PGI 204—Administrative Matters

(Revised June 24, 2014)

PGI 204.71—UNIFORM CONTRACT LINE ITEM NUMBERING SYSTEM

PGI 204.7103 Contract line items.

(a) Separately identifiable contract line and subline items (i.e., all except those with characteristics described in DFARS [204.7103-1\(a\)\(2\)\(iii\)](#) or [204.7104-1\(a\)](#)) shall include a description of the item or service being procured, the associated Product or Service Code (PSC), the quantity, a unit of measure, defined acceptance and inspection locations and requirements, and the delivery schedule or performance period.

(1) The list of active PSCs is available on the Federal Procurement Data System website under the '[Worksite](#)' section under 'Reference'.

(2) The list of available units of measure is on the Defense Procurement and Acquisition Policy website at http://www.acq.osd.mil/dpap/pdi/eb/docs/Line_Item_UoM_List.xlsx.

(3) Delivery and acceptance locations shall be defined using Activity Address Codes published in (1) DoD Activity Address Directory (DODAAD), DoD 4000.25-6-M, or (2) Military Assistance Program Address Directory System (MAPAD), DoD 4000.25-8-M and available for verification at <https://www.daas.dla.mil/daasing/default.asp>.

(4) No activity shall be assigned acceptance responsibility unless that activity has acceptors registered in Wide Area WorkFlow (WAWF). Available roles for an Activity Address Code can be verified at the Active DoDAACs & Roles link on the WAWF homepage at <https://wawf.eb.mil/>.

(b) Fixed price line items shall include unit prices and total prices. Cost type line items shall not include unit prices, but shall contain the appropriate elements in accordance with FAR part 16. Not separately priced line items shall be so labeled. The notation "No Charge" shall not be used.

(c) The requirements at paragraph (a) and (b) shall be included in the appropriate parts of the contract Schedule.

(d) In structuring line items, especially on fixed-price contracts, due consideration shall be given to the effect of the chosen units of measure on administration and payment. No contract line item shall contain a quantity less than the number of deliveries anticipated on the line item. Contracting officers shall consider the need for periodic deliveries and payments in selecting a unit of measure. Included in this analysis shall be the impact of any financing arrangements under FAR part 32.

DFARS Procedures, Guidance, and Information

PGI 204—Administrative Matters

(i) Supplies: Line item quantities shall match the actual count of the supplies to be provided. For instance, if more than one delivery is expected, the quantity cannot be “1.”

(ii) Services: Line item quantities shall match the frequency with which performance will be reviewed, and on fixed-price line items, payment made. For example, a contract with a twelve-month period of performance should have a quantity and unit of measure suited to how the contract will be managed. If the intent is to review, accept, and pay for the services monthly, then the quantity should be 12, with a unit of measure such as “Months” or “Lots.” If the intent is to review, accept, and pay for the services quarterly, then the quantity should be 4, with a unit of measure such as “Lot”. If the quantity used is 1, then no payment for delivery can occur until the end of the period of performance. Services with tangible deliveries, such as repairs, shall be structured like supply line items.

(e) The following examples illustrate when the requirements at paragraph (a) apply—

(1) Separately identifiable subline items. The rule applies to subline items 0001AA and 0001AB. It does not apply to the line item 0001, because it does not have a deliverable.

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Widgets				
0001AA	Red painted widgets	6	EA	\$10.00	\$60.00
0001AB	Unpainted widgets	6	EA	\$9.50	\$57.00

(2) Informational subline items. The rule applies to line item 0001. It does not apply to subline items 000101, 000102, and 000103 because they do not have deliverables.

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Widget implementation Joint Service Study	1	LOT	\$60,000	\$60,000
000101	Army funding (AA: \$20,000)				
000102	Navy funding (AB: \$20,000)				
000103	Air Force funding (AC: \$20,000)

(3) Line item with no subline items. The rule applies.

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Red painted widgets	6	EA	\$10.00	\$60.00

(4) Line item is parent to an exhibit. The rule applies to the exhibit lines.

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	See exhibit A (\$117.00)				
A001	Red painted widgets	6	EA	\$10.00	\$60.00
A002	Unpainted widgets	6	EA	\$9.50	\$57.00

(5) Line is parent to a subline item which refers to an exhibit. The rule applies to the exhibit lines.

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Widget program				
0001AA	Design and develop widgets	1	LOT	\$500.00	\$500.00
0001AB	See exhibit A (\$117.00)				
A001	Red painted widgets	6	EA	\$10.00	\$60.00
A002	Unpainted widgets	6	EA	\$9.50	\$57.00

PGI 204.7103-2 Numbering procedures.

(a) Contract line items shall consist of four numeric digits 0001 through 9999. Do not use numbers beyond 9999. Within a given contract, the item numbers shall be sequential but need not be consecutive.

(b) The contract line item number shall be the same as the solicitation line item number unless there is a valid reason for using different numbers.

(c) Once a contract line item number has been assigned, it shall not be assigned to another, different, contract line item in the same contract.

