Part 209—Contractor Qualifications

(ii) *Ownership or control by a foreign government when access to proscribed information is required.*

(A) Under 10 U.S.C. 2536(a), no DoD contract under a national security program may be awarded to an entity controlled by a foreign government if that entity requires access to proscribed information to perform the contract.

(B) Whenever the contracting officer has a question about application of the provision at [252.209-7002](#), the contracting officer may seek advice from the Security Directorate, Office of the Deputy Under Secretary of Defense, Human Intelligence, Counterintelligence, and Security.

(C) In accordance with 10 U.S.C. 2536(b)(1)(A), the Secretary of Defense may waive the prohibition in paragraph (g)(ii)(A) of this subsection upon determining that the waiver is essential to the national security interests of the United States. The Secretary has delegated authority to grant this waiver to the Undersecretary of Defense for Intelligence. Waiver requests, prepared by the requiring activity in coordination with the contracting officer, shall be processed through the Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics), and shall include a proposed national interest determination. The proposed national interest determination, prepared by the requiring activity in coordination with the contracting officer, shall include:

(1) Identification of the proposed awardee, with a synopsis of its foreign ownership (include solicitation and other reference numbers to identify the action);

(2) General description of the acquisition and performance requirements;

(1) Determining that—

(i) The waiver will advance the environmental restoration, remediation, or waste management objectives of DoD and will not harm the national security interests of the United States; and

Defense Federal Acquisition Regulation Supplement

Part 209—Contractor Qualifications

(ii) The entity to which the contract is awarded is controlled by a foreign government with which the Secretary is authorized to exchange Restricted Data under section 144 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2164(c)); and

(2) Notifying Congress of the decision to grant the waiver. The contract may be awarded only after the end of the 45-day period beginning on the date the notification is received by the appropriate Congressional committees.

209.104-4 Subcontractor responsibility.

Generally, the Canadian Commercial Corporation's (CCC) proposal of a firm as its subcontractor is sufficient basis for an affirmative determination of responsibility. However, when the CCC determination of responsibility is not consistent with other information available to the contracting officer, the contracting officer shall request from CCC and any other sources whatever additional information is necessary to make the responsibility determination.

209.104-70 Solicitation provisions.

(a) Use the provision at [252.209-7001](#), Disclosure of Ownership or Control by the Government of a Terrorist Country, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that are expected to result in contracts of \$150,000 or more. Any disclosure that the government of a terrorist country has a significant interest in an offeror or a subsidiary of an offeror shall be forwarded through agency channels to the address at [209.104-1\(g\)\(i\)\(C\)](#). If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.209-7001](#) in the solicitation.

(b) Use the provision at [252.209-7002](#), Disclosure of Ownership or Control by a Foreign Government, in all solicitations, including those subject to the procedures in FAR part 13, when access to proscribed information is necessary for contract performance. If the solicitation includes the provision at FAR 52.204-7, do not separately list the provision [252.209-7002](#) in the solicitation.

209.105 Procedures.

209.105-1 Obtaining information.

(1) For guidance on using the Exclusion section of the System for Award Management, see [PGI 209.105-1](#).

(2) A satisfactory performance record is a factor in determining contractor responsibility (see FAR 9.104-1(c)). One source of information relating to contractor performance is the Past Performance Information Retrieval System (PPIRS), available at www.ppirs.gov. Information relating to contract terminations for cause and for default is also available through PPIRS (see subpart 42.15). This termination information is just one consideration in determining contractor responsibility.

209.105-2 Determinations and documentation.

(a) The contracting officer shall submit a copy of a determination of nonresponsibility to the appropriate debarring and suspending official listed in [209.403](#).

209.105-2-70 Inclusion of determination of contractor fault in Federal Awardee Performance and Integrity Information System (FAPIIS).

If the contractor or a subcontractor at any tier is not subject to the jurisdiction of the U.S. courts and the DoD appointing official that requested a DoD investigation makes a final determination that a contractor's or subcontractor's gross negligence or reckless disregard for the safety of civilian or military personnel of the Government caused serious bodily injury or death of such personnel, the contracting officer shall enter in FAPIIS the appropriate information regarding such determination within three days of receiving notice of the determination, pursuant to section 834 of the National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383). Information posted in FAPIIS regarding such determinations will be publicly available.

209.106 Preaward surveys.

When requesting a preaward survey, follow the procedures at [PGI 209.106](#).

See DoD [Class Deviation 2012-O0004](#), Prohibition Against Contracting with Corporations That Have an Unpaid Delinquent Tax Liability or a Felony Conviction under Federal Law, issued January 23, 2012. This deviation is effective until incorporated in the FAR or otherwise rescinded.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(D) COTS fasteners, unless—

(1) The fasteners are incorporated into COTS end items, subsystems, or assemblies; or

(ii) If this exception is used for an acquisition of COTS end items valued at \$5 million or more per item, the acquiring department or agency shall submit an annual report to the Director, Defense Procurement and Acquisition Policy, in accordance with the procedures at [PGI 225.7003-3\(b\)\(2\)](#).

(3) Fasteners that are commercial items and are acquired under a contract or subcontract with a manufacturer of such fasteners, if the manufacturer has certified that it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to DoD and other customers, that is not less than 50 percent of the total amount of the specialty metal that the manufacturer will purchase to carry out the production of such fasteners for all customers.

(4) Items listed in [225.7003-2\(a\)](#), manufactured in a qualifying country or containing specialty metals melted or produced in a qualifying country.

(5) Specialty metal in any of the items listed in [225.7003-2](#) if the USD(AT&L), or an official authorized in accordance with paragraph (b)(5)(i) of this subsection, determines that specialty metal melted or produced in the United States cannot be acquired as and when needed at a fair and reasonable price in a satisfactory quality, a sufficient quantity, and the required form (i.e., a domestic nonavailability determination). See guidance in [PGI 225.7003-3\(b\)\(5\)](#).

(A) At least 30 days before making a domestic nonavailability determination that would apply to more than one contract, the USD(AT&L) will, to the maximum extent practicable, and in a manner consistent with the protection of national security and confidential business information—

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(1) Publish a notice on the Federal Business Opportunities website (www.FedBizOpps.gov or any successor site) of the intent to make the domestic nonavailability determination; and

(2) Solicit information relevant to such notice from interested parties, including producers of specialty metal mill products.

