Army, the Secretary of the Navy, and the Secretary of the Air Force. Subject to the direction of the Secretary of Defense, the Under Secretary of Defense (Acquisition, Technology, and Logistics), and the Director of Defense Procurement and Acquisition Policy, the directors of the defense agencies have been delegated authority to act as head of the agency for their respective agencies (i.e., to perform functions under the FAR or DFARS reserved to a head of agency or agency head), except for such actions that by terms of statute, or any delegation, must be exercised within the Office of the Secretary of Defense. “Tiered evaluation of offers,” also known as “cascading evaluation of offers,” means a procedure used in negotiated acquisitions, when market research is inconclusive for justifying limiting competition to small business concerns, whereby the contracting officer—

- (1) Solicits and receives offers from both small and other than small business concerns;
- (2) Establishes a tiered or cascading order of precedence for evaluating offers that is specified in the solicitation; and
- (3) If no award can be made at the first tier, evaluates offers at the next lower tier, until award can be made.

**SUBPART 207.1—ACQUISITION PLANS**

*(Revised January 29, 2014)*

**207.102 Policy.**

(a)(1) See [212.102](#) regarding requirements for a written determination that the commercial item definition has been met when using FAR Part 12 procedures.

**207.103 Agency-head responsibilities.**

(d)(i) Prepare written acquisition plans for—

(A) Acquisitions for development, as defined in FAR 35.001, when the total cost of all contracts for the acquisition program is estimated at \$10 million or more;

(B) Acquisitions for production or services when the total cost of all contracts for the acquisition program is estimated at \$50 million or more for all years or \$25 million or more for any fiscal year; and

(C) Any other acquisition considered appropriate by the department or agency.

(ii) Written plans are not required in acquisitions for a final buy out or one-time buy. The terms "final buy out" and "one-time buy" refer to a single contract that covers all known present and future requirements. This exception does not apply to a multiyear contract or a contract with options or phases.

(e) Prepare written acquisition plans for acquisition programs meeting the thresholds of paragraphs (d)(i)(A) and (B) of this section on a program basis. Other acquisition plans may be written on either a program or an individual contract basis.

(g) The program manager, or other official responsible for the program, has overall responsibility for acquisition planning.

(h) For procurement of conventional ammunition, as defined in DoDD 5160.65, Single Manager for Conventional Ammunition (SMCA), the SMCA will review the acquisition plan to determine if it is consistent with retaining national technology and industrial base capabilities in accordance with 10 U.S.C. 2304(c)(3) and Section 806 of Pub. L. 105-261. The department or agency--

(i) Shall submit the acquisition plan to the address in [PGI 207.103\(h\)](#); and

(ii) Shall not proceed with the procurement until the SMCA provides written concurrence with the acquisition plan. In the case of a non-concurrence, the SMCA will resolve issues with the Army Office of the Executive Director for Conventional Ammunition.

**207.104 General procedures.**

In developing an acquisition plan, agency officials shall take into account the requirement for scheduling and conducting a Peer Review in accordance with [201.170](#).

**207.105 Contents of written acquisition plans.**

In addition to the requirements of FAR 7.105, planners shall follow the procedures at [PGI 207.105](#).

**207.106 Additional requirements for major systems.**

(b)(1)(A) The contracting officer is prohibited by 10 U.S.C. 2305(d)(4)(A) from requiring offers for development or production of major systems that would enable the Government to use technical data to competitively reprocure identical items or components of the system if the item or component were developed exclusively at private expense, unless the contracting officer determines that—

- (1) The original supplier of the item or component will be unable to satisfy program schedule or delivery requirements;
- (2) Proposals by the original supplier of the item or component to meet mobilization requirements are insufficient to meet the agency's mobilization needs; or
- (3) The Government is otherwise entitled to unlimited rights in technical data.

(B) If the contracting officer makes a determination, under paragraphs (b)(1)(A)(1) and (2) of this section, for a competitive solicitation, 10 U.S.C. 2305(d)(4)(B) requires that the evaluation of items developed at private expense be based on an analysis of the total value, in terms of innovative design, life-cycle costs, and other pertinent factors, of incorporating such items in the system.

