

**SUBPART 201.2—ADMINISTRATION**

*(Revised February 28, 2013)*

**201.201 Maintenance of the FAR.**

**201.201-1 The two councils.**

(c) The composition and operation of the DAR Council is prescribed in DoD Instruction 5000.35, Defense Acquisition Regulations (DAR) System.

(d)(i) Departments and agencies process proposed revisions of FAR or DFARS through channels to the Director of the DAR Council. Process the proposed revision as a memorandum in the following format, addressed to the Director, DAR Council, OUSD(AT&L), 3060 Defense Pentagon, Washington, DC 20301-3060; datafax (571) 372-6094.

I. **PROBLEM:** Succinctly state the problem created by current FAR and/or DFARS coverage and describe the factual and/or legal reasons necessitating the change to the regulation.

II. **RECOMMENDATION:** Identify the FAR and/or DFARS citations to be revised. Attach as TAB A a copy of the text of the existing coverage, conformed to include the proposed additions and deletions. Indicate deleted coverage with dashed lines through the current words being deleted and insert proposed language in brackets at the appropriate locations within the existing coverage. If the proposed deleted portion is extensive, it may be outlined by lines forming a box with diagonal lines drawn connecting the corners.

III. **DISCUSSION:** Include a complete, convincing explanation of why the change is necessary and how the recommended revision will solve the problem. Address advantages and disadvantages of the proposed revision, as well as any cost or administrative impact on Government activities and contractors. Identify any potential impact of the change on automated systems, e.g., automated financial and procurement systems. Provide any other background information that would be helpful in explaining the issue.

IV. **COLLATERALS:** Address the need for public comment (FAR 1.301(b) and Subpart 1.5), the Paperwork Reduction Act, and the Regulatory Flexibility Act (FAR 1.301(c)).

V. **DEVIATIONS:** If a recommended revision of DFARS is a FAR deviation, identify the deviation and include under separate TAB a justification for the deviation that addresses the requirements of [201.402\(2\)](#). The justification should be in the form of a memorandum for the Director of Defense Procurement and Acquisition Policy, Office of the Under Secretary of Defense (Acquisition, Technology, and Logistics).

(ii) The public may offer proposed revisions of FAR or DFARS by submission of a memorandum, in the format (including all of the information) prescribed in paragraph (d)(i) of this subsection, to the Director of the DAR Council.

*(Added February 28, 2013)*

**215.101 Best value continuum.**

**215.101-70 Best value when acquiring tents or other temporary structures.**

(a) In accordance with section 368 of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112-81), when acquiring tents or other temporary structures for use by the Armed Forces, the contracting officer shall award contracts that provide the best value. Temporary structures covered by this paragraph are nonpermanent buildings, including tactical shelters, nonpermanent modular or pre-fabricated buildings, or portable or relocatable buildings, such as trailers or equipment configured for occupancy (see also [246.270-2](#)). Determination of best value includes consideration of the total life-cycle costs of such tents or structures, including the costs associated with any equipment, fuel, or electricity needed to heat, cool, or light such tents or structures (see FAR 7.105(a)(3)(i) and [PGI 207.105\(a\)\(3\)\(i\)](#)).

(b) The requirements of this section apply to any agency or department that acquires tents or other temporary structures on behalf of DoD (see FAR 17.503(d)(2)).

**SUBPART 215.4—CONTRACT PRICING**

*(Revised February 28, 2013)*

**215.402 Pricing policy.**

Follow the procedures at PGI 215.402 when conducting cost or price analysis, particularly with regard to acquisitions for sole source commercial items.

**215.403 Obtaining certified cost or pricing data.**

**215.403-1 Prohibition on obtaining certified cost or pricing data (10 U.S.C. 2306a and 41 U.S.C. chapter 35).**

(b) *Exceptions to certified cost or pricing data requirements.* Follow the procedures at PGI 215.403-1(b).

(c) *Standards for exceptions from certified cost or pricing data requirements.*

(1) *Adequate price competition.*

(A) For acquisitions under dual or multiple source programs—

(1) The determination of adequate price competition must be made on a case-by-case basis. Even when adequate price competition exists, in certain cases it may be appropriate to obtain additional data to assist in price analysis.

(2) Adequate price competition normally exists when—

(i) Prices are solicited across a full range of step quantities, normally including a 0-100 percent split, from at least two offerors that are individually capable of producing the full quantity; and

(ii) The reasonableness of all prices awarded is clearly established on the basis of price analysis (see FAR 15.404-1(b)).

(B) If only one offer is received in response to a competitive solicitation, see 215.371-3.

(3) *Commercial items.*

(A) Follow the procedures at PGI 215.403-1(c)(3)(A) for pricing commercial items.

(B) By November 30th of each year, departments and agencies shall provide a report to the Director, Defense Procurement and Acquisition Policy (DPAP), ATTN: DPAP/CPIC, of all contracting officer determinations that commercial item exceptions apply under FAR 15.403-1(b)(3), during the previous fiscal year, for any contract, subcontract, or modification expected to have a value of \$15,000,000 or more. See PGI 215.403-1(c)(3)(B) for the format and guidance for the report. The Director, DPAP, will submit a consolidated report to the congressional defense committees.

#### (4) *Waivers.*

(A) The head of the contracting activity may, without power of delegation, apply the exceptional circumstances authority when a determination is made that—

(1) The property or services cannot reasonably be obtained under the contract, subcontract, or modification, without the granting of the waiver;

(2) The price can be determined to be fair and reasonable without the submission of certified cost or pricing data; and

(3) There are demonstrated benefits to granting the waiver. Follow the procedures at PGI 215.403-1(c)(4)(A) for determining when an exceptional case waiver is appropriate, for approval of such waivers, for partial waivers, and for waivers applicable to unpriced supplies or services.

(B) By November 30th of each year, departments and agencies shall provide a report to the Director, DPAP, ATTN: DPAP/CPIC, of all waivers granted under FAR 15.403-1(b)(4), during the previous fiscal year, for any contract, subcontract, or modification expected to have a value of \$15,000,000 or more. See PGI 215.403-1(c)(4)(B) for the format and guidance for the report. The Director, DPAP, will submit a consolidated report to the congressional defense committees.

(C) DoD has waived the requirement for submission of certified cost or pricing data for the Canadian Commercial Corporation and its subcontractors (but see 215.408(5) and 225.870-4(c)).

(D) DoD has waived certified cost or pricing data requirements for nonprofit organizations (including educational institutions) on cost-reimbursement-no-fee contracts. The contracting officer shall require—

(1) Submission of data other than certified cost or pricing data to the extent necessary to determine price reasonableness and cost realism; and

(2) Certified cost or pricing data from subcontractors that are not nonprofit organizations when the subcontractor's proposal exceeds the certified cost or pricing data threshold at FAR 15.403-4(a)(1).

#### **215.403-3 Requiring data other than certified cost or pricing data.**

Follow the procedures at PGI 215.403-3.

#### **215.404 Proposal analysis.**

##### **215.404-1 Proposal analysis techniques.**

(1) Follow the procedures at PGI 215.404-1 for proposal analysis.

(2) For spare parts or support equipment, perform an analysis of—

(i) Those line items where the proposed price exceeds by 25 percent or more the lowest price the Government has paid within the most recent 12-month period based on

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

reasonably available data;

(ii) Those line items where a comparison of the item description and the proposed price indicates a potential for overpricing;

(iii) Significant high-dollar-value items. If there are no obvious high-dollar-value items, include an analysis of a random sample of items; and

(iv) A random sample of the remaining low-dollar value items. Sample size may be determined by subjective judgment, e.g., experience with the offeror and the reliability of its estimating and accounting systems.

#### **215.404-2 Data to support proposal analysis.**

See PGI 215.404-2 for guidance on obtaining field pricing or audit assistance.

#### **215.404-3 Subcontract pricing considerations.**

Follow the procedures at PGI 215.404-3 when reviewing a subcontractor's proposal.

#### **215.404-4 Profit.**

##### *(b) Policy.*

(1) Contracting officers shall use a structured approach for developing a prenegotiation profit or fee objective on any negotiated contract action when certified cost or pricing data is obtained, except for cost-plus-award-fee contracts (see 215.404-74, 216.405-2, and FAR 16.405-2) or contracts with Federally Funded Research and Development Centers (FFRDCs) (see 215.404-75). There are three structured approaches—

- (A) The weighted guidelines method;
- (B) The modified weighted guidelines method; and
- (C) An alternate structured approach.

##### *(c) Contracting officer responsibilities.*

(1) Also, do not perform a profit analysis when assessing cost realism in competitive acquisitions.

(2) When using a structured approach, the contracting officer—

(A) Shall use the weighted guidelines method (see 215.404-71), except as provided in paragraphs (c)(2)(B) and (c)(2)(C) of this subsection.

(B) Shall use the modified weighted guidelines method (see 215.404-72) on contract actions with nonprofit organizations other than FFRDCs.

(C) May use an alternate structured approach (see 215.404-73) when—

(1) The contract action is—

---

15.403-4(a)(1); (i) At or below the certified cost or pricing data threshold (see FAR

(ii) For architect-engineer or construction work;

(iii) Primarily for delivery of material from subcontractors; or

(iv) A termination settlement; or

(2) The weighted guidelines method does not produce a reasonable overall profit objective and the head of the contracting activity approves use of the alternate approach in writing.

(D) Shall use the weighted guidelines method to establish a basic profit rate under a formula-type pricing agreement, and may then use the basic rate on all actions under the agreement, provided that conditions affecting profit do not change.

(E) Shall document the profit analysis in the contract file.

(5) Although specific agreement on the applied weights or values for individual profit factors shall not be attempted, the contracting officer may encourage the contractor to—

(A) Present the details of its proposed profit amounts in the weighted guidelines format or similar structured approach; and

(B) Use the weighted guidelines method in developing profit objectives for negotiated subcontracts.

(6) The contracting officer must also verify that relevant variables have not materially changed (e.g., performance risk, interest rates, progress payment rates, distribution of facilities capital).

(d) *Profit-analysis factors.*

(1) *Common factors.* The common factors are embodied in the DoD structured approaches and need not be further considered by the contracting officer.

#### **215.404-70 DD Form 1547, Record of Weighted Guidelines Method Application.**

Follow the procedures at PGI 215.404-70 for use of DD Form 1547 whenever a structured approach to profit analysis is required.

#### **215.404-71 Weighted guidelines method.**

##### **215.404-71-1 General.**

(a) The weighted guidelines method focuses on four profit factors—

(1) Performance risk;

(2) Contract type risk;

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

- (3) Facilities capital employed; and
- (4) Cost efficiency.