(B) The USD(AT&L)—

(1) Will take into consideration all information submitted in response to the notice in making a class domestic nonavailability determination;

(2) May consider other relevant information that cannot be made part of the public record consistent with the protection of national security information and confidential business information; and

(3) Will ensure that any such domestic nonavailability determination and the rationale for the determination are made publicly available to the maximum extent consistent with the protection of national security and confidential business information.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States that are not covered by another exception listed in this paragraph (b)), if the total weight of noncompliant specialty metal does not exceed 2 percent of the total weight of all specialty metal in the end item. This exception does not apply to high performance magnets containing specialty metals. See [PGI 225.7003-3\(b\)\(6\)](#) for a table of applicability of specialty metals restrictions to magnets.

(c) *Compliance for commercial derivative military articles.* The restrictions at 225.7003-2(a) do not apply to an item acquired under a prime contract if—

(1) The offeror has certified, and subsequently demonstrates, that the offeror and its subcontractor(s) will individually or collectively enter into a contractual agreement or agreements to purchase a sufficient quantity of domestically melted or produced specialty metal in accordance with the provision at [252.225-7010](#); and

(2) The USD(AT&L), or the Secretary of the military department concerned, determines that the item is a commercial derivative military article (defense agencies see procedures at [PGI 225.7003-3\(c\)](#)). The contracting officer shall submit the offeror's certification and a request for a determination to the appropriate official, through agency channels, and shall notify the offeror when a decision has been made.

(d) *National security waiver.* The USD(AT&L) may waive the restrictions at [225.7003-2](#) if the USD(AT&L) determines in writing that acceptance of the item is necessary to the national security interests of the United States (see procedures at [PGI 225.7003-3\(d\)](#)). This authority may not be delegated.

(1) The written determination of the USD(AT&L)—

(i) Shall specify the quantity of end items to which the national security waiver applies;

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(ii) Shall specify the time period over which the national security waiver applies; and

(iii) Shall be provided to the congressional defense committees before the determination is executed, except that in the case of an urgent national security requirement, the determination may be provided to the congressional defense committees up to 7 days after it is executed.

(2) After making such a determination, the USD(AT&L) will—

(i) Ensure that the contractor or subcontractor responsible for the noncompliant specialty metal develops and implements an effective plan to ensure future compliance; and

(ii) Determine whether or not the noncompliance was knowing and willful. If the USD(AT&L) determines that the noncompliance was knowing and willful, the appropriate debarring and suspending official shall consider suspending or debarring the contractor or subcontractor until such time as the contractor or subcontractor has effectively addressed the issues that led to the noncompliance.

(3) Because national security waivers will only be granted when the acquisition in question is necessary to the national security interests of the United States, the requirement for a plan will be applied as a condition subsequent, and not a condition precedent, to the granting of a waiver.

225.7003-4 One-time waiver.

DoD may accept articles containing specialty metals that are not in compliance with the specialty metals clause of the contract if—

(a) Final acceptance takes place before September 30, 2010;

(b) The specialty metals were incorporated into items (whether end items or components) produced, manufactured, or assembled in the United States before October 17, 2006;

(c) The contracting officer determines in writing that—

(1) It would not be practical or economical to remove or replace the specialty metals incorporated in such items or to substitute items containing compliant materials;

(2) The contractor and any subcontractor responsible for providing items containing non-compliant specialty metals have in place an effective plan to ensure compliance with the specialty metals clause of the contract for future items produced, manufactured, or assembled in the United States; and

(3) The non-compliance was not knowing or willful;

(d) The determination is approved by—

(1) The USD(AT&L); or

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(2) The service acquisition executive of the military department concerned; and

(e) Not later than 15 days after approval of the determination, the contracting officer posts a notice on the Federal Business Opportunities website at www.FedBizOpps.gov, stating that a waiver for the contract has been granted under Section 842(b) of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364).

225.7003-5 Solicitation provision and contract clauses.

(a) Unless the acquisition is wholly exempt from the specialty metals restrictions at [225.7003-2](#) because the acquisition is covered by an exception in [225.7003-3\(a\)](#) or (d) (but see paragraph (d) of this subsection)—

(1) Use the clause at [252.225-7008](#), Restriction on Acquisition of Specialty Metals, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require the delivery of specialty metals as end items.

(2) Use the clause at [252.225-7009](#), Restriction on Acquisition of Certain Articles Containing Specialty Metals, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require delivery of any of the following items, or components of the following items, if such items or components contain specialty metal:

- (A) Aircraft.
- (B) Missile or space systems.
- (C) Ships.
- (D) Tank or automotive items.
- (E) Weapon systems.
- (F) Ammunition.

(b) Use the provision at [252.225-7010](#), Commercial Derivative Military Article—Specialty Metals Compliance Certificate, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items,—

- (1) That contain the clause at [252.225-7009](#); and

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(2) For which the contracting officer anticipates that one or more offers of commercial derivative military articles may be received.

(c) If an agency cannot reasonably determine at time of acquisition whether some or all of the items will be used in support of combat operations or in support of contingency operations, the contracting officer should not rely on the exception at [225.7003-3\(a\)\(2\)](#) or (3), but should include the appropriate specialty metals clause or provision in the solicitation and contract.

(d) If the solicitation and contract require delivery of a variety of contract line items containing specialty metals, but only some of the items are subject to domestic specialty metals restrictions, identify in the Schedule those items that are subject to the restrictions.

225.7004 Restriction on acquisition of foreign buses.

225.7004-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire a multipassenger motor vehicle (bus) unless it is manufactured in the United States or Canada.

225.7004-2 Applicability.

Apply this restriction if the buses are purchased, leased, rented, or made available under contracts for transportation services.

225.7004-3 Exceptions.

This restriction does not apply in any of the following circumstances:

(a) Buses manufactured outside the United States and Canada are needed for temporary use because buses manufactured in the United States or Canada are not available to satisfy requirements that cannot be postponed. Such use may not, however, exceed the lead time required for acquisition and delivery of buses manufactured in the United States or Canada.

(b) The requirement for buses is temporary in nature. For example, to meet a special, nonrecurring requirement or a sporadic and infrequent recurring requirement, buses manufactured outside the United States and Canada may be used for temporary periods of time. Such use may not, however, exceed the period of time needed to meet the special requirement.

(c) Buses manufactured outside the United States and Canada are available at no cost to the U.S. Government.

(d) The acquisition is for an amount at or below the simplified acquisition threshold.

225.7004-4 Waiver.

The waiver criteria at [225.7008\(a\)](#) apply to this restriction.

