SUBPART 204.72—CONTRACTOR IDENTIFICATION
(Revised December 6, 2013)

204.7200 Scope of subpart.

This subpart prescribes uniform policies and procedures for identification of commercial and Government entities when it is necessary to—

(a) Exchange data with another contracting activity, including contract administration activities and contract payment activities, or comply with the reporting requirements of Subpart [204.6](#); or

(b) Identify contractors for the purpose of developing computerized acquisition systems or solicitation mailing lists.

204.7201 Definitions.

(a) “Commercial and Government Entity (CAGE) code” means—

(1) A code assigned by the DLA Logistics Information Service to identify a commercial or Government entity; or

(2) A code assigned by a member of the North Atlantic Treaty Organization (NATO) that DLA Logistics Information Service records and maintains in the CAGE master file. This type of code is known as an “NCAGE code.”

(b) “Contractor identification code” means a code that the contracting office uses to identify an offeror. The three types of contractor identification codes are CAGE codes, Data Universal Numbering System (DUNS) numbers, and Taxpayer Identification Numbers (TINs).

204.7202 General.

204.7202-1 CAGE codes.

(a) DLA Logistics Information Service assigns or records and maintains CAGE codes to identify commercial and Government entities. DoD 4000.25-5-M, Military Standard Contract Administration Procedures (MILSCAP), and Volume 7 of DoD 4100.39-M, Federal Logistics Information System (FLIS) Procedures Manual, prescribe use of CAGE codes.

(b)(1) If a prospective contractor located in the United States must register in the System for Award Management (SAM) database (see FAR subpart 4.11) and does not have a CAGE code, DLA Logistics Information Service will assign a CAGE code when the prospective contractor submits its request for registration in the SAM database. Foreign registrants must obtain a North Atlantic Treaty Organization CAGE (NCAGE) code in order to register in the SAM database. NCAGE codes may be obtained from the Codification Bureau in the foreign registrant’s country. Additional information on obtaining NCAGE codes is available at http://www.dlis.dla.mil/Forms/Form_AC135.asp.

(2) If registration in the SAM database is not required, the prospective contractor’s

CAGE code is not already available in the contracting office, and the prospective contractor does not respond to the provision at [252.204-7001](#), Commercial and Government Entity (CAGE) Code Reporting, use the following procedures:

- (i) To identify the prospective contractor's CAGE code, use—
 - (A) The monthly H-series CD ROM that contains the H-4/H-8 CAGE master file issued by DLA Logistics Information Service. (Their address is: Customer Service, Federal Center, 74 Washington Avenue, North, Battle Creek, MI 49017-3084. Their telephone number is: toll-free 888-352-9333);
 - (B) The on-line access to the CAGE file through the DLA Logistics Information Service;
 - (C) The on-line access to the Defense Logistics Agency (DLA) CAGE file through the DLA Network or dial-up capability; or
 - (D) The Internet to access the CAGE Lookup Server at http://www.dlis.dla.mil/cage_welcome.asp.
- (ii) If no CAGE code is identified through use of the procedures in paragraph b(2)(i) of this subsection, ask DLA Logistics Information Service to assign a CAGE code. Submit a DD Form 2051, Request for Assignment of a Commercial and Government Entity (CAGE) Code, (or electronic equivalent) to the address in paragraph (b)(2)(i)(A) of this subsection, ATTN: DLIS-SBB. The contracting office completes Section A of the DD Form 2051, and the contractor completes Section B. The contracting office must verify Section B before submitting the form.
- (c) Direct questions on obtaining computer tapes, electronic updates, or code assignments to DLA Logistics Information Service Customer Service: toll-free 888-227-2423 or 888-352-9333; DSN 932-4725; or commercial 616-961-4725.

204.7202-2 DUNS numbers.

Requirements for use of DUNS numbers are in FAR 4.605(b) and 4.607(a).

204.7204 Maintenance of the CAGE file.

(a) DLA Logistics Information Service will accept written requests for changes to CAGE files, other than name changes, from the following entities:

- (1) The entity identified by the code. The entity must use company letterhead to forward the request.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

- (2) The contracting office.
- (3) The contract administration office.

(b) Submit requests for changes to CAGE files on DD Form 2051, or electronic equivalent, to—

DLA Logistics Information Service

Facsimile: 616-961-4388, 4485.

(c) The contracting officer responsible for execution of a change-of-name agreement (see FAR Subpart 42.12) must submit the agreement to DLIS-SBB. If there are no current contracts, each contracting and contract administration office receiving notification of changes from the commercial entity must forward a copy of the change notice annotated with the CAGE code to DLIS-SBB unless the change notice indicates that DLIS-SBB already has been notified.

(d) Additional guidance for maintaining CAGE codes is in Volume 7 of DoD 4100.39-M, Federal Logistics Information System (FLIS) Procedures Manual.

204.7205 Novation agreements, mergers and sales of assets.

Contracting officers shall process and execute novation agreements in accordance with FAR Subpart 42.12, Novation and Change-of-Name Agreements. These actions are independent of code and name assignments made as a result of the occasion which created the need for the novation agreement. The maintenance activity will determine which entity(s) will retain the existing code(s) and which entities will be assigned new codes. The contracting officer responsible for processing the novation agreement shall provide the maintenance activity with the following information:

(a) Name(s), address(es), and code(s) of the contractor(s) transferring the original contractual rights and obligations (transferor).

(b) Name(s), address(es), and code(s) (if any) of the entity who is the successor in interest (transferee).

(c) Name(s), address(es), and code(s) (if any) of the entity who is retaining or receiving the rights to the technical data.

(d) Description of the circumstances surrounding the novation agreement and especially the relationship of each entity to the other.

204.7206 Using CAGE codes to identify agents and brokers.

Authorized agents and brokers are entities and, as such, may be assigned CAGE codes for identification and processing purposes.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(a) A single CAGE code will be assigned to the agent/broker establishment in addition to any codes assigned to the entities represented by the agent/broker, i.e., only one code will be assigned to a specific agent/broker entity regardless of the number of firms represented by that agent/broker.

(b) Additional codes may be assigned to an agent/broker if they meet the criteria for assigning additional codes for entities, e.g., different location.

(c) Codes will not be assigned to an agent/broker in care of the entity being represented or in any way infer that the agent/broker is a separate establishment bearing the name of the entity represented by the agent/broker.

204.7207 Solicitation provision.

Use the provision at [252.204-7001](#), Commercial and Government Entity (CAGE) Code Reporting, in solicitations when—

(a) The solicitation does not include the provision at FAR 52.204-7, System for Award Management; and

(b) The CAGE codes for the potential offerors are not available to the contracting office.

SUBPART 216.4—INCENTIVE CONTRACTS

(Revised December 6, 2013)

216.401 General.

(c) See [PGI 216.401\(c\)](#) for information on the Defense Acquisition University Award and Incentive Fees Community of Practice.

(e) Award-fee plans required in FAR 16.401(e) shall be incorporated into all award-fee type contracts. Follow the procedures at [PGI 216.401\(e\)](#) when planning to award an award-fee contract.

216.401-70 Data collection.

Section 814 of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364) requires DoD to collect relevant data on award and incentive fees paid to contractors and have mechanisms in place to evaluate such data on a regular basis. In order to comply with this statutory requirement, follow the procedures at [PGI 216.401-70](#).

216.401-71 Objective criteria.

(1) Contracting officers shall use objective criteria to the maximum extent possible to measure contract performance. Objective criteria are associated with cost-plus-incentive-fee and fixed-price-incentive contracts.

(2) When objective criteria exist but the contracting officer determines that it is in the best interest of the Government also to incentivize subjective elements of performance, the most appropriate contract type is a multiple-incentive contract containing both objective incentives and subjective award-fee criteria (i.e., cost-plus-incentive-fee/award-fee or fixed-price-incentive/award-fee).

(3) See [PGI 216.401\(e\)](#) for guidance on the use of award-fee contracts.

216.402 Application of predetermined, formula-type incentives.

216.402-2 Technical performance incentives.

See [PGI 216.402-2](#) for guidance on establishing performance incentives.

216.403 Fixed-price incentive contracts.

216.403-1 Fixed-price incentive (firm target) contracts.

(b) *Application.*

(1) The contracting officer shall give particular consideration to the use of fixed-price incentive (firm target) contracts, especially for acquisitions moving from development to production.

(2) The contracting officer shall pay particular attention to share lines and ceiling prices for fixed-price incentive (firm target) contracts, with a 120 percent ceiling

and a 50/50 share ratio as the point of departure for establishing the incentive arrangement.

(3) See [PGI 216.403-1](#) for guidance on the use of fixed-price incentive (firm target) contracts.

216.403-2 Fixed-price incentive (successive targets) contracts.

See [PGI 216.403-2](#) for guidance on the use of fixed-price incentive (successive targets) contracts.

216.405 Cost-reimbursement incentive contracts.

216.405-1 Cost-plus-incentive-fee contracts.

See [PGI 216.405-1](#) for guidance on the use of cost-plus-incentive-fee contracts.

216.405-2 Cost-plus-award-fee contracts.

(1) *Award-fee pool.* The award-fee pool is the total available award fee for each evaluation period for the life of the contract. The contracting officer shall perform an analysis of appropriate fee distribution to ensure at least 40 per cent of the award fee is available for the final evaluation so that the award fee is appropriately distributed over all evaluation periods to incentivize the contractor throughout performance of the contract. The percentage of award fee available for the final evaluation may be set below 40 per cent if the contracting officer determines that a lower percentage is appropriate, and this determination is approved by the head of the contracting activity (HCA). The HCA may not delegate this approval authority.

(2) *Award-fee evaluation and payments.* Award-fee payments other than payments resulting from the evaluation at the end of an award-fee period are prohibited. (This prohibition does not apply to base-fee payments.) The fee-determining official's rating for award-fee evaluations will be provided to the contractor within 45 calendar days of the end of the period being evaluated. The final award-fee payment will be consistent with the fee-determining official's final evaluation of the contractor's overall performance against the cost, schedule, and performance outcomes specified in the award-fee plan.

