MEMORANDUM FOR INFRASTRUCTURE STEERING GROUP (ISG) MEMBERS

SUBJECT: Coordination on Scenario Conflicts Proposed Resolutions – 904 Scenarios

There were no regularly scheduled ISG meetings for two weeks to accommodate the holiday schedule; however, we do need to obtain ISG concurrence on the DAS’s newly proposed conflict resolutions, as attached.

The attached package includes all 904 scenarios registered in the tracking tool as of December 17, 2004. A summary of these scenarios, broken out by category (Independent, Enabling, Conflicting, Deleted, and Not Ready for Categorization) can be found at TAB 1. The section titled “New Conflicts Settled” includes new scenario conflicts on which the DASs and affected JCSGs agree regarding the proposed resolution (TAB 2).

Details of the remaining scenarios, by category (Old Conflicts Settled, Independent, Enabling, Deleted, and Not Ready for Categorization), are provided on a disc at TAB 3-7.

Request your written concurrence on the proposed resolutions (TAB 2) by close of business on Monday, January 10, 2005.

Scenario Title: | Consolidate NCR-Based NGA at Chantilly/Westfields, VA

Description:

Realignment of NGA functions at Bethesda, MD (Sumner and Dalecarlia sites) named Erskine Hall, Emory Bldg, Maury Hall, Roberdeau Hall, Abert Hall, Ruth Bldg, Fremont Bldg, Motor Poll, and Warren Bldg; Close NGA functions at Reston, VA, named 1 and 2; Realignment of NGA functions at Newington, VA, named 8510, 8520 and 8530; Close NGA functions at Dulles, VA, named Dulles North (or its successor, Reston 3); Realignment of National Geospatial Intelligence College function at Ft Belvoir, VA, named Bldgs 211, 214, 215, and 220; Close NGA and NGIC functions in Bldg 213 at Southwest Federal Center, DC; Realignment of NGA functions within NRO facility, Westfields; by relocating and consolidating to a new facility on commercially purchased real estate adjacent to the current NRO facility at Chantilly/Westfields, VA.

This scenario disestablished all of the functions currently performed at the NCR locations named above and consolidates the functions into a new facility on 150 acres adjacent to the current NRO facility at Westfields. The requirement for the 150 acres is due to vulnerability and security reasons.

**Date Created:** 10/8/2004

**Scenario Title:** 251 AFRC Huntsville, TX

**Description:**

Close 1 Texas Army National Guard (TXARNG) Armory and 1 United States Army Reserve (USAR) Center in Huntsville and move the assigned units to a new facility to be built in Huntsville. Build a 40,800 square foot facility in vicinity of Huntsville, TX. The new facility will include classroom and training space (suitable for billeting if necessary). One current facility is AMBER and one GREEN on Army Installation Status Report, but current facilities are overutilized 213% and 330%. Exiting facilities are encroached and do not meet anti-terrorism and force protection requirements.

## Registered Scenarios

**Scenario #** USA-0102  
**Date Created:** 10/8/2004  
**Scenario Title:** 252 AFRC San Marcos, TX  
**Description:**

Close 3 Texas Army National Guard (TXARNG) Armories (San Marcos, Seguin, New Braunfels) and 1 United States Army Reserve (USAR) Center in San Marcos and move assigned units to a new facility in San Marcos. Build a 86,000 square foot facility in vicinity of San Marcos, TX. Includes a 7300 sq ft multi use facility - classroom, training space or for billeting. Current facilities range in age from 41-50 yrs old. Current facilities are at occupation levels of 229%, 213%, 159%, and 153%. Encroachment/ acreage constraints prohibit expansion and do not meet current anti-terrorism and force protection requirements.

Scenario Title: | SR-1; Consolidates I-Level Ship Maintenance Work

Description:

This scenario consolidates intermediate-level ship maintenance, specifically:

Realigns and consolidates intermediate workload at Norfolk Naval Shipyard. SIMA Norfolk would be closed and Norfolk Naval Shipyard would assume the intermediate workload. Assumes all SSNs from Norfolk would change homeport to Subase, New London. Intermediate submarine work at SIMA Norfolk would be realigned to NAVSUBSUPPFAC NEW LONDON. Consolidates intermediate-level ship maintenance in the San Diego region with the new Southwest Navy Regional Maintenance Center. Assumes a DON scenario closes NAVSTA Pascagoula and decommissions or moves the homeported ships. This scenario disestablishes SIMA Pascagoula.

**Scenario Title:** SR-3; Moves I-Level Carrier Work from Norfolk to PH & D-Level Sub Work from PH NSY to Other 3 NSYs

**Description:**
This scenario assumes a DON scenario which moves a CVN Strike Group from Norfolk to Hawaii. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pearl Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. This scenario also realigns maintenance of Army watercraft stationed in Hawaii to Pearl Harbor NSY&IMF.

This scenario assumes a DON scenario which moves a CVN Strike Group from San Diego to Hawaii, moves a CVN from Everett to Bremerton and a CV from Mayport to Norfolk. Everett would be closed and 3 DD/DDGs from Everett would move to San Diego. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pearl Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. This scenario also assumes a DON scenario closes SUBBASE New London and moves 2 SSN 21 ships to Bangor, 5 SSNs to Norfolk, 4 SSNs to Pearl Harbor and 6 SSNs to Portsmouth NSY. This scenario also assumes a DON scenario closes SUBBASE Point Loma and moves the SSNs and the floating drydock ARCO to Pearl Harbor. Also assumes 2 SSGNs move from Kings Bay to Bangor. Also assumes 2 FFGs move from Pascagoula to Mayport and SIMA and NAVSTA Pascagoula close. Also assumes 5 MCMs and 6 MHCs move from Ingleside to both Mayport and to San Diego and Ingleside closes. All associated intermediate-level ship maintenance work moves to the new ship locations. This scenario also disestablishes Boston Planning Yard and Plant Equipment Support Office, Annapolis, and realigns there work with their respective shipyards. Puget Sound NSY and Norfolk NSY. The ship maintenance work at SHIPSO, Philadelphia, and at TRF Kings Bay is realigned to Norfolk NSY and SUBMEPP is consolidated into Portsmouth NSY.

*Monday, December 20, 2004*
Scenario #     MED-0027          Date Created:     11/10/2004
Scenario Title:  Create Center of Excellence for Aerospace Medicine (NAS Pensacola)

Description:

Abstract: This scenario will co-locate aerospace biomedical R&D performing activities with associated relevant education and training and healthcare delivery activities, thereby enabling efficient and synergistic use of personnel, equipment, and facilities for all 3 functions across all Services. It also reduces the use of leased space.

Narrative: The end state of this multi-action scenario will create a new Center of Excellence for Aerospace Medicine at NAS Pensacola. This scenario leverages and is coupled with a medical education and training scenario to consolidate aerospace medical education and training at a single site.

This scenario realigns and co-locates diverse aerospace and aeromedical R&D performing activities from: Brooks City Base, TX (311th Human Systems Wing [Air Force School of Aerospace Medicine, Air Force Institute for Operational Health, Human Systems Program Office (all except program managers identified as part of the Medical RDA Management Center in another scenario) and other pertinent Wing assets] and the Air Force Research Laboratory Human Effectiveness Directorate [less its Directed Energy Program]); Wright-Patterson AFB (Air Force Research Laboratory Human Effectiveness Directorate); and Fort Rucker (Army Aeromedical Research Laboratory). All of the above activities will be relocated to Naval Air Station, Pensacola, where they will be co-located with the Naval Aerospace Medical Research Laboratory.

The Tri-Service Directed Energy programs, currently co-located in leased space at Brooks City Base, will remain in place. An alternative is that Air Force and Navy directed energy programs will relocate to NAS Pensacola, while the Army laser injury treatment program will be realigned to and consolidated with the Army Institute of Surgical Research.

It is assumed that rotary wing aviation support facilities and flying ranges are available at NAS Pensacola. In the event that such facilities are unavailable or unaffordable, a rotary wing flight detachment may be maintained at Fort Rucker, Alabama. It also assumes that NAS Pensacola can provide adequate and affordable access to test subjects.

Since Air Force aeromedical education and training depends upon faculty drawn from R&D organizations that are currently co-located with the U.S. Air Force School of Aerospace Medicine (USAFSAM), the value of this scenario depends on movement of all relevant Air Force R&D activities in concert with USAFSAM.

Assumptions:
- Rotary Wing flight operations and maintenance support are available and affordable at NAS Pensacola.
- Adequate space for expansion is available at NAS Pensacola.
- A complete list of subordinate UICs for Air Force at Brooks City Base and Wright-Patterson AFB (AFRL and 311th Sys WG) has not been confirmed.
- Definitions of TBRCEs are aligned at the sub-DTAP level and associated FTEs and Equipment must be confirmed.
- Aerospace medicine education and training elements of the 3 Services will be collocated at NAS Pensacola.

Action list:

Creation of TBRCE for Aerospace Medicine moves relevant assets of the following activities to N00204, NAS Pensacola, FL, for collocation with N66452, NAVAEROMEDRSLAB.

Defense agency:
- None

Army activities:

Expands the number of wholesale Strategic Distribution Platforms (SDPs) from two to four. It positions the SDPs regionally across CONUS and provides for storage and distribution support to customers on a regional basis. SDPs support their assigned customers while in CONUS and while deployed overseas. Realigns and downsizes CONUS DLA distribution depots located at industrial installations because the expanded number of SDPs negates the need for these full-up organizations. The downsized activities will perform limited receiving, storage and issuing functions for their collocated industrial activities.

Region 1: Boundaries are in the North-Maine, Vermont, New York, Michigan; South-Virginia, Kentucky; East-Delaware, New Jersey, New Hampshire, West-Wisconsin, and Illinois
- Susquehanna: Susquehanna remains a Strategic Distribution Platform (SDP) but gets realigned and downsized. Its number of customers gets reduced to those in its assigned region and those permanently stationed across the Atlantic. As a result, its storage requirement is reduced.

Realignment: The following distribution depots will be realigned and downsized due to mission change, reduced storage and distribution requirements and reduced personnel with the establishment of the Susquehanna SDP. These distribution depots will become Forward Distribution Point (FDP) of the regional SDP.
  - Norfolk Distribution Depot
  - Tobyhanna Distribution Depot will perform limited receipt, store and issue functions for Tobyhanna Army Depot

Realignment: Richmond Distribution Depot will be realigned and continue its storage functions for hazardous materials and ozone-depleting substances.

Closure: The following distribution depot and activity will be closed due the establishment of Region 1 SDP.
  - Columbus Distribution Depot mission will be moved to the Susquehanna

Region 2: Boundaries are in the North-North Carolina, Tennessee; South-Florida; East-South Carolina, Georgia; West-Mississippi
- Warner Robins: The Warner Robins Distribution Depot will be realigned and expanded to become a SDP supporting customers in the South Eastern US. Its storage and distribution infrastructure expands and, depending on available infrastructure at Warner Robins, may require MILCON. Warner Robins also picks up command and control of the satellite activities (FDP) at Cherry Point, Albany, Jacksonville, and Anniston. Warner Robins' assigned personnel will also increase to accommodate the increased mission.

Realignment: The following distribution depots will be realigned and downsized due to mission change, reduced storage and distribution requirements and reduced personnel with the establishment of Warner Robins SDP. These distribution depots will become (FDP) of the regional SDP.
  - Cherry Point Distribution Depot
  - Albany Distribution Depot
  - Jacksonville Distribution Depot
  - Anniston Distribution Depot

Region 3: Boundaries are in the North-North Dakota; South-Texas; East-Minnesota, Iowa, Missouri, Arkansas, Louisiana; West-Wyoming, Colorado, New Mexico
- Red River: The Red River Distribution Depot will be realigned and expanded to become a SDP supporting customers in the Central US. Its storage and distribution infrastructure expands and, depending on available infrastructure at Red River, may require MILCON. Red River also picks up command and control of the (FDP) at Oklahoma City and Corpus Christi. Red River's assigned personnel also increase to accommodate the increased mission.

Realignment: The following distribution depots will be realigned and downsized due to mission change, reduced storage and distribution requirements and reduced personnel with the establishment of Red River SDP. These distribution depots will become (FDP) of the regional SDP.
  - Oklahoma Distribution Depot
  - Corpus Christi Distribution Depot

Region 4: Boundaries are in the North-Montana, Idaho; South-Arizona; East-Utah; West-Washington, California
### Registered Scenarios

As Of: 12/17/2004

- San Joaquin: San Joaquin remains a SDP supporting customers in the Western US and those permanently stationed across the Pacific. Realignment is anticipated. Additionally, San Joaquin picks up command and control of (FDP) at Puget Sound, Hill AFB, Barstow, and San Diego.

Realign: The following distribution depots will be realigned and downsized due to mission change, reduced storage and distribution requirements, and reduced personnel with the establishment of San Joaquin SDP. These distribution depots will become (FDP) of the regional SDP.

- Puget Sound Distribution Depot
- Hill Distribution Depot
- Barstow Distribution Depot

Scenario Title: Realign Storage and Distribution Functions at Sierra Army Depot

Description:

This is an enabling scenario for USA-0008, which proposes to close Sierra Army Depot.

The Army Basing Study (TABS) Group (Army BRAC office) has submitted a proposal that results in closing Sierra Army Depot. This proposal is to realign the storage and distribution functions at Sierra Army Depot that enables the U.S. Army to close the depot. The proposal will transfer all storage and distribution functions for all supplies and materiel (except Class V). The Class VII items (combat vehicles) currently stored at Sierra Army Depot will be transferred to Davis Monthan AFB, Arizona. The Project Stocks and War Reserve items will be transferred to the Defense Distribution Depot Barstow at Marine Corps Logistics Base (MCLB) Barstow, California.

**Scenario Title:** Establish a Single Army Inventory Control Point at Redstone Arsenal, AL

**Description:**

Establish a Single Army Inventory Control Point (AICP) by consolidating the inventory management and related support functions from the three Army Commands (AMCOM, CECOM, and TACOM) at Redstone Arsenal, AL. This allows the Army to have one Inventory Control Point (ICP) providing inventory management functions at one location. Additionally, this proposal also consolidates related supporting contracting functions at Redstone Arsenal, AL.

Scenario #: S&S-0042
Date Created: 12/17/2004
Scenario Title: Consolidate Service and DLA ICPS to minimize excess capacity

Description:

Consolidate Service and DLA ICPS to maximize military value and reduce excess capacity.

Action 1: Relocate and consolidate Soldier System Command, Natick (TACOM-ICP) to AMCOM Redstone Arsenal (AMCOM-ICP)
Action 2: Relocate Detroit Arsenal (TACOM-ICP) to Redstone Arsenal (AMCOM-ICP)
Action 3: Relocate and consolidate Ft Huachuca ICP to Ft Monmouth (CECOM-ICP)
Action 4: Relocate and consolidate Rock Island Arsenal (TACOM-ICP) to Redstone Arsenal (AMCOM-ICP)
Action 5: Relocate and consolidate Lackland AFB (CPSPG-ICP) to Warner Robins ALC (CECOM-ICP)

This proposal consolidates all Service and DLA ICPS to maximize military value and appropriately utilize existing capacity. It is a comprehensive analysis of all Service and DLA ICPS to maintain required capacity while maximizing an appropriate military value. It attempts to derive the most efficient and effective DOD ICPS activities without specific regard to Service or Agency boundaries. ICPS functions include budgeting/funding, contracting, engineering support, requisition processing, technical support, cataloging, customer services, item management, stock control, and weapon system secondary item supply support. This proposal would include equipment, depot level reworkables (DLRs), and remaining consumable items managed by the Services today. It may or may not include repair activities.

This proposal will impact: Soldier System Command, Natick (TACOM-ICP), Detroit Arsenal (ILSC), Ft Huachuca (CSLA-ICP), Rock Island Arsenal (TACOM-ICP), Redstone Arsenal (AMCOM-ICP), Ft Monmouth (CECOM-ICP), and Lackland AFB (CPSPG-ICP) as indicated in the Section 2 (Actions) above. The inventory management, stock control, budget and contracting functions of the affected Service ICPS.

Scenario # TECH-0002 Date Created: 10/4/2004

Scenario Title: Relocate W&A RDAT&E to 3 primary & 2 speciality with weapons from PAX & Pt. Mugu to China Lake

Description:

Relocate most Weapons and Armaments [W&A] Research, Development & Acquisition, Test & Evaluation (RDAT&E) including associated program management functions from organizations reporting W&A activity to three (3) primary locations [China Lake, Eglin, and Redstone Arsenal] and two (2) specialty capability locations [guns & ammo RDA and selected guns/ammo T&E @ Picatinny Arsenal and ship weapon systems integration @ Dahlgren], with weapon systems integration @ Corona to Port Hueneme and all weapons related RDAT&E from PAX River and Point Mugu to China Lake.

Definitions:

In Service Engineering (ISE): Those engineering activities that provide for an increase in capability of a system/sub-system/component after Full Operational Capability has been declared. ISE is separate from sustainment which is only associated with keeping the capability in service (without any material change in capability).

