SUPPLEMENTARY INFORMATION:**I. Background**

This proposed rule supports one of DoD’s Better Buying Power initiatives by incorporating the requirement for a proposal adequacy checklist into the Defense Federal Acquisition Regulation Supplement (DFARS) at section 215.408, and an associated solicitation provision at DFARS 252.215–70XX, to ensure offerors take responsibility for submitting thorough, accurate, and complete proposals. The provision should be included in solicitations that require the submission of certified cost or pricing data.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs

and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* However, an Initial Regulatory Flexibility Analysis has been performed and is summarized as follows:

This proposed rule amends the DFARS to add a checklist for DoD contractors to complete under solicitations that require the submission of certified cost or pricing data, if the contracting officer chooses to use the provision. This rule will implement one of DoD's Better Buying Power initiatives.

The objective of the rule is to ensure that offerors submit thorough, accurate, and complete proposals. By completing the checklist, offerors will be able to self validate the adequacy of their proposals. The legal basis for the rule is 41 U.S.C. 1303.

The rule will apply to actions where cost and pricing data is required, at the discretion of the contracting officer. Based on data collected in FPDS-NG for FY2008-FY2010, there are on average 905 actions per year that met the criteria where the proposal adequacy checklist could be utilized. On average, 420 of those actions were with small business concerns.

The rule imposes no new reporting requirements. The rule does not duplicate, overlap, or conflict with any other Federal rules.

No alternatives were identified that would meet the objectives of the rule. Excluding the small number of small business concerns that may be subject to the rule would not be in the best interest of the small business concerns or the Government, because the proposal adequacy checklist was created directly from requirements already in the Federal Acquisition Regulation. While the checklist does not add burden, it provides a useful tool for ensuring proposal adequacy.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2011-D042), in correspondence.

IV. Paperwork Reduction Act

The rule contains information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35; however, these changes to the DFARS do not impose additional information collection requirements to the paperwork burden previously approved under OMB Control Number 9000-0013, entitled "Cost or Pricing Data Exemption Information."