(b) The contracting officer assigns values to each profit factor; the value multiplied by the base results in the profit objective for that factor. Except for the cost efficiency special factor, each profit factor has a normal value and a designated range of values. The normal value is representative of average conditions on the prospective contract when compared to all goods and services acquired by DoD. The designated range provides values based on above normal or below normal conditions. In the price negotiation documentation, the contracting officer need not explain assignment of the normal value, but should address conditions that justify assignment of other than the normal value. The cost efficiency special factor has no normal value. The contracting officer shall exercise sound business judgment in selecting a value when this special factor is used (see 215.404-71-5).

#### **215.404-71-2 Performance risk.**

(a) *Description.* This profit factor addresses the contractor's degree of risk in fulfilling the contract requirements. The factor consists of two parts:

- (1) Technical--the technical uncertainties of performance.
- (2) Management/cost control--the degree of management effort necessary--
  - (i) To ensure that contract requirements are met; and
  - (ii) To reduce and control costs.

(b) *Determination.* The following extract from the DD Form 1547 is annotated to describe the process.

Item	Contractor Risk Factors	Assigned Weighting	Assigned Value	Base (Item 20)	Profit Objective
21.	Technical	(1)	(2)	N/A	N/A
22.	Management/ Cost Control	(1)	(2)	N/A	N/A
23.	Performance Risk (Composite)	N/A	(3)	(4)	(5)

(1) Assign a weight (percentage) to each element according to its input to the total performance risk. The total of the two weights equals 100 percent.

(2) Select a value for each element from the list in paragraph (c) of this subsection using the evaluation criteria in paragraphs (d) and (e) of this subsection.

(3) Compute the composite as shown in the following example:

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

	Assigned Weighting	Assigned Value	Weighted Value
Technical	60%	5.0%	3.0%
Management/ Cost Control	40%	4.0%	1.6%
Composite Value	100%		4.6%

(4) Insert the amount from Block 20 of the DD Form 1547. Block 20 is total contract costs, excluding facilities capital cost of money.

(5) Multiply (3) by (4).

(c) *Values: Normal and designated ranges.*

	Normal Value	Designated Range
Standard	5%	3% to 7%
Technology Incentive	9%	7% to 11%

(1) *Standard.* The standard designated range should apply to most contracts.

(2) *Technology incentive.* For the technical factor only, contracting officers may use the technology incentive range for acquisitions that include development, production, or application of innovative new technologies. The technology incentive range does not apply to efforts restricted to studies, analyses, or demonstrations that have a technical report as their primary deliverable.

(d) *Evaluation criteria for technical.*

(1) Review the contract requirements and focus on the critical performance elements in the statement of work or specifications. Factors to consider include—

- (i) Technology being applied or developed by the contractor;
- (ii) Technical complexity;
- (iii) Program maturity;
- (iv) Performance specifications and tolerances;
- (v) Delivery schedule; and
- (vi) Extent of a warranty or guarantee.

(2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value in those cases where there is a substantial technical risk. Indicators are—

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(A) Items are being manufactured using specifications with stringent tolerance limits;

(B) The efforts require highly skilled personnel or require the use of state-of-the-art machinery;

(C) The services and analytical efforts are extremely important to the Government and must be performed to exacting standards;

(D) The contractor's independent development and investment has reduced the Government's risk or cost;

(E) The contractor has accepted an accelerated delivery schedule to meet DoD requirements; or

(F) The contractor has assumed additional risk through warranty provisions.

(ii) Extremely complex, vital efforts to overcome difficult technical obstacles that require personnel with exceptional abilities, experience, and professional credentials may justify a value significantly above normal.

(iii) The following may justify a maximum value—

(A) Development or initial production of a new item, particularly if performance or quality specifications are tight; or

(B) A high degree of development or production concurrency.

(3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value in those cases where the technical risk is low. Indicators are—

(A) Requirements are relatively simple;

(B) Technology is not complex;

(C) Efforts do not require highly skilled personnel;

(D) Efforts are routine;

(E) Programs are mature; or

(F) Acquisition is a follow-on effort or a repetitive type acquisition.

(ii) The contracting officer may assign a value significantly below normal for—

(A) Routine services;

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

- (B) Production of simple items;
- (C) Rote entry or routine integration of Government-furnished information; or
- (D) Simple operations with Government-furnished property.

#### (4) *Technology incentive range.*

(i) The contracting officer may assign values within the technology incentive range when contract performance includes the introduction of new, significant technological innovation. Use the technology incentive range only for the most innovative contract efforts. Innovation may be in the form of--

(A) Development or application of new technology that fundamentally changes the characteristics of an existing product or system and that results in increased technical performance, improved reliability, or reduced costs; or

(B) New products or systems that contain significant technological advances over the products or systems they are replacing.

(ii) When selecting a value within the technology incentive range, the contracting officer should consider the relative value of the proposed innovation to the acquisition as a whole. When the innovation represents a minor benefit, the contracting officer should consider using values less than the norm. For innovative efforts that will have a major positive impact on the product or program, the contracting officer may use values above the norm.

#### (e) *Evaluation criteria for management/cost control.*

##### (1) The contracting officer should evaluate--

(i) The contractor's management and internal control systems using contracting office data, information and reviews made by field contract administration offices or other DoD field offices;

(ii) The management involvement expected on the prospective contract action;

(iii) The degree of cost mix as an indication of the types of resources applied and value added by the contractor;

(iv) The contractor's support of Federal socioeconomic programs;

(v) The expected reliability of the contractor's cost estimates (including the contractor's cost estimating system);

(vi) The adequacy of the contractor's management approach to controlling cost and schedule; and

(vii) Any other factors that affect the contractor's ability to meet the cost targets (e.g., foreign currency exchange rates and inflation rates).

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

#### (2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value when there is a high degree of management effort. Indicators of this are—

difficult; (A) The contractor's value added is both considerable and reasonably

(B) The effort involves a high degree of integration or coordination;

(C) The contractor has a good record of past performance;

(D) The contractor has a substantial record of active participation in Federal socioeconomic programs;

estimates; (E) The contractor provides fully documented and reliable cost

(F) The contractor makes appropriate make-or-buy decisions; or

(G) The contractor has a proven record of cost tracking and control.

(ii) The contracting officer may justify a maximum value when the effort—

(A) Requires large scale integration of the most complex nature;

(B) Involves major international activities with significant management coordination (e.g., offsets with foreign vendors); or

(C) Has critically important milestones.

#### (3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value when the management effort is minimal. Indicators of this are—

made; (A) The program is mature and many end item deliveries have been

(B) The contractor adds minimal value to an item;

(C) The efforts are routine and require minimal supervision;

(D) The contractor provides poor quality, untimely proposals;

(E) The contractor fails to provide an adequate analysis of subcontractor costs;

(F) The contractor does not cooperate in the evaluation and negotiation of the proposal;

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

- (G) The contractor's cost estimating system is marginal;
  - (H) The contractor has made minimal effort to initiate cost reduction programs;
  - (I) The contractor's cost proposal is inadequate;
  - (J) The contractor has a record of cost overruns or another indication of unreliable cost estimates and lack of cost control; or
  - (K) The contractor has a poor record of past performance.
- (ii) The following may justify a value significantly below normal—
- (A) Reviews performed by the field contract administration offices disclose unsatisfactory management and internal control systems (e.g., quality assurance, property control, safety, security); or
  - (B) The effort requires an unusually low degree of management involvement.

#### **215.404-71-3 Contract type risk and working capital adjustment.**

(a) *Description.* The contract type risk factor focuses on the degree of cost risk accepted by the contractor under varying contract types. The working capital adjustment is an adjustment added to the profit objective for contract type risk. It only applies to fixed-price contracts that provide for progress payments. Though it uses a formula approach, it is not intended to be an exact calculation of the cost of working capital. Its purpose is to give general recognition to the contractor's cost of working capital under varying contract circumstances, financing policies, and the economic environment.

(b) *Determination.* The following extract from the DD 1547 is annotated to explain the process.

Item	Contractor Risk Factors	Assigned Value	Base (Item 20)	Profit Objective
24.	Contract Type Risk	(1)	(2)	(3)

  

		Cost Financed	Length Factor	Interest Rate	
25.	Working Capital (4)	(5)	(6)	(7)	(8)

(1) Select a value from the list of contract types in paragraph (c) of this subsection using the evaluation criteria in paragraph (d) of this subsection.

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(2) Insert the amount from Block 20, i.e., the total allowable costs excluding facilities capital cost of money.

(3) Multiply (1) by (2).

(4) Only complete this block when the prospective contract is a fixed-price contract containing provisions for progress payments.

(5) Insert the amount computed per paragraph (e) of this subsection.

(6) Insert the appropriate figure from paragraph (f) of this subsection.

(7) Use the interest rate established by the Secretary of the Treasury (see [http://www.treasurydirect.gov/govt/rates/tcir/tcir\\_opdirsemi.htm](http://www.treasurydirect.gov/govt/rates/tcir/tcir_opdirsemi.htm)). Do not use any other interest rate.

(8) Multiply (5) by (6) by (7). This is the working capital adjustment. It shall not exceed 4 percent of the contract costs in Block 20.

(c) *Values: Normal and designated ranges.*

Contract Type	Notes	Normal Value (percent)	Designated Range (percent)
Firm-fixed-price, no financing	(1)	5	4 to 6.
Firm-fixed-price, with performance-based payments	(6)	4	2.5 to 5.5.
Firm-fixed-price, with progress payments	(2)	3	2 to 4.
Fixed-price incentive, no financing	(1)	3	2 to 4.
Fixed-price incentive, with performance-based payments	(6)	2	0.5 to 3.5.
Fixed-price with redetermination provision	(3)		
Fixed-price incentive, with progress payments	(2)	1	0 to 2.
Cost-plus-incentive-fee	(4)	1	0 to 2.
Cost-plus-fixed-fee	(4)	.5	0 to 1.
Time-and-materials (including overhaul contracts priced on time-and-materials basis)	(5)	.5	0 to 1.
Labor-hour	(5)	.5	0 to 1.
Firm-fixed-price, level-of-effort	(5)	.5	0 to 1.

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(1) “No financing” means either that the contract does not provide progress payments or performance-based payments, or that the contract provides them only on a limited basis, such as financing of first articles. Do not compute a working capital adjustment.

(2) When the contract contains provisions for progress payments, compute a working capital adjustment (Block 25).

(3) For the purposes of assigning profit values, treat a fixed-price contract with redetermination provisions as if it were a fixed-price incentive contract with below normal conditions.

(4) Cost-plus contracts shall not receive the working capital adjustment.