(3) *Limitations.*

(i) The cost-plus-award-fee contract shall not be used—

(A) To avoid—

(1) Establishing cost-plus-fixed-fee contracts when the criteria for cost-plus-fixed-fee contracts apply; or

(2) Developing objective targets so a cost-plus-incentive-fee contract can be used; or

(B) For either engineering development or operational system development acquisitions that have specifications suitable for simultaneous research and development and production, except a cost-plus-award-fee contract may be used for

Defense Federal Acquisition Regulation Supplement

Part 216—Types Of Contracts

individual engineering development or operational system development acquisitions ancillary to the development of a major weapon system or equipment, where—

- (1) It is more advantageous; and
 - (2) The purpose of the acquisition is clearly to determine or solve specific problems associated with the major weapon system or equipment.
 - (ii) Do not apply the weighted guidelines method to cost-plus-award-fee contracts for either the base (fixed) fee or the award fee.
 - (iii) The base fee shall not exceed three percent of the estimated cost of the contract exclusive of the fee.
- (4) See [PGI 216.405-2](#) for guidance on the use of cost-plus-award-fee contracts.

216.405-2-70 Award fee reduction or denial for jeopardizing the health or safety of Government personnel.

(a) *Definitions.*

“Covered incident” and “serious bodily injury,” as used in this section, are defined in the clause at [252.216-7004](#), Award Fee Reduction or Denial for Jeopardizing the Health or Safety of Government Personnel.

(b) The contracting officer shall include in the evaluation criteria of any award-fee plan, a review of contractor and subcontractor actions that jeopardized the health or safety of Government personnel, through gross negligence or reckless disregard for the safety of such personnel, as determined through—

(1) Conviction in a criminal proceeding, or finding of fault and liability in a civil or administrative proceeding (in accordance with section 823 of the National Defense Authorization Act for Fiscal Year 2010 (Pub. L. 111-84)); or

(2) If a contractor or a subcontractor at any tier is not subject to the jurisdiction of the U.S. courts, a final determination of contractor or subcontractor fault resulting from a DoD investigation (in accordance with section 834 of the National Defense Authorization Act for Fiscal Year 2011 (Pub. L. 111-383)).

(c) In evaluating the contractor’s performance under a contract that includes the clause at [252.216-7004](#), Award Fee Reduction or Denial for Jeopardizing the Health or Safety of Government Personnel, the contracting officer shall consider reducing or denying award fees for a period, if contractor or subcontractor actions cause serious bodily injury or death of civilian or military Government personnel during such period. The contracting officer’s evaluation also shall consider recovering all or part of award fees previously paid for such period.

216.405-2-71 Award fee reduction or denial for failure to comply with requirements relating to performance of private security functions.

(a) In accordance with section 862 of the National Defense Authorization Act for Fiscal Year 2008, as amended, the contracting officer shall include in any award-fee

plan a requirement to review contractor compliance with, or violation of, applicable requirements of the contract with regard to the performance of private security functions in an area of contingency operations, complex contingency operations, or other military operations or exercises that are designated by the combatant commander (see [225.370](#)).

(b) In evaluating the contractor's performance under a contract that includes the clause at FAR 52.225-26, Contractors Performing Private Security Functions, the contracting officer shall consider reducing or denying award fees for a period if the contractor fails to comply with the requirements of the clause during such period. The contracting officer's evaluation also shall consider recovering all or part of award fees previously paid for such period.

216.406 Contract clauses.

(e)(1) Use the clause at [252.216-7004](#), Award Fee Reduction or Denial for Jeopardizing the Health or Safety of Government Personnel, in all solicitations and contracts containing award-fee provisions.

(2) Use the clause at [252.216-7005](#), Award Fee, in solicitations and contracts when an award-fee contract is contemplated.

216.470 Other applications of award fees.

See [PGI 216.470](#) for guidance on other applications of award fees.

SUBPART 225.73—ACQUISITIONS FOR FOREIGN MILITARY SALES
(Revised December 6, 2013)

225.7300 Scope of subpart.

(a) This subpart contains policies and procedures for acquisitions for foreign military sales (FMS) under the Arms Export Control Act (22 U.S.C. Chapter 39). Section 22 of the Arms Export Control Act (22 U.S.C. 2762) authorizes DoD to enter into contracts for resale to foreign countries or international organizations.

(b) This subpart does not apply to—

- (1) FMS made from inventories or stocks;
- (2) Acquisitions for replenishment of inventories or stocks; or
- (3) Acquisitions made under DoD cooperative logistic supply support arrangements.

225.7301 General.

(a) The U.S. Government sells defense articles and services to foreign governments or international organizations through FMS agreements. The agreement is documented in a Letter of Offer and Acceptance (LOA) (see DoD 5105.38-M, Security Assistance Management Manual).

(b) Conduct FMS acquisitions under the same acquisition and contract management procedures used for other defense acquisitions.

(c) Follow the additional procedures at [PGI 225.7301\(c\)](#) for preparation of solicitations and contracts that include FMS requirements.

(d) See [229.170](#) for policy on contracts financed under U.S. assistance programs that involve payment of foreign country value added taxes or customs duties.

225.7302 Preparation of letter of offer and acceptance.

For FMS programs that will require an acquisition, the contracting officer shall assist the DoD implementing agency responsible for preparing the Letter of Offer and Acceptance (LOA) by—

- (1) Working with prospective contractors to—
 - (i) Identify, in advance of the LOA, any unusual provisions or deviations (such as those requirements for Pseudo LOAs identified at [PGI 225.7301](#));
 - (ii) Advise the contractor if the DoD implementing agency expands, modifies, or does not accept any key elements of the prospective contractor's proposal;
 - (iii) Identify any logistics support necessary to perform the contract (such as those requirements identified at [PGI 225.7301](#)); and

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(iv) For noncompetitive acquisitions over \$10,000, ask the prospective contractor for information on price, delivery, and other relevant factors. The request for information shall identify the fact that the information is for a potential foreign military sale and shall identify the foreign customer; and

(2) Working with the DoD implementing agency responsible for preparing the LOA, as specified in [PGI 225.7302](#).

225.7303 Pricing acquisitions for FMS.

(a) Price FMS contracts using the same principles used in pricing other defense contracts. However, application of the pricing principles in FAR Parts 15 and 31 to an FMS contract may result in prices that differ from other defense contract prices for the same item due to the considerations in this section.

(b) If the foreign government has conducted a competition resulting in adequate price competition (see FAR 15.403-1(b)(1)), the contracting officer shall not require the submission of certified cost or pricing data. The contracting officer should consult with the foreign government through security assistance personnel to determine if adequate price competition has occurred.

225.7303-1 Contractor sales to other foreign customers.

If the contractor has made sales of the item required for the foreign military sale to foreign customers under comparable conditions, including quantity and delivery, price the FMS contract in accordance with FAR Part 15.

225.7303-2 Cost of doing business with a foreign government or an international organization.

(a) In pricing FMS contracts where non-U.S. Government prices as described in [225.7303-1](#) do not exist, except as provided in [225.7303-5](#), recognize the reasonable and allocable costs of doing business with a foreign government or international organization, even though such costs might not be recognized in the same amounts in pricing other defense contracts. Examples of such costs include, but are not limited to, the following:

(1) Selling expenses (not otherwise limited by FAR Part 31), such as—

(i) Maintaining international sales and service organizations;

(ii) Sales commissions and fees in accordance with FAR Subpart 3.4;

(iii) Sales promotions, demonstrations, and related travel for sales to foreign governments. Section 126.8 of the International Traffic in Arms Regulations (22 CFR 126.8) may require Government approval for these costs to be allowable, in which case the appropriate Government approval shall be obtained; and

(iv) Configuration studies and related technical services undertaken as a direct selling effort to a foreign country.

(2) Product support and post-delivery service expenses, such as—

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(i) Operations or maintenance training, training or tactics films, manuals, or other related data; and

(ii) Technical field services provided in a foreign country related to accident investigations, weapon system problems, or operations/tactics enhancement, and related travel to foreign countries.

(3) Offset costs (also see [225.7306](#)).

(i) A U.S. defense contractor may recover all costs incurred for offset agreements with a foreign government or international organization if the LOA is financed wholly with customer cash or repayable foreign military finance credits.

(ii) The U.S. Government assumes no obligation to satisfy or administer the offset requirement or to bear any of the associated costs.

(4) Costs that are the subject of advance agreement under the appropriate provisions of FAR Part 31; or where the advance understanding places a limit on the amounts of cost that will be recognized as allowable in defense contract pricing, and the agreement contemplated that it will apply only to DoD contracts for the U.S. Government's own requirements (as distinguished from contracts for FMS).

(b) Costs not allowable under FAR Part 31 are not allowable in pricing FMS contracts, except as noted in paragraphs (c) and (e) of this subsection.

(c) The limitations for major contractors on independent research and development and bid and proposal (IR&D/B&P) costs for projects that are of potential interest to DoD, in [231.205-18\(c\)\(iii\)](#), do not apply to FMS contracts, except as provided in [225.7303-5](#). The allowability of IR&D/B&P costs on contracts for FMS not wholly paid for from funds made available on a nonrepayable basis is limited to the contract's allocable share of the contractor's total IR&D/B&P expenditures. In pricing contracts for such FMS—

(1) Use the best estimate of reasonable costs in forward pricing; and

(2) Use actual expenditures, to the extent that they are reasonable, in determining final cost.

(d) Under paragraph (e)(1)(A) of Section 21 of the Arms Export Control Act (22 U.S.C. 2761), the United States must charge for administrative services to recover the estimated cost of administration of sales made under the Arms Export Control Act.

(e) The limitations in [231.205-1](#) on allowability of costs associated with leasing Government equipment do not apply to FMS contracts.

225.7303-3 Government-to-government agreements.

If a government-to-government agreement between the United States and a foreign government for the sale, coproduction, or cooperative logistic support of a specifically defined weapon system, major end item, or support item, contains language in conflict with the provisions of this section, the language of the government-to-government agreement prevails.

225.7303-4 Contingent fees.

(a) Except as provided in paragraph (b) of this subsection, contingent fees are generally allowable under DoD contracts, provided--

(1) The fees are paid to a bona fide employee or a bona fide established commercial or selling agency maintained by the prospective contractor for the purpose of securing business (see FAR Part 31 and FAR Subpart 3.4); and

(2) The contracting officer determines that the fees are fair and reasonable.

