PGI 201—Federal Acquisition Regulations System

(Revised April 21, 2014)

PGI 201.6—CAREER DEVELOPMENT, CONTRACTING AUTHORITY, AND RESPONSIBILITIES

PGI 201.602 Contracting officers.

PGI 201.602-2 Responsibilities.

Contracting officers shall inform all individuals performing on their behalf of their delegated roles and responsibilities, and the relationships among the parties.

(d)(i) When designating Department of State personnel as a contracting officer's representative (COR for contracts executed by DoD in support of Department of State in Iraq), follow the procedures in the Director, Defense Procurement and Acquisition Policy memorandum dated [July 11, 2011, Contracting Officer's Representative Designation—Iraq](#).

(ii) DoD COR certification standards define minimum COR competencies, experience, and training requirements according to the nature and complexity of the requirement and contract performance risk. These COR certification standards should be considered when developing service requirements, soliciting proposals, and performing surveillance during contract performance. The DoD standards are provided in the OUSD (AT&L) memorandum dated [March 29, 2010, DoD Standard for Certification of Contracting Officer's Representatives \(COR\) for Service Acquisitions](#).

(iii) Guidance on the appointment and duties of CORs is provided in the [DoD COR Handbook, March 22, 2012](#).

(iv) DoD agencies and components shall use the DoD Contracting Officer Representative Tracking (CORT) Tool to electronically track COR nominations, appointments, terminations, and training certifications for service contracts. Further guidance on using this tool is provided in [OUSD \(AT&L\) memorandum dated March 21, 2011, Deployment of the Department of Defense \(DoD\) Contracting Officer Representative Tracking tool \(CORT Tool\)](#) and [OUSD\(AT&L\) memorandum, dated February 10, 2014, Update to the Department of Defense Contracting Officer Representative Tracking Tool](#). The link to the CORT Tool is <https://wawf.eb.mil>.

(v) A COR assists in the technical monitoring or administration of a contract.

(A) Contracting officers shall designate a COR for all service contracts, including both firm-fixed-price and other than firm-fixed-price contracts, awarded by a DoD component or by any other Federal agency on behalf of DoD. The surveillance activities performed by CORs should be tailored to the dollar value/complexity of the specific contract for which they are designated. For geographically dispersed large

DFARS Procedures, Guidance, and Information

PGI 201—Federal Acquisition Regulations System

contracts with multiple task orders, contracting officers should consider appointing multiple or alternate CORs to assist with surveillance duties. These CORs should have specific duties based on criteria, such as geographic region or distinct task areas, to avoid conflicting or duplicative direction. Contracting officers may exempt service contracts from this requirement when the following three conditions are met:

(1) The contract will be awarded using simplified acquisition procedures;

(2) The requirement is not complex; and

(3) The contracting officer documents the file, in writing, with the specific reasons why the appointment of a COR is unnecessary.

(B) For cost reimbursement contracts that are not service contracts, contracting officers shall either retain or delegate surveillance activities to a COR or DCMA.

(C) The contracting officer shall include a copy of the written designation required by FAR 1.602-2(d)(7) in the CORT Tool.

(vi) A COR shall maintain an electronic file in the CORT Tool for each contract assigned. This file must include, as a minimum—

(A) A copy of the contracting officer's letter of designation and other documentation describing the COR's duties and responsibilities; and

(B) Documentation of actions taken in accordance with the delegation of authority.

(vii) Contracting officers, as well as the requiring activities (or the COR's supervisor), shall, as a minimum, annually review the COR's files for accuracy and completeness. The results of the contracting officer's review shall be documented in the CORT Tool.

(viii) Prior to contract closeout, the COR will deliver the COR files for the assigned contract to the contracting officer for incorporation into the contract file.

PGI 208—Required Sources of Supplies and Services

(Revised April 21, 2014)

PGI 208.70—COORDINATED ACQUISITION

PGI 208.7002 Assignment authority.

PGI 208.7002-1 Acquiring department responsibilities.

The acquiring department generally is responsible under coordinated acquisition for—

(1) Operational aspects of acquisition planning (phasing the submission of requirements to contracting, consolidating or dividing requirements, analyzing the market, and determining patterns for the phased placement of orders to avoid unnecessary production fluctuations and meet the needs of requiring departments at the lowest price);

(2) Purchasing;

(3) Performing or assigning contract administration, including follow-up and expediting of inspection and transportation; and

(4) Obtaining licenses under patents and settling patent infringement claims arising out of the acquisition. (Acquiring departments must obtain approval from the department whose funds are to be charged for obtaining licenses or settling claims.)

PGI 208.7002-2 Requiring department responsibilities.

