“Suspect counterfeit electronic part” means an electronic part for which credible evidence (including, but not limited to, visual inspection or testing) provides reasonable doubt that the electronic part is authentic.

“Tiered evaluation of offers,” also known as “cascading evaluation of offers,” means a procedure used in negotiated acquisitions, when market research is inconclusive for justifying limiting competition to small business concerns, whereby the contracting officer—

(1) Solicits and receives offers from both small and other than small business concerns;

(2) Establishes a tiered or cascading order of precedence for evaluating offers that is specified in the solicitation; and

(3) If no award can be made at the first tier, evaluates offers at the next lower tier, until award can be made.

(Revised May 30, 2018)

204.1103 Procedures.

See [PGI 204.1103](#) for helpful information on navigation and data entry in the System for Award Management (SAM) database.

(1) On contract award documents, use the contractor’s legal or “doing business as” name and physical address information as recorded in the SAM database at the time of award.

(2) When making a determination to exercise an option, or at any other time before issuing a modification other than a unilateral modification making an administrative change, ensure that—

(i) The contractor’s record is active in the SAM database; and

(ii) The contractor’s Data Universal Numbering System (DUNS) number, Commercial and Government Entity (CAGE) code, name, and physical address are accurately reflected in the contract document.

(3) At any time, if the DUNS number, CAGE code, contractor name, or physical address on a contract no longer matches the information on the contractor’s record in the SAM database, the contracting officer shall process a novation or change-of-name agreement, or an address change, as appropriate.

(4) See [PGI 204.1103](#) for additional requirements relating to use of information in the SAM database.

(5) On contractual documents transmitted to the payment office, provide the CAGE code, instead of the DUNS number or DUNS+4 number, in accordance with agency procedures.

**SUBPART 204.71—UNIFORM CONTRACT LINE ITEM NUMBERING
SYSTEM**

(Revised May 30, 2018)

204.7100 Scope.

This subpart prescribes policies and procedures for assigning contract line item numbers.

204.7101 Definitions.

“Accounting classification reference number (ACRN)” means any combination of a two position alpha/numeric code used as a method of relating the accounting classification citation to detailed line item information contained in the schedule.

“Attachment” means any documentation, appended to a contract or incorporated by reference, which does not establish a requirement for deliverables.

“Definitized item,” as used in this subpart, means an item for which a firm price has been established in the basic contract or by modification.

“Exhibit” means a document, referred to in a contract, which is attached and establishes requirements for deliverables. The term shall not be used to refer to any other kind of attachment to a contract. The DD Form 1423, Contract Data Requirements List, is always an exhibit, rather than an attachment.

“Nonseverable deliverable,” as used in this subpart, means a deliverable item that is a single end product or undertaking, entire in nature, that cannot be feasibly subdivided into discrete elements or phases without losing its identity.

“Undefinitized item,” as used in this subpart, means an item for which a price has not been established in the basic contract or by modification.

204.7102 Policy.

- (a) The numbering procedures of this subpart shall apply to all—
- (1) Solicitations;
 - (2) Solicitation line and subline item numbers;
 - (3) Contracts as defined in FAR Subpart 2.1;
 - (4) Contract line and subline item numbers;
 - (5) Exhibits;
 - (6) Exhibit line items; and
 - (7) Any other document expected to become part of the contract.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(b) The numbering procedures are mandatory for all contracts where separate contract line item numbers are assigned, unless—

(1) The contract is an indefinite-delivery type for petroleum products against which posts, camps, and stations issue delivery orders for products to be consumed by them; or

(2) The contract is a communications service authorization issued by the Defense Information Systems Agency's Defense Information Technology Contracting Organization.

204.7103 Contract line items.

Follow the procedures at [PGI 204.7103](#) for establishing contract line items.

204.7103-1 Criteria for establishing.

Contracts shall identify the items or services to be acquired as separate contract line items unless it is not feasible to do so.

(a) Contract line items shall have all four of the following characteristics; however, there are exceptions within the characteristics, which may make establishing a separate contract line item appropriate even though one of the characteristics appears to be missing—

(1) *Single unit price.* The item shall have a single unit price or a single total price, except—

(i) If the item is not separately priced (NSP) but the price is included in the unit price of another contract line item, enter NSP instead of the unit price;

(ii) When there are associated subline items, established for other than informational reasons, and those subline items are priced in accordance with [204.7104](#);

(iii) When the items or services are being acquired on a cost-reimbursement contract;

(iv) When the contract is for maintenance and repair services (e.g., a labor hour contract) and firm prices have been established for elements of the total price of an item but the actual number and quantity of the elements are not known until performance. The contracting officer may structure these contracts to reflect a firm or estimated total amount for each line item;

(v) When the contract line item is established to refer to an exhibit or an attachment (if management needs dictate that a unit price be entered, the price shall be set forth in the item description block and enclosed in parentheses); or

(vi) When the contract is an indefinite delivery type contract and provides that the price of an item shall be determined at the time a delivery order is placed and the price is influenced by such factors as the quantity ordered (e.g., 10-99 @ \$1.00, 100-249 @ \$.98, 250+ @ \$.95), the destination, the FOB point, or the type of packaging required.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(2) *Separately identifiable.* A contract line item must be identified separately from any other items or services on the contract.