(S-70)(1) In accordance with Section 802(a) of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364) and DoD policy requirements, acquisition plans for major weapon systems and subsystems of major weapon systems shall—

- (i) Assess the long-term technical data and computer software needs of those systems and subsystems; and
- (ii) Establish acquisition strategies that provide for the technical data deliverables and associated license rights needed to sustain those systems and subsystems over their life cycle. The strategy may include—
  - (A) The development of maintenance capabilities within DoD; or
  - (B) Competition for contracts for sustainment of the systems or subsystems.

(2) Assessments and corresponding acquisition strategies developed under this section shall—

- (i) Be developed before issuance of a solicitation for the weapon system or subsystem;
- (ii) Address the merits of including a priced contract option for the future delivery of technical data and computer software, and associated license rights, that were not acquired upon initial contract award;

### Part 207—Acquisition Planning

---

(iii) Address the potential for changes in the sustainment plan over the life cycle of the weapon system or subsystem; and

(iv) Apply to weapon systems and subsystems that are to be supported by performance-based logistics arrangements as well as to weapon systems and subsystems that are to be supported by other sustainment approaches.

(S-71) See [209.570](#) for policy applicable to acquisition strategies that consider the use of lead system integrators.

(S-72)(1) In accordance with section 202 of the Weapon Systems Acquisition Reform Act of 2009 (Pub. L. 111-23), acquisition plans for major defense acquisition programs as defined in 10 U.S.C. 2430, shall include measures that—

(i) Ensure competition, or the option of competition, at both the prime contract level and subcontract level (at such tier or tiers as are appropriate) throughout the program life cycle as a means to improve contractor performance; and

(ii) Document the rationale for the selection of the appropriate subcontract tier or tiers under paragraph (S-72)(1)(i) of this section, and the measures which will be employed to ensure competition, or the option of competition.

(2) Measures to ensure competition, or the option of competition, may include, but are not limited to, cost-effective measures intended to achieve the following:

- (i) Competitive prototyping.
- (ii) Dual-sourcing.
- (iii) Unbundling of contracts.
- (iv) Funding of next-generation prototype systems or subsystems.
- (v) Use of modular, open architectures to enable competition for upgrades.
- (vi) Use of build-to-print approaches to enable production through multiple sources.
- (vii) Acquisition of complete technical data packages.
- (viii) Periodic competitions for subsystem upgrades.
- (ix) Licensing of additional suppliers.
- (x) Periodic system or program reviews to address long-term competitive effects of program decisions.

(3) In order to ensure fair and objective “make-or-buy” decisions by prime contractors, acquisition strategies and resultant solicitations and contracts shall—

(i) Require prime contractors to give full and fair consideration to qualified sources other than the prime contractor for the development or construction of major subsystems and components of major weapon systems;

(ii) Provide for Government surveillance of the process by which prime contractors consider such sources and determine whether to conduct such development or construction in-house or through a subcontract; and

(iii) Provide for the assessment of the extent to which the prime contractor has given full and fair consideration to qualified sources in sourcing decisions as a part of past performance evaluations.

(4) Whenever a source-of-repair decision results in a plan to award a contract for the performance of maintenance and sustainment services on a major weapon system, to the maximum extent practicable and consistent with statutory requirements, the acquisition plan shall prescribe that award will be made on a competitive basis after giving full consideration to all sources (including sources that partner or subcontract with public or private sector repair activities).

(S-73) In accordance with section 815 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417) and DoD policy requirements, acquisition plans for major weapons systems shall include a plan for the preservation and storage of special tooling associated with the production of hardware for major defense acquisition programs through the end of the service life of the related weapons system. The plan shall include the identification of any contract clauses, facilities, and funding required for the preservation and storage of such tooling. The Undersecretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) may waive this requirement if USD(AT&L) determines that it is in the best interest of DoD.

(S-74) When selecting contract type, see 234.004 (section 811 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239)).