The requiring department is responsible for—

(1) Ensuring compliance with the order of priority in FAR 8.001 for use of Government supply sources before submitting a requirement to the acquiring department for contracting action; and

(2) Providing the acquiring department—

(i) The complete and certified documentation required by FAR 6.303-2(b). A requiring department official, equivalent to the appropriate level in FAR 6.304, must approve the documentation before submission of the military interdepartmental purchase request (MIPR) to the acquiring department;

(ii) Any additional supporting data that the acquiring department contracting officer requests (e.g., the results of any market survey or why none was conducted, and actions the requiring department will take to overcome barriers to competition in the future);

(iii) The executed determination and findings required by FAR 6.302-7(c)(1);

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

(iv) When a requiring department requests an acquiring department to contract for supplies or services using full and open competition after exclusion of sources, all data required by FAR 6.202(b)(2);

(v) When the requiring department specifies a foreign end product, any determinations required by DFARS Part 225 or FAR Part 25;

(vi) A complete definition of the requirements, including a list (or copies) of specifications, drawings, and other data required for the acquisition. The requiring department need not furnish Federal, military, departmental, or other specifications or drawings or data that are available to the acquiring department;

(vii) Justification required by FAR 17.205(a) for any option quantities requested;

(viii) A statement as to whether used or reconditioned material, former Government surplus property, or residual inventory will be acceptable, and if so—

(A) A list of any supplies that need not be new; and

(B) The basis for determining the acceptability of such supplies (see FAR 11.302(b));

(ix) A statement as to whether the acquiring department may exceed the total MIPR estimate and, if so, by what amount; and

(x) Unless otherwise agreed between the departments, an original and six copies of each MIPR and its attachments (except specifications, drawings, and other data).

PGI 208.7003 Applicability.

PGI 208.7003-1 Assignments under integrated materiel management (IMM).

(b) When an item assigned for IMM is to be acquired by the requiring activity under DFARS 208.7003-1(a)(3), the contracting officer must—

(i) Document the contract file with a statement of the specific advantage of local purchase for an acquisition exceeding the micro-purchase threshold in FAR Part 2; and

(ii) Ensure that a waiver is obtained from the IMM manager before initiating an acquisition exceeding the simplified acquisition threshold in FAR Part 2, if the IMM assignment is to the General Services Administration (GSA), the Defense Logistics Agency (DLA), or the Army Materiel Command (AMC). Submit requests for waiver to—

PGI 208.7004 Procedures.

PGI 208.7004-1 Purchase authorization from requiring department.

(1) Requiring departments send their requirements to acquiring departments on either a DD Form 448, Military Interdepartmental Purchase Request (MIPR), or a DD Form 416, Requisition for Coal, Coke or Briquettes. A MIPR or a DD Form 416 is the acquiring department's authority to acquire the supplies or services on behalf of the requiring department.

(2) The acquiring department is authorized to create obligations against the funds cited in a MIPR without further referral to the requiring department. The acquiring department has no responsibility to determine the validity of a stated requirement in an approved MIPR, but it should bring apparent errors in the requirement to the attention of the requiring department.

(3) Changes that affect the contents of the MIPR must be processed as a MIPR amendment regardless of the status of the MIPR. The requiring department may initially transmit changes electronically or by some other expedited means, but must confirm changes by a MIPR amendment.

(4) The requiring department must submit requirements for additional line items of supplies or services not provided for in the original MIPR as a new MIPR. The requiring department may use a MIPR amendment for increased quantities only if—

- (i) The original MIPR requirements have not been released for solicitation; and
- (ii) The acquiring department agrees.

PGI 208.7004-2 Acceptance by acquiring department.

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

(1) Acquiring departments formally accept a MIPR by DD Form 448-2, Acceptance of MIPR, as soon as practicable, but no later than 30 days after receipt of the MIPR. If the 30 day time limit cannot be met, the acquiring department must inform the requiring department of the reason for the delay, and the anticipated date the MIPR will be accepted. The acquiring department must accept MIPRs in writing before expiration of the funds.

(2) The acquiring department in accepting a MIPR will determine whether to use Category I (reimbursable funds citation) or Category II (direct funds citation) methods of funding.

(i) Category I method of funding is used under the following circumstances and results in citing the funds of the acquiring department in the contract:

(A) Delivery is from existing inventories of the acquiring department;

(B) Delivery is by diversion from existing contracts of the acquiring department;

(C) Production or assembly is through Government work orders in Government-owned plants;

(D) Production quantities are allocated among users from one or more contracts, and the identification of specific quantities of the end item to individual contracts is not feasible at the time of MIPR acceptance;

(E) Acquisition of the end items involves separate acquisition of components to be assembled by the acquiring department;

(F) Payments will be made without reference to deliveries of end items (e.g., cost-reimbursement type contracts and fixed-price contracts with progress payment clauses); or

(G) Category II method of funding is not feasible and economical.

(ii) Category II method of funding is used in circumstances other than those in paragraph (2)(i) of this subsection. Category II funding results in citation of the requiring department's funds and MIPR number in the resultant contract.

(3) When the acquiring departments accepts a MIPR for Category I funding—

(i) The DD Form 448-2, Acceptance of MIPR, is the authority for the requiring department to record the obligation of funds;

(ii) The acquiring department will annotate the DD Form 448-2 if contingencies, price revisions, or variations in quantities are anticipated. The acquiring department will

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

periodically advise the requiring department, prior to submission of billings, of any changes in the acceptance figure so that the requiring department may issue an amendment to the MIPR, and the recorded obligation may be adjusted to reflect the current price;

(iii) If the acquiring department does not qualify the acceptance of a MIPR for anticipated contingencies, the price on the acceptance will be final and will be billed at time of delivery; and

(iv) Upon receipt of the final billing (SF 1080, Voucher for Transferring Funds), the requiring department may adjust the fiscal records accordingly without authorization from or notice to the acquiring department.

(4) When the MIPR is accepted for Category II funding, a conformed copy of the contract (see DFARS 204.802(1)(ii)) is the authority to record the obligation. When all awards have been placed to satisfy the total MIPR requirement, any unused funds remaining on the MIPR become excess to the acquiring department. The acquiring department will immediately notify the requiring department of the excess funds by submitting an Acceptance of MIPR (DD Form 448-2). This amendment is authorization for the requiring department to withdraw the funds. The acquiring department is prohibited from further use of such excess funds.