(i) Supplies are separately identifiable if they have no more than one—

(A) National stock number (NSN);

(B) Item description; or

(C) Manufacturer's part number.

(ii) Services are separately identifiable if they have no more than one—

(A) Scope of work; or

(B) Description of services.

(iii) This requirement does not apply if there are associated subline items, established for other than informational reasons, and those subline items include the actual detailed identification in accordance with [204.7104](#). Where this exception applies, use a general narrative description instead of the contract item description.

(3) *Separate delivery schedule.* Each contract line item or service shall have its own delivery schedule, period of performance, or completion date expressly stated (“as required” constitutes an expressly stated delivery term).

(i) The fact that there is more than one delivery date, destination, performance date, or performance point may be a determining factor in the decision as to whether to establish more than one contract line item.

(ii) If a contract line item has more than one destination or delivery date, the contracting officer may create individual contract line items for the different destinations or delivery dates, or may specify the different delivery dates for the units by destination in the delivery schedule.

(4) *Single accounting classification citation.*

(i) Each contract line item shall reference a single accounting classification citation except as provided in paragraph (a)(4)(ii) of this subsection.

(ii) The use of multiple accounting classification citations for a contract line item is authorized in the following situations:

(A) A single, nonseverable deliverable to be paid for with R&D or other funds properly incrementally obligated over several fiscal years in accordance with DoD policy;

(B) A single, nonseverable deliverable to be paid for with different authorizations or appropriations, such as in the acquisition of a satellite or the modification of production tooling used to produce items being acquired by several activities; or

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(C) A modification to an existing contract line item for a nonseverable deliverable that results in the delivery of a modified item(s) where the item(s) and modification are to be paid for with different accounting classification citations.

(iii) When the use of multiple accounting classification citations is authorized for a single contract line item, establish informational subline items for each accounting classification citation in accordance with [204.7104-1\(a\)](#).

(b) All subline items and exhibit line items under one contract line item shall be the same contract type as the contract line item.

(c) For a contract that contains a combination of fixed-price line items, time-and-materials/labor-hour line items, and/or cost-reimbursement line items, identify the contract type for each contract line item in Section B, Supplies or Services and Prices/Costs, to facilitate appropriate payment.

(d) Exhibits may be used as an alternative to putting a long list of contract line items in the schedule. If exhibits are used, create a contract line item citing the exhibit's identifier. See [204.7105](#).

(e) If the contract involves a test model or a first article which must be approved, establish a separate contract line item or subline item for each item of supply or service which must be approved. If the test model or first article consists of a lot composed of a mixture of items, a single line item or subline item may be used for the lot.

(f) If a supply or service involves ancillary functions, like packaging and handling, transportation, payment of state or local taxes, or use of reusable containers, and these functions are normally performed by the contractor and the contractor is normally entitled to reimbursement for performing these functions, do not establish a separate contract line item solely to account for these functions. However, do identify the functions in the contract schedule. If the offeror separately prices these functions, contracting officers may establish separate contract line items for the functions; however, the separate line items must conform to the requirements of paragraph (a) of this subsection.

(g) Certain commercial items and initial provisioning spares for weapons systems are requested and subsequently solicited using units of measure such as kit, set, or lot. However, there are times when individual items within that kit, set, or lot are not grouped and delivered in a single shipment. This creates potential contract administration issues with inspection, acceptance, and payment. In such cases, solicitations should be structured to allow offerors to provide information about products that may not have been known to the Government prior to solicitation and propose an alternate line item structure as long as the alternate is consistent with the requirements of [204.71](#), which provides explicit guidance on the use of contract line items and subline items, and with PGI [204.71](#).

204.7103-2 Numbering procedures.

Follow the procedures at PGI [204.7103-2](#) for numbering contract line items.

204.7104 Contract subline items.

204.7104-1 Criteria for establishing.

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

Contract subline items provide flexibility to further identify elements within a contract line item for tracking performance or simplifying administration. There are only two kinds of subline items: those which are informational in nature and those which consist of more than one item that requires separate identification.

