.

(a) The waiver criteria at 225.7008(a) apply to this restriction.

(b) The Under Secretary of Defense (Acquisition, Technology, and Logistics) has waived the restriction for air circuit breakers manufactured in the United Kingdom. See 225.7008(b) for applicability.

225.7006-4 Solicitation provision and contract clause.

(a) Use the provision at 252.225-7037, Evaluation of Offers for Air Circuit Breakers, in solicitations requiring air circuit breakers for naval vessels unless--

(1) An exception applies; or

(2) A waiver has been granted, other than the waiver for the United Kingdom, which has been incorporated into the provision.

(b) Use the clause at 252.225-7038, Restriction on Acquisition of Air Circuit Breakers, in solicitations and contracts requiring air circuit breakers for naval vessels unless--

(1) An exception applies; or

(2) A waiver has been granted, other than the waiver for the United Kingdom, which has been incorporated into the clause.

225.7007 Restrictions on anchor and mooring chain.

225.7007-1 Restrictions.

(a) In accordance with Section 8041 of the Fiscal Year 1991 DoD Appropriations Act (Pub. L. 101-511) and similar sections in subsequent DoD appropriations acts, do not acquire welded shipboard anchor and mooring chain, four inches or less in diameter, unless--

(1) It is manufactured in the United States, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and

(2) The cost of the components manufactured in the United States exceeds 50 percent of the total cost of components.

(b) 10 U.S.C. 2534 also restricts acquisition of welded shipboard anchor and mooring chain, four inches or less in diameter, when used as a component of a naval vessel. However, the Appropriations Act restriction described in paragraph (a) of this subsection takes precedence over the restriction of 10 U.S.C. 2534.

225.7007-2 Waiver.

(a) The Secretary of the department responsible for acquisition may waive the restriction in 225.7007-1(a), on a case-by-case basis, if--

(1) Sufficient domestic suppliers are not available to meet DoD requirements on a timely basis; and

(2) The acquisition is necessary to acquire capability for national security purposes.

(b) Document the waiver in a written determination and findings containing--

(1) The factors supporting the waiver; and

(2) A certification that the acquisition must be made in order to acquire capability for national security purposes.

(c) Provide a copy of the determination and findings to the House and Senate Committees on Appropriations.

225.7007-3 Contract clause.

(a) When specifically authorized by reference elsewhere in this subpart, the

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

restrictions on certain foreign purchases under 10 U.S.C. 2534(a) may be waived as follows:

(1)(i) The Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)), without power of delegation, may waive a restriction for a particular item for a particular foreign country upon determination that—

(A) United States producers of the item would not be jeopardized by competition from a foreign country, and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country; or

(B) Application of the restriction would impede cooperative programs entered into between DoD and a foreign country, or would impede the reciprocal procurement of defense items under a memorandum of understanding providing for reciprocal procurement of defense items under 225.872, and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.

(ii) A notice of the determination to exercise the waiver authority shall be published in the Federal Register and submitted to the congressional defense committees at least 15 days before the effective date of the waiver.

(iii) The effective period of the waiver shall not exceed 1 year.

(iv) For contracts entered into prior to the effective date of a waiver, provided adequate consideration is received to modify the contract, the waiver shall be applied as directed or authorized in the waiver to—

(A) Subcontracts entered into on or after the effective date of the waiver; and

(B) Options for the procurement of items that are exercised after the effective date of the waiver, if the option prices are adjusted for any reason other than the application of the waiver.

(2) The head of the contracting activity may waive a restriction on a case-by-case basis upon execution of a determination and findings that any of the following applies:

(i) The restriction would cause unreasonable delays.

(ii) Satisfactory quality items manufactured in the United States or Canada are not available.

(iii) Application of the restriction would result in the existence of only one source for the item in the United States or Canada.

(iv) Application of the restriction is not in the national security interests of the United States.

(v) Application of the restriction would adversely affect a U.S. company.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(3) A restriction is waived when it would cause unreasonable costs. The cost of an item of U.S. or Canadian origin is unreasonable if it exceeds 150 percent of the offered price, inclusive of duty, of items that are not of U.S. or Canadian origin.

(b) In accordance with the provisions of paragraphs (a)(1)(i) through (iii) of this section, the USD(AT&L) has waived the restrictions of 10 U.S.C. 2534(a) for certain items manufactured in the United Kingdom, including air circuit breakers for naval vessels (see 225.7006). This waiver applies to—

(1) Procurements under solicitations issued on or after August 4, 1998; and

(2) Subcontracts and options under contracts entered into prior to August 4, 1998, under the conditions described in paragraph (a)(1)(iv) of this section.

(2) Does not apply to the acquisition of an end product (e.g., a machine tool), to be used in the facility, that contains carbon, alloy, or armor steel plate as a component.

225.7011-2 Waiver.

The Secretary of the department responsible for acquisition may waive this restriction, on a case-by-case basis, by certifying to the House and Senate Committees on Appropriations that—

(a) Adequate U.S. or Canadian supplies are not available to meet DoD requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

In accordance with 10 U.S.C. 7309 and 7310—

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(a) In accordance with Pub. L. 92-570, do not use DoD appropriations to make an award to any foreign corporation, organization, person, or entity, for research and development in connection with any weapon system or other military equipment, if there is a U.S. corporation, organization, person, or entity--

- (1) Equally competent; and
- (2) Willing to perform at a lower cost.

(b) This restriction does not affect the requirements of FAR Part 35 for selection of research and development contractors. However, when a U.S. source and a foreign source are equally competent, award to the source that will provide the services at the lower cost.

225.7017 Restriction on Ballistic Missile Defense research, development, test, and evaluation.

225.7017-1 Definitions.

“Competent,” “foreign firm,” and “U.S. firm” are defined in the provision at 252.225-7018, Notice of Prohibition of Certain Contracts with Foreign Entities for the Conduct of Ballistic Missile Defense Research, Development, Test, and Evaluation.

225.7017-2 Restriction.

In accordance with Section 222 of the DoD Authorization Act for Fiscal Years 1988 and 1989 (Pub. L. 100-180), do not use any funds appropriated to or for the use of DoD to enter into or carry out a contract with a foreign government or firm, including any contract awarded as a result of a broad agency announcement, if the contract provides for the conduct of research, development, test, and evaluation (RDT&E) in connection with the Ballistic Missile Defense Program.

225.7017-3 Exceptions.

This restriction does not apply—

(a) To contracts awarded to a foreign government or firm if the contracting officer determines that--

- (1) The contract will be performed within the United States;
- (2) The contract is exclusively for RDT&E in connection with antitactical ballistic missile systems; or
- (3) The foreign government or firm agrees to share a substantial portion of the total contract cost. Consider the foreign share as substantial if it is equitable with respect to the relative benefits that the United States and the foreign parties will derive from the contract. For example, if the contract is more beneficial to the foreign party, its share of the cost should be correspondingly higher; or

(b) If the head of the contracting activity certifies in writing, before contract award, that a U.S. firm cannot competently perform a contract for RDT&E at a price equal to or less than the price at which a foreign government or firm would perform the RDT&E. The contracting officer or source selection authority, as applicable, shall make

a determination, in accordance with PGI 225.7017-3(b), that will be the basis for the certification.

225.7017-4 Solicitation provision.

Unless foreign participation is otherwise excluded, use the provision at 252.225-7018, Notice of Prohibition of Certain Contracts With Foreign Entities for the Conduct of Ballistic Missile Defense Research, Development, Test, and Evaluation, in competitively negotiated solicitations for RDT&E in connection with the Ballistic Missile Defense Program.
