

Department of Defense Intellectual Property Forum 2023

Bonnie Evangelista

Acquisition Policy Director Tradewinds Execution Lead, Chief Digital and AI Office (CDAO)

Bonnie Evangelista is the Acquisition Policy Director Tradewinds Execution Lead for the Chief Digital and AI Office (CDAO), leading efforts to design and build a rapid acquisition environment to accelerate the pace of digital, analytics, and AI delivery to the Department of Defense. In her previous role, she served as the Deputy Product Lead for Applied Cyber Technologies, leading efforts to provide the infrastructure and environments necessary for defensive cyber innovation and integration.

Bonnie is an experienced acquisition and purchasing professional with expertise gained while supporting Federal Civilian and Department of Defense agencies for 15 years. She is fluent in Federal Government program management, acquisition life-cycle, and cradle to grave contracting but is known as master strategist for rapid acquisition, prototyping, and other transaction authority projects. She has dedicated most of her career to simplifying complex acquisition and contracting processes and transforming conventional procurement models and mind sets.