PGI 204.7104 Contract subline items.

PGI 204.7104-2 Numbering procedures.

DFARS Procedures, Guidance, and Information

PGI 204—Administrative Matters

(a) Number subline items by adding either two numeric characters or two alpha characters to the basic contract line item number.

(1) *Information subline item numbers.* Use numeric characters only for information subline items, running 01 through 99. Do not use spaces or special characters to separate the subline item number from the contract line item number that is its root. For example, if the contract line item number is 0001, the first three subline items would be 000101, 000102, and 000103. Do not use a designation more than once within a contract line item.

(2) *Separately identified subline items.* Use alpha characters only for separately identified subline items, running AA through ZZ. Do not use spaces or special characters to separate the subline item number from the contract line item number that is its root. For example, if the contract line item number is 0001, the first three subline items would be 0001AA, 0001AB, and 0001AC.

(i) Do not use the letters I or O as alpha characters.

(ii) Use all 24 available alpha characters in the second position before selecting a different alpha character for the first position. For example, AA, AB, AC, through AZ before beginning BA, BB, and BC.

(b) Within a given contract line item, the subline item numbers shall be sequential but need not be consecutive.

(c) Exhibits may be used as an alternative to setting forth in the schedule a long list of contract subline items. If exhibits are used, create a contract subline item citing the exhibit's identifier. See DFARS [204.7105](#).

(d) If a contract line item involves ancillary functions, like packaging and handling, transportation, payment of state or local taxes, or use of reusable containers, and these functions are normally performed by the contractor and the contractor is normally entitled to reimbursement for performing these functions, do not establish a separate subline item solely to account for these functions. However, do identify the functions in the contract schedule. If an offeror separately prices these functions, the contracting officer may establish separate subline items for the functions; however, the separate subline items must conform to the requirements of DFARS [204.7104-1](#).

(e) The following examples illustrate subline items numbering—

(1) Subline items structured to identify destinations for identical items, identically priced (delivery schedule shall be established for each subline item, not the contract line item).

PGI 204.7105 Contract exhibits and attachments.

(a) *Use of exhibits.*

(1) Exhibits may be used instead of putting a long list of contract line items or subline items in the contract schedule. Exhibits are particularly useful in buying spare parts.

(2) When using exhibits, establish a contract line or subline item and refer to the exhibit.

(3) Identify exhibits individually.

(4) Each exhibit shall apply to only one contract line item or subline item.

(5) More than one exhibit may apply to a single contract line item.

(6) Data items on a DD Form 1423, Contract Data Requirements List, may be either separately priced or not separately priced.

(i) Separately priced. When data are separately priced, enter the price in Section B of the contract.

(ii) Not separately priced. Include prices in a priced contract line item or subline item.

(7) The contracting officer may append attachments to exhibits, as long as the attachment does not identify a deliverable requirement that has not been established by a contract line item or subline item or exhibit line item.

(8) Include exhibit line items and associated information in the electronically distributed contract documents identified in [PGI 204.201\(3\)\(i\)\(A\)](#) and (B).

(b) *Numbering exhibits and attachments.*

(1) Use alpha characters to identify exhibits. The alpha characters shall be either single or double capital letters. Do not use the letters I or O.

(2) Once an identifier has been assigned to an exhibit, do not use it on another exhibit in the same contract.

(3) The identifier shall always appear in the first or first and second positions of all applicable exhibit line item numbers.

DFARS Procedures, Guidance, and Information

PGI 204—Administrative Matters

(4) If the exhibit has more than one page, cite the procurement instrument identification number, exhibit identifier, and applicable contract line or subline item number on each page.

(5) Use numbers to identify attachments.

(c) *Numbering exhibit line items.*

(1) Criteria for establishing. The criteria for establishing exhibit line items are the same as those for establishing contract line items (see DFARS [204.7103](#)).

(2) Procedures for numbering.

(i) Number items in an exhibit in a manner similar to contract line items.

(ii) Number line items using a four-position number.

(A) The first position or the first and second position contain the exhibit identifier.

(B) The third and fourth positions contain the alpha or numeric character serial numbers assigned to the line item when using a double letter exhibit identifier. The second, third and fourth positions contain the alpha or numeric character serial numbers assigned to the line item when using a single letter exhibit identifier.

(iii) Exhibit line item numbers shall be sequential within the exhibit.

(3) Examples.

(i) Two-position serial number for double letter exhibit identifier.

PGI 204.7107 Contract accounting classification reference number (ACRN) and agency accounting identifier (AAI).

(a) Establishing the contract ACRN.

(1) The contracting office issuing the contract is responsible for assigning ACRNs. This authority shall not be delegated. If more than one office will use the contract (e.g., ordering officers, other contracting officers), the contract must contain instructions for assigning ACRNs.

(2) ACRNs shall be established in accordance with the following guidelines:

(i) Do not use the letters I and O.

(ii) In no case shall an ACRN apply to more than one accounting classification citation, nor shall more than one ACRN be assigned to one accounting classification citation.