225.7005 Restriction on certain chemical weapons antidote.

225.7005-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire chemical weapons antidote contained in automatic injectors, or the components for such injectors, unless the chemical

weapons antidote or component is manufactured in the United States or Canada by a company that—

(a) Has received all required regulatory approvals; and

(b) Has the plant, equipment, and personnel to perform the contract in the United States or Canada at the time of contract award.

225.7005-2 Exception.

This restriction does not apply if the acquisition is for an amount at or below the simplified acquisition threshold.

225.7005-3 Waiver.

The waiver criteria at [225.7008\(a\)](#) apply to this restriction.

225.7006 Restriction on air circuit breakers for naval vessels.

225.7006-1 Restriction.

In accordance with 10 U.S.C. 2534, do not acquire air circuit breakers for naval vessels unless they are manufactured in the United States or Canada.

225.7006-2 Exceptions.

This restriction does not apply if the acquisition is—

(a) For an amount at or below the simplified acquisition threshold; or

(b) For spare or repair parts needed to support air circuit breakers manufactured outside the United States. Support includes the purchase of spare air circuit breakers when those from alternate sources are not interchangeable.

225.7006-3 Waiver.

(a) The waiver criteria at [225.7008\(a\)](#) apply to this restriction.

(b) The Under Secretary of Defense (Acquisition, Technology, and Logistics) has waived the restriction for air circuit breakers manufactured in the United Kingdom. See [225.7008](#).

225.7006-4 Solicitation provision and contract clause.

(a) Use the provision at [252.225-7037](#), Evaluation of Offers for Air Circuit Breakers, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that require air circuit breakers for naval vessels unless--

(1) An exception applies; or

(2) A waiver has been granted, other than the waiver for the United Kingdom, which has been incorporated into the provision.

(b) Use the clause at [252.225-7038](#), Restriction on Acquisition of Air Circuit

Breakers, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that require air circuit breakers for naval vessels unless—

- (1) An exception at [225.7006-2](#) applies; or
- (2) A waiver has been granted, other than the waiver for the United Kingdom, which has been incorporated into the clause.

225.7007 Restrictions on anchor and mooring chain.

225.7007-1 Restrictions.

(a) In accordance with Section 8041 of the Fiscal Year 1991 DoD Appropriations Act (Pub. L. 101-511) and similar sections in subsequent DoD appropriations acts, do not acquire welded shipboard anchor and mooring chain, four inches or less in diameter, unless--

(1) It is manufactured in the United States, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and

(2) The cost of the components manufactured in the United States exceeds 50 percent of the total cost of components.

(b) 10 U.S.C. 2534 also restricts acquisition of welded shipboard anchor and mooring chain, four inches or less in diameter, when used as a component of a naval vessel. However, the Appropriations Act restriction described in paragraph (a) of this subsection takes precedence over the restriction of 10 U.S.C. 2534.

225.7007-2 Waiver.

(a) The Secretary of the department responsible for acquisition may waive the restriction in [225.7007-1\(a\)](#), on a case-by-case basis, if--

(1) Sufficient domestic suppliers are not available to meet DoD requirements on a timely basis; and

(2) The acquisition is necessary to acquire capability for national security purposes.

(b) Document the waiver in a written determination and findings containing--

(1) The factors supporting the waiver; and

(2) A certification that the acquisition must be made in order to acquire capability for national security purposes.

(c) Provide a copy of the determination and findings to the House and Senate Committees on Appropriations.

225.7007-3 Contract clause.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

Unless a waiver has been granted, use the clause at [252.225-7019](#), Restriction on Acquisition of Anchor and Mooring Chain, in solicitations and contracts requiring welded shipboard anchor or mooring chain four inches or less in diameter.

225.7008 Waiver of restrictions of 10 U.S.C. 2534.

(a) When specifically authorized by reference elsewhere in this subpart, the restrictions on certain foreign purchases under 10 U.S.C. 2534(a) may be waived as follows:

(1)(i) The Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)), without power of delegation, may waive a restriction for a particular item for a particular foreign country upon determination that—

(A) United States producers of the item would not be jeopardized by competition from a foreign country, and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country; or

(B) Application of the restriction would impede cooperative programs entered into between DoD and a foreign country, or would impede the reciprocal procurement of defense items under a memorandum of understanding providing for reciprocal procurement of defense items under [225.872](#), and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.

(ii) A notice of the determination to exercise the waiver authority shall be published in the Federal Register and submitted to the congressional defense committees at least 15 days before the effective date of the waiver.

(iii) The effective period of the waiver shall not exceed 1 year.

(iv) For contracts entered into prior to the effective date of a waiver, provided adequate consideration is received to modify the contract, the waiver shall be applied as directed or authorized in the waiver to—

(A) Subcontracts entered into on or after the effective date of the waiver; and

(B) Options for the procurement of items that are exercised after the effective date of the waiver, if the option prices are adjusted for any reason other than the application of the waiver.

(2) The head of the contracting activity may waive a restriction on a case-by-case basis upon execution of a determination and findings that any of the following applies:

(i) The restriction would cause unreasonable delays.

(ii) Satisfactory quality items manufactured in the United States or Canada are not available.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(iii) Application of the restriction would result in the existence of only one source for the item in the United States or Canada.

(iv) Application of the restriction is not in the national security interests of the United States.

(v) Application of the restriction would adversely affect a U.S. company.

(3) A restriction is waived when it would cause unreasonable costs. The cost of an item of U.S. or Canadian origin is unreasonable if it exceeds 150 percent of the offered price, inclusive of duty, of items that are not of U.S. or Canadian origin.

(b) In accordance with the provisions of paragraphs (a)(1)(i) through (iii) of this section, the USD(AT&L) has waived the restrictions of 10 U.S.C. 2534(a) for certain items manufactured in the United Kingdom, including air circuit breakers for naval vessels (see [225.7006](#)).

225.7009 Restriction on ball and roller bearings.

225.7009-1 Scope.

This section implements Section 8065 of the Fiscal Year 2002 DoD Appropriations Act (Pub. L. 107-117) and the same restriction in subsequent DoD appropriations acts.

225.7009-2 Restriction.

(a) Do not acquire ball and roller bearings unless—

(1) The bearings are manufactured in the United States or Canada; and

(2) For each ball or roller bearing, the cost of the bearing components manufactured in the United States or Canada exceeds 50 percent of the total cost of the bearing components of that ball or roller bearing.

(b) The restriction at [225.7003-2](#) may also apply to bearings that are made from specialty metals, such as high carbon chrome steel (bearing steel).

225.7009-3 Exception.

The restriction in [225.7009-2](#) does not apply to contracts or subcontracts for the acquisition of commercial items, except for commercial ball and roller bearings acquired as end items.