(5) These types of contracts are considered cost-plus-fixed-fee contracts for the purposes of assigning profit values. They shall not receive the working capital adjustment in Block 25. However, they may receive higher than normal values within the designated range to the extent that portions of cost are fixed.

(6) When the contract contains provisions for performance-based payments, do not compute a working capital adjustment.

(d) *Evaluation criteria.*

(1) *General.* The contracting officer should consider elements that affect contract type risk such as—

- (i) Length of contract;
- (ii) Adequacy of cost data for projections;
- (iii) Economic environment;
- (iv) Nature and extent of subcontracted activity;
- (v) Protection provided to the contractor under contract provisions (e.g., economic price adjustment clauses);
- (vi) The ceilings and share lines contained in incentive provisions;
- (vii) Risks associated with contracts for foreign military sales (FMS) that are not funded by U.S. appropriations; and
- (viii) When the contract contains provisions for performance-based payments—
  - (A) The frequency of payments;
  - (B) The total amount of payments compared to the maximum allowable amount specified at FAR 32.1004(b)(2); and
  - (C) The risk of the payment schedule to the contractor.

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(2) *Mandatory.* The contracting officer shall assess the extent to which costs have been incurred prior to definitization of the contract action (also see 217.7404-6(a) and 243.204-70-6). The assessment shall include any reduced contractor risk on both the contract before definitization and the remaining portion of the contract. When costs have been incurred prior to definitization, generally regard the contract type risk to be in the low end of the designated range. If a substantial portion of the costs have been incurred prior to definitization, the contracting officer may assign a value as low as 0 percent, regardless of contract type.

(3) *Above normal conditions.* The contracting officer may assign a higher than normal value when there is substantial contract type risk. Indicators of this are—

- (i) Efforts where there is minimal cost history;
- (ii) Long-term contracts without provisions protecting the contractor, particularly when there is considerable economic uncertainty;
- (iii) Incentive provisions (e.g., cost and performance incentives) that place a high degree of risk on the contractor;
- (iv) FMS sales (other than those under DoD cooperative logistics support arrangements or those made from U.S. Government inventories or stocks) where the contractor can demonstrate that there are substantial risks above those normally present in DoD contracts for similar items; or
- (v) An aggressive performance-based payment schedule that increases risk.

(4) *Below normal conditions.* The contracting officer may assign a lower than normal value when the contract type risk is low. Indicators of this are—

- (i) Very mature product line with extensive cost history;
- (ii) Relatively short-term contracts;
- (iii) Contractual provisions that substantially reduce the contractor's risk;
- (iv) Incentive provisions that place a low degree of risk on the contractor;
- (v) Performance-based payments totaling the maximum allowable amount(s) specified at FAR 32.1004(b)(2); or
- (vi) A performance-based payment schedule that is routine with minimal risk.

(e) *Costs financed.*

(1) Costs financed equal total costs multiplied by the portion (percent) of costs financed by the contractor.

(2) Total costs equal Block 20 (i.e., all allowable costs excluding facilities capital cost of money), reduced as appropriate when—

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(i) The contractor has little cash investment (e.g., subcontractor progress payments liquidated late in period of performance);

(ii) Some costs are covered by special financing provisions, such as advance payments; or

(iii) The contract is multiyear and there are special funding arrangements.

(3) The portion that the contractor finances is generally the portion not covered by progress payments, i.e., 100 percent minus the customary progress payment rate (see FAR 32.501). For example, if a contractor receives progress payments at 80 percent, the portion that the contractor finances is 20 percent. On contracts that provide progress payments to small businesses, use the customary progress payment rate for large businesses.

(f) *Contract length factor.*

(1) This is the period of time that the contractor has a working capital investment in the contract. It—

(i) Is based on the time necessary for the contractor to complete the substantive portion of the work;

(ii) Is not necessarily the period of time between contract award and final delivery (or final payment), as periods of minimal effort should be excluded;

(iii) Should not include periods of performance contained in option provisions; and

(iv) Should not, for multiyear contracts, include periods of performance beyond that required to complete the initial program year's requirements.

(2) The contracting officer—

(i) Should use the following table to select the contract length factor;

(ii) Should develop a weighted average contract length when the contract has multiple deliveries; and

(iii) May use sampling techniques provided they produce a representative result.

TABLE	
Period to Perform Substantive Portion (in months)	Contract Length Factor
21 or less	.40
22 to 27	.65
28 to 33	.90
34 to 39	1.15
40 to 45	1.40

58 to 63	2.15
64 to 69	2.40
70 to 75	2.65
76 or more	2.90

(3) Example: A prospective contract has a performance period of 40 months with end items being delivered in the 34th, 36th, 38th, and 40th months of the contract. The average period is 37 months and the contract length factor is 1.15.

#### **215.404-71-4 Facilities capital employed.**

(a) *Description.* This factor focuses on encouraging and rewarding capital investment in facilities that benefit DoD. It recognizes both the facilities capital that the contractor will employ in contract performance and the contractor's commitment to improving productivity.

(b) *Contract facilities capital estimates.* The contracting officer shall estimate the facilities capital cost of money and capital employed using—

(1) An analysis of the appropriate Forms CASB-CMF and cost of money factors (48 CFR 9904.414 and FAR 31.205-10); and

(2) DD Form 1861, Contract Facilities Capital Cost of Money.

(c) *Use of DD Form 1861.* See PGI 215.404-71-4(c) for obtaining field pricing support for preparing DD Form 1861.

(1) *Purpose.* The DD Form 1861 provides a means of linking the Form CASB-CMF and DD Form 1547, Record of Weighted Guidelines Application. It—

(i) Enables the contracting officer to differentiate profit objectives for various types of assets (land, buildings, equipment). The procedure is similar to applying overhead rates to appropriate overhead allocation bases to determine contract overhead costs.

(ii) Is designed to record and compute the contract facilities capital cost of money and capital employed which is carried forward to DD Form 1547.

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(2) *Completion instructions.* Complete a DD Form 1861 only after evaluating the contractor's cost proposal, establishing cost of money factors, and establishing a prenegotiation objective on cost. Complete the form as follows:

(i) List overhead pools and direct-charging service centers (if used) in the same structure as they appear on the contractor's cost proposal and Form CASB-CMF. The structure and allocation base units-of-measure must be compatible on all three displays.

(ii) Extract appropriate contract overhead allocation base data, by year, from the evaluated cost breakdown or prenegotiation cost objective and list against each overhead pool and direct-charging service center.

(iii) Multiply each allocation base by its corresponding cost of money factor to get the facilities capital cost of money estimated to be incurred each year. The sum of these products represents the estimated contract facilities capital cost of money for the year's effort.

(iv) Total contract facilities cost of money is the sum of the yearly amounts.

(v) Since the facilities capital cost of money factors reflect the applicable cost of money rate in Column 1 of Form CASB-CMF, divide the contract cost of money by that same rate to determine the contract facilities capital employed.

(d) *Preaward facilities capital applications.* To establish cost and price objectives, apply the facilities capital cost of money and capital employed as follows:

(1) *Cost of Money.*

(i) *Cost Objective.* Use the imputed facilities capital cost of money, with normal, booked costs, to establish a cost objective or the target cost when structuring an incentive type contract. Do not adjust target costs established at the outset even though actual cost of money rates become available during the period of contract performance.

(ii) *Profit Objective.* When measuring the contractor's effort for the purpose of establishing a prenegotiation profit objective, restrict the cost base to normal, booked costs. Do not include cost of money as part of the cost base.

(2) *Facilities Capital Employed.* Assess and weight the profit objective for risk associated with facilities capital employed in accordance with the profit guidelines at 215.404-71-4.

(e) *Determination.* The following extract from the DD Form 1547 has been annotated to explain the process.

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

Item	Contractor Facilities Capital Employed	Assigned Value	Amount Employed	Profit Objective
26.	Land	N/A	(2)	N/A
27.	Buildings	N/A	(2)	N/A
28.	Equipment	(1)	(2)	(3)

(1) Select a value from the list in paragraph (f) of this subsection using the evaluation criteria in paragraph (g) of this subsection.

(2) Use the allocated facilities capital attributable to land, buildings, and equipment, as derived in DD Form 1861, Contract Facilities Capital Cost of Money.

(i) In addition to the net book value of facilities capital employed, consider facilities capital that is part of a formal investment plan if the contractor submits reasonable evidence that—

(A) Achievable benefits to DoD will result from the investment; and

(B) The benefits of the investment are included in the forward pricing structure.

(ii) If the value of intracompany transfers has been included in Block 20 at cost (i.e., excluding general and administrative (G&A) expenses and profit), add to the contractor's allocated facilities capital, the allocated facilities capital attributable to the buildings and equipment of those corporate divisions supplying the intracompany transfers. Do not make this addition if the value of intracompany transfers has been included in Block 20 at price (i.e., including G&A expenses and profit).

(3) Multiply (1) by (2).

(f) *Values: Normal and designated ranges.*

Asset Type	Normal Value	Designated Range
Land	0%	N/A
Buildings	0%	N/A
Equipment	17.5%	10% to 25%

(g) *Evaluation criteria.*

(1) In evaluating facilities capital employed, the contracting officer—

(i) Should relate the usefulness of the facilities capital to the goods or services being acquired under the prospective contract;

(ii) Should analyze the productivity improvements and other anticipated industrial base enhancing benefits resulting from the facilities capital investment, including—

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(A) The economic value of the facilities capital, such as physical age, undepreciated value, idleness, and expected contribution to future defense needs; and

(B) The contractor's level of investment in defense related facilities as compared with the portion of the contractor's total business that is derived from DoD; and

(iii) Should consider any contractual provisions that reduce the contractor's risk of investment recovery, such as termination protection clauses and capital investment indemnification.

#### (2) *Above normal conditions.*

(i) The contracting officer may assign a higher than normal value if the facilities capital investment has direct, identifiable, and exceptional benefits. Indicators are—

(A) New investments in state-of-the-art technology that reduce acquisition cost or yield other tangible benefits such as improved product quality or accelerated deliveries; or

(B) Investments in new equipment for research and development applications.

(ii) The contracting officer may assign a value significantly above normal when there are direct and measurable benefits in efficiency and significantly reduced acquisition costs on the effort being priced. Maximum values apply only to those cases where the benefits of the facilities capital investment are substantially above normal.

#### (3) *Below normal conditions.*

(i) The contracting officer may assign a lower than normal value if the facilities capital investment has little benefit to DoD. Indicators are—

(A) Allocations of capital apply predominantly to commercial item lines;

(B) Investments are for such things as furniture and fixtures, home or group level administrative offices, corporate aircraft and hangars, gymnasiums; or

(C) Facilities are old or extensively idle.