(b) *Establishing an AAI.* An AAI, as detailed <http://www.acq.osd.mil/dpap/policy/policyvault/USA002246-09-DPAP.pdf>, is a six-digit data element that identifies a system in which accounting for specific funds is performed. The funding office will provide to the contracting office the AAI associated with the funding for each line item.

(c) *Capturing accounting and appropriations data in procurement.* Procurement instruments shall identify the funding used for the effort in one of two ways.

(1) In legacy system environments where the contracting and accounting processes are not sufficiently integrated to ensure use of the Procurement Instrument Identification Numbers (PIINs) (see DFARS [204.70](#)) and line item numbers as common keys, the contract shall include the accounting and appropriations data and ACRN as follows:

(i) Show the ACRN as a detached prefix to the accounting classification citation in the accounting and appropriations data block or, if there are too many accounting classification citations to fit reasonably in that block, in section G (Contract Administration Data).

DFARS Procedures, Guidance, and Information

PGI 204—Administrative Matters

(ii) ACRNs need not prefix accounting classification citations if the accounting classification citations are present in the contract only for the transportation officer to cite to Government bills of lading.

(iii) If the contracting officer is making a modification to a contract and using the same accounting classification citations, which have had ACRNs assigned to them, the modification need cite only the ACRNs in the accounting and appropriations data block or on the continuation sheets.

(iv) *Showing the ACRN in the contract.* If there is more than one ACRN in a contract, all the ACRNs will appear in several places in the schedule (e.g., ACRN: AA).

(A) *Ship-to/mark-for block.* Show the ACRN beside the identity code of each activity in the ship-to/mark-for block unless only one accounting classification citation applies to a line item or subline item. Only one ACRN may be assigned to the same ship-to/mark-for within the same contract line or subline item number unless multiple accounting classification citations apply to a single nonseverable deliverable unit such that the item cannot be related to an individual accounting classification citation.

(B) *Supplies/services column.*

(1) If only one accounting classification citation applies to a line item or a subline item, the ACRN shall be shown in the supplies/services column near the item description.

(2) If more than one accounting classification citation applies to a single contract line item, identify each assigned ACRN and the amount of associated funds using informational subline items (see DFARS [204.7104-1\(a\)](#)).

(2) The contract shall include AAls and ACRNs in system environments where the accounting systems are able to use PIINs and line item numbers as common keys to enable traceability of funding to contract actions. Include AAls and ACRNs as follows:

(i) *Showing the ACRN in the contract.* If there is more than one ACRN in a contract, all the ACRNs will appear in several places in the schedule (e.g., ACRN: AA).

(A) *Ship-to/mark-for block.* Show the ACRN beside the identity code of each activity in the ship-to/mark-for block unless only one

accounting classification citation applies to a line item or subline item. Only one ACRN may be assigned to the same ship-to/mark-for within the same contract line or subline item number unless multiple accounting classification citations apply to a single nonseverable deliverable unit such that the item cannot be related to an individual accounting classification citation.

(B) *Supplies/services column.*

(1) If only one accounting classification citation applies to a line item or a subline item, the ACRN shall be shown in the supplies/services column near the item description.

(2) If more than one accounting classification citation applies to a single contract line item, identify each assigned ACRN and the amount of associated funds using informational subline items (see DFARS [204.7104-1\(a\)](#)).

(ii) *Showing the AAI in the contract.* If there is more than one AAI in a contract, show the AAI in the supplies/services column of the Schedule next to the ACRN. A sample showing the AAI is as follows:

MI	ITEM	SUPPLIES/SERVICES	QUANTITY	UNIT	UNIT PRICE	AMOUNT

PGI 204.7108 Payment instructions.

(a) *Scope.* This section applies to contracts and any separately priced orders that--

(1) Include contract line items that are funded by multiple accounting classification citations for which a contract line item or items are not broken out into separately identifiable

DFARS Procedures, Guidance, and Information

PGI 204—Administrative Matters

subline items (informational subline items are not separately identifiable subline items);

- (2) Contain cost-reimbursement or time-and-materials/labor-hour line items; or
- (3) Authorize financing payments.

(b) For contracts and orders covered by this subpart, the contracting officer shall insert numbered instructions in Section G (Contract Administration Data), to permit the paying office to charge the accounting classification citations assigned to that contract line item (see DFARS [204.7104-1\(a\)](#)) in a manner that reflects the performance of work on the contract. When incorporating clauses by reference in Section G, cite the clause number, title, and date. If additional accounting classification citations are subsequently added, the payment instructions must be modified to include the additional accounting classification citations. Also, contracting officers shall not issue modifications that would create retroactive changes to payment instructions. All payment instruction changes shall be effective as of the date of the modification. When some, but not all, of the fixed price line items in a contract are subject to contract financing payments, the contracting officer shall clearly identify to which line items the payment clause(s) included in Section I apply.