Sustainment: Those engineering activities that maintain an existing capability of a system/sub-system/component for service use. Sustainment is separate from In Service Engineering (ISE) activities, which are associated with any change/upgrade in capability.

Energetic Materials: Includes all R, D&A and T&E associated with the study and technology development of energetic materials used in rockets, gun propellants, warheads, fuzing, structures and other explosive and incendiary devices for air, land, sea, and underwater applications. Examples are energetic materials science, nanotechnology, energetic materials synthesis, energetic materials formulations, energetic materials processing technology, M&S contributing to technology development, interior ballistics, and fuzing.

Underwater Weapons: Includes all R, D&A and T&E associated with weapon systems launched and/or intended to attack underwater targets. Includes but not limited to underwater mines, mine countermeasures (water and surf zone), torpedoes and unmanned underwater vehicles. Does not include sub-launched cruise (e.g., Tomahawk) and ballistic missiles. Does not include weapon systems integration.

Guns and Ammunition: Includes all R, D&A and T&E associated with small, medium and large caliber gun systems, and any barrel launched ballistic rounds/systems. Includes but is not limited to mortars, tank rounds and systems, artillery, and Navy Gun Systems. Includes all research associated with gun systems, materials and propelling charges. Does not include guidance and control, and rocket motors. Does not include weapon systems integration.

Weapon Systems Integration: Includes all R, D&A and T&E associated with weapon and armaments integration on air, land, and sea platforms. This process combines weapon system(s) together on a platform via an automated control system. It allows for orchestrated weapon system engagement decisions and coordination on the host platform and/or between weapon systems on multiple platforms (including control systems for multiple weapon systems, e.g., combat systems).

**Scenario #** TECH-0005  \hspace{1cm} **Date Created:** 10/22/2004  
**Scenario Title:** Establish Joint Centers for Rotary Wing Air Platform R, D&A, and T&E

**Description:**

This scenario consolidates all Rotary Wing air platform R, D&A, T&E to two principal sites while retaining several specialty sites. Rotary Wing R, D&A, T&E will be consolidated into 2 core sites, Patuxent River, and Redstone Arsenal, with non-maritime unique Rotary Wing R consolidated at Redstone Arsenal. The relocation of Rotary Wing R functions are proposed in concert with the S&T Reliance Agreements. The planned component moves will enhance synergy by consolidating to major sites, preserve healthy competition, leverage climatic/geographic conditions and existing infrastructure, minimize environmental impact, distribute demand on the telemetry spectrum and effect reasonable homeland security risk dispersal.

### Registered Scenarios

**Scenario #** TECH-0006  
**Date Created:** 10/22/2004  
**Scenario Title:** Establish Joint Centers for Fixed Wing Air Platform R, D&A, and T&E

**Description:**

This scenario proposes to consolidate all fixed wing air platform RDAT&E to two principal sites while retaining several specialty sites. Research and Development & Acquisition will be performed at Patuxent River and Wright-Patterson AFB. The relocation of air platform Research functions are proposed in concert with the S&T Reliance Agreements. Fixed Wing Research will be consolidated at Wright Patterson AFB and maritime related fixed wing Research (catapults, arresting gear, etc.) will be consolidated at Patuxent River. Air Force T&E will be consolidated at Edwards AFB, Navy T&E at Patuxent River, and Live Fire T&E at China Lake. The planned component moves will enhance synergy by consolidating to major sites, preserve healthy competition, leverage climatic/geographic conditions and existing infrastructure, minimize environmental impact, distribute demand on the telemetry spectrum and effect reasonable homeland security risk dispersal.

**Scenario #** | TECH-0013  
**Date Created:** | 10/22/2004  
**Scenario Title:** | Establish Joint Centers for Ground Platform R DAT&E  
**Description:**

This scenario would consolidate Ground Vehicle R, D&A, and T&E into 2 core sites; Detroit Arsenal and Aberdeen Proving Ground. The Army/DoD ground vehicle R and D&A to continue to reside in the world automotive/ground vehicle capital of southeast Michigan, and R, D&A, and the preponderance of ground vehicle T&E would be located at Aberdeen Proving Grounds.

Registered Scenarios

Scenario #: TECH-0031  
Date Created: 11/5/2004

Scenario Title: Optimize Sea Vehicle R, D&A and T&E

Description:

This scenario proposes to consolidate and/or co-locate all Sea Vehicle RDAT&E to two primary sites while retaining small sites involved in specialized Sea Vehicle support to DDTE/OTE or specialized sites with unique facilities. The planned component moves will enhance and leverage off the existing robust concentration of research, design and development, acquisition support and T&E capabilities that currently reside within the US Navy HQ and Warfare Center infrastructure. This proposal would relocate/co-locate management and direction of Theater Support Vessels programs for USA to COMNAVSEA WNY and would be consistent with the existing partnership collaboration between the USA and the USN on Theater Support Vessels and other theater support small watercraft. Program management will be retained for D&A and T&E at COMNAVSEA. Consolidation of all Program management of Sea Vehicle Programs at the WNY collocates these functions with related program offices supporting Weapons and Combat systems, Hull Mechanical and Electrical, C4I integration and related sea vehicle equipment and support functions. This also places it nearby the principal technical direction and development agent for sea vehicles located at NSWC Carderock Division in Bethesda, MD.

Scenario #     E&T-0022     Date Created: 10/29/2004
Scenario Title: Consolidate AFIT and NPS PDE Function at NPS

Description:

Realign Professional Development Education graduate level education at Air Force Institute of Technology at Wright-Patterson Air Force Base, Dayton, OH and Naval Post Graduate School at Monterey, CA by moving Air Force Institute of Technology graduate level education to Monterey, CA and consolidating with the Naval Post Graduate School graduate level education at Monterey, CA.

Department of Defense graduate level education will be consolidated as a single school located at Monterey, CA. The consolidated school will be a Department of Defense School with the Navy as the executive agent. This scenario will remove all graduate level education from Wright-Patterson Air Force Base, Dayton, OH.

Losing Bases

Wright-Patterson AFB (Fairborn, OH) - Realignment

Receiving Bases

Naval Postgraduate School (Monterey, CA) - Receive

Losing Activities

Air Force Institute of Technology - Relocate

Activities being Received

Air Force Institute of Technology
Realignment of Carlisle Barracks, PA; Maxwell Air Force Base, AL; Naval Station Newport, RI; Marine Corps Base Quantico, VA; and Fort McNair, Washington D.C. by realigning the United States Army War College, Air War College, College of Naval Warfare, and the Marine Corps War College under the National Defense University.

Senior level education will be provided by multiple colleges under the National Defense University. All of the colleges will remain in their current locations. The colleges will fall under the National Defense University Chain of Command and will combine all common support requirements. The Army will be the proponent for a Land Centric College. The Air Force will be the proponent for an Air Centric College. The Navy will be the proponent for a Maritime Centric College. The Marine Corps will be the proponent for an Expeditionary Centric College. All of the colleges will teach a common Joint Professional Military education curriculum controlled by the Chairman of the Joint Chiefs of Staff. Professional Military Education curricula will be controlled by the appropriate Service Chief. Joint Forces Staff College will remain a separate source of Joint Professional Military Education Level II for Joint Specialty Officers.

**Scenario Title**: GC-MPC-0010: Dc: I: Consolidate/Co-locate All Military Personnel Centers at Ft Leavenworth

### Description:

Realign Army Human Resources Command (HRC)-leased space in Alexandria VA, Indianapolis IN and St Louis MO; the Navy Personnel Command (NAVPERSCOM) at Naval Support Activity (NSA) Mid-South in Millington TN, the Naval Reserve Personnel Center (NAVRESPERSCEN) and Enlisted Placement & Management Center (EPMAC) at Naval Support Activity (NSA) New Orleans LA; the operational military personnel functions from Headquarters Marine Corps Manpower & Reserve Affairs (M&RA) at Marine Corps Base Quantico; the military personnel functions from Air Force Personnel Center (AFPC) at Randolph Air Force Base TX and the Air Reserve Personnel Center (ARPC) at Buckley Annex CO by consolidating all Active and Reserve Military Personnel Centers within each Service and co-locating all four Service Military Personnel Centers at Fort Leavenworth KS.

ADDITIONAL DATA: Army Human Resources Command (HRC) - Indianapolis (former EREC) is not listed in the drop down menu. Relocation would free up 76,740 square feet of leased space.

No existing Mil Pers Center exists at Leavenworth so no excess is available. Scenario requires ~1,702,600 SF for incoming activities (6100 Gen Adm Bldg only).

HRC Alexandria, HRC Indianapolis and HRC St Louis all in leased space without expected backfill when vacated. Space made available at NSA Millington = 337,766 SF. Space made available at NSA New Orleans = 131,753 SF. Space made available at MCB Quantico = 198,916 SF. Space made available at Randolph AFB = 200,025. Space made available at ARPC Buckley Annex = 127,694 SF, HOWEVER, this space is designated for DFAS in scenario HSA-0018.

GC-MPC-0011: Dc: I: Create Army Human Resources Center (Personnel & Recruiting) at Fort Knox

### Description:

Realign Army Human Resources Command (HRC)-leased space in Alexandria VA, Indianapolis IN and St. Louis MO and owned space occupied by the Army Civilian Human Resources Agency (CHRA) at Aberdeen Proving Ground MD by consolidating all and re-locating to Fort Knox KY.

Realign Fort Monroe VA, by re-locating Army Accessions Command and Army Cadet Command and co-locating with the Army Enlisted Recruiting Command and the consolidated Army Human Resources Command (HRC) at Fort Knox KY.

ADDITIONAL DATA: Army Human Resources Command (HRC) - Indianapolis (former EREC) is not listed in the drop down menu. Relocation would free up 76,740 square feet of leased space.

No existing Mil Pers Center exists at Ft Knox so no excess is available. Existing Recruiting functions currently occupy ~213,231 SF and ~70,631 has been determined as excess. Scenario requires an additional ~667,569 SF for MilPers and Recruiting incoming activities (6100 Gen Adm Bldg only).

HRC Alexandria, HRC Indianapolis and HRC St Louis all in leased space without expected backfill when vacated. Space made available at Ft Monroe = 70,850 SF. Space made available at Aberdeen = (estimated) 33,000 SF.

### Losing Bases

- Consolidated Active/Reserve Army Human Resources Command to co-locate with Army Recruiting Commands
### Scenario Title:
GC-MPC-0012: Dc: I: Consolidate/Co-locate Navy Personnel and Recruiting at NSA Millington

#### Description:
Realign Naval Support Activity (NSA) New Orleans LA by consolidating the Naval Reserve Personnel Center (NAVRESPERSCEN) and the Enlisted Placement and Management Center (EPMAC) with Navy Personnel Command (NAVPERSCOM) at Naval Support Activity (NSA) Mid-South in Millington TN.

Realign Naval Support Activity (NSA) New Orleans LA by consolidating the Navy Recruiting Command (NAVCRUITCOM) office at Naval Support Activity New Orleans with the Navy Recruiting Command (NAVCRUITCOM) office at Naval Support Activity Mid-South Millington, TN. Co-locates with the consolidated Navy Personnel Command.

**ADDITIONAL INFO:** NAVPERSCOM currently occupies ~ 422,208 SF; ~27,008 SF has been determined as available excess. NAVCRUITCOM currently occupies ~69,930 SF with no calculated excess. Scenario requires an additional ~71,462 SF for the move of MilPers and Recruiting activities. (6100 Gen Adm Bldg only).

Space made available at NSA New Orleans = 142,737 SF.

**Scenario Title:** GC-MPC-0013: Dc: I: Consolidate/Co-locate AF Personnel and Recruiting at Randolph AFB

**Description:**

Realign Buckley Annex CO by consolidating the Air Reserve Personnel Center (ARPC) with the Air Force Personnel Center (AFPC) at Randolph AFB TX.

Realign leased space at Warner-Robins AFB GA by co-locating Air Force Reserve Recruiting Service with Air Force Recruiting Service at Randolph AFB TX. Co-locate with the consolidated Air Force Personnel Center.

ADDITIONAL INFO: AFPC (MilPers functions only) currently occupies ~250,031 SF; ~30,831 SF has been determined as available excess. AF Recruiting currently occupies ~47,802 SF with no calculated excess (actual shortage of ~2,198 SF). Scenario requires an additional ~77,967 SF for the move of MilPers and Recruiting activities. (6100 Gen Adm Bldg only).

Space made available at ARPC Buckley Annex = 127,694 SF, HOWEVER, this space is designated for DFAS in scenario HAS-0018. Space made available at Robins AFB = 28,000 SF.

23. **DFAS-St Louis**, (St Louis Federal Center, Building 110) 4300 Goodfellow Boulevard, St. Louis, MO 63120 (Accounting Services, Commercial Pay Services, Military & Civilian Pay Services, Corporate and Administrative Organizations)

Relocate and consolidate DFAS Business Line, Corporate and Administrative functions, except for contracted product line operations and locally required customer support/audit staff, into the following 3 retained DFAS sites:

1. **DFAS-Columbus**, (Defense Supply Center-Columbus, Buildings 10, 11 & 21) 3990 E Broad St, Building #21, Columbus, OH 43213
2. **DFAS-Cleveland**, (A.J. Celebrezze Federal Building) 1240 E. 9th Street, Cleveland, OH 44199
3. **DFAS-Rome**, (Armistice Griffiss AFB) 325 Brooks Road, Rome, NY 13441

NOTE: DFAS requires an additional 209,323 USF above Capacity Data Call (CDC) #1 reported assigned space. Defense Logistics Agency’s CDC response for Defense Supply Center indicated 363,200 USF vacant/available.

Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Columbus:

Draft Deliberative Document—For Discussion Purposes Only—Do Not Release Under FOIA
Registered Scenarios

(a) NOTE: DFAS requires an additional 127,929 USF above CDC #1 reported assigned space. Departure of Air Reserve Personnel Center (ARPC) will free up 127,964 USF and enable completion of DFAS realignment to Buckley AFB Annex. Scenarios associated with the ARPC are HSA-0004, HSA-0005, and HSA-0008.

(b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Denver: DFAS-Lawton, DFAS-Oakland, DFAS-Omaha, DFAS-Pacific (Ford Island), DFAS-Red River, DFAS-San Antonio, DFAS-San Bernardino, DFAS-San Diego, and DFAS-Seaside.

(3) DFAS-Indianapolis, (Bean Federal Center, former Ft Benjamin Harrison) 8899 E. 56th Street, Indianapolis, IN 46249 (Accounting Services, Commercial Pay Services, Military & Civilian Pay Services, Corporate and Administrative Organizations, and Technology Services Organization)

(a) NOTE: DFAS requires an additional 26,697 USF above CDC # 1 reported assigned space. Departure of Human Resource Command – Indianapolis (former EREC) will free up 76,740 USF and enable completion of DFAS realignment. Scenarios associated with the Human Resource Command – Indianapolis HSA-0004, HSA-0005, and HSA-0006.

(b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Indianapolis: DFAS-Charleston, DFAS-Kansas City, DFAS-Lexington, DFAS-Orlando, DFAS-Pensacola NAS, DFAS-Pensacola Saufley Field, DFAS-Rock Island, and DFAS-St Louis.

Locations with potential retained customer support/liaison staff, contracted function(s), or which are deemed special purpose in nature include:
(2) Other customer support/liaison staff locations TBD (i.e., DFAS-Seaside, Corporate and Administrative Organization-Internal Review Auditors for Defense Manpower Data Center )
(3) LMIT-Retired & Annuitant Pay Contractor, DFAS-Cleveland, 1240 E 9th Street, Cleveland, OH 44199
(4) Corporate and Administrative Organization-Contractor Support, Southbridge Hotel & Conference Center, 14 Mechanic Street, Southbridge, MA 01566
(5) Technology Services Organization, DFAS-Cleveland Bratenahl, (Defense Contract Management Agency Hosted Installation) 555 E 88th St (Admiral Kidd Center), Bratenahl, OH 44108
(6) DFAS-Red River, Texas Avenue, Texarkana, TX 75505 (Army Non-Appropriated Funds Accounting - Accounting Services and Technology Services Organization)

Justification/Impact proposed:
- Reduces footprint – Admin by 42% or 1,399,421 USF and Warehouse by 69% or 525,690 GSF.
- Implements merge/co-location personnel reduction (15%).
- Overall AT/FP enhancement – DFAS will be on a DoD installation or in Government leased space that meets DoD AT/FP standards.
- Service’s unit costs will go down.
- Gaining site expansion enabled by departure of specific military personnel organizations from Denver and Indianapolis.
- No requirement for renovation at gaining sites.
- Risk averse – Mitigates risk thru centralized, apportioned operations (each segment may serve as backup).
- Better Business Practice - Creates business line centers of excellence.
- Facilitates DFAS re-engineering for FY2011 organization.