(5) When the acquiring department requires additional funds to complete the contracting action for the requiring department, the request for additional funds must identify the exact items involved, and the reason why additional funds are required. The requiring department shall act quickly to—

- (i) Provide the funds by an amendment of the MIPR; or
- (ii) Reduce the requirements.

(6) The accepting activity of the acquiring department shall remain responsible for the MIPR even though that activity may split the MIPR into segments for action by other contracting activities.

PGI 208.7004-3 Use of advance MIPRs.

(1) An advance MIPR is an unfunded MIPR provided to the acquiring department in advance of the funded MIPR so that initial steps in planning the contract action can begin at an earlier date.

(2) In order to use an advance MIPR, the acquiring department and the requiring department must agree that its use will be beneficial. The departments may execute a blanket agreement to use advance MIPRs.

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

(3) The requiring department shall not release an advance MIPR to the acquiring department without obtaining proper internal approval of the requirement.

(4) When advance MIPRs are used, mark “ADVANCE MIPR” prominently on the DD Form 448.

(5) For urgent requirements, the advance MIPR may be transmitted electronically.

(6) On the basis of an advance MIPR, the acquiring department may take the initial steps toward awarding a contract, such as obtaining internal coordination and preparing an acquisition plan. Acquiring departments may determine the extent of these initial actions but shall not award contracts on the basis of advance MIPRs.

PGI 208.7004-4 Cutoff dates for submission of Category II MIPRs.

(1) Unless otherwise agreed between the departments, May 31 is the cutoff date for the receipt of MIPRs citing expiring appropriations which must be obligated by September 30 of that fiscal year. If circumstances arise that require the submission of MIPRs citing expiring appropriations after the cutoff date, the requiring department will communicate with the acquiring department before submission to find out whether the acquiring department can execute a contract or otherwise obligate the funds by the end of the fiscal year. Acquiring departments will make every effort to obligate funds for all such MIPRs accepted after the cutoff date. However, acceptance of a late MIPR does not constitute assurance by the acquiring department that all such funds will be obligated.

(2) Nothing in these instructions is intended to restrict the processing of MIPRs when the acquiring department is capable of executing contracts or otherwise obligating funds before the end of the fiscal year.

(3) The May 31 cutoff date does not apply to MIPRs citing continuing appropriations.

PGI 208.7004-5 Notification of inability to obligate on Category II MIPRs.

On August 1, the acquiring department will advise the requiring department of any Category II MIPRs on hand citing expiring appropriations it will be unable to obligate prior to the fund expiration date. If an unforeseen situation develops after August 1 that will prevent execution of a contract, the acquiring department will notify the requiring department as quickly as possible and will return the MIPR. The letter of transmittal returning the MIPR will authorize purchase by the requiring department and state the reason that the acquisition could not be accomplished.

PGI 208.7004-6 Cancellation of requirements.

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

(1) Category I MIPRs. The requiring department will notify the acquiring department by electronic or other immediate means when cancelling all or part of the supplies or services requested in the MIPR. Within 30 days, the acquiring department will notify the requiring department of the quantity of items available for termination and the amount of funds in excess of the estimated settlement costs. Upon receipt of this information, the requiring department will issue a MIPR amendment to reduce the quantities and funds accordingly.

(2) Category II MIPRs. The requiring department will notify the acquiring department electronically or by other immediate means when cancelling all or any part of the supplies or services requested in the MIPR.

(i) If the acquiring department has not entered into a contract for the supplies or services to be cancelled, the acquiring department will immediately notify the requiring department. Upon receipt of such notification, the requiring department shall initiate a MIPR amendment to revoke the estimated amount shown on the original MIPR for the cancelled items.

(ii) If the items to be cancelled have already been placed under contract—

(A) As soon as practicable, but in no event more than 45 days after receipt of the cancellation notice from the requiring department, the contracting officer shall issue a termination data letter to the requiring department (original and four copies) containing, as a minimum, the information in Table 8-1, Termination Data Letter.

(B) The termination contracting officer (TCO) will review the proceedings at least every 60 days to reassess the Government's probable obligation. If any additional funds are excess to the probable settlement requirements, or if it appears that previous release of excess funds will result in a shortage of the amount that will be required for settlement, the TCO will promptly notify the contracting office which will amend the termination data letter. The requiring department will process a MIPR amendment to reflect the reinstatement of funds within 30 days after receiving the amended termination data letter.

(C) Upon receipt of a copy of the termination settlement agreement, the requiring department will prepare a MIPR amendment, if required, to remove any remaining excess funds.

(a) As termination action is now in progress on the above contract, the following information is submitted:

(1) Brief Description of items terminated.

(2) You are notified that the sum of \$_____ is available for release under the subject contract. This sum represents the difference between \$_____, the value of items terminated under the contract, and \$_____, estimated to be required for settlement of the terminated contract. The estimated amount available for release is allocated by the appropriations cited on the contract as follows:

(b) Request you forward an amendment to MIPR _____ on DD Form 448-2 to reflect the reduced quantity and amount of funds available for release.

(c) Periodic reviews (not less than 60 days) will be made as termination proceedings progress to redetermine the Government's probable obligation.

Contracting Officer

PGI 208.7004-7 Termination for default.