#### **207.170 Consolidation of contract requirements.**

##### **207.170-1 Scope.**

This section implements 10 U.S.C. 2382.

##### **207.170-2 Definitions.**

As used in this section—

“Consolidation of contract requirements” means the use of a solicitation to obtain offers for a single contract or a multiple award contract to satisfy two or more requirements of a department, agency, or activity for supplies or services that previously have been provided to, or performed for, that department, agency, or activity under two or more separate contracts.

“Multiple-award contract” means—

(1) A multiple-award schedule contract issued by the General Services Administration or Department of Veterans Affairs as described in FAR subpart 8.4;

(2) A multiple award task-order or delivery-order contract issued in accordance with FAR subpart 16.5; or

(3) Any other indefinite-delivery, indefinite-quantity contract that an agency enters into with two or more sources for the same line item under the same solicitation.

##### **207.170-3 Policy and procedures.**

(a) Agencies shall not consolidate contract requirements with an estimated total value exceeding \$6 million unless the acquisition strategy includes—

See DoD Class Deviation [2013-O0021](#), Contract Consolidation. This class deviation lowers the dollar threshold as set forth at DFARS 207.170-3(a) from \$6 million to \$2 million. This class deviation is effective until incorporated into the FAR and/or DFARS, or rescinded.

- (1) The results of market research;
- (2) Identification of any alternative contracting approaches that would involve a lesser degree of consolidation; and
- (3) A determination by the senior procurement executive that the consolidation is necessary and justified.

(i) Market research may indicate that consolidation of contract requirements is necessary and justified if the benefits of the acquisition strategy substantially exceed the benefits of each of the possible alternative contracting approaches. Benefits may include costs and, regardless of whether quantifiable in dollar amounts—

- (A) Quality;
- (B) Acquisition cycle;
- (C) Terms and conditions; and
- (D) Any other benefit.

(ii) Savings in administrative or personnel costs alone do not constitute a sufficient justification for a consolidation of contract requirements unless the total amount of the cost savings is expected to be substantial in relation to the total cost of the procurement.

(b) Include the determination made in accordance with paragraph (a)(3) of this section in the contract file.

#### **207.171 Component breakout.**

##### **207.171-1 Scope.**

(a) This section provides policy for breaking out components of end items for future acquisitions so that the Government can purchase the components directly from the manufacturer or supplier and furnish them to the end item manufacturer as Government-furnished material.

(b) This section does not apply to—

- (1) The initial decisions on Government-furnished equipment or contractor-furnished equipment that are made at the inception of an acquisition program; or
- (2) Breakout of parts for replenishment (see Appendix E).

##### **207.171-2 Definition.**

## Defense Federal Acquisition Regulation Supplement

### Part 207—Acquisition Planning

---

“Component,” as used in this section, includes subsystems, assemblies, subassemblies, and other major elements of an end item; it does not include elements of relatively small annual acquisition value.

#### **207.171-3 Policy.**

DoD policy is to break out components of weapons systems or other major end items under certain circumstances.

(a) When it is anticipated that a prime contract will be awarded without adequate price competition, and the prime contractor is expected to acquire any component without adequate price competition, the agency shall break out that component if—

- (1) Substantial net cost savings probably will be achieved; and
- (2) Breakout action will not jeopardize the quality, reliability, performance, or timely delivery of the end item.

(b) Even when either or both the prime contract and the component will be acquired with adequate price competition, the agency shall consider breakout of the component if substantial net cost savings will result from—

- (1) Greater quantity acquisitions; or
- (2) Such factors as improved logistics support (through reduction in varieties of spare parts) and economies in operations and training (through standardization of design).

(c) Breakout normally is not justified for a component that is not expected to exceed \$1 million for the current year's requirement.

#### **207.171-4 Procedures.**

Agencies shall follow the procedures at [PGI 207.171-4](#) for component breakout.