225.7009-4 Waiver.

The Secretary of the department responsible for acquisition or, for the Defense Logistics Agency, the Component Acquisition Executive, may waive the restriction in [225.7009-2](#), on a case-by-case basis, by certifying to the House and Senate Committees on Appropriations that--

(a) Adequate domestic supplies are not available to meet DoD requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

Defense Federal Acquisition Regulation Supplement

225.7009-5 Contract clause.

Use the clause at [252.225-7016](#), Restriction on Acquisition of Ball and Roller Bearings, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, unless—

- (a) The items being acquired are commercial items other than ball or roller bearings acquired as end items;
- (b) The items being acquired do not contain ball and roller bearings; or
- (c) A waiver has been granted in accordance with [225.7009-4](#).

225.7010 Reserved.

225.7011 Restriction on carbon, alloy, and armor steel plate.

225.7011-1 Restriction.

(a) In accordance with Section 8111 of the Fiscal Year 1992 DoD Appropriations Act (Pub. L. 102-172) and similar sections in subsequent DoD appropriations acts, do not acquire any of the following types of carbon, alloy, or armor steel plate for use in a Government-owned facility or a facility under the control of (e.g., leased by) DoD, unless it is melted and rolled in the United States or Canada:

- (1) Carbon, alloy, or armor steel plate in Federal Supply Class 9515.
- (2) Carbon, alloy, or armor steel plate described by specifications of the American Society for Testing Materials or the American Iron and Steel Institute.

(b) This restriction—

(1) Applies to the acquisition of carbon, alloy, or armor steel plate as a finished steel mill product that may be used “as is” or may be used as an intermediate material for the fabrication of an end product; and

(2) Does not apply to the acquisition of an end product (e.g., a machine tool), to be used in the facility, that contains carbon, alloy, or armor steel plate as a component.

225.7011-2 Waiver.

The Secretary of the department responsible for acquisition may waive this restriction, on a case-by-case basis, by certifying to the House and Senate Committees on Appropriations that—

(a) Adequate U.S. or Canadian supplies are not available to meet DoD requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

225.7011-3 Contract clause.

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

Unless a waiver has been granted, use the clause at [252.225-7030](#), Restriction on Acquisition of Carbon, Alloy, and Armor Steel Plate, in solicitations and contracts that—

(a) Require the delivery to the Government of carbon, alloy, or armor steel plate that will be used in a Government-owned facility or a facility under the control of DoD; or

(b) Require contractors operating in a Government-owned facility or a facility under the control of DoD to purchase carbon, alloy, or armor steel plate.

225.7012 Restriction on supercomputers.

225.7012-1 Restriction.

In accordance with Section 8112 of Pub. L. 100-202, and similar sections in subsequent DoD appropriations acts, do not purchase a supercomputer unless it is manufactured in the United States.

225.7012-2 Waiver.

The Secretary of Defense may waive this restriction, on a case-by-case basis, after certifying to the Armed Services and Appropriations Committees of Congress that—

(a) Adequate U.S. supplies are not available to meet requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

225.7012-3 Contract clause.

Unless a waiver has been granted, use the clause at [252.225-7011](#), Restriction on Acquisition of Supercomputers, in solicitations and contracts for the acquisition of supercomputers.

225.7013 Restrictions on construction or repair of vessels in foreign shipyards.

In accordance with 10 U.S.C. 7309 and 7310—

(a) Do not award a contract to construct in a foreign shipyard--

(1) A vessel for any of the armed forces; or

(2) A major component of the hull or superstructure of a vessel for any of the armed forces; and

(b) Do not overhaul, repair, or maintain in a foreign shipyard, a naval vessel (or any other vessel under the jurisdiction of the Secretary of the Navy) homeported in the United States. This restriction does not apply to voyage repairs.

225.7014 Restrictions on military construction.

(a) For restriction on award of military construction contracts to be performed in the United States outlying areas in the Pacific and on Kwajalein Atoll, or in countries bordering the Arabian Gulf, see [236.273\(a\)](#).

(b) For restriction on acquisition of steel for use in military construction projects, see [236.274](#).

225.7016 Prohibition on requiring the use of fire-resistant rayon fiber.

In accordance with section 821 of the National Defense Authorization Act for Fiscal Year 2011, do not include in any solicitation issued before January 1, 2015, a requirement that proposals submitted pursuant to such solicitation shall include the use of fire-resistant rayon fiber. However, this does not preclude issuing a solicitation that allows offerors to propose the use of fire-resistant rayon fiber.

225.7017 Utilization of domestic photovoltaic devices.

225.7017-1 Definitions. As used in this section—

“Covered contract” means an energy savings performance contract, a utility service contract, or a private housing contract awarded by DoD, if such contract results in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products. DoD is deemed to own a photovoltaic device if the device is—

- (1) Installed on DoD property or in a facility owned by DoD; and
- (2) Reserved for the exclusive use of DoD for the full economic life of the device.

“Designated country photovoltaic device,” “domestic photovoltaic device,” “foreign photovoltaic device,” “Free Trade Agreement country photovoltaic device,” “photovoltaic device,” “qualifying country photovoltaic device,” and “U.S.-made photovoltaic device” are defined in the clause at [252.225-7017](#), Photovoltaic Devices.

225.7017-2 Restriction.

In accordance with section 846 of the National Defense Authorization Act for Fiscal Year 2011, photovoltaic devices provided under any covered contract shall comply with 41 U.S.C. chapter 83, Buy American, subject to the exceptions to that statute provided in the Trade Agreements Act of 1979 (19 U.S.C. 2501 *et seq.*) or otherwise provided by law.

225.7017-3 Exceptions.

DoD requires the contractor to utilize domestic photovoltaic devices in covered contracts, with the following exceptions:

Defense Federal Acquisition Regulation Supplement

Part 225—Foreign Acquisition

(a) *Qualifying country.* Qualifying country photovoltaic devices may be utilized in any covered contract, because [225.103\(a\)\(i\)\(A\)](#) provides an exception to the Buy American statute for products of qualifying countries, as defined in [225.003](#).

(b) *Buy American—unreasonable cost.* For a covered contract that utilizes photovoltaic devices valued at less than \$204,000, the exception for unreasonable cost may apply (see FAR 25.103(c)). If the cost of a foreign photovoltaic device plus 50 percent is less than the cost of a domestic photovoltaic device, then the foreign photovoltaic device may be utilized.