Scenario #: HSA-0019  
Date Created: 9/30/2004

Scenario Title: GC-CF-0003: [I] Transfer Level III Discharged Prisoners to Federal Bureau of Prisons

Description:

Realign Ft Leavenworth by transferring long-term (Level III) bed space to Federal Bureau of Prisons (FBOP). Increase number of long-term (Level III) beds with the Federal Bureau of Prisons for transfer from United States Disciplinary Barracks (USDB), Ft Leavenworth.

Justification/Impact:
- Current agreement with Federal Bureau of Prisons (FBOP) is insufficient.
- Increase in FBOP support would open beds for shorter long-term prisoners at Level II facilities.
- Discharged prisoners would be sent to federal system.
- Promotes “Good order and discipline,” by transferring prisoners who have committed the most serious of offenses and given long term or life sentences, away from general prison population.

Potential Conflicts:
- Cultural: “Cradle to grave” mentality. Military departments may wish to keep fully adjudicated and discharged prisoners as a way of the military “taking care” of its own.
- Other: Cost.

Scenario Title: GC-CF-0012: [I] Create a Single Northwestern Regional Correctional Facility

Description:

Realignment of Subase Bangor and Fort Lewis by disestablishing the correctional facility at Subase Bangor and relocating the mission to a single Level II joint regional correctional facility located at Fort Lewis.

Justification/Impact:
- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Subase Bangor (Year built-1995)/(FY01 inmate count-42); Fort Lewis (Year built-1957)/(FY03 inmate count-206). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable land is available at Fort Lewis, questionable as to availability of land at Subase Bangor. New facility required at Fort Lewis.

Potential Conflicts:
- Cultural: Fewer DoD-level correctional facilities amongst military departments.

Description:

Realignment of MCAS Miramar, Edwards AFB, Kirtland AFB and Camp Pendleton by disestablishing the correctional facilities at Edwards AFB, Kirtland AFB and Camp Pendleton and relocating the mission to a single Level II joint regional correctional facility to be located at MCAS Miramar.

Justification/Impact:
- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- MCAS Miramar (Year built-1989)/(FY03 inmate count-320); Edwards AFB (Year built-1950)/(FY03 inmate count-14); Kirtland AFB (Year built-1950)/(FY01 inmate count-16); Camp Pendleton (Year built-1972)/(FY02 inmate count-213). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ MCAS Miramar. Additional facility required.
- MCAS Miramar remains executive agent for Level III females.

Potential Conflicts:
- Cultural: Fewer DoD-level correctional facilities amongst military departments.
- DON: Large Level I requirement as of 9/22/04 (60-pre-trial, 61-adjudged level I, 51-level II). Pretrial confinement is used intuitively by DON (cultural). USA and USAF don't use pre-trial as often as DON.

Justification/Impact:
- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Fort Leavenworth (Year built-2001)/(FY03 inmate count-450); Fort Knox (Year built-1953)/(FY02 inmate count-156); Fort Sill (Year built-1977)/(FY03 inmate count-123); Lackland AFB (Year built-1996)/(FY02 inmate count-25). Used largest inmate count provided from Capacity Data FY01-03.

### Description:

Realign Naval Weapons Station Charleston, Naval Air Station Pensacola and Naval Air Station Jacksonville by disestablishing the correctional facilities at Naval Air Stations Pensacola and Jacksonville and relocating the mission to a single Level II joint regional correctional facility to be located at Naval Weapons Station Charleston.

**Justification/Impact:**
- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- NWS Charleston (Year built-1989)/(FY02 inmate count-241); NAS Jacksonville (Year built-1990)/(FY02 inmate count-40); NAS Pensacola (Year built-1995)/(FY01 inmate count-36). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ NWS Charleston.

**Potential Conflicts:**
- Cultural: Fewer DoD-level correctional facilities amongst military departments.

Scenario # HSA-0045 Date Created: 10/15/2004
Scenario Title: MAH-MAH-0001 (Dc): Consolidate Defense Information Systems Agency (DISA) Components within DC Area

Description:

Close 5 leased locations and realign 4 leased locations, Arlington Service Center (Navy), and Ft. Belvoir by consolidating components of DISA at Ft. Meade.

Justification/Impact:
- Consolidation of HQ locations from 11 to 1 eliminates redundancy and enhances efficiency.
- Encompasses 1.06 million GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person = 754,200 GSF.
- Eliminates 581,000 USF of leased space within the DC Area (726,000 GSF equiv).
- 5 leased locations can be closed: approx. 555,000 USF.
- Affects 4,714 personnel, as currently reported. Scenario estimates a 20% personnel savings as a result of consolidation, or 943 positions.
- Enhances AT/FP
- Relocates major tenant from Arlington Service Center and allows Navy to consider closing that installation.
- Ft. Meade reports 28,755 GSF of vacant administrative space and sufficient land to accommodate 7.4 million GSF of new administrative space.

Scenario # | HSA-0047  
---|---
Date Created: | 10/15/2004  
Scenario Title: | MAH-MAH 0004 (DC): Co-locate Missile and Space Defense Agencies  
Description:

Close 7 leased locations in the DC Area, close 10 leased locations in Huntsville, AL, realign 3 leased locations in the DC Area, realign Naval Support Activity Dahlgren, and facilitate disposal of Federal Office Building 2 by consolidating components of Missile Defense Agency (MDA) and co-locating with USA Space and Missile Defense Command Headquarters (SMDC), Naval Network and Space Operations Command (COMNAVNETSPAOPSCOM), and existing offices of SMDC and MDA at Redstone Arsenal.

Justification/Impact:
- Encompasses 933,000 GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person = 728,600 GSF.
- 17 leased locations can be closed: approx. 395,000 USF
- Affects 4,194 personnel, as currently reported. Scenario estimates a 14% personnel savings for MDA and SMDC as a result of consolidation, or 515 personnel, and a 7% personnel savings for the Navy activity as result of co-location, or 36 positions.
- Enhances AT/FP.
- Consolidation of HQs from multiple to single locations, e.g. MDA from at least 20 to 1, eliminates redundancy and enhances efficiency.
- Consolidation and co-location of large HQs facilitates possible consolidation of common support functions.
- Relocates major tenant from FOB 2, which is projected to close in 2010+.
- Consolidation and co-location of organizations with like missions promotes “jointness” and creates opportunities for synergy.

Description:

Realign 2 leased locations, close 7 leased locations, and facilitate disposal of Federal Office Building 2 (FOB 2) by consolidating MDA HQ and relocating at Ft. Meade.

Justification/Impact:
- Consolidation of MDA-controlled HQ locations from 10 to 1 eliminates redundancy and enhances efficiency.
- Comprises nearly 600,000 GSF (or equivalent), as currently reported as MDA-controlled. Computed space required at 200 GSF/person=419,600 GSF.
- Eliminates over 248,000 USF of leased space within the DC Area.
- 7 leased locations can be closed: approx. 195,000 USF.
- Affects approximately 2,400 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 341 positions.
- Enhances AT/FP.
- Relocates major tenant from FOB 2, which is projected to close in 2010+.
- Ft. Meade reports 28,755 GSF of vacant administrative space and sufficient land to accommodate 7.4 million GSF of new administrative space.

Scenario Title:  MAH-COCOMs-0002:  [C:reference below for scenario conflicts]  Co-Locate USARPAC with PACFLT and PACAF

Description:

Realign Ft Shafter, HI by co-locating USARPAC with PACFLT and PACAF and co-locating IMA Region Pacific with Navy Region HI with the Naval Station Pearl Harbor/Hickam AFB, HI Geo-cluster

Co-locates three PACOM service component commands in the Geo-cluster which will reduce footprint, improve interoperability, and realize savings through shared common support functions.

Realize savings through the potential closure of Ft Shafter, HI.

128,569 GSF vacant admin space available at Naval Station Pearl.

Utilizing space standard, USARPAC requires 34,400 sq. ft.

**Date Created:** | 10/15/2004  
**Scenario Title:** | MAH-MAH-0022 (Dc): Co-locate Miscellaneous OSD and 4th Estate Leased Locations  
**Description:**

Close 13 and realign 23 leased locations by co-locating components of the Office of the Secretary of Defense, Washington Headquarters Services, the Defense Technology Security Administration, the Defense Legal Services Agency, the Defense Human Resources Activity, the DoD Education Activity, and the DOD Inspector General along with sufficient space to accommodate overflow from the Pentagon Renovation Project at an administrative campus at the Engineering Proving Ground site at Ft. Belvoir.

**Justification/Impact:**

- Encompasses 1.2 million GSF (or equivalent) of regular leased space plus 1.0 million GSF as a placeholder for Pentagon Renovation overflow. Computed space required at 200 GSF/person = 1.7 million GSF.
- Eliminates 1,050,000 USF of regular leased space within the DC Area, plus over 900,000 equiv GSF in Pentagon Renovation space. Also eliminates one leased location in Georgia.
- 13 leased locations can be closed, including Pentagon Renovation buildings: approx. 1.3 million USF.
- Affects 3,679 personnel in regular space plus provides space for an estimated 5,000 personnel potentially affected by the Pentagon Renovation overflow, as currently reported.
- Scenario estimates a 20% personnel savings for WHS as a result of consolidation, or 61 positions, and a 7% factor for all other entities except OSD as a result of co-location, or 142 positions.
- Enhances AT/FP.
- Consolidation of HQ location with sub-components eliminates redundancy and enhances efficiency.
- Ft. Belvoir reports no vacant administrative space but sufficient land to accommodate over 15 million GSF of new administrative space.

Justification/Impact:
- Eliminates 162,000 USF of leased space within the DC Area.
- Affects 959 personnel. Scenario estimates a 14% personnel savings for SDDC as a result of consolidation, or 74 positions, and a 7% personnel savings factor for COMSC as a result of co-location, or 30 positions.
- Space required is 171,000 GSF.
- Enhances AT/FP.
- Co-location of organizations with like missions promotes “jointness” and creates opportunities for synergy.
- Consolidation and co-location of organizations facilitates possible consolidation of common support functions.
- Ft. Eustis reports no vacant administrative space and sufficient land to accommodate 6 million GSF of new administrative space.

**Scenario Title:** MAH-MAH-0011 (I): Co-locate MILDEP and DoD Medical Activities

**Description:**

Close 1 and realign 5 leased locations in the DC Area and realign Bolling AFB and Potomac Annex by co-locating the following medical entities at Walter Reed Army Medical Center (WRAMC): Tricare Management Agency, AF Medical Support Agency, USA Office of the Surgeon General (includes USA Medical Command (DC Area offices)), and Navy Bureau of Medicine (BUMED).

Justification/Impact:
- Eliminates 168,000 USF of leased space within the DC Area.
- Affects 1,589 personnel.
- Enhances AT/FP.
- Co-location of organizations with like missions promotes “jointness” and creates opportunities for synergy.
- Co-location of organizations facilitates possible consolidation of common support functions; applied a 7% personnel savings factor to the smallest organizations in this scenario, resulting in a forecast reduction of 71 positions.
- Space required is approximately 303,600 GSF.
- Relocates major tenant from Potomac Annex and allows Navy to consider closing that installation.
- Space is expected to become available at WRAMC as a result of other BRAC actions.

Scenario Title:  MAH-MAH-0020 (Dc): Relocate USA Space and Missile Defense Command (SMDC) Headquarters (Revised)

Description:

- Realign two leased space locations in Arlington, Virginia by relocating Headquarters components of USA Space and Missile Command to Redstone Arsenal.
- Justification/Impact:
  - Eliminates 27,000 USF of leased space.
  - Enhances AT/FP.
  - Consolidation of HQs from multiple to single locations eliminates redundancy.
  - Affects approximately 161 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 23 positions.
  - SMDC has existing, large presence at Redstone Arsenal.
  - Redstone Arsenal reports no vacant administrative space but sufficient land to accommodate over 30 million GSF of new administrative space.

Scenario Title:  | GC-CF-0015: [I] Create a Single Mid-Atlantic Joint Regional Correctional Facility

Description:

Realign Naval Station Norfolk, Marine Corps Base Quantico and Camp Lejeune by disestablishing the correction facilities at Marine Corps Base Quantico, Naval Station Norfolk and Camp Lejeune and relocating the mission to a single Level II joint regional correctional facility to be located in Hampton Roads South.

Justification/Impact:
- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Naval Station Norfolk (Year built-1972)/(FY02 inmate count-158); Marine Corps Base Quantico (Year built-1972)/(FY03 inmate count-46); Camp Lejeune (Year built-1969)/(FY02 inmate count-232). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ location in Chesapeake, Virginia.
- A 400 bed facility required.

Potential Conflicts:
- Cultural: Fewer DoD-level correctional facilities amongst military departments
- DON concern of 4-hour commute to Hampton Roads South and MOA w/FBI/CIA. No MOA exists between Quantico and FBI/CIA per Heads Corrections (PSL) HQ, USMC.

**Description:**

Close 5 leased locations and realign 4 leased locations and Arlington Service Center (Navy) by consolidating components of DISA at Ft. Belvoir.

Justification/Impact:
- Consolidation of HQ locations from 11 to 1 eliminates redundancy and enhances efficiency.
- Encompasses 1.06 million GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person = 754,200 GSF.
- Eliminates 581,000 USF of leased space within the DC Area (726,000 GSF equiv).
- 5 leased locations can be closed: approx. 555,000 USF.
- Affects 4,714 personnel, as currently reported. Scenario estimates a 20% personnel savings as a result of consolidation, or 943 positions.
- Enhances AT/FP
- Relocates major tenant from Arlington Service Center and allows Navy to consider closing that installation.
- Ft. Belvoir reports no vacant administrative space but sufficient land to accommodate over 15 million GSF of new administrative space.
- Scenario does not consolidate the following locations: Anacostia Annex, Chambersburg, and Mechanicsburg.

Scenario Title: | GC-DA-0005: Collocate Defense/MILDEP Adjudication Activities at Wright Patterson AFB, OH (26 Oct 04)

Description:
Realign Bolling AFB, Washington Navy Yard, the Pentagon, and Fort Meade, MD; and leased space in Arlington, VA, and Columbus, OH, by collocating MILDEP, Office of the Secretary of Defense, Department of Defense agency/activity security clearance adjudication activities in a new facility to be built at Wright-Patterson AFB, OH. This is an HSA and Intel collaborative scenario; the HSA JCSG is the Office of Primary Responsibility, the Intel JCSG is the Office of Collatoral Responsibility. This scenario enables HSA-0095; it creates a security clearance investigation/adjudication Center of Excellence at Wright Patterson AFB, OH.

**Scenario Title:**  MAH-MAH-0045 (Alt to MAH-0012): Create New Agency for Media and Publications

**Description:**

Realign Fort Belvoir, Anacostia Annex, 2 leased locations in Alexandria, VA, 1 leased location in Norfolk, VA, and 1 leased location in San Antonio, TX by consolidating Army Broadcasting Service, Soldiers Radio & TV; Soldiers Magazine, Air Force News Agency, Army/Air Force Hometown News Service; Naval Media Center; and Navy’s Fleet Hometown News into a newly created DoD Media Activity at Lackland Air Force Base.

Close 1 leased location in Alexandria, VA by co-locating the American Forces Information Service with the new DoD Media Activity at Lackland Air Force Base.

**Justification/Impact:**
- Eliminates approximately 84,000 USF of leased space.
- Affects 608 personnel. Scenario estimates a 20% personnel savings for the media activities as a result of consolidation, or 78 positions, and a 10% savings for AFIS as a result of co-location, or 22 positions.
- Space required is approximately 101,600 GSF.
- Enhances AT/FP.
- Consolidation and co-location of organizations with like missions promotes “jointness” and creates opportunities for synergy.
- Consolidation and co-location of organizations facilitates possible consolidation of common support functions.
- Lackland AFB reports no vacant administrative space and sufficient land to accommodate 1.76 million GSF of new administrative space.

MAH-MAH-0046 (Alt to MAH-0020): Relocate USA Space and Missile Defense Command (SMDC) Headquarters

**Description:**

Realign two leased space locations in Arlington, Virginia by relocating Headquarters components of USA Space and Missile Command to Peterson Air Force Base.

Justification/Impact:
- Eliminates 27,000 USF of leased space.
- Enhances AT/FP.
- Consolidation of HQs from multiple to single locations eliminates redundancy.
- Affects approximately 161 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 23 positions.
- SMDC has existing, large presence at Peterson AFB.
- Peterson AFB reports 0 GSF of vacant administrative space and sufficient land to accommodate 2.3 million GSF of new administrative space.