(ii) The contracting officer may assign a value significantly below normal when a significant portion of defense manufacturing is done in an environment characterized by outdated, inefficient, and labor-intensive capital equipment.

#### **215.404-71-5 Cost efficiency factor.**

(a) This special factor provides an incentive for contractors to reduce costs. To the extent that the contractor can demonstrate cost reduction efforts that benefit the pending contract, the contracting officer may increase the prenegotiation profit objective by an amount not to exceed 4 percent of total objective cost (Block 20 of the DD Form 1547) to recognize these efforts (Block 29).

## Defense Federal Acquisition Regulation Supplement

### Part 215—Contracting By Negotiation

---

(b) To determine if using this factor is appropriate, the contracting officer shall consider criteria, such as the following, to evaluate the benefit the contractor's cost reduction efforts will have on the pending contract:

- (1) The contractor's participation in Single Process Initiative improvements;
- (2) Actual cost reductions achieved on prior contracts;
- (3) Reduction or elimination of excess or idle facilities;

(4) The contractor's cost reduction initiatives (e.g., competition advocacy programs, technical insertion programs, obsolete parts control programs, spare parts pricing reform, value engineering, outsourcing of functions such as information technology). Metrics developed by the contractor such as fully loaded labor hours (i.e., cost per labor hour, including all direct and indirect costs) or other productivity measures may provide the basis for assessing the effectiveness of the contractor's cost reduction initiatives over time;

- (5) The contractor's adoption of process improvements to reduce costs;
- (6) Subcontractor cost reduction efforts;
- (7) The contractor's effective incorporation of commercial items and processes;

or

(8) The contractor's investment in new facilities when such investments contribute to better asset utilization or improved productivity.

(c) When selecting the percentage to use for this special factor, the contracting officer has maximum flexibility in determining the best way to evaluate the benefit the contractor's cost reduction efforts will have on the pending contract. However, the contracting officer shall consider the impact that quantity differences, learning, changes in scope, and economic factors such as inflation and deflation will have on cost reduction.

#### **215.404-72 Modified weighted guidelines method for nonprofit organizations other than FFRDCs.**

(a) *Definition.* As used in this subpart, a nonprofit organization is a business entity—

- (1) That operates exclusively for charitable, scientific, or educational purposes;
- (2) Whose earnings do not benefit any private shareholder or individual;
- (3) Whose activities do not involve influencing legislation or political campaigning for any candidate for public office; and
- (4) That is exempted from Federal income taxation under section 501 of the Internal Revenue Code.

### Part 215—Contracting By Negotiation

---

(b) For nonprofit organizations that are entities that have been identified by the Secretary of Defense or a Secretary of a Department as receiving sustaining support on a cost-plus-fixed-fee basis from a particular DoD department or agency, compute a fee objective for covered actions using the weighted guidelines method in 215.404-71, with the following modifications:

(1) *Modifications to performance risk (Blocks 21-23 of the DD Form 1547).*

(i) If the contracting officer assigns a value from the standard designated range (see 215.404-71-2(c)), reduce the fee objective by an amount equal to 1 percent of the costs in Block 20 of the DD Form 1547. Show the net (reduced) amount on the DD Form 1547.

(ii) Do not assign a value from the technology incentive designated range.

(2) *Modifications to contract type risk (Block 24 of the DD Form 1547).* Use a designated range of -1 percent to 0 percent instead of the values in 215.404-71-3. There is no normal value.

(c) For all other nonprofit organizations except FFRDCs, compute a fee objective for covered actions using the weighted guidelines method in 215.404-71, modified as described in paragraph (b)(1) of this subsection.

#### **215.404-73 Alternate structured approaches.**

(a) The contracting officer may use an alternate structured approach under 215.404-4(c).

(b) The contracting officer may design the structure of the alternate, but it shall include—

(1) Consideration of the three basic components of profit--performance risk, contract type risk (including working capital), and facilities capital employed. However, the contracting officer is not required to complete Blocks 21 through 30 of the DD Form 1547.

(2) Offset for facilities capital cost of money.

(i) The contracting officer shall reduce the overall prenegotiation profit objective by the amount of facilities capital cost of money under Cost Accounting Standard (CAS) 414, Cost of Money as an Element of the Cost of Facilities Capital (48 CFR 9904.414). Cost of money under CAS 417, Cost of Money as an Element of the Cost of Capital Assets Under Construction (48 CFR 9904.417), should not be used to reduce the overall prenegotiation profit objective. The profit amount in the negotiation summary of the DD Form 1547 must be net of the offset.

(ii) This adjustment is needed for the following reason: The values of the profit factors used in the weighted guidelines method were adjusted to recognize the shift in facilities capital cost of money from an element of profit to an element of contract cost (see FAR 31.205-10) and reductions were made directly to the profit factors for performance risk. In order to ensure that this policy is applied to all DoD

---

contracts that allow facilities capital cost of money, similar adjustments shall be made to contracts that use alternate structured approaches.

#### **215.404-74 Fee requirements for cost-plus-award-fee contracts.**

In developing a fee objective for cost-plus-award-fee contracts, the contracting officer shall—

- (a) Follow the guidance in FAR 16.405-2 and 216.405-2;
- (b) Not use the weighted guidelines method or alternate structured approach;
- (c) Apply the offset policy in 215.404-73(b)(2) for facilities capital cost of money, i.e., reduce the base fee by the amount of facilities capital cost of money; and
- (d) Not complete a DD Form 1547.

#### **215.404-75 Fee requirements for FFRDCs.**

For nonprofit organizations that are FFRDCs, the contracting officer—

(a) Should consider whether any fee is appropriate. Considerations shall include the FFRDC's—

- (1) Proportion of retained earnings (as established under generally accepted accounting methods) that relates to DoD contracted effort;
- (2) Facilities capital acquisition plans;
- (3) Working capital funding as assessed on operating cycle cash needs; and
- (4) Provision for funding unreimbursed costs deemed ordinary and necessary to the FFRDC.

(b) Shall, when a fee is considered appropriate, establish the fee objective in accordance with FFRDC fee policies in the DoD FFRDC Management Plan.

(c) Shall not use the weighted guidelines method or an alternate structured approach.

#### **215.404-76 Reporting profit and fee statistics.**

Follow the procedures at PGI 215.404-76 for reporting profit and fee statistics.

#### **215.406-1 Prenegotiation objectives.**

Follow the procedures at PGI 215.406-1 for establishing prenegotiation objectives.

#### **215.406-3 Documenting the negotiation.**

Follow the procedures at PGI 215.406-3 for documenting the negotiation.

#### **215.407-2 Make-or-buy programs.**

(a) *General.* See PGI for guidance on factors to consider when deciding whether to request a make-or-buy plan and for factors to consider when evaluating make-or-buy plan submissions.

(e) *Program requirements.*

(1) *Items and work included.* The minimum dollar amount is \$1.5 million.

**215.407-3 Forward pricing rate agreements.**

(b)(i) Use forward pricing rate agreement (FPRA) rates when such rates are available, unless waived on a case-by-case basis by the head of the contracting activity.

(ii) Advise the ACO of each case waived.

(iii) Contact the ACO for questions on FPRAs or recommended rates.

**215.407-4 Should-cost review.**

See PGI 215.407-4 for guidance on determining whether to perform a program or overhead should-cost review.

**215.407-5 Estimating systems.**

**215.407-5-70 Disclosure, maintenance, and review requirements.**

(a) *Definitions.*

(1) “Acceptable estimating system” is defined in the clause at 252.215-7002, Cost Estimating System Requirements.

(2) “Contractor” means a business unit as defined in FAR 2.101.

(3) “Estimating system” is as defined in the clause at 252.215-7002, Cost Estimating System Requirements.

(4) “Significant deficiency” is defined in the clause at 252.215-7002, Cost Estimating System Requirements.

(b) *Applicability.*

(1) DoD policy is that all contractors have acceptable estimating systems that consistently produce well-supported proposals that are acceptable as a basis for negotiation of fair and reasonable prices.

(2) A large business contractor is subject to estimating system disclosure, maintenance, and review requirements if—

(i) In its preceding fiscal year, the contractor received DoD prime contracts or subcontracts totaling \$50 million or more for which certified cost or pricing were required; or

(ii) In its preceding fiscal year, the contractor received DoD prime contracts or subcontracts totaling \$10 million or more (but less than \$50 million) for which certified cost or pricing data were required and the contracting officer, with

concurrence or at the request of the ACO, determines it to be in the best interest of the Government (e.g., significant estimating problems are believed to exist or the contractor's sales are predominantly Government).

(c) *Policy.*

(1) The contracting officer shall—

(i) Through use of the clause at 252.215-7002, Cost Estimating System Requirements, apply the disclosure, maintenance, and review requirements to large business contractors meeting the criteria in paragraph (b)(2)(i) of this section;

(ii) Consider whether to apply the disclosure, maintenance, and review requirements to large business contractors under paragraph (b)(2)(ii) of this section; and

(iii) Not apply the disclosure, maintenance, and review requirements to other than large business contractors.

(2) The cognizant contracting officer, in consultation with the auditor, for contractors subject to paragraph (b)(2) of this section, shall—

(i) Determine the acceptability of the disclosure and approve or disapprove the system; and

(ii) Pursue correction of any deficiencies.

(3) The auditor conducts estimating system reviews.

(4) An acceptable system shall provide for the use of appropriate source data, utilize sound estimating techniques and good judgment, maintain a consistent approach, and adhere to established policies and procedures.

(5) In evaluating the acceptability of a contractor's estimating system, the contracting officer, in consultation with the auditor, shall determine whether the contractor's estimating system complies with the system criteria for an acceptable estimating system as prescribed in the clause at 252.215-7002, Cost Estimating System Requirements.

(d) *Disposition of findings—*

(1) *Reporting of findings.* The auditor shall document findings and recommendations in a report to the contracting officer. If the auditor identifies any significant estimating system deficiencies, the report shall describe the deficiencies in sufficient detail to allow the contracting officer to understand the deficiencies.

(2) *Initial determination.* (i) The contracting officer shall review all findings and recommendations and, if there are no significant deficiencies, shall promptly notify the contractor, in writing, that the contractor's estimating system is acceptable and approved; or

### Part 215—Contracting By Negotiation

---

(ii) If the contracting officer finds that there are one or more significant deficiencies (as defined in the clause at 252.215-7002, Cost Estimating System Requirements) due to the contractor's failure to meet one or more of the estimating system criteria in the clause at 252.215-7002, the contracting officer shall—

(A) Promptly make an initial written determination on any significant deficiencies and notify the contractor, in writing, providing a description of each significant deficiency in sufficient detail to allow the contractor to understand the deficiency;

(B) Request the contractor to respond, in writing, to the initial determination within 30 days; and

(C) Promptly evaluate the contractor's responses to the initial determination, in consultation with the auditor or functional specialist, and make a final determination.