(a) *Informational subline items.*

(1) This type of subline item identifies information that relates directly to the contract line item and is an integral part of it (e.g., parts of an assembly or parts of a kit). These subline items shall not be scheduled separately for delivery, identified separately for shipment or performance, or priced separately for payment purposes.

(2) The informational subline item may include quantities, prices, or amounts, if necessary to satisfy management requirements. However, these elements shall be included within the item description in the supplies/services column and enclosed in parentheses to prevent confusing them with quantities, prices, or amounts that have contractual significance. Do not enter these elements in the quantity and price columns.

(3) Informational subline items shall be used to identify each accounting classification citation assigned to a single contract line item number when use of multiple citations is authorized (see [204.7103-1\(a\)\(4\)\(ii\)](#)).

(b) *Separately identified subline items.*

(1) Subline items will be used instead of contract line items to facilitate payment, delivery tracking, contract funds accounting, or other management purposes. Such subline items shall be used when items bought under one contract line item number—

(i) Are to be paid for from more than one accounting classification. A subline item shall be established for the quantity associated with the single accounting classification citation. Establish a line item rather than a subline item if it is likely that a subline item may be assigned additional accounting classification citations at a later date. Identify the funding as described in [204.7104-1\(a\)\(3\)](#);

(ii) Are to be packaged in different sizes, each represented by its own NSN;

(iii) Have collateral costs, such as packaging costs, but those costs are not a part of the unit price of the contract line item;

(iv) Have different delivery dates or destinations or requisitions, or a combination of the three; or

(v) Identify parts of an assembly or kit which—

(A) Have to be separately identified at the time of shipment or performance; and

(B) Are separately priced.

(2) Each separately identified contract subline item shall have its own—

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(i) Delivery schedule, period of performance, or completion date;

(ii) Unit price or single total price or amount (not separately priced (NSP) is acceptable as an entry for price or amount if the price is included in another subline item or a different contract line item). This requirement does not apply—

(A) If the subline item was created to refer to an exhibit or an attachment. If management needs dictate that a unit price be entered, the price shall be set forth in the item description block of the schedule and enclosed in parentheses; or

(B) In the case of indefinite delivery contracts described at [204.7103-1\(a\)\(1\)\(vi\)](#).

(iii) Identification (e.g., NSN, item description, manufacturer's part number, scope of work, description of services).

(3) Unit prices and extended amounts.

(i) The unit price and total amount for all subline items may be entered at the contract line item number level if the unit price for the subline items is identical. If there is any variation, the subline item unit prices shall be entered at the subline item level only.

(ii) The unit price and extended amounts may be entered at the subline items level.

(iii) The two methods in paragraphs (b)(3)(i) and (ii) of this subsection shall not be combined in a contract line item.

(iv) When the price for items not separately priced is included in the price of another subline item or contract line item, it may be necessary to withhold payment on the priced subline item until all the related subline items that are not separately priced have been delivered. In those cases, use the clause at [252.204-7002](#), Payment for Subline Items Not Separately Priced.

204.7104-2 Numbering procedures.

Follow the procedures at PGI [204.7104-2](#) for numbering contract subline items.

204.7105 Contract exhibits and attachments.

Follow the procedures at PGI [204.7105](#) for use and numbering of contract exhibits and attachments.

204.7106 Contract modifications.

(a) If new items are added, assign new contract line or subline item numbers or exhibit line item numbers, in accordance with the procedures established at [204.7103](#), [204.7104](#), and [204.7105](#).

(b) *Modifications to existing contract line items or exhibit line items.*

Defense Federal Acquisition Regulation Supplement

Part 204—Administrative Matters

(1) If the modification relates to existing contract line items or exhibit line items, the modification shall refer to those item numbers.

(2) If the contracting officer decides to assign new identifications to existing contract or exhibit line items, the following rules apply—

(i) *Definitized and undefinitized items.*

(A) The original line item or subline item number may be used if the modification applies to the total quantity of the original line item or subline.

(B) The original line item or subline item number may be used if the modification makes only minor changes in the specifications of some of the items ordered on the original line item or subline item and the resulting changes in unit price can be averaged to provide a new single unit price for the total quantity. If the changes in the specifications make the item significantly distinguishable from the original item or the resulting changes in unit price cannot be averaged, create a new line item.

(C) If the modification affects only a partial quantity of an existing contract line item or subline item or exhibit line item and the change does not involve either the delivery date or the ship-to/mark-for data, the original contract line item or subline item or exhibit line item number shall remain with the unchanged quantity. Assign the changed quantity the next available number.