(c) *Trade agreements.*

(1) *Free Trade Agreements.* For a covered contract that utilizes photovoltaic devices valued at \$25,000 or more, photovoltaic devices may be utilized from a country covered under the acquisition by a Free Trade Agreement, depending upon dollar threshold (see FAR subpart 25.4).

(2) *World Trade Organization—Government Procurement Agreement.* For covered contracts that utilize photovoltaic devices that are valued at \$204,000 or more, only U.S.-made photovoltaic devices, designated country photovoltaic devices, or qualifying country photovoltaic devices may be utilized.

225.7017-4 Solicitation provisions and contract clauses.

(a)(1) Use the clause at [252.225-7017](#), Photovoltaic Devices, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, for a contract that—

(i) Is expected to exceed the simplified acquisition threshold; and

(ii) May be a covered contract, i.e., an energy savings performance contract, a utility service contract, or a private housing contract awarded by DoD, if such contract results in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products.

(2) Use the clause in the resultant contract, including contracts using FAR part 12 procedures for the acquisition of commercial items, if it is a covered contract (i.e., will result in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products).

(b) Use the provision at [252.225-7018](#), Photovoltaic Devices—Certificate, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, that contain the clause at [252.225-7017](#).

(Revised March 28, 2014)

235.001 Definitions.

“Research and development” means those efforts described by the Research, Development, Test, and Evaluation (RDT&E) budget activity definitions found in the DoD Financial Management Regulation (DoD 7000.14-R), Volume 2B, Chapter 5.

235.006 Contracting methods and contract type.

(b)(i) For major defense acquisition programs as defined in 10 U.S.C. 2430—

(A) Follow the procedures at [234.004](#); and

(B) Notify the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) of an intent not to exercise a fixed-price production option on a development contract for a major weapon system reasonably in advance of the expiration of the option exercise period.

(ii) For other than major defense acquisition programs—

(A) Do not award a fixed-price type contract for a development program effort unless—

(1) The level of program risk permits realistic pricing;

(2) The use of a fixed-price type contract permits an equitable and sensible allocation of program risk between the Government and the contractor; and

(3) A written determination that the criteria of paragraphs (b)(ii)(A)(1) and (2) of this section have been met is executed—

(i) By the USD(AT&L) if the contract is over \$25 million and is for: research and development for a non-major system; the development of a major system (as defined in FAR 2.101); or the development of a subsystem of a major system; or

(ii) By the contracting officer for any development not covered by paragraph (b)(ii)(A)(3)(i) of this section.

(B) Obtain USD(AT&L) approval of the Government’s prenegotiation position before negotiations begin, and obtain USD(AT&L) approval of the negotiated agreement with the contractor before the agreement is executed, for any action that is—

(1) An increase of more than \$250 million in the price or ceiling price of a fixed-price type development contract, or a fixed-price type contract for the lead ship of a class;

(2) A reduction in the amount of work under a fixed-price type development contract or a fixed-price type contract for the lead ship of a class, when the value of the work deleted is \$100 million or more; or

(3) A repricing of fixed-price type production options to a development contract, or a contract for the lead ship of a class, that increases the price or ceiling price by more than \$250 million for equivalent quantities.

235.006-70 Manufacturing Technology Program.

In accordance with 10 U.S.C. 2521(d), for acquisitions under the Manufacturing Technology Program—

(a) Award all contracts using competitive procedures; and

(b) Include in all solicitations an evaluation factor that addresses the extent to which offerors propose to share in the cost of the project (see FAR 15.304).

235.006-71 Competition.

See [234.005-1](#) for limitations on the use of contract line items or contract options for the provision of advanced component development or prototypes of technology developed under a competitively awarded proposal.

235.008 Evaluation for award.

See [209.570](#) for limitations on the award of contracts to contractors acting as lead system integrators.

235.010 Scientific and technical reports.

(b) For DoD, the Defense Technical Information Center is responsible for collecting all scientific and technical reports. For access to these reports, follow the procedures at [PGI 235.010\(b\)](#).

235.015-70 Special use allowances for research facilities acquired by educational institutions.

(a) *Definitions.* As used in this subsection—

(1) “Research facility” means—

(i) Real property, other than land; and

(ii) Includes structures, alterations, and improvements, acquired for the purpose of conducting scientific research under contracts with departments and agencies of the DoD.

(2) “Special use allowance” means a negotiated direct or indirect allowance—

(i) For construction or acquisition of buildings, structures, and real property, other than land; and

(ii) Where the allowance is computed at an annual rate exceeding the rate which normally would be allowed under FAR Subpart 31.3.

(b) *Policy.*

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(1) Educational institutions are to furnish the facilities necessary to perform defense contracts. FAR 31.3 governs how much the Government will reimburse the institution for the research programs. However, in extraordinary situations, the Government may give special use allowances to an educational institution when the institution is unable to provide the capital for new laboratories or expanded facilities needed for defense contracts.

(2) Decisions to provide a special use allowance must be made on a case-by-case basis, using the criteria in paragraph (c) of this subsection.

(c) *Authorization for special use allowance.* The head of a contracting activity may approve special use allowances only when all of the following conditions are met—

- (1) The research facility is essential to the performance of DoD contracts;
- (2) Existing facilities, either Government or nongovernment, cannot meet program requirements practically or effectively;
- (3) The proposed agreement for special use allowances is a sound business arrangement;
- (4) The Government's furnishing of Government-owned facilities is undesirable or impractical; and
- (5) The proposed use of the research facility is to conduct essential Government research which requires the new or expanded facilities.

(d) *Application of the special use allowance.*

- (1) In negotiating a special use allowance—
 - (i) Compare the needs of DoD and of the institution for the research facility to determine the amount of the special use allowance;
 - (ii) Consider rental costs for similar space in the area where the research facility is or will be located to establish the annual special use allowance;
 - (iii) Do not include or allow—
 - (A) The costs of land; or
 - (B) Interest charges on capital;
 - (iv) Do not include maintenance, utilities, or other operational costs;
 - (v) The period of allowance generally will be—
 - (A) At least ten years; or
 - (B) A shorter period if the total amount to be allowed is less than the construction or acquisition cost for the research facility;

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(vi) Generally, provide for allocation of the special use allowance equitably among the Government contracts using the research facility;

(vii) Special use allowances apply only in the years in which the Government has contracts in effect with the institution. However, if in any given year there is a reduced level of Government research effort which results in the special use allowance being excessive compared to the Government research funding, a separate special use allowance may be negotiated for that year;

(viii) Special use allowances may be adjusted for the period before construction is complete if the facility is partially occupied and used for Government research during that period.