(b)(1) Under DoD 5105.38-M, LOAs for requirements for the governments of Australia, Taiwan, Egypt, Greece, Israel, Japan, Jordan, Republic of Korea, Kuwait, Pakistan, Philippines, Saudi Arabia, Turkey, Thailand, or Venezuela (Air Force) shall provide that all U.S. Government contracts resulting from the LOAs prohibit the reimbursement of contingent fees as an allowable cost under the contract, unless the contractor identifies the payments and the foreign customer approves the payments in writing before contract award (see [225.7307\(a\)](#)).

(2) For FMS to countries not listed in paragraph (b)(1) of this subsection, contingent fees exceeding \$50,000 per FMS case are unallowable under DoD contracts, unless the contractor identifies the payment and the foreign customer approves the payment in writing before contract award.

225.7303-5 Acquisitions wholly paid for from nonrepayable funds.

(a) In accordance with 22 U.S.C. 2762(d), price FMS wholly paid for from funds made available on a nonrepayable basis on the same costing basis with regard to profit, overhead, IR&D/B&P, and other costing elements as is applicable to acquisitions of like items purchased by DoD for its own use.

(b) Direct costs associated with meeting a foreign customer's additional or unique requirements are allowable under such contracts. Indirect burden rates applicable to such direct costs are permitted at the same rates applicable to acquisitions of like items purchased by DoD for its own use.

(c) A U.S. defense contractor may not recover costs incurred for offset agreements with a foreign government or international organization if the LOA is financed with funds made available on a nonrepayable basis.

225.7304 FMS customer involvement.

(a) FMS customers may request that a defense article or defense service be obtained from a particular contractor. In such cases, FAR 6.302-4 provides authority to contract without full and open competition. The FMS customer may also request that a subcontract be placed with a particular firm. The contracting officer shall honor such requests from the FMS customer only if the LOA or other written direction sufficiently fulfills the requirements of FAR Subpart 6.3.

(b) FMS customers should be encouraged to participate with U.S. Government acquisition personnel in discussions with industry to--

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

- (1) Develop technical specifications;
 - (2) Establish delivery schedules;
 - (3) Identify any special warranty provisions or other requirements unique to the FMS customer; and
 - (4) Review prices of varying alternatives, quantities, and options needed to make price-performance tradeoffs.
- (c) Do not disclose to the FMS customer any data, including certified cost or pricing data, that is contractor proprietary unless the contractor authorizes its release.
- (d) Except as provided in paragraph (e)(3) of this section, the degree of FMS customer participation in contract negotiations is left to the discretion of the contracting officer after consultation with the contractor. The contracting officer shall provide an explanation to the FMS customer if its participation in negotiations will be limited. Factors that may limit FMS customer participation include situations where--
- (1) The contract includes requirements for more than one FMS customer;
 - (2) The contract includes unique U.S. requirements; or
 - (3) Contractor proprietary data is a subject of negotiations.
- (e) Do not allow representatives of the FMS customer to—
- (1) Direct the exclusion of certain firms from the solicitation process (they may suggest the inclusion of certain firms);
 - (2) Interfere with a contractor's placement of subcontracts; or
 - (3) Observe or participate in negotiations between the U.S. Government and the contractor involving certified cost or pricing data, unless a deviation is granted in accordance with subpart [201.4](#).
- (f) Do not accept directions from the FMS customer on source selection decisions or contract terms (except that, upon timely notice, the contracting officer may attempt to obtain any special contract provisions, warranties, or other unique requirements requested by the FMS customer).
- (g) Do not honor any requests by the FMS customer to reject any bid or proposal.
- (h) If an FMS customer requests additional data concerning FMS contract prices, the contracting officer shall, after consultation with the contractor, provide sufficient data to demonstrate the reasonableness of the price and reasonable responses to relevant questions concerning contract price. This data--
- (1) May include tailored responses, top-level pricing summaries, historical prices, or an explanation of any significant differences between the actual contract price and the estimated contract price included in the initial LOA; and

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(2) May be provided orally, in writing, or by any other method acceptable to the contracting officer.

225.7305 Limitation of liability.

Advise the contractor when the foreign customer will assume the risk for loss or damage under the appropriate limitation of liability clause(s) (see FAR Subpart 46.8). Consider the costs of necessary insurance, if any, obtained by the contractor to cover the risk of loss or damage in establishing the FMS contract price.

225.7306 Offset arrangements.

In accordance with the Presidential policy statement of April 16, 1990, DoD does not encourage, enter into, or commit U.S. firms to FMS offset arrangements. The decision whether to engage in offsets, and the responsibility for negotiating and implementing offset arrangements, resides with the companies involved. (Also see [225.7303-2\(a\)\(3\)](#).)

225.7307 Contract clauses.

(a) Use the clause at [252.225-7027](#), Restriction on Contingent Fees for Foreign Military Sales, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that are for FMS. Insert in paragraph (b)(1) of the clause the name(s) of any foreign country customer(s) listed in [225.7303-4\(b\)](#).

(b) Use the clause at [252.225-7028](#), Exclusionary Policies and Practices of Foreign Governments, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that are for the purchase of supplies and services for international military education training and FMS.

(a) If an acquisition requires performance of work in a foreign country by contractor personnel other than host country personnel, or delivery of items to a Unified Combatant Command designated operational area, follow the procedures at [PGI 225.7401\(a\)](#).

(b) For work performed in Germany, eligibility for logistics support or base privileges of contractor employees is governed by U.S.-German bilateral agreements. Follow the procedures in Army in Europe Regulation 715-9, available at <http://www.eur.army.mil/g1/content/CPD/docper.html>.

(c) For work performed in Japan or Korea, see [PGI 225.7401\(c\)](#) for information on bilateral agreements and policy relating to contractor employees in Japan or Korea.

(a) This section applies to contracts that involve contractor personnel authorized to accompany U.S. Armed Forces deployed outside the United States in—

- (1) Contingency operations;
- (2) Humanitarian or peacekeeping operations; or
- (3) Other military operations or military exercises, when designated by the combatant commander.

(b) Any of the types of operations listed in paragraph (a) of this subsection may include stability operations such as—

to, the types of support listed in [PGI 225.7402-3\(a\)](#).

(b) The agency shall provide logistical or security support only when the appropriate agency official, in accordance with agency guidance, determines in coordination with the combatant commander that—

(1) Such Government support is available and is needed to ensure continuation of essential contractor services; and

(2) The contractor cannot obtain adequate support from other sources at a reasonable cost.

(c) The contracting officer shall specify in the solicitation and contract—

(1) Valid terms, approved by the combatant commander, that specify the responsible party, if a party other than the combatant commander is responsible for providing protection to the contractor personnel performing in the designated operational area as specified in [225.7402-1](#);

(2) If medical or dental care is authorized beyond the standard specified in paragraph (c)(2)(i) of the clause at [252.225-7040](#), Contractor Personnel Authorized to Accompany U.S. Armed Forces Deployed Outside the United States; and

(e) Contractor personnel must have a Synchronized Predeployment and Operational Tracker (SPOT)–generated letter of authorization (LOA) signed by the contracting officer in order to process through a deployment center or to travel to, from, or within the designated operational area. The LOA also will identify any additional authorizations, privileges, or Government support that the contractor personnel are entitled to under the contract. For a sample LOA, see [PGI 225.7402-5\(a\)\(iv\)](#).

225.7402-4 Law of war training.

(a) *Basic training.* Basic law of war training is required for all contractor personnel authorized to accompany U.S. Armed Forces deployed outside the United States. The basic training normally will be provided through a military-run training center. The contracting officer may authorize the use of an alternate basic training source, provided the servicing DoD legal advisor concurs with the course content. An example of an alternate source of basic training is the web-based training provided by the Defense Acquisition University at <https://acc.dau.mil/CommunityBrowser.aspx?id=18014&lang=en-US>.

(b) *Advanced law of war training.*

This class deviation remains in effect until rescinded or otherwise incorporated in the DFARS.

(a) Use the clause at [252.225-7040, Contractor Personnel Authorized to Accompany U.S. Armed Forces Deployed Outside the United States](#), instead of the clause at FAR [52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission Outside the United States](#), in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that authorize contractor personnel to accompany U.S. Armed Forces deployed outside the United States in—

SUBPART 227.72—RIGHTS IN COMPUTER SOFTWARE AND COMPUTER SOFTWARE DOCUMENTATION

(Revised December 6, 2013)

227.7200 Scope of subpart.

This subpart—

(a) Prescribes policies and procedures for the acquisition of computer software and computer software documentation, and the rights to use, modify, reproduce, release, perform, display, or disclose such software or documentation. It implements requirements in the following laws and Executive Order:

- (1) 10 U.S.C. 2302(4).
- (2) 10 U.S.C. 2305 (subsection (d)(4)).
- (3) 10 U.S.C. 2320.
- (4) 10 U.S.C. 2321.
- (5) 10 U.S.C. 2325.
- (6) Executive Order 12591 (subsection 1(b)(6)).

(b) Does not apply to computer software or computer software documentation acquired under GSA schedule contracts.

227.7201 Definitions.

(a) As used in this subpart, unless otherwise specifically indicated, the terms “offeror” and “contractor” include an offeror's or contractor's subcontractors, suppliers, or potential subcontractors or suppliers at any tier.

(b) Other terms used in this subpart are defined in the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation.

227.7202 Commercial computer software and commercial computer software documentation.

227.7202-1 Policy.

(a) Commercial computer software or commercial computer software documentation shall be acquired under the licenses customarily provided to the public unless such licenses are inconsistent with Federal procurement law or do not otherwise satisfy user needs.

(b) Commercial computer software and commercial computer software documentation shall be obtained competitively, to the maximum extent practicable, using firm-fixed-price contracts or firm-fixed-priced orders under available pricing schedules.

(c) Offerors and contractors shall not be required to—

(1) Furnish technical information related to commercial computer software or commercial computer software documentation that is not customarily provided to the public except for information documenting the specific modifications made at Government expense to such software or documentation to meet the requirements of a Government solicitation; or

(2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose commercial computer software or commercial computer software documentation except for a transfer of rights mutually agreed upon.