(1) When the acquiring department terminates a contract for default, it will ask the requiring department if the supplies or services to be terminated are still required so that repurchase action can be started.

(2) The requiring department will not deobligate funds on a contract terminated for default until receipt of a settlement modification or other written evidence from the acquiring department authorizing release of funds.

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

(3) On the repurchase action, the acquiring department will not exceed the unliquidated funds on the defaulted contract without receiving additional funds from the requiring department.

PGI 208.7004-8 Transportation funding.

The requiring department will advise the acquiring department or the transportation officer in the contract administration office of the fund account to be charged for transportation costs. The requiring department may cite the fund account on each MIPR or provide the funding cite to the transportation officer at the beginning of each fiscal year for use on Government bills of lading. When issuing a Government bill of lading, show the requiring department as the department to be billed and cite the appropriate fund account.

PGI 208.7004-9 Status reporting.

(1) The acquiring department will maintain a system of MIPR follow-up to inform the requiring department of the current status of its requests. In addition, the contract administration office will maintain a system of follow-up in order to advise the acquiring department on contract performance.

(2) If requested by the requiring department, the acquiring department will furnish the requiring department a copy of the solicitation when the MIPR is satisfied through Category II funding.

(3) Any reimbursement billings, shipping document, contractual documents, project orders, or related documentation furnished to the requiring department will identify the requiring department's MIPR number, quantities of items, and funding information.

PGI 208.7004-10 Administrative costs.

The acquiring department bears the administrative costs of acquiring supplies for the requiring department. However, when an acquisition responsibility is transferred to another department, funds appropriated or to be appropriated for administrative costs will transfer to the successor acquiring department. The new acquiring department must assume budget cognizance as soon as possible.

PGI 208.7006 Coordinated acquisition assignments.

PART 1--ARMY ASSIGNMENTS

<i>Federal Supply Class Code</i>	<i>Commodity</i>
	Electronic Equipment Each department is assigned acquisition responsibility for those items which the department either designed or for which it sponsored development. See FSC 5821 under Navy listings for assignment of certain commercially developed radio sets (i.e., developed without the use of Government funds).
1005 P*	Guns, through 30mm This partial assignment applies to guns, through 30mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Navy ordnance type guns; MK 11 and MK 12, 20mm gun; and aircraft gun mounts.
1010 P*	Guns, over 30mm up to 75mm This partial assignment applies to guns, over 30mm and up to 75mm, and parts and equipment therefor, as listed in Department of the Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type guns and aircraft gun mounts.
1015 P*	Guns, 75mm through 125mm This partial assignment applies to guns, 75mm through 125mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type guns.
1020 P*	Guns over 125mm through 150mm
1025 P*	Guns over 150mm through 200mm
1030 P*	Guns over 200mm through 300mm
1035 P*	Guns over 300mm These partial assignments apply to guns, over 125mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. They do not apply to Naval ordnance type guns.
1040	Chemical Weapons and Equipment
1055 P*	Launchers, Rocket and Pyrotechnic This partial assignment applies to launchers, rocket and pyrotechnic, as listed in Department of Army Supply Manuals/Catalogs does not apply to Naval ordnance type and airborne type, with the exception of 2.75 inch rocket launchers which are included in this partial FSC assignment to the Department of the Army.
1090 P	Assemblies Interchangeable Between Weapons in Two or More Classes This partial assignment applies to the following items: <i>National stock number nomenclature</i>

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

1090-563-7232	Staff Section, Class
1090-699-0633	Staff Section

1090-885-8451	Wrench Corrector
1090-986-9707	Reticle Assembly

("P" after the FSC number indicates a partial FSC assignment)

- 1095 P* Miscellaneous Weapons
This partial assignment applies to miscellaneous weapons, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type; line throwing guns (which are under DoD Coordinated Acquisition assignment to the Department of the Navy); and aircraft type miscellaneous weapons.
- 1210 P* Fire Control Directors
- 1220 P* Fire Control Computing Sights and Devices
- 1230 P* Fire Control Systems, Complete
- 1240 P* Optical Sighting and Ranging Equipment
- 1250 P* Fire Control Stabilizing Mechanisms
- 1260 P* Fire Control Designating and Indicating Equipment
- 1265 P* Fire Control Transmitting and Receiving Equipment, Except Airborne
- 1285 P* Fire Control Radar Equipment, Except Airborne
- 1290 P* Miscellaneous Fire Control Equipment
The above nine partial FSC assignments apply to fire control equipment, as listed in Department of the Army Supply Manuals/Catalogs. They do not apply to Naval ordnance type and aircraft type.
- 1305 P* Ammunition, through 30mm
This partial assignment applies to ammunition through 30mm as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type and ammunition for the MK 11 and MK 12, 20mm gun
- 1310 P* Ammunition, over 30mm up to 75mm
This partial assignment applies to ammunition, over 30mm up to 75mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type and to 40mm ammunition (which is under DoD Coordinated Acquisition assignment to the Navy). The Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.
- 1315 P* Ammunition, 75mm through 125mm
This partial assignment applies to ammunition, 75mm through 125mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type. The Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.