Scenario Title: | MAH-MAH-0047 (Alt to MAH-0022): Co-locate Miscellaneous OSD and 4th Estate Leased Locations |
Description: | Close 13 and realign 23 leased locations by co-locating components of the Office of the Secretary of Defense, Washington Headquarters Services, the Defense Technology Security Administration, the Defense Legal Services Agency, the Defense Human Resources Activity, the DoD Education Activity, and the DOD Inspector General along with sufficient space to accommodate overflow from the Pentagon Renovation Project to an administrative campus at Walter Reed Army Medical Center (WRAMC).
Justification/Impact:
-Encompasses 1.2 million GSF (or equivalent) of regular leased space plus 1.0 million GSF as a placeholder for Pentagon Renovation overflow. Computed space required at 200 GSF/person = 1.7 million GSF.
-Eliminates 1,050,000 USF of regular leased space within the DC Area, plus over 900,000 equiv GSF in Pentagon Renovation space.
-13 leased locations can be closed, including Pentagon Renovation buildings: approx. 1.3 million USF.
-Affects 3,679 personnel in regular space plus provides space for an estimated 5,000 personnel potentially affected by the Pentagon Renovation overflow, as currently reported.
-Scenario estimates a 20% personnel savings for WHS as a result of consolidation, or 61 positions, and a 7% factor for all other entities except OSD as a result of co-location, or 142 positions.
-Enhances AT/FP.
-Consolidation of HQ location with sub-components eliminates redundancy and enhances efficiency.
-Space is expected to become available at WRAMC as a result of other BRAC actions.

- Realign Ft. Sam Houston by consolidating NETCOM regional office with existing office to form NETCOM Western Region at RIA.

**Justification/Impact:**

- Eliminates nearly 300,000 equivalent GSF of leased space within the DC Area.
- Impacts over 1,431 personnel (figure not final; missing some Army data).
- Enhances AT/FP.
- Co-location of organizations with like missions promotes "jointness" and creates opportunities for synergy.
- Co-location of organizations facilitates possible consolidation of common support functions.
- USA estimated personnel reduction of up to 200 positions (IMA Regions).
- Aberdeen Proving Ground reports 68,297 GSF of vacant administrative space and sufficient land to accommodate 9 million GSF of new administrative space.

**Description:**

Close 5 leased locations and realign 4 leased locations, Arlington Service Center (Navy), and Ft. Belvoir by consolidating components of DISA at Schriever Air Force Base.

**Justification/Impact:**
- Consolidation of HQ locations from 11 to 1 eliminates redundancy and enhances efficiency.
- Encompasses 1.06 million GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person = 754,200 GSF.
- Eliminates 581,000 USF of leased space within the DC Area (726,000 GSF equiv).
- 5 leased locations can be closed: approx. 555,000 USF.
- Affects 4,714 personnel, as currently reported. Scenario estimates a 20% personnel savings as a result of consolidation, or 943 positions.
- Enhances AT/FP. Relocates major tenant from Arlington Service Center and allows Navy to consider closing that installation.

**NOTE:** It is anticipated that this scenario will be further refined to be either Peterson AFB or Schriever AFB or parts of DISA at each installation.

  - **Scenario Title**: MAH-MAH-0048 (Alt to MAH-0013): Co-locate TRANSCOM Components

### Description

Realignment Washington Navy Yard, Ft. Eustis, and 1 leased location in Alexandria, Virginia by co-locating USN Military Sealift Command (COMSC) and USA Surface Deployment and Distribution Command (SDDC) with existing TRANSCOM Components at Scott Air Force Base.

**Justification/Impact:**
- Eliminates 162,000 USF of leased space within the DC Area.
- Affects 1,661 personnel. Scenario estimates a 14% personnel savings for SDDC as a result of consolidation, or 172 positions, and a 7% personnel savings factor for COMSC as a result of co-location, or 30 positions.
- Space required is 291,800 GSF.
- Enhances AT/FP.
- Co-location of organizations with like missions promotes “jointness” and creates opportunities for synergy.
- Consolidation and co-location of organizations facilitates possible consolidation of common support functions.
- Scott AFB reports no vacant administrative space and sufficient land to accommodate 1.86 million GSF of new administrative space.

### Losing Bases

- Eustis (Fort Eustis, VA) - Realignment
- Hoffman 2; Alexandria; VA (Alexandria, VA) - Realignment
- Washington Navy Yard (Washington, DC) - Realignment

### Losing Activities

Scenario Title: MAH-MAH-0049 (Alt to MAH-0011): Co-locate MILDEP and DoD Medical Activities

Description:

Close 1 and realign 5 leased locations in the DC Area and realign Bolling AFB and Potomac Annex by co-locating the following medical entities at the National Naval Medical Center in Bethesda: Tricare Management Agency, AF Medical Support Agency, USA Office of the Surgeon General (includes USA Medical Command (DC Area offices)), and Navy Bureau of Medicine (BUMED).

Justification/Impact:
- Eliminates 168,000 USF of leased space within the DC Area.
- Affects 1,589 personnel.
- Enhances AT/FP.
- Co-location of organizations with like missions promotes “jointness” and creates opportunities for synergy.
- Co-location of organizations facilitates possible consolidation of common support functions; applied a 7% personnel savings factor to the smallest organizations in this scenario, resulting in a forecast reduction of 71 positions.
- Space required is approximately 303,600 GSF.
- Relocates major tenant from Potomac Annex and allows Navy to consider closing that installation.
- Space is expected to become available at NNMC as a result of other BRAC actions.

**Scenario Title:** MAH-MAH-0052 (Alt to MAH-0002): Consolidate Missile Defense Agency (MDA) within DC Area

**Description:**

Realigned 2 leased locations, close 7 leased locations, and facilitate disposal of Federal Office Building 2 (FOB 2) by consolidating MDA HQ and relocating at Ft. Belvoir.

**Justification/Impact:**
- Consolidation of MDA-controlled HQ locations from 10 to 1 eliminates redundancy and enhances efficiency.
- Encompasses nearly 600,000 GSF (or equivalent), as currently reported as MDA-controlled. Computed space required at 200 GSF/person=419,600 GSF.
- Eliminates over 248,000 USF of leased space within the DC Area.
- 7 leased locations can be closed: approx. 195,000 USF.
- Affects approximately 2,400 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 341 positions.
- Enhances AT/FP.
- Relocates major tenant from FOB 2, which is projected to close in 2010+.
- Ft. Belvoir reports no vacant administrative space but sufficient land to accommodate over 15 million GSF of new administrative space.

**Description:**

**ASSUMPTION:** The intent of this scenario data call is to evaluate the transformation from a traditional Intermediate and Depot level maintenance construct to a new shore based Fleet Readiness Center (FRC). Under the new construct 6 FRCs will be established nationwide at strategic fleet concentrations to increase the effectiveness and efficiency of off aircraft and equipment maintenance thus increasing mission readiness and reducing total cost and turn-around-time.

For purposes of this SDC, NAVAIRDEPOT CHERRY POINT, NC on CO MCAS CHERRY POINT is to represent FRC EAST CHERRY POINT. Establish FRC EAST on CO MCAS CHERRY POINT and realigns/consolidates depot and intermediate maintenance workload and capability for the following activities; NAVAIRDEPOT CHERRY POINT, MARINE AVIATION LOGISTICS SQUADRON (MALS)-14, MALS-31, MALS-26, MALS-29 to FRC EAST. This scenario establishes the following detachments under FRC EAST: DET QUANTICO (surrogate responder is IMA HMX-1 QUANTICO), DET BEAUFORT (surrogate responder is MALS-31 BEAUFORT), DET NEW RIVER (surrogate responder is MALS-26).

Realign depot maintenance workload and capability for the commodity groups Aircraft Avionics/Electronics Components, Aircraft Cargo/Tanker, Aircraft Dynamic Components, Aircraft Engine Turbofan/Turbojet Augmented, Aircraft Engine Turboprop/Turboshaft, Aircraft Hydraulic Components, Aircraft Instruments Components, Aircraft Landing Gear Components, Aircraft Ordnance Equipment Components, Aircraft Other, Aircraft Other Components, Aircraft Pneumatic Components, Aircraft Rotary, Aircraft Structural Components, Aircraft VSTOL, APUs/GTEs/ATS/SPS/GTCs, Calibration, Depot Fleet/Field Support, Engine Exchangeables/Components, Fabrication and Manufacturing, Ground Support Equipment, Other Engines, and "Other" Commodity from NAVAIRDEPOT CHERRY POINT, NC on CO MCAS CHERRY POINT to FRC EAST. Realigned/Consolidated workload will also include movement of required personnel, equipment and support.

Consolidate Intermediate maintenance workload and capability for commodity groups Aircraft Components, Aircraft Engines, Fabrication & Manufacturing and Support Equipment from MALS-14 CHERRY POINT, NC on CO MCAS CHERRY POINT to FRC EAST.

Establish FRC EAST DET BEAUFORT on CO MCAS BEAUFORT and consolidates Intermediate maintenance workload and capability for commodity groups Aircraft, Aircraft Components, Aircraft Engines and Support Equipment from MALS-31 BEAUFORT, SC on CO MCAS BEAUFORT to FRC EAST DET BEAUFORT.

Consolidate depot maintenance workload and capability for the commodity groups Aircraft Fighter/Attack and Aircraft Other from NAVAIRDEPOT JACKSONVILLE DET BEAUFORT, SC on CO MCAS BEAUFORT to FRC EAST DET BEAUFORT.

Establish FRC EAST DET NEW RIVER on MCAS NEW RIVER and consolidates Intermediate maintenance workload and capability for commodity groups Aircraft Components, Aircraft Engines and Support Equipment from MALS-26 and MALS 29 NEW RIVER, NC on MCAS NEW RIVER to FRC EAST DET NEW RIVER.

Consolidate depot maintenance workload and capability for the commodity groups Aircraft Rotary, Aircraft VSTOL, Aircraft Cargo/Tanker, Aircraft Other, Aircraft Structure Components, Calibration, and "Other" Commodity from NAVAIRDEPOT CHERRY POINT DET NEW RIVER, NC on MCAS NEW RIVER to FRC EAST DET NEW RIVER.

Establish FRC EAST DET QUANTICO on CDR MCB QUANTICO and consolidates Intermediate maintenance workload and capability for commodity groups Aircraft Components, Aircraft Engines and Support Equipment from IMA HMX-1 QUANTICO, VA on CDR MCB QUANTICO to FRC EAST DET QUANTICO.

<th>The end state of this multi-action scenario will reduce the amount of leased space required in the National Capital Region (NCR) and create/expand Centers of Excellence for Battlefield Health and Trauma at Fort Sam Houston TX, Hyperbaric and Undersea Medicine at Groton CT, Infectious Disease at WRAMC-Forest Glenn Annex MD, and Medical Chemical Defense at APG-EA MD.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Narrative:</td>
<td>This scenario realigns combat casualty care R&amp;D activities, less neuroprotection, from Walter Reed Army Medical Center Forest Glen Annex in Silver Spring, MD (Walter Reed Army Institute of Research and Naval Medical Research Center), and disestablishes and relocates dental R&amp;D activities currently at Great Lakes Naval Training Center (U. S. Army Dental and Trauma Research Detachment, Naval Dental and Biomedical Research Laboratory, Air Force Dental Investigative Service) to a Tri-Service Center of Excellence for Battlefield Health and Trauma at the U.S. Army Institute of Surgical Research at Brooke Army Medical Center, Fort Sam Houston TX.</td>
</tr>
<tr>
<td>The three units at Great Lakes will realign to BAMC-ISR in their entirety (~83 FTEs), and the following elements of the Naval Medical Research Center and Walter Reed Army Institute of Research will realign:</td>
<td>- NMRC's Combat Casualty Care and Resuscitative Medicine Directorate, including those FTEs for the Tissue Transplant program office currently in leased space, but excluding those in the Hyperbaric Medicine Department (NMRC total ~60 FTEs)</td>
</tr>
<tr>
<td>- All of WRAIR's Division of Military Trauma Research (~89 FTEs) and approximately 20 additional authorized Combat Casualty support positions from the Divisions of Veterinary Medicine, Pathology, Logistics and Biometrics (WRAIR total ~109 FTEs)</td>
<td>Since USAISR's excess capacity is only 20 FTE's, if space is not available elsewhere within the BAMC facility, a MILCON project to accommodate a total of up to 232 personnel, including any associated increase in veterinary facilities, will be required as part of this scenario.</td>
</tr>
<tr>
<td>As part of this scenario, the NMRC Hyperbaric Medicine R&amp;D program, including approximately 9 FTE's and associated unique equipment will relocate to Groton CT to consolidate with the Naval Submarine Medical Research Laboratory (NSMRL). This move assumes that a planned MILCON project for NSMRL, currently scheduled for 2012, will be accelerated and expanded to accommodate relocation of unique equipment from NMRC. It is assumed that no military animal facility support is required, as this support can be provided through an agreement with local industry or academic facilities.</td>
<td>In order to optimally utilize capacity at the NMRC-WRAIR complex at Forest Glen Annex, the following organizational elements, currently located within leased space in the National Capital Region, will be relocated to the Forest Glen Annex:</td>
</tr>
<tr>
<td>- The Division of Retrovirology, WRAIR (~146 FTEs)</td>
<td>- The Division of Military Trauma Research and associated support personnel, Walter Reed Army Institute of Research, WRAMC, Silver Spring MD, W03KAA</td>
</tr>
<tr>
<td>- The vaccine research program of the NMRC Biological Defense Research Directorate (~24 FTEs). An alternative site for these personnel would be Fort Detrick, MD, but such a move would require accelerated recapitalization and expansion of the U.S. Army Medical Research Institute of Infectious Diseases and a relocation to Fort Detrick of the entire NMRC Biological Defense Directorate (~60 FTEs), as well as consideration of relocation of biodefense efforts of the WRAIR to Fort Detrick.</td>
<td></td>

**Registered Scenarios**

**Scenario #** MED-0024  
**Date Created:** 11/10/2004  
**Scenario Title:** Create Tri-Service Biomedical Research Centers of Excellence - Alternative 1b  
**Description:**

Abstract: The end state of this multi-action scenario will reduce the amount of leased space required in the National Capital Region (NCR) and create/expand Centers of Excellence for Battlefield Health and Trauma at Fort Sam Houston TX, Hyperbaric and Undersea Medicine at Panama City FL, Infectious Disease at WRAMC-Forest Glenn Annex MD, and Medical Chemical Defense at APG-EA MD.

Narrative: This scenario realigns combat casualty care R&D activities, less neuroprotection, from Walter Reed Army Medical Center Forest Glen Annex in Silver Spring, MD (Walter Reed Army Institute of Research and Naval Medical Research Center), and disestablishes and relocates dental R&D activities currently at Great Lakes Naval Training Center (U. S. Army Dental and Trauma Research Detachment, Naval Dental and Biomedical Research Laboratory, Air Force Dental Investigative Service) to a Tri-Service Center of Excellence for Battlefield Health and Trauma at the U.S. Army Institute of Surgical Research at Brooke Army Medical Center, Fort Sam Houston TX.

The three units at Great Lakes will realign to BAMC-ISR in their entirety (~83 FTEs), and the following elements of the Naval Medical Research Center and Walter Reed Army Institute of Research will realign:
- NMRC's Combat Casualty Care and Resuscitative Medicine Directorate, including those FTEs for the Tissue Transplant program office currently in leased space, but excluding those in the Hyperbaric Medicine Department (NMRC total ~60 FTEs)
- All of WRAIR's Division of Military Trauma Research (~89 FTEs) and approximately 20 additional authorized Combat Casualty support positions from the Divisions of Veterinary Medicine, Pathology, Logistics and Biometrics (WRAIR total ~109 FTEs)

Since USAISR's excess capacity is only 20 FTE's, if space is not available elsewhere within the BAMC facility, a MILCON project to accommodate a total of up to 232 personnel, including any associated increase in veterinary facilities, will be required as part of this scenario.

As part of this scenario, the NMRC Hyperbaric Medicine R&D program, including approximately 9 FTE’s and associated unique equipment, and the Naval Submarine Medical Research Lab, Groton CT, will relocate to Panama City FL to collocate with the Navy Experimental Diving Unit. This move assumes that a MILCON project for accredited animal facilities at Panama City can be funded and built prior to FY11, and that space exists at Panama City for renovation or a MILCON to accommodate relocation of personnel and unique equipment from NMRC.

Also, as part of this scenario, portions of the Division of Biochemistry and Medicine, WRAIR, which has historically been a major participant in the Medical Chemical Defense R&D program, will relocate to Aberdeen Proving Ground –Edgewood Area to consolidate with the U.S. Army Medical Research Institute of Chemical Defense to occupy excess capacity. (~31 FTEs)

In order to optimally utilize capacity at the NMRC-WRAIR complex at Forest Glen Annex, the following organizational elements, currently located within leased space in the National Capital Region, will be relocated to the Forest Glen Annex:
- The Division of Retrovirology, WRAIR (~146 FTEs)
- The vaccine research program of the NMRC Biological Defense Research Directorate (~24 FTEs). An alternative site for these personnel would be Fort Detrick, MD, but such a move would require accelerated recapitalization and expansion of the U.S. Army Medical Research Institute of Infectious Diseases and a relocation to Fort Detrick of the entire NMRC Biological Defense Directorate (~60 FTEs), as well as consideration of relocation of biodefense efforts of the WRAIR to Fort Detrick.