(ii) *Undefinitized items.* In addition to the rules in paragraph (b)(2)(i), the following additional rules apply to undefinitized items—

(A) If the modification is undefinitized and increases the quantity of an existing definitized item, assign the undefinitized quantity the next available number.

(B) If the modification increases the quantity of an existing undefinitized item, the original contract line item or subline item or exhibit line item may be used if the unit price for the new quantity is expected to be the same as the price for the original quantity. If the unit prices of the two quantities will be different, assign the new quantity the next available number.

(C) If the modification both affects only a partial quantity of the existing contract line item or subline item or exhibit line item and definitizes the price for the affected portion, the definitized portion shall retain the original item number. If there is any undefinitized portion of the item, assign it the next available number. However, if the modification definitizes the price for the whole quantity of the line item, and price impact of the changed work can be apportioned equally over the whole to arrive at a new unit price, the quantity with the changes can be added into the quantity of the existing item.

(D) If the modification affects only a partial quantity of an existing contract line item or subline item or exhibit line item, but does not change the delivery schedule or definitize price, the unchanged portion shall retain the original contract line item or subline item or exhibit line item number. Assign the changed portion the next available number.

(3) If the modification will decrease the amount obligated—

211.273-2 Policy.

(a) Under the Single Process Initiative (SPI), DoD accepts SPI processes in lieu of specific military or Federal specifications or standards that specify a management or manufacturing process.

(b) DoD acceptance of an SPI process follows the decision of a Management Council, which includes representatives of the contractor, the Defense Contract Management Agency, the Defense Contract Audit Agency, and the military departments.

(c) In procurements of previously developed items, SPI processes that previously were accepted by the Management Council shall be considered valid replacements for military or Federal specifications or standards, absent a specific determination to the contrary.

211.274 Item identification and valuation requirements.

211.274-1 General.

Item unique identification and valuation is a system of marking, valuing, and tracking items delivered to DoD that enhances logistics, contracting, and financial business transactions supporting the United States and coalition troops. Through item unique identification policy, which capitalizes on leading practices and embraces open standards, DoD—

(a) Achieves lower life-cycle cost of item management and improves life-cycle property management;

(b) Improves operational readiness;

(c) Provides reliable accountability of property and asset visibility throughout the life cycle;

(d) Reduces the burden on the workforce through increased productivity and efficiency; and

(e) Ensures item level traceability throughout lifecycle to strengthen supply chain integrity, enhance cyber security, and combat counterfeiting.

211.274-2 Policy for item unique identification.

(a) It is DoD policy that DoD item unique identification, or a DoD recognized unique identification equivalent, is required for all delivered items, including items of contractor-acquired property delivered on contract line items (see [PGI 245.402-71](#) for guidance when delivery of contractor acquired property is required)—

(1) For which the Government's unit acquisition cost is \$5,000 or more;

(2) For which the Government's unit acquisition cost is less than \$5,000 when the requiring activity determines that item unique identification is required for mission essential or controlled inventory items; or

(3) Regardless of value for any—

- (v) High risk item identified by the requiring activity as vulnerable to supply chain threat, a target of cyber threats, or counterfeiting.

(b) *Exceptions.* The contractor will not be required to provide DoD item unique identification if—

(1) The items, as determined by the head of the contracting activity, are to be used to support a contingency or humanitarian or peacekeeping operation; to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack; to facilitate the provision of international disaster assistance; or to support response to an emergency or major disaster; or

(2) A determination and findings has been executed concluding that it is more cost effective for the Government requiring activity to assign, mark, and register the unique item identifier after delivery, and the item is either acquired from a small business concern, or is a commercial item acquired under FAR part 12 or part 8.

(i) The determination and findings shall be executed by—

(A) The Component Acquisition Executive for an acquisition category (ACAT) I program; or

(B) The head of the contracting activity for all other programs.

(ii) The DoD Unique Identification Policy Office must receive a copy of the determination and findings required by paragraph (b)(2)(i) of this subsection. Follow the procedures at [PGI 211.274-2](#).

211.274-3 Policy for valuation.

- (3) Property to which the Government has acquired a lien or title solely because of partial, advance, progress, or performance-based payments.

- (6) Property released as work in process.
- (7) Non-serial managed items (reporting is limited to receipt transactions only).

211.274-5 Policy for assignment of Government-assigned serial numbers.

It is DoD policy that contractors apply Government-assigned serial numbers, such as tail numbers/hull numbers and equipment registration numbers, in human-readable format on major end items when required by law, regulation, or military operational necessity. The latest version of MIL-STD-130, Marking of U.S. Military Property, shall be used for the marking of human-readable information.