227.7202-2 Reserved.

227.7202-3 Rights in commercial computer software or commercial computer software documentation.

(a) The Government shall have only the rights specified in the license under which the commercial computer software or commercial computer software documentation was obtained.

(b) If the Government has a need for rights not conveyed under the license customarily provided to the public, the Government must negotiate with the contractor to determine if there are acceptable terms for transferring such rights. The specific rights granted to the Government shall be enumerated in the contract license agreement or an addendum thereto.

227.7202-4 Contract clause.

A specific contract clause governing the Government's rights in commercial computer software or commercial computer software documentation is not prescribed. As required by [227.7202-3](#), the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation shall be identified in a license agreement.

227.7203 Noncommercial computer software and noncommercial computer software documentation.

227.7203-1 Policy.

(a) DoD policy is to acquire only the computer software and computer software documentation, and the rights in such software or documentation, necessary to satisfy agency needs.

(b) Solicitations and contracts shall—

(1) Specify the computer software or computer software documentation to be delivered under a contract and the delivery schedules for the software or documentation;

(2) Establish or reference procedures for determining the acceptability of computer software or computer software documentation;

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

(3) Establish separate contract line items, to the extent practicable, for the computer software or computer software documentation to be delivered under a contract and require offerors and contractors to price separately each deliverable data item; and

(4) Require offerors to identify, to the extent practicable, computer software or computer software documentation to be furnished with restrictions on the Government's rights and require contractors to identify computer software or computer software documentation to be delivered with such restrictions prior to delivery.

(c) Offerors shall not be required, either as a condition of being responsive to a solicitation or as a condition for award, to sell or otherwise relinquish to the Government any rights in computer software developed exclusively at private expense except for the software identified at [227.7203-5\(a\)\(3\)](#) through (6).

(d) Offerors and contractors shall not be prohibited or discouraged from furnishing or offering to furnish computer software developed exclusively at private expense solely because the Government's rights to use, modify, release, reproduce, perform, display, or disclose the software may be restricted.

(e) For acquisitions involving major weapon systems or subsystems of major weapon systems, the acquisition plan shall address acquisition strategies that provide for computer software and computer software documentation, and the associated license rights, in accordance with [207.106\(S-70\)](#).

227.7203-2 Acquisition of noncommercial computer software and computer software documentation.

(a) Contracting officers shall work closely with data managers and requirements personnel to assure that computer software and computer software documentation requirements included in solicitations are consistent with the policy expressed in [227.7203-1](#).

(b)(1) Data managers or other requirements personnel are responsible for identifying the Government's minimum needs. In addition to desired software performance, compatibility, or other technical considerations, needs determinations should consider such factors as multiple site or shared use requirements, whether the Government's software maintenance philosophy will require the right to modify or have third parties modify the software, and any special computer software documentation requirements.

(2) When reviewing offers received in response to a solicitation or other request for computer software or computer software documentation, data managers must balance the original assessment of the Government's needs with prices offered.

(c) Contracting officers are responsible for ensuring that, wherever practicable, solicitations and contracts—

(1) Identify the types of computer software and the quantity of computer programs and computer software documentation to be delivered, any requirements for multiple users at one site or multiple site licenses, and the format and media in which the software or documentation will be delivered;

(2) Establish each type of computer software or computer software documentation to be delivered as a separate contract line item (this requirement may be satisfied by an exhibit to the contract);

(3) Identify the prices established for each separately priced deliverable item of computer software or computer software documentation under a fixed-price type contract;

(4) Include delivery schedules and acceptance criteria for each deliverable item; and

(5) Specifically identify the place of delivery for each deliverable item.

227.7203-3 Early identification of computer software or computer software documentation to be furnished to the Government with restrictions on use, reproduction or disclosure.

(a) Use the provision at [252.227-7017](#), Identification and Assertion of Use, Release, or Disclosure Restrictions, in all solicitations that include the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation. The provision requires offerors to identify any computer software or computer software documentation for which restrictions, other than copyright, on use, modification, reproduction, release, performance, display, or disclosure are asserted and to attach the identification and assertion to the offer.

(b) Subsequent to contract award, the clause at [252.227-7014](#) permits a contractor, under certain conditions, to make additional assertions of restrictions. The prescriptions for the use of that clause and its alternates are at [227.7203-6\(a\)](#).

227.7203-4 License rights.

(a) *Grant of license.* The Government obtains rights in computer software or computer software documentation, including a copyright license, under an irrevocable license granted or obtained by the contractor which developed the software or documentation or the licensor of the software or documentation if the development contractor is not the licensor. The contractor or licensor retains all rights in the software or documentation not granted to the Government. The scope of a computer software license is generally determined by the source of funds used to develop the software. Contractors or licensors may, with some exceptions, restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software developed exclusively or partially at private expense (see [227.7203-5\(b\)](#) and (c)). They may not, without the Government's agreement (see [227.7203-5\(d\)](#)), restrict the Government's rights in computer software developed exclusively with Government funds or in computer software documentation required to be delivered under a contract.

(b) *Source of funds determination.* The determination of the source of funds used to develop computer software should be made at the lowest practicable segregable portion of the software or documentation (e.g., a software sub-routine that performs a specific function). Contractors may assert restricted rights in a segregable portion of computer software which otherwise qualifies for restricted rights under the clause at [252.227-](#)

[7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation.

227.7203-5 Government rights.

The standard license rights in computer software that a licensor grants to the Government are unlimited rights, government purpose rights, or restricted rights. The standard license in computer software documentation conveys unlimited rights. Those rights are defined in the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation. In unusual situations, the standard rights may not satisfy the Government's needs or the Government may be willing to accept lesser rights in return for other consideration. In those cases, a special license may be negotiated. However, the licensor is not obligated to provide the Government greater rights and the contracting officer is not required to accept lesser rights than the rights provided in the standard grant of license. The situations under which a particular grant of license applies are enumerated in paragraphs (a) through (d) of this subsection.

(a) *Unlimited rights.* The Government obtains an unlimited rights license in—

- (1) Computer software developed exclusively with Government funds;
- (2) Computer software documentation required to be delivered under a Government contract;
- (3) Corrections or changes to computer software or computer software documentation furnished to the contractor by the Government;
- (4) Computer software or computer software documentation that is otherwise publicly available or has been released or disclosed by the contractor or subcontractor without restrictions on further use, release or disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the software to another party or the sale or transfer of some or all of a business entity or its assets to another party;
- (5) Computer software or computer software documentation obtained with unlimited rights under another Government contract or as a result of negotiations; or
- (6) Computer software or computer software documentation furnished to the Government, under a Government contract or subcontract with—
 - (i) Restricted rights in computer software, limited rights in technical data, or government purpose license rights and the restrictive conditions have expired; or
 - (ii) Government purpose rights and the contractor's exclusive right to use such software or documentation for commercial purposes has expired.

(b) *Government purpose rights.*

- (1) Except as provided in paragraph (a) of this subsection, the Government obtains government purpose rights in computer software developed with mixed funding.

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

(2) The period during which government purpose rights are effective is negotiable. The clause at [252.227-7014](#) provides a nominal five-year period. Either party may request a different period. Changes to the government purpose rights period may be made at any time prior to delivery of the software without consideration from either party. Longer periods should be negotiated when a five-year period does not provide sufficient time to commercialize the software or, for software developed by subcontractors, when necessary to recognize the subcontractors' interests in the software.

(3) The government purpose rights period commences upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the computer software. Upon expiration of the government purpose rights period, the Government has unlimited rights in the software including the right to authorize others to use the data for commercial purposes.

(4) During the government purpose rights period, the Government may not use, or authorize other persons to use, computer software marked with government purpose rights legends for commercial purposes. The Government shall not release or disclose, or authorize others to release or disclose, computer software in which it has government purpose rights to any person unless—

(i) Prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at [227.7103-7](#); or

(ii) The intended recipient is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(5) When computer software marked with government purpose rights legends will be released or disclosed to a Government contractor performing a contract that does not include the clause at [252.227-7025](#), the contract may be modified, prior to release or disclosure, to include such clause in lieu of requiring the contractor to complete a use and non-disclosure agreement.

(6) Contracting activities shall establish procedures to assure that computer software or computer software documentation marked with government purpose rights legends are released or disclosed, including a release or disclosure through a Government solicitation, only to persons subject to the use and non-disclosure restrictions. Public announcements in the Commerce Business Daily or other publications must provide notice of the use and non-disclosure requirements. Class use and non-disclosure agreements (e.g., agreements covering all solicitations received by the XYZ company within a reasonable period) are authorized and may be obtained at any time prior to release or disclosure of the government purpose rights software or documentation. Documents transmitting government purpose rights software or documentation to persons under class agreements shall identify the specific software or documentation subject to government purpose rights and the class agreement under which such software or documentation are provided.

(c) *Restricted rights.*

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

(1) The Government obtains restricted rights in noncommercial computer software, required to be delivered or otherwise provided to the Government under a contract, that was developed exclusively at private expense.

(2) Contractors are not required to provide the Government additional rights in computer software delivered or otherwise provided to the Government with restricted rights. When the Government has a need for additional rights, the Government must negotiate with the contractor to determine if there are acceptable terms for transferring such rights. List or describe all software in which the contractor has granted the Government additional rights in a license agreement made part of the contract (see paragraph (d) of this subsection). The license shall enumerate the specific additional rights granted to the Government.

(d) *Specifically negotiated license rights.* Negotiate specific licenses when the parties agree to modify the standard license rights granted to the Government or when the Government wants to obtain rights in computer software in which it does not have rights. When negotiating to obtain, relinquish, or increase the Government's rights in computer software, consider the planned software maintenance philosophy, anticipated time or user sharing requirements, and other factors which may have relevance for a particular procurement. If negotiating to relinquish rights in computer software documentation, consider the administrative burden associated with protecting documentation subject to restrictions from unauthorized release or disclosure. The negotiated license rights must stipulate the rights granted the Government to use, modify, reproduce, release, perform, display, or disclose the software or documentation and the extent to which the Government may authorize others to do so. Identify all negotiated rights in a license agreement made part of the contract.