Assumptions:
- This move assumes that access to accredited animal facilities at Panama City prior to FY11, and that space exists at Panama City for relocation of personnel and unique equipment from NMRC.
- Excess space, or land for a MILCON, for up to 232 people is available in or adjacent to Brooke Army Medical Center.
- Definitions of TBRCEs are aligned at the sub-DTAP level and associated FTEs and Equipment must be confirmed.

Action list:

Creation of TBRCE for Battlefield Health and Trauma Research moves relevant assets of the following activities to Fort Sam Houston, TX, 48399, for collocation with W03SAA, U. S. Army Institute of Surgical Research.

**Defense agency:**
- None

**Army activities:**
- Division of Military Trauma Research and associated support personnel, Walter Reed Army Institute of Research, WRAMC, Silver Spring MD, W03KAA

Scenario #: MED-0025  Date Created: 11/10/2004
Scenario Title: Create Center of Excellence for Aerospace Medicine (Wright-Pat AFB)

Description:

Abstract: This scenario will co-locate all aerospace biomedical and human systems R&D performing activities with associated relevant education and training and healthcare delivery activities, thereby enabling efficient and synergistic use of personnel, equipment, and facilities for all 3 functions across all Services. It also reduces the use of leased space.

Narrative: The end state of this multi-action scenario will create a new Center of Excellence for Aerospace Medicine at Wright-Patterson Air Force Base. This scenario leverages and is coupled with a medical education and training scenario to consolidate aerospace medical education and training at a single site. This TBRCE includes all DoD research and technology development operations in the areas operational medical issues unique to aviation, including biodynamics, crashworthiness and survival, acceleration, life support equipment (aviation), aviation platform integration, and special occupational health criteria.

This scenario realigns and co-locates diverse aerospace and aeromedical R&D activities from: Brooks City Base, TX (311th Human Systems Wing [Air Force School of Aerospace Medicine, Air Force Institute for Operational Health, Human Systems Program Office (all except program managers identified as part of the Medical RDA Management Center in another scenario) and other pertinent Wing assets) and the Air Force Research Laboratory Human Effectiveness Directorate [less its Directed Energy Program]); Naval Air Station, Pensacola (Naval Aerospace Medical Research Laboratory); and Fort Rucker (Army Aeromedical Research Laboratory). All of the above activities will be relocated to Wright-Patterson AFB, where they will be co-located with the Air Force Research Laboratory Human Effectiveness Directorate.

The Tri-Service Directed Energy programs, currently co-located in leased space at Brooks City Base, will remain in their current location. An alternative is that Air Force and Navy directed energy programs will relocate to Wright-Patterson AFB, while the Army laser injury treatment program will be realigned to and consolidated with the Army Institute of Surgical Research, Fort Sam Houston, TX.

It is assumed that rotary wing aviation support facilities and flying ranges are available at Wright-Patterson AFB. In the event that such facilities are unavailable or unaffordable, a rotary wing flight detachment may be maintained at Fort Rucker, Alabama. It also assumes that Wright-Patterson AFB can provide adequate and affordable access to test subjects.

Since Air Force aeromedical education and training depends upon faculty drawn from R&D and operational medical support organizations that are currently co-located with the U. S. Air Force School of Aerospace Medicine (USAFSAM), the value of this scenario depends on movement of all relevant Air Force R&D activities in concert with USAFSAM.

Assumptions:
- Rotary Wing flight operations and maintenance support are available and affordable at Wright-Patterson AFB.
- Adequate space for expansion is available at Wright-Patterson AFB.
- A complete list of subordinate UICs for Air Force at Brooks City Base and Wright-Patterson AFB (AFRL and 311th Sys WG) has not been confirmed.
- Definitions of TBRCEs are aligned at the sub-DTAP level and associated FTEs and Equipment must be confirmed.
- Aerospace medicine education and training elements of the 3 Services will be collocated at Wright-Patterson AFB.

Action list:
Creation of TBRCE for Aerospace Medicine moves relevant assets of the following activities to ZHTV, Wright-Patterson AFB, Dayton, OH, for collocation with FFSDG, Air Force Research Lab, Human Effectiveness Division.

**Description:**

Abstract: This scenario will co-locate all aerospace biomedical R&D performing activities with associated relevant education and training and healthcare delivery activities, thereby enabling efficient and synergistic use of personnel, equipment, and facilities for all 3 functions across all Services.

Narrative: The end state of this multi-action scenario will create a new Center of Excellence for Aerospace Medicine at Brooks City Base. This scenario leverages and is coupled with a medical education and training scenario to consolidate aerospace medical education and training at a single site.

This scenario realigns and co-locates diverse aerospace and aeromedical R&D performing activities from: Wright-Patterson AFB (Air Force Research Laboratory Human Effectiveness Directorate); Naval Air Station, Pensacola (Naval Aerospace Medical Research Laboratory); and Fort Rucker (Army Aeromedical Research Laboratory). All of the above activities will be relocated to Brooks City Base, where they will be co-located with the 311th Human Systems Wing, including the U.S. Air Force School of Aerospace Medicine and elements of the Air Force Research Laboratory Human Effectiveness Directorate.

Scenario #    MED-0028    Date Created:    11/10/2004
Scenario Title: Tri-Service Biomedical Research, Development and Acquisition Management Center (TBRDAMC)

Description:

Abstract: This scenario will co-locate all Biomedical Science and Technology, and FDA regulated medical product development, management activities to a single site at Fort Detrick MD, thereby enabling efficient and synergistic use of personnel, processes and acquisition support functions across all Services. It also reduces the need for leased space.

Narrative: The scenario realigns the activities listed below to TBRDAMC to be collocated with the many medical Acquisition, Technology and Logistics activities already located at Fort Detrick MD. The end state of this scenario is to collocate Army, Navy, Air Force, Marine Corps and Defense Agency biomedical D&A program management expertise for FDA regulated product development with Biomedical S&T program management expertise at a single site. In order to support DoD-wide coordination of medical/force health protection and Joint Operating Concepts of the future, this scenario provides a center of mass for coordination in planning and management of all defense biomedical RDA, which optimizes use of critical military professional personnel, licensed medical product D&A expertise, and regulatory affairs and contracting infrastructure capability at Fort Detrick. Synergies and efficiencies in management will be further enabled through development of integrated planning, programming and regulatory processes. Collocation also facilitates the ability of DoD elements to speak with a single voice when working with the FDA. This scenario also facilitates coordinated medical systems lifecycle management with the medical logistics organizations of the Military Departments, already co-located at Ft. Detrick.

Action list: Creation of the TBRDAMC moves relevant assets of the following activities to 24266, Fort Detrick, MD to collocate with W03JAA, HQ, U.S. Army Medical Research and Materiel Command.

**Scenario Title:** Consolidate Air Force Inventory Control Point (ICP) command and control operations

**Description:**

Consolidate Air Force wholesale Inventory Control Point (ICP) command and control operations at a single point/commander and align Technology Repair Centers, Commodity Councils, and Sources of Supply as fully as possible.

The ICPs affected by this scenario are Ogden Air Logistics Center (OO-ALC), Hill AFB, UT, Warner Robins Air Logistics Center (WR-ALC), Robins AFB, GA. Although there are exceptions, support is generally located as follows: cargo aircraft and helicopter support at WR-ALC, bomber and engine overhaul support at OC-ALC, fighter and attack aircraft support at OO-ALC, and secure (cryptologic) communication systems support at CPSG.

The AFMC sustainment model assigns and co-locates product support, supply chain management, and repair expertise for specific technology areas and aircraft types at our Air Logistics Centers. The intellectual capital resident in this arrangement has created a shared technical base at each ALC that efficiently supports requirements across the spectrum of sustainment disciplines. AFMC has experienced much recent sustainment success and plans to use it and the BRAC process as a springboard to achieve optimal organization of its already highly integrated supply chain, as follows:

1. Where materiel management and commodity organic repair workloads are not already aligned, achieve optimal alignment by moving the Source of Supply (SOS) to the ALC Technology Repair Center (TRC).
2. Improve command & control of Air Force spares support by consolidating Inventory Control Point (ICP) command and control operations at a single point/commander, with the remaining functions consolidated to 3 sustainment wings at the ALCs.
3. Solidify strategic supply chain sourcing via PSCM Commodity Councils to leverage our buying power among our major suppliers wherever possible. Solidification method is where commodity management, SOS, and TRC are not already aligned, achieve optimal alignment by moving SOS and/or TRC.

1) Inventory Control Points (ICPs) are responsible for performing a number of functions associated with material acquisition, distribution, and maintenance planning. ICP functions were categorized as either integrated material management functions (IMM) or Service “user” functions in the DMRD 926 ICP Consolidation Study, completed in 1990. Since some of the basic IMM functions are separated in this scenario, we will use different terms to differentiate the intent. “Consolidated ICP Functions” represents the command and control supply chain business functions such as policy, consolidation, prioritization, etc. “ALC Supply Chain Management Functions” represents the in-depth work done at the detailed (item/subsystem/system) level, such as the technical/engineering base, demand and supply planning, etc. For the purposes of this scenario, ICP is defined as ALL Air Force managed items (depot level reparables, consumables, and support equipment) and personnel responsible for the associated functions as listed below:

   a) Consolidated ICP Functions. The consolidated ICP will perform:
      • Centralized forecasting and budgeting for spare part re-procurement and repair requirements
      • Develop prices
      • Perform working capital fund financial management
      • Distribute and prioritize deliveries of spares to users
      • Manage assigned strategic supplier relationships
      • Approve acquisition strategies of the Commodity Councils
      • Develop readiness based inventory levels
      • Orchestrate all supply chain operations.

   b) ALC Supply Chain Management Functions. Supply chain management responsibilities, aligned under the new Combat Sustainment Wings at each ALC, will retain the item level management tasks:
      • Operating Commodity Councils
      • Contracting for the acquisition of materiel through purchase of new or repaired items
      • Providing engineering and technical support (includes configuration management)
      • Performing demand and supply planning, (includes requirements determination, war reserve requirements, maintenance management, material support to Depot Maintenance for General Support Division (GSD) items, Initial Supply Support Lists, provisioning, and budgeting/funding)
      • Managing customer and supplier relations
      • Managing assigned strategic supplier relationships
      • Introducing items into the DOD catalog
      • Processing requisitions and stock control
      • Initiating actions to dispose of excess materiel
      • Weapon System Secondary Item Supply Support

2) The ICP single commander provides the unity of command necessary to ensure spares are acquired and delivered to achieve Air Force weapon system availability targets at the lowest possible costs.

3) Commodity Councils, Material Support to Depot Maintenance for General Support Division (GSD) items, and other Purchasing and Supply Chain Management (PSCM) initiatives are considered to be part of the ICP.

4) This consolidation will reduce overhead overall by eliminating duplicative functions at the headquarters & ALCs. In pursuing efficiencies,
Registered Scenarios

As Of: 12/17/2004

personnel savings will be realized from consolidations of AFMC/LG and ALC/LG activities (drawdowns of management and functional oversight activities).

<td>Transfer Service Common DLRs to DLA</td>
</tr>
</tbody>
</table>

**Description:**

This proposal realigns management of approximately 31,000 common depot level reparables (DLRs) from the Military Services to the Defense Logistics Agency (DLA) and serves as segue for future DLR consolidation under DLA.

There are approximately 380,000 DLRs currently being managed by the Military Services. Service materiel control and recoverability codes were used to identify items as DLRs. Approximately eight percent of these DLRs are used by more than one Service/Agency. For the purposes of this scenario, DLRs used by more than one Service/Agency are defined as common. The Federal Logistics Information Service (FLIS) database was used to identify items as DLRs and then further identify those that were “common”. Based on dollar value (standard price – range only), common items represent less than five percent of the total value.

Currently, all DLRs are managed within Service unique automated information systems (AIS). Modification of existing Service AIS systems or development of a unique DLA reparable management system is a significant management challenge not specifically addressed in this scenario. Once a system is developed consolidation of personnel at a DLA ICP would need to be considered as would a virtual transfer to DLA in place. We expect that estimates of the number of Service personnel needed to support the management of the common DLRs within DLA can be provided by the Services based on the number and complexity of items to be managed. Associated movement costs can then be developed using the Cost of Base Realignment Actions (COBRA) model.

Like the consumable item transfer (CIT) program, this would be executed in phases with the first phase encompassing the less complex common DLRs throughout the Military Services. The CIT effort was implemented to eliminate the duplicate management of consumable items in DoD and to minimize the number of required item managers. Problems associated with the CIT Phases I and II processes included an inconsistent application of the filter criteria used to identify the items for transfer, some essential logistics data associated with items transferred was not transferred to DLA, no methodology was provided to incorporate program requirements data into the transfer process, a substantial amount of excess inventory for inactive items were transferred from the Services, Services retained management of consumable items that should have been transferred to DLA and they did not provide full pipelines of inventory assets to DLA when transferring the items.

**Scenario Title:** Establish a Single Army Inventory Control Point (Select and Related Functions) at Fort Monmouth, NJ

**Description:**

Establish a Single Army Inventory Control Point (AICP) by consolidating the inventory management and related support functions from the three Army Commands (AMCOM, CECOM, and TACOM) at Fort Monmouth, NJ. This allows the Army to have one inventory Control Point (ICP) providing inventory management functions at one location. Additionally, this proposal also consolidates related supporting contracting functions at Fort Monmouth, NJ.

## Registered Scenarios

**Scenario #**: S&S-0041  
**Date Created**: 12/17/2004

### Scenario Title:
Consolidate NAVICP at NSA Philadelphia. Retain NAVICP warehousing function at NSA Mechanicsburg

### Description:
Consolidate NAVICP at NSA Philadelphia. Retain NAVICP warehousing function as NAVICP Det Mechanicsburg at NSA Mechanicsburg.

**Details:**
1) Relocate NAVICP Mechanicsburg and consolidate with NAVICP Philadelphia at NSA Philadelphia
2) Realign NAVICP Mechanicsburg Code 009, OSM and associated Security functions to NAVICP Det Mechanicsburg at NSA Mechanicsburg
3) Disestablish NAVICP Mechanicsburg

Scenario # S&S-0043  Date Created: 12/17/2004
Scenario Title: Privatize Storage and Distribution on Specific Commodities (Tires)

Description:

Privatizes the wholesale supply, storage and distribution of tires used by DoD. Specific functions to be privatized include inventory management, requirements forecasting, acquisition, retrograde management, receiving, storing, issuing, inspecting, transporting, and disposing of tires. The scenario envisions privatized activities being performed at contractor facilities which frees-up Government infrastructure and reduces requirements for personnel. Contractors will be expected to make direct deliveries of tires to customer organizations within the US, and to Strategic Distribution Platforms for OCONUS customers.

The Distribution Depots affected are: Columbus, Tobyhanna, Susquehanna, Richmond, Norfolk, Cherry Point, Warner Robins, Albany, Jacksonville, Anniston, Corpus Christi, Red River, Oklahoma City, San Diego, Barstow, San Joaquin, Hill, and Puget Sound

Scenario Title: Defense Research Service Led Laboratories

Description:
This scenario realigns and co-locate the three service corporate laboratories. Additionally it creates a virtual “Defense Research Laboratory” by establishing a board of directors including Director of Defense Research and Engineering (DDRE), Technical Director of the Naval Research Laboratory (TD-NRL), Commanding Officer of Air Force Research Laboratory (CC-AFRL), Technical Director Army Research Laboratory (TD-ARL) and the Service S&T executives. The Board of Directors will advise and steer Research Labs to reduce duplicative efforts & foster joint centers of excellence. The purpose of this scenario is to consolidate to a smaller number of Service-centric geographic locations in order to increase the multidisciplinary collection of R&D expertise across DTAP capability areas at those locations.

The end state of this scenario will consolidate the Naval Research Laboratory to one primary location, the Army Research Laboratory to one primary location, and the Air Force Research Laboratory to a maximum of four locations. This scenario will provide Service Centric consolidated centers of mass for Science and Technology, with increased effectiveness and efficiencies.

**Date Created:**  10/22/2004

**Scenario Title:** Consolidate Extramural research Program managers to ARL/Adelphi

**Description:**

Realign and Co-locate the following organizations at a Military Base in the National Capital Region. The purpose of this scenario is to move all portions of the following organizations located at the sites indicated. The end state of this scenario will be co-location of the organizations listed below at a single location. This “Joint Center of Excellence” will foster additional coordination among the extramural research activities of OSD and the MilDeps. Further it will enhance the Force Protection posture of the organizations by relocating them from leased space and onto a Military Base.

This scenario would co-locate from the following UICs to the Joint Center of Excellence for Extramural Research, all FTEs and equipment reported under BRAC Questions 3001-3005, 4277, 4279, and 4280 for all DTAP areas and functions.