See DoD Class Deviation [2013-O0019](#), Commercial Item Omnibus Clause for Acquisitions Using the Standard Procurement System, issued September 25, 2013. This class deviation allows the contracting officer to use the SPS clause logic capability to automatically select the clauses that are applicable to the specific solicitation and contract. The contracting officer shall ensure that the deviation clause is incorporated into these solicitations and contracts because the deviation clause fulfills the statutory requirements on auditing and subcontract clauses applicable to commercial items. The deviation also authorizes adjustments to the deviation clause required by future changes to the clause at 52.212-5 that are published in the FAR. This deviation is effective for five years, or until otherwise rescinded.

SUBPART 215.3—SOURCE SELECTION

(Revised May 30, 2018)

215.300 Scope of subpart.

Contracting officers shall follow the principles and procedures in Director, Defense Procurement and Acquisition Policy memorandum dated April 1, 2016, entitled “[Department of Defense Source Selection Procedures](#),” when conducting negotiated, competitive acquisitions utilizing FAR part 15 procedures. See [PGI 215.300](#).

215.303 Responsibilities.

(b)(2) For high-dollar value and other acquisitions, as prescribed by agency procedures, the source selection authority shall approve a source selection plan before the solicitation is issued. Follow the procedures at [PGI 215.303\(b\)\(2\)](#) for preparation of the source selection plan.

215.304 Evaluation factors and significant subfactors.

(c)(i) In acquisitions that require use of the clause at FAR 52.219-9, Small Business Subcontracting Plan, other than those based on the lowest price technically acceptable source selection process (see FAR 15.101-2), the extent of participation of small businesses to include service-disabled veteran-owned small business concerns, HUBZone small business concerns, small disadvantaged business concerns, and women-owned small business concerns in performance of the contract shall be addressed in source selection. The contracting officer shall evaluate the extent to which offerors identify and commit to small business performance of the contract, whether as a joint venture, teaming arrangement, or subcontractor.

(A) See [PGI 215.304\(c\)\(i\)\(A\)](#) for examples of evaluation factors.

(B) Proposals addressing the extent of small business performance shall be separate from subcontracting plans submitted pursuant to the clause at FAR 52.219-9 and shall be structured to allow for consideration of offers from small businesses.

(C) When an evaluation assesses the extent that small businesses are specifically identified in proposals, the small businesses considered in the evaluation shall be listed in any subcontracting plan submitted pursuant to FAR 52.219-9 to facilitate compliance with [252.219-7003\(e\)](#).

(ii) In accordance with 10 U.S.C. 2436, consider the purchase of capital assets (including machine tools) manufactured in the United States, in source selections for all major defense acquisition programs as defined in 10 U.S.C. 2430.

(iii) See [247.573-2\(c\)](#) for additional evaluation factors required in solicitations for the direct purchase of ocean transportation services.

(iv) In accordance with section 812 of the National Defense Authorization Act for Fiscal Year 2011, consider the manufacturing readiness and manufacturing-readiness processes of potential contractors and subcontractors as a part of the source selection process for major defense acquisition programs.

(v) Include an evaluation factor regarding supply chain risk (see subpart [239.73](#)) when acquiring information technology, whether as a service or as a supply, that is a covered system, is a part of a covered system, or is in support of a covered system, as defined in 239.7301. For additional guidance see PGI 215.304(c)(v).

See DoD Class Deviation [2013-O0018](#), Past Performance Evaluation Thresholds and Reporting Requirements, issued on September 24, 2013, which updates the DoD thresholds for evaluating a contractor's past performance in source selections for competitive acquisitions. This deviation is in effect until incorporated into the DFARS or otherwise rescinded.

215.305 Proposal evaluation.

(a)(2) *Past performance evaluation.*

(A) When a past performance evaluation is required by FAR 15.304, and the solicitation includes the clause at FAR 52.219-8, Utilization of Small Business Concerns, the evaluation factors shall include the past performance of offerors in complying with requirements of that clause. When a past performance evaluation is required by FAR 15.304, and the solicitation includes the clause at FAR 52.219-9, Small Business Subcontracting Plan, the evaluation factors shall include the past performance of offerors in complying with requirements of that clause.

(B) Contracting officers shall consider an offeror's failure to make a good faith effort to comply with its comprehensive subcontracting plan under the Test Program described at [219.702-70](#) as part of the evaluation of the past performance.

215.306 Exchanges with offerors after receipt of proposals.

(c) *Competitive range.*

(1) For acquisitions with an estimated value of \$100 million or more, contracting officers should conduct discussions. Follow the procedures at FAR 15.306 (c) and (d).

