**SUBPART 222.74—RESTRICTIONS ON THE USE OF MANDATORY
ARBITRATION AGREEMENTS**

(Revised June 17, 2013)

222.7400 Scope of subpart.

This subpart implements section 8116 of the Defense Appropriations Act for Fiscal Year 2010 (Pub. L. 111-118) and similar sections in subsequent DoD appropriations acts.

222.7401 Definition.

“Covered subcontractor,” as used in this subpart, is defined in the clause at [252.222-7006](#), Restrictions on the Use of Mandatory Arbitration Agreements.

222.7402 Policy.

L. 111-118) or subsequent DoD appropriations acts for any contract (including task or delivery orders and bilateral modifications adding new work) in excess of \$1 million, unless the contractor agrees not to—

(1) Enter into any agreement with any of its employees or independent contractors that requires, as a condition of employment, that the employee or independent contractor agree to resolve through arbitration—

(i) Any claim under title VII of the Civil Rights Act of 1964; or

(ii) Any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention; or

(2) Take any action to enforce any provision of an existing agreement with an employee or independent contractor that mandates that the employee or independent contractor resolve through arbitration—

(i) Any claim under title VII of the Civil Rights Act of 1964; or

(ii) Any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention.

(b) No funds appropriated or otherwise made available by the Fiscal Year 2010 Defense Appropriations Act (Pub. L. 111-118) or subsequent DoD appropriations acts may be expended unless the contractor certifies that it requires each covered subcontractor to agree not to enter into, and not to take any action to enforce, any provision of any agreement, as described in paragraph (a) of this section, with respect to any employee or independent contractor performing work related to such subcontract.

222.7403 Applicability.

Defense Federal Acquisition Regulation Supplement

Part 222—Application of Labor Laws to Government Acquisitions

This requirement does not apply to the acquisition of commercial items (including commercially available off-the-shelf items).

(a) The Secretary of Defense may waive, in accordance with paragraphs (b) through (d) of this section, the applicability of paragraphs (a) or (b) of [222.7402](#), to a particular contract or subcontract, if the Secretary or the Deputy Secretary personally determines that the waiver is necessary to avoid harm to national security interests of the United States, and that the term of the contract or subcontract is not longer than necessary to avoid such harm.

(b) The waiver determination shall set forth the grounds for the waiver with specificity, stating any alternatives considered, and explain why each of the alternatives would not avoid harm to national security interests.

(c) The contracting officer shall submit requests for waivers in accordance with agency procedures and [PGI 222.7404\(c\)](#).

(d) The Secretary of Defense will transmit the determination to Congress and simultaneously publish it in the Federal Register, not less than 15 business days before the contract or subcontract addressed in the determination may be awarded.

225.7901-4 Contract clauses.

Use the clause at [252.225-7048](#), Export-Controlled Items, in all solicitations and contracts.

225.7902 Defense Trade Cooperation Treaties.

This section implements the Defense Trade Cooperation (DTC) Treaties with Australia and the United Kingdom and the associated Implementing Arrangements for DoD solicitations and contracts that authorize prospective contractors and contractors to use the DTC Treaties to respond to DoD solicitations and in the performance of DoD contracts.

"Approved community," "defense articles," "Defense Trade Cooperation (DTC) Treaty", "export," "Implementing Arrangement," "qualifying defense articles," "transfer," and "U.S. DoD Treaty-eligible requirements" are defined in contract clause DFARS [252.225-7047](#), Exports by Approved Community Members in Performance of the Contract.

225.7902-2 Purpose.

The DTC Treaties permits the export of certain U.S. defense articles, technical data, and defense services, without U.S. export licenses or other written authorization under the International Traffic in Arms Regulation (ITAR) into and within the Approved Community, as long as the exports are in support of purposes specified in the DTC Treaties. All persons must continue to comply with statutory and regulatory requirements outside of DFARS and ITAR concerning the import of defense articles and defense services or the possession or transfer of defense articles, including, but not limited to, regulations issued by the Bureau of Alcohol, Tobacco, Firearms and Explosives found at 27 CFR Parts 447, 478, and 479, which are unaffected by the DTC Treaties. The Approved Community consists of U.S. entities that are registered with the Department of State and are eligible exporters, the U.S. Government, and certain governmental and commercial facilities in Australia and the United Kingdom that are approved and listed by the U.S. Government. See [PGI 225.7902-2](#) for additional information.

225.7902-3 Policy.

DoD will facilitate maximum use of the DTC Treaties by prospective contractors responding to DoD solicitations and by contractors eligible to export qualifying defense articles under DoD contracts in accordance with 22 CFR 126.16(g) and 22 CFR 126.17(g).