(3) *Final determination.* (i) The contracting officer shall make a final determination and notify the contractor, in writing, that—

(A) The contractor's estimating system is acceptable and approved, and no significant deficiencies remain, or

(B) Significant deficiencies remain. The notice shall identify any remaining significant deficiencies, and indicate the adequacy of any proposed or completed corrective action. The contracting officer shall—

(1) Request that the contractor, within 45 days of receipt of the final determination, either correct the deficiencies or submit an acceptable corrective action plan showing milestones and actions to eliminate the deficiencies;

(2) Disapprove the system in accordance with the clause at 252.215-7002, Cost Estimating System Requirements; and

(3) Withhold payments in accordance with the clause at 252.242-7005, Contractor Business Systems, if the clause is included in the contract.

(ii) Follow the procedures relating to monitoring a contractor's corrective action and the correction of significant deficiencies in PGI 215.407-5-70(e).

(e) *System approval.* The contracting officer shall promptly approve a previously disapproved estimating system and notify the contractor when the contracting officer determines that there are no remaining significant deficiencies.

(f) *Contracting officer notifications.* The cognizant contracting officer shall promptly distribute copies of a determination to approve a system, disapprove a system and withhold payments, or approve a previously disapproved system and release withheld payments, to the auditor; payment office; affected contracting officers at the buying activities; and cognizant contracting officers in contract administration activities.

#### 215.408 Solicitation provisions and contract clauses.

(1) Use the clause at 252.215-7000, Pricing Adjustments, in solicitations and contracts that contain the clause at—

(i) FAR 52.215-11, Price Reduction for Defective Certified Cost or Pricing Data--Modifications;

(ii) FAR 52.215-12, Subcontractor Certified Cost or Pricing Data; or

(iii) FAR 52.215-13, Subcontractor Certified Cost or Pricing Data--Modifications.

(2) Use the clause at 252.215-7002, Cost Estimating System Requirements, in all solicitations and contracts to be awarded on the basis of certified cost or pricing data.

(3) Use the provision at 252.215-7007, Notice of Intent to Resolicit, in competitive solicitations that will be solicited for fewer than 30 days, unless an exception at 215.371-4 applies or the requirement is waived in accordance with 215.371-5.

(4)(i) Use the provision at 252.215-7008, Only One Offer, in competitive solicitations, unless an exception at 215.371-4(a)(1) applies.

(ii) In solicitations that include 252.215-7008, Only One Offer, also include the provision at FAR 52.215-20, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, with any appropriate alternate as prescribed at FAR 15.408-1, but that provision will only take effect as specified in 252.215-7008.

(5) When contracting with the Canadian Commercial Corporation—

(i) Use the provision at 252.215-7003, Requirement for Data Other Than Certified Cost or Pricing Data—

(A) In solicitations for sole source acquisitions that are—

(1) Cost-reimbursement, if the contract value is expected to exceed \$700,000; or

(2) Fixed-price, if the contract value is expected to exceed \$500 million;  
or

(B) In other solicitations, if the head of the contracting activity, or designee no lower than two levels above the contracting officer, determines that data other than certified cost or pricing data are needed in order to determine that the price is fair and reasonable (see FAR 15.403-3(a)); and

(ii)(A) Use the clause at 252.215-7004, Requirement for Data Other Than Certified Cost or Pricing Data—Modifications—Canadian Commercial Corporation—

(1) In solicitations and contracts for sole source acquisitions that are—

(i) Cost-reimbursement, if the contract value is expected to exceed \$700,000; or

(ii) Fixed-price, if the contract value is expected to exceed \$500 million; or

(2) In other solicitations and contracts, if the head of the contracting activity, or designee no lower than two levels above the contracting officer, determines that it is reasonably certain that data other than certified cost or pricing data will be needed in order to determine that the price of modifications is fair and reasonable (see FAR 15.403-3(a)).

(B) The contracting officer may specify a higher threshold in paragraph (b) of the clause.

#### **215.470 Estimated data prices.**

(a) DoD requires estimates of the prices of data in order to evaluate the cost to the Government of data items in terms of their management, product, or engineering value.

(b) When data are required to be delivered under a contract, include DD Form 1423, Contract Data Requirements List, in the solicitation. See PGI 215.470(b) for guidance on the use of DD Form 1423.

(c) The contracting officer shall ensure that the contract does not include a requirement for data that the contractor has delivered or is obligated to deliver to the Government under another contract or subcontract, and that the successful offeror identifies any such data required by the solicitation. However, where duplicate data are desired, the contract price shall include the costs of duplication, but not of preparation, of such data.

**SUBPART 219.7—THE SMALL BUSINESS SUBCONTRACTING PROGRAM**  
(Revised February 28, 2013)

**219.702 Statutory requirements.**

(1) Section 834 of Pub. L. 101-189, as amended (15 U.S.C. 637 note), requires DoD to establish a test program to determine whether comprehensive subcontracting plans on a corporate, division, or plant-wide basis will reduce administrative burdens while enhancing subcontracting opportunities for small and small disadvantaged business concerns. See [PGI 219.702](#) for the requirements of the test program.

(2) Comprehensive subcontracting plans shall not be subject to application of liquidated damages during the period of the test program (Section 402, Pub. L. 101-574).

(3) The test program for negotiation of comprehensive small business subcontracting plans expires on December 31, 2014.

**219.703 Eligibility requirements for participating in the program.**

(a) Qualified nonprofit agencies for the blind and other severely disabled, that have been approved by the Committee for Purchase from People Who Are Blind or Severely Disabled under 41 U.S.C. chapter 85, are eligible to participate in the program as a result of 10 U.S.C. 2410d and section 9077 of Pub. L. 102-396 and similar sections in subsequent Defense appropriations acts. Under this authority, subcontracts awarded to such entities may be counted toward the prime contractor's small business subcontracting goal.

(2)(A) To be eligible as an SDB subcontractor, a concern must meet the definition in [219.001](#).

(B) To be eligible as a historically black college or university or minority institution subcontractor, such entity must meet the definition in the clause at [252.219-7003](#), Small Business Subcontracting Plan (DoD Contracts).

(b) A contractor may also rely on the written representation as to status of—

(i) A historically black college or university or minority institution; or

(ii) A qualified nonprofit agency for the blind or other severely disabled approved by the Committee for Purchase from People Who Are Blind or Severely Disabled.

**219.704 Subcontracting plan requirements.**

(1) The goal for use of small disadvantaged business concerns shall include subcontracts with historically black colleges and universities and minority institutions (see Subpart [226.70](#)), in addition to subcontracts with small disadvantaged business concerns. Subcontracts with historically black colleges and universities and minority institutions do not have to be included in the small disadvantaged business goal in commercial items subcontracting plans.

(2) In those subcontracting plans which specifically identify small businesses, prime contractors shall notify the administrative contracting officer of any substitutions of firms that are not small business firms, for the small business firms specifically identified in the subcontracting plan. Notifications shall be in writing and shall occur within a reasonable period of time after award of the subcontract. Contractor-specified formats shall be acceptable.

(3) See [215.304](#) for evaluation of offers in acquisitions that require a subcontracting plan.

**219.705 Responsibilities of the contracting officer under the subcontracting assistance program.**

**219.705-4 Reviewing the subcontracting plan.**

(d) Challenge any subcontracting plan that does not contain positive goals and consider the extent to which an offeror plans to use competition restricted to historically black colleges and universities or minority institutions. A small disadvantaged business goal of less than five percent must be approved one level above the contracting officer.

**219.706 Responsibilities of the cognizant administrative contracting officer.**

(a)(i) The contract administration office also is responsible for reviewing, evaluating, and approving master subcontracting plans.

(ii) The small business specialist supports the administrative contracting officer in evaluating a contractor's performance and compliance with its subcontracting plan.

(1) In solicitations and contracts that contain the clause at FAR 52.219-9, Small Business Subcontracting Plan.

(2) With its Alternate I in contracts that use Alternate III of 52.219-9, Small Business Subcontracting Plan.

(B) (1) In prime contracts with contractors that have comprehensive subcontracting plans approved under the test program described in [219.702](#), use the clause at [252.219-7004](#), Small Business Subcontracting Plan (Test Program), instead of the clauses at [252.219-7003](#), Small Business Subcontracting Plan (DoD Contracts), and FAR 52.219-9, Small Business Subcontracting Plan.

(2) However, also include in the prime contract, solely for the purpose of flowing the clauses down to subcontractors --

#### **225.7003-2 Restrictions.**

The following restrictions implement 10 U.S.C. 2533b. Except as provided in [225.7003-3](#)—

(a) Do not acquire the following items, or any components of the following items, unless any specialty metals contained in the items or components are melted or produced in the United States (also see guidance at [PGI 225.7003-2\(a\)](#)):

- (6) Ammunition.

(b) Do not acquire a specialty metal (e.g., raw stock, including bar, billet, slab, wire, plate, and sheet; castings; and forgings) as an end item, unless the specialty metal is melted or produced in the United States. This restriction applies to specialty metal acquired by a contractor for delivery to DoD as an end item, in addition to specialty metal acquired by DoD directly from the entity that melted or produced the specialty metal.

#### **225.7003-3 Exceptions.**

Procedures for submitting requests to the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) for a determination or approval as required in paragraph (b)(5), (c), or (d) of this subsection are at [PGI 225.7003-3](#).

## Defense Federal Acquisition Regulation Supplement

### Part 225—Foreign Acquisition

---

(a) Acquisitions in the following categories are not subject to the restrictions in [225.7003-2](#):

- (1) Acquisitions at or below the simplified acquisition threshold.
- (2) Acquisitions outside the United States in support of combat operations.
- (3) Acquisitions in support of contingency operations.
- (4) Acquisitions for which the use of other than competitive procedures has been approved on the basis of unusual and compelling urgency in accordance with FAR 6.302-2.
- (5) Acquisitions of items specifically for commissary resale.
- (6) Acquisitions of items for test and evaluation under the foreign comparative testing program (10 U.S.C. 2350a(g)). However, this exception does not apply to any acquisitions under follow-on production contracts.

(b) One or more of the following exceptions may apply to an end item or component that includes any of the following, under a prime contract or subcontract at any tier. The restrictions in [225.7003-2](#) do not apply to the following:

(1) Electronic components, unless the Secretary of Defense, upon the recommendation of the Strategic Materials Protection Board pursuant to 10 U.S.C. 187, determines that the domestic availability of a particular electronic component is critical to national security.