(e) *Rights in derivative computer software or computer software documentation.* The clause at [252.227-7014](#) protects the Government's rights in computer software, computer software documentation, or portions thereof that the contractor subsequently uses to prepare derivative software or subsequently embeds or includes in other software or documentation. The Government retains the rights it obtained under the development contract in the unmodified portions of the derivative software or documentation.

227.7203-6 Contract clauses.

(a)(1) Use the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, in solicitations and contracts when the successful offeror(s) will be required to deliver computer software or computer software documentation. Do not use the clause when the only deliverable items are technical data (other than computer software documentation), commercial computer software or commercial computer software documentation, commercial items (see [227.7102-3](#)), special works (see [227.7205](#)), or contracts under the Small Business Innovation Research Program (see [227.7104](#)). Except as provided in [227.7107-2](#), do not use the clause in architect-engineer and construction contracts.

(2) Use the clause at [252.227-7014](#) with its Alternate I in research contracts when the contracting officer determines, in consultation with counsel, that public dissemination by the contractor would be—

(i) In the interest of the Government; and

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

(ii) Facilitated by the Government relinquishing its right to publish the work for sale, or to have others publish the work for sale on behalf of the Government.

(b) Use the clause at [252.227-7016](#), Rights in Bid or Proposal Information, in solicitations and contracts that include the clause at [252.227-7014](#).

(c) Use the clause at [252.227-7019](#), Validation of Asserted Restrictions--Computer Software, in solicitations and contracts that include the clause at [252.227-7014](#). The clause provides procedures for the validation of asserted restrictions on the Government's rights to use, release, or disclose computer software.

(d) Use the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, in solicitations and contracts when it is anticipated that the Government will provide the contractor, for performance of its contract, computer software or computer software documentation marked with another contractor's restrictive legend(s).

(e) Use the provision at [252.227-7028](#), Technical Data or Computer Software Previously Delivered to the Government, in solicitations when the resulting contract will require the contractor to deliver computer software or computer software documentation. The provision requires offerors to identify any software or documentation specified in the solicitation as deliverable items that are the same or substantially the same as software or documentation which the offeror has delivered or is obligated to deliver, either as a contractor or subcontractor, under any other federal agency contract.

(f) Use the clause at [252.227-7037](#), Validation of Restrictive Markings on Technical Data, in solicitations and contracts that include the clause at [252.227-7014](#) when the contractor will be required to deliver noncommercial computer software documentation (technical data). The clause implements statutory requirements under 10 U.S.C. 2321. Paragraph (e) of the clause contains information that must be included in a formal challenge.

227.7203-8 Deferred delivery and deferred ordering of computer software and computer software documentation.

(a) *Deferred delivery.* Use the clause at [252.227-7026](#), Deferred Delivery of Technical Data or Computer Software, when it is in the Government's interests to defer the delivery of computer software or computer software documentation. The clause permits the contracting officer to require the delivery of data identified as “deferred delivery” data or computer software at any time until two years after acceptance by the Government of all items (other than technical data or computer software) under the contract or contract termination, whichever is later. The obligation of subcontractors or suppliers to deliver such data expires two years after the date the prime contractor accepts the last item from the subcontractor or supplier for use in the performance of the contract. The contract must specify the computer software or computer software documentation that is subject to deferred delivery. The contracting officer shall notify the contractor sufficiently in advance of the desired delivery date for such software or documentation to permit timely delivery.

(b) *Deferred ordering.* Use the clause at [252.227-7027](#), Deferred Ordering of Technical Data or Computer Software, when a firm requirement for software or documentation has not been established prior to contract award but there is a potential need for computer software or computer software documentation. Under this clause, the contracting officer may order any computer software or computer software documentation generated in the performance of the contract or any subcontract thereunder at any time until three years after acceptance of all items (other than technical data or computer software) under the contract or contract termination, whichever is later. The obligation of subcontractors to deliver such technical data or computer software expires three years after the date the contractor accepts the last item under the subcontract. When the software or documentation are ordered, the delivery dates shall be negotiated and the contractor compensated only for converting the software or documentation into the prescribed form, reproduction costs, and delivery costs.

227.7203-9 Copyright.

(a) *Copyright license.*

(1) The clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, requires a contractor to grant, or obtain for the Government license rights which permit the Government to reproduce the software or documentation, distribute copies, perform or display the software or documentation and, through the right to modify data, prepare derivative works. The extent to which the Government, and others acting on its behalf, may exercise these rights varies for each of the standard data rights licenses obtained under the clause. When non-standard license rights in computer software or computer software documentation will be negotiated, negotiate the extent of the copyright license concurrent with negotiations for the data rights license. Do not negotiate copyright licenses for computer software that provide less rights than the standard restricted rights in computer software license. For computer software documentation, do not negotiate a copyright license that provides less rights than the standard limited rights in technical data license.

(2) The clause at [252.227-7013](#), Rights in Technical Data--Noncommercial Items, does not permit a contractor to incorporate a third party's copyrighted software into a deliverable software item unless the contractor has obtained an appropriate license for the Government and, when applicable, others acting on the Government's behalf, or has obtained the contracting officer's written approval to do so. Grant approval to use third party copyrighted software in which the Government will not receive a copyright license only when the Government's requirements cannot be satisfied without the third party material or when the use of the third party material will result in cost savings to the Government which outweigh the lack of a copyright license.

(b) *Copyright considerations--special works.* See [227.7205](#) for copyright considerations when acquiring special works.

227.7203-10 Contractor identification and marking of computer software or computer software documentation to be furnished with restrictive markings.

(a) *Identification requirements.*

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

(1) The solicitation provision at [252.227-7017](#), Identification and Assertion of Use, Release, or Disclosure Restrictions, requires offerors to identify, prior to contract award, any computer software or computer software documentation that an offeror asserts should be provided to the Government with restrictions on use, modification, reproduction, release, or disclosure. This requirement does not apply to restrictions based solely on copyright. The notification and identification must be submitted as an attachment to the offer. If an offeror fails to submit the attachment or fails to complete the attachment in accordance with the requirements of the solicitation provision, such failure shall constitute a minor informality. Provide offerors an opportunity to remedy a minor informality in accordance with the procedures at FAR 14.405 or 15.306(a). An offeror's failure to correct an informality within the time prescribed by the contracting officer shall render the offer ineligible for award.

(2) The procedures for correcting minor informalities shall not be used to obtain information regarding asserted restrictions or an offeror's suggested asserted rights category. Questions regarding the justification for an asserted restriction or asserted rights category must be pursued in accordance with the procedures at [227.7203-13](#).

(3) The restrictions asserted by a successful offeror shall be attached to its contract unless, in accordance with the procedures at [227.7203-13](#), the parties have agreed that an asserted restriction is not justified. The contract attachment shall provide the same information regarding identification of the computer software or computer software documentation, the asserted rights category, the basis for the assertion, and the name of the person asserting the restrictions as required by paragraph (d) of the solicitation provision at [252.227-7017](#). Subsequent to contract award, the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, permits a contractor to make additional assertions under certain conditions. The additional assertions must be made in accordance with the procedures and in the format prescribed by that clause.

(4) Neither the pre- or post-award assertions made by the contractor nor the fact that certain assertions are identified in the attachment to the contract, determine the respective rights of the parties. As provided at [227.7203-13](#), the Government has the right to review, verify, challenge and validate restrictive markings.

(5) Information provided by offerors in response to the solicitation provision at [252.227-7017](#) may be used in the source selection process to evaluate the impact on evaluation factors that may be created by restrictions on the Government's ability to use or disclose computer software or computer software documentation.

(b) *Contractor marking requirements.* The clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation—

(1) Requires a contractor who desires to restrict the Government's rights in computer software or computer software documentation to place restrictive markings on the software or documentation, provides instructions for the placement of the restrictive markings, and authorizes the use of certain restrictive markings. When it is anticipated that the software will or may be used in combat or situations which simulate combat conditions, do not permit contractors to insert instructions into

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

computer programs that interfere with or delay operation of the software to display a restrictive rights legend or other license notice; and

(2) Requires a contractor to deliver, furnish, or otherwise provide to the Government any computer software or computer software documentation in which the Government has previously obtained rights with the Government's pre-existing rights in that software or documentation unless the parties have agreed otherwise or restrictions on the Government's rights to use, modify, reproduce, release, or disclose the software or documentation have expired. When restrictions are still applicable, the contractor is permitted to mark the software or documentation with the appropriate restrictive legend.

(c) *Unmarked computer software or computer software documentation.*

(1) Computer software or computer software documentation delivered or otherwise provided under a contract without restrictive markings shall be presumed to have been delivered with unlimited rights and may be released or disclosed without restriction. To the extent practicable, if a contractor has requested permission (see paragraph (c)(2) of this subsection) to correct an inadvertent omission of markings, do not release or disclose the software or documentation pending evaluation of the request.

(2) A contractor may request permission to have appropriate legends placed on unmarked computer software or computer software documentation at its expense. The request must be received by the contracting officer within six months following the furnishing or delivery of such software or documentation, or any extension of that time approved by the contracting officer. The person making the request must—

(i) Identify the software or documentation that should have been marked;

(ii) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of computer software or computer software documentation contained in the clause at [252.227-7014](#); and

(iii) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the software or documentation made prior to the addition of the marking or resulting from the omission of the marking.

(3) Contracting officers should grant permission to mark only if the software or documentation were not distributed outside the Government or were distributed outside the Government with restrictions on further use or disclosure.

227.7203-11 Contractor procedures and records.

(a) The clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, requires a contractor, and its subcontractors or suppliers that will deliver computer software or computer software documentation with other than unlimited rights, to establish and follow written procedures to assure that restrictive markings are used only when authorized and to maintain records to justify the validity of restrictive markings.

(b) The clause at [252.227-7019](#), Validation of Asserted Restrictions--Computer Software, requires contractors and their subcontractors or suppliers at any tier to maintain records sufficient to justify the validity of markings that assert restrictions on the use, modification, reproduction, release, performance, display, or disclosure of computer software.