215.370 Evaluation factor for employing or subcontracting with members of the Selected Reserve.

215.370-1 Definition.

“Selected Reserve,” as used in this section, is defined in the provision at [252.215-7005](#), Evaluation Factor for Employing or Subcontracting with Members of the Selected Reserve.

215.370-2 Evaluation factor.

In accordance with Section 819 of the National Defense Authorization Act for Fiscal Year 2006 (Pub. L. 109-163), the contracting officer may use an evaluation factor that considers whether an offeror intends to perform the contract using employees or individual subcontractors who are members of the Selected Reserve. See PGI [215.370-2](#) for guidance on use of this evaluation factor.

215.370-3 Solicitation provision and contract clause.

(a) Use the provision at [252.215-7005](#), Evaluation Factor for Employing or Subcontracting with Members of the Selected Reserve, in solicitations that include an evaluation factor considering whether an offeror intends to perform the contract using employees or individual subcontractors who are members of the Selected Reserve.

(b) Use the clause at [252.215-7006](#), Use of Employees or Individual Subcontractors Who are Members of the Selected Reserve, in solicitations that include the provision at [252.215-7005](#). Include the clause in the resultant contract only if the contractor stated in its proposal that it intends to perform the contract using employees or individual subcontractors who are members of the Selected Reserve, and that statement was used as an evaluation factor in the award decision.

215.371 Only one offer.

215.371-1 Policy.

It is DoD policy, if only one offer is received in response to a competitive solicitation—

(a) To take the required actions to promote competition (see [215.371-2](#)); and

(b) To ensure that the price is fair and reasonable (see [215.371-3](#)) and to comply with the statutory requirement for certified cost or pricing data (see FAR 15.403-4).

215.371-2 Promote competition.

Except as provided in sections [215.371-4](#) and [215.371-5](#)—

(a) If only one offer is received when competitive procedures were used and the solicitation allowed fewer than 30 days for receipt of proposals, the contracting officer shall—

(1) Consult with the requiring activity as to whether the requirements document should be revised in order to promote more competition (see FAR 6.502(b) and 11.002); and

(2) Resolicit, allowing an additional period of at least 30 days for receipt of proposals; and

(b) For competitive solicitations in which more than one potential offeror expressed an interest in an acquisition, but only one offer was ultimately received, follow the procedures at [PGI 215.371-2](#).

215.371-3 Fair and reasonable price.

(a) If there was “reasonable expectation... that ...two or more offerors, competing independently, would submit priced offers” but only one offer is received, this circumstance does not constitute adequate price competition unless an official at a level above the contracting officer approves the determination that the price is reasonable (see FAR 15.403-1(c)(1)(ii)).

(b) Except as provided in section [215.371-4](#)(a), if only one offer is received when competitive procedures were used and the solicitation allowed at least 30 days for

Defense Federal Acquisition Regulation Supplement

Part 215—Contracting By Negotiation

receipt of proposals (unless the 30-day requirement is not applicable in accordance with [215.371-4\(a\)\(3\)](#) or has been waived in accordance with section [215.371-5](#)), the contracting officer shall—

(1) Determine through cost or price analysis that the offered price is fair and reasonable and that adequate price competition exists (with approval of the determination at a level above the contracting officer) or another exception to the requirement for certified cost or pricing data applies (see FAR 15.403-1(c) and 15.403-4). In these circumstances, no further cost or pricing data is required; or

(2)(i) Obtain from the offeror cost or pricing data necessary to determine a fair and reasonable price and comply with the requirement for certified cost or pricing data at FAR 15.403-4. For acquisitions that exceed the cost or pricing data threshold, if no exception at FAR 15.403-1(b) applies, the cost or pricing data shall be certified; and

(ii) Enter into negotiations with the offeror as necessary to establish a fair and reasonable price. The negotiated price should not exceed the offered price.

215.371-4 Exceptions.

(a) The requirements at sections [215.371-2](#) do not apply to—

(1) Acquisitions at or below the simplified acquisition threshold;

(2) Acquisitions, as determined by the head of the contracting activity, in support of contingency or humanitarian or peacekeeping operations; to facilitate defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack; to facilitate the provision of international disaster assistance; or to support response to an emergency or major disaster;

(3) Small business set-asides under FAR subpart 19.5, set asides offered and accepted into the 8(a) Program under FAR subpart 19.8, or set-asides under the HUBZone Program (see FAR 19.1305(c)), the Service-Disabled Veteran-Owned Small Business Procurement Program (see FAR 19.1405(c)), or the Women-Owned Small Business Program (see FAR 19.1505(d));

(4) Acquisitions of basic or applied research or development, as specified in FAR 35.016(a), that use a broad agency announcement; or

(5) Acquisitions of architect-engineer services (see FAR 36.601-2).