#### **207.172 Human research.**

Any DoD component sponsoring research involving human subjects—

(a) Is responsible for oversight of compliance with 32 CFR Part 219, Protection of Human Subjects; and

(b) Must have a Human Research Protection Official, as defined in the clause at [252.235-7004](#), Protection of Human Subjects, and identified in the DoD component's Human Research Protection Management Plan. This official is responsible for the oversight and execution of the requirements of the clause at [252.235-7004](#) and shall be identified in acquisition planning.

*(Revised January 29, 2014)*

**209.505 General rules.**

**209.505-4 Obtaining access to proprietary information.**

(b) For contractors accessing third party proprietary technical data or computer Software, non-disclosure requirements are addressed at [227.7103-7\(b\)](#), through use of the clause at [252.227-7025](#) as prescribed at [227.7103-6\(c\)](#) and [227.7203-6\(d\)](#). Pursuant to that clause, covered Government support contractors may be required to enter into non-disclosure agreements directly with the third party asserting restrictions on limited rights technical data, commercial technical data, or restricted rights computer software. The contracting officer is not required to obtain copies of these agreements or to ensure that they are properly executed.

**209.570 Limitations on contractors acting as lead system integrators.**

**209.570-1 Definitions.**

“Lead system integrator,” as used in this section, is defined in the clause at [252.209-7007](#), Prohibited Financial Interests for Lead System Integrators. See [PGI 209.570-1](#) for additional information.

**209.570-2 Policy.**

(a) Except as provided in paragraph (b) of this subsection, 10 U.S.C. 2410p prohibits any entity performing lead system integrator functions in the acquisition of a major system by DoD from having any direct financial interest in the development or construction of any individual system or element of any system of systems.

(b) The prohibition in paragraph (a) of this subsection does not apply if—

(1) The Secretary of Defense certifies to the Committees on Armed Services of the Senate and the House of Representatives that—

(i) The entity was selected by DoD as a contractor to develop or construct the system or element concerned through the use of competitive procedures; and

(ii) DoD took appropriate steps to prevent any organizational conflict of interest in the selection process; or

(2) The entity was selected by a subcontractor to serve as a lower-tier subcontractor, through a process over which the entity exercised no control.

(c) In accordance with Section 802 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181), DoD may award a new contract for lead system integrator functions in the acquisition of a major system only if—

(1) The major system has not yet proceeded beyond low-rate initial production;  
or

(2) The Secretary of Defense determines in writing that it would not be practicable to carry out the acquisition without continuing to use a contractor to perform lead system integrator functions and that doing so is in the best interest of DoD. The authority to make this determination may not be delegated below the level of the Under Secretary of Defense for Acquisition, Technology, and Logistics. (Also see [209.570-3\(b\)](#).)

(d) Effective October 1, 2010, DoD is prohibited from awarding a new contract for lead system integrator functions in the acquisition of a major system to any entity that was not performing lead system integrator functions in the acquisition of the major system prior to January 28, 2008.

#### **209.570-3 Procedures.**

(a) In making a responsibility determination before awarding a contract for the acquisition of a major system, the contracting officer shall—

(1) Determine whether the prospective contractor meets the definition of “lead system integrator”;

(2) Consider all information regarding the prospective contractor’s direct financial interests in view of the prohibition at [209.570-2\(a\)](#); and

(3) Follow the procedures at [PGI 209.570-3](#).

(b) A determination to use a contractor to perform lead system integrator functions in accordance with [209.570-2\(c\)\(2\)](#)—

(1) Shall specify the reasons why it would not be practicable to carry out the acquisition without continuing to use a contractor to perform lead system integrator functions, including a discussion of alternatives, such as use of the DoD workforce or a system engineering and technical assistance contractor;

(2) Shall include a plan for phasing out the use of contracted lead system integrator functions over the shortest period of time consistent with the interest of the national defense; and

(3) Shall be provided to the Committees on Armed Services of the Senate and the House of Representatives at least 45 days before the award of a contract pursuant to the determination.

#### **209.570-4 Solicitation provision and contract clause.**

(a) Use the provision at [252.209-7006](#), Limitations on Contractors Acting as Lead System Integrators, in solicitations for the acquisition of a major system when the acquisition strategy envisions the use of a lead system integrator.