227.7203-12 Government right to establish conformity of markings.

(a) *Nonconforming markings.*

(1) Authorized markings are identified in the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation. All other markings are nonconforming markings. An authorized marking that is not in the form, or differs in substance, from the marking requirements in the clause at [252.227-7014](#) is also a nonconforming marking.

(2) The correction of nonconforming markings on computer software is not subject to [252.227-7019](#), Validation of Asserted Restrictions--Computer Software, and the correction of nonconforming markings on computer software documentation (technical data) is not subject to [252.227-7037](#), Validation of Restrictive Markings on Technical Data. To the extent practicable, the contracting officer should return computer software or computer software documentation bearing nonconforming markings to the person who has placed the nonconforming markings on the software or documentation to provide that person an opportunity to correct or strike the nonconforming markings at that person's expense. If that person fails to correct the nonconformity and return the corrected software or documentation within 60 days following the person's receipt of the software or documentation, the contracting officer may correct or strike the nonconformity at that person's expense. When it is impracticable to return computer software or computer software documentation for correction, contracting officers may unilaterally correct any nonconforming markings at Government expense. Prior to correction, the software or documentation may be used in accordance with the proper restrictive marking.

(b) *Unjustified markings.*

(1) An unjustified marking is an authorized marking that does not depict accurately restrictions applicable to the Government's use, modification, reproduction, release, or disclosure of the marked computer software or computer software documentation. For example, a restricted rights legend placed on computer software developed under a Government contract either exclusively at Government expense or with mixed funding (situations under which the Government obtains unlimited or government purpose rights) is an unjustified marking.

(2) Contracting officers have the right to review and challenge the validity of unjustified markings. However, at any time during performance of a contract and notwithstanding existence of a challenge, the contracting officer and the person who has asserted a restrictive marking may agree that the restrictive marking is not justified. Upon such agreement, the contracting officer may, at his or her election, either—

(i) Strike or correct the unjustified marking at that person's expense; or

(ii) Return the computer software or computer software documentation to the person asserting the restriction for correction at that person's expense. If the software or documentation are returned and that person fails to correct or strike the unjustified restriction and return the corrected software or documentation to the contracting officer within 60 days following receipt of the software or documentation, the unjustified marking shall be corrected or stricken at that person's expense.

227.7203-13 Government right to review, verify, challenge and validate asserted restrictions.

(a) *General.* An offeror's or contractor's assertion(s) of restrictions on the Government's rights to use, modify, reproduce, release, or disclose computer software or computer software documentation do not, by themselves, determine the extent of the Government's rights in such software or documentation. The Government may require an offeror or contractor to submit sufficient information to permit an evaluation of a particular asserted restriction and may challenge asserted restrictions when there are reasonable grounds to believe that an assertion is not valid.

(b) *Requests for information.* Contracting officers should have a reason to suspect that an asserted restriction might not be correct prior to requesting information. When requesting information, provide the offeror or contractor the reason(s) for suspecting that an asserted restriction might not be correct. A need for additional license rights is not, by itself, a sufficient basis for requesting information concerning an asserted restriction. Follow the procedures at [227.7203-5\(d\)](#) when additional license rights are needed but there is no basis to suspect that an asserted restriction might not be valid.

(c) *Transacting matters directly with subcontractors.* The clause at [252.227-7019](#), Validation of Asserted Restrictions--Computer Software, obtains the contractor's agreement that the Government may transact matters under the clause directly with a subcontractor or supplier, at any tier, without creating or implying privity of contract. Contracting officers should permit a subcontractor or supplier to transact challenge and validation matters directly with the Government when—

(1) A subcontractor's or supplier's business interests in its technical data would be compromised if the data were disclosed to a higher tier contractor;

(2) There is reason to believe that the contractor will not respond in a timely manner to a challenge and an untimely response would jeopardize a subcontractor's or supplier's right to assert restrictions; or

(3) Requested to do so by a subcontractor or supplier.

(d) *Major systems.* When the contracting officer challenges an asserted restriction regarding noncommercial computer software for a major system or a subsystem or component thereof on the basis that the computer software was not developed exclusively at private expense, the contracting officer shall sustain the challenge unless information provided by the contractor or subcontractor demonstrates that the computer software was developed exclusively at private expense.

(e) *Challenging asserted restrictions.*

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

(1) *Pre-award considerations.* The challenge procedures in the clause at 252.227-7019 could significantly delay competitive procurements. Therefore, avoid challenging asserted restrictions prior to a competitive contract award unless resolution of the assertion is essential for successful completion of the procurement.

(2) *Computer software documentation.* Computer software documentation is technical data. Challenges to asserted restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software documentation must be made in accordance with the clause at [252.227-7037](#), Validation of Restrictive Markings on Technical Data, and the guidance at [227.7103-13](#). The procedures in the clause at [252.227-7037](#) implement requirements contained in 10 U.S.C. 2321. Resolution of questions regarding the validity of asserted restrictions using the process described at [227.7103-12\(b\)\(2\)](#) is strongly encouraged.

(3) Computer software.

(i) Asserted restrictions should be reviewed before acceptance of the computer software deliverable under a contract. The Government's right to challenge an assertion expires three years after final payment under the contract or three years after delivery of the software, whichever is later. Those limitations on the Government's challenge rights do not apply to software that is publicly available, has been furnished to the Government without restrictions, or has been otherwise made available without restrictions.

(ii) Contracting officers must have reasonable grounds to challenge the current validity of an asserted restriction. Before challenging an asserted restriction, carefully consider all available information pertaining to the asserted restrictions. Resolution of questions regarding the validity of asserted restrictions using the process described at [227.7203-12\(b\)\(2\)](#) is strongly encouraged. After consideration of the situations described in paragraph (c) of this subsection, contracting officers may request the person asserting a restriction to furnish a written explanation of the facts and supporting documentation for the assertion in sufficient detail to enable the contracting officer to determine the validity of the assertion. Additional supporting documentation may be requested when the explanation provided by that person does not, in the contracting officer's opinion, establish the validity of the assertion.

(iii) Assertions may be challenged whether or not supporting documentation was requested. Challenges must be in writing and issued to the person asserting the restriction.

(4) Extension of response time. The contracting officer, at his or her discretion, may extend the time for response contained in a challenge, as appropriate, if the contractor submits a timely written request showing the need for additional time to prepare a response.

(f) *Validating or denying asserted restrictions.*

(1) Contracting officers must promptly issue a final decision denying or sustaining the validity of each challenged assertion unless the parties have agreed on the disposition of the assertion. When a final decision denying the validity of an asserted restriction is made following a timely response to a challenge, the Government is obligated to continue to respect the asserted restrictions through final disposition of

any appeal unless the agency head notifies the person asserting the restriction that urgent or compelling circumstances do not permit the Government to continue to respect the asserted restriction. See [252.227-7019\(g\)](#) for restrictions applicable following a determination of urgent and compelling circumstances.

(2) Only a contracting officer's final decision, or actions of an agency Board of Contract Appeals or a court of competent jurisdiction, that sustain the validity of an asserted restriction constitute validation of the restriction.

(g) *Multiple challenges to an asserted restriction.* When more than one contracting officer challenges an asserted restriction, the contracting officer who made the earliest challenge is responsible for coordinating the Government challenges. That contracting officer shall consult with all other contracting officers making challenges, verify that all challenges apply to the same asserted restriction and, after consulting with the contractor, subcontractor, or supplier asserting the restriction, issue a schedule that provides that person a reasonable opportunity to respond to each challenge.

227.7203-14 Conformity, acceptance, and warranty of computer software and computer software documentation.

(a) *Computer software documentation.* Computer software documentation is technical data. See [227.7103-14](#) for appropriate guidance and statutory requirements.

(b) *Computer software.*

(1) Conformity and acceptance. Solicitations and contracts requiring the delivery of computer software shall specify the requirements the software must satisfy to be acceptable. Contracting officers, or their authorized representatives, are responsible for determining whether computer software tendered for acceptance conforms to the contractual requirements. Except for nonconforming restrictive markings (follow the procedures at [227.7203-12\(a\)](#) if nonconforming markings are the sole reason computer software tendered for acceptance fails to conform to contractual requirements), do not accept software that does not conform in all respects to applicable contractual requirements. Correction or replacement of nonconforming software, or an equitable reduction in contract price when correction or replacement of the nonconforming data is not practicable or is not in the Government's interests, shall be accomplished in accordance with—

(i) The provisions of a contract clause providing for inspection and acceptance of deliverables and remedies for nonconforming deliverables; or

(ii) The procedures at FAR 46.407(c) through (g), if the contract does not contain an inspection clause providing remedies for nonconforming deliverables.

(2) Warranties.

(i) *Weapon systems.* Computer software that is a component of a weapon system or major subsystem should be warranted as part of the weapon system warranty. Follow the procedures at [246.7](#).

(ii) *Non-weapon systems.* Approval of the chief of the contracting office must be obtained to use a computer software warranty other than a weapon system

warranty. Consider the factors at FAR 46.703 in deciding whether to obtain a computer software warranty. When approval for a warranty has been obtained, the clause at [252.246-7001](#), Warranty of Data, and its alternates, may be appropriately modified for use with computer software or a procurement specific clause may be developed.

227.7203-15 Subcontractor rights in computer software or computer software documentation.

(a) Subcontractors and suppliers at all tiers should be provided the same protection for their rights in computer software or computer software documentation as are provided to prime contractors.

(b) The clauses at [252.227-7019](#), Validation of Asserted Restrictions--Computer Software, and [252.227-7037](#), Validation of Restrictive Markings on Technical Data, obtain a contractor's agreement that the Government's transaction of validation or challenge matters directly with subcontractors at any tier does not establish or imply privity of contract. When a subcontractor or supplier exercises its right to transact validation matters directly with the Government, contracting officers shall deal directly with such persons, as provided at [227.7203-13\(c\)](#) for computer software and [227.7103-13\(c\)\(3\)](#) for computer software documentation (technical data).