(b) The applicability of an exception in paragraph (a) of this section does not eliminate the need for the contracting officer to seek maximum practicable competition and to ensure that the price is fair and reasonable.

215.371-5 Waiver.

(a) The head of the contracting activity is authorized to waive the requirement at [215.371-2](#) to resolicit for an additional period of at least 30 days.

(b) This waiver authority cannot be delegated below one level above the contracting officer.

(5) Describe the actions planned to minimize the use of time-and-materials and labor-hour contracts on future acquisitions for the same requirements.

(Removed May 30, 2018)

SUBPART 225.3—CONTRACTS PERFORMED OUTSIDE THE UNITED STATES

(Revised May 30, 2018)

225.301 Contractor personnel in a designated operational area or supporting a diplomatic or consular mission outside the United States.

225.301-1 Scope.

(a) “Performance in a designated operational area,” as used in this section, means performance of a service or construction, as required by the contract. For supply contracts, the term includes services associated with the acquisition of supplies (e.g., installation or maintenance), but does not include production of the supplies or associated overhead functions.

(c) For DoD, this section also applies to all personal services contracts.

225.301-4 Contract clause.

(1) Use the clause at FAR 52.225-19, Contractor Personnel in a Designated Operational Area or Supporting a Diplomatic or Consular Mission Outside the United States, in accordance with the prescription at FAR 25.301-4, except that—

(i) The clause shall also be used in personal services contracts with individuals; and

(ii) The clause shall not be used when all contractor personnel performing outside the United States will be covered by the clause at [252.225-7040](#).

(2) When using the clause at FAR 52.225-19, the contracting officer shall inform the contractor that the Synchronized Predeployment and Operational Tracker (SPOT) is the appropriate automated system to use for the list of contractor personnel required by paragraph (g) of the clause. Information on the SPOT system is available at <https://spot.dmdc.mil> and http://www.acq.osd.mil/log/PS/ctr_mgt_accountability.html.

225.302 Contractors performing private security functions outside the United States.

225.302-6 Contract clause.

Use the clause at [252.225-7039](#), Defense Contractors Performing Private Security Functions Outside the United States, instead of FAR clause 52.225-26, Contractors Performing Private Security Functions Outside the United States, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, when private security functions are to be performed outside the United States in—

(1) Contingency operations;

(3) Other significant military operations (as defined in 32 CFR part 159), designated by the Secretary of Defense, and only upon agreement of the Secretary of Defense and the Secretary of State;

(4) Peace operations, consistent with Joint Publication 3-07.3; or

(5) Other military operations or military exercises, when designated by the Combatant Commander.

225.370 Contracts requiring performance or delivery in a foreign country.

(a) If the acquisition requires the performance of services or delivery of supplies in an area outside the United States, follow the procedures at [PGI 225.370\(a\)](#).

(b) For work performed in Germany, eligibility for logistics support or base privileges of contractor employees is governed by U.S.-German bilateral agreements. Follow the procedures at Army in Europe Regulation 715-9, available at http://www.eur.army.mil/g1/content/CPD/docper/docper_germanyLinks.html under “AE Regs & Resources.”

(c) For work performed in Japan or Korea, see [PGI 225.370\(b\)](#) for information on bilateral agreements and policy relating to contractor employees in Japan or Korea.

(d) For work performed in the U.S. Central Command area of responsibility, follow the procedures for theater business clearance/contract administration delegation instructions at [PGI 225.370\(d\)](#).

225.371 Contractor personnel supporting U.S. Armed Forces deployed outside the United States.

For additional information on contractor personnel supporting U.S. Armed Forces, see [PGI 225.371](#).

(a) This section applies to contracts that involve contractor personnel supporting U.S. Armed Forces deployed outside the United States in—

(1) Contingency operations;

(2) Humanitarian or peacekeeping operations; or

(3) Other military operations or military exercises, when designated by the combatant commander.

(b) Any of the types of operations listed in paragraph (a) of this subsection may include stability operations such as—

(1) Establishment or maintenance of a safe and secure environment; or

(2) Provision of emergency infrastructure reconstruction, humanitarian relief, or essential governmental services (until feasible to transition to local government).

225.371-2 Definition.

“Designated operational area” is defined in the clause at [252.225-7040](#). See [PGI 225.371-2](#) for additional information on designated operational areas.

225.371-3 Government support.