(b) Use the clause at [252.209-7007](#), Prohibited Financial Interests for Lead System Integrators—

This subpart implements section 207 of the Weapons System Acquisition Reform Act of 2009 (Pub. L. 111-23).

##### **209.571-1 Definitions.**

As used in this section—

“Lead system integrator” is defined in the clause at [252.209-7007](#), Prohibited Financial Interests for Lead System Integrators.

“Major subcontractor” is defined in the clause at [252.209-7009](#), Organizational Conflict of Interest—Major Defense Acquisition Program.

“Pre-Major Defense Acquisition Program” means a program that is in the Materiel Solution Analysis or Technology Development Phases preceding Milestone B of the Defense Acquisition System and has been identified to have the potential to become a major defense acquisition program.

“Systems engineering and technical assistance.”

(1) “Systems engineering” means an interdisciplinary technical effort to evolve and verify an integrated and total life cycle balanced set of system, people, and process solutions that satisfy customer needs.

(2) “Technical assistance” means the acquisition support, program management support, analyses, and other activities involved in the management and execution of an acquisition program.

(3) “Systems engineering and technical assistance”—

(i) Means a combination of activities related to the development of technical information to support various acquisition processes. Examples of systems engineering and technical assistance activities include, but are not limited to, supporting acquisition efforts such as—

major defense acquisition programs from sources that are objective and unbiased; and

(b) Contracting officers generally should seek to resolve organizational conflicts of interest in a manner that will promote competition and preserve DoD access to the expertise and experience of qualified contractors. Accordingly, contracting officers should, to the extent feasible, employ organizational conflict of interest resolution strategies that do not unnecessarily restrict the pool of potential offerors in current or future acquisitions. Further, contracting activities shall not impose per se restrictions or limitations on the use of particular resolution methods, except as may be required under [209.571-7](#) or as may be appropriate in particular acquisitions.

#### **209.571-4 Mitigation.**

(a) Mitigation is any action taken to minimize an organizational conflict of interest. Mitigation may require Government action, contractor action, or a combination of both.

(b) If the contracting officer and the contractor have agreed to mitigation of an organizational conflict of interest, a Government-approved Organizational Conflict of Interest Mitigation Plan, reflecting the actions a contractor has agreed to take to mitigate a conflict, shall be incorporated into the contract.

(c) If the contracting officer determines, after consultation with agency legal counsel, that the otherwise successful offeror is unable to effectively mitigate an organizational conflict of interest, then the contracting officer, taking into account both the instant contract and longer term Government needs, shall use another approach to resolve the organizational conflict of interest, select another offeror, or request a waiver in accordance with FAR 9.503 (but see statutory prohibition in [209.571-7](#), which cannot be waived).

(d) For any acquisition that exceeds \$1 billion, the contracting officer shall brief the senior procurement executive before determining that an offeror's mitigation plan is unacceptable.

#### **209.571-5 Lead system integrators.**

For limitations on contractors acting as lead systems integrators, see [209.570](#).

(1) The prime contractor for the same major defense acquisition program; or

(2) The supplier of a major subsystem or component for the same major defense acquisition program.

(b) The proposed award of a major subsystem by a prime contractor to business units or other affiliates of the same parent corporate entity, particularly the award of a subcontract for software integration or the development of a proprietary software system architecture; and

(c) The performance by, or assistance of, contractors in technical evaluation.

#### **209.571-7 Systems engineering and technical assistance contracts.**

(a) Agencies shall obtain advice on systems architecture and systems engineering matters with respect to major defense acquisition programs or pre-major defense acquisition programs from Federally Funded Research and Development Centers or other sources independent of the major defense acquisition program contractor.

(b) *Limitation on Future Contracting.*

(1) Except as provided in paragraph (c) of this subsection, a contract for the performance of systems engineering and technical assistance for a major defense acquisition program or a pre-major defense acquisition program shall prohibit the contractor or any affiliate of the contractor from participating as a contractor or major subcontractor in the development or production of a weapon system under such program.