(c) Require prime contractors whose contracts include the following clauses to include those clauses, without modification except for appropriate identification of the parties, in contracts with subcontractors or suppliers who will be furnishing computer software in response to a Government requirement (see [227.7103-15\(c\)](#) for clauses required when subcontractors or suppliers will be furnishing computer software documentation (technical data)):

(1) [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation;

(2) [252.227-7019](#), Validation of Asserted Restrictions--Computer Software;

(3) [252.227-7025](#), Limitations on the Use or Disclosure of Government Furnished Information Marked with Restrictive Legends; and

(4) [252.227-7028](#), Technical Data or Computer Software Previously Delivered to the Government.

(d) Do not require contractors to have their subcontractors or suppliers at any tier relinquish rights in technical data to the contractor, a higher tier subcontractor, or to the Government, as a condition for award of any contract, subcontract, purchase order, or similar instrument except for the rights obtained by the Government under the provisions of the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause contained in the contractor's contract with the Government.

227.7203-16 Providing computer software or computer software documentation to foreign governments, foreign contractors, or international organizations.

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

Computer software or computer software documentation may be released or disclosed to foreign governments, foreign contractors, or international organizations only if release or disclosure is otherwise permitted both by Federal export controls and other national security laws or regulations. Subject to such laws and regulations, the Department of Defense—

(a) May release or disclose computer software or computer software documentation in which it has obtained unlimited rights to such foreign entities or authorize the use of such data by those entities; and

(b) Shall not release or disclose computer software or computer software documentation for which restrictions on use, release, or disclosure have been asserted to such foreign entities or authorize the use of such data by those entities, unless the intended recipient is subject to the same provisions as included in the use and non-disclosure agreement at [227.7103-7](#) and the requirements of the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, governing use, modification, reproduction, release, performance, display, or disclosure of such data have been satisfied.

227.7203-17 Overseas contracts with foreign sources.

(a) The clause at [252.227-7032](#), Rights in Technical Data and Computer Software (Foreign), may be used in contracts with foreign contractors to be performed overseas, except Canadian purchases (see paragraph (c) of this subsection) in lieu of the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, when the Government requires the unrestricted right to use, modify, reproduce, release, perform, display, or disclose all computer software or computer software documentation to be delivered under the contract. Do not use the clause in contracts for special works.

(b) When the Government does not require unlimited rights, the clause at [252.227-7032](#) may be modified to accommodate the needs of a specific overseas procurement situation. The Government should obtain rights to the computer software or computer software documentation that are not less than the rights the Government would have obtained under the software rights clause(s) prescribed in this part for a comparable procurement performed within the United States or its outlying areas.

(c) Contracts for Canadian purchases shall include the appropriate software rights clause prescribed in this part for a comparable procurement performed within the United States or its outlying areas.

227.7204 Contracts under the Small Business Innovation Research Program. When contracting under the Small Business Innovation Research Program, follow the procedures at [227.7104](#).

227.7205 Contracts for special works.

(a) Use the clause at [252.227-7020](#), Rights in Special Works, in solicitations and contracts where the Government has a specific need to control the distribution of computer software or computer software documentation first produced, created, or generated in the performance of a contract and required to be delivered under that contract, including controlling distribution by obtaining an assignment of copyright, or a specific need to obtain indemnity for liabilities that may arise out of the creation, delivery, use, modification, reproduction, release, performance, display, or disclosure of such software or documentation. Use the clause—

(1) In lieu of the clause at [252.227-7014](#), Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, when the Government must own or control copyright in all computer software or computer software documentation first produced, created, or generated and required to be delivered under a contract; or

(2) In addition to the clause at [252.227-7014](#) when the Government must own or control copyright in some of the computer software or computer software documentation first produced, created, or generated and required to be delivered under a contract. The specific software or documentation in which the Government must own or control copyright must be identified in a special contract requirement.

(b) Although the Government obtains an assignment of copyright and unlimited rights in the computer software or computer software documentation delivered as a special work under the clause at [252.227-7020](#), the contractor retains use and disclosure rights in that software or documentation. If the Government needs to restrict a contractor's rights to use or disclose a special work, it must also negotiate a special license which specifically restricts the contractor's use or disclosure rights.

(c) The clause at [252.227-7020](#) does not permit a contractor to incorporate into a special work any work copyrighted by others unless the contractor obtains the contracting officer's permission to do so and obtains for the Government a non-exclusive, paid up, world-wide license to make and distribute copies of that work, to prepare derivative works, to perform or display any portion of that work, and to permit others to do so for government purposes. Grant permission only when the Government's requirements cannot be satisfied unless the third party work is included in the deliverable work.

(d) Examples of other works which may be procured under the clause at [252.227-7020](#) include, but are not limited to, audiovisual works, scripts, soundtracks, musical compositions, and adaptations; histories of departments, agencies, services or units thereof; surveys of Government establishments; instructional works or guidance to Government officers and employees on the discharge of their official duties; reports, books, studies, surveys or similar documents; collections of data containing information pertaining to individuals that, if disclosed, would violate the right of privacy or publicity of the individuals to whom the information relates; or investigative reports.

227.7206 Contracts for architect-engineer services.

Follow [227.7107](#) when contracting for architect-engineer services.

227.7207 Contractor data repositories.

Defense Federal Acquisition Regulation Supplement

Part 227—Patents, Data, and Copyrights

Follow [227.7108](#) when it is in the Government's interests to have a data repository include computer software or to have a separate computer software repository. Contractual instruments establishing the repository requirements must appropriately reflect the repository manager's software responsibilities.

SUBPART 231.2—CONTRACTS WITH COMMERCIAL ORGANIZATIONS
(Revised December 6, 2013)

231.205 Selected costs.

231.205-1 Public relations and advertising costs.

(e) See [225.7303-2\(e\)](#) for allowability provisions affecting foreign military sales contracts.

(f) Unallowable public relations and advertising costs include the following:

(1) Monies paid to the Government associated with the leasing of Government equipment, including lease payments and reimbursements for support services, except for foreign military sales contracts as provided for at [225.7303-2](#).

231.205-6 Compensation for personal services.

(f)(1) In accordance with Section 8122 of Pub. L. 104-61, and similar sections in subsequent Defense appropriations acts, costs for bonuses or other payments in excess of the normal salary paid by the contractor to an employee, that are part of restructuring costs associated with a business combination, are unallowable under DoD contracts funded by fiscal year 1996 or subsequent appropriations. This limitation does not apply to severance payments or early retirement incentive payments. (See [231.205-70\(b\)](#) for the definitions of “business combination” and “restructuring costs.”)

(m)(1) Fringe benefit costs that are contrary to law, employer-employee agreement, or an established policy of the contractor are unallowable.

231.205-18 Independent research and development and bid and proposal costs.

(a) *Definitions.* As used in this subsection—

(i) “Covered contract” means a DoD prime contract for an amount exceeding the simplified acquisition threshold, except for a fixed-price contract without cost incentives. The term also includes a subcontract for an amount exceeding the simplified acquisition threshold, except for a fixed-price subcontract without cost incentives under such a prime contract.

(ii) “Covered segment” means a product division of the contractor that allocated more than \$1,100,000 in independent research and development and bid and proposal (IR&D/B&P) costs to covered contracts during the preceding fiscal year. In the case of a contractor that has no product divisions, the term means that contractor as a whole. A product division of the contractor that allocated less than \$1,100,000 in IR&D/B&P costs to covered contracts during the preceding fiscal year is not subject to the limitations in paragraph (c) of this subsection.

(iii) “Major contractor” means any contractor whose covered segments allocated a total of more than \$11,000,000 in IR&D/B&P costs to covered contracts during the

Defense Federal Acquisition Regulation Supplement

Part 231—Contract Cost Principles and Procedures

preceding fiscal year. For purposes of calculating the dollar threshold amounts to determine whether a contractor meets the definition of “major contractor,” do not include contractor segments allocating less than \$1,100,000 of IR&D/B&P costs to covered contracts during the preceding fiscal year.

(c) *Allowability.*

(i) Departments/agencies shall not supplement this regulation in any way that limits IR&D/B&P cost allowability.

(ii) See [225.7303-2\(c\)](#) for allowability provisions affecting foreign military sale contracts.

(iii) For major contractors, the following limitations apply:

(A) The amount of IR&D/B&P costs allowable under DoD contracts shall not exceed the lesser of—

(1) Such contracts’ allocable share of total incurred IR&D/B&P costs; or

(2) The amount of incurred IR&D/B&P costs for projects having potential interest to DoD.

(B) Allowable IR&D/B&P costs are limited to those for projects that are of potential interest to DoD, including activities intended to accomplish any of the following:

(1) Enable superior performance of future U.S. weapon systems and components.

(2) Reduce acquisition costs and life-cycle costs of military systems.

(3) Strengthen the defense industrial and technology base of the United States.

(4) Enhance the industrial competitiveness of the United States.

(5) Promote the development of technologies identified as critical under 10 U.S.C. 2522.

(6) Increase the development and promotion of efficient and effective applications of dual-use technologies.

(7) Provide efficient and effective technologies for achieving such environmental benefits as: improved environmental data gathering, environmental cleanup and restoration, pollution reduction in manufacturing, environmental conservation, and environmentally safe management of facilities.

(C) For a contractor's annual IR&D costs to be allowable, the IR&D projects generating the costs must be reported to the Defense Technical Information Center (DTIC) using the DTIC's on-line input form and instructions at <http://www.dtic.mil/ird/dticdb/index.html>. The inputs must be updated at least

annually and when the project is completed. Copies of the input and updates must be made available for review by the cognizant administrative contracting officer (ACO) and the cognizant Defense Contract Audit Agency auditor to support the allowability of the costs. Contractors that do not meet the threshold as a major contractor are encouraged to use the DTIC on-line input form to report IR&D projects to provide DoD with visibility into the technical content of the contractors' IR&D activities.

(iv) For major contractors, the ACO or corporate ACO shall—

(A) Determine whether IR&D/B&P projects are of potential interest to DoD;
and

(B) Provide the results of the determination to the contractor.

(v) The cognizant contract administration office shall furnish contractors with guidance on financial information needed to support IR&D/B&P costs and on technical information needed from major contractors to support the potential interest to DoD determination (also see [242.771-3\(a\)](#)).

231.205-19 Insurance and indemnification.