- 1320 P* Ammunition, over 125mm
This partial assignment applies to ammunition over 125mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type. The Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.
- 1325 P Bombs
This partial assignment applies to bombs as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Navy assigned bombs as shown in list of assignments to the Navy; however, the Department of the Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions, and for other loading, assembling, and packing in excess of Navy owned capacity.
- 1330 Grenades
- 1340 P Rockets and Rocket Ammunition
This partial assignment applies to:
66mm Rocket, HEAT, M72
2.75" Rocket FFAR, Service and Practice
Heads MK5 and Mods (HEAT)
HE, M151
HE, XM229 (17 lb Warhead)
HE, XM157 (Spotting Red)

- 1375 P Demolition Materials
This partial assignment applies to Blasting Agents and supplies such as:
Bangalore torpedo
Blocks, demolition
Caps, blasting, electric and nonelectric
Charge, cratering
Charge, shaped and demolition
Chests, demolition platoon and squad
Cord detonating
Demolition equipment sets, with ancillary items
Detonators, all types
Dynamite
Firing devices
Fuze, safety
Kit, demolition
Lighter, fuse
Machine, blasting
Primer, percussion cap
It does not apply to Navy underwater demolition requirements.
- 1376 P Bulk Explosives
This partial assignment applies to solid propellants and explosives such as:
Ammonium Picrate (Explosive D) JAN-A-166A
Trinitrotoluene (TNT) MIL-T-248A
Tetryl JAN-T-339
Pentaerythrite Tetranitrate (PETN) JAN-P-387

PGI 208—Required Sources of Supplies and Services

- 6910 P Training Aids
This partial assignment applies only to items peculiar to Army assignments under weapons, fire control equipment, ammunition and explosives, and chemical and biological warfare.
- 6920 P Armament Training Devices
This partial assignment applies to armament training devices as listed in Department of Army Catalogs SC 6910, ML/IL and SC 6920 ML/IL. It does not apply to clay pigeons in Department of Army Catalogs SC 6910, ML/IL and SC 6920 ML/IL. It does not apply to clay pigeons.
- 6940 P Communication Training Devices
This partial assignment applies only to code training sets, code practice equipment, and other telephone and telegraph training devices.
- 8130 P Reels and Spools
This partial assignment applies only to reels and spools for military (wire) equipment, field type.
- 8140 P Ammunition Boxes, Packages, and Special Containers
This partial assignment applies only to boxes, packages, and containers peculiar to Army assignments under ammunitions, explosives, and chemical and biological warfare as listed in Department of Army Catalog SC 8140 IL and SC 8140 ML.

*For contracting purposes, Naval ordnance comprises all arms, armor, and armament for the Department of the Navy and includes all offensive and defensive weapons, together with their components, controlling devices and ammunition used in executing the Navy's mission in National Defense (except small arms and those items of aviation ordnance acquired from the Army).

**These partial FSC assignments apply only to repair parts peculiar to combat and tactical vehicles. In addition, the assignment in FSC 2805 applies to military standard engines 1.5 HP through 20 HP and parts peculiar therefor. Balance of these FSCs are assigned to the Defense Logistics Agency (DLA Land and Maritime)

PART 2--NAVY ASSIGNMENTS

*Federal
Supply
Class Code*

Commodity

Electronic Equipment

Each department is assigned acquisition responsibility for those items which the department either designed or sponsored development. See FSC 5821 for assignment of certain commercially developed radio sets to the Department of the Navy (i.e., developed without the use of Government funds).

1095 P

Miscellaneous Weapons

This partial assignment applies to line throwing guns only.

1310 P

Ammunition, over 30mm up to 75mm

This partial assignment applies only to reels and spools for military.

1325 P

Bombs

This partial assignment applies to armor-piercing; depth bombs; externally suspended low drag bombs; and components and practice bombs therefor, as listed in Ord Pamphlets, and the MK 43, Target Detecting Device. The Department of the Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions, and for other loading, assembling, and packing in excess of Navy-owned capacity.

1340 P

Rockets and Rocket Ammunition

This partial assignment applies to:

Fuze, Rocket, V.T., MK93-0

2.25 inch Rocket SCAR, Practice

Heads MK3 and Mods

Motors MK15 and Mods

MK16 and Mods

5 inch Rocket HVAR, service and practice

Heads MK2 and Mods (common) MK6 and Mods (GP)

MK4 and Mods (smoke) MK25 and Mods (ATAR)

Motors MK10 and Mods

5 inch Rocket FFAR service and practice

Heads MK24 and Mods (General Purposes)

MK32 and Mods (Shaped Charged)

MK26 and Mods (Illum)

Motor MK16 and Mods

The Department of the Army is responsible for acquisition of filler and for filling of all smoke and toxicological rockets.

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

- 1390 P Fuzes and Primers
This partial assignment applies to fuzes and primers for Navy assigned ammunition.
- 1550 P Drones
This partial assignment applies only to Drone, Model BQM34E.
- (“P” after the FSC number indicates a partial FSC assignment).
- 1905 P Combat Ships and Landing Vessels
This partial assignment applies to landing vessels only.
- 1910 P Transport Vessels, Passenger and Troop
This partial assignment applies to ferryboats only.
- 1920 Fishing Vessels
- 1925 Special Service Vessels
- 1930 Barges and Lighters, Cargo
- 1935 P Barges and Lighters, Special Purpose
This partial assignment does not apply to derricks, pile drivers, rock cutters, concrete mixing plants, mechanical bank grader barges, other bank revetment barges, and barge power plants.
- 1940 Small Craft
- 1945 P Pontoons and Floating Docks
This partial assignment applies only to Naval Facilities Engineering Command type pontoons.
- 1950 Floating Drydocks
- 1990 P Miscellaneous Vessels
This partial assignment applies to commercial sailing vessels only.
- 2010 Ship and Boat Propulsion Components
- 2020 Rigging and Rigging Gear
- 2030 Deck Machinery
- 2040 Marine Hardware and Hull Items
- 2060 Commercial Fishing Equipment
- 2090 Miscellaneous Ship and Marine Equipment
- 2820 P Steam Engines, Reciprocating and Components
This partial assignment applies to marine main propulsion steam engines only.
- 2825 P Steam Turbines and Components
This partial assignment applies to marine steam turbines only.
- 4210 P Fire Fighting Equipment
This partial assignment applies only to fire fighting equipment developed by or under the sponsorship of the Department of Navy.
- 4410 P Industrial Boilers
This partial assignment applies only to boilers for use aboard those ships assigned to the Navy for coordinated acquisition.