(b) The agency shall provide logistical or security support only when the appropriate agency official, in accordance with agency guidance, determines in coordination with the combatant commander that—

(1) Such Government support is available and is needed to ensure continuation of essential contractor services; and

(2) The contractor cannot obtain adequate support from other sources at a reasonable cost.

(c) The contracting officer shall specify in the solicitation and contract—

(1) Valid terms, approved by the combatant commander, that specify the responsible party, if a party other than the combatant commander is responsible for providing protection to the contractor personnel performing in the designated operational area; and

(2) Any other Government support to be provided, and whether this support will be provided on a reimbursable basis, citing the authority for the reimbursement.

For additional information, see [PGI 225.371-3\(d\)](#).

(e) *Letter of authorization.* Contractor personnel must have a Synchronized Predeployment and Operational Tracker (SPOT)–generated letter of authorization (LOA) signed by the contracting officer in order to process through a deployment center or to travel to, from, or within the designated operational area. The LOA also will identify any additional authorizations, privileges, or Government support that the contractor personnel are entitled to under the contract. For additional information on LOAs, see [PGI 225.371-3\(e\)](#).

225.371-4 Law of war training.

(a) *Basic training.* Basic law of war training is required for all contractor personnel supporting U.S. Armed Forces deployed outside the United States. The basic training normally will be provided through a military-run training center. The contracting officer may authorize the use of an alternate basic training source, provided the servicing DoD legal advisor concurs with the course content. An example of an

(b) For item(s) identified in paragraph (a) of this clause, the Contractor agrees to perform up to the point at which the total amount payable by the Government, including reimbursement in the event of termination of those item(s) for the Government’s convenience, approximates the total amount currently allotted to the contract. The Contractor is not authorized to continue work on those item(s) beyond that point. The Government will not be obligated in any event to reimburse the Contractor in excess of the amount allotted to the contract for those item(s) regardless of anything to the contrary in the clause entitled “Termination for Convenience of the Government.” As used in this clause, the total amount payable by the Government in the event of termination of applicable contract line item(s) for convenience includes costs, profit, and estimated termination settlement costs for those item(s).

(c) Notwithstanding the dates specified in the allotment schedule in paragraph (j) of this clause, the Contractor will notify the Contracting Officer in writing at least ninety days prior to the date when, in the Contractor’s best judgment, the work will reach the point at which the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable item(s). The notification will state (1) the estimated date when that point will be reached and (2) an estimate of additional funding, if any, needed to continue performance of applicable line items up to the next scheduled date for allotment of funds identified in paragraph (j) of this clause, or to a mutually agreed upon substitute date. The notification will also advise the Contracting Officer of the estimated amount of additional funds that will be required for the timely performance of the item(s) funded pursuant to this clause, for a subsequent period as may be specified in the allotment schedule in paragraph (j) of this clause or otherwise agreed to by the parties. If after such notification additional funds are not

allotted by the date identified in the Contractor's notification, or by an agreed substitute date, the Contracting Officer will terminate any item(s) for which additional funds have not been allotted, pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(d) When additional funds are allotted for continued performance of the contract line item(s) identified in paragraph (a) of this clause, the parties will agree as to the period of contract performance which will be covered by the funds. The provisions of paragraphs (b) through (d) of this clause will apply in like manner to the additional allotted funds and agreed substitute date, and the contract will be modified accordingly.

(e) If, solely by reason of failure of the Government to allot additional funds, by the dates indicated below, in amounts sufficient for timely performance of the contract line item(s) identified in paragraph (a) of this clause, the Contractor incurs additional costs or is delayed in the performance of the work under this contract and if additional funds are allotted, an equitable adjustment will be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the item(s), or in the time of delivery, or both. Failure to agree to any such equitable adjustment hereunder will be a dispute concerning a question of fact within the meaning of the clause entitled "Disputes."

(f) The Government may at any time prior to termination allot additional funds for the performance of the contract line item(s) identified in paragraph (a) of this clause.

(g) The termination provisions of this clause do not limit the rights of the Government under the clause entitled "Default." The provisions of this clause are limited to the work and allotment of funds for the contract line item(s) set forth in paragraph (a) of this clause. This clause no longer applies once the contract is fully funded except with regard to the rights or obligations of the parties concerning equitable adjustments negotiated under paragraphs (d) and (e) of this clause.

(h) Nothing in this clause affects the right of the Government to terminate this contract pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(i) Nothing in this clause shall be construed as authorization of voluntary services whose acceptance is otherwise prohibited under 31 U.S.C. 1342.

(j) The parties contemplate that the Government will allot funds to this contract in accordance with the following schedule:
