SUPPLEMENTARY INFORMATION:

I. Background

DoD is proposing to revise the DFARS to implement section 807 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2008, Public Law 110-181 (10 U.S.C. 2330a), which requires the Secretary of Defense to submit to Congress an annual inventory of the activities performed during the preceding fiscal year pursuant to contracts for services for or on behalf of the DoD, to include direct labor hours and cost data collected from contractors.

II. Discussion

This rule proposes to require contractors to report service contract direct labor and corresponding dollar value data for prime contractors and subcontractors in the Enterprise-wide Contractor Manpower Reporting Application (ECMRA) database annually or at the end of contract performance, whichever comes first. Data collected via the ECMRA database will enable DoD to identify and track the services provided by contractors and comply with section 807 of the NDAA for FY 2008.

The rule proposes to amend DFARS parts 212, 237, and 252 as follows:

- At DFARS 212.301, the proposed DFARS clause 252.237-70XX, Service Contract Reporting Requirements, is added to apply to solicitations and contracts for the acquisition of commercial items.
- At DFARS 237.17X, a new section is added that provides the scope and applicability of the DoD service contract

reporting requirement. Additionally, the contracting officer's or contracting officer's representative's duties for ensuring and documenting compliance are outlined. The reporting requirements contained in the proposed rule apply to all solicitations, contracts, and task and delivery orders, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items if the acquisition is for the provision of (1) services with a total estimated value exceeding the simplified acquisition threshold, or (2) supplies that contain separate line items for services with a total estimated value exceeding the simplified acquisition threshold. Exceptions are provided for construction of structures and facilities, lease/rental of equipment or facilities, utilities, freight and shipping, and classified services.

- A new clause is added, 252.237–XX, Service Contract Reporting Requirements, which contains the DoD service contract reporting requirement. Data subject to this clause must be entered into the ECMRA database no later than October 31st each year or at the end of the contract performance period, whichever comes first. Contractors are required to include the substance of the clause in subcontracts that may include services.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD does not expect this proposed rule to have a significant impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the data collection requirement has been tailored to maximize the use of existing records already maintained by contractors. However, an Initial Regulatory Flexibility Act analysis has

been prepared and is summarized as follows:

This DFARS case was initiated to implement the contractual reporting requirements that originate from Title 10, United States Code (U.S.C.), section 2330a titled *Procurement of Services: Tracking of Purchases*. Section 2330a requires the Secretary of Defense to submit to Congress, no later than June 30th of each fiscal year, an annual inventory of service contracts performed during the preceding fiscal year.

This rule establishes the contractual requirement for contractors to report manpower data for prime contractors and subcontractors for each purchase of services in excess of the simplified acquisition threshold on an annual basis or at the end of contract performance, whichever comes first. To streamline reporting, the rule incorporates the use of a DoD-developed software application, Enterprise-wide Contractor Manpower Reporting Application (ECMRA). The rule exempts the following from reporting:

- Construction of structures and facilities.
- Lease and rentals of equipment or facilities.
- Utilities.
- Freight and shipping.
- Classified services.

DoD will use the reported manpower data to fulfill its statutory reporting requirement to Congress pursuant to 10 U.S.C. 2330a. Access to this data will provide DoD with the ability to identify and report the inventory of contractor full-time equivalent direct labor and associated costs for service contract actions. As an adjunct, the information will support DoD's total force management and in making strategic workforce planning decisions pursuant to 10 U.S.C. 129a. The information will also enable DoD to comply with 10 U.S.C. 235. The information collection stemming from DFARS clause, 252.237–70XX, Service Contract Reporting Requirements, requires contractors to enter manpower reporting data into ECMRA. The contractor data entry includes contract and order details, such as location of services including product service codes, and direct labor hours and dollars invoiced amounts for each reportable contract action.

The reporting requirement applies to all classes of small business concerns with DoD contracts or subcontracts that contain service requirements that exceed the simplified acquisition threshold. Based on a review of Fiscal Year 2013 data from the Federal Procurement Data System (FPDS), it is estimated that the total number of small

businesses that will be impacted by this rule is 7,962. This requirement is not expected to impose a significant economic burden on small business concerns.

The burden applied to small businesses is the minimum consistent with applicable laws, Executive Orders, regulations and prudent business practices. The information collection requirement has been refined to maximize the use of existing records already maintained by contractors and by the Government. To further minimize the impact, the information will be collected electronically, help-desk support will be provided to users, and reporting requirements will be limited to a small number of easy-to-obtain data elements. The ECMRA database makes maximum use of drop-down menus and pre-populated data fields. For example, award information such as whether the contract or order is performance based, the extent of competition, or award made to a small business, contract funding and organization information will be pre-populated by the COR. No additional alternatives were identified that would reduce impact on small business and still accomplish the objectives of the statute and the policies.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2012–D051), in correspondence.

V. Paperwork Reduction Act

The rule contains information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35). Accordingly, DoD has submitted a request for approval of a new information collection requirement concerning DFARS Case 2012–D051, DoD Service Contract Reporting Requirements, to the Office of Management and Budget. Once cleared by OMB, the information collection associated with DFARS Case 2012–D051 will supersede OMB Control Number 0704–0491 titled *DoD Inventory of Contracts for Services Compliance*, which expires on May 31, 2015, and which is not associated with rulemaking.