DFARS Procedures, Guidance, and Information

PGI 208—Required Sources of Supplies and Services

- 4420 P Heat Exchangers and Steam Condensers
This partial assignment applies only to heat exchangers for use aboard those ships assigned to the Navy for coordinated acquisition.
- 4925 P Ammunition Maintenance and Repair Shop Specialized Equipment
This partial assignment applies to sets, kits, and outfits of tools and equipment for explosive ordnance as defined in military service regulations and documents.
- 5821 P Radio and Television Communication Equipment, Airborne
This partial assignment applies only to the following commercially developed radio sets. (The term “commercially developed” means that no Government funds were provided for development purposes.) HF-101, 102, 103, 104, 105, 106, 107, 108, 109, 111, 113, ARC-94, 102, 105, 110, 112, 119, 120; MRC-95, 108; VC-102, 104, 105, 106, 109, 110; and components of the foregoing including the 490T antenna coupler.
- 6125 P Converters, Electrical, Rotating
This partial assignment applies only to motor-generated sets for use aboard ships assigned to the Navy for coordinated acquisition.
- 6320 P Shipboard Alarm and Signal System
This partial assignment applies only to alarm systems, fire alarm systems, indicating systems, telegraph systems (signal and signaling) (less electronic type) for use aboard ships assigned to the Navy for coordinated acquisition.
- 6605 P Navigational Instruments
This partial assignment applies only to lifeboat and raft compasses, aircraft sextants, hand leads (soundings), lead reels, sounding machines and pelorus stands for use aboard ships assigned to the Navy for coordinated acquisition.
- 6645 P Time Measuring Instruments
This partial assignment applies to the following instruments, cases, and spare parts therefor:
 Chronometers including gimbal, padded, and make break circuit
 Clocks, alarm, boat, deck, direct reading, electrical, floor, interval timer, marine, mechanical, master control, master program, master regulating, mechanical message center, nurses, program, shelf, stop, wall, watchman's
 Counters, time period
 Meters, engine running time, hour recording, and electrical time totalizing
 Timers; bombing, engine hours, sequential, stop, and program
 Program control instrument
 Cases; chronometer, including gimbal and padded, chronometer carrying; makebreak circuit chronometer
 Cans, chronometer shipping and storage
 Clock keys; clock movements, clock motors
- 6650 P Optical Instruments
This partial assignment applies only to stands, telescope, for use aboard ships assigned to the Navy for coordinated acquisition.

FOOTNOTES:

¹ These assignments do not apply to items decentralized by the DLA Center Commander, i.e., designated for purchase by each military department, and to those items in DLA assigned federal supply classes, which may be assigned to GSA for supply management. In addition, see DFARS Subpart 208.70, which describes conditions under which a military service may purchase (contract for) military service supply managed items in DLA assigned federal supply classes. See notes 2 and 3 for further exceptions pertaining to certain DLA assignments.

² DLA assignments in FSC 2510, 2520, 2530, 2540, 2590, 2805, 2910, 2920, 2930, 2940, and 2990 do not apply to repair parts peculiar to combat and tactical vehicles, which are assigned for coordinated acquisition to the Department of the Army. In addition, the assignment in FSC 2805 does not apply to military standard engines 1.5 HP through 20 HP and parts peculiar therefor, which are assigned for coordinated acquisition to the Department of the Army.

³ This partial FSC assignment in FSC 4210 does not apply to Fire Fighting Equipment developed by or under the sponsorship of a military department. The contracting responsibility for such equipment is assigned to the department which developed or sponsored its development.

⁴ DLA has contracting responsibility for all the items in the classes of FS Group 65. In addition, DLA has contracting responsibility for all equipment and supplies related to the medical, dental, veterinary professions in Non-group 65 classes where the military medical services have the sole or prime interest in such items. The specific item coverage of these Non-group 65 items is published in the DoD section of the Federal Supply Catalog for medical material C3-1 through C3-12, inclusive.

⁵ This assignment includes health and comfort items listed in AR 700-23. It also includes resale items for commissary stores (including brand name items).

⁶ DLA centers are identified as follows—

DSCC	—	DLA Land and Maritime
DESC	—	DLA Energy

DSCR — DLA Aviation
DSCP — DLA Troop Support

DLA also serves as the head of the contracting activity for the Defense Media Center (DMC).

⁷ DLA Energy is responsible for contracting for only petroleum base items in FSC 6810 and 6850.