**Scenario Title:** Establish/Consolidate Space RDAT&E at a minimum number of core sites

**Description:**
Establish/Consolidate Space Research and Space D & A at a minimum number of core sites seeks to leverage the synergies generated by this scenario to more efficiently develop military space capabilities. Consolidate Space Platform Research to two core sites, Kirtland AFB, NM and Naval Research Lab in Washington, DC. Consolidate Space Systems Development and Acquisition (D&A) at Peterson AFB to optimize the joint organizing, training and equipping functions for space organizations. Consolidation of Space T & E does not reveal realignment or closure opportunities.

**Scenario #:** TECH-0017  **Date Created:** 10/25/2004

**Scenario Title:** Relocate DoD Guns & Ammunition RD&A and selected T&E at one location (Picatinny)

**Description:**

Relocate DoD Guns & Ammunition RD&A (except energetic materials) at Picatinny. Relocate gun/ammunition research (except energetic materials) from Aberdeen, Gun/Ammunition/fuze RD&A from Adelphi, gun/ammunition RDAT&E from Crane, Dahlgren, Port Hueneme (Louisville Detachment), Quantico, China Lake, Eglin; and gun RD&A from Watervliet (Benet Lab) to Picatinny.

Definition of Guns & ammunition: Includes all RDAT&E associated with small, medium and large caliber gun systems, and any barrel launched ballistic rounds/systems. Includes but is not limited to mortars, tank rounds and systems, artillery, Navy Gun systems. Includes all work associated with gun systems, materials and propelling charges. Does not include guidance and control, and rocket motors. Does not include weapon systems integration.

**Scenario Title:** Relocate W&A RDAT&E to 3 Primary & 4 specialty; retain/relocate energetics at Indian Head

**Description:**

Relocate most Weapons and Armaments (W&A) Research, Development & Acquisition, Test & Evaluation (RDAT&E) including associated program management functions from organizations reporting W&A activity to three (3) primary locations [China Lake, Eglin, and Redstone Arsenal] and two (2) specialty capability locations [guns & ammo RDA and selected guns/ammo T&E @ Picatinny Arsenal and ship system/combat system integration @ Dahlgren], with weapon systems integration @ Corona to Port Hueneme and all weapons related RDAT&E from PAX River and Point Mugu to China Lake. Retain energetic materials capabilities at Indian Head and relocate energetics materials capabilities from Crane, Fallbrook and Yorktown to Indian Head.

**Definitions:**

- In Service Engineering (ISE): Those engineering activities that provide for an increase in capability of a system/sub-system/component after Full Operational Capability has been declared. ISE is separate from sustainment which is only associated with keeping the capability in service (without any material change in capability).
- Sustainment: Those engineering activities that maintain an existing capability of a system/sub-system/component for service use. Sustainment is separate from In Service Engineering (ISE) activities, which are associated with any change/upgrade in capability.
- Energetic Materials: Includes all R, D&A and T&E associated with the study and technology development of energetic materials used in rockets, gun propellants, warheads, fuzing, structures and other explosive and incendiary devices for air, land, sea, and underwater applications. Examples are energetic materials science, nanotechnology, energetic materials synthesis, energetic materials formulations, energetic materials processing technology, M&S contributing to technology development, interior ballistics, and fuzing.
- Underwater Weapons: Includes all R, D&A and T&E associated with weapon systems launched and or intended to attack underwater targets. Includes but not limited to underwater mines, mine countermeasures (water and surf zone), torpedoes and unmanned underwater vehicles. Does not include sub-launched cruise (e.g., Tomahawk) and ballistic missiles. Does not include weapon systems integration. Guns and Ammunition: Includes all R, D&A and T&E associated with small, medium and large caliber gun systems, and any barrel launched ballistic rounds/systems. Includes but is not limited to mortars, tank rounds and systems, artillery, and Navy Gun Systems. Includes all research associated with gun systems, materials and propelling charges. Does not include guidance and control, and rocket motors. Does not include weapon systems integration.
- Weapon Systems Integration: Includes all R, D&A and T&E associated with weapon and armaments integration on air, land, and sea platforms. This process combines weapon system(s) together on a platform via an automated control system. It allows for orchestrated weapon system engagement decisions and coordination on the host platform and/or between weapon systems on multiple platforms (including control systems for multiple weapon systems, e.g., combat systems).

## Description:

Retain Energetics Materials Capabilities at Indian Head and relocate energetic materials capabilities from Crane, Fallbrook and Yorktown to Indian Head.

**Definitions:**

Energetic Materials: Includes all RDAT&E associated with the study and technology development of energetic materials used in rockets, gun propellants, warheads, fuzing, structures and other explosive and incendiary devices for air, land, sea, and underwater applications. Examples are energetic materials science, nanotechnology, energetic materials synthesis, energetic materials formulations, energetic materials processing technology, M&S contributing to technology development, interior ballistics and fuzing.

Scenario #       TECH-0020          Date Created: 10/27/2004
Scenario Title: Joint Battlespace Environments Center

Description:

Realign and consolidate those facilities that are primarily focused on Battlespace Environments (meteorology, oceanography, terrain, and space environment) DTAP activities in research, development and acquisition (RDA) to create a Joint Battlespace Environments Center (JBSEC) at the Stennis Space Center, Stennis, MS.

This scenario realigns and consolidates Battlespace Environments DTAP activities in research, development and acquisition (RDA) for the subareas of space, atmospheric and oceanographic and terrain sciences establishing a Joint Battlespace Environments Center (JBSEC). This scenario only realigns the unique organizations (branch, division, detachment, or larger) that conducts RDA for the purpose of describing and characterizing the environment and develops models to characterize the impact of the environment on weapons systems. It does not realign individual technical experts embedded in host acquisition facilities whose primary function is to analyze the impact of the environment on current and emergent weapons systems. The JBESC will be located at the Stennis Space Center, Stennis, MS and will be merged with existing battlespace environments organizations at Stennis. The research, development and acquisition focus of the JBESC will be the weather, space weather, and oceanographic information systems used by all echelons (tactical, operational and strategic). This information is provided via software based systems such as Air Force Meteorological Information Systems (AFMIS) and the Navy Tactical Environmental Support System (TESS). The R&D being consolidated is software systems centered and is inclusive of atmospheric and ocean science related to weather, software engineering, models and simulations, high performance computation, and mathematics. This multidisciplinary collection of R&D expertise and their resulting production information systems are essential for advancements in the Battlespace Environment Joint Functional Concept (CJCSI 3170.01c).

The end state of this scenario is to consolidate Army, Navy, Air Force, Marine Corps, and Defense Agency RDA expertise on to a single site with one of the four DoD High Performance Computing (HPC) Major Shared Resource Centers (MSRCs). A single site is consistent with the strategy of the Technical Joint Cross Service Group because the National Oceanic and Atmospheric Agency performs alternative research facilities. In order to support Joint Functional Concepts and relevant Joint Operating Concepts of the future, this scenario provides a) a consolidated center-of-mass for the science base for theater weather, the enabling models and simulations, and predictive tools; b) ready access for research and development to a DoD high performance computing Major Shared Resource Center; and, c) efficiencies in development and acquisition through consolidated Joint Program Management where applicable. Units with size less than 30 FTEs are excluded unless otherwise noted.

This scenario consolidates and realigns, principally, the following organizations:

Air Force: Battlespace Environments Division of Air Force Research Laboratory (AFRL/VS), Hanscom AFB, MA.
Army: Atmospheric Sciences Branches of the Army Research Laboratory at Adelphi Md (34 FTE) and White Sands Missile Range (71 FTE)
Navy: Navy Research Laboratory Marine Meteorology Division (Monterey CA; NRL-MMD) and Navy Research Laboratory Stennis Space Center (NRL-SSD), and Ocean and Atmospheric Directorate at NRL Washington (NRL-DC).

## Registered Scenarios

**Scenario #** TECH-0034  
**Date Created:** 11/12/2004  
**Scenario Title:** Defense Research Service Led Laboratories, Companion to TECH-0009

### Description:
This scenario is a companion to TECH-0009. As such it will examine alternative realignments as part of the creation of the Defense Research Laboratory. The DRL realigns and co-locate the three service corporate laboratories to provide greater synergy across DTAP technical capabilities and functions. Additionally it creates a virtual “Defense Research Laboratory” by establishing a board of directors including Director of Defense Research and Engineering (DDRE), Technical Director of the Naval Research Laboratory (TD-NRL), Commanding Officer of Air Force Research Laboratory (CC-AFRL), Technical director Army Research Laboratory (TD-ARL) and the Service S&T executives. The Board of Directors will advise and steer Research Labs to reduce duplicative efforts & foster joint centers of excellence. The purpose of this scenario is to consolidate to a smaller number of Service-centric geographic locations in order to increase the multidisciplinary collection of R&D expertise across DTAP capability areas at those locations. 

The end state of this scenario will consolidate the naval Research Laboratory to one primary location, the Army Research Laboratory to one primary location, and the Air Force Research Laboratory to a maximum of four locations. The DRL will provide service Centric consolidated centers of mass for Science and Technology, with increased effectiveness and efficiencies.

Scenario #   TECH-0037  Date Created:  11/18/2004
Scenario Title:  Establish A Joint Center for Rotary Wing Air Platform R, D&A, and T&E at Patuxent River
Description:

This scenario consolidates all rotary wing air platform RDAT&E at a single site at Patuxent River while retaining several speciality sites. The planned component moves will enhance efficiency by consolidating to a single major site while leveraging climatic/geographic conditions and extensive existing infrastructure.

Scenario # TECH-0038  Date Created: 11/18/2004
Scenario Title: Consolidate Extramural Research Program managers to Naval Research lab, DC

Description:

Realign and Co-locate the following organizations at a Military Base in the National Capital Region. The purpose of this scenario is to move all portions of the following organizations located at the sites indicated. The end state of this scenario will be co-location of the organizations listed below at a single location. This “Joint Center of Excellence” will foster additional coordination among the extramural research activities of OSD and the MilDeps. Further it will enhance the Force Protection posture of the organizations by relocating them from leased space and onto a Military Base.

This scenario would:
Realign from the following UICs to JBESC, FTEs and equipment reported under BRAC Questions 3001-3005, 4277, 4279, and 4280 for all DTAP areas and functions:

Office of Naval Research, Arlington, VA, N00014
Defense Advanced Research Project Agency, Arlington VA
Defense Threat Reduction Agency – NCR, Alexandria, VA
Army Research Laboratory/Army Research Office, Durham, NC, W26203
Army Research Laboratory/Army Research Office, Arlington, VA, W26205
AFRL/AFOSR, Arlington, VA, FFFJH

This scenario relocates and consolidates RDAT&E in Land Warfare into a single site. It enhances Life Cycle Management by physically consolidating organization contained in the Soldier/Ground Systems Life Cycle Management Command. The scenario promotes Synergy and efficiencies across the spectrum of functions involved in Land warfare RDAT&E (Soldier Systems, ground vehicle, guns and ammunition and CBD). The consolidation at APG collocates R&DA activities from the Soldier Systems Center (SSC) Natick, MA, Detroit Arsenal, Warren, MI, Adelphi Laboratory Center, MD, Ft. Belvoir, VA and Picatinny, NJ with significant T&E capabilities, which are not available at the current RD&A sites. It provides for a synergistic means to address the difficult survivability challenges for future soldiers and ground combat systems.

**Description:**

Realigned and Co-locate the following organizations at a Military Base in the National Capital Region. The purpose of this scenario is to move all activity of the following organizations located at the sites indicated and colocate them in close proximity to DTRA and the ARL-ARO detachment at Fort Belvoir. The end state of this scenario will be co-location of the organizations listed below at a single location. This “Joint Center of Excellence” will foster additional coordination among the extramural research activities of OSD and the MiDeps. Further it will enhance the Force Protection posture of the organizations by relocating them from leased space and onto a Military Base. This scenario would co-locate from the following UICs to the Joint Center of Excellence for Extramural Research, all government FTEs and equipment reported under BRAC Questions 3001-3005, 4277, 4279, and 4280 for all DTAP areas and functions.

Scenario # TECH-0050  Date Created:  12/9/2004
Scenario Title: Army Land Network Warfare LCM Center at NCR
Description:

This scenario consolidates C4ISR technical facilities into a minimum number of centers. Part one consolidates Ground Sensor, Electronic Warfare, Electronics and Information Systems Research (less the Ground Sensor, Electronic Warfare, Electronics and Information systems Research conducted at Ft. Belvoir) at Army Research Laboratory, Adelphi, MD. Consolidation of research includes moving research in Networks done by the Army Research Institute and research in cognitive engineering, human performance and in human factors associated with C4ISR and Networks by the Human Research and Engineering Directorate of ARL. The consolidated research organization will be coupled with neuroscience research at Walter Reed Army Institute of Research to form creation a Land Network Science Technology and Experimentation Center, which will perform the fundamental research required to enable Ground Network Centric Warfare. Part two consolidates Ground Sensor, Electronic Warfare, Electronics and Information Systems D&A at Belvoir.

**Scenario Title:** 256 AFRC JRB Ft Worth, TX

### Description:

Close the Weatherford, Sandage and Cobb Park TXARNG Armories, realign 5 USAR and 3 USMCR units already on NAS-JRB Ft Worth. Construct new joint facility on an enclave of NAS-JRB or if no land is available on NAS-JRB on property at the nearby Ft Worth storage area (coordination already begun).

Proposal includes two 7300 sq ft multi use (classroom, training, billets, emer/disaster spt) facilities. Includes an FMS and AMSA sub shop. NAS JRB Ft Worth AFRC is a leased facility on permitted land - $130K per yr. The JRB Ft Worth Bunker City is leased facility on permitted land - $130K per yr.

JAST # A041 - this is a USA proposal that consolidates ARNG and USAR onto NAS JRB Fort Worth or a nearby location. May include USMCR units that are already on NAS JRB Fort Worth.

## Registered Scenarios

**Scenario #** USAF-0010  
**Date Created:** 9/22/2004  
**Scenario Title:** Realign B-52 Fleet (S 201)  

### Description:

- Realign/consolidate current B-52 force structure at as few locations as practicable using standard squadron sizes and crews, consistent with Mission Capabilities Indices and Future Total Force tenants.
- Realign B-52s (12 PAA) from Barksdale AFB to Minot AFB (S201)
- Retire Attrition Reserve B-52 (18 PAA) Aircraft at Minot AFB (S201)
- Principles: Primary determinant - MCI rating; Target squadron size at 12 PAA; Limit wing size at <= 3 squadrons

### Losing Bases

- Barksdale AFB (Bossier City, LA) - Realignment
- Minot AFB (Minot, ND) - Realignment

### Losing Activities

- B-52 Bomber Squadron (12 PAA) - Relocate
- B-52 Bomber (18 PAA Retire) - Disestablish

### Receiving Bases

- Minot AFB (Minot, ND) - Receive

### Activities being Received

- B-52 Bomber Squadron (12 PAA)

**Scenario Title:** Realign KC-135 Tanker Fleet

**Description:**

Realign/consolidate current KC-135 force structure at as few locations as practicable using standard squadron sizes and crews, consistent with Mission Capabilities Indices and Future Total Force tenents.

Principle: Consolidate legacy fleet; ensures force available for AEF construct

Principles: Primary determinant - MCI rating; Optimize squadron size at 16 PAA (KC-135s)/12 15 PAA (KC-10)

Must maintain proximity to deployment routes

This scenario enables Navy scenario DON-036 and addresses the relocation of an CVN from NS Everett to Pearl Harbor. This relocation would include the movement of 6,000 active duty personnel and 12,000 family members into the Hawaii healthcare market.

This would require expansion of clinics at Tripler Army Medical Center, Pearl Harbor and Hickam AFB to maximum outpatient capacity. Likewise Tripler Army Medical Center would expand to absorb the additional inpatient workload. Medical personnel to support this move would come from NS Everett and Bremerton Naval Hospital. Any workload not absorbed by this expansion will be redirected to the local community.

**Losing Bases**

**Scenario Title:** Expand Healthcare Market in Guam to Enable DON-0037

**Description:**

This is an enabling scenario for DON-0037, moving a CVN, 1 DDG and 3 FFG from NS Everett to Guam.

This relocation would include the movement of 7000 active duty personnel and 14,000 family members into the Hawaii healthcare market.

Due to the extreme shortfall availability and quality of local healthcare resources, this scenario proposes to expand Naval Hospital Guam and Anderson AFB Clinic to absorb all of the healthcare workload.

Medical personnel from NS Everett and NS Bremerton would be relocated to address the growth in healthcare workload at Guam. Healthcare workload remaining at NS Bremerton would be referred to the local healthcare system.

### Losing Bases

Scenario Title: Create a Biomedical Research Center of Excellence for Hyperbaric and Undersea Medicine

Description:
This scenario realigns Hyperbaric and Undersea Medicine R&D activities from the Naval Submarine Medical Research Lab, Groton CT to Panama City FL to collocate with the Navy Experimental Diving Unit. This is an enabling scenario submitted in response to DON-0033 & 0034 which close the Groton site and thus conflict with MED-0023. It is also a subset of the moves described in MED-0024 but can be executed independently of that scenario in the event that MED-0024 is not approved, and either DON-0033 or 0034 is approved.