(c) Payment instructions—

(1) Shall provide a methodology for the payment office to assign payments to the appropriate accounting classification citation(s), based on anticipated contract work performance;

(2) Shall be consistent with the reasons for the establishment of separate contract line items;

(3) Shall be selected from those provided in paragraph (d) of this section;

(4) Shall be revised to address the impact of changes to contract funding or significant disparities between existing instructions and actual contract performance;

(5) Shall state at what level (contract, contract line, subline, exhibit line, or ACRN) the payment instructions should be applied;

(6) Shall not be mixed within a level by contract type. For example, if the instructions apply at the contract level, there can be only one payment instruction for each contract type. If the instructions apply at the contract line or subline level, there can only be one payment instruction per contract line or subline item;

(7) For contracts or orders that contain a combination of fixed-price, cost-reimbursement, and/or time-and-materials/labor-hour line items, shall at a minimum include separate instructions for each contract type of contract line item (e.g., contract-

wide proration for fixed-price line items and contract-wide ACRN level for cost-reimbursement line items;

(8) For contracts or orders that contain foreign military sales requirements, shall include instructions for distribution of the contract financing payments to each country's account; and

(9) Shall use one of the standard payment instructions in paragraphs (d)(7) through (11) of this section unless the contracting officer documents in the contract file that there are significant benefits of requiring contractor identification of the contract line item on the payment request.

(d) The numbered payment instructions ((d)(1) through (12)) below correspond to the automated payment instructions in the supporting systems; therefore, care should be exercised when identifying the numbered instructions below in Section G of the contract. Include either one contract-wide instruction or one or more line item specific instructions. The contracting officer shall not use a combination of contract-wide and line item specific instructions.

(1) *Line item specific: single funding.* If there is only one source of funding for the contract line item (i.e., one ACRN), insert the following:

252.204-0001 Line Item Specific: Single Funding. (SEP 2009)

The payment office shall make payment using the ACRN funding of the line item being billed.

(2) *Line item specific: sequential ACRN order.* If there is more than one ACRN within a contract line item (i.e., informational subline items contain separate ACRNs), and the contracting officer intends funds to be liquidated in ACRN order, insert the following:

252.204-0002 Line Item Specific: Sequential ACRN Order. (SEP 2009)

The payment office shall make payment in sequential ACRN order within the line item, exhausting all funds in the previous ACRN before paying from the next ACRN using the following sequential order: Alpha/Alpha; Alpha/numeric; numeric/alpha; and numeric/numeric.

PGI 204—Administrative Matters

(3) *Line item specific: contracting officer specified ACRN order.* If there is more than one ACRN within a contract line item, (i.e. informational sub-line items contain separate ACRNs), and the contracting officer intends the funds to be liquidated in a specified ACRN order, insert the following, including the specified order in the instruction:

252.204-0003 Line Item Specific: Contracting Officer Specified ACRN Order. (SEP 2009)

The payment office shall make payment within the line item in the sequence ACRN order specified below, exhausting all funds in the previous ACRN before paying from the next ACRN.

Line Item	ACRN Order
_____	_____
_____	_____

(4) *Line item specific: by fiscal year.* If there is more than one ACRN within a contract line item, [(i.e. informational sub-line items contain separate ACRNs), and the contracting officer intends the funds to be liquidated using the oldest funds first, insert the following:

252.204-0004 Line Item Specific: by Fiscal Year. (SEP 2009)

The payment office shall make payment using the oldest fiscal year appropriations first, exhausting all funds in the previous fiscal year before disbursing from the next fiscal year. In the event there is more than one ACRN associated with the same fiscal year, the payment amount shall be disbursed from each ACRN within a fiscal year in the same proportion as the amount of funding obligated for each ACRN within the fiscal year.

(5) *Line item specific: by cancellation date.* If there is more than one ACRN within a contract line item, (i.e. informational sub-line items contain separate ACRNs), and the contracting officer intends the funds to be liquidated using the ACRN with the earliest cancellation date first, insert the following:

In the event there is more than one ACRN associated with the same cancellation date, the payment amount shall be disbursed from each ACRN with the same cancellation date in the same proportion as the amount of funding obligated for each ACRN with the same cancellation date.

(6) *Line item specific: proration.* If there is more than one ACRN within a contract line item, (i.e. informational sub-line items contain separate ACRNs), and the contracting officer intends the funds to be liquidated in the same proportion as the amount of funding currently unliquidated for each ACRN, insert the following:

252.204-0006 Line Item Specific: Proration. (SEP 2009)

The payment office shall make payment from each ACRN in the same proportion as the amount of funding currently unliquidated for each ACRN.

(7) *Contract-wide: sequential ACRN order.* If the contracting officer intends the funds to be liquidated in sequential ACRN order, insert the following:

252.204-0007 Contract-wide: Sequential ACRN Order. (SEP 2009)

The payment office shall make payment in sequential ACRN order within the contract or order, exhausting all funds in the previous ACRN before paying from the next ACRN using the following sequential order: alpha/alpha; alpha/numeric; numeric/alpha; and numeric/numeric.