(2)(i) Commercially available off-the-shelf (COTS) items containing specialty metals, except the restrictions do apply to contracts or subcontracts for the acquisition of—

(A) Specialty metal mill products, such as bar, billet, slab, wire, plate, and sheet, that have not been incorporated into end items, subsystems, assemblies, or components. Specialty metal supply contracts issued by COTS producers are not subcontracts for the purposes of this exception;

(B) Forgings or castings of specialty metals, unless the forgings or castings are incorporated into COTS end items, subsystems, or assemblies;

(C) Commercially available high performance magnets that contain specialty metal, unless such high performance magnets are incorporated into COTS end items or subsystems (see [PGI 225.7003-3\(b\)\(6\)](#) for a table of applicability of specialty metals restrictions to magnets); and

(D) COTS fasteners, unless—

(1) The fasteners are incorporated into COTS end items, subsystems, or assemblies; or

## Defense Federal Acquisition Regulation Supplement

### Part 225—Foreign Acquisition

---

(2) The fasteners qualify for the commercial item exception in paragraph (b)(3) of this subsection.

(ii) If this exception is used for an acquisition of COTS end items valued at \$5 million or more per item, the acquiring department or agency shall submit an annual report to the Director, Defense Procurement and Acquisition Policy, in accordance with the procedures at [PGI 225.7003-3\(b\)\(2\)](#).

(3) Fasteners that are commercial items and are acquired under a contract or subcontract with a manufacturer of such fasteners, if the manufacturer has certified that it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to DoD and other customers, that is not less than 50 percent of the total amount of the specialty metal that the manufacturer will purchase to carry out the production of such fasteners for all customers.

(4) Items listed in [225.7003-2\(a\)](#), manufactured in a qualifying country or containing specialty metals melted or produced in a qualifying country.

(5) Specialty metal in any of the items listed in [225.7003-2](#) if the USD(AT&L), or an official authorized in accordance with paragraph (b)(5)(i) of this subsection, determines that specialty metal melted or produced in the United States cannot be acquired as and when needed at a fair and reasonable price in a satisfactory quality, a sufficient quantity, and the required form (i.e., a domestic nonavailability determination). See guidance in [PGI 225.7003-3\(b\)\(5\)](#).

(i) The Secretary of the military department concerned is authorized, without power of redelegation, to make a domestic nonavailability determination that applies to only one contract.  
The supporting documentation for the determination shall include—

(A) An analysis of alternatives that would not require a domestic nonavailability determination; and

(B) Written documentation by the requiring activity, with specificity, why such alternatives are unacceptable.

(ii) A domestic nonavailability determination that applies to more than one contract (i.e., a class domestic nonavailability determination), requires the approval of the USD(AT&L).

(A) At least 30 days before making a domestic nonavailability determination that would apply to more than one contract, the USD(AT&L) will, to the maximum extent practicable, and in a manner consistent with the protection of national security and confidential business information—

(1) Publish a notice on the Federal Business Opportunities website ([www.FedBizOpps.gov](http://www.FedBizOpps.gov) or any successor site) of the intent to make the domestic nonavailability determination; and

(2) Solicit information relevant to such notice from interested parties, including producers of specialty metal mill products.

## Defense Federal Acquisition Regulation Supplement

### Part 225—Foreign Acquisition

---

(B) The USD(AT&L)—

(1) Will take into consideration all information submitted in response to the notice in making a class domestic nonavailability determination;

(2) May consider other relevant information that cannot be made part of the public record consistent with the protection of national security information and confidential business information; and

(3) Will ensure that any such domestic nonavailability determination and the rationale for the determination are made publicly available to the maximum extent consistent with the protection of national security and confidential business information.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States that are not covered by another exception listed in this paragraph (b)), if the total weight of noncompliant specialty metal does not exceed 2 percent of the total weight of all specialty metal in the end item. This exception does not apply to high performance magnets containing specialty metals. See [PGI 225.7003-3\(b\)\(6\)](#) for a table of applicability of specialty metals restrictions to magnets.

(c) *Compliance for commercial derivative military articles.* The restrictions at 225.7003-2(a) do not apply to an item acquired under a prime contract if—

(1) The offeror has certified, and subsequently demonstrates, that the offeror and its subcontractor(s) will individually or collectively enter into a contractual agreement or agreements to purchase a sufficient quantity of domestically melted or produced specialty metal in accordance with the provision at [252.225-7010](#); and

(2) The USD(AT&L), or the Secretary of the military department concerned, determines that the item is a commercial derivative military article (defense agencies see procedures at [PGI 225.7003-3](#)). The contracting officer shall submit the offeror's certification and a request for a determination to the appropriate official, through agency channels, and shall notify the offeror when a decision has been made.

(d) *National security waiver.* The USD(AT&L) may waive the restrictions at [225.7003-2](#) if the USD(AT&L) determines in writing that acceptance of the item is necessary to the national security interests of the United States (see procedures at [PGI 225.7003-3](#)). This authority may not be delegated.

(1) The written determination of the USD(AT&L)—

(i) Shall specify the quantity of end items to which the national security waiver applies;

(ii) Shall specify the time period over which the national security waiver applies; and

(iii) Shall be provided to the congressional defense committees before the determination is executed, except that in the case of an urgent national security

requirement, the determination may be provided to the congressional defense committees up to 7 days after it is executed.

(2) After making such a determination, the USD(AT&L) will—

(i) Ensure that the contractor or subcontractor responsible for the noncompliant specialty metal develops and implements an effective plan to ensure future compliance; and

(ii) Determine whether or not the noncompliance was knowing and willful. If the USD(AT&L) determines that the noncompliance was knowing and willful, the appropriate debarring and suspending official shall consider suspending or debarring the contractor or subcontractor until such time as the contractor or subcontractor has effectively addressed the issues that led to the noncompliance.

(3) Because national security waivers will only be granted when the acquisition in question is necessary to the national security interests of the United States, the requirement for a plan will be applied as a condition subsequent, and not a condition precedent, to the granting of a waiver.

#### **225.7003-4 One-time waiver.**

DoD may accept articles containing specialty metals that are not in compliance with the specialty metals clause of the contract if—

(a) Final acceptance takes place before September 30, 2010;

(b) The specialty metals were incorporated into items (whether end items or components) produced, manufactured, or assembled in the United States before October 17, 2006;

(c) The contracting officer determines in writing that—

(1) It would not be practical or economical to remove or replace the specialty metals incorporated in such items or to substitute items containing compliant materials;

(2) The contractor and any subcontractor responsible for providing items containing non-compliant specialty metals have in place an effective plan to ensure compliance with the specialty metals clause of the contract for future items produced, manufactured, or assembled in the United States; and

(3) The non-compliance was not knowing or willful;

(d) The determination is approved by—

(1) The USD(AT&L); or

(2) The service acquisition executive of the military department concerned; and

(e) Not later than 15 days after approval of the determination, the contracting officer posts a notice on the Federal Business Opportunities website at [www.FedBizOpps.gov](http://www.FedBizOpps.gov), stating that a waiver for the contract has been granted under

Section 842(b) of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364).

#### **225.7003-5 Solicitation provision and contract clauses.**

(a) Unless the acquisition is wholly exempt from the specialty metals restrictions at [225.7003-2](#) because the acquisition is covered by an exception in [225.7003-3\(a\)](#) or (d) (but see paragraph (d) of this subsection)—

(1) Use the clause at [252.225-7008](#), Restriction on Acquisition of Specialty Metals, in solicitations and contracts that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require the delivery of specialty metals as end items.

(2) Use the clause at [252.225-7009](#), Restriction on Acquisition of Certain Articles Containing Specialty Metals, in solicitations and contracts that—

- (i) Exceed the simplified acquisition threshold; and
- (ii) Require delivery of any of the following items, or components of the following items, if such items or components contain specialty metal:
  - (A) Aircraft.
  - (B) Missile or space systems.
  - (C) Ships.
  - (D) Tank or automotive items.
  - (E) Weapon systems.
  - (F) Ammunition.

(b) Use the provision at [252.225-7010](#), Commercial Derivative Military Article—Specialty Metals Compliance Certificate, in solicitations—

- (1) That contain the clause at [252.225-7009](#); and
- (2) For which the contracting officer anticipates that one or more offers of commercial derivative military articles may be received.

(c) If an agency cannot reasonably determine at time of acquisition whether some or all of the items will be used in support of combat operations or in support of contingency operations, the contracting officer should not rely on the exception at [225.7003-3\(a\)\(2\)](#) or (3), but should include the appropriate specialty metals clause or provision in the solicitation and contract.

(d) If the solicitation and contract require delivery of a variety of contract line items

containing specialty metals, but only some of the items are subject to domestic specialty metals restrictions, identify in the Schedule those items that are subject to the restrictions.

**225.7004 Restriction on acquisition of foreign buses.**

**225.7004-1 Restriction.**

In accordance with 10 U.S.C. 2534, do not acquire a multipassenger motor vehicle (bus) unless it is manufactured in the United States or Canada.

**225.7004-2 Applicability.**

Apply this restriction if the buses are purchased, leased, rented, or made available under contracts for transportation services.

**225.7004-3 Exceptions.**

This restriction does not apply in any of the following circumstances:

(a) Buses manufactured outside the United States and Canada are needed for temporary use because buses manufactured in the United States or Canada are not available to satisfy requirements that cannot be postponed. Such use may not, however, exceed the lead time required for acquisition and delivery of buses manufactured in the United States or Canada.

(b) The requirement for buses is temporary in nature. For example, to meet a special, nonrecurring requirement or a sporadic and infrequent recurring requirement, buses manufactured outside the United States and Canada may be used for temporary periods of time. Such use may not, however, exceed the period of time needed to meet the special requirement.

(c) Buses manufactured outside the United States and Canada are available at no cost to the U.S. Government.

(d) The acquisition is for an amount at or below the simplified acquisition threshold.

**225.7004-4 Waiver.**

The waiver criteria at [225.7008\(a\)](#) apply to this restriction.

**225.7005 Restriction on certain chemical weapons antidote.**

**225.7005-1 Restriction.**

In accordance with 10 U.S.C. 2534, do not acquire chemical weapons antidote contained in automatic injectors, or the components for such injectors, unless the chemical weapons antidote or component is manufactured in the United States or Canada by a company that—

(a) Has received all required regulatory approvals; and

(b) Has the plant, equipment, and personnel to perform the contract in the United States or Canada at the time of contract award.

### Part 225—Foreign Acquisition

---

(a) In accordance with Section 8041 of the Fiscal Year 1991 DoD Appropriations Act (Pub. L. 101-511) and similar sections in subsequent DoD appropriations acts, do not acquire welded shipboard anchor and mooring chain, four inches or less in diameter, unless--

(1) It is manufactured in the United States, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and

(2) The cost of the components manufactured in the United States exceeds 50 percent of the total cost of components.