(Revised January 29, 2014)

#### **234.001 Definition.**

As used in this subpart—

“Acceptable earned value management system” and “earned value management system” are defined in the clause at [252.234-7002](#), Earned Value Management System.

“Production of major defense acquisition program” means the production and deployment of a major system that is intended to achieve an operational capability that satisfies mission needs, or an activity otherwise defined as Milestone C under Department of Defense Instruction 5000.02 or related authorities.

“Significant deficiency” is defined in the clause at [252.234-7002](#), Earned Value Management System, and is synonymous with “noncompliance.”

#### **234.003 Responsibilities.**

DoDD 5000.01, The Defense Acquisition System, and DoDI 5000.02, Operation of the Defense Acquisition System, contain the DoD implementation of OMB Circular A-109 and OMB Circular A-11.

#### **234.004 Acquisition strategy.**

(1) See [209.570](#) for policy applicable to acquisition strategies that consider the use of lead system integrators.

(2) *Contract type.*

(i) In accordance with section 818 of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364), for major defense acquisition programs at Milestone B—

(A) The Milestone Decision Authority shall select, with the advice of the contracting officer, the contract type for a development program at the time of Milestone B approval or, in the case of a space program, Key Decision Point B approval;

(B) The basis for the contract type selection shall be documented in the acquisition strategy. The documentation—

(1) Shall include an explanation of the level of program risk; and

(2) If program risk is determined to be high, shall outline the steps taken to reduce program risk and the reasons for proceeding with Milestone B approval despite the high level of program risk; and

(C) If a cost-type contract is selected, the contract file shall include the Milestone Decision Authority’s written determination that—

(1) The program is so complex and technically challenging that it would not be practicable to reduce program risk to a level that would permit the use of a fixed-price type contract; and

## Defense Federal Acquisition Regulation Supplement

### Part 234—Major System Acquisition

---

(2) The complexity and technical challenge of the program is not the result of a failure to meet the requirements of 10 U.S.C. 2366a.

(ii) In accordance with section 811 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239), for contracts entered into on or after October 1, 2014, the contracting officer shall—

(A) Not use cost-reimbursement line items for the acquisition of production of major defense acquisition programs, unless USD(AT&L) submits to the congressional defense committees—

(1) A written certification that the particular cost-reimbursement line items are needed to provide a required capability in a timely and cost effective manner; and

(2) An explanation of the steps taken to ensure that cost-reimbursement line items are used only when to achieve the purposes of the exception; and

(B) Include a copy of such congressional certification in the contract file.

#### **234.005 General requirements.**

##### **234.005-1 Competition.**

(1) A contract that is initially awarded from the competitive selection of a proposal resulting from a general solicitation may contain a contract line item or contract option for the provision of advanced component development or prototype of technology developed under the contract or the delivery of initial or additional prototype items if the item or a prototype thereof is created as the result of work performed under the contract only when it adheres to the following limitations:

(i) The contract line item or contract option shall be limited to the minimal amount of initial or additional prototype items that will allow for timely competitive solicitation and award of a follow-on development or production contract for those items.

(ii) The term of the contract line item or contract option shall be for not more than 12 months.

(iii) The dollar value of the work to be performed pursuant to the contract line item or contract option shall not exceed the lesser of—

The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been

mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(c) *Exceptions.* The restriction in paragraph (b) of this clause does not apply to—

- (1) Electronic components.
- (2)(i) Commercially available off-the-shelf (COTS) items, other than—
  - (A) Specialty metal mill products, such as bar, billet, slab, wire, plate, or sheet, that have not been incorporated into COTS end items, subsystems, assemblies, or components;
  - (B) Forgings or castings of specialty metals, unless the forgings or castings are incorporated into COTS end items, subsystems, or assemblies;
  - (C) Commercially available high performance magnets that contain specialty metal, unless such high performance magnets are incorporated into COTS end items or subsystems; and

  - (A) Specialty metals in a COTS item that was accepted without modification by the next higher tier are excepted from the restriction in paragraph (b) of this clause, and remain excepted, even if a piece of the COTS item subsequently is removed (e.g., the end is removed from a COTS screw or an extra hole is drilled in a COTS bracket).
  - (B) Specialty metals that were not contained in a COTS item upon

acceptance, but are added to the COTS item after acceptance, are subject to the restriction in paragraph (b) of this clause (e.g., a special reinforced handle made of specialty metal is added to a COTS item).