**Description:**

Realign Marine Corps Support Activity (MCSA) Kansas City MO by consolidating Marine Corps Mobilization Command (MOBCOM) with the operational military personnel functions of Headquarters Marine Corps Manpower & Reserve Affairs (M&RA) at Marine Corps Base Quantico VA.

ADDITIONAL INFO: M&RA (PERSCOM functions only) currently occupies ~ 128,693 SF; ~30,293 SF has been determined as available excess; scenario requires NO ADDITIONAL SF for the move of MOBCOM personnel functions to M&RA since they will fit into existing excess space.

Space made available at MCSA Kansas City = 237,539 SF.

**Reason Scenario was deleted**

Deleted 30 Nov 04. Realignment of MOBCOM has been changed to be incorporated in another HSAJCSG MAH scenario with Marine Corps Reserve Forces Command.

**Scenario Title:** GC-CF-0015: Create a Single Mid-Atlantic Regional Correctional Facility

**Description:**

Realign Naval Station Norfolk, Marine Corps Base Quantico and Camp Lejeune by disestablishing the correctional facilities at Marine Corps Base Quantico, Naval Station Norfolk and Camp Lejeune and relocating the mission to a single Level II joint regional correctional facility to be located in Hampton Roads South.

Justification/Impact:
- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Naval Station Norfolk (Year built-1972)/(FY02 inmate count-158); Marine Corps Base Quantico (Year built-1972)/(FY03 inmate count-46); Camp Lejeune (Year built-1969)/(FY02 inmate count-232). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ location in Chesapeake, Va.
- A 400 bed facility is required.

Potential Conflicts:
- Cultural: Fewer DoD-level correctional facilities amongst military departments.
- DON concern of 4-hour commute to Hampton Roads and MOA w/FBI/CIA. No MOA exists between Quantico and FBI/CIA per Heads Corrections (PSL) HQ, USMC.

MAH-MAH-0020: Relocate USA Space and Missile Defense Command (SMDC) Headquarters

### Description:
Realign two leased space locations in Arlington, Virginia by relocating Headquarters components of USA Space and Missile Command to Redstone Arsenal.

**Justification/Impact:**
- Eliminates 27,000 USF of leased space.
- Enhances AT/FP.
- Consolidation of HQs from multiple to single locations eliminates redundancy.
- Affects approximately 161 personnel, as currently reported. Scenario estimates a 14% personnel savings as a result of consolidation, or 23 positions.
- SMDC has existing, large presence at Redstone Arsenal.
- Redstone Arsenal reports no vacant administrative space but sufficient land to accommodate over 30 million GSF of new administrative space.

## Description:

Close 3 and realign 8 leased space locations in Arlington, Virginia by consolidating Naval Systems Management Activity (NSMA) leased locations and co-locating with Office of Naval Research, the Army Research Office (DC location only), and DARPA at Naval Support Activity Dahlgren.

**Justification/Impact:**
- Eliminates over 525,000 equiv. GSF of leased space within the DC Area in 11 locations. Computed space required at 200 GSF/person = 326,000 GSF
- 3 leased locations can be closed: approx. 95,000 USF
- Affects 1,800 personnel. Scenario estimates a 14% personnel savings for NSMA as a result of consolidation, or 93 positions, and a 7% personnel savings for the other activities as a result of co-location, or 79 positions.
- Enhances AT/FP.
- Naval Support Activity Dahlgren reports no vacant administrative space and sufficient land to accommodate 2.3 million GSF of new administrative space.
- Co-location of organizations with like missions promotes "jointness" and creates opportunities for synergy.
- Co-location of organizations facilitates possible consolidation of common support functions.

### Date Created: 10/21/2004
### Deleted

### Scenario Title:
MAH-MAH-0031 (U): Relocate Department of Defense Education Activity (DoDEA)

### Description:
Realign one leased location in Arlington, Virginia and close one leased location in Peachtree City, Georgia by consolidating DODEA at Location TBD(Base X).

- **Justification/Impact:**
  - Eliminates nearly 110,000 USF of leased space.
  - Affects 471 personnel. Scenario estimates a 14% personnel savings as a result of consolidation, or 66 positions.
  - Space required is 81,000 GSF (may be reduced if Civilian Personnel activity is removed)
  - Enhances AT/FP.
  - Consolidation of HQs from multiple to single locations eliminates redundancy and enhances efficiency

### Reason Scenario was deleted
- Scenario is being combined with HSA 0053 and its alternate: HSA 0106

**Description:**

- Realign leased space in Warner-Robins, GA. By co-locating Air Force Reserve Recruiting Service (RC) with Air Force Recruiting Service (AC) at Randolph AFB, TX.
- Enhances Service AC/RC interoperability.
- Merge common support functions: 7 per (7% CS factor).
- Reduce footprint: 1.4k gsf (7% CS factor).
- Administrative buildable acres at Randolph AFB: 106.
- Required maximum acres at Randolph AFB: 1.2
- GSF vacant admin space available at Randolph AFB: 0.
- Total personnel relocated: 96

Conflicted: Per AF, Conflicts with HAS-0002, 0004, 0029, 0030, 0031, 0111 & USAF-0030. No alternate is presented.

**Scenario Title**: MAH-R&RC-0002: Relocate Army Accessions Command & Cadet Command

**Description**:

Realign Ft Monroe, VA by relocating Army Accessions Command and Cadet Command and co-locating with the Army Recruiting Command at Ft Knox, KY.
COCOM 0003, 0006 and USA 0113 enable the potential closure of Ft Monroe, VA by co-locating TRADOC at either Ft Story or Eustis, VA.
Enhances Service recruiting interoperability.
Merge common support functions.
Reduce staff: 15 per/3k gsf (7% CS factor).
Potential to close Ft Monroe (COCOM-0003, 0006, USA 0113).
Administrative buildable acres at Ft Knox: 183.
Required maximum acres at Ft Knox: 6.3.
Vacant administrative space available: 72k gsf.
Total personnel relocated: 440.

Conflicted: This scenario conflicts with H&SA-0006 & 0086; USA-0003, 0067, 0068 & 0121.

**Description:**

This scenario assumes a DON scenario which moves a CVN Strike Group from San Diego to Hawaii, moves a CVN from Everett to Bremerton and a CV from Mayport to Norfolk. Everett would be closed and 3 DD/DDGs from Everett would move to San Diego. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pearl Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. Also assumes 2 FFGs move from Pascagoula to Mayport and SIMA and NAVSTA Pascagoula close. Also assumes 5 MCMs and 6 MHCs move from Ingleside to both Mayport and to San Diego and Ingleside closes. All associated intermediate-level ship maintenance work moves to the new ship locations.

Scenario # | S&S-0003 | Date Created: | 9/27/2004
Scenario Title: Regionalization of Strategic Distribution (5 regions)

Description:

Expands the number of wholesale Strategic Distribution Platforms (SDPs) from two to five. It positions the SDPs regionally across CONUS and provides for storage and distribution support to customers on a regional basis. SDPs support their assigned customers while in CONUS and while deployed overseas. Realigns and downsizes CONUS DLA distribution depots located at industrial installations because the expanded number of SDPs negates the need for these full-up organizations. The downsized activities will perform limited receiving, storage and issuing functions for their collocated industrial activities.

Region 1: Boundaries are in the North-Maine, Vermont, New York, Michigan; South-Pennsylvania, Ohio, Indiana; East-New Jersey, Connecticut, New Hampshire, West-Wisconsin, and Illinois

- DDSP, Susquehanna: Susquehanna remains a strategic distribution platform but gets realigned and downsized. Its number of customers gets reduced to those in its assigned region and those permanently stationed across the Atlantic. As a result, its storage requirement is reduced. Susquehanna picks up command and control of the Tobyhanna Forward Distribution Point (FDP).
- Tobyhanna: The Tobyhanna DD gets realigned and downsized as a Forward Distribution Point (FDP) of Susquehanna. The activity will perform limited receipt, store and issue functions for Tobyhanna Army Depot. Personnel and infrastructure required at Tobyhanna will decrease.
- Columbus: The Columbus Distribution Depot gets closed in this proposal. Its storage and distribution functions will be performed at Susquehanna SDP.

Region 2. Boundaries are in the North-Delaware, Maryland, West Virginia, Kentucky; South-North Carolina; East-Virginia; West-Tennessee

- Norfolk: The Norfolk Distribution Depot will be realigned and expanded to become a strategic distribution platform supporting customers in the East Central US. Its storage and distribution infrastructure get expanded and, depending on available infrastructure at Norfolk, this may require MILCON. Norfolk also picks up command and control of the (FDP) at Richmond and Cherry Point. Norfolk's assigned personnel also increase to handle the increased mission.
- Richmond: The Richmond DD gets realigned as a (FDP) of Norfolk SDP. The DD will continue its storage functions for hazardous materials and ozone-depleting substances.
- Cherry Point: The Cherry Point DD gets realigned and downsized as an (FDP) of the Norfolk SDP. Personnel and infrastructure required at Cherry Point will decrease.

Region 3. Boundaries are in the North-South Carolina, Georgia, Alabama; South-Florida; East-Georgia; West-Mississippi.

- Warner Robins: The Warner Robins Distribution Depot will be realigned and expanded to become a strategic distribution platform supporting customers in the South Eastern US. Its storage and distribution infrastructure get expanded and, depending on available infrastructure at Warner Robins, this may require MILCON. Warner Robins also picks up command and control of the (FDP) at Anniston, Jacksonville, and Albany. Warner Robins’ assigned personnel also increase to handle the increased mission.
- Anniston: The Anniston DD gets realigned and downsized as a (FDP) of the Warner Robins SDP. Personnel and infrastructure required at Anniston will decrease.
- Jacksonville: The Jacksonville DD gets realigned and downsized as a (FDP) of the Warner Robins SDP. Personnel and infrastructure required at Jacksonville will decrease.
- Albany: The Albany DD gets realigned and downsized as a (FDP) of the Warner Robins SDP. Personnel and infrastructure required at Albany will decrease.

Region 4. Boundaries are in the North-Minnesota, North Dakota; South-Louisiana, Texas; East-Iowa, Missouri, Arkansas; West-Wyoming, Colorado, New Mexico

- Red River: The Red River Distribution Depot will be realigned and expanded to become a strategic distribution platform supporting customers in the Central US. Its storage and distribution infrastructure get expanded and, depending on available infrastructure at Red River, this may require MILCON. Red River also picks up command and control of the (FDP) at Corpus Christi and Oklahoma City. Red River’s assigned personnel also increase to handle the increased mission.
- Corpus Christi: The Corpus Christi DD gets realigned and downsized as a (FDP) of the Red River SDP. Personnel and infrastructure required at Corpus Christi will decrease
- Oklahoma City: The Oklahoma City DD gets realigned and downsized as (FDP) of the Red River SDP. Personnel and infrastructure required at Oklahoma City will decrease

Region 5. Boundaries are in the North-Idaho, Montana; South-Arizona; East-Idaho, Utah; West-Washington, Oregon, California.
- DDJC, San Joaquin: San Joaquin remains a Strategic Distribution Platform supporting customers in the Western US and those permanently
registered scenarios

As Of: 12/17/2004

stationed across the Pacific. Additionally, San Joaquin picks up command and control of (FDP) at Barstow, San Diego, Puget Sound and Hill AFB.

- Barstow: The Barstow DD gets realigned and downsized as a (FDP) of the San Joaquin SDP. Personnel and infrastructure required at Barstow will decrease.

- San Diego: The San Diego DD gets realigned and downsized as a (FDP) of the San Joaquin SDP. Personnel and infrastructure required at San Diego will decrease.

- Puget Sound: The Puget Sound DD gets realigned and downsized as a (FDP) of the San Joaquin SDP. Personnel and infrastructure required at Puget Sound will decrease.

- Hill AFB: The Hill AFB DD gets realigned and downsized as a (FDP) of the San Joaquin SDP. Personnel and infrastructure required at Hill will decrease.

Scenario #     S&S-0013     Date Created: 10/21/2004     Deleted
Scenario Title: Eliminate Base Level Supply Functions in Hampton Roads, VA area

Description:
Eliminate base level supply, storage and distribution functions for most classes of supply in favor of expanded use of Government Commercial Purchase Card and / or Performance Based contracts. Eliminates inventories and renders obsolete the base-level supporting infrastructure for the classes of supply listed below (for some branches of service):

CLASS II     Extra Materials
CLASS III    Fuels, POL, Lubricants
CLASS IV     Construction Materials
CLASS IX     Repair Parts (Selected)

The following classes of supply have been excluded due to not having a base-level supply function:

CLASS I      Food
CLASS V     Explosives
CLASS VI    Comfort Materials
CLASS VII   Major end items
CLASS VIII  Medical
CLASS X     Nation Building

Personnel reductions, facility closure, inactivation and/or demolition can be immediately realized while providing acceptable levels of service and Customer Wait Time to regional customers at substantially reduced cost to individual installations.

Losing: Fort Eustis, Fort Monroe, Fort Story, FCTCLANT Dam Neck, NAS Norfolk, NAS Oceana, NAB Little Creek, NAVMEDCEN Portsmouth, NAVSTA Norfolk, NAVWEPSTA Yorktown, Norfolk Naval Shipyard, Langley AFB

Reason Scenario was deleted
In deliberative session on 15 Nov 04, the S&S JCSG Principals agreed to delete this scenario. The scenario was deleted because:
- The JCSG lacked capacity and military value data to perform sufficient analysis
- The Regional Inventory Material Management (RIMM) initiative sponsored by OSD and already underway as a pilot program in San Diego, will accomplish the same objectives. The Principals agreed that the JCSG would work with the RIMM Program Office to synchronize RIMM implementation with S&S scenarios on regionalized strategic distribution platforms.

Eliminates inventories and renders obsolete the base-level supporting infrastructure for the classes of supply listed below (for some branches of service):

CLASS II     Extra Materials
CLASS III    Fuels, POL, Lubricants
CLASS IV    Construction Materials
CLASS IX    Repair Parts (Selected)

The following classes of supply have been excluded due to not having a base-level supply function:

CLASS I      Food
CLASS V     Explosives
CLASS VI    Comfort Materials
CLASS VII   Major end items
CLASS VIII  Medical
CLASS X     Nation Building

Personnel reductions, facility closure, inactivation and/or demolition can be immediately realized while providing acceptable levels of service and Customer Wait Time to regional customers at substantially reduced cost to individual installations.

Losing: Fort Lewis, NAS Whidbey Island, NAVSTA Everett, Naval Base Kitsap (formerly NAVSTA Bremerton and SUBASE Bangor), NUWC Keyport, STRATWEPFAC Silverdale, McChord AFB

Reason Scenario was deleted

In deliberative session on 15 Nov 04, the S&S JCSG Principals agreed to delete this scenario. The scenario was deleted because:

- The JCSG lacked capacity and military value data to perform sufficient analysis
- The Regional Inventory Material Management (RIMM) initiative sponsored by OSD and already underway as a pilot program in San Diego, will accomplish the same objectives. The Principals agreed that the JCSG would work with the RIMM Program Office to synchronize RIMM implementation with S&S scenarios on regionalized strategic distribution platforms.

Scenario Title: Consolidate base-level supply in areas with high density of installations (Hampton Roads, VA area)

Description:

Consolidates base-level supply, storage and distribution functions for all DOD installations in high density geographical clusters at a new or existing joint facility. Consolidates inventories and renders obsolete the base-level supporting infrastructure for the classes of supply listed below:

CLASS II Extra Materials
CLASS III Fuels, POL, Lubricants
CLASS IV Construction Materials
CLASS IX Repair Parts (Selected)

Personnel reductions, facility closure, inactivation and/or demolition can be immediately realized while providing acceptable levels of service and Customer Wait Time to regional customers at substantially reduced cost to individual installations.

Recommend beginning with analysis test cases focused on base-level supply, storage and distribution functions at selected DOD sites in Hampton Roads, VA and Puget Sound, WA with significant Army, Navy and Air Force installations to gather data and prove (or disprove) the concept on paper.

- Hampton Roads, VA: Supply, storage and distribution functions at the following activities are disestablished and their inventories are moved to an optimal site TBD.
  Fort Eustis
  Fort Monroe
  Fort Story
  FCTCLANT Dam Neck
  NAS Norfolk
  NAS Oceana
  NAB Little Creek
  NAVMEDCEN Portsmouth

Outsource Wholesale Distribution

**Description:**

Outsource all distribution (transportation) related services in CONUS currently performed by Defense Distribution Depots. Services to be outsourced include traffic management of incoming and outgoing trucks and railcars, staging and physical loading of commercial vehicles, small parcel and freight terminal operations and the actual transportation of material to customers. Services to be outsourced also include freight planning and record keeping.

The Defense Distribution Depots to have transportation services outsourced total 18 and are: Columbus, Tobyhanna, Susquehanna, Richmond, Norfolk, Cherry Point, Warner Robins, Albany, Jacksonville, Anniston, Corpus Christi, Red River, Oklahoma City, San Diego, Barstow, San Joaquin, Hill, and Puget Sound.