(8) *Contract-wide: contracting officer specified ACRN order.* If the contracting officer intends the funds to be liquidated in a specified ACRN order, insert the following, including the specified order in the instruction:

(9) *Contract-wide: by fiscal year.* If the contracting officer intends the funds to be liquidated in fiscal year order, insert the following:

252.204-0009 Contract-wide: by Fiscal Year. (SEP 2009)

The payment office shall make payment using the oldest fiscal year appropriations first, exhausting all funds in the previous fiscal year before disbursing from the next fiscal year. In the event there is more than one ACRN associated with the same fiscal year, the payment amount shall be disbursed from each ACRN within a fiscal year in the same proportion as the amount of funding obligated for each ACRN within the fiscal year.

(10) *Contract-wide: by cancellation date.* If the contracting officer intends the funds to be liquidated in fiscal year order, insert the following:

252.204-0010 Contract-wide: by Cancellation Date. (SEP 2009)

The payment office shall make payment using the ACRN with the earliest cancellation date first, exhausting all funds in that ACRN before disbursing funds from the next. In the event there is more than one ACRN associated with the same cancellation date, the payment amount shall be disbursed from each ACRN with the same cancellation date in the same proportion as the amount of funding obligated for each ACRN with the same cancellation date.

(11) *Contract-wide: proration.* If the contract or order that provides for progress payments based on costs, (unless the administrative contracting officer authorizes use of one of the other options), or if the contracting officer intends the funds to be liquidated

The payment office shall make payment from each ACRN within the contract or order in the same proportion as the amount of funding currently unliquidated for each ACRN.

(12) *Other.* If none of the standard payment instructions identified in paragraphs (d)(1) through (11) of this section are appropriate, the contracting officer may insert other payment instructions, provided the other payment instructions--

- (i) Provide a significantly better reflection of how funds will be expended in support of contract performance; and
- (ii) Are agreed to by the payment office and the contract administration office.

DFARS Procedures, Guidance, and Information

PGI 225—Foreign Acquisition

(Revised June 24, 2014)

PGI 225.70—AUTHORIZATION ACTS, APPROPRIATIONS ACTS, AND OTHER STATUTORY RESTRICTIONS ON FOREIGN ACQUISITION

PGI 225.7002 Restrictions on food, clothing, fabrics, and hand or measuring tools.

PGI 225.7002-1 Restrictions.

(a)(2)(A) The following are examples, not all-inclusive, of Federal Supply Classes that contain items of clothing:

(1) Clothing apparel (such as outerwear, headwear, underwear, nightwear, footwear, hosiery, or handwear) listed in Federal Supply Class 8405, 8410, 8415, 8420, 8425, 8450, or 8475.

(2) Footwear listed in Federal Supply Class 8430 or 8435.

(3) Hosiery, handwear, or other items of clothing apparel, such as belts and suspenders, listed in Federal Supply Class 8440 or 8445.

(4) Badges or insignia listed in Federal Supply Class 8455.

(B) The Federal Supply Classes listed in paragraph (a)(2)(A) of this subsection also contain items that are not clothing, such as—

(1) Visors;

(2) Kevlar helmets;

(3) Handbags; and

(4) Plastic identification tags.

(C) Each item should be individually analyzed to determine if it is clothing, rather than relying on the Federal Supply Class alone to make that determination.

(D) The fact that an item is excluded from the foreign source restriction of the Berry Amendment applicable to clothing does not preclude application of another Berry Amendment restriction in DFARS [225.7002-1](#) to the components of the item.

(E) Small arms protective inserts (SAPI plates) are an example of items added to, and not normally associated with, clothing. Therefore, SAPI plates are not covered under the Berry Amendment as clothing. However, fabrics used in the SAPI plate are still subject to the foreign source restrictions of the Berry Amendment. If the fabric used in the SAPI plate is a synthetic fabric or a coated synthetic fabric, the fibers and yarns used in the fabric are not covered by the Berry Amendment, because the fabric is a component of an end product that is not a textile product (see DFARS [225.7002-2\(m\)](#)).

DFARS Procedures, Guidance, and Information

PGI 225—Foreign Acquisition

Example: A SAPI plate is compliant with the Berry Amendment if the synthetic fiber or yarn is obtained from foreign country X and woven into synthetic fabric in the United States, which is then incorporated into a SAPI plate manufactured in foreign country Y.

(b) *Hand or measuring tools.*

(1) As applied to hand or measuring tools, “produced in the United States” means that the hand or measuring tool was assembled in the United States out of components, or otherwise made from raw materials into the finished product that is to be provided to the Government.

(2) If a hand or measuring tool was assembled in a country other than the United States, then disassembled and reassembled in the United States, the hand or measuring tool was not produced in the United States.

(3) The requirement to buy hand or measuring tools produced in the United States does not impose any restriction on the source of the components of the hand or measuring tools. This is unlike the Berry Amendment restriction on clothing (see [225.7002-1\(a\)\(2\)](#)), which explicitly requires domestic source for the materials and components of clothing (other than unusual components such as sensors or electronics), as well as the additional separate restrictions on various types of fibers and fabrics that might be components of the clothing.

