Legend: Automatically entered

Home (Org) DoDAAC: "I sit here"
Role (Location) DoDAAC / Group (Path): "I perform my duties here"
Authority DoDAAC / Group (Path): *Automatically captured when the DAS* signs the appointment* - "I got my authority from here"

*DAS = Delegating Appointing Signatory. DAS represents the DAA, the OA/OPCs and A/OPCs with Delegating Authority.

As long as an appointment via the Authority DoDAAC can be traced up to an organization with Procurement authority, not every organization in the hierarchy at which a role exists needs to have Procurement authority.

In PIEE, DoDAACs reside under a group. They are the lowest level at a given group level. Group Administrators (GAMs) have the ability to add, remove or modify Groups and DoDAACs.

- Example -

DAA, CPM, OA/OPC, A/OPC Registration Process →	Register/Add Role	Self Appointment
CO, A/BO, CH Registration Process →	Get Nominated	Register/Add Role
		Get Appointed

It is possible to perform a search in JAM by My Organization or by My (associated) Users. For example, if an appointment for an A/BO was nominated by an A/OPC who is outside the A/BO's Role Location DoDAAC, the A/OPC will still be able to find them via the user search. The A/BO will not show up in the search by Organization, as they are not in any organization in which the A/OPC has a role.