225.7902-4 Procedures.

(a) For all solicitations and contracts that may be eligible for DTC Treaty coverage (see [PGI 225.7902-4\(1\)](#)), the program manager shall identify in writing and submit to the contracting officer prior to issuance of a solicitation and prior to award of a contract—

(1) The qualifying DTC Treaty Scope paragraph (Article 3(1)(a), 3(1)(b), or 3(1)(d) of the U.S.-Australia DTC Treaty or Article (3)(1)(a), (3)(1)(b), or 3(1)(d) of the U.S.-U.K. DTC Treaty); and

Part 235—Research and Development Contracting

(Revised June 17, 2013)

235.001 Definitions.

“Research and development” means those efforts described by the Research, Development, Test, and Evaluation (RDT&E) budget activity definitions found in the DoD Financial Management Regulation (DoD 7000.14-R), Volume 2B, Chapter 5.

235.006 Contracting methods and contract type.

(b)(i) For major defense acquisition programs as defined in 10 U.S.C. 2430—

(A) Follow the procedures at [234.004](#); and

(B) Notify the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)) of an intent not to exercise a fixed-price production option on a development contract for a major weapon system reasonably in advance of the expiration of the option exercise period.

(ii) For other than major defense acquisition programs—

(A) Do not award a fixed-price type contract for a development program effort unless—

(1) The level of program risk permits realistic pricing;

(2) The use of a fixed-price type contract permits an equitable and sensible allocation of program risk between the Government and the contractor; and

(3) A written determination that the criteria of paragraphs (b)(ii)(A)(1) and (2) of this section have been met is executed—

(i) By the USD(AT&L) if the contract is over \$25 million and is for: research and development for a non-major system; the development of a major system (as defined in FAR 2.101); or the development of a subsystem of a major system; or

(ii) By the contracting officer for any development not covered by paragraph (b)(ii)(A)(3)(i) of this section.

(B) Obtain USD(AT&L) approval of the Government’s prenegotiation position before negotiations begin, and obtain USD(AT&L) approval of the negotiated agreement with the contractor before the agreement is executed, for any action that is—

(1) An increase of more than \$250 million in the price or ceiling price of a fixed-price type development contract, or a fixed-price type contract for the lead ship of a class;

(2) A reduction in the amount of work under a fixed-price type development contract or a fixed-price type contract for the lead ship of a class, when the value of the work deleted is \$100 million or more; or

(3) A repricing of fixed-price type production options to a development contract, or a contract for the lead ship of a class, that increases the price or ceiling price by more than \$250 million for equivalent quantities.

235.006-70 Manufacturing Technology Program.

In accordance with 10 U.S.C. 2521(d), for acquisitions under the Manufacturing Technology Program—

(a) Award all contracts using competitive procedures; and

(b) Include in all solicitations an evaluation factor that addresses the extent to which offerors propose to share in the cost of the project (see FAR 15.304).

235.006-71 Competition.

See [234.005-1](#) for limitations on the use of contract line items or contract options for the provision of advanced component development or prototypes of technology developed under a competitively awarded proposal.

235.008 Evaluation for award.

See [209.570](#) for limitations on the award of contracts to contractors acting as lead system integrators.

235.010 Scientific and technical reports.

(b) For DoD, the Defense Technical Information Center is responsible for collecting all scientific and technical reports. For access to these reports, follow the procedures at [PGI 235.010\(b\)](#).

235.015-70 Special use allowances for research facilities acquired by educational institutions.

(a) *Definitions.* As used in this subsection—

(1) “Research facility” means—

(i) Real property, other than land; and

(ii) Includes structures, alterations, and improvements, acquired for the purpose of conducting scientific research under contracts with departments and agencies of the DoD.

(2) “Special use allowance” means a negotiated direct or indirect allowance—

(i) For construction or acquisition of buildings, structures, and real property, other than land; and

(ii) Where the allowance is computed at an annual rate exceeding the rate which normally would be allowed under FAR Subpart 31.3.

(b) *Policy.*

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(1) Educational institutions are to furnish the facilities necessary to perform defense contracts. FAR 31.3 governs how much the Government will reimburse the institution for the research programs. However, in extraordinary situations, the Government may give special use allowances to an educational institution when the institution is unable to provide the capital for new laboratories or expanded facilities needed for defense contracts.

(2) Decisions to provide a special use allowance must be made on a case-by-case basis, using the criteria in paragraph (c) of this subsection.