(4) If the acquisition of the hand or measuring tools is also subject to the Buy American statute (see FAR subpart 25.1), then in order to qualify as a domestic end product, the cost of the components mined, produced, or manufactured in the United States or a qualifying country, must exceed 50 percent of the cost of all the components of the hand or measuring tool.

PGI 225.7002-2 Exceptions.

(b) *Domestic nonavailability determinations.*

(3) *Defense agencies other than the Defense Logistics Agency.*

(A) A defense agency requesting a domestic nonavailability determination must submit the request, including the proposed determination, to—

Director, Defense Procurement and Acquisition Policy
ATTN: OUSD(AT&L) DPAP/CPIC
3060 Defense Pentagon
Washington, DC 20301-3060.

(B) The Director, Defense Procurement and Acquisition Policy, will forward the request to the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) as appropriate.

(4) *Reciprocal use of domestic nonavailability determinations (DNADs).*

DFARS Procedures, Guidance, and Information

PGI 225—Foreign Acquisition

The military departments and the Defense Logistics Agency should establish approval authority, policies, and procedures for the reciprocal use of DNADs. General requirements for broad application of DNADs are as follows:

(A) A class DNAD approved by the USD(AT&L), the Secretary of a military department, or the Director of the Defense Logistics Agency may be used by USD(AT&L), another military department, or the Defense Logistics Agency, provided the same rationale applies and similar circumstances are involved.

(B) DNADs should clearly establish—

- (1) Whether the determination is limited or unlimited in duration; and
- (2) If application outside the approving military department is appropriate.

(C) Upon approval of a DNAD, if application outside the approving military department is appropriate, the approving department shall provide a copy of the DNAD, with information about the items covered and the duration of the determination, to—

Director, Defense Procurement and Acquisition Policy
ATTN: OUSD(AT&L) DPAP/CPIC
3060 Defense Pentagon
Washington, DC 20301-3060.

(D) Before relying on an existing DNAD, contact the approving office for current guidance as follows:

- (1) USD(AT&L): DPAP/CPIC, 703-697-9352.
- (2) Army: ASA/ALT, 703-604-7006.
- (3) Navy: DASN (Acquisition and Logistics Management), 703-614-9600.
- (4) Air Force: AQCK, 571-256-2384.
- (5) Defense Logistics Agency: J-71, Acquisition Policy Division, 703-767-1461.

PGI 225.7003 Restrictions on acquisition of specialty metals.

PGI 225.7003-2 Restrictions.

(a)(i) This restriction applies to the item containing the specialty metal, not just the specialty metal, as was true when the restriction was part of 10 U.S.C. 2533a. The previous practice of withholding payment while conditionally accepting noncompliant items is not permissible for—

(A) Contracts entered into on or after November 16, 2006; or

(B) New procurements or out-of-scope changes accomplished on or after November 16, 2006, through the use of bilateral modifications to contracts originally awarded prior to

DFARS Procedures, Guidance, and Information

PGI 225—Foreign Acquisition

November 16, 2006.

(ii) Consistent with the definition of “component” in the clause at DFARS [252.225-7009](#), a component is any item supplied to the Government as part of an end item or of another component. Items that are not incorporated into any of the items listed in DFARS [225.7003-2\(a\)](#) are not components of those items. For example, test equipment, ground support equipment, or shipping containers are not components of the missile system.

PGI 225.7003-3 Exceptions.

(b)(2) *Report of COTS items.*

If a department or agency uses the exception at DFARS [225.7003-3\(b\)\(2\)](#) for an acquisition of COTS end items valued at \$5 million or more per item, the department or agency shall address use of the exception in a year-end report, to be prepared and submitted as follows:

(A) Entitle the report “COTS Specialty Metal Exceptions Granted During Fiscal Year _____.”

(B) For each excepted COTS item purchased during the fiscal year, include in the report, at a minimum, the applicable—

- (1) Contract number and any applicable delivery order number;
- (2) Dollar value; and
- (3) Item description.

(C) Submit the report by October 31 of each year to:

Director, Defense Procurement and Acquisition Policy
ATTN: OUSD(AT&L) DPAP/CPIC
3060 Defense Pentagon
Washington, DC 20301-3060.

(b)(5) Domestic specialty metals nonavailable as and when needed.

(A) Determining availability.

(1) FAR 15.402 requires that contracting officers purchase supplies and services at fair and reasonable prices. Thus, contracting officers must determine whether any increase in contract price that results from providing compliant specialty metal is fair and reasonable, given the circumstances of the particular situation. In those cases where the contracting officer determines that the price would not be fair and reasonable, the Secretary of the military department concerned may use that information in determining whether the unreasonable price causes the compliant metal to be effectively “nonavailable.” Where these “reasonableness” limits should be drawn is a case-by-case decision.

DFARS Procedures, Guidance, and Information

PGI 225—Foreign Acquisition

(2) A similar approach may be used to determine whether delays associated with incorporating compliant specialty metals into items being acquired results in the metals being effectively nonavailable.

