SUPPLEMENTARY INFORMATION:**I. Background**

DoD is proposing to revise the DFARS regarding multiyear contracts to correct statutory references and to update the cancellation ceiling threshold at DFARS 217.170(e)(1)(iv) and (e)(5) for consistency with the Federal Acquisition Regulation (FAR). Currently, DFARS 217.170(e)(1)(iv) requires DoD to provide notification to

the congressional defense committees at least 30 days before entering into a multiyear contract that includes a cancellation ceiling in excess of \$100 million. DoD issued a final rule (75 FR 45072), effective October 1, 2010, to implement the requirements of section 807 of the National Defense Authorization Act for Fiscal Year 2005 (Pub. L. 108–375) by escalating acquisition-related thresholds throughout the DFARS; however, the increase to the cancellation ceiling threshold at DFARS 217.170(e)(1)(iv) and (e)(5) was not included in the rule, resulting in a conflict with the cancellation ceiling threshold of \$125 million identified at FAR 17.108(b).

II. Discussion and Analysis

The rule proposes to amend DFARS 217.170(e)(1)(iv) and (e)(5), redesignating paragraph (e) as paragraph (d), and to increase the cancellation ceiling threshold from \$100 million to \$125 million to ensure consistency with the FAR. This rule also corrects references to 10 U.S.C. 2306b, 10 U.S.C. 2306c, and section 8008a of Public Law 105–56 throughout DFARS subpart 217.1 and makes the following corrections regarding multiyear contracts for supplies:

- The language at DFARS 217.170(b), under the “General” section, applies only to the acquisition of property in accordance with 10 U.S.C. 2306b. This language is moved to a new paragraph (j) under DFARS 217.172, Multiyear contracts for supplies.

- The current language at 217.172(c) states that multiyear contracts in amounts exceeding \$500 million must be specifically authorized by law and that a multiyear supply contract may be authorized by an appropriations act or a law other than an appropriations act. However, the language at 10 U.S.C. 2306b(i)(3), which addresses the acquisition of property, states that a multiyear contract in excess of \$500 million must be specifically authorized by law in an act other than an appropriations act. In addition, 10 U.S.C. 2306b(l)(3) states that the head of the agency may not initiate a multiyear procurement contract for any system (or component thereof) if the value of the multiyear contract would exceed \$500 million unless authority for the contract is specifically provided in an appropriations act. The language at 217.172(c) is corrected and a new paragraph regarding multiyear procurement contracts is added.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs

and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* However, an initial regulatory flexibility analysis has been performed and is summarized as follows:

This rule proposes to amend the DFARS regarding multiyear contracts to ensure consistency with the FAR and the underlying statutes.

The objective of this rule is to increase the cancellation ceiling threshold at DFARS 217.170(e)(1)(iv) from \$100 million to \$125 million to ensure consistency with the threshold at FAR 17.108(b). In addition, this rule will correct references to 10 U.S.C. 2306b, 10 U.S.C. 2306c, and section 8008(a) of Public Law 105–56 throughout DFARS subpart 217.1 and make the following clarifications: (1) A multiyear contract for supplies in excess of \$500 million must be specifically authorized by law in an act other than an appropriations act in accordance with 10 U.S.C. 2306b(i)(3); and, (2) a multiyear procurement contract for any system (or component thereof) with a value greater than \$500 million must be specifically authorized in an appropriations act 10 U.S.C. 2306b(i)(3).

Small businesses will not be affected by this rule. This rule will impact procedures and authorities internal to the Government for multiyear contracts that require a cancellation ceiling up to \$125 million or are valued in excess of \$500 million and are for supplies.

This rule does not add any new information collection requirements. The rule does not duplicate, overlap, or conflict with any other Federal rules. No alternatives were identified that will accomplish the objectives of the rule.

DoD invites comments from small business concerns and other interested

parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2014–D019), in correspondence.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

SUPPLEMENTARY INFORMATION:

I. Background

DoD is proposing to revise DFARS 225.7010 to implement the domestic source restrictions in 10 U.S.C. 2534 on gyrocompasses, electronic navigation chart systems, steering controls, pumps, propulsion and machinery control systems, and totally enclosed lifeboats, to the extent they are unique to marine applications.

These restrictions are currently implemented in the acquisition regulations of the Defense Logistics Agency and the Department of the Navy, the two DoD components that acquire such naval vessel components. The restrictions are now being incorporated into the DFARS because they impact more than one DoD component.

10 U.S.C. 2534 prohibits acquisition of these naval vessel components, unless they are manufactured in the United States or Canada, except for acquisitions that do not exceed the simplified acquisition threshold or acquisitions of spare or repair parts needed to support components for naval vessels manufactured outside the United States.

The waiver criteria at DFARS 225.7008(a) apply to this restriction. The Under Secretary of Defense