### Scenario # S&S-0021  
**Date Created:** 11/4/2004  
**Scenario Title:** Outsource Wholesale Storage and Distribution  
**Description:**

Outsource the wholesale storage and distribution functions and processes supporting DOD. This proposal outsources all the storage and distribution functions currently performed by the CONUS network of DLA distribution depots and strategic distribution platforms. For this proposal, outsourcing means to have private industry perform these functions using their facilities, infrastructure and personnel. Government facilities could be used only if vendors agree to lease it or purchase it. The proposal reduces the infrastructure burden of DoD and allows for reductions in personnel.

The following Strategic Distribution Platforms and Defense Distribution Depots are affected by this proposal: Columbus, Tobyhanna, Susquehanna, Richmond, Norfolk, Cherry Point, Warner Robins, Albany, Jacksonville, Anniston, Corpus Christi, Red River, Oklahoma City, San Diego, Barstow, San Joaquin, Hill, and Puget Sound.

**Scenario Title**: Privatize Storage and Distribution on Specific Commodities (Tires)

**Description**:

Privatizes the receipt, storage, issue, inspection, distribution, repair and disposal for all tires. Tires will be supported through a single designated vendor or a third party logistics arrangement. For this proposal, privatization means vendors perform storage and distribution functions from their facilities. Government facilities may be used by vendors only if leased or purchased. In either case, the Government infrastructure burden is reduced and requirements for personnel are also reduced.

The following Distribution Depots and Strategic Distribution Platforms are affected: Columbus, Tobyhanna, Susquehanna, Richmond, Norfolk, Cherry Point, Warner Robins, Albany, Jacksonville, Anniston, Corpus Christi, Red River, Oklahoma City, San Diego, Barstow, San Joaquin, Hill, and Puget Sound

On 16 Dec 2004, the Principals' of the S&S JCSG met to discuss the various scenarios the group was developing. A deliberative decision was made by the Principals to delete scenarios pertaining to privatization from the OSD Scenario Tracking Tool. These are S&S-0022, 0023, 0024. In its place, new scenarios will be entered into the tracker to incorporate the privatization of the supply, storage, and distribution at the wholesale level. We will continue to use the three commodities (tires, packaged POL, and compressed gases) in the three new scenarios.

<td>Regionalization of Strategic Distribution Platforms (3 Regions)</td>
<td>Description:</td>
<td>Expands the number of wholesale Strategic Distribution Platforms (SDPs) from two to three. It positions the SDPs regionally across CONUS and provides for storage and distribution support to customers on a regional basis. SDPs support their assigned customers while in CONUS and while deployed overseas. Retains the Defense Distribution Depots co-located with service industrial facilities. Region 1. Boundaries are in the North-Maine, Vermont, New York, Ohio, Michigan; South-Florida, Alabama; East-New Jersey, Delaware, Virginia, Georgia; West-Indiana, Kentucky, Tennessee, Mississippi. - DDSP, Susquehanna: Susquehanna remains a SDP but its customer base gets realigned and downsized. It will provide storage and distribution support to customers in its assigned Eastern US region and those permanently assigned OCONUS across the Atlantic. It will support those customers at their home bases and when deployed for contingencies. Region 2. Boundaries are in the North-Minnesota, North Dakota; South-Mississippi, Texas; East-Wisconsin, Illinois, Missouri, Arkansas, Louisiana; West-South Dakota, Nebraska, Oklahoma. - Red River: The Red River Distribution Depot will be realigned and expanded to become a SDP supporting customers in the Central US region. Its storage and distribution mission gets expanded to include all DoD customers in the Central region. Supplies and inventory will be redistributed to Red River from other wholesale locations. Depending on availability and condition of storage infrastructure at Red River, this may require some future MILCON. Red River's assigned personnel also increase to handle the increased mission. Region 3. Boundaries are in the North-Idaho, Montana; South-New Mexico, Arizona; East-Montana, Wyoming, Colorado; West-Washington, Oregon, California. - DDSJ, San Joaquin: San Joaquin remains a strategic distribution platform but its customer base gets realigned and downsized. Scenario Title: | Relocate Ground Vehicle RDAT&E at Detroit Arsenal to Selfridge ANG Base

**Description:**

Relocation of Detroit Arsenal to US Army Garrison - Selfridge is the initial proposed scenario. An alternative would be to consider relocation of Detroit Arsenal to US Army Garrison - Selfridge, except for unique special high-cost laboratory facilities residing at Detroit Arsenal. These facilities will be creatively and cost-effectively maintained at their current geographic location and would include, but not be limited to, 1) unique high-cost, extreme climatic, full scale combat vehicle simulation facilities/individual propulsion performance simulation test cells, and an additional unique full scale transient ground vehicle simulation facility, 2) full-scale unique DOD dynamic physical simulation “shaker” facility (used for spectrum from full-scale armored combat vehicles to tactical trucks/HMMWV type vehicles), 3) unique Army/DoD water and fuel laboratories (built in 1995 as a result of previous BRAC), and 4) additional unique central ground vehicle research laboratories. Physical movement of these capabilities from their current location to US Army Garrison - Selfridge might not be the most cost-effective alternative.

**Narrative:** This scenario proposes to relocate Detroit Arsenal to US Army Garrison – Selfridge. This move would retain the Army’s/DoD’s ground vehicle RD&A activity in the world automotive/ground vehicle capital of southeast Michigan. Southeastern Michigan is where the research and development headquarters reside for General Motors, Ford, Chrysler, General Dynamics Land Systems, Toyota-North America, Nissan-North America, Hino, Hyundai, Suzuki, Visteon, Delphi, Johnson Controls, Dana, and many others. Over 85% of the world's ground vehicle/automotive research and development resources are expended in this southeast Michigan location, and thus Detroit Arsenal's synergy and ability to leverage the automotive industry’s vast resources and tremendous investment in R&D has always been of immeasurable value to Army/DoD. In addition, local southeast Michigan academia (anchored by schools such as the University of Michigan, Kettering University [formerly General Motors Institute], Wayne State University, and many others) is a unique and world-class network of extremely focused automotive research institutions which Detroit Arsenal has extensively leveraged and used to obtain motivated world-class engineers and scientists to lead Army/DoD's ground vehicle/automotive efforts from Detroit Arsenal. A nationally unique wealth of automotive, world-class talent resides in southeast Michigan (near Detroit Arsenal) that far surpasses any other area of the country. Since southeastern Michigan is the premier location for automotive engineers, many of Detroit Arsenal engineers have grown up (technically and culturally) in this “world of ground vehicle/advanced automotive technology.” As such, it could be expected that very few current Detroit Arsenal engineers and scientists would leave the area to another location.

**Assumptions:**
- TJCSG did not collect any capacity or MIL VAL data on US Army Garrison – Selfridge. This data will need to be collected as part of the scenario data call.
- Another alternative that could be considered would be to move relocate PEO GCS, PEO CS&CSS, TACOM and TARDEC to US Army Garrison - Selfridge cantoning and minimally staff the special, high cost laboratory equipment that resides in Bldg 212 (Propulsion and Mobility Test Cells) and 215 (Physical Simulation – High Performance Computing).

Remanded to the Army
Abstract: Realign and consolidate Human Systems and Information Systems Technology DTAP activities in research, development and acquisition (R&D&A) for the subareas of modeling, simulation, training and cognitive sciences establishing a Joint Training, Modeling and Simulation Center (JTMSC) including relevant PEOs and PMs for training and mission rehearsal systems and their enabling information technologies.

Narrative: JTMSC will be located in the geographic vicinity of the Joint Forces Command’s Joint Training Analysis and Simulation Center (JTASC), Joint C4ISR Battle Center (JBC), and Joint Warfighting Center (JWC), Suffolk, Virginia. This Suffolk, VA site is positioned to enable the Joint C4 operational testing including the Joint Distributed Engineering Plant (JDEP). If a JFCOM site option is unavailable for this scenario, other reasonable site options for JTMSC in the Tidewater, Virginia area include Fort Eustis, Fort Monroe, Langley AFB, Norfolk Naval Base, Oceana Naval Air Station, Dam Neck Naval Station, or Little Creek Naval Base. The rationale for co-locating JTMSC with JTASC-JWC and the operational testing capability for C4 is the human-centered synergies of JTMSC with operators, trainers, testers, researchers and acquirers providing a continuum of expertise from science-to-D&A-to-testing into operational use. The target receiver site will be Joint Forces Command, N00066.

The end state of this scenario is to consolidate Army, Navy, Air Force, Marine Corps, OSD program offices (e.g., Advanced Distributed Learning (ADL) and Defense Modeling and Simulation) and Defense Agency RD&A expertise and requisite special equipment (e.g., simulators; computers, Tempest-secure facility for simulator suites, etc) to a single site in order to support “Training Transformation” by providing a) a consolidated center-of-mass for the science base of training systems and enabling models and simulations; b) ready access to active duty military personnel (i.e., current domain expertise and human subjects for research projects) and general domain experts for research and development providing a basis for efficient R&D project execution; c) enhance linkages to providers of Joint Training, Armed Forces staff education and relevant in-service technical training (e.g., school house and field) at operational military bases; and d) efficiencies in development and acquisition through consolidated Joint Program Management where applicable. Military Service platform-specific program offices would be attached to and collocated with JTMSC but would retain their command-and-control chain to the relevant Acquisition Executive.

Assumptions:
- This scenario would realign and consolidate training and simulation R, D&A to the JFCOM site in Suffolk, Virginia; however, if HS&A JCSG examines an alternate site for the JFCOM Suffolk activities for Force Protection, this scenario would “follow” the re-location of JTASC and JWC.
- Unconfirmed UICs for the following activities reported under BRAC data calls:
  - ARI HQ, Washington, DC
  - ARI Detachments (e.g., Orlando, Fort Benning, Fort Monroe, Boise, Fort Rucker, Fort Knox, Fort Leavenworth, Fort Bragg)
  - Defense Modeling and Simulation Office (DMSO), Alexandria, VA
  - Advanced Distributed Learning Co-Laboratory, Alexandria, VA
  - Advanced Distributed Learning Co-Laboratory, Orlando, FL
  - DARPA
- Close all DoD operations in the Orlando, Florida campus for training and simulation technology and relocate the following with equipment to the JTMSC.
- Close all DoD operations in the Mesa, AZ and relocate the following with equipment to the JTMSC.
- Realignment of FTEs and equipment reported under BRAC data calls for the subareas of training and cognitive sciences of the Human Systems DTAP area.

**Scenario Title:** Joint Chemical-Biological Defense RD&A Center

**Description:**

Abstract: Realign and co-locate the “Medical” Chemical Defense and “Non-Medical” Chemical and Biological Defense Research, Development and Acquisition (RDA) areas of BRAC-reported Chemical-Biological Defense DTAP activities to Aberdeen Proving Ground, Edgewood Area, MD.

Narrative: This scenario would consolidate, realign and relocate all service and DoD activities in “Medical” Chemical Defense and “Non-Medical” Chemical and Biological Defense Research, Development and Acquisition from the sites below to Aberdeen Proving Ground, Edgewood Area, MD.

The end state of this scenario is to consolidate Army, Navy, Air Force, Marine Corps, and Defense Agency medical chemical defense and non-medical chemical and biological defense RDA to a single site to form a National Center of Excellence. This center of CB Defense positions the Department of Defense to exploit a center-of-mass of scientific, technical, and acquisition expertise with the personnel necessary to provide defense against current and emerging chemical and biological warfare threats. This action completes earlier consolidations of military Service CB programs into a joint, co-located CB program.

**Assumptions:**

Unable to confirm UICs for Defense Agencies
Unable to confirm UIC for USAF Patrick AFB, 6

**Action List:** the following activities move from current locations to Aberdeen Proving Ground, Edgewood Area, MD.

Scenario Title: Establish Joint Chemical-Biological Defense T&E Center

Description:

Abstract: Co-locate all Chemical and Biological Defense Test and Evaluation (T&E) areas of BRAC-reported Chemical-Biological Defense (CBD) DTAP activities except those requiring ship-board evaluation to one military installation, Dugway Proving Ground, UT.

This scenario relocates all Service and DoD activities (excluding those requiring ship-board evaluation) in Chemical and Biological Defense T&E from the following sites to Dugway Proving Ground, UT. The end state of this scenario is to consolidate Army, Navy, Air Force, and Marine Corps Chemical and Biological Defense T&E to a single military CBD T&E site. This T&E center for CB Defense will position the Department of Defense to exploit synergy of service efforts with the considerable expertise and history of the T&E capabilities at Dugway Proving Ground. A single site for T&E will provide expert personnel necessary to provide rapid T&E for technologies needed to defend against current and emerging chemical and biological warfare threats. Scenario #    USA-0133  
**Scenario Title:** 486 Relocate Army Operational Test Command 
**Date Created:** 11/23/2004 

**Description:**
Move Operational Test Command (OTC) from Ft. Hood, TX to Ft. Bliss/White Sands Missile Range. Current, moving the test and evaluation requirements would decrease requirements on Fort Hood and supports future testing of the Army's future combat system (FCS) at the Fort Bliss and or White Sands Missile range complex. Moves all OTC elements of Army Test and Evaluation Command (ATEC) from Ft. Hood to Ft. Bliss/WSMR.

**Reason Scenario was deleted**
This proposal is deleted due to military judgement - moving the activity would break habitual relationships that the OTC leadership views as critical to mission accomplishment.
### Registered Scenarios

**Scenario #**: USA-0188  
**Date Created**: 12/10/2004  
**Scenario Title**: 272 AFRC Akron-Canton Airport, OH  
**Description**: Close NMCRC Akron, OH and relocate the USMCR unit into the OHARNG facility in Canton, OH. Minimal expansion will be required to accommodate the USMCR unit.  
JAST #A060 - This should become a DON proposal xx that Closes NMCRC Akron OH and consolidate USMC units into AFRC Akron-Canton Airport. Consolidate Navy units from NMCRC Akron OH into NMCRC Youngstown OH.

#### Reason Scenario was deleted

On 12/15/2004, Dr. College directed this proposal to be stopped. It does not involve Army units and does not close an Army Installation, using military judgement this is not an Army BRAC action. DON will submit a proposal that moves the MCR unit into the AFRC.

Close the Concord Road Facility. Close NMCRC Knoxville. Move the E-BDE HQ (278th ACR) from Knoxville Armory (Sutherland Road) onto McGhee-Tyson ANG Airbase with the HQ, 164th Air Refueling Wing inside the fence. Elements from the Knoxville Armory (Concord) move into the Sutherland Road facility. Consolidate TNGARNG Army Combined Support Maintenance Shop (CSMS) and Army Field Maintenance Shop (FMS) with TANG Air Ground Maintenance Complex into one up to date newly constructed complex/facility on McGhee-Tyson Air Base, Louisville, TN.

**Reason Scenario was deleted**

On 12/16/2004, Dr. College approved stopping this scenario due to the USAF withdrawing their support for the proposal and statement there was a lack of capacity. Stopped for capacity and military judgment.

**Scenario Title:** Army Soldier/Land System LCM Center two site Scenario

**Description:**
This scenario relocates and consolidates RDAT&E in Land Warfare into two sites. It enhances Life Cycle management by physically consolidating organizations contained in the Soldier/Ground Systems Life Cycle Management Command. This scenario promotes Synergy and efficiencies across the spectrum of functions involved in Land warfare RDAT&E (Soldier systems, ground vehicle, guns and ammunition and CBD). The consolidation at Aberdeen Proving Ground collocates R&DA activities from the Soldier Systems Center (SSC) Batucj, MA, Detroit Arsenal, Warren, MI, Adelphi Laboratory Center, MD, and Ft. Belvoir, VA with significant T&E capabilities, which are not available at the current RDA sites. It provides for a synergistic means to address the difficult survivability challenges for future soldiers and ground combat systems. This scenario, which does not relocate the facilities at Picatinny, NJ is a lower cost alternative to consolidation at a single site (TECH 0045).

Scenario Title: 289 Close Selfridge Army Activities

Description:
Close USAG SANGB. Army disestablishes Garrison activities and realigns or disestablishes non JCGG functions. The Industrial, Technical, and HSA JCSGs realigns or disestablish their assigned functions.

This proposal would close the US Army Garrison-Michigan at Selfridge Air National Guard Base. The USAG-M is a federal land owner within the perimeter of Selfridge Air National Guard Base. The mission of USAG-M (Selfridge) is to provide base support, services and facilities to the Selfridge joint military community including housing, morale support, education, information technology, safety, transportation, quality of life, safety, environmental and recreational services, family services, child development, maintenance and repair, law enforcement, force protection, medical, dental, base exchange, commissary and religion. The joint community is home to units of all four branches of the military services as well as the US Coast Guard and the Border Patrol who either live, work or visit Selfridge Air National Guard Base. USAG-M is the primary provider of support and services to ALL military and DHS personnel and their dependents.