(C) If two or more COTS items are combined in such a way that the resultant item is not a COTS item, only the specialty metals involved in joining the COTS items together are subject to the restriction in paragraph (b) of this clause (e.g., a COTS aircraft is outfitted with a COTS engine that is not the COTS engine normally provided with the aircraft).

(D) For COTS items that are normally sold in the commercial marketplace with various options, items that include such options are also COTS items. However, if a COTS item is offered to the Government with an option that is not normally offered in the commercial marketplace, that option is subject to the restriction in paragraph (b) of this clause (e.g. - An aircraft is normally sold to the public with an option for installation kits. The Department of Defense requests a military-unique kit. The aircraft is still a COTS item, but the military-unique kit is not a COTS item and must comply with the restriction in paragraph (b) of this clause unless another exception applies).

(3) Fasteners that are commercial items, if the manufacturer of the fasteners certifies it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to the Department of Defense and other customers, that is not less than 50 percent of the total amount of the specialty metal that it will purchase to carry out the production of such fasteners for all customers.

(4) Items manufactured in a qualifying country.

(5) Specialty metals for which the Government has determined in accordance with DFARS [225.7003-3](#) that specialty metal melted or produced in the United States, its outlying areas, or a qualifying country cannot be acquired as and when needed in—

- (i) A satisfactory quality;
- (ii) A sufficient quantity; and
- (iii) The required form.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States, an outlying area, or a qualifying country, that are not covered by one of the other exceptions in this paragraph (c)), if the total weight of such noncompliant metals does not exceed 2 percent of the total weight of all specialty metals in the end item, as estimated in good faith by the Contractor. This exception does not apply to high performance magnets containing specialty metals.

(d) *Compliance for commercial derivative military articles.*

(1) As an alternative to the compliance required in paragraph (b) of this clause, the Contractor may purchase an amount of domestically melted or produced specialty metals in the required form, for use during the period of contract performance in the

production of the commercial derivative military article and the related commercial article, if—

(i) The Contracting Officer has notified the Contractor of the items to be delivered under this contract that have been determined by the Government to meet the definition of “commercial derivative military article”; and

(ii) For each item that has been determined by the Government to meet the definition of “commercial derivative military article,” the Contractor has certified, as specified in the provision of the solicitation entitled “Commercial Derivative Military Article—Specialty Metals Compliance Certificate” (DFARS [252.225-7010](#)), that the Contractor and its subcontractor(s) will enter into a contractual agreement or agreements to purchase an amount of domestically melted or produced specialty metal in the required form, for use during the period of contract performance in the production of each commercial derivative military article and the related commercial article, that is not less than the Contractor’s good faith estimate of the greater of—

(A) An amount equivalent to 120 percent of the amount of specialty metal that is required to carry out the production of the commercial derivative military article (including the work performed under each subcontract); or

(B) An amount equivalent to 50 percent of the amount of specialty metal that will be purchased by the Contractor and its subcontractors for use during such period in the production of the commercial derivative military article and the related commercial article.

(2) For the purposes of this alternative, the amount of specialty metal that is required to carry out production of the commercial derivative military article includes specialty metal contained in any item, including COTS items.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause in subcontracts, including subcontracts for commercial items, that are for items containing specialty metals, to the extent necessary to ensure compliance of the end products that the Contractor will deliver to the Government. When inserting the substance of this clause in subcontracts, the Contractor shall—

(1) Modify paragraph (c)(6) of this clause as necessary to facilitate management of the minimal content exception;

(2) Exclude paragraph (d) of this clause; and

(3) Include this paragraph (e).
