

Department of Defense Intellectual Property Forum 2023

John Ferry

President of Trenchant Analytics

John Ferry is the President of Trenchant Analytics, producers of the AI-powered government acquisition platform AcqBot.com and the CEO of UseRogue.com, the AI-powered Government Contract proposal writing and business development platform. John's background spans a diverse range of related fields including combat experience as an Army Special Forces Weapons Specialist and operational experience as a Long-Range Surveillance Officer, Rapid Acquisition program management support to the Joint IED Defeat Organization, Planning, Programming Budgeting and Execution support to the Department of the Army Staff, and technology transition support to the Defense Advanced

Research Projects Agency. John's professional journey afforded him hands-on experience in every stage of the technology development process from emergent operational need through industry development and delivery. John holds a Master of Public Policy and Bachelors of Business Administration and lives in Northern Virginia with his wife and five children.