⁸ This partial FSC assignment in FSC 6115 does not apply to Mobile Electric Power Generating Sources (MEPGS). The contracting direction responsibility for MEPGS is assigned to the DoD Project Manager, Mobile Electric Power, by DoDD 4120.11. DoD components desiring to use other than the DoD Standard Family of Generator Sets, contained in MIL-STD 633, shall process a Request for Deviation in accordance with Joint Operating Procedures, AR 700-101, AFR 400-50, NAVMATINST 4120.100A, MCO 11310.8c and DLAR 4120.7, Subject: Management and Standardization of Mobile Electric Power Generating Sources, prior to initiating an acquisition.

⁹ This partial assignment applies only to secondary items not otherwise assigned, as listed in the applicable Federal Supply Catalog Management Data lists of each respective service.

¹⁰ This partial assignment applies to broadcasting, visual information, and graphics presentation communications equipment used by the American Forces Radio and Television Services, centralized visual information support activities, media centers, closed circuit educational and training programs, language training activities, combat camera units, and individual base visual information centers. This assignment does not apply to equipment with airborne applications. Examples of the types of equipment covered by this assignment include radio and television transmitters, video recording and playback equipment, video cameras, editing and switching equipment, electronic imaging equipment, language training equipment, monitors, audio equipment, and other nontactical, off-the-shelf, commercially available, nondevelopmental electronic equipment used to support broadcast and visual information missions.

PGI 228—Bonds and Insurance

(Revised April 21, 2014)

PGI 228.3--INSURANCE

PGI 228.304 Risk-pooling arrangements.

(1) The plan—

(i) Is implemented by attaching an endorsement to standard insurance policy forms for workers' compensation, employer's liability, comprehensive general, and automobile liability. The endorsement states that the instant policy is subject to the National Defense Projects Rating Plan.

(ii) Applies to eligible defense projects of one or more departments/agencies. For purposes of this section, a defense project is any eligible contract or group of contracts with the same contractor.

(A) A defense project is eligible when—

(1) Eligible contracts represent, at the inception of the plan, at least 90 percent of the payroll for the total operations at project locations; and

(2) The annual insurance premium is estimated to be at least \$10,000.

(B) A contract is eligible when it is—

(1) Either domestic or foreign;

(2) Cost-reimbursement type; or

(3) Fixed price with redetermination provisions.

(2) Under construction contracts, include construction subcontractors in the prime contractor's plan only when subcontractor operations are at the project site, and the subcontract provides that the prime contractor will furnish insurance.

(3) Use the agreement in Table 28-1, Insurance Rating Plan Agreement, when the Government assumes contractor premium payments upon contract termination or completion.

(4) The Federal Tort Claims Act provides protection for Government employees while driving Government-owned vehicles in the performance of their assigned duties. Include the endorsement in Table 28-2, Automobile Insurance Policy Endorsement, in automobile liability insurance policies provided under the National Defense Projects Rating Plan.

DFARS Procedures, Guidance, and Information

PGI 245—Government Property

(Revised April 21, 2014)

PGI 245.1 - GENERAL

PGI 245.102-70 Policy.

(1) A basic principle of the Federal Acquisition Regulations System is that, upon contract award, contractors bring all the necessary organization, experience, accounting and operational controls, property, and technical skills, or the ability to obtain them (reference FAR 9.104-1 (e), (f), and (g) of General Standards). Therefore, upon contract award, responsible contractors should have the means to provide effective and efficient stewardship of Government property.

(2) For the purpose of this PGI, "Government property" is personal property owned by the Government and furnished to a contractor, or acquired by a contractor and title vests in the Government. Government property does not include property under any statutory leasing authority (except as to non-Government use of property under FAR 45.301(f)); property to which the Government has acquired a lien or title solely because of partial, advance, progress, or performance-based payments; software; or intellectual property. It does not include property that is incidental to the place of performance; such as when the contract requires contractor personnel to be located on a Government site or installation where the use of Government-provided office space and equipment, e.g., chairs, telephones, and computers, is standard practice.

PGI 245.103 General.

PGI 245.103-70 Furnishing Government property to contractors.

(1) The requiring activity (project or program manager, or purchase request generator), as part of its responsibility for acquisition planning (FAR part 7, Acquisition Planning), is the decision point as to whether or not to furnish property to contractors. The basis for any decision to provide Government property shall be documented by the requiring activity and provided to the contracting officer. Such documentation is not required when contractors are furnished property for repair, modification, or overhaul under a contract.

(2) Prior to furnishing Government property to the contractor, the contracting officer shall ensure that each of the requirements of FAR 45.102 are addressed as follows, and documented in the contracting file—

(i) *Element 1: In the Government's best interest.* Discussion should be specific, factual, and where necessary, address actual or projected dollars and percentages. Merely selecting one or two objectives supported by a general, perfunctory discussion does not address this element satisfactorily. Discussion should address the following factors:

(A) Economy – Furnishing Government property is the lowest cost or price alternative.

(B) Standardization – There is a critical need for precise replication.

DFARS Procedures, Guidance, and Information

PGI 245—Government Property

(C) Security – Government property is needed due to national security issues/concerns.

(D) Expedite production – Government property is crucial to achieving timely or accelerated delivery of a supply item or service.

(E) Scarcity – The Government can obtain scarce items, or is the only source of property necessary for successful execution of a contract.

(F) Maintain the industrial base – Government property is needed to ensure future capability to obtain a particular supply item or service.

(G) Contract type – Government property will enable the Government to obtain a more favorable contract type.

(ii) *Element 2: Overall benefit.* Demonstrate that the overall benefit to the acquisition significantly outweighs the increased cost of administration, including property disposal.