(2) A special use allowance may be based on either total or partial cost of construction or acquisition of the research facility.

(i) When based on total cost neither the normal use allowance nor depreciation will apply—

(A) During the special use allowance period; and

(B) After the educational institution has recovered the total construction or acquisition cost from the Government or other users.

(ii) When based on partial cost, normal use allowance and depreciation—

(A) Apply to the balance of costs during the special use allowance period to the extent negotiated in the special use allowance agreement; and

(B) Do not apply after the special use allowance period, except for normal use allowance applied to the balance.

(3) During the special use allowance period, the research facility—

(i) Shall be available for Government research use on a priority basis over nongovernment use; and

(ii) Cannot be put to any significant use other than that which justified the special use allowance, unless the head of the contracting activity, who approved the special use allowance, consents.

(4) The Government will pay only an allocable share of the special use allowance when the institution makes any substantial use of the research facility for parties other than the Government during the period when the special use allowance is in effect.

(5) In no event shall the institution be paid more than the acquisition costs.

235.016 Broad agency announcement.

To help achieve the goals of Section 1207 of Pub. L. 99-661 (see Part 226), contracting officers shall—

(1) Whenever practicable, reserve discrete or severable areas of research interest contained in broad agency announcements for exclusive competition among historically black colleges and universities and minority institutions;

(2) Indicate such reservation—

(i) In the broad agency announcement; and

(ii) In the announcement synopsis (see [205.207\(d\)](#)).

235.017 Federally Funded Research and Development Centers.

(a) *Policy.*

(2) No DoD fiscal year 1992 or later funds may be obligated or expended to finance activities of a DoD Federally Funded Research and Development Center (FFRDC) if a member of its board of directors or trustees simultaneously serves on the board of directors or trustees of a profit-making company under contract to DoD, unless the FFRDC has a DoD-approved conflict of interest policy for its members (Section 8107 of Pub. L. 102-172 and similar sections in subsequent Defense appropriations acts).

235.017-1 Sponsoring agreements.

(c)(4) DoD-sponsored FFRDCs that function primarily as research laboratories (C3I Laboratory operated by the Institute for Defense Analysis, Lincoln Laboratory operated by Massachusetts Institute of Technology, and Software Engineering Institute operated by Carnegie Mellon) may respond to solicitations and announcements for programs which promote research, development, demonstration, or transfer of technology (Section 217, Pub. L. 103-337).

235.070 Indemnification against unusually hazardous risks.

235.070-1 Indemnification under research and development contracts.

(a) Under 10 U.S.C. 2354, and if authorized by the Secretary concerned, contracts for research and/or development may provide for indemnification of the contractor or subcontractors for—

(1) Claims by third persons (including employees) for death, bodily injury, or loss of or damage to property; and

(2) Loss of or damage to the contractor's property to the extent that the liability, loss, or damage—

(i) Results from a risk that the contract defines as “unusually hazardous;”

(ii) Arises from the direct performance of the contract; and

(iii) Is not compensated by insurance or other means.

(b) Clearly define the specific unusually hazardous risks to be indemnified. Submit this definition for approval with the request for authorization to grant indemnification. Include the approved definition in the contract.

235.070-2 Indemnification under contracts involving both research and development and other work.

These contracts may provide for indemnification under the authority of both 10 U.S.C. 2354 and Pub. L. 85-804. Pub. L. 85-804 will apply only to work to which 10 U.S.C. 2354 does not apply. Actions under Pub. L. 85-804 must also comply with FAR 50.104-3.

235.070-3 Contract clauses.

When the contractor is to be indemnified in accordance with [235.070-1](#), use either—

(a) The clause at [252.235-7000](#), Indemnification Under 10 U.S.C. 2354--Fixed Price; or

(b) The clause at [252.235-7001](#), Indemnification Under 10 U.S.C. 2354--Cost-Reimbursement, as appropriate.

235.071 Export-controlled items.

For requirements regarding access to export-controlled items, see [225.7901](#).

235.072 Additional contract clauses.

(a) Use the clause at [252.235-7002](#), Animal Welfare, or one substantially the same, in solicitations and contracts awarded in the United States or its outlying areas involving research on live vertebrate animals.

(b) Use the basic or the alternate of the clause at [252.235-7003](#), Frequency Authorization, in solicitations and contracts for developing, producing, constructing, testing, or operating a device requiring a frequency authorization.

(1) Use the basic clause if agency procedures do not authorize the use of DD Form 1494, Application for Equipment Frequency Allocation, to obtain radio frequency authorization.

(2) Use the alternate I clause if agency procedures authorize the use of DD Form 1494, Application for Equipment Frequency Allocation, to obtain frequency authorization.

(c) Use the clause at [252.235-7010](#), Acknowledgment of Support and Disclaimer, in solicitations and contracts for research and development.

(d) Use the clause at [252.235-7011](#), Final Scientific or Technical Report, in solicitations and contracts for research and development.

The clause—

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(1) Applies to solicitations and contracts awarded by any DoD component, regardless of mission or funding Program Element Code; and

(2) Does not apply to use of cadaver materials alone, which are not directly regulated by 32 CFR Part 219 or DoD Directive 3216.02, and which are governed by other DoD policies and applicable State and local laws.

SUBPART 246.7—WARRANTIES
(Revised March 28, 2014)

246.701 Definitions. As used in this subpart—

“Acceptance,” as used in the warranty clauses at FAR 52.246-17, Warranty of Supplies of a Noncomplex Nature; FAR 52.246-18, Warranty of Supplies of a Complex Nature; FAR 52.246-19, Warranty of Systems and Equipment Under Performance Specifications or Design Criteria; and FAR 52.246-20, Warranty of Services, includes the execution of an official document (e.g., DD Form 250, Material Inspection and Receiving Report) by an authorized representative of the Government.

“Defect” means any condition or characteristic in any supply or service furnished by the contractor under the contract that is not in compliance with the requirements of the contract.

“Duration,” “enterprise,” “enterprise identifier,” “fixed expiration,” “issuing agency,” “item type,” “starting event,” “serialized item,” “unique item identifier,” “usage,” “warranty administrator,” “warranty guarantor,” “warranty repair source,” and “warranty tracking” are defined in the clause at [252.246-7006](#), Warranty Tracking of Serialized Items.

246.704 Authority for use of warranties.

(1) The chief of the contracting office must approve use of a warranty, except in acquisitions for—

- (i) Commercial items (see FAR 46.709);
- (ii) Technical data, unless the warranty provides for extended liability (see [246.708](#));
- (iii) Supplies and services in fixed-price type contracts containing quality assurance provisions that reference higher-level contract quality requirements (see [246.202-4](#)); or
- (iv) Supplies and services in construction contracts when using the warranties that are contained in Federal, military, or construction guide specifications.