(b) 10 U.S.C. 2534 also restricts acquisition of welded shipboard anchor and mooring chain, four inches or less in diameter, when used as a component of a naval vessel. However, the Appropriations Act restriction described in paragraph (a) of this subsection takes precedence over the restriction of 10 U.S.C. 2534.

#### **225.7007-2 Waiver.**

(a) The Secretary of the department responsible for acquisition may waive the restriction in [225.7007-1\(a\)](#), on a case-by-case basis, if--

(1) Sufficient domestic suppliers are not available to meet DoD requirements on a timely basis; and

(2) The acquisition is necessary to acquire capability for national security purposes.

(b) Document the waiver in a written determination and findings containing--

(1) The factors supporting the waiver; and

(2) A certification that the acquisition must be made in order to acquire capability for national security purposes.

(c) Provide a copy of the determination and findings to the House and Senate Committees on Appropriations.

#### **225.7007-3 Contract clause.**

Unless a waiver has been granted, use the clause at [252.225-7019](#), Restriction on Acquisition of Anchor and Mooring Chain, in solicitations and contracts requiring welded shipboard anchor or mooring chain four inches or less in diameter.

#### **225.7008 Waiver of restrictions of 10 U.S.C. 2534.**

(a) When specifically authorized by reference elsewhere in this subpart, the restrictions on certain foreign purchases under 10 U.S.C. 2534(a) may be waived as follows:

(1)(i) The Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)), without power of delegation, may waive a restriction for a particular item for a particular foreign country upon determination that—

---

(A) United States producers of the item would not be jeopardized by competition from a foreign country, and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country; or

(B) Application of the restriction would impede cooperative programs entered into between DoD and a foreign country, or would impede the reciprocal procurement of defense items under a memorandum of understanding providing for reciprocal procurement of defense items under [225.872](#), and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.

(ii) A notice of the determination to exercise the waiver authority shall be published in the Federal Register and submitted to the congressional defense committees at least 15 days before the effective date of the waiver.

(iii) The effective period of the waiver shall not exceed 1 year.

(iv) For contracts entered into prior to the effective date of a waiver, provided adequate consideration is received to modify the contract, the waiver shall be applied as directed or authorized in the waiver to—

(A) Subcontracts entered into on or after the effective date of the waiver; and

(B) Options for the procurement of items that are exercised after the effective date of the waiver, if the option prices are adjusted for any reason other than the application of the waiver.

(2) The head of the contracting activity may waive a restriction on a case-by-case basis upon execution of a determination and findings that any of the following applies:

(i) The restriction would cause unreasonable delays.

(ii) Satisfactory quality items manufactured in the United States or Canada are not available.

(iii) Application of the restriction would result in the existence of only one source for the item in the United States or Canada.

(iv) Application of the restriction is not in the national security interests of the United States.

(v) Application of the restriction would adversely affect a U.S. company.

(3) A restriction is waived when it would cause unreasonable costs. The cost of an item of U.S. or Canadian origin is unreasonable if it exceeds 150 percent of the offered price, inclusive of duty, of items that are not of U.S. or Canadian origin.

(b) In accordance with the provisions of paragraphs (a)(1)(i) through (iii) of this section, the USD(AT&L) has waived the restrictions of 10 U.S.C. 2534(a) for certain

items manufactured in the United Kingdom, including air circuit breakers for naval vessels (see [225.7006](#)).

**225.7009 Restriction on ball and roller bearings.**

**225.7009-1 Scope.**

This section implements Section 8065 of the Fiscal Year 2002 DoD Appropriations Act (Pub. L. 107-117) and the same restriction in subsequent DoD appropriations acts.

**225.7009-2 Restriction.**

(a) Do not acquire ball and roller bearings unless—

(1) The bearings are manufactured in the United States or Canada; and

(2) For each ball or roller bearing, the cost of the bearing components manufactured in the United States or Canada exceeds 50 percent of the total cost of the bearing components of that ball or roller bearing.

(b) The restriction at [225.7003-2](#) may also apply to bearings that are made from specialty metals, such as high carbon chrome steel (bearing steel).

**225.7009-3 Exception.**

The restriction in [225.7009-2](#) does not apply to contracts or subcontracts for the acquisition of commercial items, except for commercial ball and roller bearings acquired as end items.

**225.7009-4 Waiver.**

The Secretary of the department responsible for acquisition or, for the Defense Logistics Agency, the Component Acquisition Executive, may waive the restriction in [225.7009-2](#), on a case-by-case basis, by certifying to the House and Senate Committees on Appropriations that--

(a) Adequate domestic supplies are not available to meet DoD requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

**225.7009-5 Contract clause.**

Use the clause at [252.225-7016](#), Restriction on Acquisition of Ball and Roller Bearings, in solicitations and contracts, unless—

(a) The items being acquired are commercial items other than ball or roller bearings acquired as end items;

(b) The items being acquired do not contain ball and roller bearings; or

(c) A waiver has been granted in accordance with [225.7009-4](#).

**225.7010 Reserved.**

**225.7011 Restriction on carbon, alloy, and armor steel plate.**

**225.7011-1 Restriction.**

(a) In accordance with Section 8111 of the Fiscal Year 1992 DoD Appropriations Act (Pub. L. 102-172) and similar sections in subsequent DoD appropriations acts, do not acquire any of the following types of carbon, alloy, or armor steel plate for use in a Government-owned facility or a facility under the control of (e.g., leased by) DoD, unless it is melted and rolled in the United States or Canada:

(1) Carbon, alloy, or armor steel plate in Federal Supply Class 9515.

(2) Carbon, alloy, or armor steel plate described by specifications of the American Society for Testing Materials or the American Iron and Steel Institute.

(b) This restriction—

(1) Applies to the acquisition of carbon, alloy, or armor steel plate as a finished steel mill product that may be used “as is” or may be used as an intermediate material for the fabrication of an end product; and

(2) Does not apply to the acquisition of an end product (e.g., a machine tool), to be used in the facility, that contains carbon, alloy, or armor steel plate as a component.

**225.7011-2 Waiver.**

The Secretary of the department responsible for acquisition may waive this restriction, on a case-by-case basis, by certifying to the House and Senate Committees on Appropriations that—

(a) Adequate U.S. or Canadian supplies are not available to meet DoD requirements on a timely basis; and

(b) The acquisition must be made in order to acquire capability for national security purposes.

**225.7011-3 Contract clause.**

Unless a waiver has been granted, use the clause at [252.225-7030](#), Restriction on Acquisition of Carbon, Alloy, and Armor Steel Plate, in solicitations and contracts that—

(a) Require the delivery to the Government of carbon, alloy, or armor steel plate that will be used in a Government-owned facility or a facility under the control of DoD; or

(b) Require contractors operating in a Government-owned facility or a facility under the control of DoD to purchase carbon, alloy, or armor steel plate.

**225.7012 Restriction on supercomputers.**

**225.7012-1 Restriction.**

## Defense Federal Acquisition Regulation Supplement

### Part 225—Foreign Acquisition

---

In accordance with Section 8112 of Pub. L. 100-202, and similar sections in subsequent DoD appropriations acts, do not purchase a supercomputer unless it is manufactured in the United States.

#### **225.7012-2 Waiver.**

The Secretary of Defense may waive this restriction, on a case-by-case basis, after certifying to the Armed Services and Appropriations Committees of Congress that—

- (a) Adequate U.S. supplies are not available to meet requirements on a timely basis; and
- (b) The acquisition must be made in order to acquire capability for national security purposes.

#### **225.7012-3 Contract clause.**

Unless a waiver has been granted, use the clause at [252.225-7011](#), Restriction on Acquisition of Supercomputers, in solicitations and contracts for the acquisition of supercomputers.

#### **225.7013 Restrictions on construction or repair of vessels in foreign shipyards.**

In accordance with 10 U.S.C. 7309 and 7310—

- (a) Do not award a contract to construct in a foreign shipyard--
  - (1) A vessel for any of the armed forces; or
  - (2) A major component of the hull or superstructure of a vessel for any of the armed forces; and
- (b) Do not overhaul, repair, or maintain in a foreign shipyard, a naval vessel (or any other vessel under the jurisdiction of the Secretary of the Navy) homeported in the United States. This restriction does not apply to voyage repairs.

#### **225.7014 Restrictions on military construction.**

- (a) For restriction on award of military construction contracts to be performed in the United States outlying areas in the Pacific and on Kwajalein Atoll, or in countries bordering the Arabian Gulf, see [236.273](#)(a).
- (b) For restriction on acquisition of steel for use in military construction projects, see [236.274](#).

#### **225.7015 Restriction on overseas architect-engineer services.**

For restriction on award of architect-engineer contracts to be performed in Japan, in any North Atlantic Treaty Organization member country, or in countries bordering the Arabian Gulf, see [236.602-70](#).

#### **225.7016 Prohibition on requiring the use of fire-resistant rayon fiber.**

In accordance with section 821 of the National Defense Authorization Act for Fiscal Year 2011, do not include in any solicitation issued before January 1, 2015, a requirement that proposals submitted pursuant to such solicitation shall include the use of fire-resistant rayon fiber. However, this does not preclude issuing a solicitation that allows offerors to propose the use of fire-resistant rayon fiber.

**225.7017 Utilization of domestic photovoltaic devices.**

**225.7017-1 Definitions.** As used in this section—

“Covered contract” means an energy savings performance contract, a utility service contract, or a private housing contract awarded by DoD, if such contract results in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products. DoD is deemed to own a photovoltaic device if the device is—

- (1) Installed on DoD property or in a facility owned by DoD; and
- (2) Reserved for the exclusive use of DoD for the full economic life of the device.

“Designated country photovoltaic device,” “domestic photovoltaic device,” “foreign photovoltaic device,” “Free Trade Agreement country photovoltaic device,” “photovoltaic device,” “qualifying country photovoltaic device,” and “U.S.-made photovoltaic device” are defined in the clause at [252.225-7017](#), Photovoltaic Devices.

**225.7017-2 Restriction.**

In accordance with section 846 of the National Defense Authorization Act for Fiscal Year 2011, photovoltaic devices provided under any covered contract shall comply with 41 U.S.C. chapter 83, Buy American, subject to the exceptions to that statute provided in the Trade Agreements Act of 1979 (19 U.S.C. 2501 *et seq.*) or otherwise provided by law.