(B) Class domestic nonavailability determinations (DNADS). Class DNADS approved by USD(AT&L), that are available for reciprocal use in contracts issued before July 26, 2008, can be found at <http://www.dema.mil/dnad/>. These determinations are not authorized for use in contracts issued on or after July 26, 2008.

(C)(1) A department or agency requesting a determination or approval from USD(AT&L) in accordance with DFARS [225.7003-3\(b\)\(5\)](#) shall submit the request, including the proposed determination, to—

Director, Defense Procurement and Acquisition Policy
ATTN: OUSD(AT&L) DPAP/CPIC
3060 Defense Pentagon
Washington, DC 20301-3060.

(2) The Director, Defense Procurement and Acquisition Policy, will forward the request to USD(AT&L) as appropriate.

(b)(6) *Application of specialty metals restrictions to magnets.*

HPM = High performance magnet
COTS = Commercially available off-the-shelf

Magnet made of specialty metal is:	Commercially available, HPM	NOT Commercially available, HPM	COTS, NOT HPM	NOT COTS, NOT HPM
Incorporated into COTS assembly or COTS end item	NOT restricted	*	NOT restricted	*
NOT incorporated into COTS assembly or COTS end item	Restricted	Restricted	NOT restricted	Restricted
Included in 2 percent minimum content?	Cannot be included in 2 percent minimum content	Cannot be included in 2 percent minimum content	NOT restricted	Can be included in 2 percent minimum content

* By definition, COTS assemblies and COTS end items will not include a HPM that is not commercially available or any other magnet that is not COTS.

(c) Compliance for commercial derivative military articles.

DFARS Procedures, Guidance, and Information

PGI 225—Foreign Acquisition

(i) A department or agency requesting a determination or approval from USD(AT&L) in accordance with DFARS [225.7003-3](#)(c) shall submit the request, including the proposed determination, to—

Director, Defense Procurement and Acquisition Policy
ATTN: OUSD(AT&L) DPAP/CPIC
3060 Defense Pentagon
Washington, DC 20301-3060.

(ii) The Director, Defense Procurement and Acquisition Policy, will forward the request to USD(AT&L) as appropriate.

(d) National security waiver.

(i) A department or agency shall request a national security waiver from USD(AT&L) in accordance with DFARS [225.7003-3](#)(d) in a timely manner after discovering or being informed of a specialty metals noncompliance in an item, or component thereof, listed at [225.7003-2](#)(a). The department or agency shall submit the request, via the chain of command, including the draft determination and draft letters of notification to the congressional defense committees, as follows:

Director, Defense Procurement and Acquisition Policy
ATTN: OUSD(AT&L) DPAP/CPIC
3060 Defense Pentagon
Washington, DC 20301-3060

(ii) The request shall include—

(A) The quantity of end items to which the waiver would apply;

(B) The time period that the waiver will cover;

(C) How and when the noncompliance was discovered—

(1) By the subcontractor(s);

(2) By the contractor; and

(3) By the department or agency;

(D) A complete description of all of the items or systems containing noncompliant specialty metals;

(E) The contract number(s), date(s), duration, and subcontractor(s) associated with the noncompliance;

(F) The manufacturer and country of origin of the noncompliant material, if known;

(G) Whether the contractor flowed down the DFARS clause to the subcontractors and in what format (e.g., exact quote or substantially the same?);

DFARS Procedures, Guidance, and Information

PGI 225—Foreign Acquisition

(H) A technical description of the affected parts, their role in the larger assembly, and their function in the end item;

(I) Estimated cost and schedule to replace noncompliant parts if a national security waiver is not granted;

(J) Operational and safety implications;

(K) Other national security considerations (such as how the requested waiver will contribute to national security policy or operational security);

(L) A description of the contractor's efforts to develop and implement a corrective plan to ensure future compliance; and

(M) Information helpful to a determination as to whether any noncompliance was knowing and willful.

(iii) The Director, Defense Procurement and Acquisition Policy, will forward the request to USD(AT&L) as appropriate.

DFARS Procedures, Guidance, and Information

PGI 236—Construction and Architect-Engineer Contracts

(Revised June 24, 2014)

PGI 236.2—SPECIAL ASPECTS OF CONTRACTING FOR CONSTRUCTION

PGI 236.203 Government estimate of construction costs.

(1) Designate the Government estimate as “For Official Use Only,” unless the information is classified. If it is, handle the estimate in accordance with security regulations.

(2) For sealed bid acquisitions—

(i) File a sealed copy of the Government estimate with the bids. (In the case of two-step acquisitions, this is done in the second step.)

(ii) After the bids are read and recorded, remove the “For Official Use Only” designation and read and record the estimate as if it were a bid, in the same detail as the bids.

PGI 236.207 Pricing Fixed-Price Construction Contracts.

(a)(70) *Definition*: “lump sum” means a single payment of money, as opposed to a series of payments made over time.