(c) *Authorization for special use allowance.* The head of a contracting activity may approve special use allowances only when all of the following conditions are met—

(1) The research facility is essential to the performance of DoD contracts;

(2) Existing facilities, either Government or nongovernment, cannot meet program requirements practically or effectively;

(3) The proposed agreement for special use allowances is a sound business arrangement;

(4) The Government's furnishing of Government-owned facilities is undesirable or impractical; and

(5) The proposed use of the research facility is to conduct essential Government research which requires the new or expanded facilities.

(d) *Application of the special use allowance.*

(1) In negotiating a special use allowance—

(i) Compare the needs of DoD and of the institution for the research facility to determine the amount of the special use allowance;

(ii) Consider rental costs for similar space in the area where the research facility is or will be located to establish the annual special use allowance;

(iii) Do not include or allow—

(A) The costs of land; or

(B) Interest charges on capital;

(iv) Do not include maintenance, utilities, or other operational costs;

(v) The period of allowance generally will be—

(A) At least ten years; or

(B) A shorter period if the total amount to be allowed is less than the construction or acquisition cost for the research facility;

Defense Federal Acquisition Regulation Supplement

Part 235—Research and Development Contracting

(vi) Generally, provide for allocation of the special use allowance equitably among the Government contracts using the research facility;

(vii) Special use allowances apply only in the years in which the Government has contracts in effect with the institution. However, if in any given year there is a reduced level of Government research effort which results in the special use allowance being excessive compared to the Government research funding, a separate special use allowance may be negotiated for that year;

(viii) Special use allowances may be adjusted for the period before construction is complete if the facility is partially occupied and used for Government research during that period.

(2) A special use allowance may be based on either total or partial cost of construction or acquisition of the research facility.

(i) When based on total cost neither the normal use allowance nor depreciation will apply—

(A) During the special use allowance period; and

(B) After the educational institution has recovered the total construction or acquisition cost from the Government or other users.

(ii) When based on partial cost, normal use allowance and depreciation—

(A) Apply to the balance of costs during the special use allowance period to the extent negotiated in the special use allowance agreement; and

(B) Do not apply after the special use allowance period, except for normal use allowance applied to the balance.

(3) During the special use allowance period, the research facility—

(i) Shall be available for Government research use on a priority basis over nongovernment use; and

(ii) Cannot be put to any significant use other than that which justified the special use allowance, unless the head of the contracting activity, who approved the special use allowance, consents.

(4) The Government will pay only an allocable share of the special use allowance when the institution makes any substantial use of the research facility for parties other than the Government during the period when the special use allowance is in effect.

(5) In no event shall the institution be paid more than the acquisition costs.

235.016 Broad agency announcement.

To help achieve the goals of Section 1207 of Pub. L. 99-661 (see Part 226), contracting officers shall—

(1) Whenever practicable, reserve discrete or severable areas of research interest contained in broad agency announcements for exclusive competition among historically black colleges and universities and minority institutions;

(2) Indicate such reservation—

(i) In the broad agency announcement; and

(ii) In the announcement synopsis (see [205.207\(d\)](#)).

235.017 Federally Funded Research and Development Centers.

(a) *Policy.*

(2) No DoD fiscal year 1992 or later funds may be obligated or expended to finance activities of a DoD Federally Funded Research and Development Center (FFRDC) if a member of its board of directors or trustees simultaneously serves on the board of directors or trustees of a profit-making company under contract to DoD, unless the FFRDC has a DoD-approved conflict of interest policy for its members (Section 8107 of Pub. L. 102-172 and similar sections in subsequent Defense appropriations acts).

235.017-1 Sponsoring agreements.

(c)(4) DoD-sponsored FFRDCs that function primarily as research laboratories (C3I Laboratory operated by the Institute for Defense Analysis, Lincoln Laboratory operated by Massachusetts Institute of Technology, and Software Engineering Institute operated by Carnegie Mellon) may respond to solicitations and announcements for programs which promote research, development, demonstration, or transfer of technology (Section 217, Pub. L. 103-337).

235.070 Indemnification against unusually hazardous risks.

235.070-1 Indemnification under research and development contracts.

(a) Under 10 U.S.C. 2354, and if authorized by the Secretary concerned, contracts for research and/or development may provide for indemnification of the contractor or subcontractors for—

(1) Claims by third persons (including employees) for death, bodily injury, or loss of or damage to property; and

(2) Loss of or damage to the contractor's property to the extent that the liability, loss, or damage—

(i) Results from a risk that the contract defines as “unusually hazardous;”

(ii) Arises from the direct performance of the contract; and

(iii) Is not compensated by insurance or other means.

(b) Clearly define the specific unusually hazardous risks to be indemnified. Submit this definition for approval with the request for authorization to grant indemnification. Include the approved definition in the contract.