A. Public reporting burden for this collection of information is estimated to average 1.4 hours per response,

including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden estimated as follows:

Respondents: 13,269.

Responses per respondent: approximately 4.1.

Total annual responses: 54,234.

Average hours per response: 1.4 hours.

Total response Burden Hours: 76,141.

B. Request for Comments Regarding Paperwork Burden. Written comments and recommendations on the proposed information collection, including suggestions for reducing this burden, should be sent to Ms. Jasmeet Sehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503, or email Jasmeet_K_Sehra@omb.eop.gov, with a copy to the Defense Acquisition Regulations System, Attn: Ms. Janetta Brewer, OUSD(AT&L)DPAP/DARS, Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060. Comments can be received from 30 to 60 days after the date of this notice, but comments to OMB will be most useful if received by OMB within 30 days after the date of this notice.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the DFARS, and will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Acquisition Regulations System, Attn: Ms. Janetta Brewer, OUSD(AT&L)DPAP/DARS, Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060, or email osd.dfars@mail.mil. Include DFARS Case 2012-D051 in the subject line of the message.

RIN 0648-BD48

Fisheries of the Exclusive Economic Zone Off Alaska; Chinook Salmon Bycatch Management in the Gulf of Alaska Non-Pollock Trawl Fishery; Amendment 97

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of fishery management plan amendment; request for comments.

SUMMARY: The North Pacific Fishery Management Council has submitted Amendment 97 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP). If approved, Amendment 97 would limit Chinook salmon prohibited species catch (PSC) in the Western and Central Gulf of Alaska (GOA) non-pollock trawl fisheries. This action would establish separate Chinook salmon PSC annual limits for the non-pollock trawl catcher vessel (CV) and catcher/processor (C/P) sectors and a seasonal limit for the C/P sector. The CV sector PSC limit would be further divided between vessels participating in the Central GOA Rockfish Program and vessels not participating in the Central GOA

Rockfish Program. If a sector reached its seasonal or annual Chinook salmon PSC limit, NMFS would prohibit further directed fishing for non-pollock groundfish by vessels in that sector for the remainder of the season or fishing year. This proposed action would also establish salmon retention and discard requirements for vessels, shoreside processors and stationary floating processors participating in the non-pollock groundfish fisheries. The combination of these retention requirements will enable accurate reporting of salmon in eLandings at the processor. Salmon accounting at a processor may assist the industry in tracking and cooperatively managing its Chinook salmon PSC. This action is necessary to minimize the catch of Chinook salmon to the extent practicable in the Western and Central GOA non-pollock trawl fisheries. Amendment 97 is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act, the FMP, and other applicable laws.

DATES: Comments on the amendment must be received on or before August 4, 2014.

ADDRESSES: You may submit comments on this document, identified by FDMS Docket Number NOAA-NMFS-2013-0077 by either of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2013-0077, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.
- **Mail:** Submit written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Mail comments to P.O. Box 21668, Juneau, AK 99802-1668.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in

Microsoft Word, Excel, or Adobe PDF file formats only.

Electronic copies of the Environmental Assessment/Regulatory Impact Review/Initial Regulatory Flexibility Analysis (collectively, Analysis) prepared for this action are available from <http://www.regulations.gov> or from the NMFS Alaska Region Web site at <http://alaskafisheries.noaa.gov>.

FOR FURTHER INFORMATION CONTACT: Jeff Hartman, 907-586-7228.

SUPPLEMENTARY INFORMATION: The Magnuson-Stevens Fishery Conservation and Management Act (MSA) requires that each regional fishery management council submit any fishery management plan amendment it prepares to NMFS for review and approval, disapproval, or partial approval by the Secretary of Commerce. The MSA also requires that NMFS, upon receiving a fishery management plan amendment, immediately publish a notice in the **Federal Register** announcing that the amendment is available for public review and comment. This notice announces that proposed Amendment 97 to the FMP is available for public review and comment.

The groundfish fisheries in the exclusive economic zone of the GOA are managed under the FMP. The FMP was prepared by the North Pacific Fishery Management Council (Council) under the MSA. Amendment 97 would apply Chinook salmon PSC limits to Federally-permitted vessels fishing for groundfish other than pollock with trawl gear (non-pollock trawl fisheries) in the Western and Central Reporting Areas of the Gulf of Alaska (Western and Central GOA). The Western and Central Reporting Areas, defined at § 679.2 and shown in Figure 3 to 50 CFR part 679, consist of the Western and Central Regulatory Areas in the exclusive economic zone (Statistical Areas 610, 620, and 630) and the adjacent waters of the State of Alaska (0 to 3 nm).

If approved, Amendment 97 would: (1) Establish annual Chinook salmon PSC limits for the Trawl C/P, Rockfish Program CV, and Non-Rockfish Program CV Sectors; (2) establish an "incentive buffer" for the Trawl C/P and Non-Rockfish Program CV Sectors that would allow each sector to increase its annual Chinook salmon PSC limit if the amount of Chinook salmon PSC taken in the sector in the previous year was less than a specified amount of the sector's limit; (3) establish a seasonal limit on the amount of Chinook salmon PSC that could be taken in the Trawl C/P Sector