(e) In addition to the cost limitations in FAR 31.205-19(e), self-insurance and purchased insurance costs are subject to the requirements of the clauses at [252.217-7012](#), Liability and Insurance, and [252.228-7001](#), Ground and Flight Risk.

231.205-22 Legislative lobbying costs.

(a) Costs associated with preparing any material, report, list, or analysis on the actual or projected economic or employment impact in a particular State or congressional district of an acquisition program for which all research, development, testing, and evaluation has not been completed also are unallowable (10 U.S.C. 2249).

231.205-70 External restructuring costs.

(a) *Scope.* This subsection—

(1) Prescribes policies and procedures for allowing contractor external restructuring costs when savings would result for DoD; and

(2) Implements 10 U.S.C. 2325.

(b) *Definitions.* As used in this subsection:

(1) “Business combination” means a transaction whereby assets or operations of two or more companies not previously under common ownership or control are combined, whether by merger, acquisition, or sale/purchase of assets.

(2) “External restructuring activities” means restructuring activities occurring after a business combination that affect the operations of companies not previously under common ownership or control. They do not include restructuring activities occurring after a business combination that affect the operations of only one of the companies not previously under common ownership or control, or, when there has been

Defense Federal Acquisition Regulation Supplement

Part 231—Contract Cost Principles and Procedures

no business combination, restructuring activities undertaken within one company. External restructuring activities are a direct outgrowth of a business combination. They normally will be initiated within 3 years of the business combination.

(3) “Restructuring activities” means nonroutine, nonrecurring, or extraordinary activities to combine facilities, operations, or workforce, in order to eliminate redundant capabilities, improve future operations, and reduce overall costs. Restructuring activities do not include routine or ongoing repositionings and redeployments of a contractor’s productive facilities or workforce (e.g., normal plant rearrangement or employee relocation), nor do they include other routine or ordinary activities charged as indirect costs that would otherwise have been incurred (e.g., planning and analysis, contract administration and oversight, or recurring financial and administrative support).

(4) “Restructuring costs” means the costs, including both direct and indirect, of restructuring activities. Restructuring costs that may be allowed include, but are not limited to, severance pay for employees, early retirement incentive payments for employees, employee retraining costs, relocation expense for retained employees, and relocation and rearrangement of plant and equipment. For purposes of this definition, if restructuring costs associated with external restructuring activities allocated to DoD contracts are less than \$2.5 million, the costs shall not be subject to the audit, review, and determination requirements of paragraph (c)(4) of this subsection; instead, the normal rules for determining cost allowability in accordance with FAR Part 31 shall apply.

(5) “Restructuring savings” means cost reductions, including both direct and indirect cost reductions, that result from restructuring activities. Reassignments of cost to future periods are not restructuring savings.

(c) *Limitations on cost allowability.* Restructuring costs associated with external restructuring activities shall not be allowed unless—

(1) Such costs are allowable in accordance with FAR Part 31 and DFARS Part 231;

(2) An audit of projected restructuring costs and restructuring savings is performed;

(3) The cognizant administrative contracting officer (ACO) reviews the audit report and the projected costs and projected savings, and negotiates an advance agreement in accordance with paragraph (d) of this subsection; and

(4)(i) The official designated in paragraph (c)(4)(ii) of this subsection determines in writing that the audited projected savings, on a present value basis, for DoD resulting from the restructuring will exceed either—

(A) The costs allowed by a factor of at least two to one; or

(B) The costs allowed, and the business combination will result in the preservation of a critical capability that might otherwise be lost to DoD.

Defense Federal Acquisition Regulation Supplement

Part 231—Contract Cost Principles and Procedures

(ii)(A) If the amount of restructuring costs is expected to exceed \$25 million over a 5-year period, the designated official is the Under Secretary of Defense (Acquisition, Technology, and Logistics) or the Principal Deputy. This authority may not be delegated below the level of an Assistant Secretary of Defense.

(B) For all other cases, the designated official is the Director of the Defense Contract Management Agency. The Director may not delegate this authority.

(d) *Procedures and ACO responsibilities.* As soon as it is known that the contractor will incur restructuring costs for external restructuring activities, the cognizant ACO shall follow the procedures at [PGI 231.205-70\(d\)](#).

(e) *Information needed to obtain a determination.*

(1) The novation agreement (if one is required).

(2) The contractor's restructuring proposal.

(3) The proposed advance agreement.

(4) The audit report.

(5) Any other pertinent information.

(6) The cognizant ACO's recommendation for a determination. This recommendation must clearly indicate one of the following, consistent with paragraph (c)(4)(i) of this subsection:

(i) The audited projected savings for DoD will exceed the costs allowed by a factor of at least two to one on a present value basis.

(ii) The business combination will result in the preservation of a critical capability that might otherwise be lost to DoD, and the audited projected savings for DoD will exceed the costs allowed on a present value basis.

(f) *Contracting officer responsibilities.*

(1) The contracting officer, in consultation with the cognizant ACO, should consider including a repricing clause in noncompetitive fixed-price contracts that are negotiated during the period between—

(i) The time a business combination is announced; and

(ii) The time the contractor's forward pricing rates are adjusted to reflect the impact of restructuring.

(2) The decision to use a repricing clause will depend upon the particular circumstances involved, including—

(i) When the restructuring will take place;

(ii) When restructuring savings will begin to be realized;

Defense Federal Acquisition Regulation Supplement

Part 231—Contract Cost Principles and Procedures

- (iii) The contract performance period;
 - (iv) Whether the contracting parties are able to make a reasonable estimate of the impact of restructuring on the contract; and
 - (v) The size of the potential dollar impact of restructuring on the contract.
- (3) If the contracting officer decides to use a repricing clause, the clause must provide for a downward-only price adjustment to ensure that DoD receives its appropriate share of restructuring net savings.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(Revised December 6, 2013)

252.225-7000 Buy American Statute—Balance of Payments Program Certificate.

As prescribed in [225.1101](#)(1)(i), use the following provision:

BUY AMERICAN STATUTE—BALANCE OF PAYMENTS PROGRAM CERTIFICATE (JUN 2012)

(a) *Definitions.* “Commercially available off-the-shelf (COTS) item,” “component,” “domestic end product,” “foreign end product,” “qualifying country,” “qualifying country end product,” and “United States” have the meanings given in the Buy American Act and Balance of Payments Program clause of this solicitation.

(b) *Evaluation.* The Government—

(1) Will evaluate offers in accordance with the policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) Will evaluate offers of qualifying country end products without regard to the restrictions of the Buy American statute or the Balance of Payments Program.

(c) *Certifications and identification of country of origin.*

(1) For all line items subject to the Buy American and Balance of Payments Program clause of this solicitation, the offeror certifies that—

(i) Each end product, except those listed in paragraphs (c)(2) or (3) of this provision, is a domestic end product; and

(ii) For end products other than COTS items, components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The offeror certifies that the following end products are qualifying country end products:

Line Item Number

Country of Origin

(3) The following end products are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products, i.e., an end product that is not a COTS item and does not meet the component test in paragraph (ii) of the definition of “domestic end product”:

ALTERNATE I (DEC 2010)

As prescribed in [225.1101](#)(1)(ii), add the terms “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” in paragraph (a) and replace the phrase “qualifying country end products” in paragraphs (b)(2) and (c)(2) with the phrase “qualifying country end products or SC/CASA state end products.”

252.225-7001 Buy American and Balance of Payments Program.

As prescribed in [225.1101](#)(2)(i), use the following clause:

BUY AMERICAN AND BALANCE OF PAYMENTS PROGRAM (DEC 2012)

(a) *Definitions.* As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(i) Means any item of supply (including construction material) that is—

(A) A commercial item (as defined in paragraph (1) of the definition of “commercial item” in section 2.101 of the Federal Acquisition Regulation);

(B) Sold in substantial quantities in the commercial marketplace; and

(C) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(ii) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Domestic end product” means—

(i) An unmanufactured end product that has been mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Finland
France
Germany
Greece
Israel
Italy
Luxembourg
Netherlands
Norway
Poland
Portugal
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

“Qualifying country end product” means—

(i) An unmanufactured end product mined or produced in a qualifying country; or

(ii) An end product manufactured in a qualifying country if —

(A) The cost of the following types of components exceeds 50 percent of the cost of all its components:

(1) Components mined, produced, or manufactured in a qualifying country.

(2) Components mined, produced, or manufactured in the United States.

(3) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(B) The end product is a COTS item.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) This clause implements 41 U.S.C chapter 83, Buy American. In accordance with 41 U.S.C. 1907, the component test of the Buy American statute is waived for an end product that is a COTS item (see section 12.505(a)(1) of the Federal Acquisition Regulation). Unless otherwise specified, this clause applies to all line items in the contract.

(c) The Contractor shall deliver only domestic end products unless, in its offer, it specified delivery of other end products in the Buy American—Balance of Payments Program Certificate provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, the Contractor shall deliver a qualifying country end product or, at the Contractor’s option, a domestic end product.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States, an outlying area, or a qualifying country, that are not covered by one of the other exceptions in this paragraph (c)), if the total weight of such noncompliant metals does not exceed 2 percent of the total weight of all specialty metals in the end item, as estimated in good faith by the Contractor. This exception does not apply to high performance magnets containing specialty metals.

(A) An amount equivalent to 120 percent of the amount of specialty metal that is required to carry out the production of the commercial derivative military article (including the work performed under each subcontract); or

(B) An amount equivalent to 50 percent of the amount of specialty metal that will be purchased by the Contractor and its subcontractors for use during such period in the production of the commercial derivative military article and the related commercial article.

(2) For the purposes of this alternative, the amount of specialty metal that is required to carry out production of the commercial derivative military article includes specialty metal contained in any item, including COTS items.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause in subcontracts, including subcontracts for commercial items, that are for items containing specialty metals, to the extent necessary to ensure compliance of the end products that the Contractor will deliver to the Government. When inserting the substance of this clause in subcontracts, the Contractor shall—

(1) Modify paragraph (c)(6) of this clause as necessary to facilitate management of the minimal content exception;

(2) Exclude paragraph (d) of this clause; and

(3) Include this paragraph (e).