(A) Property in the hands of contractors drives program costs. Therefore, in order to make the case that providing Government property to the contractor is worthwhile, the associated costs must be considered and the business decision justified. The costs of Government property removal and disposal, including demilitarization and disposal of environmentally-regulated property, must be included.

(B) Costs must be either less than what the contractor might otherwise incur, or the demonstrated benefit to the Government must outweigh these additional contract costs.

(iii) *Element 3: Government assumption of risk.* Demonstrate that providing the property does not substantially increase the Government's risk.

(A) Risk must be discussed and documented. A risk analysis is warranted to demonstrate that the Government is not substantially increasing its risk. For example, when furnishing Government property, the Government is ordinarily responsible for suitability of use, timely delivery, and replacement of defective Government property.

(B) Other risks may need to be considered, discussed, and documented.

(iv) *Element 4: Government requirements cannot otherwise be met.* Document why the furnishing of Government property is critical and significant to meeting acquisition plan objectives.

PGI 245.103-71 Transferring Government property accountability.

(1) Government property can only be transferred from one contract to another when firm requirements exist under the gaining contract (see FAR 45.102, Policy.). Such transfers shall be documented by modifications to both gaining and losing contracts. (Note: This also applies to orders issued under the same contract.) Once transferred, all property

DFARS Procedures, Guidance, and Information

PGI 245—Government Property

shall be considered Government-furnished property (GFP) when retained by the contractor for continued use under the gaining contract.

(2) The warranties of suitability of use and timely delivery of do not apply to GFP acquired or fabricated by the contractor as contractor-acquired property that is subsequently transferred to another contract with the same contractor.

(3) Maintaining property on an existing contract beyond completion of delivery performance or service completion is prohibited.

(4) It is the responsibility of contracting officers/item managers to ensure that Government property transfers are properly reported electronically, including the initial furnishing by DoD of Government property and the subsequent transfer of such property to other contracts/contractors, or its return to the Government. DoD or contractor-operated logistics systems using Defense Logistics Management System (DLMS)-enhanced reporting capability, to include authorizing contract number and Item Unique Identification (IUID), when applicable, shall be employed to report initial shipment, receipt acknowledgement, or return of items of supply in accordance with MILSTRIP and Military Standard Transaction Reporting and Accounting Procedure(s) (MILSTRAP). Such use of the DLMS will satisfy Government property transfer reporting requirements. For other Government property items where the DLMS is not applicable, the DoD Wide-Area Workflow (WAWF) Government property transfer system functionality should be used to accomplish reporting requirements. For information on DLMS, MILSTRIP, and MILSTRAP, see http://www.dla.mil/j-6/dlmso/eLibrary/Manuals/dlmso_pubs.asp and click on DoD 4000.25-M, DoD 4000.25-1-M, and DoD 4000.25-2-M, respectively. For information on WAWF, see <https://wawf.eb.mil/>; under the Navigation Menu on the left, there is an "About WAWF" link. Click on "list of options" to learn more about WAWF. One of those links is "Access Web-Based Training (External Link)." That link will take the user to <http://wawftraining.com>. This is a web-based, computer-based training type course that includes a section on "Property Shipment and Receipt."

PGI 245.103-72 Government-furnished property attachments to solicitations and awards.

(a) When Government-furnished property (GFP) is anticipated, include the fillable electronic "Requisitioned Government Furnished Property" and/or "Scheduled Government Furnished Property" formats provided at the URLs listed in paragraphs (b) and (c) in solicitations and awards to—

(1) Specify the required GFP data elements; and

(2) Accomplish the electronic transmission of requisitioned GFP lists and/or scheduled GFP lists.

PGI 245.105 Contractors' property management system compliance.

(d) *Disposition of findings.*

(2) *Initial determination.*

(ii)(A) Within 10 days of receiving the report, if the contracting officer makes a determination that there is a significant deficiency, the contracting officer should provide an initial determination of deficiencies and a copy of the report to the contractor and require the contractor to submit a written response.

(C) *Evaluation of contractor's response.* Within 30 days of receiving the contractor's response, the contracting officer, in consultation with the auditor or cognizant functional specialist, should evaluate the contractor's response and make a final determination.

(3) *Final Determination.*

(ii)(A) *Monitoring contractor's corrective action.* The contracting officer and property administrator shall monitor the contractor's progress in correcting deficiencies. If the contractor fails to make adequate progress, the contracting officer shall take whatever action is necessary to ensure that the contractor corrects the deficiencies. Examples of

DFARS Procedures, Guidance, and Information

PGI 245—Government Property

actions the contracting officer can take are: withdraw or withhold approval of the system; bringing the issue to the attention of higher level management, implementing or increasing the withholding in accordance with the clause at [252.242-7005](#), Contractor Business Systems, and recommending non-award of potential contracts.

(B) *Correction of significant deficiencies.*

(1) When the contractor notifies the contracting officer that the contractor has corrected the significant deficiencies, the contracting officer shall request the property administrator to review the correction to determine if the deficiencies have been resolved.

(2) The contracting officer shall determine if the contractor has corrected the deficiencies.

(3) If the contracting officer determines the contractor has corrected the deficiencies, the contracting officer's notification shall be sent to the property administrator; auditor; payment office; appropriate action officers responsible for reporting past performance at the requiring activities; and each contracting and contract administration office having substantial business with the contractor as applicable.