(2) The chief of the contracting office shall approve the use of a warranty only when the benefits are expected to outweigh the cost.

246.705 Limitations.

(a) In addition to the exceptions provided in FAR 46.705(a), warranties in the clause at [252.246-7001](#), Warranty of Data, may be used in cost-reimbursement contracts.

246.706 Warranty terms and conditions.

(b)(5) *Markings*. For non-commercial items, use MIL-STD-129, Marking for Shipments and Storage, and MIL-STD-130, Identification Marking of U.S. Military Property, when marking warranty items.

246.708 Warranties of data.

Obtain warranties on technical data when practicable and cost effective. Consider the factors in FAR 46.703 in deciding whether to obtain warranties of technical data. Consider the following in deciding whether to use extended liability provisions—

- (1) The likelihood that correction or replacement of the nonconforming data, or a price adjustment, will not give adequate protection to the Government; and
- (2) The effectiveness of the additional remedy as a deterrent against furnishing nonconforming data.

246.710 Contract clauses.

(1) Use a clause substantially the same as the basic or one of the alternates of the clause at [252.246-7001](#), Warranty of Data, in solicitations and contracts that include the clause at [252.227-7013](#), Rights in Technical Data and Computer Software, when there is a need for greater protection or period of liability than provided by the inspection and warranty clauses prescribed in FAR part 46.

(i) Use the basic clause in solicitations and contracts that are not firm-fixed price or fixed-price incentive.

(ii) Use alternate I in fixed-price-incentive solicitations and contracts.

(iii) Use alternate II in firm-fixed-price solicitations and contracts.

(2) Use the clause at [252.246-7002](#), Warranty of Construction (Germany), instead of the clause at FAR 52.246-21, Warranty of Construction, in solicitations and contracts for construction when a fixed-price contract will be awarded and contract performance will be in Germany.

(3)(i) In addition to [252.211-7003](#), Item Unique Identification and Valuation, which is prescribed in [211.274-6\(a\)](#), use the following provision and clause in solicitations and contracts when it is anticipated that the resulting contract will include a warranty for serialized items:

(A) [252.246-7005](#), Notice of Warranty Tracking of Serialized Items (include only if offerors will be required to enter data with the offer); and

(B) [252.246-7006](#), Warranty Tracking of Serialized Items.

(ii) If the Government specifies a warranty, include in the solicitation the appropriate warranty attachment from DFARS [246.710-70](#). The contracting officer shall request the requiring activity to provide information to ensure that Attachment ___, Warranty Tracking Information, is populated with data specifying the Government's required warranty provision by contract line item number, subline item

Defense Federal Acquisition Regulation Supplement

Part 246—Quality Assurance

number, or exhibit line item number prior to solicitation. In such case do not include [252.246-7005](#) in the solicitation.

(iii) If the Government does not specify a warranty, include [252.246-7005](#) in the solicitation, and the warranty attachment from DFARS [246.710-70](#). The contractor may offer a warranty and shall then populate Attachment __, Warranty Tracking Information, as appropriate, as part of its offer as required by [252.246-7005](#).

(iv) All warranty tracking information that is indicated with a single asterisk (*) in Attachment __, Warranty Tracking Information, shall be completed prior to award. Data indicated with two asterisks (**) may be completed at the time of award. Data indicated with three asterisks (***) may be completed at or after the time of award.

(v) The contractor shall provide warranty repair source instructions (as prescribed in the attachment) no later than the time of delivery.

246.710-70 Warranty attachment.

This is the prescribed attachment and format required and referenced in the provision at [252.246-7005](#), Notice of Warranty Tracking of Serialized Items, and the clause at [252.246-7006](#), Warranty Tracking of Serialized Items. The contracting officer shall number the attachment upon issuance of the solicitation and include the solicitation or contract number.

DISCLOSURE OF INFORMATION (AUG 2013)

(a) The Contractor shall not release to anyone outside the Contractor's organization any unclassified information, regardless of medium (e.g., film, tape, document), pertaining to any part of this contract or any program related to this contract, unless—

(1) The Contracting Officer has given prior written approval;

(2) The information is otherwise in the public domain before the date of release;
or

(3) The information results from or arises during the performance of a project that has been scoped and negotiated by the contracting activity with the contractor and research performer and determined in writing by the contracting officer to be fundamental research in accordance with National Security Decision Directive 189, National Policy on the Transfer of Scientific, Technical and Engineering Information, in effect on the date of contract award and the USD (AT&L) memoranda on Fundamental Research, dated May 24, 2010, and on Contracted Fundamental Research, dated June 26, 2008, (available at DFARS [PGI 204.4](#)).

252.204-7002 Payment for Subline Items Not Separately Priced.

PAYMENT FOR SUBLINE ITEMS NOT SEPARATELY PRICED (DEC 1991)

(a) If the schedule in this contract contains any contract subline items or exhibit subline items identified as not separately priced (NSP), it means that the unit price for that subline item is included in the unit price of another, related line or subline item.

(b) The Contractor shall not invoice the Government for any portion of a contract line item or exhibit line item which contains an NSP until—

(a) *Definitions.* As used in this provision—

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

“System for Award Management (SAM) database” means the primary Government repository for contractor information required for the conduct of business with the Government.

“Commercial and Government Entity (CAGE) code” means—

(1) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

(2) A code assigned by a member of the North Atlantic Treaty Organization that DLIS records and maintains in the CAGE master file. This type of code is known as an “NCAGE code.”

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see FAR 32.11) for the same parent concern.

“Registered in the System for Award Management (SAM) database” means that—

(1) The contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, and Contractor and Government Entity (CAGE) code into the SAM database; and

(b) If an employee refuses to attest orally to security responsibilities, the Contractor shall deny the employee access to classified information and shall submit a report to the Contractor's security activity.

252.204-7011 Alternative Line Item Structure.

As prescribed in [204.7109\(b\)](#), insert the following provision:

ALTERNATIVE LINE ITEM STRUCTURE (SEP 2011)

(a) Line items are the basic structural elements in a solicitation or contract that provide for the organization of contract requirements to facilitate pricing, delivery, inspection, acceptance and payment. Line items are organized into contract line items, subline items, and exhibit line items. Separate line items should be established to account for separate pricing, identification (see section [211.274](#) of the Defense Federal Acquisition Regulation Supplement), deliveries, or funding. The Government recognizes that the line item structure in this solicitation may not conform to every offeror's practices. Failure to correct these issues can result in difficulties in accounting for deliveries and processing payments. Therefore, offerors are invited to propose an alternative line item structure for items on which bids, proposals, or quotes are requested in this solicitation to ensure that the resulting contract structure is economically and administratively advantageous to the Government and the Contractor.