**225.7017-3 Exceptions.**

DoD requires the contractor to utilize domestic photovoltaic devices in covered contracts, with the following exceptions:

(a) *Qualifying country.* Qualifying country photovoltaic devices may be utilized in any covered contract, because [225.103\(a\)\(i\)\(A\)](#) provides an exception to the Buy American statute for products of qualifying countries, as defined in [225.003](#).

(b) *Buy American—unreasonable cost.* For a covered contract that utilizes photovoltaic devices valued at less than \$202,000, the exception for unreasonable cost may apply (see FAR 25.103(c)). If the cost of a foreign photovoltaic device plus 50 percent is less than the cost of a domestic photovoltaic device, then the foreign photovoltaic device may be utilized.

(c) *Trade agreements.*

(1) *Free Trade Agreements.* For a covered contract that utilizes photovoltaic devices valued at \$25,000 or more, photovoltaic devices may be utilized from a country covered under the acquisition by a Free Trade Agreement, depending upon dollar

threshold (see FAR subpart 25.4).

(2) *World Trade Organization—Government Procurement Agreement.* For covered contracts that utilize photovoltaic devices that are valued at \$202,000 or more, only U.S.-made photovoltaic devices, designated country photovoltaic devices, or qualifying country photovoltaic devices may be utilized.

#### **225.7017-4 Solicitation provisions and contract clauses.**

(a)(1) Use the clause at [252.225-7017](#), Photovoltaic Devices, in solicitations for a contract that—

(i) Is expected to exceed the simplified acquisition threshold; and

(ii) May be a covered contract, i.e., an energy savings performance contract, a utility service contract, or a private housing contract awarded by DoD, if such contract results in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products.

(2) Use the clause in the resultant contract if it is a covered contract (i.e., will result in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products).

(b) Use the provision at [252.225-7018](#), Photovoltaic Devices—Certificate, in solicitations containing the clause at [252.225-7017](#).

**SUBPART 242.3—CONTRACT ADMINISTRATION OFFICE FUNCTIONS**  
(Revised February 28, 2013)

**242.301 General.**

In this case, coordinate proposed actions with the appropriate U.S. country teams or commanders of unified and specified commands.

##### PAYMENT FOR SUBLINE ITEMS NOT SEPARATELY PRICED (DEC 1991)

(a) If the schedule in this contract contains any contract subline items or exhibit subline items identified as not separately priced (NSP), it means that the unit price for that subline item is included in the unit price of another, related line or subline item.

(b) The Contractor shall not invoice the Government for any portion of a contract line item or exhibit line item which contains an NSP until—

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see Subpart 32.11 of the Federal Acquisition Regulation) for the same parent concern.

Reading aloud the first paragraph of Standard Form 312, Classified Information Nondisclosure Agreement, in the presence of a person designated by the Contractor for this purpose, and a witness, will satisfy this requirement. Contractor employees currently cleared for access to TS, SAP, or SCI may attest orally to their security responsibilities when being briefed into a new program or during their annual refresher briefing. There is no requirement to retain a separate record of the oral attestation.

(b) If an employee refuses to attest orally to security responsibilities, the Contractor shall deny the employee access to classified information and shall submit a report to the Contractor’s security activity.

## Defense Federal Acquisition Regulation Supplement

### Part 252—Solicitation Provisions and Contract Clauses

---

As prescribed in [204.7109\(b\)](#), insert the following provision:

#### ALTERNATIVE LINE ITEM STRUCTURE (SEP 2011)

(a) Line items are the basic structural elements in a solicitation or contract that provide for the organization of contract requirements to facilitate pricing, delivery, inspection, acceptance and payment. Line items are organized into contract line items, subline items, and exhibit line items. Separate line items should be established to account for separate pricing, identification (see section [211.274](#) of the Defense Federal Acquisition Regulation Supplement), deliveries, or funding. The Government recognizes that the line item structure in this solicitation may not conform to every offeror's practices. Failure to correct these issues can result in difficulties in accounting for deliveries and processing payments. Therefore, offerors are invited to propose an alternative line item structure for items on which bids, proposals, or quotes are requested in this solicitation to ensure that the resulting contract structure is economically and administratively advantageous to the Government and the Contractor.

(b) If an alternative line item structure is proposed, the structure must be consistent with subpart [204.71](#) of the Defense Federal Acquisition Regulation Supplement and PGI [204.71](#). A sample line item structure and a proposed alternative structure are as follows:

Solicitation:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Computer, Desktop with CPU, Monitor, Keyboard and Mouse	20	EA		

Alternative line item structure offer where monitors are shipped separately:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT

##### PASSIVE RADIO FREQUENCY IDENTIFICATION (SEP 2011)

(a) *Definitions.* As used in this clause—

“Advance shipment notice” means an electronic notification used to list the contents of a shipment of goods as well as additional information relating to the shipment, such as passive radio frequency identification (RFID) or item unique identification (IUID) information, order information, product description, physical characteristics, type of packaging, marking, carrier information, and configuration of goods within the transportation equipment.

“Bulk commodities” means the following commodities, when shipped in rail tank cars, tanker trucks, trailers, other bulk wheeled conveyances, or pipelines:

- (1) Sand.
- (2) Gravel.
- (3) Bulk liquids (water, chemicals, or petroleum products).

- (4) Ready-mix concrete or similar construction materials.
- (5) Coal or combustibles such as firewood.
- (6) Agricultural products such as seeds, grains, or animal feed.

“Case” means either a MIL-STD-129 defined exterior container within a palletized unit load or a MIL-STD-129 defined individual shipping container.

“Electronic Product Code™ (EPC)” means an identification scheme for universally identifying physical objects via RFID tags and other means. The standardized EPC data consists of an EPC (or EPC identifier) that uniquely identifies an individual object, as well as an optional filter value when judged to be necessary to enable effective and efficient reading of the EPC tags. In addition to this standardized data, certain classes of EPC tags will allow user-defined data. The EPC Tag Data Standards will define the length and position of this data, without defining its content.

“EPCglobal®” means a subscriber-driven organization comprised of industry leaders and organizations focused on creating global standards for the adoption of passive RFID technology.

“Exterior container” means a MIL-STD-129 defined container, bundle, or assembly that is sufficient by reason of material, design, and construction to protect unit packs and intermediate containers and their contents during shipment and storage. It can be a unit pack or a container with a combination of unit packs or intermediate containers. An exterior container may or may not be used as a shipping container.

“Palletized unit load” means a MIL-STD-129 defined quantity of items, packed or unpacked, arranged on a pallet in a specified manner and secured, strapped, or fastened on the pallet so that the whole palletized load is handled as a single unit. A palletized or skidded load is not considered to be a shipping container. A loaded 463L System pallet is not considered to be a palletized unit load. Refer to the Defense Transportation Regulation, DoD 4500.9-R, Part II, Chapter 203, for marking of 463L System pallets.

“Passive RFID tag” means a tag that reflects energy from the reader/interrogator or that receives and temporarily stores a small amount of energy from the reader/interrogator signal in order to generate the tag response. The only acceptable tags are EPC Class 1 passive RFID tags that meet the EPCglobal™ Class 1 Generation 2 standard.

“Radio frequency identification (RFID)” means an automatic identification and data capture technology comprising one or more reader/interrogators and one or more radio frequency transponders in which data transfer is achieved by means of suitably modulated inductive or radiating electromagnetic carriers.

“Shipping container” means a MIL-STD-129 defined exterior container that meets carrier regulations and is of sufficient strength, by reason of material, design, and construction, to be shipped safely without further packing (e.g., wooden boxes or crates, fiber and metal drums, and corrugated and solid fiberboard boxes).

(c) *Exceptions.* The restriction in paragraph (b) of this clause does not apply to—

(1) Electronic components.

(2)(i) Commercially available off-the-shelf (COTS) items, other than—

(A) Specialty metal mill products, such as bar, billet, slab, wire, plate, or sheet, that have not been incorporated into COTS end items, subsystems, assemblies, or components;

resultant item is not a COTS item, only the specialty metals involved in joining the COTS items together are subject to the restriction in paragraph (b) of this clause (e.g., a COTS aircraft is outfitted with a COTS engine that is not the COTS engine normally provided with the aircraft).

(D) For COTS items that are normally sold in the commercial marketplace with various options, items that include such options are also COTS items. However, if a COTS item is offered to the Government with an option that is not normally offered in the commercial marketplace, that option is subject to the restriction in paragraph (b) of this clause (e.g. - An aircraft is normally sold to the public with an option for installation kits. The Department of Defense requests a military-unique kit. The aircraft is still a COTS item, but the military-unique kit is not a COTS item and must comply with the restriction in paragraph (b) of this clause unless another exception applies).

(3) Fasteners that are commercial items, if the manufacturer of the fasteners certifies it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to the Department of Defense and other customers, that is not less than 50 percent of the total amount of the specialty metal that it will purchase to carry out the production of such fasteners for all customers.

(4) Items manufactured in a qualifying country.

- (i) A satisfactory quality;
- (ii) A sufficient quantity; and
- (iii) The required form.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States, an outlying area, or a qualifying country, that are not covered by one of the other exceptions in this paragraph (c)), if the total weight of such noncompliant metals does not exceed 2 percent of the total weight of all specialty metals in the end item, as estimated in good faith by the Contractor. This exception does not apply to high performance magnets containing specialty metals.

(d) *Compliance for commercial derivative military articles.*

(1) As an alternative to the compliance required in paragraph (b) of this clause, the Contractor may purchase an amount of domestically melted or produced specialty metals in the required form, for use during the period of contract performance in the production of the commercial derivative military article and the related commercial article, if—

(A) An amount equivalent to 120 percent of the amount of specialty metal that is required to carry out the production of the commercial derivative military article (including the work performed under each subcontract); or

(B) An amount equivalent to 50 percent of the amount of specialty metal that will be purchased by the Contractor and its subcontractors for use during such period in the production of the commercial derivative military article and the related commercial article.

(2) For the purposes of this alternative, the amount of specialty metal that is required to carry out production of the commercial derivative military article includes specialty metal contained in any item, including COTS items.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause in subcontracts for items containing specialty metals, to the extent necessary to ensure compliance of the end products that the Contractor will deliver to the Government. When inserting the substance of this clause in subcontracts, the Contractor shall—

(1) Modify paragraph (c)(6) of this clause as necessary to facilitate management of the minimal content exception;

(2) Exclude paragraph (d) of this clause; and

(3) Include this paragraph (e).

As prescribed in [225.7503\(a\)\(1\)](#), use the following clause:

##### BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL (JUN 2012)

(a) *Definitions.* As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial item (as defined in paragraph (1) of the definition of “commercial item” in section 2.101 of the Federal Acquisition Regulation);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in

(ii) The construction material is a COTS item.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) *Domestic preference.* This clause implements the Balance of Payments Program by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;