(i) An example of a line item with lump sum pricing in accordance with DFARS [204.71](#) is as follows:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Repave runway 4 at Joint Base Andrews Firm Fixed Price PSC: Z1BD ACRN: AA	1	Job	\$1,501,866.08	\$1,501,866.08

Note that payment would occur upon completion and acceptance of the entire effort. Progress payments based on estimates of the percentage of completion (see FAR 52.232-5—Payments Under Fixed-Price Construction Contracts) could occur prior to that point.

(ii) An example of a line item with unit pricing in accordance with DFARS [204.71](#) is as follows:

DFARS Procedures, Guidance, and Information

PGI 236—Construction and Architect-Engineer Contracts

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Repave runway 4 at Joint Base Andrews Firm Fixed Price PSC: Z1BD ACRN: AA	525,128	Square Foot	\$2.86	\$1,501,866.08

Note that this allows the contractor to invoice for completed quantities of work, in accordance with FAR 32.102 (d), as those are accepted. Progress payments based on estimates of the percentage of completion (see FAR 52.232-5—Payments Under Fixed-Price Construction Contracts) could also occur prior to that point.

PGI 236.213 Special procedures for sealed bidding in construction contracting.

For additive or deductive items—

(1) Use a bid schedule with—

(i) A first or base bid item covering the work generally as specified; and

(ii) A list of priorities that contains one or more additive or deductive bid items that progressively add or omit specified features of the work in a stated order of priority. (Normally, do not mix additive and deductive bid items in the same solicitation.)

(2) Before opening the bids, record in the contract file the amount of funds available for the project.

(3) Determine the low bidder and the items to be awarded in accordance with the procedures in the clause at [252.236-7007](#), Additive or Deductive Items.

PGI 236.273 Construction in foreign countries.

(b) When a technical working agreement with a foreign government is required for a construction contract—

(i) Consider inviting the Army Office of the Chief of Engineers, or the Naval Facilities Engineering Command, to participate in the negotiations.

(ii) The agreement should, as feasible and where not otherwise provided for in other agreements, cover all elements necessary for the construction that are required by laws, regulations, and customs of the United States and the foreign government, including—

PGI 237—Service Contracting

(Revised June 24, 2014)

PGI 237.1--SERVICE CONTRACTS--GENERAL

PGI 237.102-70 Prohibition on contracting for firefighting or security-guard functions.

(d)(i) To ensure that the personnel limitations in DFARS [237.102-70\(d\)\(1\)\(iv\)](#) are not exceeded, there is an office of primary responsibility (OPR) within each department or agency that is responsible for managing the total number of security-guard personnel on contract for the department or agency.

(ii) Before finalizing a contract action that affects the number of security-guard personnel on contract, the contracting officer shall request, from the requiring activity, evidence of the OPR's approval for the contract action. This requirement also applies to renewal or exercise of options for the same number of security-guard personnel, to ensure compliance with the statutory limitations/reductions specified for each fiscal year.

(iii) If the evidence of approval is not provided by the requiring activity, the contracting officer shall directly contact the applicable OPR for approval before finalizing the contract action. OPRs are as follows:

(A) U.S. Army:

HQ Department of the Army
Office of the Provost Marshal General
2800 Army Pentagon
Washington, DC 20310

PGI 237.102-71 Limitation on service contracts for military flight simulators.

(1) To process a request for waiver, the contracting officer shall submit the request and appropriate documentation relating to the requirements of DFARS [237.102-71](#)(b) to:

Director, Defense Procurement and Acquisition Policy
ATTN: OUSD(AT&L) DPAP/CPIC
3060 Defense Pentagon
Washington, DC 20301-3060

Phone: 703-697-8334 FAX: 703-614-1254

(2) The action officer in the Office of the Director, Defense Procurement and Acquisition Policy, Contract Policy and International Contracting (DPAP/CPIC), will process the request through the Office of the Secretary of Defense and will forward the appropriate documentation to the congressional defense committees. The contracting officer shall not award a contract until notified by the DPAP/CPIC action officer that the waiver has been approved, the appropriate documentation has been transmitted to the congressional defense committees, and the required 30 days have passed.

PGI 237.102-73 Prohibition on contracts for services of senior mentors.

DoD policies on senior mentors are set forth in (1) Secretary of Defense memorandum, subject: Policy on Senior Mentors (April 1, 2010) (see [here](#)) and (2) Deputy Secretary of Defense memorandum, subject: Implementation Guidance on Senior Mentors Policy (July 8, 2010) (see [here](#)).

PGI 237.102-77 Automated requirements roadmap tool.

The Automated Requirements Roadmap Tool (ARRT) is a tool that enables requiring activities to develop and organize performance requirements into draft versions of the performance work statement, the quality assurance surveillance plan, and the performance requirements summary. ARRT provides a standard template for these documents and some default text that can be modified to reflect a particular requirement. This tool should be used to prepare contract documents for all performance-based acquisitions for services. ARRT is available for download at <http://sam.dau.mil/ARRTRegistration.aspx>.