(b) If an alternative line item structure is proposed, the structure must be consistent with subpart [204.71](#) of the Defense Federal Acquisition Regulation Supplement and PGI [204.71](#). A sample line item structure and a proposed alternative structure are as follows:

Solicitation:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Computer, Desktop with CPU, Monitor, Keyboard and Mouse	20	EA		

Alternative line item structure offer where monitors are shipped separately:

“Attribution information” means information that identifies the Contractor, whether directly or indirectly, by the grouping of information that can be traced back to the Contractor (e.g., program description or facility locations).

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor information system” means an information system belonging to, or operated by or for, the Contractor.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information is to be marked with one of the distribution statements B-through-F, in accordance with DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Cyber incident” means actions taken through the use of computer networks that result in an actual or potentially adverse effect on an information system and/or the information residing therein.

“Exfiltration” means any unauthorized release of data from within an information system. This includes copying the data through covert network channels or the copying of data to unauthorized media.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which information is recorded, stored, or printed within an information system.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS [252.227-7013](#), Rights in Technical Data-Non Commercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) *Safeguarding requirements and procedures for unclassified controlled technical information.* The Contractor shall provide adequate security to safeguard unclassified controlled technical information from compromise. To provide adequate security, the Contractor shall—

(1) Implement information systems security in its project, enterprise, or company-wide unclassified information technology system(s) that may have unclassified controlled technical information resident on or transiting through them. The information systems security program shall implement, at a minimum—

(i) The specified National Institute of Standards and Technology (NIST) Special Publication (SP) 800-53 security controls identified in the following table; or

(ii) If a NIST control is not implemented, the Contractor shall submit to the Contracting Officer a written explanation of how—

(A) The required security control identified in the following table is not applicable; or

(B) An alternative control or protective measure is used to achieve equivalent protection.

(2) Apply other information systems security requirements when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraph (b)(1) of this clause, may be required to provide adequate security in a dynamic environment based on an assessed risk or vulnerability.

Table 1 -- Minimum Security Controls for Safeguarding

Minimum required security controls for unclassified controlled technical information requiring safeguarding in accordance with paragraph (d) of this clause. (A description of the security controls is in the NIST SP 800-53, “Security and Privacy Controls for Federal Information Systems and Organizations” (<http://csrc.nist.gov/publications/PubsSPs.html>).)

(2) *Reportable cyber incidents.* Reportable cyber incidents include the following:

(i) A cyber incident involving possible exfiltration, manipulation, or other loss or compromise of any unclassified controlled technical information resident on or transiting through Contractor's, or its subcontractors', unclassified information systems.

(ii) Any other activities not included in paragraph (d)(2)(i) of this clause that allow unauthorized access to the Contractor's unclassified information system on which unclassified controlled technical information is resident on or transiting.

(3) *Other reporting requirements.* This reporting in no way abrogates the Contractor's responsibility for additional safeguarding and cyber incident reporting requirements pertaining to its unclassified information systems under other clauses that may apply to its contract, or as a result of other U.S. Government legislative and regulatory requirements that may apply (e.g., as cited in paragraph (c) of this clause).

(4) *Contractor actions to support DoD damage assessment.* In response to the reported cyber incident, the Contractor shall—

(i) Conduct further review of its unclassified network for evidence of compromise resulting from a cyber incident to include, but is not limited to, identifying compromised computers, servers, specific data and users accounts. This includes analyzing information systems that were part of the compromise, as well as other information systems on the network that were accessed as a result of the compromise;

The Contractor shall comply with damage assessment information requests. The requirement to share files and images exists unless there are legal restrictions that limit a company's ability to share digital media. The Contractor shall inform the Contracting Officer of the source, nature, and prescription of such limitations and the authority responsible.

(2) “Human Research Protection Official (HRPO)” means the individual designated by the head of the applicable DoD component and identified in the component’s Human Research Protection Management Plan as the official who is responsible for the oversight and execution of the requirements of this clause, although some DoD components may use a different title for this position.

(3) “Human subject” means a living individual about whom an investigator (whether professional or student) conducting research obtains data through intervention or interaction with the individual, or identifiable private information (32 CFR 219.102(f)). For example, this could include the use of human organs, tissue, and body fluids from individually identifiable living human subjects as well as graphic, written, or recorded information derived from individually identifiable living human subjects.

(4) “Institution” means any public or private entity or agency (32 CFR 219.102(b)).

(5) “Institutional Review Board (IRB)” means a board established for the purposes expressed in 32 CFR Part 219 (32 CFR 219.102(g)).

(6) “IRB approval” means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and Federal requirements (32 CFR 219.102(h)).

(7) “Research” means a systematic investigation, including research, development, testing, and evaluation, designed to develop or contribute to generalizable knowledge. Activities that meet this definition constitute research for purposes of 32 CFR Part 219, whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities (32 CFR 219.102(d)).

(b) The Contractor shall oversee the execution of the research to ensure compliance with this clause. The Contractor may furnish evidence of an existing assurance of compliance for acceptance by the HRPO, if an appropriate assurance has been approved in connection with previous research. The Contractor shall notify the Contracting Officer immediately of any suspensions or terminations of the assurance.

(2) The Contractor furnishes to the HRPO, with a copy to the Contracting Officer, a determination that the human research proposed meets exemption criteria in 32 CFR 219.101(b) and receives written notification from the Contracting Officer that the exemption is determined acceptable. The determination shall include citation of the exemption category under 32 CFR 219.101(b) and a rationale statement. In the event of a disagreement regarding the Contractor's furnished exemption determination, the HRPO retains final judgment on what research activities or classes of research are covered or are exempt under the contract.

(d) DoD staff, consultants, and advisory groups may independently review and inspect the Contractor's research and research procedures involving human subjects and, based on such findings, DoD may prohibit research that presents unacceptable hazards or otherwise fails to comply with DoD procedures.

(e) Failure of the Contractor to comply with the requirements of this clause will result in the issuance of a stop-work order under Federal Acquisition Regulation clause 52.242-15 to immediately suspend, in whole or in part, work and further payment under this contract, or will result in other issuance of suspension of work and further payment for as long as determined necessary at the discretion of the Contracting Officer.