235.070-2 Indemnification under contracts involving both research and development and other work.

These contracts may provide for indemnification under the authority of both 10 U.S.C. 2354 and Pub. L. 85-804. Pub. L. 85-804 will apply only to work to which 10 U.S.C. 2354 does not apply. Actions under Pub. L. 85-804 must also comply with FAR 50.104-3.

235.070-3 Contract clauses.

When the contractor is to be indemnified in accordance with [235.070-1](#), use either—

(a) The clause at [252.235-7000](#), Indemnification Under 10 U.S.C. 2354--Fixed Price; or

(b) The clause at [252.235-7001](#), Indemnification Under 10 U.S.C. 2354--Cost-Reimbursement, as appropriate.

235.071 Export-controlled items.

For requirements regarding access to export-controlled items, see [225.7901](#).

235.072 Additional contract clauses.

(a) Use the clause at [252.235-7002](#), Animal Welfare, or one substantially the same, in solicitations and contracts awarded in the United States or its outlying areas involving research on live vertebrate animals.

(b) Use the clause at [252.235-7003](#), Frequency Authorization, in solicitations and contracts for developing, producing, constructing, testing, or operating a device requiring a frequency authorization.

(c) Use the clause at [252.235-7010](#), Acknowledgment of Support and Disclaimer, in solicitations and contracts for research and development.

(d) Use the clause at [252.235-7011](#), Final Scientific or Technical Report, in solicitations and contracts for research and development.

(e) Use the clause at [252.235-7004](#), Protection of Human Subjects, in solicitations and contracts that include or may include research involving human subjects in accordance with 32 CFR Part 219, DoD Directive 3216.02, and 10 U.S.C. 980, including research that meets exemption criteria under 32 CFR 219.101(b). The clause—

(1) Applies to solicitations and contracts awarded by any DoD component, regardless of mission or funding Program Element Code; and

(2) Does not apply to use of cadaver materials alone, which are not directly regulated by 32 CFR Part 219 or DoD Directive 3216.02, and which are governed by other DoD policies and applicable State and local laws.

As prescribed in [204.7109\(b\)](#), insert the following provision:

ALTERNATIVE LINE ITEM STRUCTURE (SEP 2011)

(a) Line items are the basic structural elements in a solicitation or contract that provide for the organization of contract requirements to facilitate pricing, delivery, inspection, acceptance and payment. Line items are organized into contract line items, subline items, and exhibit line items. Separate line items should be established to account for separate pricing, identification (see section [211.274](#) of the Defense Federal Acquisition Regulation Supplement), deliveries, or funding. The Government recognizes that the line item structure in this solicitation may not conform to every offeror's practices. Failure to correct these issues can result in difficulties in accounting for deliveries and processing payments. Therefore, offerors are invited to propose an alternative line item structure for items on which bids, proposals, or quotes are requested in this solicitation to ensure that the resulting contract structure is economically and administratively advantageous to the Government and the Contractor.

(b) If an alternative line item structure is proposed, the structure must be consistent with subpart [204.71](#) of the Defense Federal Acquisition Regulation Supplement and PGI [204.71](#). A sample line item structure and a proposed alternative structure are as follows:

(A) An amount equivalent to 120 percent of the amount of specialty metal that is required to carry out the production of the commercial derivative military article (including the work performed under each subcontract); or

(B) An amount equivalent to 50 percent of the amount of specialty metal that will be purchased by the Contractor and its subcontractors for use during such period in the production of the commercial derivative military article and the related commercial article.

(2) For the purposes of this alternative, the amount of specialty metal that is required to carry out production of the commercial derivative military article includes specialty metal contained in any item, including COTS items.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause in subcontracts for items containing specialty metals, to the extent necessary to ensure compliance of the end products that the Contractor will deliver to the Government. When inserting the substance of this clause in subcontracts, the Contractor shall—

(1) Modify paragraph (c)(6) of this clause as necessary to facilitate management of the minimal content exception;

(2) Exclude paragraph (d) of this clause; and

(3) Include this paragraph (e).

As prescribed in [225.7503](#)(a)(1), use the following clause:

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL (JUN 2012)

(a) *Definitions.* As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial item (as defined in paragraph (1) of the definition of “commercial item” in section 2.101 of the Federal Acquisition Regulation);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in

Defense Federal Acquisition Regulation Supplement

(2) A construction material manufactured in the United States, if—

(ii) The construction material is a COTS item.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) *Domestic preference.* This clause implements the Balance of Payments Program by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;

(2) Information technology that is a commercial item; or

(3) The construction material or components listed by the Government as follows:
